NOTE 1. Summary of Significant Accounting Policies, Continued

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased

Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than $5,000 and an estimated useful life in excess of two years.

The City has elected not to record infrastructure assets prior to July 1, 2003 as allowed by Governmental Accounting Statement number 34 for phase 3 governments.

As the government constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

Interest incurred during the construction phase of capital assets of enterprise funds is included as part of the capitalized value of the assets constructed. The amount of interest capitalized depends on the specific circumstances.

Land and construction in progress are not depreciated. The other property, plant, equipment, and infrastructure of the primary government are depreciated using the straight line method over the following estimated useful lives:

Building	35 to 50 years
Improvements other than buildings	20 to 30 years
Machinery, equipment, and vehicles	3 to 10 years
Utility systems	10 to 50 years

Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The City has one type of item that qualifies for reporting for reporting in this category which is pension related items reported on the government-wide financial statements. See footnote 17 for more information.

NOTE 1. Summary of Significant Accounting Policies, Continued

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has one type of item that qualifies for reporting in this category which is pension related items reported on the government-wide financial statements. See footnote 17 for more information. The governmental funds report unearned revenues from two sources: advance payments for business licenses and advance payments for gaming licenses. These amounts are deferred and recognized as an inflow of resources in the period that the amounts are earned.

Net position flow assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Fund balance flow assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund balance policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The governing council is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

NOTE 1. Summary of Significant Accounting Policies, Continued

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The city council (council) has by resolution authorized the Mayor, City Manager, and Chief Financial Officer to assign fund balance. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Revenues and Expenditures/Expenses

Program revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

Property taxes

All real property within the City of West Wendover is assigned a parcel number by the Elko County Assessor in accordance with state law, with each parcel being subject to physical reappraisal every five years. A factoring system is used to adjust the appraised value during the years between physical appraisals. The property and its improvements are assessed at 35% of "taxable value" as defined by statute. The amount of tax levied is developed by multiplying the assessed value by the tax rate applicable to the area in which the property is located. The maximum tax rate was established in the State Constitution at $5 per $100 of assessed valuation; however, as a result of legislative action, the tax rate was further limited to $3.64 per $100 as assessed valuation, except in cases of severe financial emergency as defined by NRS 354.705. Taxes on real property are a lien on the property and attach on July 1 of the year for which the taxes are levied.

Taxes may be paid in four installments, the first installment is due on the third Monday of August and the remaining three installments are payable on the first Monday in October, January and March to the Treasurer of Elko County in which the City of West Wendover is located. Penalties are assessed if a taxpayer fails to pay an installment within ten days of the installment due date. After a two year waiting period, if the taxes remain unpaid, a tax deed is issued conveying the property to the County with a lien for back taxes and accumulated charges. Redemption may be made by the owner or such persons as described by statute by paying all back taxes and accumulated penalties, interest and costs before sale.

Taxes on personal property are collected currently. Personal property declarations are mailed out annually by the County and the tax is computed using percentages of taxable values established by the Department of Taxation and the tax rates described above.

NOTE 1. Summary of Significant Accounting Policies, Continued

Compensated absences

Vacation and Sick-leave

The city's policy permits employees to accumulate earned but unused vacation benefits, which are eligible for payment upon separation from government service. The liability for such leave is reported as incurred in the government-wide and proprietary fund financial statements. A liability for those amounts is recorded in the governmental funds only if the liability has matured as a result of employee resignations or retirements.

Per City Policy and Collective Bargaining Agreements, employees earn (accrue) sick leave benefits which they are eligible to receive upon separation of service at a determined percentage based upon total years of service and based upon the required notice of separation.

Proprietary funds operating and non-operating revenues and expenses

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water fund, sewer fund, and garbage/compost facility fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the pension plan's fiduciary net position of the Public Employees' Retirement System of Nevada (PERS) and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1. Summary of Significant Accounting Policies, Continued

Comparative Data

Comparative data shown for the prior year has been extracted from the 2018-2019 financial statements and reclassified where necessary. It has been provided to add comparability but is not considered full disclosure of transactions for 2018-2019. Such information can only be obtained by referring to the audited financial statements for that year.

NOTE 2. Reconciliation of Government-Wide and Fund Financial Statements

The governmental fund balance sheet includes reconciliation between total governmental fund balances and net position of governmental activities as reported in the government-wide statement of net position. This difference primarily results from the long-term economic focus of the statement of net position versus the current financial resources focus of the governmental fund balance sheets. The details of these differences are reported in the reconciliation on as listed in the table of contents.

The governmental fund statement of revenues, expenditures, and changes in fund balance includes a reconciliation between net changes in fund balances-total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. These differences are the result of converting from the current resources measurement focus and modified accrual basis for governmental fund statements to the economic resources measurement focus and full accrual basis used for government-wide statements. The details of these differences are reported in the reconciliation as listed in the table of contents.

NOTE 3. Stewardship, Compliance, and Accountability

Budgets and Budgetary Accounting

The City adheres to the Local Government Budget Act incorporated in Section 354 of the Nevada Revised Statutes. The provision of the Act included the following major procedures to establish the budgetary data which is reflected in these financial statements.

a. On or before April 15, the City Council files a tentative budget with the Nevada Department of Taxation for all funds.

b. Public budget hearings on the tentative budget are held on the third Tuesday of May.

c. On or before June 1, at a public hearing, the City Council indicates changes, if any, to be made to the tentative budget must then be forwarded to the Nevada Department of Taxation for the final review and approval.

d. Formal budgetary integration in the financial records of all funds is employed to enhance management control during the year.

e. Budgets for all funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). All appropriations lapse at year end.

f. Budget amounts within funds, and between funds, may be transferred if amounts do not exceed the original budget. Such transfers must be approved by the budget officer and/or City Council, depending on established criteria. Budget augmentations in excess of original budgetary amounts may only be made with prior approval of the City Council, following a scheduled and noticed public hearing for those funds which have ad valorem taxes allocated as a source of revenue. For all other funds, the City Council must approve the budget augmentation with a majority vote and adopt a resolution providing therefore.

g. The above dates may be adjusted as necessary during legislative years.

h. The budget amounts reflected in the financial statements have been amended from the original amounts in accordance with the approved procedures.

i. In accordance with state statute, actual expenditures may not exceed budgeted appropriations of the various governmental functions (excluding the debt services functions) in the General Fund and total expenditures in other governmental funds. Per NRS 354.626, expenditures over budgeted appropriations are allowed for bond repayments, medium term obligation repayments and long-term contracts expressly authorized by law.

NOTE 4. Cash and Investments

A reconciliation of cash deposits and investments to the government-wide statement of net position as follows:

	Primary Government	Component Unit
Deposits:		
Cash on hand	$ 1,575	$ -
Cash in bank	5,054,608	(1,277,630)
Investments:		
Nevada local government investment pool	1,510,913	1,386,843
Total deposits and investments	$ 6,567,095	$ 109,213
Cash and cash equivalents	$ 5,645,433	$ 109,213
Restricted cash	921,662	-
	$ 6,567,095	$ 109,213

Deposits

Custodial Credit Risk

For deposits this is the risk that in the event of a bank failure, the government's deposit may not be returned. The City does not have a formal policy for custodial credit risk. As of June 30, 2020, $0 of the primary government and component unit's combined bank balance of $3,796,753 was exposed to custodial credit risk because it was either fully insured by FDIC insurance or collateralized by a pledging financial institution.

Investments

The Nevada State Treasurer's Office operates the Local Government Investment Pool (LGIP). The LGIP is an external investment pool operated by the Nevada Public Treasurer.

The LGIP is not registered with the SEC as an investment company. Deposits in the LGIP are not insured or otherwise guaranteed by the State of Nevada, and participants share proportionally in any realized gain or losses on investments.

The provisions of State Law (NRS 355.170) govern the investment of public funds as noted in Footnote 1.

NOTE 4. Cash and Investments, Continued

As of June 30, 2020 the government had the following investments:

Investment Type	Primary Government Fair Value	Component Unit Fair Value	Rating (1)	Weighted Average Maturity (2)
Nevada Local Government Pooled Investment Fund	$ 1,510,913	$ 1,386,843	N/A	130
Total Fair Value	$ 1,510,913	$ 1,386,843		

(1) Ratings are provided where applicable to indicate associated Credit Risk. N/A indicates not applicable.

(2) Interest Rate Risk is estimated using the weighted average days to maturity.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The City has the following recurring fair value measurements as of June 30, 2020:

- Nevada Local Government's Investment Pool (LGIP):

	Primary Government	Component Unit
Level 1 inputs	$ 376,368	$ 345,463
Level 2 inputs	1,134,545	1,041,380
Total LGIP investment	$ 1,510,913	$ 1,386,843

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The City's policy for managing its exposure to fair value loss arising from increasing interest rates is to comply with the provisions of State law (NRS 355.170).

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The primary government and component unit's policy for reducing its exposure to credit risk is to limit its investments to the Nevada Local Government Investment Pool and to comply with State Law (NRS 355.170). The Nevada Local Government Investment Pool is unrated.

Concentration of Credit Risk

The Primary Government and the Component Unit place no limit on the amount the Primary Government or the Component Unit may invest in any one issue.

NOTE 4. Cash and Investments, Continued

Cash Restricted for Special Uses

The primary government and the component unit maintain restricted cash to comply with various legal and contractual requirements. Amounts restricted are as follows at June 30, 2020:

Restricted cash footnote

Medium Term Sales Tax Revenue Bond Reserves	$	313,500
Waste Water Treatment Plant Revenue Bond Reserves		98,991
Water Revenue Bonds, Series 2015 Bond Reserves		15,120
Water Rev Bonds Series 2015 - Asset Replacement		114,536
AB198 Capital Replacement Projects Fund		379,075
Unutilized Regional Transportation Commission Funds		440
Total restricted cash - primary government	$	921,662

NOTE 5. Receivables / Due from other Governments

Receivables in the governmental funds consist principally of room and franchise taxes due various businesses. Amounts due from other governments consist primarily of taxes due from the State of Nevada and grant revenues due from various granting agencies. All receivables and amounts due from other governments are considered by management to be fully collectible and therefore, no allowance for doubtful accounts is necessary.

Receivables in the proprietary funds represent service billings to customers and are shown net of an allowance for doubtful accounts. The allowance for doubtful accounts is estimated based on professional judgement and historical information. The allowances for doubtful accounts at June 30, 2020 were as follows:

Water Fund	$	-
Sewer Fund		-
Garbage/Compost Fund		-
Johnson Springs		-
	$	-

NOTE 6. Capital Assets

Governmental capital asset activity for the year ended June 30, 2020 was as follows:

Governmental Activities:	Balance 6/30/19	Additions	Deletions	Balance 6/30/20
Capital assets, not being depreciated:				
Land	$ 1,467,431	$ -	$ -	$ 1,467,431
Construction in progress	64,815	122,505	-	187,320
Total capital assets, not being depreciated	1,532,246	122,505	-	1,654,751
Capital assets, being depreciated:				
Buildings	11,271,605	-	(112,035)	11,159,570
Other improvements	14,321,856	-	(6,500)	14,315,356
Machinery and equipment	3,724,319	73,274	(803,994)	2,993,599
Total capital assets, being depreciated	29,317,780	73,274	(922,529)	28,468,525
Less accumulated depreciation for:				
Buildings	(3,323,177)	(274,808)	74,850	(3,523,135)
Other improvements	(3,892,518)	(526,915)	6,482	(4,412,951)
Machinery and equipment	(3,362,935)	(203,988)	803,417	(2,763,506)
Total accumulated depreciation	(10,578,630)	(1,005,711)	884,749	(10,699,592)
Total capital assets, being depreciated, net	18,739,150	(932,437)	(37,780)	17,768,933
Governmental activities capital assets, net	$ 20,271,396	$ (809,932)	$ (37,780)	$ 19,423,684

Depreciation expense was charged to the functions/programs of the City as follows:

Governmental Activities:	
General government	$ 561,622
Judicial	6,690
Public safety	159,285
Public works	1,581
Health and sanitation	22,803
Culture and recreation	94,862
Community support	1,194
Streets and highways	157,674
Total depreciation expense - governmental activities	$ 1,005,711

NOTE 6. Capital Assets, Continued

Business-type capital asset activity for the year ended June 30, 2020 was as follows:

Business-Type Activities:	Balance 6/30/19	Additions	Deletions	Balance 6/30/20
Capital assets not being depreciated:				
Land	$ 111,000	$ -	$ -	$ 111,000
Total capital assets, not being depreciated	111,000	-	-	111,000
Capital assets being depreciated:				
Buildings	3,979,994	-	-	3,979,994
Other improvements	6,207,454	8,382	-	6,215,836
Machinery and equipment	4,453,176	582,938	(399,648)	4,636,466
Utility systems	18,035,585	10,676	-	18,046,261
Total capital assets, being depreciated	32,676,209	601,996	(399,648)	32,878,557
Less accumulated depreciation for:				
Buildings	(539,646)	(99,499)	-	(639,145)
Other improvements	(3,634,941)	(221,622)	-	(3,856,563)
Machinery and equipment	(3,759,800)	(214,862)	399,060	(3,575,602)
Utility systems	(6,562,430)	(538,455)	-	(7,100,885)

NOTE 7. Long-Term Liabilities

The following is a summary of long-term liabilities for the year ended June 30, 2020:

Long-Term Debt	Date of Issue	Interest Rate	Orriginal Amount of Issue	June 30, 2019	Additions	Retirements	June 30, 2020	Current Portion
Governmental Activities								
Direct Placement Bonds Payable:								
Medium Term Sales Tax Revenue Bond, Seriers 2009 (City Hall)	8/18/2009	4.38%	5,225,000	$ 4,184,783	$ -	$ (133,239)	$ 4,051,544	$ 138,918
General Obligation Medium-Term Bonds, Series 2015	7/14/2015	2.26%	2,200,000	1,567,000	-	(225,000)	1,342,000	233,000
Total direct placement bonds payable				5,751,783	-	(358,239)	5,393,544	371,918
Total Bonds Payable				5,751,783	-	(358,239)	5,393,544	371,918
Other Liabilities								
Compensated absences				322,505	208,694	(214,719)	316,480	158,000
Net pension liability				6,940,160	-	(662,869)	6,277,291	-
Total governmental long-term liabilities				$ 13,014,448	$ 208,694	$ (1,235,827)	$ 11,987,315	$ 529,918

For governmental activities, compensated absences and net position liabilities are generally liquidated through the General Fund.

NOTE 7. Long-Term Liabilities, continued

Long-Term Debt	Date of Issue	Interest Rate	Orriginal Amount of Issue	June 30, 2019	Additions	Retirements	June 30, 2020	Current Portion
Business-Type Activities								
Public Offerings Bonds:								
Sewer/Compost Revenue Bonds Series 1999B	8/18/1999	4.50%	1,500,000	$ 102,764	$ -	$ (102,764)	$ -	$ -

NOTE 7. Long-Term Liabilities, Continued

Revenue Bonds

The City has pledged future net revenues from the City's Municipal Water System to repay $2,173,729 and $747,000 in water revenue bonds issued in November 1998 and 2019, respectively, with interest rates of 2.16% and 2.63%, respectively. Proceeds from the bonds provided financing to pay for the cost to acquire, improve, construct, equip, operate, and maintain a water project for the City. The bonds are payable solely from net revenues from the Municipal Water System and are payable through 2039 and 2056.

The City has pledged future net revenues from the City's Sewer Facility to repay $2,637,000 in sewer revenue bonds issued in June 2012 with an interest rate of 2.75%. Proceeds from the bonds provided financing for the construction of a new sewer facility. The bonds are payable solely from future net revenues from the Sewer Facility and are payable through 2052.

The following schedules reflect debt service requirements to maturity of the City's debt as of June 30, 2020:

	Governmental Activities		Business-Type Activities			
Year Ending	Direct Placement Bonds		Public Offering Bonds		Direct Placement Bonds	
June 30,	Principle	Interest	Principle	Interest	Principle	Interest
2021	$ 371,918	$ 202,278	$ 46,497	$ 62,467	$ 328,482	$ 86,792
2022	386,119	190,721	47,789	61,175	341,527	79,014
2023	401,597	178,695	49,117	59,847	354,960	70,942
2024	356,938	167,280	50,323	58,641	367,403	62,596
2025	371,414	155,228	51,880	57,084	116,992	53,858
2026-2030	1,157,270	625,637	281,689	263,131	625,112	229,140
2031-2034	1,153,723	387,561	323,075	221,746	697,803	156,451
2035-2040	1,194,565	110,953	370,458	174,362	565,765	77,571
2041-2045	-	-	425,004	121,039	107,389	43,811
2046-2050	-	-	487,450	57,370	122,406	28,794
2051-2055	-	-	155,239	3,693	139,522	11,678
2056-2060	-	-	-	-	14,123	136
Total Principal	$ 5,393,544	$ 2,018,353	$ 2,288,521	$ 1,140,555	$ 3,781,484	$ 900,783

The City's outstanding bonds from direct placements of $9,175,028 are secured with pledged revenues. The outstanding issues from direct placement contain provisions that in an event of default, the bonds become taxable and the interest rate on the bonds increases.

The City has no unused lines of credit at June 30, 2020.

NOTE 8. Capital Leases Payable

The government has entered into two lease agreements, which are considered capital leases in accordance with Financial Accounting Standard Board ASC 840-30-25. The two leases are shown in the combined garbage/compost fund. The total amount of equipment capitalized under the leases is $696,378 for the business-type activities. Amortization on capital leases is included in depreciation expense.

The following is an annual schedule of future minimum lease payments with interest rates ranging from 2.36% to 4.2% under the capital leases, together with the present value of the net minimum lease payments:

Year Ending June 30	Business-type Activities
2021	$ 141,432
2022	140,135
2023	192,776
2024	99,024
2025	22,512
Total remaining minimum lease payments	595,879
Less amount representing interest	(38,500)
Present value of net remaining minimum lease payments	$ 557,379

NOTE 9. Segment Information

In previous years, the component unit, Johnson Springs, issued separate revenue bonds to finance its operations. Segment information for Johnson Springs is disclosed below and also in the supplementary information. Segment information for the other proprietary funds is disclosed in the basic financial statements.

	06/30/20
Operating revenues	$ 580,555
Depreciation and amortization	(392,587)
Operating expenses	(416,204)
Operating income/(loss)	(228,236)
Nonoperating revenues and (expenses)	(37,022)
Change in net position	(265,258)
Beginning net position	4,066,112
Ending net position	3,800,854
Net working capital	(2,000,685)
Total assets	6,116,240
Total deferred outflows	23,700
Current liabilities	27,315
Due to primary government	2,158,147
Bonds and other long term debt obligations	129,051
Total deferred inflows	24,573
Net Position	
Net investment in capital assets	3,773,316
Unrestricted	27,538
Total Net Position	$ 3,800,854
Condensed Statement of Cash Flows	
Net cash flows from:	
Operating activities	$ 100,242
Noncapital financing activities	(105,670)
Capital and related financing activities	(77,671)
Investing activities	25,241
Net Increase (decrease)	$ (57,858)
Beginning cash and cash equivalents	167,071
Ending cash and cash equivalents	$ 109,213

NOTE 10. Interfund Receivables, Payables, and Transfers

As of June 30, 2020 interfund receivables and payables that resulted from various interfund transactions for the primary government were as follows:

	Due from Other Funds	Due to Other Funds
General Fund	$ 114,440	$ -
Health Insurance Internal Service Fund	-	80,000
Nonmajor funds:		
Grant Fund	-	34,440
Total	$ 114,440	$ 114,440

As of June 30, 2020, interfund receivables and payables that resulted from transactions between the primary government and the component unit were as follows:

	Due from Component Unit	Due to Primary Government
Water Fund:		
Interest receivable	$ 22,418	$ -
Debt repayment receivable	2,135,729	-
Component Unit		
Interest payable	-	22,418
Debt repayment payable	-	2,135,729
Total	$ 2,158,147	$ 2,158,147

In 1998, the City of West Wendover issued long term debt obligations to complete a water project in behalf of its constituents. The component unit, which benefited from the project, is assisting with the repayment of the revenues bonds issued in the water fund. Hence, there is an interfund balance between the water fund and the component unit, Johnson Springs as shown above.

Interfund transfers for the fiscal year ended June 30, 2020 are as follows:

	Transfers out:		
Transfer in:	General	Non-major Ad Valorem Capital Projects	Total Transfers in
Nonmajor Governmental Funds			
Court Admin Assessment Fund	$ 9,000	$ -	$ 9,000
Welcome Center Fund	110,000	-	110,000
Wendover Will Landmark Fund	20,000	-	20,000
Capital Projects Fund	450,000	49,575	499,575
Total transfers out	$ 589,000	$ 49,575	$ 638,575

NOTE 10. Interfund Receivables, Payables, and Transfers, Continued

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 11. Deferred Compensation Plan

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all full-time employees at their option, permits participants until termination, retirement, death, or unforeseeable emergency.

Plan assets are held and administered by The Hartford. The plan does not meet the definition of a fiduciary fund as defined in GASB 32, and therefore, is not reported in this financial statement.

NOTE 12. Room Taxes

On October 16, 2001, Ordinance 01-20 was passed, increasing room taxes from 10% to 16%. Of this rate, 14% is allocated to the West Wendover Recreation District. Additionally, the Ordinance allows for 1% to be paid to a non-profit entity to promote tourism and recreation throughout the City of West Wendover. At June 30, 2020 this amount was held as restricted in the Recreation Fund.

NOTE 13. Commitments and Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City is party to legal proceedings which normally occur in governmental operations. City officials believe these legal proceedings are not likely to have a material adverse impact on the financial position of the City.

NOTE 14. Available Borrowing Capacity

The lawful general obligation debt limit for city governments is established by State statute not to exceed thirty percent of the total last assessed valuation of the taxable property of the City. At June 30, 2020, the general obligation debt limit and available borrowing capacity of the City of West Wendover was $43,546,411.

NOTE 15. Closure and Post-Closure Care Cost

State and Federal laws and regulations require that the City place a final cover on its landfill sites and perform certain maintenance and monitoring functions at the landfill sites for a minimum of thirty years after closure. In addition to operating expenses related to current activities of the landfill sites, an expense provision and related liability should be recognized based on the future closure and post-closure care costs that will be incurred near or after the date the landfills no longer accepts waste. GASB Statement 18 requires the recognition of these landfill closure and post-closure care costs based on the amount of the landfill used during the year. The City does not report a liability for the estimated closure and post-closure care costs because it has passed a resolution that authorizes participation in the landfill assurance program established through the Nevada Public Agency Insurance Pool as a mechanism to demonstrate financial responsibility for the closure and post-closure care costs. Because the City has, in effect, transferred its responsibility for closure and post-closure care costs to another entity through the purchase of the insurance policy, the liabilities are not reported on the City's financial statements as per GASB 18.

The estimated liability for landfill closure and post-closure care costs under GASB Statement 18 requirements is $602,089 as of June 30, 2020. The City had two cells in operation during fiscal year 2020. The Class I cell has used 100% of available capacity and a new Class I cell was constructed in fiscal year 2016 according to the 2014 Volumetric Survey. The City constructed new cells for operation since 2016, which includes Class III cell, Cell C, Cell B (once fully excavated), and Cell E to be sufficient for an additional 149 months of operation. The estimated closure and post-closure costs are based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, and maintain landfill modules currently in use for all cells in operation during 2020. The City maintained an insurance policy with a face amount of $814,511 at June 30, 2020.

NOTE 16. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years.

The City has chosen to establish a risk financing fund for risks associated with the employee's health insurance plan. The risk financing fund is accounted for as an internal service fund where assets are set aside for claim settlement. A premium is charged to each function which accounts for full-time employees.

Liabilities of funds are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. There were no liabilities that met these criteria at June 30, 2020. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of pay-outs and other economic and social factors.

Changes in the balances of claims liabilities during the past three fiscal years are as follows:

Fiscal Year Ended June 30	Unpaid Claims Beginning of Fiscal Year	Incurred Claims	Claim Payments	Unpaid Claims End of Fiscal Year
2020	$ -	$ 418,723	$ 418,723	$ -
2019	$ -	$ 626,197	$ 626,197	$ -
2018	$ -	$ 651,673	$ 651,673	$ -

NOTE 17. Retirement and Pension Plans

Public Employees' Retirement System of Nevada (PERS)

Plan description

PERS administers a cost-sharing, multiple-employer, defined benefit public employees' retirement system which includes both Regular and Police/Fire members. The System was established by the Nevada Legislature in 1947, effective July 1, 1948. The System is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earnings capacities have been removed or substantially impaired by age or disability. The report is available on the website at https://www.nvpers.org/.

NOTE 17. Retirement and Pension Plans, Continued

Benefits provided

Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering the System on or after January 1, 2010. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Monthly benefit allowances for members are computed as 2.5% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this multiplier is 2.67% of average compensation. For members entering the System on or after January 1, 2010, there is a 2.5% service time factor and for regular members entering the System on or after July 1, 2015, there is a 2.25% factor. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

Post-retirement increases are provided by authority of NRS 286.575 - .579.

Vesting

Regular members entering the System prior to January 1, 2010, are eligible for retirement at age 65 with five years of service, at age 60 with 10 years of service, or at any age with thirty years of service. Regular members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 62 with 10 years of service, or any age with thirty years of service. Regular members who entered the System on or after July 1, 2015, are eligible for retirement at age 65 with 5 years of service, or at age 62 with 10 years of service or at age 55 with 30 years of service or any age with 33 1/3 years of service.

Police/Fire members entering the System prior to January 1, 2010, are eligible for retirement at age 65 with five years of service, at age 55 with ten years of service, at age 50 with twenty years of service, or at any age with twenty-five years of service. Police/Fire members entering the System on or after January 1, 2010, are eligible for retirement at 65 with five years of service, or age 60 with ten years of service, or age 50 with twenty years of service, or at any age with thirty years of service. Only service performed in a position as a police officer or firefighter may be counted towards eligibility for retirement as Police/Fire accredited service.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

NOTE 17. Retirement and Pension Plans, Continued

Contributions

The authority for establishing and amending the obligation to make contributions and member contribution rates is set by statute. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans. In one plan, contributions are shared equally by employer and employee. In the other plan, employees can take a reduced salary and have contributions made by the employer (EPC).

The System's basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due.

The System receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450.

The actuary funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and results in a relatively level long-term contributions requirement as a percentage of salary.

For fiscal years ended June 30, 2019, and 2020, the Statutory Employer/employee matching rate was 14.50% and 15.25% for Regular and 20.75% and 22.00% for Police/Fire.

For the fiscal year ended June 30, 2019, and 2020, the Employer-Pay Contribution (EPC) rate was 28.00% and 29.25% for Regular and 40.50% and 42.50% for Police/Fire.

The City's contributions for the current and two preceding fiscal years, all of which were equal to the required contributions, were as follows:

Year Ended June 30,	Regular Fund	Police/Fire Fund
2018	$ 236,938	$ 342,714
2019	222,775	322,229
2020	249,082	361,914

NOTE 17. Retirement and Pension Plans, Continued

Investment policy

The System's policies which determine the investment portfolio target asset allocation are established by the Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System. The following was the Board adopted policy target asset allocation as of June 30, 2020:

Asset Class	Target Allocation	Long-term Geometric Expected Real Rate of Return*
U.S. stocks	42%	5.50%
International stocks	18%	5.50%
U.S. bonds	28%	0.75%
Private markets	12%	6.65%

*As of June 30, 2019, PERS' long-term inflation assumption was 2.75%.

Pension liability

Net pension liability

At June 30, 2020, the City reported a liability of $7,719,816 for its proportionate share of the PERS' net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer allocation percentage of the net pension liability was based on the total contributions due on wages paid during the measurement period. Each employer's proportion of the net pension liability is based on their combined employer and member contributions relative to the total combined employer and member contributions for all employers for the period ended June 30, 2019. The City's proportion measured as of June 30, 2019, was 0.05661 percent, which was a decrease of 0.00587 percent from its proportion measured as of June 30, 2018.

Pension liability discount rate sensitivity

The following presents the net pension liability of the PERS as of June 30, 2020, calculated using the discount rate of 7.50%, as well as what the PERS net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current discount rate:

	1% Decrease (6.50%)	Discount Rate (7.50%)	1% Increase (8.50%)
Proportionate share of Net pension (asset) / liability	$ 11,953,201	$ 7,719,816	$ 4,200,799

NOTE 17. Retirement and Pension Plans, Continued

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the PERS Comprehensive Annual Financial Report, available on the PERS website www.nvpers.org.

Actuarial assumptions

The City's net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.75%
Investment rate of return	7.50%
Productivity pay increase	0.50%
Projected salary increases	Regular: 4.25% to 9.15%, depending on service Police/Fire: 4.55% to 13.90%, depending on service Rates include inflation and productivity increases
Other assumptions	Same as those used in the June 30, 2019 funding actuarial valuation

Actuarial assumptions used in the June 30, 2019 valuation were based on the results of the experience study for the period July 1, 2012 through June 30, 2016.

The discount rate used to measure the total pension liability was 7.50% as of June 30, 2019. The projection of cash flows used to determine the discount rate assumed plan contributions will be made in amounts consistent with statutory provisions and recognizing the plan's current funding policy and cost-sharing mechanism between employers and members. For this purpose, all contributions that are intended to fund benefits for all plan members and their beneficiaries are included, except that projected contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2019.

Pension expense and deferred outflows/inflows of resources related to pensions

For the year ended June 30, 2020, the City recognized pension expense for PERS of $647,664. At June 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

NOTE 17. Retirement and Pension Plans, Continued

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 289,487	$ 222,670
Changes in assumptions	314,167	-
Net difference between projected and actual earnings on pension plan investments	-	384,036
Subtotal	603,654	606,706
Changes in proportion and differences between contributions and proportional share of contributions	203,073	863,235
Contributions subsequent to the measurement date	610,996	-
Total	$ 1,417,723	$ 1,469,941
Governmental activities	$ 1,152,807	$ 1,195,268
Business-type activities	241,216	250,101
Component unit	23,700	24,573
	$ 1,417,723	$ 1,469,941

Average expected remaining service lives 6.18 years

The $610,996 reported as deferred outflows of resources related to PERS pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to PERS pensions, excluding the changes in proportion and differences between actual contributions and proportionate share of contributions will be recognized in pension expense as follows:

Year Ending June 30,	Deferred Outflows (Inflows) of Resources
2021	$ 21,737
2022	(146,454)
2023	40,235
2024	49,841
2025	28,325
2026	3,264
Thereafter	-

NOTE 18. Bond Refunding

In August 2019, the City issued $2,173,729 of General Obligation (Limited Tax) Water Revenue Bonds Series 2019. The proceeds were used to refund $2,198,816 of outstanding Water Revenue Bonds Series 1998 which had an interest rate of 4.75%. As a result, the Water Revenue Bonds Series 1998 are considered defeased and the liabilities for those bonds have been removed from the statement of net position. The District refunded Water Revenue Bonds Series 1998 to reduce its future debt service payments by $844,399 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of $679,532.

SUPPLEMENTARY INFORMATION

NONMAJOR GOVERNMENTAL FUNDS

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

The **Seizure and Forfeiture Fund** is used to account for seizures and forfeitures received by the City under City Resolution 1992-09, as provided for in NRS 179.1187

The **Court Administrative Assessment Fund** is used to account for fees collected by the court as required by Nevada Revised Statues Section 176.059, which are used to improve the operations of the court.

The **Welcome Center Fund** is used to account for the merchandise sales and operations of the Welcome Center as established under City Resolution 2001-04.

The **Wendover Will Landmark Fund** is used to account for the construction, maintenance, and related revenues and expenditures associated with the Wendover Will Landmark as established by City Resolution 2005-01.

The **Grant Fund** is used to account for various grants receipts and expenditures as outlined in Resolution 1996-14.

Capital project funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds.

The **Capital Projects Fund** is used to account for the acquisition or construction of capital facilities as outlined in Resolution 1997-14.

The **Ad Valorem Capital Projects Fund** is used to account for revenue received from a special ad valorem tax that must be recorded in a capital projects fund and dedicated to capital project needs within the City, as established under NRS 268.045.

The Honorable Mayor and City Council
West Wendover, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of West Wendover, Nevada, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise City of West Wendover, Nevada 's basic financial statements and have issued our report thereon dated November 2, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of West Wendover, Nevada's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of West Wendover, Nevada's internal control. Accordingly, we do not express an opinion on the effectiveness of City of West Wendover, Nevada's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of West Wendover, Nevada's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance
With Statutes and Administrative Code in Accordance
With NRS 354.624(4) and 354.6241

The Honorable Mayor and City Council
West Wendover, NV

We have audited the basic financial statements of the City of West Wendover, Nevada for the year ended June 30, 2020, and have issued our report thereon dated November 2, 2020. Our audit also included test work on the City of West Wendover's compliance with selected requirements identified in the State of Nevada Revised Statutes (NRS) including, but not limited to, NRS section 354.624 and section 354.6241.

The management of the City of West Wendover is responsible for the City's compliance with all requirements identified above. Our responsibility is to express an opinion on compliance with those requirements based on our audit and make specific statements regarding funds established and the status of prior year findings and recommendations; accordingly, we make the following statements:

The City of West Wendover had one prior year compliance finding that was resolved during fiscal year 2020. We noted one new instance of noncompliance during fiscal year 2020. See the accompanying schedule of findings and recommendations.

The City of West Wendover has established several funds in accordance with NRS 354.624 as follows:

Enterprise Funds:
- Water Fund
- Sewer Fund
- Garbage / Compost Facility Fund

Funds whose balance is required to be used only for a specific purpose or carried forward to the succeeding fiscal year in any designated amount:

Special Revenue Funds:
- Seizure Forfeiture Fund
- Recreation Fund
- Court Administrative Assessment Fund
- Medical Clinic Facilities Fund (combined with the General Fund for reporting)
- Grants Fund
- Welcome Center Fund
- Wendover Will Landmark Fund

Capital Projects Funds:
- Capital Projects Fund
- Ad Valorem Capital Projects Fund

The City of West Wendover appears to be using the above listed funds expressly for the purposes for which they were created and in accordance with NRS 354.624. The funds are being administered in accordance with Generally Accepted Accounting Principles and the reserves, as applicable, appear reasonable and necessary to carry out the purposes of the funds. Sources of revenues available and fund balances and net position are reflected in the individual fund financial statements.

The statutory and regulatory requirements of the funds are as follows:

Water Fund:	NRS 354.517
Sewer Fund:	NRS 354.517
Garbage / Compost Facility Fund:	NRS 354.517
Seizure Forfeiture Fund:	Resolution 1992-09
Recreation Fund:	NRS 268.798
Court Administrative Assessment Fund:	NRS 176.059
Grant Fund:	Resolution 1996-14
Welcome Center Fund:	Resolution 2001-04
Wendover Will Landmark Fund	Resolution 2005-01
Capital Projects Fund	Resolution 1997-14
Ad Valorem Capital Projects Fund	NRS 268.045

NRS 354.624 requires that a schedule of all fees imposed by the City which were subject to the provisions of NRS 354.5989 be provided. The City has not increased any fees subject to the limitations provided by NRS 354.5989; however the schedule for these fees immediately follows this report.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, The City of West Wendover, Nevada complied, in all material respects, with the requirements identified above for the year ended June 30, 2020.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with NRS 354.624 and 354.6241. Our finding is described in a separate schedule of findings and recommendations, as item 2020-001. Our opinion on compliance is not modified with respect to this matter.

The purpose of this report is solely to describe the scope of our testing of the applicable compliance requirements identified in the Nevada Revised Statutes (NRS) and the results of that testing based on the state requirements. Accordingly, this report is not suitable for any other purpose.

Findings and Recommendations
For the Fiscal Year Ended June 30, 2020

The Honorable Mayor and
City Council
City of West Wendover, Nevada

Professional standards require that we communicate, in writing; deficiencies in internal control over financial reporting that are considered significant deficiencies or material weaknesses that are identified during the audit of the financial statements. Nevada Revised Statutes (NRS) require us to report instances of noncompliance with laws and regulations. During our audit of the City of West Wendover, Nevada for the fiscal year ended June 30, 2020, we noted several improvements in the City's accounting and budgeting system and we wish to commend the City for their achievements. We also observed a few areas needing corrective action in order for the City to be in compliance with laws and regulations as well as a few areas that, if improved, would strengthen the City's accounting system and control over its assets. These items are discussed below for your consideration.

INTERNAL CONTROL OVER FINANCIAL REPORTING:

Material Weakness:

No items noted

Significant Deficiencies:

No items noted

COMPLIANCE AND OTHER MATTERS:

Compliance:

2020-001 Tentative Budget

Criteria: NRS 354.596 requires that the City submit the tentative budget and notice of hearing to the County Clerk and the Department of Taxation on or before April 15.

Condition: The tentative budget and notice were not submitted until after April 15.

Cause: The City has not designed and implemented controls to ensure compliance with NRS 354.596.

Effect: The City did not comply with NRS 354.596.

Recommendation: We recommend that the City consider procedures to ensure the tentative budget and notice are submitted to the County Clerk and Department of Taxation on or before April 15.

Other Matters:

2019-001 Sewer Fund USDA Debt Covenants

Criteria: The USDA Series 2012 Sewer Bond covenants require certain ratios and metrics be maintained per the bond agreement.

Condition: We noted that the Sewer Fund is out of compliance with USDA debt covenants and required ratios.

Cause: The Sewer Fund did not have enough income from operations to cover the next year's debt service requirement. It appears the City did not follow and update established controls to ensure compliance with the criteria above.

Effect: The City is not in compliance with the bond covenants required by the USDA.

Recommendation: We recommend the City look at ways to increase revenues and reserves or decrease operating expenses in order to become compliant with the USDA debt covenants of the Sewer Bond and to update controls to ensure compliance with the debt covenants.

Responses

Please respond to the above Findings and Recommendations in letter form.

This report is intended solely for the information and use of the City Council, management, and various federal and state agencies and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

It has been a pleasure to be of service to the City this past year. We would like to express special thanks to all those who assisted us so efficiently in this year's audit. We invite you to ask questions of us throughout the year as you feel necessary. We look forward to a continued professional relationship.

Sincerely,

Hinton Burdick, PLLC

RE: Annual Audit Report – Fiscal Year 2020 - Corrective Action Plan

Dear Keri,

As requested by the State of Nevada - Department of Taxation, and in an effort to correct Compliance and Other Matters, per pages 89-90 of the City of West Wendover Financial Statements, the City submits the following:

On December 15, 2020, the audit firm of Hinton Burdick will present the annual audit for fiscal year 2020, and make the Council aware of two findings. As required, staff will present a corrective action plan for each finding to the Council for its approval at that same meeting. Each finding and the plan of corrective action for each finding are outlined below.

Finding number one, 2020-001, addresses a 'Tentative Budget' compliance issue in violation of NRS 354.596 which requires that the tentative budget and notice of hearing be submitted to the County Clerk office on or before April 15. For FY19-20, the tentative budget was not submitted by April 15. This occurred because the City was without a CFO for approximately 6 months before a new CFO was hired. The new CFO worked to catch up on deadlines of numerous outstanding items while also working on the budget. The FY19-20 budget was submitted two days after the deadline. Conversely, in the following year, the FY20-21 budget was submitted on time.

Corrective Action Plan - Staff will work diligently to continue submitting the tentative budget by April 15 each year.

Finding number two, 2019-001, addresses non-compliance on USDA Debt Covenants, specifically the Series 2012 Sewer Bond. The sewer fund is required to have enough income from operations to cover the next year's debt service. On April 7, 2009, the city Council voted to increase sewer fees by 6%, effective July 1, 2009, and by 3% at the beginning of each fiscal year thereafter, until such time the Council felt the automatic increases were no longer necessary. Staff was monitoring the fund but when COVID-19 hit, it had a negative impact on the fund's revenues and net income.

Corrective Action Plan - Staff will continue monitoring the fund and if necessary consider another review of the sewer fees to try and meet the debt service coverage ratio and the current ratio as required in the bond covenants.

Thank you,

Debbie Sanchez

Independent Auditors' Report

The Honorable Mayor and City Council
West Wendover, Nevada

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of West Wendover, Nevada as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of West Wendover, Nevada, as of June 30, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, the schedule of proportionate share of the net pension liability and the schedule of contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of West Wendover, Nevada's basic financial statements. The major fund budgetary comparison schedules, the combining and individual non-major fund budgetary schedules and component unit supplementary schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The major fund budgetary comparison schedules, the combining and individual non-major fund budgetary schedules, and the component unit supplementary schedules as listed in the table of contents, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the major fund budgetary comparison schedules, the combining and individual non-major fund budgetary schedules, and the component unit supplementary schedules as listed in the table of contents, are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 30, 2019, on our consideration of the City of West Wendover, Nevada's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of West Wendover, Nevada's internal control over financial reporting and compliance.

CITY OF WEST WENDOVER, NEVADA
MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of West Wendover (City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2019. Please read it in conjunction with the accompanying basic financial statements.

FINANCIAL HIGHLIGHTS

- Total assets exceed total liabilities (net position) by $26.8 million at the close of the fiscal year.
- Total net position increased by $660 thousand from the prior year.
- Governmental activities net position increased by $475 thousand. Business-type net position increased by $185 thousand.
- Total revenues from all governmental sources were $9.8 million and the total cost of all City programs were $9.3 million
- The General Fund revenues exceeded expenditures, excluding transfers, and debt proceeds by $1.25 million.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was $1,733,797, or 31% of total General Fund expenditures, excluding transfers.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The three components of the financial statements are: (1) Government-wide financial statements which include the Statement of Net Position and the Statement of Activities. These statements provide information about the activities of the City as a whole. (2) Fund financial statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. (3) Notes to the financial statements.

Reporting the City as a Whole

The Statement of Net Position and the Statement of Activities (Government-wide)

A frequently asked question regarding the City's financial health is whether the year's activities contributed positively to the overall financial well-being. The Statement of Net Position and the Statement of Activities report information about the City as a whole and about its activities in a way that helps answer this question. These statements include *all* assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net position and changes in them. Net position, the difference between assets and liabilities, are one way to measure the City's financial health, or financial position. Over time, increases or decreases in net position are an indicator of whether the financial health is improving or deteriorating. However, it is important to consider other non-financial factors such as changes in the City's property tax base or condition of the City's roads to accurately assess the overall health of the City.

The Statement of Net Position and the Statement of Activities, present information about the following:

- Government activities – All of the City's basic services are considered to be governmental activities, including general government, judicial, public safety, community development, health and sanitation, culture and recreation, community support, and interest on long-term debt. Consolidated tax, room tax, ad valorem tax, county gaming tax, franchise tax, right of way tolls, motor vehicle tax, and unrestricted investment earnings finance these activities.

- Proprietary activities/Business type activities – The City charges a fee to customers to cover all or most of the cost of the services provided. The City's water, sewer, and garbage / compost systems are reported in this category.

Reporting the City's Most Significant Funds

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds—not the City as a whole. Some funds are required to be established by State law and others are established by City resolution or by bond covenants. However, management establishes many other funds which aid in the management of money for particular purposes or meet legal responsibilities associated with the usage of certain taxes, grants, and other money. The City's two kinds of funds, *governmental* and *proprietary*, use different accounting approaches as explained below.

- *Governmental funds* – Most of the City's basic services are reported in governmental funds. Governmental funds focus on how resources flow in and out with the balances remaining at year-end that are available for spending. These funds are reported using an accounting method called the *modified accrual* accounting method, which measures cash and all other *financial* assets that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the City's general government operations and the basic services it provides. Government fund information shows whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental *activities* (reported in the Statement of Net Position and the Statement of Activities) and governmental *funds* in a reconciliation included with the Basic Financial Statements.

- *Proprietary funds* – The City maintains enterprise and internal service funds under this category. Enterprise funds are used to account for functions presented in the business-type section of the government-wide financial statements. Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government.

Notes to the Financial Statements

Notes to the financial statements are included to provide information that is crucial to the full and complete understanding of the data provided in the financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of the City's financial position. The City's combined assets exceed liabilities by $26.8 million as of June 30, 2019 as shown in the following condensed statement of net position. The City has chosen to account for its water, sewer, and garbage/compost operations in enterprise funds which are shown as Business Activities.

City of West Wendover, Nevada
Statement of Net Position

	Governmental activities		Business-type activities		Combined Total	
Assets	06/30/19	06/30/18	06/30/19	06/30/18	06/30/19	06/30/18

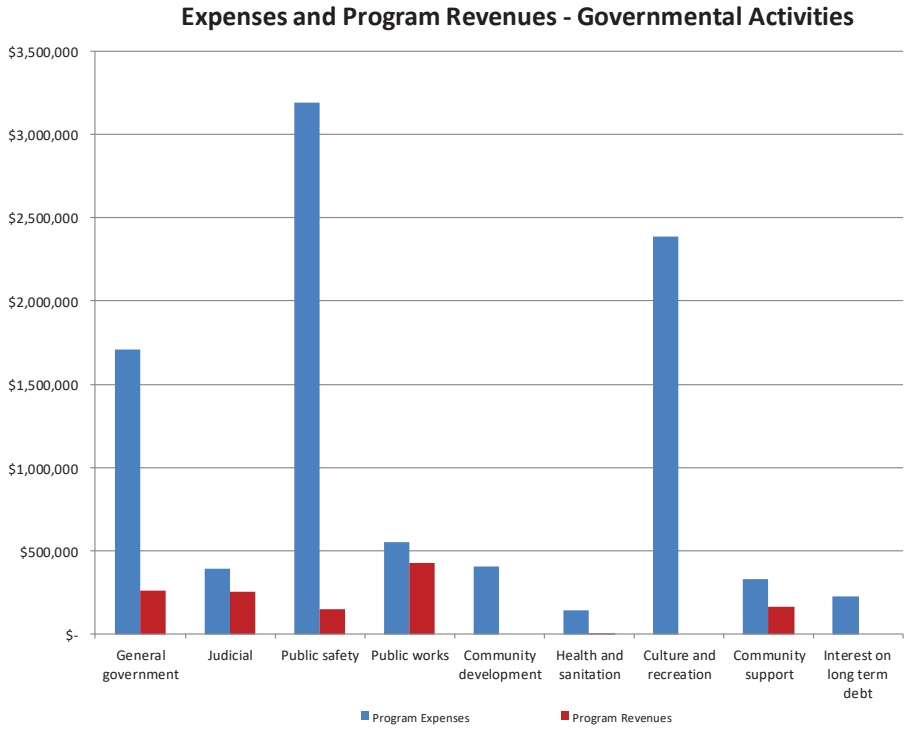
Governmental Activities

The cost of all Governmental activities this year was $9,357,146. As shown on the statement of Changes in Net Position on the following page, $635,428 of this cost was paid for by those who directly benefited from the programs; $630,321 was subsidized by grants received from other governmental organizations for both capital and operating activities. Overall governmental program revenues, including intergovernmental aid and fees for services were $1,265,749. General taxes, asset sales, and other general revenues totaled $8,566,673.



The City's programs include: general government, judicial, public safety, public works, community development, health and sanitation, culture and recreation, community support, and interest on long-term debt. Each programs' total cost is presented below.

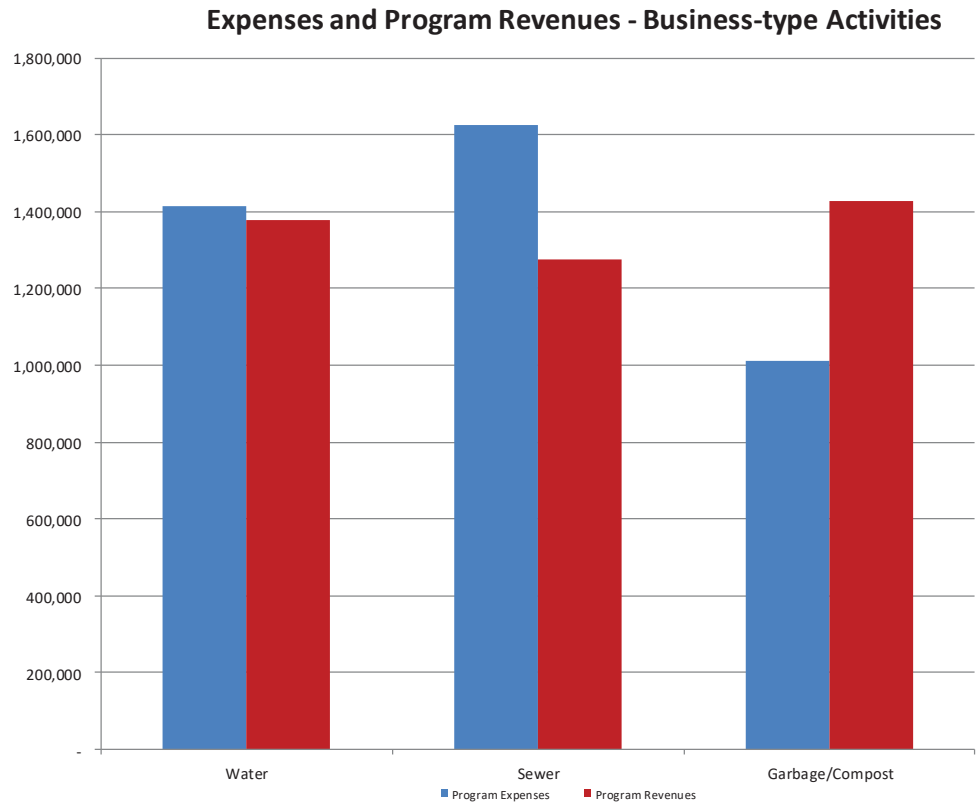
Total resources available during the year to finance governmental operations were $19,829,308 consisting of Net Position at July 1, 2018 of $10 million, program revenues of $1.3 million and General Revenue of $8.6 million. Total cost of Governmental Activities during the year were $9.3 million; thus, Governmental Net Position increased by $475,276 to $10.4 million.



The following graphs compare program expenses to program revenues and provide a breakdown of revenues by source for all government activities. The charts below are derived from the Statement of Activities on page 15.

Business Type Activities

Net position of the Business Type activities at June 30, 2019, as reflected in the Statement of Net Position was $16.3 million. The cost of providing all Proprietary (Business Type) activities this year was $4.0 million. As shown in the Statement of Activities, the amounts paid by users of the system were $3.9 million and $118,910 was subsidized by capital grants and contributions. Unrestricted investment earnings totaled 131,644; other revenue totaled $25,375, thus, net position increased by $185,319.

Financial Analysis of the Government's Funds

As noted earlier, the City of West Wendover uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds: The focus of the City of West Wendover's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of West Wendover's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of West Wendover's governmental funds reported combined ending fund balances of $2,631,350, an increase of $1,012,406 in comparison with the prior year. 67% of the total fund balance or $1,733,797 constitutes unassigned fund balance, which is available for new spending at the government's discretion. The remainder of the fund balance is non-spendable, restricted, or committed because it has already been committed 1) to pay debt service, 2) to pay for capital improvements or 3) for a variety of other restricted or committed purposes.

The general fund is the chief operating fund of the City of West Wendover. At the end of the current fiscal year, unassigned fund balance in the general fund was $1,733,797, and total fund balance is $1,901,261. As a measure of liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Total unassigned fund balance represents 31% of total general fund expenditures. During the year, the City of West Wendover's general fund balance was budgeted to decrease by $31,690

The recreation fund has a fund balance of $134,563, all of which is restricted for culture and recreation appropriation.

Proprietary funds: The City of West Wendover's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Total net position of the proprietary funds was $16,330,331 at year end.

General Fund Budgetary Highlights

Actual expenditures for the General Fund at year-end were $677,876 less than the final budget. The favorable budget to actual variance in appropriations was principally due to overall savings in services and supplies for all departments. Actual revenues were more than the final budget by $236,140.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The capital assets of the City are those assets that are used in performance of City functions including infrastructure assets. Capital Assets include equipment, buildings, land, park facilities and roads. At the end of fiscal year 2019, net capital assets of the government activities totaled $20.3 million and the net capital assets of the business-type activities totaled $18.3 million. Depreciation on governmental-type capital assets is recognized in the Government-Wide financial statements. (See note 6 to the financial statements.)

Long Term Liabilities

At year-end, the City had $13 million in governmental type long term liabilities, and $8.2 million in proprietary long term liabilities. The liabilities amounts to $4,713 per capita (4,498 – 2013 population US Census Bureau Website 2013). The City's net decrease in total long term liabilities was $1.3 million. (See note 7 and 18 to the financial statements for detailed descriptions.)

NEXT YEAR'S BUDGET AND ECONOMIC FACTORS

In considering the City Budget for fiscal year 2019-2020, the City Council and management continue to remain cautious as to the growth of revenues and expenditures especially in the projection of new revenues from marijuana cultivation and production.

The City is in the second year of its Collective Bargaining Agreement with the Police Officers Association, effective July 1, 2018 thru June 30, 2021, which provides for an annual, fiscal-year Merit Bonus of up to two percent (2%) in wages, based on performance evaluations. A two year labor agreement was negotiated with Local 4041, effective July 1, 2019 thru June 30, 2021. It provides for an annual, fiscal-year increase in wages of two percent (2%) for all classifications, with the exception of dispatchers and the lead dispatcher. Dispatcher and lead dispatcher classifications shall have an annual fiscal-year increase of four percent (4%).
Projects that are reflected in the City Budget for the fiscal year 2019-2020 are as follows:

- The largest project reflected in the City Budget for fiscal year 2019-2020 continues to be the City Center/Downtown development with infrastructure costs estimated to be approximately $3.4M. Additionally the acquisition of BLM land surrounding City Hall, to build a new fire station; project total cost for land and fire station facility estimated at $8.9M.
- The City will continue ongoing Street Rehabilitation and Storm Drainage Improvement Projects

Debt Service

- The City paid off a 1998, $1.280M, USDA Sewer/Compost Revenue Bond in August, 2018
- The City paid off a $232,157 lease purchase agreement in December, 2018
- The City also refinanced the 1998, $3.058M, Water Revenue Bond. The refinance gave the City a net present value cash flow savings of $656,760.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, please contact the City's Chief Financial Officer at the City of West Wendover, 1111 N. Gene L. Jones Way, West Wendover, Nevada 89883 or visit us online at http://www.westwendovercity.com

CITY OF WEST WENDOVER, NEVADA
Reconciliation of the Statement of Revenues,
Expenditures, and Changes in Fund Balances of Governmental Funds
To the Statement of Activities
For the Year Ended June 30, 2019

Amounts reported for governmental activities in the statement of activities are different because:		
Net change in fund balances - total governmental funds		$ 1,012,406
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the costs of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period.		
Capital outlay	$ 165,807	
Depreciation expense	(1,019,686)	
		(853,879)
Governmental funds report the gross proceeds from the sale of capital assets as revenue. However, in the statement of activities, the gain/(loss) on the sale of capital assets is reported net of its net book value.		(169,852)
Payments on long term receivables recorded as revenue in the governmental funds are reported as a reduction of receivables in the statement of net position.		(3,471)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.		613,646
Accrued interest for long-term debt is not reported as an expenditure for the current period while it is recorded in the statement of activities. The adjustment reflects the change in interest payable		7,622
Pension contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the net pension liability is measured a year before the City's report date. Pension expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pension, is reported in the Statement of Activities.		
Pension contributions	$ 443,888	
Pension expense	(424,169)	
		19,719
Compensated absences expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. This adjustment reflects the change in compensated absences payable.		(34,551)
The internal service fund is used by management to charge the cost of insurance to the various funds. The net revenue (loss) of the internal service fund is reported with governmental activities.		(108,453)
Change in net position of governmental activities		$ 483,187

The accompanying notes are an integral part of the financial statements.

NOTE 1. Summary of Significant Accounting Policies

Description of government-wide financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

Reporting Entity

The City of West Wendover (government) is a municipal corporation governed by an elected mayor and five-member governing council (council). The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

Discretely presented component units - The Johnson Springs Water System Enterprise Fund (Johnson Springs) was formed by a settlement agreement between the City of West Wendover, Nevada and the City of Wendover, Utah to replace Administrative Authority upon its dissolution (dissolved on December 31, 2008). Johnson Springs has no board. The net assets of the Administrative Authority were transferred to Johnson Springs on January 1, 2009, including the debt of the Administrative Authority that is in the name of the City. It is a separate enterprise fund and is considered a component unit due to the City's responsibility to perform all management, maintenance and accounting duties for the fund.

Basis of presentation – government-wide financial statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As discussed earlier, the city has one discretely presented component units, Johnson Springs, which is considered a major component unit and is shown in separate columns in the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

NOTE 1. Summary of Significant Accounting Policies, Continued

Basis of presentation – fund financial statements

The fund financial statements provide information about the government's funds, including its fiduciary funds and blended component units if any. Separate statements for each fund category—governmental, proprietary, and fiduciary—are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The government reports the following major governmental funds:

The **General Fund** is the government's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

The **Recreation Fund** is used to account for the City's share of room tax proceeds and the distribution of those funds to the recreation district.

The government reports the following major enterprise funds:

The **Water Fund** accounts for the provision of water services to the residents of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operation, maintenance, financing and related debt service and billing and collection.

The **Sewer Fund** accounts for the provision of sewer services to the residents of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operation, maintenance, financing and related debt service and billing and collection.

The **Garbage/Compost Fund** is used to account for the provision of sanitation services to residents of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operation, maintenance, financing and related debt service and billing and collection.

Additionally, the City reports the following fund types:

Health Insurance Internal Service Fund – Internal Service Funds are used to account for the financing of goods and services provided by one department or agency to other departments or agencies of the government and to other government units, on a cost reimbursement basis.

NOTE 1. Summary of Significant Accounting Policies, Continued

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Measurement focus and basis of accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such *as current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement* focus and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement* focus and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

NOTE 1. Summary of Significant Accounting Policies, Continued

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of yearend). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of yearend). All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary funds are reported using the *economic resources measurement* focus and the *accrual basis of accounting*.

Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance

Cash and cash equivalents

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments

Investments for the government are reported at fair value (generally based on quoted market prices). The City of West Wendover invests in the State of Nevada Local Government Investment Pool, which has regulatory oversight from the Board of Finance for the State of Nevada.

State statues authorize the City to invest in obligations of the U.S. Treasury; certain farm loan bonds; certain securities issued by Nevada local governments and other state and local governments; certain repurchase agreements; certain bankers acceptances; certain commercial paper; and certain negotiable certificates of deposits and money market mutual funds, as well as the State of Nevada Local Government Investment Pool.

Inventories and prepaid items

Inventories for the general and proprietary funds are valued at cost using the first-in/first-out (FIFO) method and consist of expendable office supplies, pipe, fittings and miscellaneous automobile parts. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased.

For all other funds, the City of West Wendover charges consumable supplies against appropriations at the time of purchase. Any inventories of such supplies at June 30 are not material to the individual funds and are not recognized in the financial statements.

NOTE 1. Summary of Significant Accounting Policies, Continued

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased

Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than $5,000 and an estimated useful life in excess of two years.

The City has elected not to record infrastructure assets prior to July 1, 2003 as allowed by Governmental Accounting Statement number 34 for phase 3 governments.

As the government constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

Interest incurred during the construction phase of capital assets of enterprise funds is included as part of the capitalized value of the assets constructed. The amount of interest capitalized depends on the specific circumstances.

Land and construction in progress are not depreciated. The other property, plant, equipment, and infrastructure of the primary government are depreciated using the straight line method over the following estimated useful lives:

Building	35 to 50 years
Improvements other than buildings	20 to 30 years
Machinery, equipment, and vehicles	3 to 10 years
Utility systems	10 to 50 years

Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The City has one type of item that qualifies for reporting for reporting in this category which is pension related items reported on the government-wide financial statements. See footnote 17 for more information.

NOTE 1. Summary of Significant Accounting Policies, Continued

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has one type of item that qualifies for reporting in this category which is pension related items reported on the government-wide financial statements. See footnote 17 for more information. The governmental funds report unearned revenues from two sources: advance payments for business licenses and advance payments for gaming licenses. These amounts are deferred and recognized as an inflow of resources in the period that the amounts are earned.

Net position flow assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Fund balance flow assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund balance policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The governing council is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

NOTE 1. Summary of Significant Accounting Policies, Continued

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The city council (council) has by resolution authorized the Mayor, City Manager, and Chief Financial Officer to assign fund balance. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Revenues and Expenditures/Expenses

Program revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

Property taxes

All real property within the City of West Wendover is assigned a parcel number by the Elko County Assessor in accordance with state law, with each parcel being subject to physical reappraisal every five years. A factoring system is used to adjust the appraised value during the years between physical appraisals. The property and its improvements are assessed at 35% of "taxable value" as defined by statute. The amount of tax levied is developed by multiplying the assessed value by the tax rate applicable to the area in which the property is located. The maximum tax rate was established in the State Constitution at $5 per $100 of assessed valuation; however, as a result of legislative action, the tax rate was further limited to $3.64 per $100 as assessed valuation, except in cases of severe financial emergency as defined by NRS 354.705. Taxes on real property are a lien on the property and attach on July 1 of the year for which the taxes are levied.

Taxes may be paid in four installments, the first installment is due on the third Monday of August and the remaining three installments are payable on the first Monday in October, January and March to the Treasurer of Elko County in which the City of West Wendover is located. Penalties are assessed if a taxpayer fails to pay an installment within ten days of the installment due date. After a two year waiting period, if the taxes remain unpaid, a tax deed is issued conveying the property to the County with a lien for back taxes and accumulated charges. Redemption may be made by the owner or such persons as described by statute by paying all back taxes and accumulated penalties, interest and costs before sale.

Taxes on personal property are collected currently. Personal property declarations are mailed out annually by the County and the tax is computed using percentages of taxable values established by the Department of Taxation and the tax rates described above.

NOTE 1. Summary of Significant Accounting Policies, Continued

Compensated absences

Vacation and Sick-leave

The city's policy permits employees to accumulate earned but unused vacation benefits, which are eligible for payment upon separation from government service. The liability for such leave is reported as incurred in the government-wide and proprietary fund financial statements. A liability for those amounts is recorded in the governmental funds only if the liability has matured as a result of employee resignations or retirements.

Per City Policy and Collective Bargaining Agreements, employees earn (accrue) sick leave benefits which they are eligible to receive upon separation of service at a determined percentage based upon total years of service and based upon the required notice of separation.

Proprietary funds operating and non-operating revenues and expenses

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water fund, sewer fund, and garbage/compost facility fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the pension plan's fiduciary net position of the Public Employees' Retirement System of Nevada (PERS) and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1. Summary of Significant Accounting Policies, Continued

Comparative Data

Comparative data shown for the prior year has been extracted from the 2017-2018 financial statements and reclassified where necessary. It has been provided to add comparability but is not considered full disclosure of transactions for 2017-2018. Such information can only be obtained by referring to the audited financial statements for that year.

NOTE 2. Reconciliation of Government-Wide and Fund Financial Statements

The governmental fund balance sheet includes reconciliation between total governmental fund balances and net position of governmental activities as reported in the government-wide statement of net position. This difference primarily results from the long-term economic focus of the statement of net position versus the current financial resources focus of the governmental fund balance sheets. The details of these differences are reported in the reconciliation on as listed in the table of contents.

The governmental fund statement of revenues, expenditures, and changes in fund balance includes a reconciliation between net changes in fund balances-total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. These differences are the result of converting from the current resources measurement focus and modified accrual basis for governmental fund statements to the economic resources measurement focus and full accrual basis used for government-wide statements. The details of these differences are reported in the reconciliation as listed in the table of contents.

NOTE 3. Stewardship, Compliance, and Accountability

Budgets and Budgetary Accounting

The City adheres to the Local Government Budget Act incorporated in Section 354 of the Nevada Revised Statutes. The provision of the Act included the following major procedures to establish the budgetary data which is reflected in these financial statements.

a. On or before April 15, the City Council files a tentative budget with the Nevada Department of Taxation for all funds.

b. Public budget hearings on the tentative budget are held on the third Tuesday of May.

c. On or before June 1, at a public hearing, the City Council indicates changes, if any, to be made to the tentative budget must then be forwarded to the Nevada Department of Taxation for the final review and approval.

d. Formal budgetary integration in the financial records of all funds is employed to enhance management control during the year.

e. Budgets for all funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). All appropriations lapse at year end.

f. Budget amounts within funds, and between funds, may be transferred if amounts do not exceed the original budget. Such transfers must be approved by the budget officer and/or City Council, depending on established criteria. Budget augmentations in excess of original budgetary amounts may only be made with prior approval of the City Council, following a scheduled and noticed public hearing for those funds which have ad valorem taxes allocated as a source of revenue. For all other funds, the City Council must approve the budget augmentation with a majority vote and adopt a resolution providing therefore.

g. The above dates may be adjusted as necessary during legislative years.

h. The budget amounts reflected in the financial statements have been amended from the original amounts in accordance with the approved procedures.

i. In accordance with state statute, actual expenditures may not exceed budgeted appropriations of the various governmental functions (excluding the debt services functions) in the General Fund and total expenditures in other governmental funds. Per NRS 354.626, expenditures over budgeted appropriations are allowed for bond repayments, medium term obligation repayments and long-term contracts expressly authorized by law.

Expenditures over Appropriations – Deficit Fund Balances

No funds incurred deficit fund balances for fiscal year 2019. The individual Schedule of Revenues, Expenditures and Changes in Net Position – Budget and Actual report on page 68 shows that the Court Administration Assessments Fund incurred an excess of expenditures over appropriations for the year ended June 30, 2019 by ($687).

NOTE 4. Cash and Investments

A reconciliation of cash deposits and investments to the government-wide statement of net position as follows:

	Primary Government	Component Unit
Deposits:		
Cash on hand	$ 1,575	$ -
Cash in bank	3,956,409	(1,194,530)
Investments:		
Nevada local government investment pool	1,483,414	1,361,602
Total deposits and investments	$ 5,441,398	$ 167,071
Cash and cash equivalents	$ 4,179,875	$ 167,071
Restricted cash	1,261,522	-
	$ 5,441,398	$ 167,071

Deposits

Custodial Credit Risk

For deposits this is the risk that in the event of a bank failure, the government's deposit may not be returned. The City does not have a formal policy for custodial credit risk. As of June 30, 2018, $0 of the primary government and component unit's combined bank balance of $2,800,497 was exposed to custodial credit risk because it was either fully insured by FDIC insurance or collateralized by a pledging financial institution.

Investments

The Nevada State Treasurer's Office operates the Local Government Investment Pool (LGIP). The LGIP is an external investment pool operated by the Nevada Public Treasurer.

The LGIP is not registered with the SEC as an investment company. Deposits in the LGIP are not insured or otherwise guaranteed by the State of Nevada, and participants share proportionally in any realized gain or losses on investments.

The provisions of State Law (NRS 355.170) govern the investment of public funds as noted in Footnote 1.

NOTE 4. Cash and Investments, Continued

As of June 30, 2019 the government had the following investments:

Investment Type	Primary Government Fair Value	Component Unit Fair Value	Rating (1)	Weighted Average Maturity (2)
Nevada Local Government Pooled Investment Fund	$ 1,483,414	$ 1,361,602	N/A	116
Total Fair Value	$ 1,483,414	$ 1,361,602		

(1) Ratings are provided where applicable to indicate associated Credit Risk. N/A indicates not applicable.

(2) Interest Rate Risk is estimated using the weighted average days to maturity.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The City has the following recurring fair value measurements as of June 30, 2019:

- Nevada Local Government's Investment Pool (LGIP):

	Primary Government	Component Unit
Level 1 inputs	$ 273,393	$ 250,943
Level 2 inputs	1,210,021	1,110,658
Total LGIP investment	$ 1,483,414	$ 1,361,602

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The City's policy for managing its exposure to fair value loss arising from increasing interest rates is to comply with the provisions of State law (NRS 355.170).

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The primary government and component unit's policy for reducing its exposure to credit risk is to limit its investments to the Nevada Local Government Investment Pool and to comply with State Law (NRS 355.170). The Nevada Local Government Investment Pool is unrated.

Concentration of Credit Risk

The Primary Government and the Component Unit place no limit on the amount the Primary Government or the Component Unit may invest in any one issue.

NOTE 4. Cash and Investments, Continued

Cash Restricted for Special Uses

The primary government and the component unit maintain restricted cash to comply with various legal and contractual requirements. Amounts restricted are as follows at June 30, 2019:

Restricted cash footnote

Medium Term Sales Tax Revenue Bond Reserves	$	308,275
Sewer/Compost Revenue Bond Series 1999B Bond Reserves		115,320
Sewer/Compost Revenue Bond Series 1999A Bond Reserves		41,515
Closure / post closure trust funds		67,952
Waste Water Treatment Plant Revenue Bond Reserves		88,095
1998 Water Revenue Bond Reserves		173,712
Water Revenue Bonds, Series 2015 Bond Reserves		12,096
Water Rev Bonds Series 2015 - Asset Replacement		114,536
AB198 Capital Replacement Projects Fund		339,581
Unutilized Regional Transportation Commission Funds		440
Total restricted cash - primary government	$	1,261,522

NOTE 5. Receivables / Due from other Governments

Receivables in the governmental funds consist principally of room and franchise taxes due various businesses. Amounts due from other governments consist primarily of taxes due from the State of Nevada and grant revenues due from various granting agencies. All receivables and amounts due from other governments are considered by management to be fully collectible and therefore, no allowance for doubtful accounts is necessary.

Receivables in the proprietary funds represent service billings to customers and are shown net of an allowance for doubtful accounts. The allowance for doubtful accounts is estimated based on professional judgement and historical information. The allowances for doubtful accounts at June 30, 2019 were as follows:

Water Fund	$	-
Sewer Fund		-
Garbage/Compost Fund		71
Johnson Springs		-
	$	71

NOTE 6. Capital Assets

Governmental capital asset activity for the year ended June 30, 2019 was as follows:

Governmental Activities:	Balance 6/30/18	Additions	Deletions	Balance 6/30/19
Capital assets, not being depreciated:				
Land	$ 1,637,283	$ -	$ (169,852)	$ 1,467,431
Construction in progress	-	64,815	-	64,815
Total capital assets, not being depreciated	1,637,283	64,815	(169,852)	1,532,246
Capital assets, being depreciated:				
Buildings	11,271,605	-	-	11,271,605

NOTE 7. Long-Term Liabilities, Continued

Revenue Bonds

The City has pledged future net revenues from the City's Municipal Water System to repay $3,058,300 and $747,000 in water revenue bonds issued in November 1998 and 2016, respectively, with interest rates of 4.75% and 2.63%, respectively. Proceeds from the bonds provided financing to pay for the cost to acquire, improve, construct, equip, operate, and maintain a water project for the City. The bonds are payable solely from net revenues from the Municipal Water System and are payable through 2038 and 2055.

The City has pledged future net revenues from the City's Compost Facility to repay $1,280,000 and $2,040,000 in sewer/compost revenue bonds issued in November 1998 and August 1999 with interest rates of 4.75% and 4.5%, respectively. Proceeds from the bonds provided financing for the development and construction of a compost facility. The bonds are payable solely from future net revenues from the Compost Facility and are payable through 2019.

The City has pledged future net revenues from the City's Sewer Facility to repay $2,637,000 in sewer revenue bonds issued in June 2012 with an interest rate of 2.75%. Proceeds from the bonds provided financing for the construction of a new sewer facility. The bonds are payable solely from future net revenues from the Sewer Facility and are payable through 2052.

The following schedules reflect debt service requirements to maturity of the City's debt as of June 30, 2019:

	Governmental Activities		Business-Type Activities			
Year Ending	Direct Placement Bonds		Public Offering Bonds		Direct Placement Bonds	
June 30,	Principle	Interest	Principle	Interest	Principle	Interest
2020	$ 357,507	$ 213,865	$ 184,836	$ 75,282	$ 293,405	$ 151,806
2021	371,918	202,278	46,497	62,467	306,028	143,009
2022	386,119	190,721	47,789	61,175	319,767	133,875
2023	401,597	178,695	49,117	59,847	334,675	124,329
2024	356,938	167,280	50,323	58,641	348,716	114,383
2025-2029	1,322,921	673,128	274,074	270,746	546,935	472,820
2030-2033	1,124,502	442,907	314,341	230,480	681,200	338,558
2034-2039	1,378,169	163,206	360,523	184,297	835,962	170,425
2040-2044	52,112	138	413,435	131,385	104,589	46,611
2045-2049	-	-	474,272	71,771	119,244	31,956
2050-2054	-	-	258,808	9,746	135,919	15,281
2055-2059	-	-	-	-	43,566	991
Total Principal	$ 5,751,783	$ 2,232,218	$ 2,474,015	$ 1,215,837	$ 4,070,006	$ 1,744,044

NOTE 7. Long-Term Liabilities, Continued

The City's outstanding bonds from direct placements of $9,821,791 are secured with pledged revenues. The outstanding issues from direct placement contain provisions that in an event of default, the bonds become taxable and the interest rate on the bonds increases.

The City has no unused lines of credit at June 30, 2019.

NOTE 8. Capital Leases Payable

The government has entered into two lease agreements, which are considered capital leases in accordance with Financial Accounting Standard Board ASC 840-30-25. The two leases are shown in the combined garbage/compost fund. The total amount of equipment capitalized under the leases is $463,545 for the business-type activities. Amortization on capital leases is included in depreciation expense.

The following is an annual schedule of future minimum lease payments with interest rates ranging from 1.88% to 4.2% under the capital leases, together with the present value of the net minimum lease payments:

Year Ending June 30	Governmental Activities	Business-type Activities
2020	$ -	$ 43,654
2021	-	42,408
2022	-	41,111
2023	-	61,940
2024	-	-
Total remaining minimum lease payments	-	189,113
Less amount representing interest	-	(20,307)
Present value of net remaining minimum lease payments	$ -	$ 168,806

NOTE 9. Segment Information

In previous years, the component unit, Johnson Springs, issued separate revenue bonds to finance its operations. Segment information for Johnson Springs is disclosed below and also in the supplementary information. Segment information for the other proprietary funds is disclosed in the basic financial statements.

	06/30/19
Operating revenues	$ 687,579
Depreciation and amortization	(383,516)
Operating expenses	(428,279)
Operating income/(loss)	(124,216)
Nonoperating revenues and (expenses)	(74,481)
Change in net position	(198,697)
Beginning net position	4,264,809
Ending net position	4,066,112
Capital asset additions, including capitalized interest	-
Net working capital	(2,094,409)
Total assets	6,552,759
Total deferred outflows	30,417
Current liabilities	66,023
Due to primary government	2,268,160
Bonds and other long term debt obligations	167,949
Total deferred inflows	14,932
Net Position	
Net investment in capital assets	4,044,825
Unrestricted	21,287
Total Net Position	$ 4,066,112
Condensed Statement of Cash Flows	
Net cash flows from:	
Operating activities	$ 260,916
Noncapital financing activities	(68,068)
Capital and related financing activities	(172,488)
Investing activities	31,687
Net Increase (decrease)	$ 52,047
Beginning cash and cash equivalents	115,024
Ending cash and cash equivalents	$ 167,071

NOTE 10. Interfund Receivables, Payables, and Transfers

As of June 30, 2019 interfund receivables and payables that resulted from various interfund transactions for the primary government were as follows:

	Due from Other Funds	Due to Other Funds
General Fund	$ 160,000	$ -
Health Insurance Internal Service Fund	-	160,000
Total	$ 160,000	$ 160,000

As of June 30, 2019, interfund receivables and payables that resulted from transactions between the primary government and the component unit were as follows:

	Due from Component Unit	Due to Primary Government
Water Fund:		
Interest receivable	$ 69,343	$ -
Debt repayment receivable	2,198,817	-
Component Unit		
Interest payable	-	69,343
Debt repayment payable	-	2,198,817
Total	$ 2,268,160	$ 2,268,160

In 1998, the City of West Wendover issued long term debt obligations to complete a water project in behalf of its constituents. The component unit, which benefited from the project, is assisting with the repayment of the revenues bonds issued in the water fund. Hence, there is an interfund balance between the water fund and the component unit, Johnson Springs as shown above.

Interfund transfers for the fiscal year ended June 30, 2019 are as follows:

	Transfers out:		
Transfer in:	General	Non-major Ad Valorem Capital Projects	Total Transfers in
Nonmajor Governmental Funds			
Welcome Center Fund	$ 177,000	$ -	$ 177,000
Wendover Will Landmark Fund	24,500	-	24,500
Capital Projects Fund	200,000	50,000	250,000
Total transfers out	$ 401,500	$ 50,000	$ 451,500

NOTE 10. Interfund Receivables, Payables, and Transfers, Continued

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 11. Deferred Compensation Plan

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all full-time employees at their option, permits participants until termination, retirement, death, or unforeseeable emergency.

Plan assets are held and administered by The Hartford. The plan does not meet the definition of a fiduciary fund as defined in GASB 32, and therefore, is not reported in this financial statement.

NOTE 12. Room Taxes

On October 16, 2001, Ordinance 01-20 was passed, increasing room taxes from 10% to 16%. Of this rate, 14% is allocated to the West Wendover Recreation District. Additionally, the Ordinance allows for 1% to be paid to a non-profit entity to promote tourism and recreation throughout the City of West Wendover. At June 30, 2019 this amount was held as restricted in the Recreation Fund.

NOTE 13. Commitments and Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City is party to legal proceedings which normally occur in governmental operations. City officials believe these legal proceedings are not likely to have a material adverse impact on the financial position of the City.

NOTE 14. Available Borrowing Capacity

The lawful general obligation debt limit for city governments is established by State statute not to exceed thirty percent of the total last assessed valuation of the taxable property of the City. At June 30, 2019, the general obligation debt limit and available borrowing capacity of the City of West Wendover was $42,243,869.

NOTE 15. Closure and Post-Closure Care Cost

State and Federal laws and regulations require that the City place a final cover on its landfill sites and perform certain maintenance and monitoring functions at the landfill sites for a minimum of thirty years after closure. In addition to operating expenses related to current activities of the landfill sites, an expense provision and related liability should be recognized based on the future closure and post-closure care costs that will be incurred near or after the date the landfills no longer accepts waste. GASB Statement 18 requires the recognition of these landfill closure and post-closure care costs based on the amount of the landfill used during the year. The City does not report a liability for the estimated closure and post-closure care costs because it has passed a resolution that authorizes participation in the landfill assurance program established through the Nevada Public Agency Insurance Pool as a mechanism to demonstrate financial responsibility for the closure and post-closure care costs. Because the City has, in effect, transferred its responsibility for closure and post-closure care costs to another entity through the purchase of the insurance policy, the liabilities are not reported on the City's financial statements as per GASB 18.

The estimated liability for landfill closure and post-closure care costs under GASB Statement 18 requirements is $591,519 as of June 30, 2019. The City had two cells in operation during fiscal year 2019. The Class I cell has used 100% of available capacity and a new Class I cell was constructed in fiscal year 2016 according to the 2014 Volumetric Survey. The City constructed new cells for operation since 2016, which includes Class III cell, Cell C, Cell B (once fully excavated), and Cell E to be sufficient for an additional 149 months of operation. The estimated closure and post-closure costs are based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, and maintain landfill modules currently in use for all cells in operation during 2019. The City maintained an insurance policy with a face amount of $520,579 at June 30, 2019. The financial assurance shortfall between the insurance policy face amount and the estimated closure and post-closure care costs will need to be covered by the City using one of the allowable mechanisms found at NAC 444.68525. For fiscal year 2019, the shortfall is deemed to be covered by cash and investments on hand in the garbage/compost fund at year end. The City has set aside $67,953 in restricted cash to potentially fund a trust account as listed in note 4. The City plans to work with the Nevada Department of Environmental Protection to officially select and implement an allowable mechanism found at NAC 444.68525 during fiscal year 2020 to address the shortfall in coverage.

NOTE 16. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years.

The City has chosen to establish a risk financing fund for risks associated with the employee's health insurance plan. The risk financing fund is accounted for as an internal service fund where assets are set aside for claim settlement. A premium is charged to each function which accounts for full-time employees.

Liabilities of funds are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. There were no liabilities that met these criteria at June 30, 2019. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of pay-outs and other economic and social factors.

Changes in the balances of claims liabilities during the past three fiscal years are as follows:

Fiscal Year Ended June 30	Unpaid Claims Beginning of Fiscal Year	Incurred Claims	Claim Payments	Unpaid Claims End of Fiscal Year
2019	$ -	$ 626,197	$ 626,197	$ -
2018	$ -	$ 651,673	$ 651,673	$ -
2017	$ -	$ 530,207	$ 530,207	$ -

NOTE 17. Retirement and Pension Plans

Public Employees' Retirement System of Nevada (PERS)

Plan description

PERS administers a cost-sharing, multiple-employer, defined benefit public employees' retirement system which includes both Regular and Police/Fire members. The System was established by the Nevada Legislature in 1947, effective July 1, 1948. The System is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earnings capacities have been removed or substantially impaired by age or disability. The report is available on the website at https://www.nvpers.org/.

NOTE 17. Retirement and Pension Plans, Continued

Benefits provided

Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering the System on or after January 1, 2010. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Monthly benefit allowances for members are computed as 2.5% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this multiplier is 2.67% of average compensation. For members entering the System on or after January 1, 2010, there is a 2.5% service time factor and for regular members entering the System on or after July 1, 2015, there is a 2.25% factor. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

Post-retirement increases are provided by authority of NRS 286.575 - .579.

Vesting

Regular members entering the System prior to January 1, 2010, are eligible for retirement at age 65 with five years of service, at age 60 with 10 years of service, or at any age with thirty years of service. Regular members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 62 with 10 years of service, or any age with thirty years of service. Regular members who entered the System on or after July 1, 2015, are eligible for retirement at age 65 with 5 years of service, or at age 62 with 10 years of service or at age 55 with 30 years of service or any age with 33 1/3 years of service.

Police/Fire members entering the System prior to January 1, 2010, are eligible for retirement at age 65 with five years of service, at age 55 with ten years of service, at age 50 with twenty years of service, or at any age with twenty-five years of service. Police/Fire members entering the System on or after January 1, 2010, are eligible for retirement at 65 with five years of service, or age 60 with ten years of service, or age 50 with twenty years of service, or at any age with thirty years of service. Only service performed in a position as a police officer or firefighter may be counted towards eligibility for retirement as Police/Fire accredited service.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

NOTE 17. Retirement and Pension Plans, Continued

Contributions

The authority for establishing and amending the obligation to make contributions and member contribution rates is set by stature. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans. Contributions are shared equally by employer and employee. Employees can take a reduced salary and have contributions made by the employer (EPC) or can make contributions by a payroll deduction matched by the employer.

The System's basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due.

The System receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450.

The actuary funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contributions requirement as a percentage of salary.

For fiscal years ended June 30, 2018, and 2019, the Statutory Employer/employee matching rate was 14.50% for Regular and 20.75% for Police/Fire.

For the fiscal year ended June 30, 2018, and 2019, the Employer-Pay Contribution (EPC) rate was 28% for Regular and 40.50% for Police/Fire.

The City's contributions for the current and two preceding fiscal years, all of which were equal to the required contributions, were as follows:

Year Ended June 30,	Regular Fund	Police/Fire Fund
2017	$ 228,592	$ 330,642
2018	236,938	342,714
2019	222,775	322,229

NOTE 17. Retirement and Pension Plans, Continued

Investment policy

The System's policies which determine the investment portfolio target asset allocation are established by the Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System. The following was the Board adopted policy target asset allocation as of June 30, 2018:

Asset Class	Target Allocation	Long-term Geometric Expected Real Rate of Return*
Domestic equity	42%	5.50%
International equity	18%	5.75%
Domestic fixed income	30%	0.25%
Private markets	10%	6.80%

*As of June 30, 2018, PERS' long-term inflation assumption was 2.75%.

Pension liability

Net pension liability

At June 30, 2019, the City reported a liability of $8,521,101 for its proportionate share of the PERS' net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer allocation percentage of the net pension liability was based on the total contributions due on wages paid during the measurement period. Each employer's proportion of the net pension liability is based on their combined employer and member contributions relative to the total combined employer and member contributions for all employers for the period ended June 30, 2018. The City's proportion measured as of June 30, 2018, was 0.06248 percent, which was an decrease of 0.00018 percent from its proportion measured as of June 30, 2017.

Pension liability discount rate sensitivity

The following presents the net pension liability of the PERS as of June 30, 2019, calculated using the discount rate of 7.50%, as well as what the PERS net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current discount rate:

	1% Decrease (6.50%)	Discount Rate (7.50%)	1% Increase (8.50%)
Proportionate share of Net pension (asset) / liability	$ 12,994,334	$ 8,521,102	$ 4,804,105

NOTE 17. Retirement and Pension Plans, Continued

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the PERS Comprehensive Annual Financial Report, available on the PERS website www.nvpers.org.

Actuarial assumptions

The City's net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.75%
Payroll growth	5.00%, including inflation
Investment rate of return	7.50%
Productivity pay increase	0.50%
Projected salary increases	Regular: 4.25% to 9.15%, depending on service Police/Fire: 4.55% to 13.90%, depending on service Rates include inflation and productivity increases
Consumer Price Index	2.75%
Other assumptions	Same as those used in the June 30, 2018 funding actuarial valuation

Actuarial assumptions used in the June 30, 2018 valuation were based on the results of the experience review completed in 2017.

The discount rate used to measure the total pension liability was 7.50% as of June 30, 2018 and 7.5% as of June 30, 2017. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the pension plan's fiduciary net position at June 30, 2018, was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2018.

Pension expense and deferred outflows/inflows of resources related to pensions

For the year ended June 30, 2019, the City recognized pension expense for PERS of $543,124. At June 30, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

NOTE 17. Retirement and Pension Plans, Continued

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 266,942	$ 395,525
Changes in assumptions	449,008	-
Net difference between projected and actual earnings on pension plan investments	-	40,568
Subtotal	715,950	436,093
Changes in proportion and differences between contributions and proportional share of contributions	282,308	321,494
Contributions subsequent to the measurement date	545,001	-
Total	$ 1,543,259	$ 757,587
Governmental activities	$ 1,256,937	$ 617,032
Business-type activities	286,322	140,555
	$ 1,543,259	$ 757,587

Average expected remaining service lives 6.22 years

The $545,001 reported as deferred outflows of resources related to PERS pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to PERS pensions, excluding the changes in proportion and differences between actual contributions and proportionate share of contributions will be recognized in pension expense as follows:

Year Ending June 30,	Deferred Outflows (Inflows) of Resources
2020	$ 195,040
2021	51,946
2022	(133,713)
2023	72,365
2024	82,969
2025	11,250
Thereafter	-

NOTE 18. Subsequent Events

The City refunded the 1998 USDA Water Bond in August 2019, with a General Obligation Water Refunding Bond Series 2019 for $2,173,729.

REQUIRED SUPPLEMENTARY INFORMATION

BUDGETARY COMPARISON SCHEDULES FOR THE FOLLOWING MAJOR FUNDS:

The **General Fund** is the City's primary operating fund. It accounts for all financial resources of the general government, except for those required to be accounted for in another fund.

The **Recreation Fund** is used to account for the City's share of room tax proceeds and the distribution of those funds to the recreation district.

SUPPLEMENTARY INFORMATION

NONMAJOR GOVERNMENTAL FUNDS

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

The **Seizure and Forfeiture Fund** is used to account for seizures and forfeitures received by the City under City Resolution 1992-09, as provided for in NRS 179.1187

The **Court Administrative Assessment Fund** is used to account for fees collected by the court as required by Nevada Revised Statues Section 176.059, which are used to improve the operations of the court.

The **Welcome Center Fund** is used to account for the merchandise sales and operations of the Welcome Center as established under City Resolution 2001-04.

The **Wendover Will Landmark Fund** is used to account for the construction, maintenance, and related revenues and expenditures associated with the Wendover Will Landmark as established by City Resolution 2005-01.

The **Grant Fund** is used to account for various grants receipts and expenditures as outlined in Resolution 1996-14.

Capital project funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds.

The **Capital Projects Fund** is used to account for the acquisition or construction of capital facilities as outlined in Resolution 1997-14.

The **Ad Valorem Capital Projects Fund** is used to account for revenue received from a special ad valorem tax that must be recorded in a capital projects fund and dedicated to capital project needs within the City, as established under NRS 268.045.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable Mayor and City Council
West Wendover, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of West Wendover, Nevada, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise City of West Wendover, Nevada 's basic financial statements and have issued our report thereon dated October 30, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of West Wendover, Nevada's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of West Wendover, Nevada's internal control. Accordingly, we do not express an opinion on the effectiveness of City of West Wendover, Nevada's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a deficiency in internal control, described in the accompanying letter of *Findings and Recommendations that* we consider to be a significant deficiency.

2019-001 Segregation of Duties

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of West Wendover, Nevada's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CPAs & ADVISORS

Independent Auditor's Report on Compliance
With Statutes and Administrative Code in Accordance
With NRS 354.624(4) and 354.6241

The Honorable Mayor and City Council
West Wendover, NV

We have audited the basic financial statements of the City of West Wendover, Nevada for the year ended June 30, 2019, and have issued our report thereon dated October 30, 2019. Our audit also included test work on the City of West Wendover's compliance with selected requirements identified in the State of Nevada Revised Statutes (NRS) including, but not limited to, NRS section 354.624 and section 354.6241.

The management of the City of West Wendover is responsible for the City's compliance with all requirements identified above. Our responsibility is to express an opinion on compliance with those requirements based on our audit and make specific statements regarding funds established and the status of prior year findings and recommendations; accordingly, we make the following statements:

The City of West Wendover had one prior year compliance finding that was resolved during fiscal year 2019. We noted one new instance of noncompliance during fiscal year 2019. See note 3 on page 32.

The City of West Wendover has established several funds in accordance with NRS 354.624 as follows:

Enterprise Funds:
- Water Fund
- Sewer Fund
- Garbage / Compost Facility Fund

Funds whose balance is required to be used only for a specific purpose or carried forward to the succeeding fiscal year in any designated amount:

Special Revenue Funds:
- Seizure Forfeiture Fund
- Recreation Fund
- Court Administrative Assessment Fund
- Medical Clinic Facilities Fund (combined with the General Fund for reporting)
- Grants Fund
- Welcome Center Fund
- Wendover Will Landmark Fund

Capital Projects Funds:
- Capital Projects Fund
- Ad Valorem Capital Projects Fund

HintonBurdick.com 888-566-1277

The City of West Wendover appears to be using the above listed funds expressly for the purposes for which they were created and in accordance with NRS 354.624. The funds are being administered in accordance with Generally Accepted Accounting Principles and the reserves, as applicable, appear reasonable and necessary to carry out the purposes of the funds. Sources of revenues available and fund balances and net position are reflected in the individual fund financial statements.

The statutory and regulatory requirements of the funds are as follows:

Water Fund:	NRS 354.517
Sewer Fund:	NRS 354.517
Garbage / Compost Facility Fund:	NRS 354.517
Seizure Forfeiture Fund:	Resolution 1992-09
Recreation Fund:	NRS 268.798
Court Administrative Assessment Fund:	NRS 176.059
Grant Fund:	Resolution 1996-14
Welcome Center Fund:	Resolution 2001-04
Wendover Will Landmark Fund	Resolution 2005-01
Capital Projects Fund	Resolution 1997-14
Ad Valorem Capital Projects Fund	NRS 268.045

NRS 354.624 requires that a schedule of all fees imposed by the City which were subject to the provisions of NRS 354.5989 be provided. The City has not increased any fees subject to the limitations provided by NRS 354.5989; however the schedule for these fees immediately follows this report.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, The City of West Wendover, Nevada complied, in all material respects, with the requirements identified above for the year ended June 30, 2019.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with NRS 354.624 and 354.6241. Our finding is described in a separate schedule of findings and recommendations, as item 2018-001. Our opinion on compliance is not modified with respect to this matter.

The purpose of this report is solely to describe the scope of our testing of the applicable compliance requirements identified in the Nevada Revised Statutes (NRS) and the results of that testing based on the state requirements. Accordingly, this report is not suitable for any other purpose.

Findings and Recommendations
For the Fiscal Year Ended June 30, 2019

The Honorable Mayor and
City Council
City of West Wendover, Nevada

Professional standards require that we communicate, in writing; deficiencies in internal control over financial reporting that are considered significant deficiencies or material weaknesses that are identified during the audit of the financial statements. Nevada Revised Statutes (NRS) require us to report instances of noncompliance with laws and regulations. During our audit of the City of West Wendover, Nevada for the fiscal year ended June 30, 2019, we noted several improvements in the City's accounting and budgeting system and we wish to commend the City for their achievements. We also observed a few areas needing corrective action in order for the City to be in compliance with laws and regulations as well as a few areas that, if improved, would strengthen the City's accounting system and control over its assets. These items are discussed below for your consideration.

INTERNAL CONTROL OVER FINANCIAL REPORTING:

Material Weakness:

No items noted

Significant Deficiencies:

2019-001 Segregation of Duties

Criteria: An effective internal control structure, including adequate segregation of duties, should be implemented in order to properly safeguard City assets.

Condition: When certain staff are unavailable and while the City was hiring a new chief financial officer, the same individual would prepare the deposits for the bank, take the deposit to the bank, record journal entries in the accounting system and reconcile the bank statements. The City did have a secondary individual review the bank reconciliations and prepare the deposit each day to mitigate this weaknesses such that it is not deemed to be a material weakness.

Cause: The City did not follow established controls to properly segregate crucial accounting functions during fiscal year 2019.

Effect: A material misstatement, due to fraud or error, may not be prevented or detected in a timely manner. We choose to mention proper segregation in order to remind management of its importance until the City can fully segregate custody of assets and recording functions.

Recommendations: We recommend that the City not allow the same individual to have custody of assets, recording functions in the accounting system, and perform the bank reconciliations. We recommend having another person prepare and take the bank deposit other than the staff preparing the bank reconciliation and posting journal entries.

COMPLIANCE AND OTHER MATTERS:

Compliance:

2018-001 Budgetary Compliance

Criteria: NRS 354.626 states, "No governing body or member thereof, officer, office, department or agency may, during any fiscal year, expend or contract to expend any money or incur any liability, or enter into any contract which by its terms involves the expenditure of money, in excess of the amounts appropriated for that function,"

Condition: Expenditures in the Court Administrative Assessments Fund exceeded final budget appropriations for fiscal year 2019 by $687.

Cause: The City did not follow established controls to ensure compliance with NRS 354.626.

Effect: The City did not comply with Nevada Revised Statute (NRS) 354.626 for fiscal year 2019.

Recommendation: We recommend the City follow the established controls to ensure compliance with NRS 354.626.

Other Matters:

2019-001 Sewer Fund USDA Debt Covenants

Criteria: The USDA Series 2012 Sewer Bond covenants require certain ratios and metrics be maintained per the bond agreement.

Condition: We noted that the Sewer Fund is out of compliance with USDA debt covenants and required ratios.

Cause: The Sewer Fund did not have enough income from operations to cover the next year's debt service requirement. It appears the City did not follow and update established controls to ensure compliance with the criteria above.

Effect: The City is not in compliance with the bond covenants required by the USDA.

Recommendation: We recommend the City look at ways to increase revenues and reserves or decrease operating expenses in order to become compliant with the USDA debt covenants of the Sewer Bond and to update controls to ensure compliance with the debt covenants.

Responses

Please respond to the above Findings and Recommendations in letter form.

This report is intended solely for the information and use of the City Council, management, and various federal and state agencies and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

It has been a pleasure to be of service to the City this past year. We would like to express special thanks to all those who assisted us so efficiently in this year's audit. We invite you to ask questions of us throughout the year as you feel necessary. We look forward to a continued professional relationship.

Sincerely,

Hinton Burdick, PLLC

Independent Auditors' Report

The Honorable Mayor and City Council
West Wendover, Nevada

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of West Wendover, Nevada as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of West Wendover, Nevada, as of June 30, 2018, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

The City implemented the provisions of GASB Statement No. 82, *Pension Issues- an Amendment of GASB Statements No. 67, No. 68, and No. 73*. Our opinion is not modified with respect to this matter. The fiscal year 2017 financial statements do not reflect the effects of this statement as the required information was not available for that time period.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, the schedule of proportionate share of the net pension liability and the schedule of contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of West Wendover, Nevada's basic financial statements. The major fund budgetary comparison schedules, the combining and individual non-major fund budgetary schedules and component unit supplementary schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The major fund budgetary comparison schedules, the combining and individual non-major fund budgetary schedules, and the component unit supplementary schedules as listed in the table of contents, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the major fund budgetary comparison schedules, the combining and individual non-major fund budgetary schedules, and the component unit supplementary schedules as listed in the table of contents, are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 21, 2018, on our consideration of the City of West Wendover, Nevada's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of West Wendover, Nevada's internal control over financial reporting and compliance.

CITY OF WEST WENDOVER, NEVADA
MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of West Wendover (City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2018. Please read it in conjunction with the accompanying basic financial statements.

FINANCIAL HIGHLIGHTS

- Total assets exceed total liabilities (net position) by $26.1 million at the close of the fiscal year.
- Total net position decreased by $1.3 million from the prior year.
- Governmental activities net position decreased by $1 million. Business-type net position decreased by $187,508.
- Total revenues from all governmental sources were $9.2 million and the total cost of all City programs were $9.7 million
- The General Fund revenues exceeded expenditures, excluding transfers, and debt proceeds by $809,727.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was $971,953, or 17% of total General Fund expenditures, excluding transfers.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The three components of the financial statements are: (1) Government-wide financial statements which include the Statement of Net Position and the Statement of Activities. These statements provide information about the activities of the City as a whole. (2) Fund financial statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. (3) Notes to the financial statements.

Reporting the City as a Whole

The Statement of Net Position and the Statement of Activities (Government-wide)

A frequently asked question regarding the City's financial health is whether the year's activities contributed positively to the overall financial well-being. The Statement of Net Position and the Statement of Activities report information about the City as a whole and about its activities in a way that helps answer this question. These statements include *all* assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net position and changes in them. Net position, the difference between assets and liabilities, are one way to measure the City's financial health, or financial position. Over time, increases or decreases in net position are an indicator of whether the financial health is improving or deteriorating. However, it is important to consider other non-financial factors such as changes in the City's property tax base or condition of the City's roads to accurately assess the overall health of the City.

The Statement of Net Position and the Statement of Activities, present information about the following:

- Government activities – All of the City's basic services are considered to be governmental activities, including general government, judicial, public safety, community development, health and sanitation, culture and recreation, community support, and interest on long-term debt. Consolidated tax, room tax, ad valorem tax, county gaming tax, franchise tax, right of way tolls, motor vehicle tax, and unrestricted investment earnings finance these activities.

- Proprietary activities/Business type activities – The City charges a fee to customers to cover all or most of the cost of the services provided. The City's water, sewer, and garbage / compost systems are reported in this category.

Reporting the City's Most Significant Funds

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds—not the City as a whole. Some funds are required to be established by State law and others are established by City resolution or by bond covenants. However, management establishes many other funds which aid in the management of money for particular purposes or meet legal responsibilities associated with the usage of certain taxes, grants, and other money. The City's two kinds of funds, *governmental* and *proprietary*, use different accounting approaches as explained below.

- *Governmental funds* – Most of the City's basic services are reported in governmental funds. Governmental funds focus on how resources flow in and out with the balances remaining at year-end that are available for spending. These funds are reported using an accounting method called the *modified accrual* accounting method, which measures cash and all other *financial* assets that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the City's general government operations and the basic services it provides. Government fund information shows whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental *activities* (reported in the Statement of Net Position and the Statement of Activities) and governmental *funds* in a reconciliation included with the Basic Financial Statements.

- *Proprietary funds* – The City maintains enterprise and internal service funds under this category. Enterprise funds are used to account for functions presented in the business-type section of the government-wide financial statements. Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government.

Notes to the Financial Statements

Notes to the financial statements are included to provide information that is crucial to the full and complete understanding of the data provided in the financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of the City's financial position. The City's combined assets exceed liabilities by $26.1 million as of June 30, 2018 as shown in the following condensed statement of net position. The City has chosen to account for its water, sewer, and garbage/compost operations in enterprise funds which are shown as Business Activities.

City of West Wendover, Nevada
Statement of Net Position

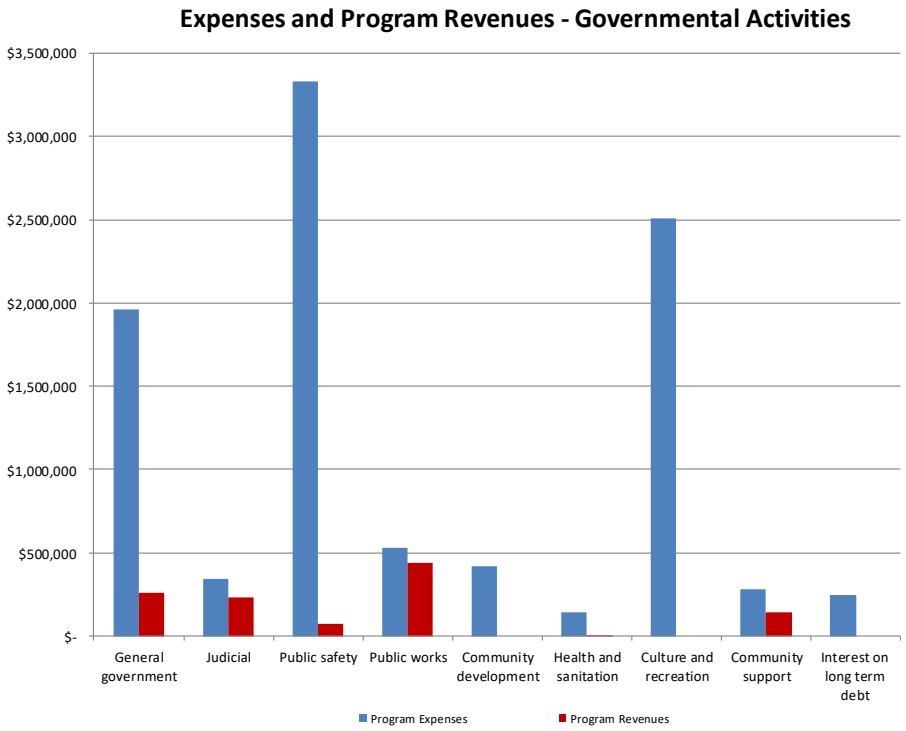
Governmental Activities

The cost of all Governmental activities this year was $9,234,284. As shown on the statement of Changes in Net Position on the following page, $624,342 of this cost was paid for by those who directly benefited from the programs; $530,132 was subsidized by grants received from other governmental organizations for both capital and operating activities. Overall governmental program revenues, including intergovernmental aid and fees for services were $1,154,474. General taxes, asset sales, and other general revenues totaled $8,079,810.



The City's programs include: general government, judicial, public safety, public works, community development, health and sanitation, culture and recreation, community support, and interest on long-term debt. Each programs' total cost is presented below.

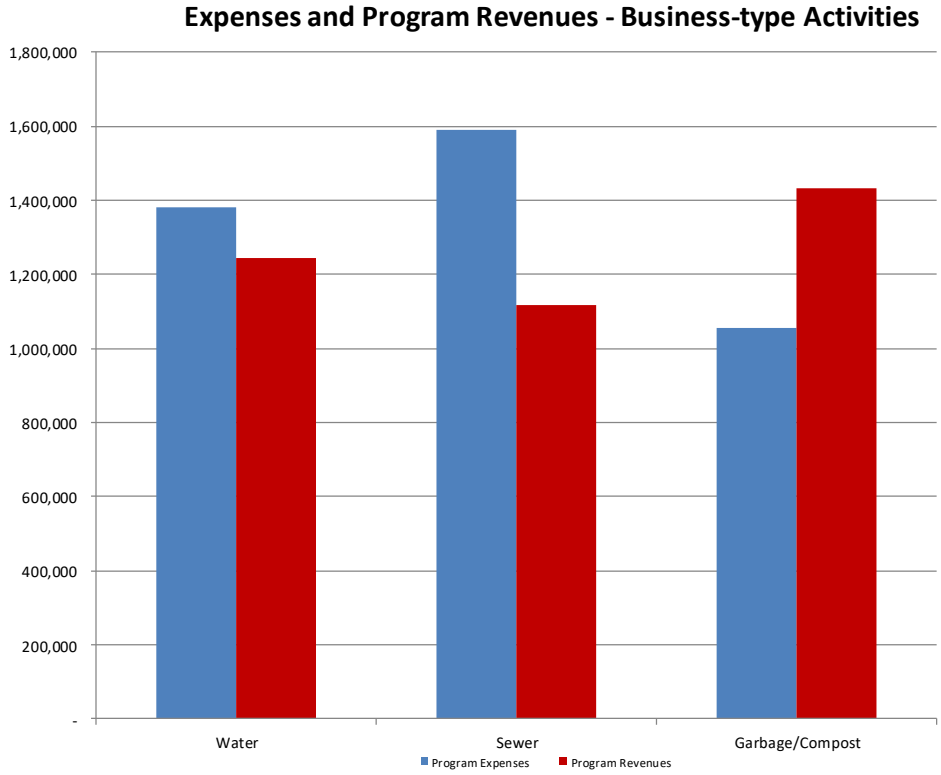
Total resources available during the year to finance governmental operations were $19,739,974 consisting of Net Position at July 1, 2017 of $10.5 million as restated, program revenues of $1.1 million and General Revenue of $8.1 million. Total Governmental Activities during the year were $9.7 million; thus, Governmental Net Position decreased by $508,804 to $10 million.



The following graphs compare program expenses to program revenues and provide a breakdown of revenues by source for all government activities. The charts below are derived from the Statement of Activities on page 15.

Business Type Activities

Net position of the Business Type activities at June 30, 2018, as reflected in the Statement of Net Position was $16.1 million. The cost of providing all Proprietary (Business Type) activities this year was $4.0 million. As shown in the Statement of Activities, the amounts paid by users of the system were $3.7 million and $27,721 was subsidized by capital grants and contributions. Unrestricted investment earnings totaled 124,294; other revenue totaled $32,811, thus, net position decreased by $77,195.

Financial Analysis of the Government's Funds

As noted earlier, the City of West Wendover uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds: The focus of the City of West Wendover's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of West Wendover's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of West Wendover's governmental funds reported combined ending fund balances of $1,618,944, an increase of $170,767 in comparison with the prior year. 60% of the total fund balance or $971,361 constitutes unassigned fund balance, which is available for new spending at the government's discretion. The remainder of the fund balance is non-spendable, restricted, or committed because it has already been committed 1) to pay debt service, 2) to pay for capital improvements or 3) for a variety of other restricted or committed purposes.

The general fund is the chief operating fund of the City of West Wendover. At the end of the current fiscal year, unassigned fund balance in the general fund was $971,953, and total fund balance is $1,054,510. As a measure of liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Total unassigned fund balance represents 17% of total general fund expenditures. During the year, the City of West Wendover's general fund balance was budgeted to decrease by $268,100.

The recreation fund has a fund balance of $157,617, all of which is restricted for culture and recreation appropriation.

Proprietary funds: The City of West Wendover's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Total net position of the proprietary funds was $16,145,012 at year end.

General Fund Budgetary Highlights

Actual expenditures for the General Fund at year-end were $315,517 less than the final budget. The favorable budget to actual variance in appropriations was principally due to overall savings in services and supplies for all departments. Actual revenues were more than the final budget by $87,785.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The capital assets of the City are those assets that are used in performance of City functions including infrastructure assets. Capital Assets include equipment, buildings, land, park facilities and roads. At the end of fiscal year 2018, net capital assets of the government activities totaled $21.2 million and the net capital assets of the business-type activities totaled $19.2 million. Depreciation on governmental-type capital assets is recognized in the Government-Wide financial statements. (See note 6 to the financial statements.)

Long Term Liabilities

At year-end, the City had $13.4 million in governmental type long term liabilities, and $8.8 million in proprietary long term liabilities. The liabilities amounts to $4,956 per capita (4,498 – 2013 population US Census Bureau Website 2013). The City's net decrease in total long term liabilities was $1.4 million. (See note 7 and 18 to the financial statements for detailed descriptions.)

NEXT YEAR'S BUDGET AND ECONOMIC FACTORS

In considering the City Budget for fiscal year 2018-2019, the City Council and management remained cautious as to the growth of revenues and expenditures. The current labor contract with the Police Officer Association effective July 1, 2018 thru June 30, 2021 provides for no pay adjustment for fiscal 2019 but does provide some adjustments for fiscal 2020 and 2021. The current labor contract with Local 4041 effective July 1, 2018 thru June 30, 2019 does not include any pay adjustment.

Projects that are a part of the City Budget for the fiscal year 2018-2019 are as follows:

- The City will continue with some Street Rehab and Storm Drainage Improvement Projects related to the recent funding.
- On the immediate horizon is development for the City Center/Downtown development. The City started a planning phase in fiscal year 2018 and is working with BLM to acquire the land for that development. Infrastructure for the development will start as soon as funding is in place.
- In connection with the acquisition of the BLM land surrounding the City Hall, a new fire station will be built. Grants and a SDA loan have been approved for the development.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, please contact the City's Chief Financial Officer at the City of West Wendover, 1111 N. Gene L. Jones Way, West Wendover, Nevada 89883 or visit us online at http://www.westwendovercity.com

CITY OF WEST WENDOVER, NEVADA
Reconciliation of the Statement of Revenues,
Expenditures, and Changes in Fund Balances of Governmental Funds
To the Statement of Activities
For the Year Ended June 30, 2018

Amounts reported for governmental activities in the statement of activities are different because:		
Net change in fund balances - total governmental funds		$ 170,767
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the costs of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period.		
Capital outlay	$ 39,000	
Depreciation expense	(1,049,462)	
		(1,010,462)
Governmental funds report the gross proceeds from the sale of capital assets as revenue. However, in the statement of activities, the gain/(loss) on the sale of capital assets is reported net of its net book value.		(419,198)
Payments on long term receivables recorded as revenue in the governmental funds are reported as a reduction of receivables in the statement of net position.		(2,312)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.		651,028
Accrued interest for long-term debt is not reported as an expenditure for the current period while it is recorded in the statement of activities. The adjustment reflects the change in interest payable		11,657
Pension contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the net pension liability is measured a year before the City's report date. Pension expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pension, is reported in the Statement of Activities.		
Pension contributions	$ 473,469	
Pension expense	(415,465)	
		58,004
Compensated absences expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. This adjustment reflects the change in compensated absences payable.		(7,594)
The internal service fund is used by management to charge the cost of insurance to the various funds. The net revenue (loss) of the internal service fund is reported with governmental activities.		39,306
Change in net position of governmental activities		$ (508,804)

The accompanying notes are an integral part of the financial statements.

NOTE 1. Summary of Significant Accounting Policies

Description of government-wide financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

Reporting Entity

The City of West Wendover (government) is a municipal corporation governed by an elected mayor and five-member governing council (council). The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

Discretely presented component units - The Johnson Springs Water System Enterprise Fund (Johnson Springs) was formed by a settlement agreement between the City of West Wendover, Nevada and the City of Wendover, Utah to replace Administrative Authority upon its dissolution (dissolved on December 31, 2008). Johnson Springs has no board. The net assets of the Administrative Authority were transferred to Johnson Springs on January 1, 2009, including the debt of the Administrative Authority that is in the name of the City. It is a separate enterprise fund and is considered a component unit due to the City's responsibility to perform all management, maintenance and accounting duties for the fund.

Basis of presentation – government-wide financial statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As discussed earlier, the city has one discretely presented component units, Johnson Springs, which is considered a major component unit and is shown in separate columns in the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

NOTE 1. Summary of Significant Accounting Policies, Continued

Basis of presentation – fund financial statements

The fund financial statements provide information about the government's funds, including its fiduciary funds and blended component units if any. Separate statements for each fund category—governmental, proprietary, and fiduciary—are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The government reports the following major governmental funds:

The **General Fund** is the government's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

The **Recreation Fund** is used to account for the City's share of room tax proceeds and the distribution of those funds to the recreation district.

The government reports the following major enterprise funds:

The **Water Fund** accounts for the provision of water services to the residents of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operation, maintenance, financing and related debt service and billing and collection.

The **Sewer Fund** accounts for the provision of sewer services to the residents of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operation, maintenance, financing and related debt service and billing and collection.

The **Garbage/Compost Fund** is used to account for the provision of sanitation services to residents of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operation, maintenance, financing and related debt service and billing and collection.

Additionally, the City reports the following fund types:

Health Insurance Internal Service Fund – Internal Service Funds are used to account for the financing of goods and services provided by one department or agency to other departments or agencies of the government and to other government units, on a cost reimbursement basis.

NOTE 1. Summary of Significant Accounting Policies, Continued

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Measurement focus and basis of accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such *as current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement* focus and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement* focus and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

NOTE 1. Summary of Significant Accounting Policies, Continued

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of yearend). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of yearend). All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary funds are reported using the *economic resources measurement* focus and the *accrual basis of accounting*.

Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance

Cash and cash equivalents

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments

Investments for the government are reported at fair value (generally based on quoted market prices). The City of West Wendover invests in the State of Nevada Local Government Investment Pool, which has regulatory oversight from the Board of Finance for the State of Nevada.

State statues authorize the City to invest in obligations of the U.S. Treasury; certain farm loan bonds; certain securities issued by Nevada local governments and other state and local governments; certain repurchase agreements; certain bankers acceptances; certain commercial paper; and certain negotiable certificates of deposits and money market mutual funds, as well as the State of Nevada Local Government Investment Pool.

Inventories and prepaid items

Inventories for the general and proprietary funds are valued at cost using the first-in/first-out (FIFO) method and consist of expendable office supplies, pipe, fittings and miscellaneous automobile parts. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased.

For all other funds, the City of West Wendover charges consumable supplies against appropriations at the time of purchase. Any inventories of such supplies at June 30 are not material to the individual funds and are not recognized in the financial statements.

NOTE 1. Summary of Significant Accounting Policies, Continued

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased

Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than $5,000 and an estimated useful life in excess of two years.

The City has elected not to record infrastructure assets prior to July 1, 2003 as allowed by Governmental Accounting Statement number 34 for phase 3 governments.

As the government constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

Interest incurred during the construction phase of capital assets of enterprise funds is included as part of the capitalized value of the assets constructed. The amount of interest capitalized depends on the specific circumstances.

Land and construction in progress are not depreciated. The other property, plant, equipment, and infrastructure of the primary government are depreciated using the straight line method over the following estimated useful lives:

Building	35 to 50 years
Improvements other than buildings	20 to 30 years
Machinery, equipment, and vehicles	3 to 10 years
Utility systems	10 to 50 years

Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The City has one type of item that qualifies for reporting for reporting in this category which is pension related items reported on the government-wide financial statements. See footnote 17 for more information.

NOTE 1. Summary of Significant Accounting Policies, Continued

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has one type of item that qualifies for reporting in this category which is pension related items reported on the government-wide financial statements. See footnote 17 for more information. The governmental funds report unearned revenues from two sources: advance payments for business licenses and advance payments for gaming licenses. These amounts are deferred and recognized as an inflow of resources in the period that the amounts are earned.

Net position flow assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Fund balance flow assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund balance policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The governing council is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

NOTE 1. Summary of Significant Accounting Policies, Continued

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The city council (council) has by resolution authorized the Mayor, City Manager, and Chief Financial Officer to assign fund balance. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Revenues and Expenditures/Expenses

Program revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

Property taxes

All real property within the City of West Wendover is assigned a parcel number by the Elko County Assessor in accordance with state law, with each parcel being subject to physical reappraisal every five years. A factoring system is used to adjust the appraised value during the years between physical appraisals. The property and its improvements are assessed at 35% of "taxable value" as defined by statute. The amount of tax levied is developed by multiplying the assessed value by the tax rate applicable to the area in which the property is located. The maximum tax rate was established in the State Constitution at $5 per $100 of assessed valuation; however, as a result of legislative action, the tax rate was further limited to $3.64 per $100 as assessed valuation, except in cases of severe financial emergency as defined by NRS 354.705. Taxes on real property are a lien on the property and attach on July 1 of the year for which the taxes are levied.

Taxes may be paid in four installments, the first installment is due on the third Monday of August and the remaining three installments are payable on the first Monday in October, January and March to the Treasurer of Elko County in which the City of West Wendover is located. Penalties are assessed if a taxpayer fails to pay an installment within ten days of the installment due date. After a two year waiting period, if the taxes remain unpaid, a tax deed is issued conveying the property to the County with a lien for back taxes and accumulated charges. Redemption may be made by the owner or such persons as described by statute by paying all back taxes and accumulated penalties, interest and costs before sale.

Taxes on personal property are collected currently. Personal property declarations are mailed out annually by the County and the tax is computed using percentages of taxable values established by the Department of Taxation and the tax rates described above.

NOTE 1. Summary of Significant Accounting Policies, Continued

Compensated absences

Vacation and Sick-leave

The city's policy permits employees to accumulate earned but unused vacation benefits, which are eligible for payment upon separation from government service. The liability for such leave is reported as incurred in the government-wide and proprietary fund financial statements. A liability for those amounts is recorded in the governmental funds only if the liability has matured as a result of employee resignations or retirements.

Per City Policy and Collective Bargaining Agreements, employees earn (accrue) sick leave benefits which they are eligible to receive upon separation of service at a determined percentage based upon total years of service and based upon the required notice of separation.

Proprietary funds operating and non-operating revenues and expenses

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water fund, sewer fund, and garbage/compost facility fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the pension plan's fiduciary net position of the Public Employees' Retirement System of Nevada (PERS) and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1. Summary of Significant Accounting Policies, Continued

Comparative Data

Comparative data shown for the prior year has been extracted from the 2016-2017 financial statements and reclassified where necessary. It has been provided to add comparability but is not considered full disclosure of transactions for 2016-2017. Such information can only be obtained by referring to the audited financial statements for that year.

New pronouncements

For the year ended June 30, 2018, the City implemented the provisions of GASB Statement No. 82, *Pension Issues- an Amendment of GASB Statements No. 67, No. 68, and No. 73*. GASB Statement No. 82 improves consistency in the application of pension accounting and financial reporting requirements by addressing certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. Implementation of this new Statement resulted in a restatement of beginning net position in the City's government-wide and proprietary fund financial statements (see Note 18).

NOTE 2. Reconciliation of Government-Wide and Fund Financial Statements

The governmental fund balance sheet includes reconciliation between total governmental fund balances and net position of governmental activities as reported in the government-wide statement of net position. This difference primarily results from the long-term economic focus of the statement of net position versus the current financial resources focus of the governmental fund balance sheets. The details of these differences are reported in the reconciliation on as listed in the table of contents.

The governmental fund statement of revenues, expenditures, and changes in fund balance includes a reconciliation between net changes in fund balances-total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. These differences are the result of converting from the current resources measurement focus and modified accrual basis for governmental fund statements to the economic resources measurement focus and full accrual basis used for government-wide statements. The details of these differences are reported in the reconciliation as listed in the table of contents.

NOTE 3. Stewardship, Compliance, and Accountability

Budgets and Budgetary Accounting

The City adheres to the Local Government Budget Act incorporated in Section 354 of the Nevada Revised Statutes. The provision of the Act included the following major procedures to establish the budgetary data which is reflected in these financial statements.

a. On or before April 15, the City Council files a tentative budget with the Nevada Department of Taxation for all funds.

b. Public budget hearings on the tentative budget are held on the third Tuesday of May.

c. On or before June 1, at a public hearing, the City Council indicates changes, if any, to be made to the tentative budget must then be forwarded to the Nevada Department of Taxation for the final review and approval.

d. Formal budgetary integration in the financial records of all funds is employed to enhance management control during the year.

e. Budgets for all funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). All appropriations lapse at year end.

f. Budget amounts within funds, and between funds, may be transferred if amounts do not exceed the original budget. Such transfers must be approved by the budget officer and/or City Council, depending on established criteria. Budget augmentations in excess of original budgetary amounts may only be made with prior approval of the City Council, following a scheduled and noticed public hearing for those funds which have ad valorem taxes allocated as a source of revenue. For all other funds, the City Council must approve the budget augmentation with a majority vote and adopt a resolution providing therefore.

g. The above dates may be adjusted as necessary during legislative years.

h. The budget amounts reflected in the financial statements have been amended from the original amounts in accordance with the approved procedures.

i. In accordance with state statute, actual expenditures may not exceed budgeted appropriations of the various governmental functions (excluding the debt services functions) in the General Fund and total expenditures in other governmental funds. Per NRS 354.626, expenditures over budgeted appropriations are allowed for bond repayments, medium term obligation repayments and long-term contracts expressly authorized by law.

Expenditures over Appropriations – Deficit Fund Balances

No funds incurred deficit fund balances for fiscal year 2018. The individual Schedule of Revenues, Expenditures and Changes in Net Position – Budget and Actual report on page 79 shows that the component unit Johnson Springs Fund incurred an excess of expenses over appropriations for the year ended June 30, 2018 by ($40,642).

NOTE 4. Cash and Investments

A reconciliation of cash deposits and investments to the government-wide statement of net position as follows:

	Primary Government	Component Unit
Deposits:		
Cash on hand	$ 1,325	$ -
Cash in bank	2,672,187	(1,214,890)
Investments:		
Nevada local government investment pool	1,448,892	1,329,914
Total deposits and investments	$ 4,122,404	$ 115,024
Cash and cash equivalents	$ 2,880,095	$ 115,024
Restricted cash	1,242,309	-
	$ 4,122,404	$ 115,024

Deposits

Custodial Credit Risk

For deposits this is the risk that in the event of a bank failure, the government's deposit may not be returned. The City does not have a formal policy for custodial credit risk. As of June 30, 2018, $0 of the primary government and component unit's combined bank balance of $1,462,520 was exposed to custodial credit risk because it was either fully insured by FDIC insurance or collateralized by a pledging financial institution.

Investments

The Nevada State Treasurer's Office operates the Local Government Investment Pool (LGIP). The LGIP is an external investment pool operated by the Nevada Public Treasurer.

The LGIP is not registered with the SEC as an investment company. Deposits in the LGIP are not insured or otherwise guaranteed by the State of Nevada, and participants share proportionally in any realized gain or losses on investments.

The provisions of State Law (NRS 355.170) govern the investment of public funds as noted in Footnote 1.

NOTE 4. Cash and Investments, Continued

As of June 30, 2018 the government had the following investments:

Investment Type	Primary Government Fair Value	Component Unit Fair Value	Rating (1)	Weighted Average Maturity (2)
Nevada Local Government Pooled Investment Fund	$ 1,448,892	$ 1,329,914	N/A	142
Total Fair Value	$ 1,448,892	$ 1,329,914		

(1) Ratings are provided where applicable to indicate associated Credit Risk. N/A indicates not applicable.

(2) Interest Rate Risk is estimated using the weighted average days to maturity.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The City has the following recurring fair value measurements as of June 30, 2018:

- Nevada Local Government's Investment Pool (LGIP):

	Primary Government	Component Unit
Level 1 inputs	$ 398,735	$ 365,992
Level 2 inputs	1,050,157	963,922
Total LGIP investment	$ 1,448,892	$ 1,329,914

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The City's policy for managing its exposure to fair value loss arising from increasing interest rates is to comply with the provisions of State law (NRS 355.170).

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The primary government and component unit's policy for reducing its exposure to credit risk is to limit its investments to the Nevada Local Government Investment Pool and to comply with State Law (NRS 355.170). The Nevada Local Government Investment Pool is unrated.

Concentration of Credit Risk

The Primary Government and the Component Unit place no limit on the amount the Primary Government or the Component Unit may invest in any one issue.

NOTE 4. Cash and Investments, Continued

Cash Restricted for Special Uses

The primary government and the component unit maintain restricted cash to comply with various legal and contractual requirements. Amounts restricted are as follows at June 30, 2018:

Medium Term Sales Tax Revenue Bond Reserves	$	276,925
1998 Sewer/Compost Revenue Bond Reserves		100,557
Sewer/Compost Revenue Bond Series 1999B Bond Reserves		115,320
Sewer/Compost Revenue Bond Series 1999A Bond Reserves		41,515
Closure / post closure trust funds		59,701
Waste Water Treatment Plant Revenue Bond Reserves		77,198
1998 Water Revenue Bond Reserves		173,712
Water Revenue Bonds, Series 2015 Bond Reserves		9,072
Water Rev Bonds Series 2015 - Asset Replacement		85,902
AB198 Capital Replacement Projects Fund		301,967
Unutilized Regional Transportation Commission Funds		440
Total restricted cash - primary government	$	1,242,309

NOTE 5. Receivables / Due from other Governments

Receivables in the governmental funds consist principally of room and franchise taxes due various businesses. Amounts due from other governments consist primarily of taxes due from the State of Nevada and grant revenues due from various granting agencies. All receivables and amounts due from other governments are considered by management to be fully collectible and therefore, no allowance for doubtful accounts is necessary.

Receivables in the proprietary funds represent service billings to customers and are shown net of an allowance for doubtful accounts. The allowance for doubtful accounts is estimated based on professional judgement and historical information. The allowances for doubtful accounts at June 30, 2018 were as follows:

Water Fund	$	-
Sewer Fund		-
Garbage/Compost Fund		71
Johnson Springs		-
	$	71

NOTE 6. Capital Assets

Governmental capital asset activity for the year ended June 30, 2018 was as follows:

Governmental Activities:	Balance 6/30/17	Additions	Deletions	Balance 6/30/18
Capital assets, not being depreciated:				
Land	$ 2,056,481	$ -	$ (419,198)	$ 1,637,283
Total capital assets, not being depreciated	2,056,481	-	(419,198)	1,637,283
Capital assets, being depreciated:				
Buildings	11,271,605	-	-	11,271,605

NOTE 7. Long-Term Liabilities, Continued

Revenue Bonds

The City has pledged future net revenues from the City's Municipal Water System to repay $3,058,300 and $747,000 in water revenue bonds issued in November 1998 and 2016, respectively, with interest rates of 4.75% and 2.63%, respectively. Proceeds from the bonds provided financing to pay for the cost to acquire, improve, construct, equip, operate, and maintain a water project for the City. The bonds are payable solely from net revenues from the Municipal Water System and are payable through 2038 and 2055.

The City has pledged future net revenues from the City's Compost Facility to repay $1,280,000 and $2,040,000 in sewer/compost revenue bonds issued in November 1998 and August 1999 with interest rates of 4.75% and 4.5%, respectively. Proceeds from the bonds provided financing for the development and construction of a compost facility. The bonds are payable solely from future net revenues from the Compost Facility and are payable through 2018 and 2019.

The City has pledged future net revenues from the City's Sewer Facility to repay $2,637,000 in sewer revenue bonds issued in June 2012 with an interest rate of 2.75%. Proceeds from the bonds provided financing for the construction of a new sewer facility. The bonds are payable solely from future net revenues from the Sewer Facility and are payable through 2052.

The following schedules reflect debt service requirements to maturity of the City's debt as of June 30, 2018:

Period Ending	Governmental Activities			Business Type Activities		
June 30	Principal	Interest	Total	Principal	Interest	Total
2019	$ 614,408	$ 236,000	$ 850,408	$ 725,124	$ 245,134	$ 970,258
2020	358,096	213,276	571,372	478,319	222,480	700,799

	$ 13,636,049	$ 5,698,068	$ 19,334,117

NOTE 8. Capital Leases Payable

The government has entered into two lease agreements, which are considered capital leases in accordance with Financial Accounting Standard Board ASC 840-30-25. The two leases are shown in the combined garbage/compost fund. The total amount of equipment capitalized under the leases is $463,545 for the business-type activities. Amortization on capital leases is included in depreciation expense.

The following is an annual schedule of future minimum lease payments with interest rates ranging from 1.88% to 4.2% under the capital leases, together with the present value of the net minimum lease payments:

Year Ending June 30	Governmental Activities	Business-type Activities
2019	$ -	$ 79,967
2020	-	43,654
2021	-	42,408
2022	-	41,111
2023	-	62,313
Total remaining minimum lease payments	-	269,453
Less amount representing interest	-	(29,893)
Present value of net remaining minimum lease payments	$ -	$ 239,560

NOTE 9. Segment Information

In previous years, the component unit, Johnson Springs, issued separate revenue bonds to finance its operations. Segment information for Johnson Springs is disclosed below and also in the supplementary information. Segment information for the other proprietary funds is disclosed in the basic financial statements.

	06/30/18
Operating revenues	$ 652,108
Depreciation and amortization	(392,292)
Operating expenses	(490,050)
Operating income/(loss)	(230,234)
Nonoperating revenues and (expenses)	(100,711)
Change in net position	(330,945)
Beginning net position	4,595,754
Ending net position	4,264,809
Capital asset additions, including capitalized interest	-
Net working capital	(2,192,346)
Total assets	6,817,644
Total deferred outflows	34,296
Current liabilities	40,748
Due to primary government	2,337,645
Bonds and other long term debt obligations	186,819
Total deferred inflows	21,919
Net Position	
Net investment in capital assets	4,293,952
Unrestricted	(29,143)
Total Net Position	$ 4,264,809
Condensed Statement of Cash Flows	
Net cash flows from:	
Operating activities	$ 197,040
Noncapital financing activities	(76,743)
Capital and related financing activities	(109,128)
Investing activities	19,001
Net Increase (decrease)	$ 30,170
Beginning cash and cash equivalents	84,854
Ending cash and cash equivalents	$ 115,024

NOTE 10. Interfund Receivables, Payables, and Transfers

As of June 30, 2018 interfund receivables and payables that resulted from various interfund transactions for the primary government were as follows:

	Due from Other Funds	Due to Other Funds
General Fund	$ 160,000	$ -
Health Insurance Internal Service Fund	-	160,000
Total	$ 160,000	$ 160,000

As of June 30, 2018, interfund receivables and payables that resulted from transactions between the primary government and the component unit were as follows:

	Due from Component Unit	Due to Primary Government
Water Fund:		
Interest receivable	$ 72,392	$ -
Debt repayment receivable	2,265,253	-
Component Unit		
Interest payable	-	72,392
Debt repayment payable	-	2,265,253
Total	$ 2,337,645	$ 2,337,645

In 1998, the City of West Wendover issued long term debt obligations to complete a water project in behalf of its constituents. The component unit, which benefited from the project, is assisting with the repayment of the revenues bonds issued in the water fund. Hence, there is an interfund balance between the water fund and the component unit, Johnson Springs as shown above.

Interfund transfers for the fiscal year ended June 30, 2018 are as follows:

	Transfers out:		
Transfer in:	General	Non-major Ad Valorem Capital Projects	Total Transfers in
Nonmajor Governmental Funds			
Welcome Center Fund	$ 111,700	$ -	$ 111,700
Wendover Will Landmark Fund	17,100	-	17,100
Capital Projects Fund	553,300	55,000	608,300
Total transfers out	$ 682,100	$ 55,000	$ 737,100

NOTE 10. Interfund Receivables, Payables, and Transfers, Continued

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 11. Deferred Compensation Plan

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all full-time employees at their option, permits participants until termination, retirement, death, or unforeseeable emergency.

Plan assets are held and administered by The Hartford. The plan does not meet the definition of a fiduciary fund as defined in GASB 32, and therefore, is not reported in this financial statement.

NOTE 12. Room Taxes

On October 16, 2001, Ordinance 01-20 was passed, increasing room taxes from 10% to 16%. Of this rate, 14% is allocated to the West Wendover Recreation District. Additionally, the Ordinance allows for 1% to be paid to a non-profit entity to promote tourism and recreation throughout the City of West Wendover. At June 30, 2018 this amount was held as restricted in the Recreation Fund.

NOTE 13. Commitments and Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City is party to legal proceedings which normally occur in governmental operations. City officials believe these legal proceedings are not likely to have a material adverse impact on the financial position of the City.

NOTE 14. Available Borrowing Capacity

The lawful general obligation debt limit for city governments is established by State statute not to exceed thirty percent of the total last assessed valuation of the taxable property of the City. At June 30, 2018, the general obligation debt limit and available borrowing capacity of the City of West Wendover was $42,243,779.

NOTE 15. Closure and Post-Closure Care Cost

State and Federal laws and regulations require that the City place a final cover on its landfill sites and perform certain maintenance and monitoring functions at the landfill sites for a minimum of thirty years after closure. In addition to operating expenses related to current activities of the landfill sites, an expense provision and related liability should be recognized based on the future closure and post-closure care costs that will be incurred near or after the date the landfills no longer accepts waste. GASB Statement 18 requires the recognition of these landfill closure and post-closure care costs based on the amount of the landfill used during the year. The City does not report a liability for the estimated closure and post-closure care costs because it has passed a resolution that authorizes participation in the landfill assurance program established through the Nevada Public Agency Insurance Pool as a mechanism to demonstrate financial responsibility for the closure and post-closure care costs. Because the City has, in effect, transferred its responsibility for closure and post-closure care costs to another entity through the purchase of the insurance policy, the liabilities are not reported on the City's financial statements as per GASB 18.

The estimated liability for landfill closure and post-closure care costs under GASB Statement 18 requirements is $580,280 as of June 30, 2018. The City had two cells in operation during fiscal year 2018. The Class I cell has used 100% of available capacity and a new Class I cell was constructed in fiscal year 2016 according to the 2014 Volumetric Survey. The City is now in the process of creating new cells for operation. The estimated closure and post-closure costs are based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, and maintain landfill modules currently in use for the cell in operation during 2018. The City maintained an insurance policy with a face amount of $520,579 at June 30, 2018. The financial assurance shortfall between the insurance policy face amount and the estimated closure and post-closure care costs will need to be covered by the City using one of the allowable mechanisms found at NAC 444.68525. For fiscal year 2018, the shortfall is deemed to be covered by cash and investments on hand in the garbage/compost fund at year end. The City has set aside $59,701 in restricted cash to potentially fund a trust account as listed in note 4. The City plans to work with the Nevada Department of Environmental Protection to officially select and implement an allowable mechanism found at NAC 444.68525 during fiscal year 2018 to address the shortfall in coverage.

NOTE 16. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years.

The City has chosen to establish a risk financing fund for risks associated with the employee's health insurance plan. The risk financing fund is accounted for as an internal service fund where assets are set aside for claim settlement. A premium is charged to each function which accounts for full-time employees.

Liabilities of funds are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. There were no liabilities that met these criteria at June 30, 2018. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of pay-outs and other economic and social factors.

Changes in the balances of claims liabilities during the past three fiscal years are as follows:

Fiscal Year Ended June 30	Unpaid Claims Beginning of Fiscal Year	Incurred Claims	Claim Payments	Unpaid Claims End of Fiscal Year
2018	$ -	$ 651,673	$ 651,673	$ -
2017	$ -	$ 530,207	$ 530,207	$ -
2016	$ -	$ 428,050	$ 428,050	$ -

NOTE 17. Retirement and Pension Plans

Public Employees' Retirement System of Nevada (PERS)

Plan description

PERS administers a cost-sharing, multiple-employer, defined benefit public employees' retirement system which includes both Regular and Police/Fire members. The System was established by the Nevada Legislature in 1947, effective July 1, 1948. The System is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earnings capacities have been removed or substantially impaired by age or disability.

NOTE 17. Retirement and Pension Plans, Continued

Benefits provided

Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering the System on or after January 1, 2010. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Monthly benefit allowances for members are computed as 2.5% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this multiplier is 2.67% of average compensation. For members entering the System on or after January 1, 2010, there is a 2.5% multiplier.

The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

Post-retirement increases are provided by authority of NRS 286.575 - .579.

Vesting

Regular members are eligible for retirement at age 65 with five years of service, at age 60 with 10 years of service, or at any age with thirty years of service. Regular members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 62 with 10 years of service, or any age with thirty years of service.

Police/Fire members are eligible for retirement at age 65 with five years of service, at age 55 with ten years of service, at age 50 with twenty years of service, or at any age with twenty-five years of service. Police/Fire members entering the System on or after January 1, 2010, are eligible for retirement at 65 with five years of service, or age 60 with ten years of service, or age 50 with twenty years of service, or at any age with thirty years of service. Only service performed in a position as a police officer or firefighter may be counted towards the eligibility for retirement as Police/Fire accredited service.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

NOTE 17. Retirement and Pension Plans, Continued

Contributions

The authority for establishing and amending the obligation to make contributions and member contribution rates is set by stature. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans. Contributions are shared equally by employer and employee. Employees can take a reduced salary and have contributions made by the employer (EPC) or can make contributions by a payroll deduction matched by the employer.

The System's basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due.

The System receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450.

The actuary funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contributions requirement as a percentage of salary.

For fiscal years ended June 30, 2016, 2017, and 2018, the Statutory Employer/employee matching rate was 14.50% for Regular and 20.75% for Police/Fire.

For the fiscal year ended June 30, 2016, 2017, and 2018 the Employer-Pay Contribution (EPC) rate was 28% for Regular and 40.50% for Police/Fire.

The City's contributions for the current and two preceding fiscal years, all of which were equal to the required contributions, were as follows:

Year Ended June 30,	Regular Fund	Police/Fire Fund
2016	$ 220,400	$ 318,793
2017	228,592	330,642
2018	236,938	342,714

NOTE 17. Retirement and Pension Plans, Continued

Investment policy

The System's policies which determine the investment portfolio target asset allocation are established by the Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System. The following was the Board adopted policy target asset allocation as of June 30, 2017:

Asset Class	Target Allocation	Long-term Geometric Expected Real Rate of Return*
Domestic equity	42%	5.50%
International equity	18%	5.75%
Domestic fixed income	30%	0.25%
Private markets	10%	6.80%

*As of June 30, 2017, PERS' long-term inflation assumption was 2.75%.

Pension liability

Net pension liability

At June 30, 2018, the City reported a liability of $8,286,307 for its proportionate share of the PERS' net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer allocation percentage of the net pension liability was based on the total contributions due on wages paid during the measurement period. Each employer's proportion of the net pension liability is based on their combined employer and member contributions relative to the total combined employer and member contributions for all employers for the period ended June 30, 2017. The City's proportion measured as of June 30, 2017, was 0.06230 percent, which was an decrease of 0.00130 percent from its proportion measured as of June 30, 2016.

Pension liability discount rate sensitivity

The following presents the net pension liability of the PERS as of June 30, 2018, calculated using the discount rate of 7.50%, as well as what the PERS net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current discount rate:

	1% Decrease (6.50%)	Discount Rate (7.50%)	1% Increase (8.50%)
Proportionate share of Net pension (asset) / liability	$ 12,526,583	$ 8,286,307	$ 4,764,692

NOTE 17. Retirement and Pension Plans, Continued

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the PERS Comprehensive Annual Financial Report, available on the PERS website www.nvpers.org.

Actuarial assumptions

The City's net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.75%
Payroll growth	5.00%, including inflation
Investment rate of return	7.50%
Productivity pay increase	0.50%
Projected salary increases	Regular: 4.25% to 9.15%, depending on service Police/Fire: 4.55% to 13.90%, depending on service Rates include inflation and productivity increases
Consumer Price Index	2.75%
Other assumptions	Same as those used in the June 30, 2017 funding actuarial valuation

Actuarial assumptions used in the June 30, 2017 valuation were based on the results of the experience review completed in 2017.

The discount rate used to measure the total pension liability was 7.50% as of June 30, 2017 and 8.00% as of June 30, 2016. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the pension plan's fiduciary net position at June 30, 2017, was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2017 and June 30, 2016.

Pension expense and deferred outflows/inflows of resources related to pensions

For the year ended June 30, 2018, the City recognized pension expense for PERS of $587,952. At June 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

NOTE 17. Retirement and Pension Plans, Continued

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ -	$ 543,749
Net difference between projected and actual earnings on pension plan investments	53,801	-
Subtotal	603,519	543,749
Changes in proportion and differences between contributions and proportional share of contributions	338,045	428,457
Contributions subsequent to the measurement date	579,650	-
Total	$ 1,521,214	$ 972,206
Governmental activities	$ 1,242,559	$ 794,117
Business-type activities	278,655	178,089
	$ 1,521,214	$ 972,206

Average expected remaining service lives 6.39 years

The $579,650 reported as deferred outflows of resources related to PERS pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to PERS pensions, excluding the changes in proportion and differences between actual contributions and proportionate share of contributions will be recognized in pension expense as follows:

Year Ending June 30,	Deferred Outflows (Inflows) of Resources
2019	$ (148,600)
2020	192,364
2021	49,679
2022	(135,451)
2023	70,039
2024	31,740
Thereafter	-

NOTE 18. Restatement Adjustment

As mentioned in Note 1 to the financial statements, the City implemented the provisions of GASB Statement No. 82, *Pension Issues- an Amendment of GASB Statements No. 67, No. 68, and No. 73*. GASB Statement No. 82 improves consistency in the application of pension accounting and financial reporting requirements by addressing certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. This resulted in a restatement of beginning net position as follows:

	Governmental Activities	Business Activities	Component Unit	Total
Restatement adjustment - implementation of GASB 82:				
Total restatement adjustment	$ (586,107)	$ (110,313)	$ (13,842)	$ (710,262)

REQUIRED SUPPLEMENTARY INFORMATION

BUDGETARY COMPARISON SCHEDULES FOR THE FOLLOWING MAJOR FUNDS:

The **General Fund** is the City's primary operating fund. It accounts for all financial resources of the general government, except for those required to be accounted for in another fund.

The **Recreation Fund** is used to account for the City's share of room tax proceeds and the distribution of those funds to the recreation district.

SUPPLEMENTARY INFORMATION

NONMAJOR GOVERNMENTAL FUNDS

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

The **Seizure and Forfeiture Fund** is used to account for seizures and forfeitures received by the City under City Resolution 1992-09, as provided for in NRS 179.1187

The **Court Administrative Assessment Fund** is used to account for fees collected by the court as required by Nevada Revised Statues Section 176.059, which are used to improve the operations of the court.

The **Welcome Center Fund** is used to account for the merchandise sales and operations of the Welcome Center as established under City Resolution 2001-04.

The **Wendover Will Landmark Fund** is used to account for the construction, maintenance, and related revenues and expenditures associated with the Wendover Will Landmark as established by City Resolution 2005-01.

The **Grant Fund** is used to account for various grants receipts and expenditures as outlined in Resolution 1996-14.

Capital project funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds.

The **Capital Projects Fund** is used to account for the acquisition or construction of capital facilities as outlined in Resolution 1997-14.

The **Ad Valorem Capital Projects Fund** is used to account for revenue received from a special ad valorem tax that must be recorded in a capital projects fund and dedicated to capital project needs within the City, as established under NRS 268.045.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable Mayor and City Council
West Wendover, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of West Wendover, Nevada, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise City of West Wendover, Nevada 's basic financial statements and have issued our report thereon dated September 21, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of West Wendover, Nevada's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of West Wendover, Nevada's internal control. Accordingly, we do not express an opinion on the effectiveness of City of West Wendover, Nevada's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of West Wendover, Nevada's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

HINTONBURDICK
CPAs & ADVISORS

Independent Auditor's Report on Compliance With Statutes and Administrative Code in Accordance With NRS 354.624(4) and 354.6241

The Honorable Mayor and City Council
West Wendover, NV

We have audited the basic financial statements of the City of West Wendover, Nevada for the year ended June 30, 2018, and have issued our report thereon dated September 21, 2018. Our audit also included test work on the City of West Wendover's compliance with selected requirements identified in the State of Nevada Revised Statutes (NRS) including, but not limited to, NRS section 354.624 and section 354.6241.

The management of the City of West Wendover is responsible for the City's compliance with all requirements identified above. Our responsibility is to express an opinion on compliance with those requirements based on our audit and make specific statements regarding funds established and the status of prior year findings and recommendations; accordingly, we make the following statements:

The City of West Wendover had one prior year compliance finding that was resolved during fiscal year 2018.

We noted one new instance of noncompliance during fiscal year 2018. See note 3 on page 32.

The City of West Wendover has established several funds in accordance with NRS 354.624 as follows:

Enterprise Funds:
- Water Fund
- Sewer Fund
- Garbage / Compost Facility Fund

Funds whose balance is required to be used only for a specific purpose or carried forward to the succeeding fiscal year in any designated amount:

Special Revenue Funds:
- Seizure Forfeiture Fund
- Recreation Fund
- Court Administrative Assessment Fund
- Medical Clinic Facilities Fund (combined with the General Fund for reporting)
- Grants Fund
- Welcome Center Fund
- Wendover Will Landmark Fund

Capital Projects Funds:
- Capital Projects Fund
- Ad Valorem Capital Projects Fund

The City of West Wendover appears to be using the above listed funds expressly for the purposes for which they were created and in accordance with NRS 354.624. The funds are being administered in accordance with Generally Accepted Accounting Principles and the reserves, as applicable, appear reasonable and necessary to carry out the purposes of the funds. Sources of revenues available and fund balances and net position are reflected in the individual fund financial statements.

The statutory and regulatory requirements of the funds are as follows:

Water Fund:	NRS 354.517
Sewer Fund:	NRS 354.517
Garbage / Compost Facility Fund:	NRS 354.517
Seizure Forfeiture Fund:	Resolution 1992-09
Recreation Fund:	NRS 268.798
Court Administrative Assessment Fund:	NRS 176.059
Grant Fund:	Resolution 1996-14
Welcome Center Fund:	Resolution 2001-04
Wendover Will Landmark Fund	Resolution 2005-01
Capital Projects Fund	Resolution 1997-14
Ad Valorem Capital Projects Fund	NRS 268.045

NRS 354.624 requires that a schedule of all fees imposed by the City which were subject to the provisions of NRS 354.5989 be provided. The City has not increased any fees subject to the limitations provided by NRS 354.5989; however the schedule for these fees immediately follows this report.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, The City of West Wendover, Nevada complied, in all material respects, with the requirements identified above for the year ended June 30, 2018.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with NRS 354.624 and 354.6241. Our finding is described in note 3 of the financial statements. Our opinion on compliance is not modified with respect to these matters.

The purpose of this report is solely to describe the scope of our testing of the applicable compliance requirements identified in the Nevada Revised Statutes (NRS) and the results of that testing based on the state requirements. Accordingly, this report is not suitable for any other purpose.

The City of West Wendover herewith submits the (TENTATIVE) --- (FINAL) budget for the fiscal year ending June 30, 2024

This budget contains **1** funds, including Debt Service, requiring property tax revenues totaling $ **2,031,678**

The property tax rates computed herein are based on preliminary data. If the final state computed revenue limitation permits, the tax rate will be increased by an amount not to exceed 1%. _____ If the final computation requires, the tax rate will be lowered.

This budget contains **10** governmental fund types with estimated expenditures of $ **32,097,593** and **5** proprietary funds with estimated expenses of $ **6,736,501**

Copies of this budget have been filed for public record and inspection in the offices enumerated in NRS 354.596 (Local Government Budget and Finance Act).

"The City of West Wendover is an equal opportunity provider."

BUDGET MESSAGE 2023-2024

CITY OF WEST WENDOVER

The fiscal year 2023-2024 budget for the City of West Wendover includes an ending general fund balance that is 88.95% of fiscal year (FY) 2021-2022 actual general fund expenditures or 72.82% of FY2023-2024 projected budget general fund expenditures. The City anticipates transferring $609,664 from the general to the capital projects fund, $50,000 from the Ad-Valorem fund to the capital projects fund, and a total of $280,475 from the general fund to other funds for fiscal year 2023-2024.

West Wendover's economy is primarily tourism-based, making the city subject to economic fluctuations as consumers spend their discretionary income. Therefore, the City of West Wendover's governing council and city management have adopted a conservative budget philosophy, allowing the fund balances to increase in prosperous years, and conservatively utilizing the fund balances as needed in other years. The governing council and city management uses this conservative budgeting approach when estimating revenues, and expenditures.

In the general fund, from current fiscal year 2022-2023 ending projections, the fiscal year 2023-2024 budget reflects a 7.3% increase in property taxes due to the city increasing its property tax rate to 1.3514 in fiscal year 2022-2023. This budget also reflects a 5.6% decrease in licenses and permits, a 0.3% decrease in charges for services, but a 10.2% increase in fines and forfeitures, and a 12.9% increase in other revenue. Intergovernmental revenue reflects an 2.2% increase in the general fund, a 4.7% increase in room taxes in the recreation board fund, and increases in all of the proprietary funds for water, sewer and compost utilities.

The City is now moving forward on projects that were delayed due to the pandemic, including the construction of the City's Downtown Infrastructure, Phase 1 project, and the new West Wendover Fire Station/Emergency Operations Center (EOC) project. Unfortunately, due to supply chain issues and inflation the planned construction of the Community/Recreation Center, which will facilitate the continued development of the city, has been delayed.

The cannabis retail facility, Deep Roots Harvest, continues to have a very robust business and are in the final stages of plan approval for their cultivation/production facility which will be located adjacent the retail facility. Additionally, Vertical Horizon LLC is nearing completion of their cannabis cultivation/production facility also on Industrial Way. Both of these cultivation/production facilities are planned to be open fall of 2023. These projects are part of the City's continued efforts to capitalize on its Industrial Park properties.

The City continues to see commercial retail development occur including the completion of a new multi-million-dollar Maverik C-store Truck Stop which is located on the north side of I-80 at, Exit 410. Additionally, in this same area, a multi-million-dollar TA Travel Center is now ready to begin construction. This project includes a truck stop/fueling facility with a large truck parking area as well as a 15,000 sqft C-store along with two Quick Service Restaurants (QSR's) which are KFC and Dell Taco. The project also includes a separate auto fueling island. Along with the TA project, an additional retail food business, Black Bear Diner, will be opening just north of the existing Maverik. This project is also ready to begin construction. All these new commercial additions will be complete by mid-2024 and will add an additional 250 construction jobs and an additional 75 long-term jobs to the community.

The Port of West Wendover, which is a long-term mixed use industrial/aeronautical project and part of the City's diversification strategic plan continues to proceed forward. The project includes the acquisition (at no cost) of an initial 6,000 acres of property which was part of the former the Wendover Airfield and Bombing and Gunnery Range of World War II. The Air Force has relinquished said property back to the Department of the Interior/Bureau of Land Management (BLM) and the BLM has completed their environmental assessment (EA) process and is now completing the Cadastral Survey work to initiate a land patent on the first phase which will be just over 4,000 acres. The land patent is expected to be issued in early 2024.

The City continues to see modest permit issuance for new residential construction as available housing inventory has decreased since the beginning of 2020. An 88-unit condominium project is currently in the plan approval process and is associated with the Maverick Gaming operations residential developments. This project is expected to complete plan approval process by the fall of 2023 with construction to follow.

Our outlook at the City long-term remains positive and optimistic. The enthusiasm associated with the recent and planned growth of our City is shared not only by our City Officials, but our citizens as well. We continue to feel that our community's future is full of promise and look forward to a better national and state economy that will have a positive effect on our community.

FOR PAYER/BORROWER

The information in boxes 1 through 9 is important tax information and is being furnished to the IRS. If you are required to file a return, a negligence penalty or other sanction may be imposed on you if the IRS determines that an underpayment of tax results because you overstated a deduction for this mortgage interest or for these points reported in boxes 1 and 6; or because you didn't report the refund of interest (box 4); or because you claimed a nondeductible item.

Re: City of West Wendover, Nevada, Consolidated Tax Revenue Interim Debenture (West Wendover Fire Station Project), Series 2022 (the "Interim Debenture")

Ladies and Gentlemen:

Western Alliance Business Trust is pleased to provide the following commitment letter for the Interim Debenture which has received credit approval, pending final due diligence, receipt of a concurrence letter from the USDA, document review and normal "out provisions".

Borrower:	City of West Wendover, Nevada (the "Borrower" and "City")
Purchaser:	Western Alliance Business Trust, a Delaware statutory trust (the "Purchaser")
Permanent Lender:	United States Department of Agriculture ("USDA")
Permanent Financing:	USDA Direct Loan – Not to exceed $8,906,800 ("USDA Direct Loans")
Borrower Cash Contribution:	$85,000
Commitment Amount:	Up to $8,906,800
Project:	Acquire, improve, equip, operate and maintain fire protection projects for the West Wendover Fire Station (the "Project").
Purpose:	The proceeds from the Interim Debenture will be used to: 1) pay the costs of the Project; and 2) pay costs of issuance associated with the Interim Debenture.
Final Maturity:	January 1, 2024.
Interest Payments:	Semi-annual interest payments on January 1 and July 1 commencing on July 1, 2022 through January 1, 2024. Interest on the Interim Debenture is to be computed on the basis of a year comprised of 360 days consisting of twelve (12) months of thirty (30) days each.
Principal Payments:	Interim Debenture due upon full prepayment or Final Maturity Date.
Interest Rate Pricing:	The Interim Debenture will be funded at par and at a fixed rate of interest based on the following formula: 79% of the sum of the 2-Year USD Semi-Annual Interest Rate Swap Rate plus 2.75% (tax-exempt fixed rate). The interest rate is **3.48%**. The interest rate will be held through Thursday, March 31, 2022. See Exhibit A – Interest Rate Lock herein.

Reserve Requirement: Not required for the Interim Debenture.

Prepayment Provisions: The Interim Debenture may be prepaid, at the option of the Borrower in whole, or in part, on any date on or after January 1, 2023, at par plus accrued interest to the date of prepayment, without premium.

Security: The Interim Debenture will be secured by a lien on Pledged Revenues (as defined below) and the proceeds of the takeout financing.

Pledged Revenues: The Pledged Revenues are comprised of 15% of certain proceeds of liquor taxes, tobacco taxes, real property transfer taxes, basic governmental services tax and basic and supplemental sales taxes distributed to the City (the "Pledged Revenues").

Funds: In connection with the financing of the Interim Debenture, there shall be established with Western Alliance Bank the following bancontrol funds:

1) Project Fund; and

2) Costs of Issuance Fund.

The initial disbursement of funds will be made to the Borrower upon review and approval of such costs by the Purchaser. All subsequent disbursements of funds will be made to the Borrower upon review and approval of such costs by the USDA. The Purchaser will only disburse funds upon receipt of approval by the USDA.

Advances: The Interim Debenture will be disbursed to a Project Fund pursuant to a draw schedule fixed at closing and amounts on deposit in the Project Fund will be available to fund Project costs as set forth below.

Advances will be made to the Borrower from the Project Fund up to and including December 31, 2023 upon receipt of an advance request not later than the Business Day which is ten (10) Business Days immediately prior to the day of the requested advance and at least ten (10) Business Days immediately preceding the commitment termination date and further conditioned upon review and approval of the Project costs set forth in such advance request by the Purchaser and the USDA.

In the event of a federal shut down or other event causing a delay in USDA operations that prevents the USDA's timely approval of any draw request that is otherwise approved by the Purchaser, the Purchaser shall proceed with the advancement of such funds to the Trustee, with the general understanding that USDA has agreed to provide its approval of such draw request after operations recommence and to reimburse the Purchaser for any additional costs directly attributable to such delay.

Legal Opinion(s):

Opinion of Bond Counsel, among other things, as to:

1) treatment of interest payments under the Interim Debenture as exempt from federal income taxes;
2) the validity and enforceability of the Interim Debenture and the Pledged Revenues being duly and validly authorized pursuant to the law; and
3) the Interim Debenture is secured by a valid lien on Pledged Revenues and the proceeds of the takeout financing.

Bond Counsel shall deliver a supplemental opinion as to the Interim Debenture being exempt from registration pursuant to the Securities Act of 1933, as amended.

A certificate of the City Attorney will be delivered at closing in the form acceptable to the Purchaser and the Purchaser's Counsel.

Additional Obligations:

The City may issue additional obligations on parity with the Interim Debenture.

Take-Out Financing:

The City will take all actions, as contemplated under Section 13 of the ordinance, to obtain financing from the USDA or any other financing source to provide funds to refund all or a portion of the Interim Debenture prior to maturity and apply all such funds upon receipt to prepay the Interim Debenture.

Documentation:

Bond Counsel will prepare all of the legal documentation, which will contain customary affirmative and negative covenants as well as usual representations and warranties for like situated borrowers acceptable to the Purchaser. Events of Default shall include those that are deemed standard and customary for transactions of this nature all of which shall be subject to satisfactory review by the Purchaser.

Conditions Precedent:

Prior to the funding of the Interim Debenture, the following conditions precedent shall have occurred, all of which shall be in form and substance satisfactory to the Purchaser and the Purchaser's Counsel:

1) satisfactory review by the Purchaser's Counsel of any outstanding agreements entered into by the Borrower which may impact the security for the Interim Debenture or the obligations of the Borrower with respect to repayment the Interim Debenture;
2) any authorizing resolution of the Borrower as required for the execution, delivery and repayment of the Interim Debenture;
3) opinions as required by the Purchaser and the Purchaser's Counsel;
4) properly executed loan documents in form and substance satisfactory to the Purchaser and the Purchaser's counsel evidencing or supporting the repayment of the Interim Debenture;
5) all other conditions as contemplated under the USDA Letter of Conditions;
6) a projected draw schedule delivered prior to closing; and
7) additional conditions precedent that the Purchaser and the Purchaser's Counsel consider customary and reasonably appropriate for the funding of the Interim Debenture.

Loan Treatment: The Original Purchaser will book the Interim Debenture as a loan, and, therefore, the Interim Debenture will be made under the following conditions:

1) the Interim Debenture shall not be registered or otherwise qualified for sale under the "Blue Sky" laws;
2) the Purchaser will satisfy the requirements of Municipal Securities Rulemaking Board Rule G-34(a)(i)(F), such that no CUSIP numbers will be obtained for the Interim Debenture (See "Assignment and Participation" herein);
3) no official statement or similar offering document has been prepared in connection with the private placement of the Interim Debenture;
4) the Interim Debenture will not settle through the DTC or any similar repository and will not be in book entry form; and
5) the Purchaser will sign a letter of representations in a form acceptable to Original Purchaser's Counsel and Bond Counsel.

Origination Fee: 25 basis points of the original principal amount of the Interim Debenture. No termination or other ongoing fees.

Expenses: All other out of pocket costs, including but not limited to Bond Counsel fee, Purchaser's origination fee, Purchaser's Counsel fees, with a cap of $10,000 (provided there is limited negotiation of the documentation), and other customary closing costs.

Bond Counsel: Sherman & Howard LLC / Reno, Nevada

Municipal Advisor: Zions Public Finance / Las Vegas, Nevada

Purchaser's Counsel: Stradling Yocca Carlson & Rauth, P.C. / Reno, Nevada

Pre-Closing Date: Monday, March 28, 2022 (Estimated)

Closing Date: Wednesday, March 30, 2022 (Estimated)

No Fiduciary Relationship: Inasmuch as the Interim Debenture represents a negotiated transaction, the City understands, and will confirm that the Purchaser is not acting as a fiduciary to the City, but rather is acting solely in its capacity as an investment for its own account. The District will acknowledge and agree that:

1) the transaction contemplated herein is an arm's length commercial transaction between the City and the Purchaser and its affiliates;
2) in connection with such transaction, the Purchaser and its affiliates are acting solely as a principal and not as an advisor including, without limitation, a "Municipal Advisor" as such term is defined in Section 15B of the Securities and Exchange Act of 1934, as amended, and the related final rules (the "Municipal Advisor Rules");
3) the Purchaser and its affiliates are relying on the bank exemption in the Municipal Advisor Rules;
4) the Purchaser and its affiliates have not provided any advice or assumed any advisory or fiduciary responsibility in favor of the City with respect to the transaction contemplated hereby and the discussions, undertakings and procedures leading

thereto;

5) the Purchaser and its affiliates have financial and other interests that differ from those of the City; and
6) the City has consulted with its own financial, legal, accounting, tax and other advisors, as applicable, to the extent it deemed appropriate.

Reporting Requirements:

The City shall provide the Purchaser with the following documentation and information within nine (9) months of the City's fiscal year end:

1) Audited financial statements of the City for the preceding fiscal year; and
2) Certification of the City that it is not aware of any default or Event of Default hereunder or in connection with the Interim Debenture.

The Borrower shall provide the Purchaser with its annual approved operating budget within one (1) month after its adoption.

The Purchaser shall receive notice of any material impact to the Borrower's financial position. The Borrower shall furnish at the Purchaser's request such additional information that the Purchaser may from time to time reasonably request.

Construction Monitoring:

The Borrower is required to provide monthly construction reports within 30 days of each monthly period. Construction reports to include the following due diligence items:

1) A summary of the Project status including pictures;
2) An update on Permitting, Design and Construction Progress;
3) A Project Budget including the approved budget, any change orders or budget reallocations, forecasted costs, amounts and percentages remaining to complete and use of contingency; and
4) A Project Schedule with milestone completion dates and variances.

Submitted on behalf of Western Alliance Bank and its affiliate, Western Alliance Business Trust.

Re: City of West Wendover, Nevada, Consolidated Tax Revenue Interim Debenture (Downtown Development Infrastructure Phase 1 Project), Series 2022 (the "Interim Debenture")

Ladies and Gentlemen:

Western Alliance Business Trust is pleased to provide the following commitment letter for the Interim Debenture which has received credit approval, pending final due diligence, receipt of a concurrence letter from the USDA, document review and normal "out provisions".

Borrower:	City of West Wendover, Nevada (the "Borrower" and "City")
Purchaser:	Western Alliance Business Trust, a Delaware statutory trust (the "Purchaser")
Permanent Lender:	United States Department of Agriculture ("USDA")
Permanent Financing:	USDA Direct Loan – Not to exceed $5,789,400 ("USDA Direct Loan")
Grants:	State of Nevada, Community Development Block Grant ($325,000) and Nevada Gold Mines ($400,000)
Borrower Cash Contribution:	$569,799.67
Commitment Amount:	Up to $5,789,400
Project:	Street improvements consisting of the extension of Pueblo Boulevard (a major arterial street) from the intersection of Wendover Blvd/Pueblo Boulevard north approximately 900 ft. along with related public infrastructure to serve the Phase 1 Downtown Development (the "Project").
Purpose:	The proceeds from the Interim Debenture will be used to: 1) pay the costs of the Project; and 2) pay costs of issuance associated with the Interim Debenture.
Final Maturity:	August 1, 2024.
Interest Payments:	Semi-annual interest payments on February 1 and August 1 commencing on February 1, 2023, through August 1, 2024. Interest on the Interim Debenture is to be computed on the basis of a year comprised of 360 days consisting of twelve (12) months of thirty (30) days each.
Principal Payments:	Interim Debenture due upon full prepayment or Final Maturity Date.

Interest Rate Pricing: The Interim Debenture will be funded at par and at a rate of interest based on the following formula:

79% of the sum of the 2-Year U.S. Treasury Actives Spot Rate plus 2.25% (tax-exempt fixed rate). The interest rate is **4.57%**. The interest rate will be held through Thursday September 15, 2022. See Exhibit A – Interest Rate Lock herein.

Reserve Requirement: Not required for the Interim Debenture.

Prepayment Provisions: The Interim Debenture may be prepaid, at the option of the Borrower in whole, or in part, on any date on or after August 1, 2023, at par plus accrued interest to the date of prepayment, without premium.

Security: The Interim Debenture will be secured by a lien on Pledged Revenues (as defined below) and the proceeds of the takeout financing.

Pledged Revenues: The Pledged Revenues are comprised of 15% of certain proceeds of liquor taxes, tobacco taxes, real property transfer taxes, basic governmental services tax and basic and supplemental sales taxes distributed to the City (the "Pledged Revenues").

Funds: In connection with the financing of the Interim Debenture, there shall be established with Western Alliance Bank the following bancontrol funds:

1) Project Fund; and

2) Costs of Issuance Fund.

The initial disbursement of funds will be made to the Borrower upon review and approval of such costs by the Purchaser. All subsequent disbursements of funds will be made to the Borrower upon review and approval of such costs by the USDA. The Purchaser will only disburse funds upon receipt of approval by the USDA.

Advances: The Interim Debenture will be disbursed to a Project Fund pursuant to a draw schedule fixed at closing and amounts on deposit in the Project Fund will be available to fund Project costs as set forth below.

Advances will be made to the Borrower from the Project Fund up to and including June 30, 2024 upon receipt of an advance request not later than the Business Day which is ten (10) Business Days immediately prior to the day of the requested advance and at least ten (10) Business Days immediately preceding the commitment termination date and further conditioned upon review and approval of the Project costs set forth in such advance request by the Purchaser and the USDA.

In the event of a federal shut down or other event causing a delay in USDA operations that prevents the USDA's timely approval of any draw request that is otherwise approved by the Purchaser, the Purchaser shall proceed with the advancement of such funds to the Trustee, with the general understanding that USDA has agreed to provide its approval of such draw request after operations recommence and to reimburse the Purchaser for any additional costs directly attributable to such delay.

Legal Opinion(s):

Opinion of Bond Counsel, among other things, as to:

1) treatment of interest payments under the Interim Debenture as exempt from federal income taxes;
2) the validity and enforceability of the Interim Debenture and the Pledged Revenues being duly and validly authorized pursuant to the law; and
3) the Interim Debenture is secured by a valid lien on Pledged Revenues and the proceeds of the takeout financing.

Bond Counsel shall deliver a supplemental opinion as to the Interim Debenture being exempt from registration pursuant to the Securities Act of 1933, as amended.

A certificate of the City Attorney will be delivered at closing in the form acceptable to the Purchaser and the Purchaser's Counsel.

Additional Obligations:

The City may issue additional obligations on parity with the Interim Debenture.

Take-Out Financing:

The City will take all actions, as contemplated under Section 13 of the ordinance, to obtain financing from the USDA or any other financing source to provide funds to refund all or a portion of the Interim Debenture prior to maturity and apply all such funds upon receipt to prepay the Interim Debenture.

Documentation:

Bond Counsel will prepare all of the legal documentation, which will contain customary affirmative and negative covenants as well as usual representations and warranties for like situated borrowers acceptable to the Purchaser. Events of Default shall include those that are deemed standard and customary for transactions of this nature all of which shall be subject to satisfactory review by the Purchaser.

Conditions Precedent:

Prior to the funding of the Interim Debenture, the following conditions precedent shall have occurred, all of which shall be in form and substance satisfactory to the Purchaser and the Purchaser's Counsel:

1) satisfactory review by the Purchaser's Counsel of any outstanding agreements entered into by the Borrower which may impact the security for the Interim Debenture or the obligations of the Borrower with respect to repayment the Interim Debenture;
2) any authorizing resolution of the Borrower as required for the execution, delivery and repayment of the Interim Debenture;
3) opinions as required by the Purchaser and the Purchaser's Counsel;
4) properly executed loan documents in form and substance satisfactory to the Purchaser and the Purchaser's counsel evidencing or supporting the repayment of the Interim Debenture;
5) all other conditions as contemplated under the USDA Letter of Conditions;
6) a projected draw schedule delivered prior to closing; and
7) additional conditions precedent that the Purchaser and the Purchaser's Counsel consider customary and reasonably appropriate for the funding of the Interim Debenture.

Loan Treatment:

The Original Purchaser will book the Interim Debenture as a loan, and, therefore, the Interim Debenture will be made under the following conditions:

1) the Interim Debenture shall not be registered or otherwise qualified for sale under the "Blue Sky" laws;
2) the Purchaser will satisfy the requirements of Municipal Securities Rulemaking Board Rule G-34(a)(i)(F), such that no CUSIP numbers will be obtained for the Interim Debenture (See "Assignment and Participation" herein);
3) no official statement or similar offering document has been prepared in connection with the private placement of the Interim Debenture;
4) the Interim Debenture will not settle through the DTC or any similar repository and will not be in book entry form; and
5) the Purchaser will sign a letter of representations in a form acceptable to Original Purchaser's Counsel and Bond Counsel.

Origination Fee: 25 basis points of the original principal amount of the Interim Debenture. No termination or other ongoing fees.

Expenses: All other out of pocket costs, including but not limited to Bond Counsel fee, Purchaser's origination fee, Purchaser's Counsel fees, with a cap of $10,000 (provided there is limited negotiation of the documentation), and other customary closing costs.

Bond Counsel: Sherman & Howard LLC / Reno, Nevada

Placement Agent: Zions Public Finance / Las Vegas, Nevada

Purchaser's Counsel: Stradling Yocca Carlson & Rauth, P.C. / Reno, Nevada

Pre-Closing Date: Tuesday September 13, 2022

Closing Date: Thursday September 15, 2022

No Fiduciary Relationship: Inasmuch as the Interim Debenture represents a negotiated transaction, the City understands, and will confirm that the Purchaser is not acting as a fiduciary to the City, but rather is acting solely in its capacity as an investment for its own account. The District will acknowledge and agree that:

1) the transaction contemplated herein is an arm's length commercial transaction between the City and the Purchaser and its affiliates;
2) in connection with such transaction, the Purchaser and its affiliates are acting solely as a principal and not as an advisor including, without limitation, a "Municipal Advisor" as such term is defined in Section 15B of the Securities and Exchange Act of 1934, as amended, and the related final rules (the "Municipal Advisor Rules");
3) the Purchaser and its affiliates are relying on the bank exemption in the Municipal Advisor Rules;
4) the Purchaser and its affiliates have not provided any advice or assumed any advisory or fiduciary responsibility in favor of the City with respect to the transaction contemplated hereby and the discussions, undertakings and procedures leading thereto;
5) the Purchaser and its affiliates have financial and other interests that differ from those of the City; and

6) the City has consulted with its own financial, legal, accounting, tax and other advisors, as applicable, to the extent it deemed appropriate.

Reporting Requirements:

The City shall provide the Purchaser with the following documentation and information within nine (9) months of the City's fiscal year end:

1) Audited financial statements of the City for the preceding fiscal year; and
2) Certification of the City that it is not aware of any default or Event of Default hereunder or in connection with the Interim Debenture.

The Borrower shall provide the Purchaser with its annual approved operating budget within one (1) month after its adoption.

The Purchaser shall receive notice of any material impact to the Borrower's financial position. The Borrower shall furnish at the Purchaser's request such additional information that the Purchaser may from time to time reasonably request.

Construction Monitoring:

The Borrower is required to provide monthly construction reports within 30 days of each monthly period. Construction reports to include the following due diligence items:

1) A summary of the Project status including pictures;
2) An update on Permitting, Design and Construction Progress;
3) A Project Budget including the approved budget, any change orders or budget reallocations, forecasted costs, amounts and percentages remaining to complete and use of contingency; and
4) A Project Schedule with milestone completion dates and variances.

Submitted on behalf of Western Alliance Bank and its affiliate, Western Alliance Business Trust.

TAX-EXEMPT INTEREST RATE[3]	4.06%

(1) Bloomberg Finance L.P. - 2 year U.S. Treasury Active Spot Rate as of Thursday September 1, 2022, rounded to the nearest one hundredth percentage. See below for Screen Shot.

(2) Based on a federal corporate tax rate of 21%

(3) The interest rate is rounded to the nearest one hundredth and will expire if the 2022 Loan are not funded by Thursday September 15, 2022.

BLOOMBERG FINANCE L.P. SCREEN SHOT OF USD 2 YEAR TENOR AS OF THURSDAY SEPTEMBER 1, 2022.

CITY OF WEST WENDOVER
FIVE YEAR CAPITAL IMPROVEMENT PROJECTS PLAN
FISCAL 2023-2024 thru 2027-2028
By Priority

√ Denotes Project process, engineering design and/or construction underway.

2023-2024

1. **√ CITY DOWNTOWN INFRASTRUCTURE PHASE 1 – COST ($7,084,199).**
With the City proceeding with planned development initiatives on the City Center/Downtown property Phase 1 infrastructure needs to be completed. This infrastructure will include an extension to Pueblo Boulevard to the north of approximately 900 feet in a complete street design as well as related utility infrastructure which will service the Phase 1 area that will contain approximately 60 acres of land for commercial development.

Progress Report: Project under construction, completion scheduled for September 2023. Funding by USDA loan, Nevada CDBG Grant, U.S. EDA Grant, NGM Grant and General Fund ARP Allocation. FY2023-2024

2. **√ FIRE STATION FACILITY – COST ($14,773,822).**
The current Fire Station is located on private land, which the City has leased on a yearly basis. The existing facility is limited in size and capability given its initial size and related construction and the property owner has chosen not to provide future lease of the facility. The community has more than quadrupled in size since the original facility was built and now the long-term needs of the community are not being met. The City has a site selected and partially developed to accommodate the new fire station facility, located adjacent to the City Hall on N. Gene L. Jones Way. The project is currently completing design and scheduled for construction late fall of 2023 under a Design/Build Contract with CORE Construction.

Progress Report: Design nearing completion, construction scheduled for late fall 2023 with expected one year construction. This project to be funded through USDA loan (obligated) and General Fund ARP Allocation and Other Grants/Loans FY 2023-2024

3. **√ INTEROPERABILITY, POLICE, POLICE DISPATCH AND EMERGENCY SERVICES TOWER/MOBILE DATA – COST *($426,000)***
The City of West Wendover continues its progress with regard to upgrades to the City's interoperability for Public Safety which includes adding an additional radio tower at the Public Works Facility to enhance coverage of the eastern end of the community along with providing increased signal penetration of commercial buildings for radio traffic. This project also includes upgrades to the Police Dispatch System for capability to integrate, use and transmit GIS, law enforcement and emergency services information from Dispatch to officers and personnel on the street via wireless networking and related equipment in vehicles.

Progress Report: Tower site location chosen, FAA permit in process for location. GIS base mapping complete, dispatch system has base capabilities for networking. Funding to be provided by General Fund and DOJ Technology Grant currently in place. Construction completion spring 2024. FY 2023-2024

4. **√ WEST WENDOVER CLINIC DIGITAL X RAY UPGRADE – COST ($320,000).**
This project is to complete an upgrade to the West Wendover Clinic Digital X-ray machine and related equipment. The project is being funded through a grant obtained through the Health Resources and Services Administration (HRSA).

Progress Report: X-ray acquisition process initiated. Completion of project by January 2024. Funding through HRSA Grant. FY 2023-2024

5. **√ ACQUISITION/CONVEYANCE OF AIR FORCE PROPERTY PHASE 1 (PORT OF WEST WENDOVER) INCLUDING ANNEXATION – COST ($50,000).**
The City of West Wendover has adopted the development plan for the first 3,000 of 6,000+ acres of U.S.A.F. Property to be developed in part as the Port of West Wendover. In September 2014 the Air Force submitted their letter of relinquishment for Phase 1 which contains 6,000 acres to the Bureau of Land Management (BLM). The BLM is now completing the necessary environmental assessment and related reports in conjunction and coordination with work by the U.S.A.F. regarding an identified CERCLA site. Once this work is completed the process of conveyance will proceed providing the properties to the city. Though the conveyance itself is at no cost, there is anticipation of some costs administratively with regard to completing the process and annexing the property into the city limits.

Progress Report: U.S. Public Law 107-314 signed into law on December 2, 2002 authorizes the conveyance of approximately 15,000 acres of property to the City of West Wendover, Nevada and Tooele County, Utah. The property use has been reassessed and the conveyance will now contain approximately 6,000 acres. BLM has completed the EA and is preparing to convey just over 4,000 acres under stipulation with the City, with the remaining approximately 2,000 acres now in an appeal process with the Board of Land Appeals under a filing by the City due to removal of such property from conveyance consideration by the BLM. BLM estimates conveyance should occur first half of calendar 2024. Funding by Federal Government, Tooele County, Utah and General Fund. FY 2023-2024

6. **√ INFRASTRUCTURE NORTH INTERSTATE 80 EXIT #410, PHASE 2, LEPPY HILLS BLVD, N. FLORENCE WAY EXTENSION AND OTHER UTILITIES – COST ($4,200,000).**
The City of West Wendover has planned development initiatives, which include infrastructure (arterial, collector streets and utility services) on the north side of Exit #410 at Interstate 80. This area includes access to public federal lands including the Leppy Hills Trails complex in addition to commercial development areas and continued access to the NDOT maintenance facility. The project fulfills obligations of the City under the Memorandum of Understanding executed in 2009 between the City of West Wendover, Nevada Department of Transportation and the Federal Highway Administration for access at Interstate 80, Exit 410. The infrastructure would establish necessary public improvements for this area. The project includes pedestrian accesses related to Exit 410 which may be phased.

Progress Report: Funding sources Private Funding via current developments. FY 2023-2024

7. **√ LOGISTICS DRIVE EXTENSION PROJECT – COST ($805,000).**
This project is to complete Logistics Drive in the Industrial Park. The extension is approximately 800 feet in length and includes curb, gutter, sidewalk and necessary street lighting. Other main utilities are currently in place. City Council has approved this project to proceed.

Progress Report: Project funding through the General Fund. FY 2023-2024

2024-2025

8. **√ ACQUIRE AERIAL PLATFORM CLASS 1 ENGINE 2000 GPM – COST ($1,000,000).**
At this time, with our existing equipment, it is difficult to reach 30-foot buildings or higher. Evacuation from such roofs of buildings may be necessary in the future and this equipment would facilitate such evacuations. An added benefit to this type of unit is a substantial decrease in insurance costs throughout the community.

Progress Report: This project is to be funded through a medium-term loan and/or grant through USDA Rural Development or Other. FY 2024-2025

9. **DOWNTOWN DEVELOPMENT INFRASTRUCTURE PHASE 2 – COST ($4,122,012).**
This project will complete the public improvements that were not able to be completed in Phase 1 due to cost. Phase 2 includes the utility/restroom building as well as the recreation splash pad associated with the Victory Plaza in the new downtown.

Progress Report: Engineering estimate complete based upon the Phase 1 pricing. Project funding application submittal made through Congressional Direct Funding FY24. Project funding through HUD Grant (Congressional) and General Fund. FY 2024-2025

10. **REUSE LINE REPLACEMENT FROM WASTE WATER FACILITY TO TOANA VISTA GOLF COURSE STORAGE FACILITY – COST ($4,181,292).**
This project includes replacement of approximately 14,416 feet of existing reclaimed (reuse) water pipeline of various diameters to new 10" C-900 DR-18 PVC pipe. The project will include several combination air valve stations and other appurtenances to allow transfer or reclaimed water produced by the wastewater treatment facility to the Toana Vista Golf Course for use as irrigation water for the summer irrigation season.

Progress Report: Preliminary Engineering Report has been completed. Project has been submitted to SRF for Funding. Funding through SRF Loan/Grant. FY 2024-2025

11. **WASTE WATER TREATMENT FACILITY COMPRESSOR REPLACEMENT – COST ($114,000).**
This project will include replacement of the existing air compressor which provide process air for the treatment facility.

Progress Report: Engineering estimate complete. Project funding submittal complete to SRF. Project funding through Sewer Fund and SRF Loan/Grant. FY 2024-2025

12. **WASTE WATER TREATMENT FACILITY MBR FILTER REPLACEMENT – COST ($1,717,000).**
The existing MBR filters have reached their useful design life and are showing signs of deterioration and wear. An ever-increasing amount of effort and cost is being expended keeping these filters functioning. This project will replace all the existing MBR filters with new filters of the same manufacturer to bring the plant back to full capacity and efficiency.

Progress Report: Engineering estimate complete. Project funding submittal complete to SRF and Congressional Direct Spending application. Project funding through Sewer Fund and SRF Loan/Grant and NDEP through Congressional program. FY 2024-2025

2025-2026

13. **√ WEST WENDOVER COMMUNITY AND RECREATION CENTER – COST ($12,000,000).**
The city recently completed a 5-year Comprehensive Economic Development Strategy (CEDS) as part of the State of Nevada CEDS process. Through the process, the development of a Community and Recreation Center was one of the top 3 goals established by the CEDS committee. The project would include a Senior Center, Library (to be operated by the Elko County Library System), Food Bank as well as various indoor recreational amenities. The facility would be owned, developed and financed under the provisions of NRS 277.0705 wherein a cooperative agreement between the City of West Wendover and the West Wendover Recreation District would be established.

Progress Report: A combination of funding is being sought for the project. The City and the West Wendover Recreation District have adopted a previous Joint Resolution (No. 2020-01) which sets forth the parameters of entering into a Cooperative Agreement pursuant to NRS 277.0705. Funding by USDA, City and WWRD and potential private funding. FY 2025-2026

14. **PUEBLO BOULEVARD/ N. TIBBETS BOULEVARD STORM DRAIN PROJECT PHASE 4 – COST ($110,000).** During calendar 2014 and 2015 the city experienced several severe flooding events which required additional storm drainage improvements, modification and evaluation. An evaluation of the impacts and solutions based on these events has been completed by the City Engineer. Based on the findings and approval of Council, the city completed the Storm Drain Project Phase 1 and 2 in 2017 and in 20120 Phase 3 which was a storm water detention basin along Pueblo Boulevard, east of Alpine Street. Phase 4 is the construction of additional storm water detention and sedimentary basins along the west side of N. Tibbets Boulevard that feed into the main system at the intersection of N. Tibbets and Pueblo Boulevard.

Progress Report: Initial design complete for Phase 4 and coordination with private property holdings in process. Funding by City Capital Projects Fund and possible private resources. FY2025-2026

15. **3 MILE RESERVOIR REHABILITATION – COST ($261,400).**
The reservoir is a 1.5 MG potable water storage facility which receives water from the city owned sources located within the Goshute valley approximately 25 miles west of West Wendover, Nevada. In 2010 the synthetic liner in the facility was replaced and is now showing signs of deterioration and leakage along with visual degradation of concrete within the reservoir. The proposed project will address these issues wherein the existing liner will be removed and the concrete structure will be repaired. These repairs will include grinding and patching natural cracks, repairing chipped and spalled concrete and general reconditioning of the concrete as required. A deteriorated concrete column which supports the aluminum cover will also be demolished and replaced. Following this work, a new synthetic liner will be installed to complete the project.

Progress Report: Estimates completed. This project is intended to be funded through the Johnson Springs Enterprise Fund and NDEP/SRF Loan/Grant or Other Grant. FY 2025-2026

16. **RECLAIMED WATER TANK RECOAT – COST ($82,974)**
This project includes the cleaning and restoration of the interior and exterior surfaces of the reclaimed water storage tank. The tank will be drained, cleaned and blasted to a white metal finish and recoated using a system compatible with reuse water. During the cleaning and prep phase of the project, the tank structure will be evaluated for corrosion and deterioration and repaired as needed.

Progress Report: Engineering estimate complete. Project funding submittal complete to SRF. Project funding through Water Fund and SRF Loan/Grant. FY 2025-2026

17. **WASTE WATER TREATMENT FACILITY BASIN REPAIR – COST ($378,300).**
This project will address cracks and leaks that have become problematic on the basin at the Waste-Water Treatment Plant. Project will consist of surface preparation and application of waterproofing treatment to the interior walls of the basin.

Progress Report: Engineering estimate complete. Project funding submittal complete to SRF. Project funding through Sewer Fund and SRF Loan/Grant. FY 2025-2026

18. **ASBESTOS LINE REPLACEMENT WENDOVER BOULEVARD – COST ($1,004,968).**
This project replaces approximately 2,020 feet of existing asbestos cement (A/C) water pipe along Wendover Boulevard beginning at the intersection of SR93A and extending east towards the state line.

Progress Report: Engineering estimate complete. Project funding submittal complete to SRF. Project funding through Water Fund and SRF Loan/Grant. FY 2025-2026

19. **WENDOVER REGIONAL MULTI MODAL ENHANCEMENT PROJECT PHASE 1A (N. GENE L. JONES WAY TO RED GARTER ST) – COST ($3,858,278).**
As traffic frequency and load increases with the growth of the community, areas of Wendover Boulevard will require rehabilitation in order to be able to support vehicle traffic, incorporate safe streets programs and provide for multi-modal enhancements. Phase 1A includes street widening and center islands, bicycle lanes, increased pedestrian access and lighting.

Progress Report: Estimates completed and conceptual programming completed. This project is intended to be funded through General Fund and/or RTC Funds combined with, NDOT and USDOT Funding Programs in addition to Private Funding. FY 2025-2026

20. **WENDOVER REGIONAL MULTI MODAL ENHANCEMENT PROJECT PHASE 1B (RED GARTER ST TO US93A) – COST ($11,444,835).**
As traffic frequency and load increases with the growth of the community, areas of Wendover Boulevard will require rehabilitation in order to be able to support vehicle traffic, incorporate safe streets programs and provide for multi-modal enhancements. Phase 1B includes street widening and center islands, bicycle lanes, increased pedestrian access, lighting and street signalization (Exit 410).

Progress Report: Estimate complete, conceptual programming completed. This project is intended to be funded through General Fund and/or RTC Funds combined with, NDOT and USDOT Funding Programs in addition to Private Funding. FY 2025-2026

21. WEST WENDOVER STREET REHAB PROJECTS (PHASE 3) – COST ($360,000).

The Street Rehab Projects include the rehabilitation of several major street segments in the community which require additional investments outside of the normal maintenance cycle. The initial selected areas include Wendover Boulevard, Mesa Street and other collector and arterial street segments within the city.

Progress Report: Funding by City General Fund. FY2025-2026

22. WATER LINE EXTENSION MESA TO INDUSTRIAL WAY INCLUDING UPRR CROSSING, SECTION 16 & 17 – COST ($1,521,300).

This project consists of approximately 7,250 feet of 8" water line to be extended from Florence Way at the intersection of Mesa Street cross-country within proposed street rights-of-way to Industrial Way. The project also includes an underground crossing with the UPRR near the Mesa Street intersection. The project will boost pressures and fire flows to this area of the system and will provide a looped connection with redundant delivery methods to the industrial sector of the city.

Progress Report: Line interconnection completed as part of Florence Way Phase 2 in 2016. Engineering design completed, permit with UPRR ready for submittal. Project funding through Water Fund and SRF Loan/Grant. FY 2025-2026

23. 3 MILE WATER LOOP – COST ($3,968,210).

This project includes the installation of approximately 10,000 feet of 10" PVC water main along the eastern boundary of the city. Several pressure reducing stations, combination air valve stations and other pipeline appurtenances will be installed with the project to provide redundant flow paths and fire capacity to the central and lower areas of the city.

Progress Report: Engineering estimate complete. Project funding submittal complete to SRF. Project funding through Water Fund and SRF Loan/Grant. FY 2025-2026

24. JOHNSON SPRINGS TRANSMISSION SYSTEM, PRESTRESSED CONCRETE CYLINDER PIPE (PCCP) PIPELINE REPLACEMENT PROJECT – COST ($3,880,300).

The PCCP Replacement Project replaces 5,400 feet of 24-inch pre-stressed concrete cylinder pipe installed in the late 1970's as part of the potable water transmission pipeline that delivers drinking water from the Goshute Valley to the Cities of West Wendover, Nevada and Wendover, Utah. The pipeline has reached its useful service life as evidenced by recent leaks and assessment of the condition of the pipe where it has been exposed for repair on two different occasions. PCCP installations in the U.S. have proven to be problematic due to a shorter than expected service life and the fact that this pipe is extremely difficult to repair. Steel wire pre-stressing failures propagate rapidly, leading to subsequent failure of the thin-shell steel cylinder, resulting in leaks and eventual sectional failure. Leaks and the high probability of sectional failure create public health concerns due to potential exposure of drinking water to contamination and significant, long-term disruption of the community water supply. In addition, this portion of the transmission pipeline crosses the Union Pacific Railroad and any failure that impacted rail operations would subject the cities to significant financial risk.

Progress Report: Preliminary Engineering Report completed and pre-application has been filed with SRF. Funding would be SRF Loan/Grant. FY 2025-2026

2026-2027

25. URGENT CARE/MEDICAL FACILTY – PHASE 1 – TOTAL COST ($3,500,000).

The city recently completed a 5-year Comprehensive Economic Development Strategy (CEDS) as part of the State of Nevada CEDS process. Through the process, an adequate urgent care/medical facility was one of the top 3 goals established by the CEDS committee. Though a complicated and difficult project, the city plans for an initial phase 1 facility that would provide a basis to increase medical services beyond existing services with the ability to expand the facility as need and growth occurs.

Progress Report: The City has a site selected and partially developed to accommodate the new facility, located adjacent and south of the City Hall on N. Gene L. Jones Way. The site also has additional access from the City Downtown area which is being developed adjacent and west of the site. Funding through USDA Loan, CDBG Grant and private sources. FY 2026-2027

26. **RED GARTER STREET STORM DRAIN BASIN PROJECT – COST ($125,000).** As part of the city's continued efforts to plan for storm water detention and sedimentary basins, this project would construct a storm water detention and sedimentary basin on the west side of Red Garter Street on the public property under control of the City, to which the current storm drainage channel located along the west side of Lee's Discount Liquor Store would be routed into. Additionally Red Garter Street drainage would also be routed into this basin and future storm water drainage from the public property between Red Garter Street and Wells Avenue, as it is developed.

    Progress Report: Initial concept considered and location determined, ready for design and construction. Funding by City Capital Projects Fund. FY2026-2027

27. **√ WEST WENDOVER MULTI MODAL ENCHANCEMENT PHASE 1 – RAIL PASSENGER STATION – AMTRAK – COST ($12,089,658).**
    Phase 1 includes the construction of a passenger train station, related platform and ancillary facilities on Florence Way approximately ½ mile from the West Wendover Welcome Center. The facility would be constructed per design and service requirements of Amtrak and Union Pacific Railroad (the host railroad). The City and Amtrak executed a MOU on February 11, 2015 for the related facility design, construction and required service. The City has received support for the project from the State and Congressional Delegation as well as Amtrak and Union Pacific Railroad among many other agencies and businesses. The project has considerable components related to Economic Development/ Job Creation per the BCA completed for USDOT.

    Progress Report: Previous MOU executed with Amtrak, awaiting new MOU from Amtrak. Host railroad has provided initial approval, 10% design has been completed per UPRR requirements. City pursuing grant funding and other sources through the State to proceed with facility design and construction. Project funding through General Fund, USDOT Funding, CDBG funding and potential private funds. FY 2026-2027

28. **PEPPERMILL DEEP SEWERLINE REPLACEMENT – COST ($430,480).**
    This project consists of replacement of a section of sewer line installed cross-county through Montego Bay/Rainbow Casino property that has, over the years been filled resulting in a sewer line that is excessively deep and nearly impossible to access and maintain.

    Progress Report: Estimates completed. This project is intended to be funded through the Water Enterprise Fund and NDEP/SRF Loan/Grant. FY 2026-2027

29. **WEST WENDOVER MULTI MODAL ENHANCEMENT PHASE 2 – WELCOME CENTER MULTI MODAL TRANSPORTATION HUB – COST ($1,700,000).**
    Phase 2 includes the modification of the Nevada – West Wendover Welcome Center now owned by the City, located at the intersection of Wendover Boulevard and Florence Way. The facility would be modified to include capabilities to function as a multi-modal transportation hub including bus, rail and related services in addition to continuing to serve a role as a tourism center.

    Progress Report: Welcome Center facility acquisition completed. Conceptual design layout complete to include new bus terminal area and related parking. Project funding through RTC Funds, USDOT Funding, CDBG Funding and potential private funding. FY 2026-2027

30. **SIDEWALK REHABILITATION PROJECT VARIOUS LOCATIONS – COST ($225,000).**
    As infrastructure continues to age, there are areas of pedestrian sidewalk in which normal maintenance is no longer adequate. As such, several areas in the community will be identified where rehabilitation work will take place to properly address safety and access issues.

Progress Report: Identification of specified areas and related costs estimates are underway. This project to be funded through General Fund, RTC and possible CDBG Grant. FY 2026-2027

31. CONSTRUCT ANIMAL CARE FACILITY – COST ($3,618,000).

The current Animal Shelter facility does not meet the long-term requirements for our growing community in relation to animal services including veterinarian, boarding, and other pet services. The project will include construction of a new facility on City property, which potentially could include additional public/private partnerships in relation to operation of the facility. Current WendRover Pet Group has joined with the City in exploring new avenues for such a facility.

Progress Report: Study completed. Project funded through Ad Valorem Capital Projects Fund and General Fund and possible CDBG Grant in addition to Private Funding. FY 2026-2027

32. PUBLIC PARK IMPROVEMENTS, 3-ACRE TIBBETS BOULEVARD – COST ($600,000).

The City has ownership of 3 acres of property on the west end of Tibbets Boulevard near several residential areas. The parcel is intended for public park development. As of today, the City has only one community park (Robert F. Scobie Park) which is located in the eastern portion of the community near U.S. Highway 93A along Wendover Boulevard. Scobie Park is located two miles from the densest area of residential development in the community and nearly three miles from the most western residential developments in the community located on the west end of Tibbets Boulevard. Thus, the project improves park access.

Progress Report: The City has acquired the identified 3 acres for public park development as part of the City's planning efforts. This project to be funded through General Fund, possible CDBG Grant, participation by West Wendover Recreation District and Private Developers. FY 2026-2027

33. REHABILITATION OF WENDOVER BOULEVARD (PUEBLO BOULEVARD TO OLA GRADE INTERCHANGE PHASE 1) – COST ($1,490,000).

As traffic frequency and load increases with the growth of the community, Wendover Boulevard will require rehabilitation in order to be able to support vehicle traffic without complete degradation of the street substructure. The project would consist of appropriate rehabilitation work including roto-milling, new pavement as well as appropriate striping along 3,600 lineal feet of Wendover Boulevard.

Progress Report: Preliminary estimation completed. This project to be funded through General Fund and RTC Funds. FY 2026-2027

34. WASTE WATER SOLAR ARRAY – COST ($530,000).

The City's new Waste Water Facility when built included the ability to accommodate the introduction of supplemental electrical power provided via solar array. This would be a similar project to what has been accomplished at the West Wendover City Hall.

Progress Report: Waste Water Upgrade Phase 2 completed. Funding for the project through Department of Energy (DOE) Grant, Sewer Fund. FY 2026-2027

2027-2028

35. NATURAL GAS INFRASTRUCTURE AND SERVICE – COST ($13,948,000)

The city recently completed a 5-year Comprehensive Economic Development Strategy (CEDS) as part of the State of Nevada CEDS process. Through the process, it was clear that the community needs to have access to natural gas to reach the community's full development potential either through a transmission pipeline or via compressed natural gas (CNG). This item was in the top 3 goals established by the CEDS committee. In order for the community to have stability with regard to heating fuel, natural gas is necessary to replace the more expensive use and less reliable transport of Liquefied Petroleum (LP). This would lower utility costs and increase business development.

Progress Report: The City has completed the CEDS process outlining the goal of natural gas. The city continues to work with the local private utility Wendover Gas as well as Pilot Pipeline in addition to other third-party users such as Long Canyon Mine, to find a suitable solution which includes a transmission pipeline connecting at the Ruby Pipeline just north of Montello, NV. A Feasibility Study has been

completed for such project under a grant from USDA Rural Development. Funding through private sources and possibly USDA Loan. FY 2027-2028

36. WATER METER AND METER YOKE REPLACEMENT – COST ($2,671,000).
This project will replace approximately 181 existing commercial water meters with modern meters with remote reading capabilities and 922 residential water meter yokes.

Progress Report: Estimates completed. This project is intended to be funded through the Water Enterprise Fund and SRF Loan/Grant. FY 2027-2028

37. PUEBLO BOULEVARD WATER LINE EXTENSION – COST ($1,325,810).
The Pueblo Boulevard Water Line Extension includes installation of approximately 7,550 feet of 8" C-900 DR-18 PVC water pipe along with Pueblo Boulevard right-of-way connection to the existing water main located in the roadway directly north of Toana Vista Golf Course and running west before turning south to tie into the existing dead-end water main located in Tibbets Lane. This extension will provide a looped connection for the terminus end of the West Wendover water system and will alleviate low-pressure deficiencies experienced in the portion of the system. A secondary benefit of this extension will be to bolster fire flow capacity in this area.

Progress Report: Estimates completed. This project is intended to be funded through the Water Enterprise Fund and NDEP/SRF Loan/Grant. FY 2027-2028

38. CITY PUBLIC FACILITIES (PHASE 2 MEDICAL, EDUCATIONAL, AMPHITHEATER, PARKS, ENTERTAINMENT, TOURISM AND COMMERCIAL RELATED (MULTIPLE PHASES) – TOTAL COST ($22,500,000).
The City is proceeding with planned development initiatives, including infrastructure (collector, arterial streets and utility services) and facilities as part of the City's Downtown Plan, Tourism Development as well as Community Service Needs. This area would include additional public facilities and attractions meeting the needs of the growing community and business district. The property is part of the "City Center/Downtown Area" containing approximately 175 acres along Wendover Boulevard which was acquired through an R&PP Lease beginning in 2005 and will be a pertinent part acquired through patent beginning in 2020.

Progress Report: The City has completed studies for the provisions of future public infrastructure and facility projects that may be located in the City Center/Downtown Area. Construction of the City Hall is complete along with the City Center Monument and the Victory Highway Historic Interpretive Walking Trail. A community needs survey and related planning and preliminary architectural work has been completed on a Community Center that would contain: Library, senior center, youth facilities and public meeting spaces. This work was funded through a private grant. Additional expansion of medical facilities is anticipated as growth/need occurs along with other public facilities, which may in part be funded through private sources in addition to several bonding sources and/or grant/loan funds such as USDA-RD. FY 2027-2028

39. WENDOVER REGIONAL MULTI MODAL ENHANCEMENT PROJECT PHASE 2 (AIRPORT TERMINAL IMPROVEMENTS) and REGIONAL AIR SERVICE DEVELOPMENT – COST ($2,650,000).
With nearly 60,000 annual passenger enplanements, the current airport terminal is in need of intermodal improvements including vehicle parking, bus lanes, and main entrance improvements. Phase 2 will improve efficiency, increase access and provide intermodal capabilities.

Additionally, this project contains associated funding with regard to efforts currently underway to establish regional air service (9 to 15 passengers) with a primary route being Wendover to Elko to Reno and return. Additional routes to Las Vegas area have also been considered. The City is currently working with the Governor's Office on Economic Development (GOED) and Northeast Nevada Development Authority on assessing ways to institute and fund the air service component possible through direct legislative funding by the State.

Progress Report: Estimates completed, conceptual programming completed, funding applications considered. This project is intended to be funded through Wendover Airport/Tooele County, Utah, FAA and USDOT Funding Programs in addition to State of Nevada GOED and Private Funding. FY 2027-2028

40. WENDOVER REGIONAL MULTI MODAL ENHANCEMENT PROJECT PHASE 3 (NEVADA/UTAH STATE LINE) – COST ($1,400,000).

Phase 3 improvements provide for pedestrian and multi modal enhancements to Wendover Boulevard at the historic boundary between Utah/Nevada located on Wendover Boulevard. Extensive pedestrian flow occurs in this area between two major commercial facilities. The improvements will increase safety by reducing pedestrian and vehicular conflicts in addition to providing multi modal transit options. The project includes street improvements, pedestrian safe-island and historical marker, bicycle lanes, lighting, and other multi-modal transit improvements.

Progress Report: Estimates complete, conceptual programming completed. This project is intended to be funded through General Fund and/or RTC Funds, NDOT, USDOT, Wendover, Utah Funding Programs in addition to Private Funding. FY 2027-2028

41. WENDOVER REGIONAL MULTI MODAL ENHANCEMENT PROJECT PHASE 4 (FIRST STREET, MORIAH AVENUE, SOUTH TO AIRPORT TERMINAL –WENDOVER, UTAH) – COST ($2,800,000).

As traffic frequency and load increases with the growth of the community, streets which connect to Wendover Boulevard will require rehabilitation in order to be able to support vehicle traffic, incorporate safe streets programs and provide for multi-modal enhancements. Phase 4 includes a complete streets project along First Street from Moriah Avenue south to the Wendover Airport.

Progress Report: Estimates complete, conceptual programming completed. This project is intended to be funded through USDOT, Wendover, Utah and Wendover Airport/Tooele County Funding Programs in addition to Private Funding. FY 2027-2028

42. WENDOVER REGIONAL MULTI MODAL ENHANCEMENT PROJECT PHASE 5 (FIRST STREET, MORIAH AVENUE, NORTH TO WENDOVER BOUELVARD – WENDOVER, UTAH) – COST ($2,600,000).

As traffic frequency and load increases with the growth of the community, streets which connect to Wendover Boulevard will require rehabilitation in order to be able to support vehicle traffic, incorporate safe streets programs and provide for multi-modal enhancements. Phase 5 includes street widening and center islands, bicycle lanes, increased pedestrian access, lighting, and other multi-modal transit improvements along First Street from Moriah Avenue north to Wendover Boulevard in Wendover, Utah.

Progress Report: Estimates complete, conceptual programming completed. This project is intended to be funded through USDOT, Wendover, Utah and Wendover Airport/Tooele County Funding Programs in addition to Private Funding. FY 2027-2028

43. WENDOVER REGIONAL MULTI MODAL ENHANCEMENT PROJECT PHASE 6 (US93A EAST TO NEVADA/UTAH BORDER) – COST ($4,950,000).

As traffic frequency and load increased with the growth of the community, areas of Wendover Boulevard will require rehabilitation in order to be able to support vehicle traffic, incorporate safe streets programs and provide for multi-modal enhancements. Phase 6 includes street widening and center islands, bicycle lanes, increased pedestrian access, lighting, street intersection signalization (US93A/Wendover Blvd) and other multi-modal transit improvements connecting the Phase 1 and Phase 3 project limits.

Progress Report: Estimates complete, conceptual programming completed. This project is intended to be funded through General Fund and/or RTC Funds, NDOT and USDOT Funding Programs in addition to Private Funding. FY 2027-2028

44. LEPPY HILLS TRAILS ADDITION (EXPANSION OF EXISTING TRAIL SYSTEM) – COST ($950,000).

The City has completed the construction of the initial Leppy Hills Trail System containing three loops of hardpack trail for public non-motorized recreation use. These three loops contain approximately 8 miles of trail. Through the existing Recreation and Bicycle Plan expansion of the trail would be considered in the future. Current facility receives great use by the public which lends to the potential of continuing with expanding the trail system with an additional 5 mile of hardpack trail.

Progress Report: Initial planning completed. The project would be funded through the General Fund and a Grant from Nevada State Lands. FY 2027-2028

45. REHABILITATION OF WENDOVER BOULEVARD (PUEBLO BOULEVARD TO OLA GRADE INTERCHANGE PHASE 2) – COST ($1,450,000).

As traffic frequency and load increases with the growth of the community, Wendover Boulevard will require rehabilitation in order to be able to support vehicle traffic without complete degradation of the street substructure. The project in Phase 2 would consist of appropriate rehabilitation work including roto-milling, new pavement as well as appropriate striping along 3,800 lineal feet of Wendover Boulevard.

Progress Report: Preliminary estimation completed. This project to be funded through General Fund and RTC Funds. FY 2027-2028

46. REHABILITATION OF WENDOVER BOULEVARD (PUEBLO BOULEVARD TO OLA GRADE INTERCHANGE PHASE 3) – COST ($1,300,000).

As traffic frequency and load increases with the growth of the community, Wendover Boulevard will require rehabilitation in order to be able to support vehicle traffic without complete degradation of the street substructure. The project, Phase 3, would consist of appropriate rehabilitation work including roto-milling, new pavement as well as appropriate striping along 3,600 lineal feet of Wendover Boulevard.

Progress Report: Preliminary estimation completed. This project to be funded through General Fund and RTC Funds. FY 2027-2028

47. INFRASTRUCTURE PUEBLO BOULEVARD/TIBBETS BOULEVARD EXTENSIONS – COST ($8,900,000).

The City of West Wendover is proceeding with planned development initiatives, which include infrastructure (collector/arterial streets and utility services) for the extension of Tibbets Boulevard and Pueblo Boulevard. This area includes commercial development such as hotel/resorts, general retail and residential development in addition to ancillary commercial services. The infrastructure would establish necessary public improvements for this area including the linking of residential development in the southern portion of the city to those in the north.

Progress Report: The City has completed the studies necessary to identify the infrastructure required for future development in the western portions of the City Limits. Funding sources would include several bonding sources as well as private partnerships. FY 2027-2028

48. PORT OF WEST WENDOVER, PHASE 1 INFRASTRUCTURE – COST ($15,800,000).

The Port of West Wendover is currently being created through the acquisition of over 6,000 acres of property currently under the control of the United States Air Force. This project will include a significant first phase of infrastructure needed for development of the properties located within the port, including linking the port properties via a main taxiway (through the fence operation) to the airside facilities of Wendover Airport. This access has been identified and included in the 2020 Wendover Airport Master Plan. The properties would include: Commercial, Manufacturing, Foreign Trade Zone, Bonded Warehousing and other similar developments that would benefit from being located in Nevada and taking advantage of Nevada's tax and fee structures, while using access via Wendover Airport airside facilities. Such arrangement would benefit both the City of West Wendover and Wendover Airport/Tooele County, Utah. The master plan for the port was completed in 2001.

Progress Report: Under Study for funding by City Bond, Developers, RTC, NDOT, FAA and others. FY 2027-2028

49. FLORENCE WAY UPGRADE AND RELOCATION (SOUTH FLORENCE WAY) PHASE 4 (LAGUNA DRIVE WEST 3,000 FEET) – COST ($2,050,000).

This project consists of constructing an additional segment to Florence Way Phase 3, paralleling the Union Pacific Railroad (UPRR). Completion would be four travel lanes, two bike lanes, appropriate curb, gutter and sidewalk and a protective fence along recreational properties; currently non-existent.

Progress Report: Under Study for City Bond, RTC Funding. FY 2027-2028

50. ANNEXATION OF BLM PROPERTY – COST ($525,000)

The City of West Wendover has adopted the plans for the enlargement of the City's boundaries. The new City boundaries will incorporate current federal lands into the City boundary. The new City Limits would incorporate some 96,000 acres of property. The property is located south, west and north of the existing city limits.

Progress Report: City Council approved annexation plan 2000. Project funded through the General Fund. FY 2027-2028

<End of Document>

Nevada State Infrastructure Bank

Financing Application

Nevada State Infrastructure Bank Overview:

The Nevada State Infrastructure Bank was established to provide low-cost financing to Nevada state agencies, local governments, Tribal governments, and non-profit organizations for priority infrastructure projects.

Pursuant to Chapter 408 of the Nevada Revised Statutes, the Bank may provide financing for a variety of infrastructure projects, including: transportation facilities, utility infrastructure, digital infrastructure, recycling and sustainability infrastructure, renewable energy infrastructure, social infrastructure, water and wastewater infrastructure, and other infrastructure related to economic development.

The Bank has been capitalized with an initial $75 million in State general obligation bonds that, are allocated to the following accounts within the Nevada State Infrastructure Bank:

- $40 million for projects for the Federal Infrastructure Matching Account;
- $20 million for projects for the Affordable Housing Revolving Account; and
- $15 million for projects for the Charter School Capital Needs Revolving Account.

In evaluating applications, the Bank will also seek to leverage outside capital and federal funding to help finance projects that improve quality of life, strengthen Nevada's climate resiliency, and help to promote a strong economy for communities across the State.

Application Instructions:

Please complete all sections of the application below and attach any required exhibits to request financing from the Nevada State Infrastructure Bank.

Prior to applying to the Bank for financing, please familiarize yourself with all the statutes and regulations governing the operation of the Bank.

The relevant statutory provisions can be found in Chapter 408 of the Nevada Revised Statutes (NRS 408.55048 – 408.55088).

Additionally, the regulations of the Bank provide the application requirements and describe the process for determining qualified projects and borrowers for applications to the Federal Infrastructure Matching Account, the Affordable Housing Revolving Account, and the Charter School Capital Needs Revolving Account.

Applications for financing will be reviewed by Bank staff and may be presented to the Board of Directors of the Nevada State Infrastructure Bank for consideration[1].

Completed, applications may be submitted as follows:

Via electronic mail:

Nevada State Infrastructure Bank

Email: *Financing.application@sib.nv.gov*

Via regular mail:

Nevada State Infrastructure Bank
c/o Executive Director
555 East Washington Avenue, Suite 5200
Las Vegas, Nevada 89101

[1] *Note: submission of an application does not guarantee Board consideration or project funding.*

Part 1: Applicant Information

Legal Name of the Applicant: Lincoln County, Nevada

Type of Applicant:

☒ Governmental Unit

☐ Indian Reservation or Colony

☐ Private Non-Profit Organization created for charitable or educational purposes

If applicant is a governmental unit or non-profit organization, please describe:

The applicant is Lincoln County, Nevada - through the authority which exists for its Board of County Commissioners.

Mailing Address of the Applicant:

Street Address: P.O. Box 90

City, State, Zip Code: Pioche, NV 89043

Name of the Individual Submitting this Application:

Varlin Higbee

Role/Title of the individual submitting the application:

Chair, Board of County Commissioners

Address for the individual submitting the application:

Street Address: P.O. Box 90

City, State, Zip Code: Pioche, NV 89043

Email for Individual submitting the application:

horanch1@icloud.com

Phone number of individual submitting this application:

775-962-2004

Please list the contact information (Name, Address, Phone, Email) for other authorized individuals associated with the project (i.e., consultants, advisors, engineers, attorneys, etc.)

Name: Derick Hembd	Title: President
Organization: SixCo Nevada, Inc.	Phone: 760-509-6060
Street Address: 6841 S. Eastern Ave, Suite 112	Fax: NA
City, State, Zip: Las Vegas, NV 89119	E-mail: derick@sixconv.com
Name: William (Bill) Winkombe	Title: Energy Finance Advisor
Organization: SixCo Nevada, Inc.	Phone: 650-823-7247
Street Address: 6841 S. Eastern Ave, Suite 112	Fax: NA
City, State, Zip: Las Vegas, NV 89119	E-mail: bill@sixconv.com

Part 2: Financing Requested

What type of financial assistance is the Applicant seeking? (Please select all that apply)

- [x] Loan
- [ ] Grant
- [ ] Other Financial Assistance

Financing Amount Requested:

$5 million

Is the State Infrastructure Bank origination fee included in financing? (Please reference the regulations governing the Nevada State Infrastructure Bank)

- [x] Yes
- [ ] No

Financing term requested (Number of years): 5 years

Source of financing repayment:

- [ ] Enterprise Fund
- [ ] Special Fund
- [ ] General Fund Lease
- [ ] Assessment District
- [ ] Special Taxes/Property Related Assessments
- [ ] Voter approved general obligation debt
- [x] Other

Please explain the source(s) of financing repayment:

The primary source of repayment will be the USDA Powering Affordable Clean Energy (PACE) Program funding proceeds for which Lincoln County, as the solar pv/energy and transmission line owner and the seller of electricity to the Lincoln County Power District No. 1 using a Power Purchase Agreement (PPA), has submitted a Letter of Interest to the USDA. This loan will be secured by the project, not the general credit of the Applicant.

The secondary source of repayment will be the pre-paid land lease proceeds from SixCo Nevada for the land to be used for the above system - which are included in the USDA PACE Letter of Interest.

The tertiary source of repayment will land lease proceeds from SixCo's Lincoln County Renewable Energy and Sustainability Complex (LCRESC) industrial park - secured by a lien.

Part 3: Project Information

Project Name: LCPD Local Generation & Resiliency System

Project Address:

Street Address: Crestline Road, (Near the Lincoln County Landfill)

City, State, Zip Code: Panaca, NV 89042

Project Category (Please reference Chapter 408 of the Nevada Revised Statutes):

- ☐ Transportation Facility
- ☒ Utility Infrastructure
- ☐ Water and Wastewater Infrastructure
- ☒ Renewable Energy Infrastructure
- ☐ Digital Infrastructure
- ☐ Recycling and Sustainability Infrastructure
- ☐ Social Infrastructure
- ☒ Other Infrastructure related to Economic Development

If the project category selected was "Other Infrastructure related to Economic Development" please explain the project:

This $5 million SIB loan request is to secure the land and fund needed studies. Overall, this $45.35 million project is intended to create a local source of renewable energy generation within Lincoln County and to replace the electricity which Lincoln County Power District No. 1 has to purchase on the open market to make up for the shortfall of electricity available from Hoover Dam.
In calendar year 2022 these open market purchases led to an approximate $935,000 operating loss for the Lincoln County Power District. As a result customer rate increases have occurred to offset this loss - thereby reducing the disposal income available to Lincoln County residential and non-residential customers.

Is the project located in any of the following? (Please select all that apply)

☐ In a qualified census tract as designated by the United States Secretary of Housing and Urban Development pursuant to 26 U.S.C. § 42(d)(5)(B)(ii)

☐ In a census tract which has a high level of social vulnerability as determined according to the Social Vulnerability Index developed by the Centers for Disease Control and Prevention of the United States Department of Health and Human Services

☐ In a community which has a large percentage of the population having limited English proficiency

☐ In a community that has been subject to historical instances of redlining, segregation or other discriminatory practices

Is any part of the proposed project located on Tribal land?

☐ Yes

■ No

Please attach a detailed description of the project. If the funding request is limited to a portion of the project, please identify as appropriate. If you have a feasibility study, a capital improvement plan, environmental study, or other such reports containing a detailed description of the project, please include as appropriate.

Attach all necessary documents as Exhibit 1. [Please label and attach items as Exhibits 1a, 1b, 1c, etc.]

If funding for the project is approved by the Nevada State Infrastructure Bank Board of Directors, how long will it take for this project to be completed?

Estimated 5 years from date of permit issuance

Please list applicable permits for the project:

Type of Permit (Please include permit number)	Granting Authority	Date Submitted	Date Received	Expiration Date
None applied for				

Please complete the attached Project Sources and Uses of Proceeds Table (located on page 22 of this document) as Exhibit 2. Attach any and all cost estimates, bids, project labor agreements, and construction contracts, if available. [Please label and attach them as Exhibits 2a, 2b, 2c, etc.]

Please provide for any and all documentation commitment(s) for project funding sources other than financing from the State Infrastructure Bank. This could include resolutions, grant agreements, loan agreements, contracts, etc. [Please label and them as Exhibit 3]

Is land acquisition a component of the project?

☐ Yes

☒ No

If yes, please provide a copy of the purchase agreement as Exhibit 4. Include a description of the land that has been or will be acquired (current owner, address, assessor's parcel number, purchase date or expected purchase date, cost or estimated cost), and identify the funding source(s) for the land below:

Does the applicant already own the land needed for the project?

☐ Yes

☒ No

Please provide a comprehensive project timeline as Exhibit 5. Include specific project milestones such a preliminary engineering report, all required permits, design, engineering, land/right-of-way acquisition, preparation of bid documents, awarding of construction contract, construction start date, construction completion date, and the date that the project will become operational.

Private Activity - Will any entity, including a governmental entity other than the Applicant, use or directly benefit from any portion of the Project other than as a member of the general public? (For example, will a private entity or a federal agency operate, or lease space in the proposed project?)

☒ Yes

☐ No

If yes, please describe the entity that will use or otherwise benefit from the Project. Provide a copy of the agreement(s) with such private entity, or federal agency. [Please label and attach as Exhibit 6.]

The Lincoln County Power District No. 1, and its customers, will benefit from the purchase of electricity from the solar pv and energy storage system owned by the Applicant - Lincoln County, Nevada

Will financing be used to finance more than 5 percent of any private activity costs?

☐ Yes

☒ No

If yes, please explain:

Business Relocation – Will the proposed Project require the relocation of a private sector business from one area of the State to another?

☐ Yes

☒ No

If yes, please provide a justification to support the move:

Please describe any economic and/or community benefits that will result from the completion of this project. Please include the method, or calculation by which these results were identified:

From 1937 to 2004 the Lincoln County Power District No. 1 (LCPD) received 100% of its electricity from Hoover Dam. Drought conditions have reduced this supply, and as of Fiscal Year 2022, LCPD purchased approximately 27%, or 22.66 million kWhs from other suppliers at an average cost of ~$0.104/kWh - versus a cost for Hoover Dam electricity of less than $0.03/kWh. This resulted in an operating loss of ~$935K – which is being offset by customer rate increases.
This project will replace this electricity at a lower cost per kWh - estimated to be range of $0.07XX/kWh.

What are the total number of jobs that will be created and the average wage for the project? (Please include the method or calculation by which these results were identified)

To be determined during the anticipated Full Application phase of the USDA PACE Program.

What are total number of jobs retained and the average wage? (Please include the method or calculation by which these results were identified)

To be determined during the anticipated Full Application phase of the USDA PACE Program.

Describe the environmental impact that will result from this project? (Please include the method or calculation by which these results were identified)

To be determined during the anticipated Full Application phase of the USDA PACE Program.

Does this project comply with the with the standards and goals set forth in the 2020 Nevada Climate Strategy and the goals for the reduction of greenhouse gas emissions set forth in NRS 445B.380 and 704.7820?

- [x] Yes
- [ ] No
- [ ] Unsure

Useful Life - Please provide evidence detailing the useful life of the Project. Useful life is defined as the estimated number of years the project is anticipated to remain in service. Please include estimated useful life projections with and without any anticipated maintenance costs. [Label and attach as Exhibit 7]

Is this project eligible to apply for funding from the Affordable Housing Revolving Account within the Nevada State Infrastructure Bank Fund? (Please reference the Nevada State Infrastructure Bank regulations for the guidelines and policies for the Affordable Housing Revolving Account.)

- [ ] Yes
- [x] No
- [ ] Unsure

Is this project eligible to apply for funding from the Charter School Capital Needs Revolving Account within the Nevada State Infrastructure Bank Fund? (Please reference the Nevada State Infrastructure Bank regulations for the guidelines and policies for the Charter School Capital Needs Revolving Account.)

- [ ] Yes
- [x] No
- [ ] Unsure

Is this project eligible to apply for funding from the Federal Infrastructure Matching Account within the Nevada State Infrastructure Bank Fund? (Please reference the Nevada State Infrastructure Bank regulations for the guidelines and policies for the Federal Infrastructure Matching Account.)

☐ Yes

☐ No

☒ Unsure

Is this project eligible to apply for funding from the State Infrastructure Bank General Account within the Nevada State Infrastructure Bank Fund? (Please reference the Nevada State Infrastructure Bank regulations for the guidelines and policies for the State Infrastructure Bank General Account.)

☐ Yes

☐ No

☒ Unsure

Part 4: Financial Information

Please provide copies of the five most recent fiscal year-end audited financial statements for the applicant and related parties to the project, if not already provided, as well as applicable revenue projections and cash flows. [Label and attach as Exhibits 8a, 8b, 8c, etc.]

Please provide the current year's adopted budget as Exhibit 9.

Are there any events or circumstances that have occurred since the date of the last financial statement could materially affect the overall financial condition of the Applicant?

☐ Yes

☒ No

If yes, please explain:

In the table below, please list all outstanding financing obligations (debts, notes, capital leases, etc.) secured by the source of repayment for the requested financing. Attach as Exhibit 10, and include a copy of all financing documents (e.g., the official statement along with any underlying loan agreements, lease agreements, or indentures, etc.) [Label and attach as Exhibits 10a, 10b, 10c, etc.]

Name of Lender	Date of Debt	Outstanding Balance (as of _____)	Maximum Annual Debt Service/Lease Payment
		$	$
		$	$
		$	$
		$	$

Please provide a description of any off-balance-sheet debt obligations, including capital leases and other contractual obligations:

None

Has the Applicant defaulted on any debt or other obligation including, but not limited to, bonds, leases, or loans within the last ten years?

☐ Yes

☒ No

If yes, please specify the date(s) and circumstances:

Please attach as Exhibit 11 the current Capital Improvement Plan. Explain below any expected plan for future debt issuance:

Does the Applicant have an Inter-fund Transfer Policy?

☒ Yes

☐ No

If yes, please attach a copy of the policy as Exhibit 15.

Is the Applicant planning on utilizing any collateral in order to receive a loan or other financial assistance?

☒ Yes

☐ No

If yes, please explain:

Following notice from the USDA that a Full Application has been requested based upon Lincoln County's Letter of Interest, this loan will be used to fund pre-development activities needed to submit this Full Application. These activities will include feasibility, engineering, community benefit studies plus a pre-paid land lease for the project in order to control the land required for the project.

Part 5: Loan Proceeds

Will the loan proceeds pay for any general administration or overhead costs?

☐ Yes

☒ No

Have any general administration or overhead costs already been incurred?

☐ Yes

☒ No

If yes, please explain:

Will the Project include the payment of prevailing wages as set forth in NRS Chapter 408?

☐ Yes

☐ No

Will loan proceeds finance preliminary costs for the Project?

☒ Yes

☐ No

Have any preliminary costs already occurred?

☐ Yes

☒ No

If yes, please explain:

Part 6: Legal Information

Please describe the composition of the Applicant's governing body, including the number of positions, term, and the selection/appointment process. Additionally, please provide a current list of individuals in these positions:

Has the governing body approved the application? (Please provide written documentation confirming approval):

Please describe any pending or anticipated litigation and/or contractual disputes that the Applicant is a party to:

Please describe any past, present, or potential issues or controversies that may impact the Project:

For any applicant that is a Charter City, please attach as Exhibit 16 a copy of the City's Charter including all addendums and supplements thereto.

For any applicant that is a School District, Special District, or Joint Powers Authority (JPA), please provide the statutory citation of formation authority or attach a copy of all formation documents and amendments as Exhibit 17.

For any applicant that is a non-profit organization, please provide as Exhibit 18, a copy of the following:

a. Articles of Incorporation, together with all amendments.

b. Certificate of Status/Good Standing in the State of Nevada.

c. Bylaws, together with all amendments.

d. 501 (c)(3) Determination Letter(s) from the IRS, and any related documents and correspondence with/from the IRS.

e. All Form 990s for the last three years

f. All Form 990-Ts for the last three years.

g. Capital Campaign brochures, forms, pledge cards, and related materials, if any.

Applicant acknowledges the following

All information submitted to the Nevada State Infrastructure Bank is true and correct at the time of submission, and such information does not contain any untrue or misleading statement of a material fact or omits to state any material fact necessary to make the statements contained herein not misleading. Further, applicants affirm, understand, and accept the obligations, terms, and conditions of loans and other financial assistance offered by the Bank.

By signing below, I acknowledge that I understand that it is unlawful to knowingly make a false claim, a false statement, use a false of fictitious name, or obtain money or benefit under false pretenses. I understand these acts are a violation of the laws of the State of Nevada punishable by civil penalties, including repayment, and/or criminal penalties including up to a category D felony and six years in state prison.

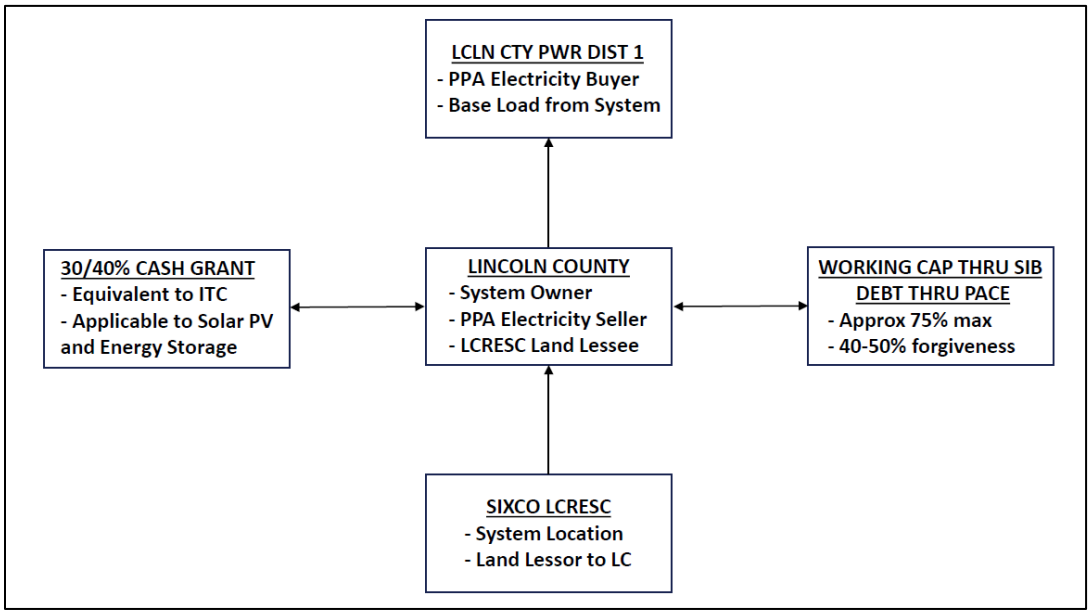
Lincoln County, Nevada - Nevada State Infrastructure Bank (SIB) Loan Application – Exhibits

Exhibit 1 – Study, Plan, or Other Report with Detailed Project Description

Lincoln County, Nevada (LC), which was formed in 1866, is the 7th largest US county, in terms of land mass – which approximates the size of the State of Massachusetts, and it has ~4,500 residents as of the 2020 Census (a decline of ~16% from the 2010 Census). 97.8% of the land within Lincoln County is owned by the Federal government.

Lincoln County Power District No.1 (LCPD) was formed in 1937 following the completion of Hoover Dam and commencement of hydroelectricity generation. From 1937 to 2004 LCPD received 100% of its electricity from Hoover Dam. Drought conditions have reduced this supply, and as of Fiscal Year 2022, LCPD purchased approximately 27%, or 22.66 million kWhs from other suppliers at an average cost of ~$0.104/kWh - versus a cost for Hoover Dam electricity of less than $0.03/kWh. This resulted in an operating loss of ~$935K – which is being offset by customer rate increases.

Type of loan being requested - Project Loan



Project name – LCPD Local Generation & Resiliency System

Location – Near Lincoln County Landfill, Crestline Road, Nevada - 37°39'6.80"N, 114° 7'15.16"W

Type – solar pv/energy storage system (ESS) & transmission lines

Size – 10MW DC solar pv; 5MW ESS with 4-6 hour discharge; and, ~17 miles of 138 kV steel-tower transmission lines to connect to from generation site to the LCPD grid

Renewable energy units generated - ~20 million kWhs annually – which will be scheduled/dispatched on a daily basis in coordination with LCPD's allocation of Hoover Dam hydroelectricity.

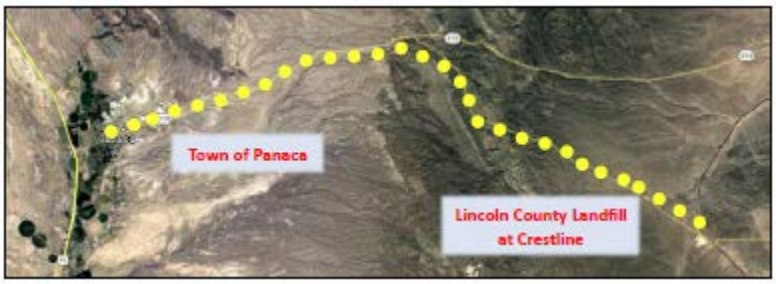


Exhibit 1a – Approval from governing body to submit application
Resolution from Lincoln County Board of Commissioners to be provided

Exhibit 2 – Sources and Uses of Proceeds Table

Lincoln County / Lincoln County Power District PPA - Sources and Uses of Funds

Uses ($MM)			% of Total
10MW DC Solar System incl Interconnection*		$ 22.50	49.61%
5MW Energy Storage System (4-6 hour daily discharge)*		$ 5.00	11.03%
17 miles - steel-pole 138kV Transmission Line		$ 8.00	17.64%
35 Year Prepaid Land Lease at LCRESC		$ 4.85	10.69%
Progress Payment Interest (2/3 Cash Grant Eligible)*		$ 5.00	11.03%
	Total	**$ 45.35**	**100.00%**

Sources ($MM)			% of Total
40% Cash Grant - Utilizing US Content*		$ 12.35	27.23%
USDA PACE Loan		$ 33.00	72.77%
	Total	**$ 45.35**	**100.00%**

USDA PACE Loan Forgiveness - 40% - Benefit to LCPD Customers	$ (13.20)
Net USDA PACE Loan	$ 19.80

Nevada State Infrastructure Bank to provide working capital/progress payment financing

Utility Interconnection		
Substantial Completion	1	1
Final Completion and Commissioning	2	2
Total Project Duration (months)	**39**	**54**

Exhibit 6 – Project Benefit Information
This project will lower the electricity purchase cost for LCPD by approximately $600,000 annually – offsetting about 2/3 of the LCPD operating losses for fiscal year 2022.

Exhibit 6a – Project Population Trends
Will be provided by Lincoln County, if applicable

Exhibit 6b – Project Assessed Value Trends
Will be provided by Lincoln County, if applicable

Exhibit 7 – Useful Life Exhibit
To be provided if/when this Project moves to the USDA Full Application Phase

Exhibit 8 – Five (5) Years Audited Financial Statements – Cashflow available for debt service and debt service coverage ratio
This loan will be secured by the Project and the related cashflow – and not an full-recourse obligation of the Applicant

Exhibit 9 – Current Year Adopted Budget
Will be provided by Lincoln County, if applicable
Exhibit 10 – Documentation of Outstanding Debt Obligations
Will be provided by Lincoln County, if applicable

Exhibit 11 – Current Capital Improvement Plan
Will be provided by Lincoln County, if applicable

Exhibit 12 – Documentation of compliance with Nevada's Climate Strategy for the year 2020 and goals for reduction of greenhouse gas emissions set forth in NRS 445B.380 and 704.7820
Will be provided by Lincoln County, if applicable

Exhibit 13 – Documentation of project compliance with NSIB regulation Sec. 17 (project labor standards)
Will be provided by Lincoln County, if applicable

Exhibit 14 – (Charter School fund applicants only)
Not applicable

Exhibit 14a – (Charter School fund applicants only)
Not applicable

Exhibit 15 – Interfund Transfer Policy/Reimbursement Agreement (if applicable)
Will be provided by Lincoln County, if applicable

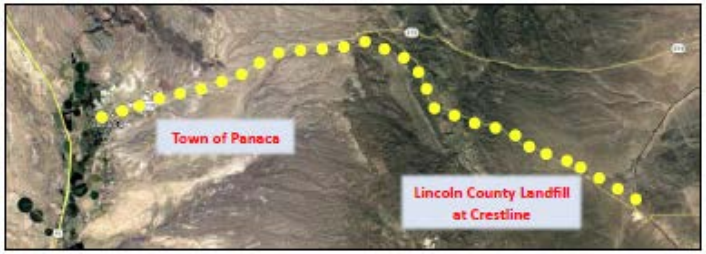

Exhibit 16 – Charter City Information and Questionnaire (if applicable)
Will be provided by Lincoln County, if applicable

Exhibit 17 – Districts Formation Documents and Amendments (if applicable)
Will be provided by Lincoln County, if applicable

Exhibit 18 – Non-Profit Applicants Exhibits (if applicable)
Will be provided by Lincoln County, if applicable

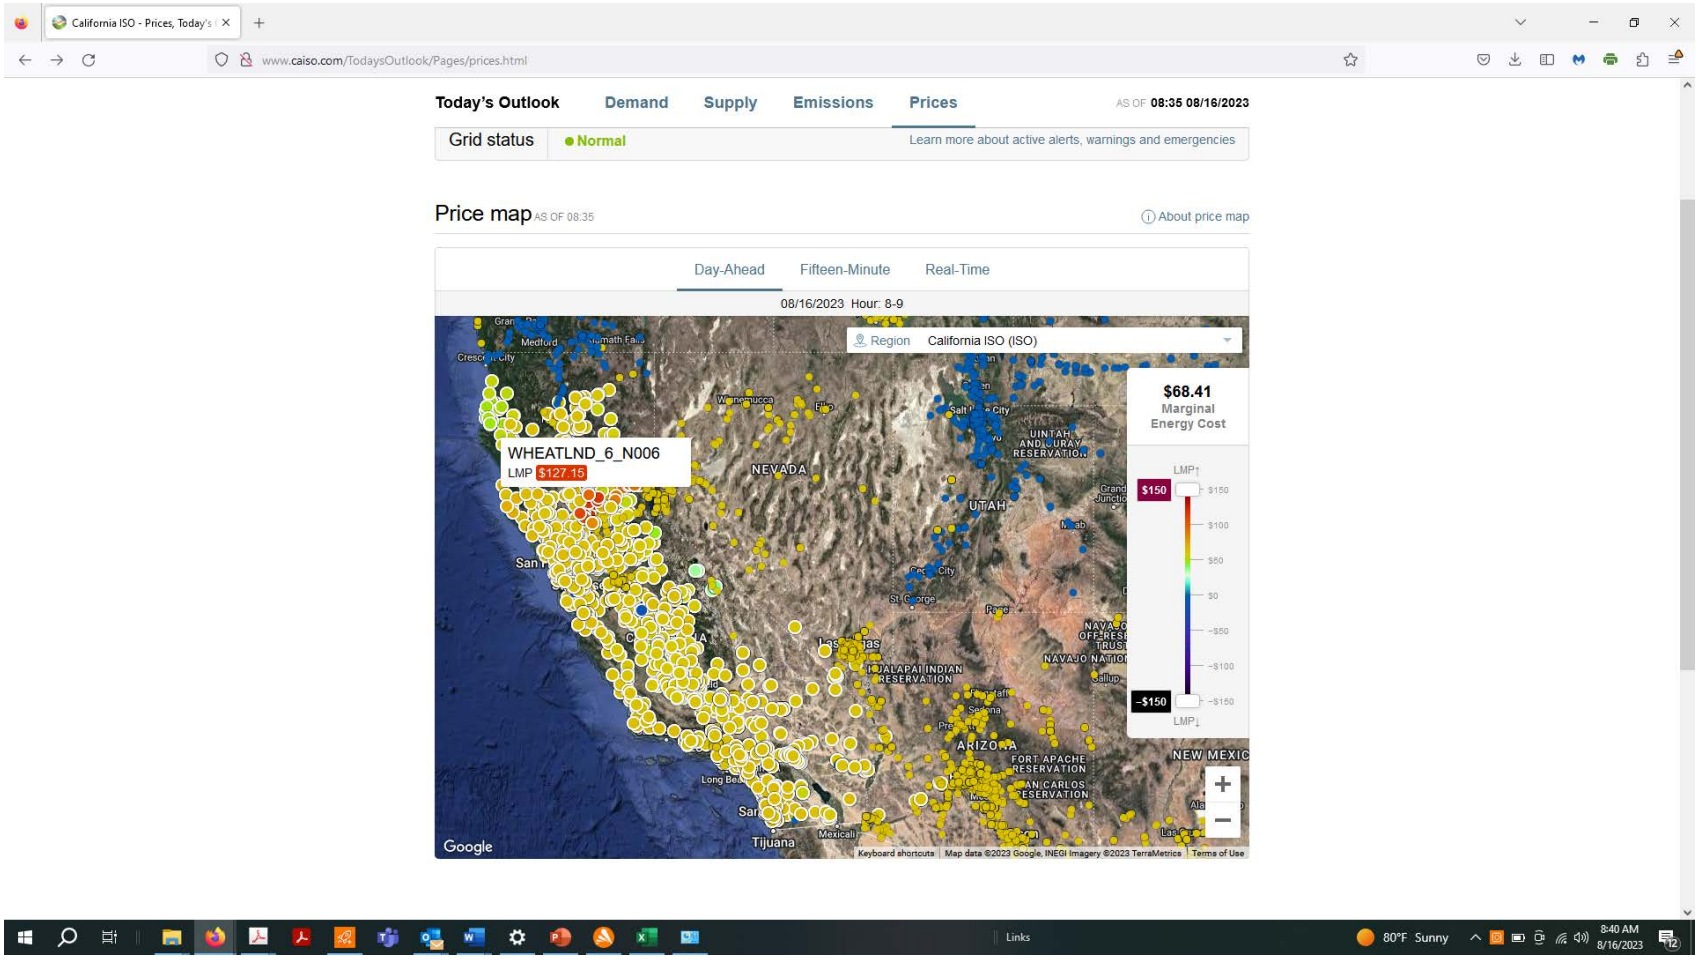
LCPD Local Generation & Resiliency System

- **Objective:** To replace the ~15% higher-cost "open-market" electricity purchases for LCPD needed to supplement the electricity supplied by Hoover Dam with **40% lower-cost**, locally controlled, baseload electricity
- **Funding Mechanism:** Utilize Available Federal Government Programs – USDA PACE (Powering Affordable Clean Energy), Cash Grants, and Inflation Reduction Act (IRA)
- **ABSOLUTE REQUIREMENT: All funds available to develop and permanently fund this system MUST BE without financial, or any other, liability to Lincoln County and the Lincoln County Power District**
  - **This requirement has been confirmed through direct discussions with Governor Lombardo, the Nevada State Infrastructure Bank, and the USDA**

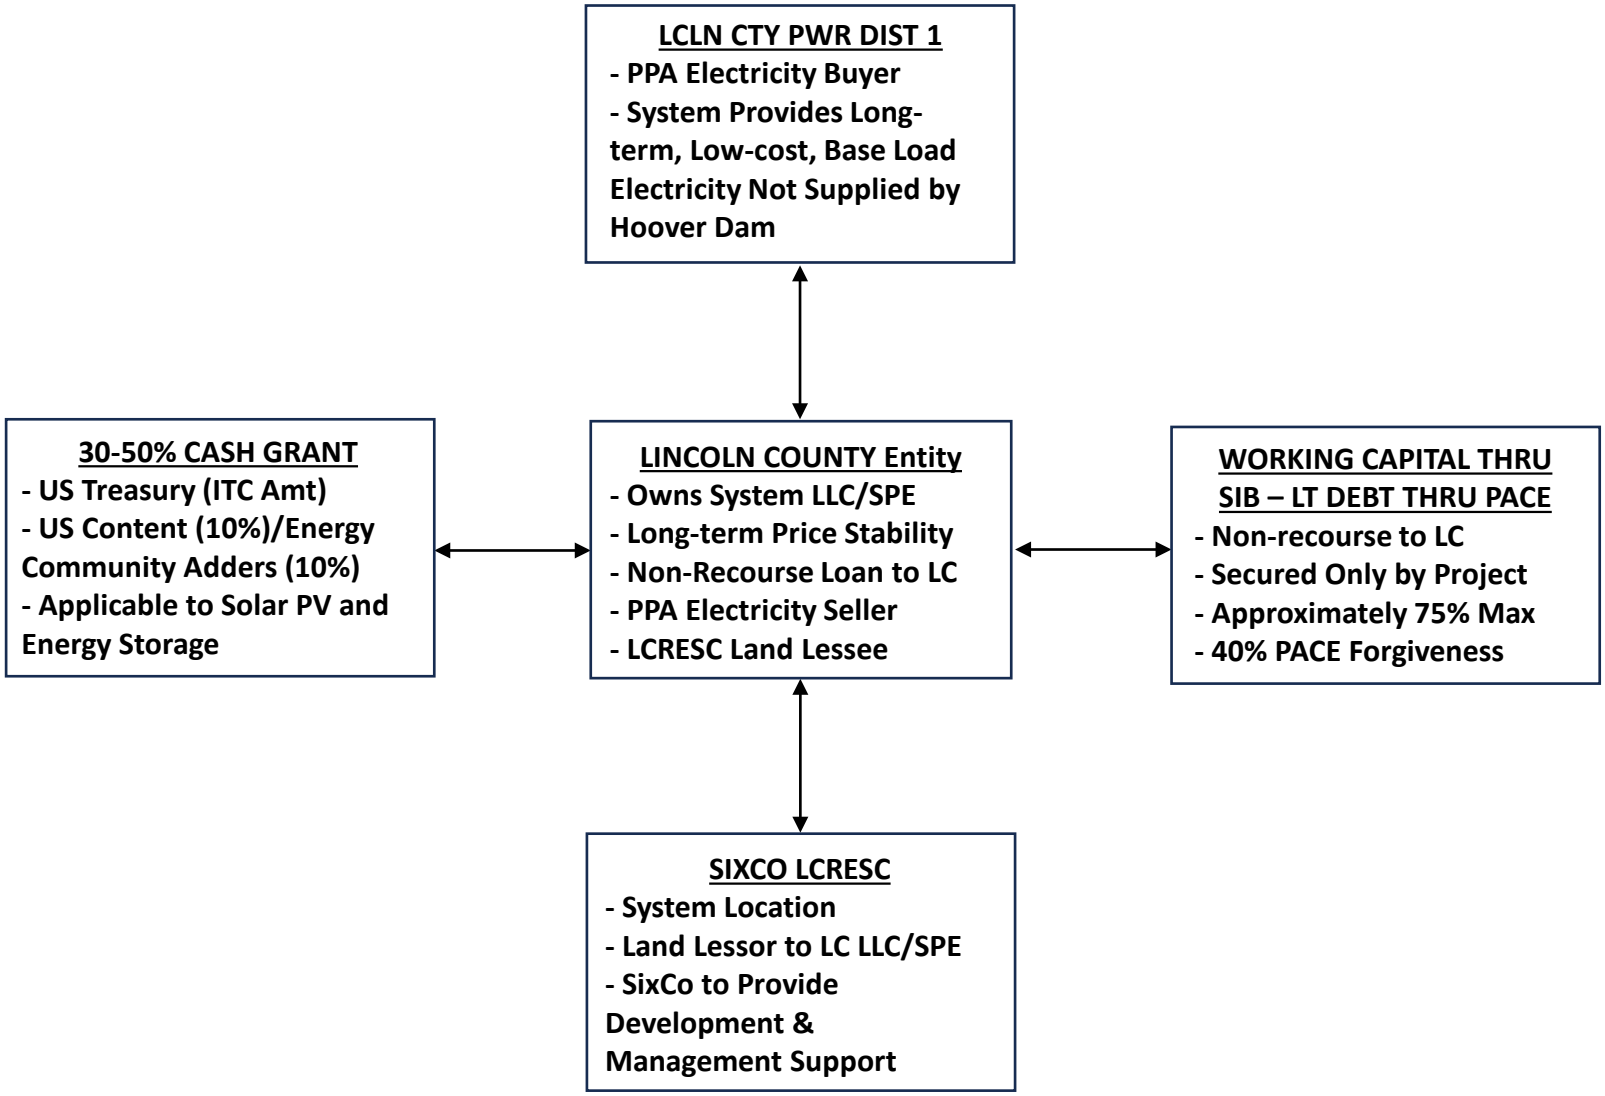
Lincoln County / Lincoln County Power District PPA - Sources and Uses of Funds

Uses ($MM)		% of Total
5MW DC Solar System incl Interconnection*	$ 11.25	53.60%
0MW Energy Storage System (4-6 hour daily discharge)*	$ -	0.00%
25 miles - wood-pole 25kV Transmission Line	$ 5.00	23.82%
35 Year Prepaid Land Lease at LCRESC	$ 2.41	11.48%
Progress Payment Interest (2/3 Cash Grant Eligible)*	$ 2.33	11.10%
Total	**$ 20.99**	**100.00%**

Sources ($MM)		% of Total
40% Cash Grant - Utilizing US Content*	$ 8.13	38.72%
USDA PACE Loan	$ 12.86	61.28%
Total	**$ 20.99**	**100.00%**



USDA PACE Loan Forgiveness - 40% - Benefit to LCPD Customers	$ (5.14)
Net USDA PACE Loan	$ 7.72



Nevada State Infrastructure Bank to provide working capital/progress payment financing

Why Is Lincoln County Generated Electricity Needed for LCPD Customer Rate Stability?

For Non-Hoover Dam Supplied Electricity, LCPD competes against CA in the Open-Market Pricing for Supply Shortfalls – In the Fall 2022, for a brief period, this Cost to LCPD was approximately $1.60/kWh = $1,600/MWh

http://www.caiso.com/TodaysOutlook/Pages/prices.html

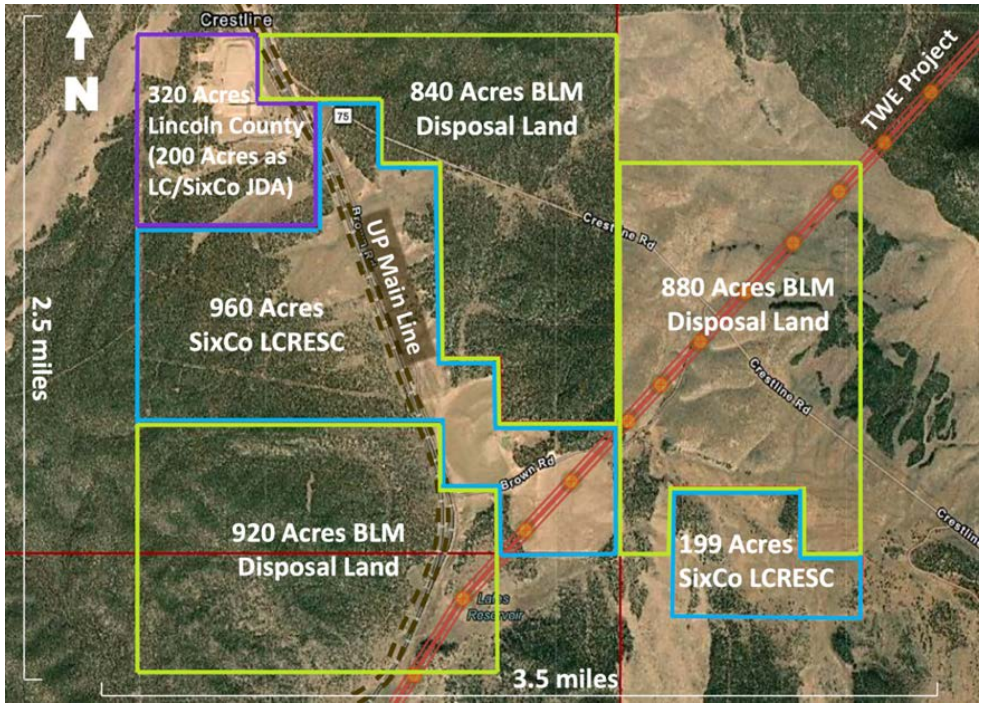
LCLN CTY PWR DIST 1
- PPA Electricity Buyer
- System Provides Long-term, Low-cost, Base Load Electricity Not Supplied by Hoover Dam
30-50% CASH GRANT
- US Treasury (ITC Amt)
- US Content (10%)/Energy Community Adders (10%)
- Applicable to Solar PV and Energy Storage
LINCOLN COUNTY Entity
- Owns System LLC/SPE
- Long-term Price Stability
- Non-Recourse Loan to LC
- PPA Electricity Seller
- LCRESC Land Lessee
WORKING CAPITAL THRU SIB – LT DEBT THRU PACE
- Non-recourse to LC
- Secured Only by Project
- Approximately 75% Max
- 40% PACE Forgiveness
SIXCO LCRESC
- System Location
- Land Lessor to LC LLC/SPE
- SixCo to Provide Development & Management Support

PROJECT TIMELINE – INCLUDING FINANCING MILESTONES

Month 0 – Lincoln County Letter of Intent Submitted to USDA PACE Program for Evaluation - Jul 26 23
- Estimated 1 month for USDA Full Application Invitation Decision

Months 3-4 – USDA PACE Invitation for Full Application – 60 day deadline – Need Access to initial Working Capital for Necessary Studies, Agreements, and Pre-paid Land Lease to Develop and Submit Full Application – Utilize the Lincoln County Special Infrastructure Fund (short-term), if needed

Months 1-4 – Lincoln County $5MM Non-Recourse Loan Submittal to NV State Infrastructure Bank (SIB) - Aug 09 23 – Upon Approval, SIB Funds will be used to repay the Lincoln County Special Infrastructure Fund (see above)



Months 4-6 – USDA PACE Full Application Evaluation – If Approved, Includes Non-Recourse Loan and Related Documents – USDA Funding does not occur until completion of project – 36–60 months estimated

Months 7-60 – Nevada SIB to Provide Additional working capital to bridge the multi-year gap from USDA PACE Commitment to USDA PACE Permanent Funding (including partial loan forgiveness) and US Treasury Cash Grants upon Project Completion and Commencement of Electricity Generation

Years 5-35 – USDA PACE Non-Recourse Loan Term – secured by the Project LLC, the PPA, and Long-term Pre-paid Land Lease

LCPD Local Generation & Resiliency System

- **Additional Collateral/Security for the SIB Working Capital Loan:** The LC/LCPD 5MW solar system, and related substation for the transmission line interconnection, will be located on the 199 Acre SixCo LCRESC parcel shown below. During the SIB working capital loan period, SixCo will provide a first lien to the SIB against both this parcel and the 960 Acre SixCo LCRESC parcel in exchange for the pre-payment of the $2.41 million land lease – as shown on the first page under Sources and Uses. SixCo is currently in escrow to purchase these parcels – along with ~300 acre-feet of annual vested water rights.

Bill,

In Level 1 review, we just make sure all of the necessary information is present. Level 2 reviews the information to determine if you meet the all eligibility requirements and gives their recommendations. Level 3 review is the financial and engineering review, which ultimately determines if you will receive an invitation to apply for the PACE program or if you are denied/ineligible.

Thank you,

Zane Friedel

Zane –

Thanks for this useful information. Looks like we should expect 6-8 weeks from now for a final invitation decision to be made.

Can you describe the general parameters for the Level 2 and Level 3 reviews?

Much appreciated.

Regards,
Bill

Bill,

There are 3 levels of review. It looks like they are starting to send invitations to apply out to the first batch of applicants. The Level 1 reviews for these applicants were completed in mid-July just to give you a reference on how long it may take to receive an invitation to apply for the PACE program.

Thank you,

Zane Friedel

Hello, Zane –

Thanks for the Shapefile confirmation.

With respect to the other open item, which is the title of the point of contact – we have two options. Please let me know which one is, or perhaps both are, preferred:

1. Denice Brown, Commissioners Assistant/Grants Administrator; 775-962-8063; dbrown@lincolnnv.com
2. Varlin Higbee, Chair – County Commissioners; 775-962-2004; horanch1@icloud.com

The Project Shapefile and appropriate contact information will be uploaded following your feedback.

Much appreciated.

Regards,
Bill

Zane –

Thanks for the clarification with respect to the project location shapefile, and confirmation that you were able to access the service area shapefile previously provided.

Please confirm that the attached zip file complies with your request. If so, Denice and I will coordinate on uploading this file and providing the additional information needed to complete this LOI.

This project opportunity has a high degree of positive visibility within Lincoln County and the State of Nevada – including Governor Lombardo. Your timely involvement is greatly appreciated.

Regards,
Bill

To Whom It May Concern -

SixCo Nevada is working with Lincoln County, NV on the referenced Letter of Interest (LOI) for the Powering Affordable Clean Energy (PACE) Program.

I do have a question about the Shapefile. The RUS tool was used to create the Shapefile which was submitted with the LOI. Is it possible that the type of browser used to create the Shapefile impacted the integrity of the Shapefile Zip Folder provided – such that it could not be opened or used?

Please feel free to contact me directly at 650-823-7247 since time is of the essence.

Much appreciated.

Regards,
Bill Vinnicombe

accordance with 40 U.S.C. 31, sections 3141 through 3144, 3146, and 3147.

6. *Federal Funding Accountability and Transparency Act.* All Applicants, in accordance with 2 CFR part 25, must be registered in SAM and have a UEI number as stated in Section D.3 of this notice. All recipients of Federal financial assistance are required to report information about first-tier sub-awards and executive total compensation in accordance with 2 CFR part 170.

7. *Civil Rights Act.* All grants made under this notice are subject to Title VI of the Civil Rights Act of 1964 as required by the USDA in 7 CFR part 15, subpart A (eCFR:: 7 CFR part 15 Subpart A—Nondiscrimination in Federally-Assisted Programs of the Department of Agriculture—Effectuation of Title VI of the Civil Rights Act of 1964) and section 504 of the Rehabilitation Act of 1973, Title VIII of the Civil Rights Act of 1968, Title IX, Executive Order 13166 (Limited English Proficiency), Executive Order 11246, and the Equal Credit Opportunity Act of 1974.

8. *Nondiscrimination Statement.* In accordance with Federal civil rights laws and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Mission Areas, agencies, staff offices, employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Program information may be made available in languages other than English. Persons with disabilities who require alternative means of communication to obtain program information (*e.g.,* Braille, large print, audiotape, American Sign Language) should contact the responsible Mission Area, agency, or staff office; the USDA TARGET Center at (202) 720–2600 (voice and TTY); or the 711 Relay Service.

To file a program discrimination complaint, a complainant should complete a Form AD–3027, USDA Program Discrimination Complaint Form, which can be obtained online at *https://www.usda.gov/oascr/program-discrimination-complaint-filing,* from any USDA office, by calling (866) 632–9992, or by writing a letter addressed to USDA. The letter must contain the complainant's name, address, telephone number, and a written description of the alleged discriminatory action in sufficient detail to inform the Assistant Secretary for Civil Rights (ASCR) about the nature and date of an alleged civil rights violation.

The completed AD–3027 form or letter must be submitted to USDA by:

(1) *Mail:* U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue SW, Washington, DC 20250–9410; or

(2) *Fax:* (833) 256–1665 or (202) 690–7442; or

(3) *Email: program.intake@usda.gov.*

USDA is an equal opportunity provider, employer, and lender.

Andrew Berke,

Administrator, Rural Utilities Service, USDA Rural Development.

BILLING CODE 3410–15–P

DEPARTMENT OF AGRICULTURE

Rural Utilities Service

[Docket#: RUS–23–ELECTRIC–0003]

Notice of Funding Opportunity for the Powering Affordable Clean Energy (PACE) Program

AGENCY: Rural Utilities Service, USDA.

ACTION: Notice.

SUMMARY: The Rural Utilities Service (RUS or the Agency), a Rural Development (RD) Agency of the United States Department of Agriculture (USDA), is soliciting Letters of Interest (LOI) for loan Applications, announcing the Application process for those loans, and providing deadlines for Applications from eligible entities under the Powering Affordable Clean Energy (PACE) Program. These loan funds will be made to qualified PACE Applicants to finance power generation Projects for Renewable Energy Resource (RER) systems or Energy Storage Systems (ESS) that support RER Projects. The PACE Program has $1,000,000,000 available in appropriated funds under the Inflation Reduction Act of 2022 (IRA).

DATES: Letters of Interest (LOIs) can be submitted beginning at 11:59 a.m. Eastern Time (ET) on June 30, 2023, until 11:59 a.m. ET September 29, 2023.

An applicant that is invited by RUS to proceed with the loan Application will have 60 days, or a time agreeable to the Agency, to complete and submit a loan Application beginning from the date the Invitation to Proceed is emailed to the PACE Applicant. If the deadline to submit the completed Application falls on Saturday, Sunday, or a Federal holiday, the Application is due the next business day. RUS reserves the right, in its sole discretion, to extend the deadline upon the written request of the applicant if the applicant demonstrates to the satisfaction of the Administrator that exceptional circumstances exist to warrant the extension.

ADDRESSES:

Letters of Interest (LOI) Submissions. All LOIs must be submitted to RUS electronically through an on-line application window. The Agency will finalize the specific requirements of submitting the LOI through the on-line application window by notice in the **Federal Register** and the RUS website at *https://www.rd.usda.gov/programs-services/electric-programs/powering-affordable-clean-energy-pace-program* on or before June 30, 2023.

Application Submissions. LOI submitters chosen to proceed with the loan Application must submit a completed loan Application package in accordance with the instructions provided in the RUS' Invitation to Proceed.

Other information. Additional information and resources are available at *https://www.rd.usda.gov/programs-services/electric-programs/powering-affordable-clean-energy-pace-program.* Information on IRA Funding for RD is located at the following website: *https://www.rd.usda.gov/inflation-reduction-act#fn.*

FOR FURTHER INFORMATION CONTACT: Christopher A. McLean, Assistant Administrator, Electric Program, RUS, RD, USDA, 1400 Independence Avenue SW, STOP 1568, Washington, DC 20250–1560; Telephone: 202–690–4492; Email: *SM.RD.RUS.IRA.Questions@usda.gov.*

SUPPLEMENTARY INFORMATION:

Overview

Federal Awarding Agency Name: Rural Utilities Service (RUS).

Funding Opportunity Title: Powering Affordable Clean Energy (PACE) Program.

Announcement Type: Notice of Funding Opportunity (NOFO).

Assistance Listing: 10.757.

Dates: Letters of Interest (LOIs) can be submitted beginning at 11:59 a.m. Eastern Time (ET) on June 30, 2023 until 11:59 a.m. ET September 29, 2023.

An applicant that is invited by RUS to proceed with the loan Application

will have 60 days, or within a time agreeable to the Agency to complete and submit a loan Application beginning from the date the Invitation to Proceed is emailed to the PACE Applicant. If the deadline to submit the completed Application falls on Saturday, Sunday, or a Federal holiday, the Application is due the next business day. RUS reserves the right, in its sole discretion, to extend the deadline upon the written request of the applicant if the applicant demonstrates to the satisfaction of the Administrator that exceptional circumstances exist to warrant the extension.

Rural Development Key Priorities: The Agency encourages applicants to consider projects that will advance the following key priorities:

- Assisting rural communities to recover economically through more and better market opportunities and through improved infrastructure;
- Ensuring all rural residents have equitable access to Rural Development (RD) programs and benefits from RD funded projects; and
- Reducing climate pollution and increasing resilience to the impacts of climate change through economic support to rural communities.

A. Program Description

1. *Purpose of the Program.* The IRA contains many transformative provisions. Importantly, it makes the largest investment in clean energy in U.S. history, allowing communities that have previously been left out of the clean energy economy to access affordable, reliable, and clean energy. The IRA also marks the largest investment in rural electrification since the 1930s, providing unique opportunities to advance economic development and quality of life in rural communities. The Biden-Harris Administration has prioritized these initiatives, elevating the role of infrastructure and the needs of rural America in its policies and their implementation.

The goal of the PACE Program is to support clean, affordable energy growth across America. The PACE Program provides loans to eligible entities, with varying levels of loan forgiveness, for Projects that generate and/or store electricity from RER.

2. *Statutory and Regulatory Authority.* PACE is authorized under Section 22001 of the Inflation Reduction Act, (IRA) Public Law 117–169 (IRA). Other Federal statutes and regulations that apply to this notice are: Section 317 of the Rural Electrification Act of 1936, 7 U.S.C. 940g (RE Act), 7 U.S.C. 8103, 7 CFR parts 1700–1730, 1767, 1773, and 1787, and 7 CFR part 1970.

The PACE Program is to be carried out by the RUS pursuant to Section 22001 of the IRA. Section 22001 of the IRA amends Section 9003 of the Farm Security and Rural Investment Act of 2002 by adding new subsection (h). Section 22001 of the IRA provides RUS with $1,000,000,000 in appropriated funds ''for the cost of loans under Section 317 of the RE Act.'' Additionally, Section 22001 of the IRA provides that PACE funds may be utilized to finance Projects that store electricity generated from eligible renewable energy sources listed under Section 317 of the RE Act. These Project Loans or System Loans will be forgiven up to 50 percent, or more under certain circumstances, provided the Awardee and the Project otherwise meet the term and conditions of the loan forgiveness.

Pursuant to Section 317(b) of the RE Act, loans shall be made for the purpose of constructing electric generation from renewable energy sources. Section 22001 of the IRA also provides that loan funds may be utilized for Projects that store electricity for such generation facilities. Further, Section 317(b) requires that the power generated from the eligible renewable energy source be for resale to rural and nonrural residents. Lastly, Section 317(c) requires that the rate of a loan shall be equal to the average tax-exempt municipal rate of similar maturities.

3. *Definitions.* The definitions applicable to this notice are as follows:

Administrator. The Administrator of the RUS, an agency under the RD mission area of the USDA.

Agency. The Rural Utilities Service (RUS).

Application. An application containing all information required by RUS as identified in the Invitation to Proceed. The application is materially complete in form and substance satisfactory to RUS within the specified time.

Award. The financial assistance offered to a PACE Applicant.

Awardee. An entity that has been awarded a PACE Award.

Commercially Available Technology. Equipment, devices, applications, or systems that have a proven, reliable performance, and replicable operating history specific to the proposed application. The equipment, device, application, or system is based on established patented design or has been certified by an industry-recognized organization and subject to installation, operating, and maintenance procedures generally accepted by industry practices and standards. Service and replacement parts for the equipment, device, application, or system must be readily available in the marketplace with established warranty applicable to parts, labor, and performance.

Commitment Letter. The notification issued by the Administrator to a PACE Applicant containing the total Award amount, the acceptable security arrangement, the proposed level of loan forgiveness, and such controls and conditions on the PACE Awardee's financial, investment, operational and managerial activities deemed necessary by the Administrator to adequately secure the Government's interest. This notification will also describe the accounting standards and audit requirements applicable to the Award.

Community Benefit Plan. The PACE Applicant's explanation as to how the Project will benefit the residents of the service area identified in the Application.

Distressed and Disadvantaged Communities. A Disadvantaged Community is determined by the Agency by using the Council on Environmental Quality's Climate and Economic Justice Screening Tool (which is incorporated into the USDA look-up map) which identifies communities burdened by climate change and environmental injustice. Distressed Community is determined by the Agency by using the Economic Innovation Group's Distressed Communities Index (which is incorporated into the USDA look-up map), which uses several socio-economic measures to identify communities with low economic well-being. To determine if your Project is located in a Disadvantaged Community or a Distressed Community, please use the following USDA look-up map: *https://ruraldevelopment.maps.arcgis.com/apps/webappviewer/index.html?id=4acf083be4c44bb7864d90f97de0c788.*

Energy Community. A community as defined by the Department of Treasury and the Internal Revenue Service at *https://www.irs.gov/pub/irs-drop/n-23-29.pdf* or through future governmental guidance.

Energy Storage System (ESS). A facility capable of accepting energy, storing the energy for a period of time, and then later releasing the stored energy in support of a Renewable Energy Resource (RER).

Environmental Attributes. All financial attributes that are created or otherwise arise from the Project's generation of electricity from a renewable or zero emission energy system that include but are not limited to, any environmental air quality

credits, green credits, renewable energy credits (RECs), carbon credits, emissions reduction credits, emission rate credits, certificates, tags, offsets, allowances, etc.

Environmental and Historic Preservation Requirements. The National Environmental Policy Act of 1969, as amended (NEPA) (42 U.S.C 4321, *et seq.*), Section 7 of the Endangered Species Act (16 U.S.C. 1531 *et seq.*), and Section 106 of the National Historic Preservation Act (NHPA)(54 U.S.C. 300101 *et seq.*), as well as their implementing regulations at 7 CFR part 1970, Environmental Policies and Procedures (including Farmland Protection Policy Act Implementation Policy), 50 CFR part 402, Interagency Cooperation, and 36 CFR part 800, Protection of Historic Properties.

Financial Feasibility. An eligible entity's ability as determined by the Administrator to generate sufficient revenues to cover its expenses, sufficient cash flow to service its debts and obligations as they come due, and meet the financial ratios set forth in the applicable loan documents.

Indian Tribe. The term ''Indian Tribe'' has the meaning given the term in 25 U.S.C 5304.

Invitation to Proceed. A written notification issued by RUS to the applicant acknowledging that the Letter of Interest (LOI) was received and reviewed and inviting the applicant to submit an Application. The notification also provides the applicant instructions on how to submit the loan Application package and details of the next steps in the Application process.

Letter of Interest (LOI). An electronically signed submission made through the RUS window completed by an eligible entity notifying RUS of its intent to apply for a loan and addressing all the elements identified in Section D.2(a) of this notice.

Non-Federal Entities. As defined in 2 CFR 200.1, Non-Federal Entities are States, local governments, Indian Tribes, institutions of higher education (IHE), or nonprofit organizations. The definition of what constitutes a non-profit is also located in 2 CFR 200.1.

Off-Taker. Shall mean: (1) the customers or members of the PACE Applicant that purchase and receive the electrical power and energy from the PACE Applicant; or (2) the entity that has or will execute a Power Purchase Agreement (PPA) with the PACE Applicant to purchase and receive electrical capacity and associated energy produced by the Project. The Off-Taker may also be referred to in the PPA as the ''Buyer'', ''Customer'', ''Purchaser'' or another name that describes the entity purchasing the power.

Power Purchase Agreement (PPA). A binding agreement executed between the PACE Applicant and an Off-Taker under which the Off-Taker agrees to purchase and receive from the PACE Applicant the electrical capacity and associated energy produced by the Project at a pre-determined price and term. The PPA may include other transactions such as the selling and purchasing of Environmental Attributes or ancillary services (*e.g.,* voltage regulation and synchronization, contingency reserves).

Powering Affordable Clean Energy (PACE) Applicant. An eligible entity that has submitted an Application pursuant to an Invitation to Proceed.

Project. New facilities constructed after the effective date of the IRA and compliant with all other applicable requirements of this notice used to generate electricity from an RER, and/or to store electricity that support the types of RERs that are eligible to be financed with PACE Program loan funds, as provided in Section 22001 of the IRA and Section 317 of the RE Act, which will result in the deployment of renewable energy generation or storage capacity.

Project Loans. A PACE Award secured by a security interest in the assets and revenues of the Project and supporting credit enhancements relating to the Project rather than by a security interest in all of the assets of the PACE Applicant's electric utility system. Any PACE Award to a PACE Applicant that is not a current operating utility shall be a Project Loan.

Renewable Energy Resource or *Renewable Energy Source (RER).* An energy conversion system fueled from a solar, wind, hydropower, biomass, or geothermal source of energy as defined in Section 317(a) of the RE Act.

Rural Area. A rural area shall mean:

(a) Any area other than a city, town, or unincorporated area that has a population of greater than 20,000 inhabitants. or

(b) Service areas of current RUS Borrowers or former RUS and Rural Electrification Act (REA) borrowers which will be deemed rural for the purposes of their Applications.

Rural Partners Network (RPN). The RPN is an alliance of Federal agencies and commissions working directly with rural communities to expand rural prosperity through job creation, infrastructure development, and community improvement.

RUS Borrower. A current RUS borrower under the RE Act.

Secretary. The Secretary of the United States Department of Agriculture.

Substantially Underserved Trust Area (SUTA). An area defined under Section 306F of the RE Act.

System Loans. PACE Awards secured through a senior security interest in all assets of the PACE Applicant, which must be a currently operating electric utility.

4. *Application of Awards.* LOIs will be queued as they are received and reviewed on rolling basis in the order they are received. The Agency will review and evaluate LOIs based on the criteria found in Section E.1(a) of this notice. Upon review of the LOI, RUS may issue an Invitation to Proceed to the applicant. The Agency will review the loan Application and evaluate it based on the criteria found in Section E.1(b) of this notice. The Agency advises all interested parties that the applicant bears the full burden in preparing and submitting an LOI, as well as its Application submission as a PACE Applicant, in response to this notice.

B. Federal Award Information

1. *Type of Award:* Loan & Loan Forgiveness.

2. *Fiscal Year Funds:* 2023 & 2024.

3. *Available Funds:* Total appropriated amount of $1 billion in appropriated funds through September 30, 2031. However, based on projected subsidy rates, RUS expects to have approximately $2.7 billion available to lend for the PACE Program. There will be a minimum of $300 million of appropriated funds committed to each category outlined in this Section of the notice.

RUS may, at its discretion, increase the total level of funding available in this funding round or in any category in this funding round from any available source provided the Awards meet the requirements of the statute which made the funding available to the Agency.

4. *Award Amounts:* The maximum loan amount, inclusive of the forgivable portion, of any individual Award is limited to $100,000,000. The minimum amount of any individual Award is $1,000,000.

5. *Loan Type:* RUS will offer both Project Loans and System Loans as described below.

(a) *Project Loans.* This loan type applies to applicants that are not eligible for, or have decided not to pursue, a System Loan. Project Loans will be used to finance specific eligible Projects where the Award will be secured through a senior security interest on the Project's assets and the revenues generated from the Project's assets. A Project may also require the Awardee to commit additional cash reserves. Further, to the extent that a

PPA is in place with respect to the Project's assets, the Awardee must collaterally assign the PPA to RUS as security, with the Off-Taker's consent to such assignment. The Administrator may consider tax credits or direct payments in lieu of tax credits the Awardee receives under the Internal Revenue Code when calculating equity investment requirements for a PACE Applicant's proposed Project. If the Administrator allows a PACE Applicant to meet the financial equity requirement by utilizing applicable tax benefits, the Administrator may require additional credit support from the PACE Applicant pending the PACE Applicant's receipt of the tax benefit. Further, the Agency may utilize its authority under Section 306F of the RE Act and finance up to 100% of the cost of Projects benefitting SUTA areas. Project Award funds will only be released after commercial operation of the Project is commenced and RUS has confirmed that the Awardee has satisfied all other conditions specified in the Award.

(b) *System Loans.* System Loans are only available to currently operating electric utilities. The PACE Applicant will provide, if it has not already provided, RUS with a perfected senior lien on all of its existing assets, both real and personal, including intangible personal property, as well as after-acquired property. At the Administrator's discretion, PACE Applicants which are generation and transmission suppliers may be permitted to secure a System Loan through an indenture, provided that RUS is granted a perfected senior security interest in all its assets by the trustee. System Loans may finance 100% of the Project costs included in an Application. At the discretion of the Administrator, System Loan funds can be released to finance Projects for costs incurred during construction of the facilities; however, loan forgiveness will not occur until the Project has been completed and RUS has confirmed that the Awardee has satisfied all other conditions specified in the Award.

6. *Loan Forgiveness Categories:* The following percentages shall be forgiven on Awards meeting the requirements outlined in Sections E and F of this notice. RUS will initially allocate a minimum of $300 million to each category.

(a) *Category I.* Up to 20 percent total loan forgiveness;

(b) *Category II.* Up to 40 percent total loan forgiveness if 50 percent or more of the population served by the proposed service area is located within the following areas:

(1) Energy Communities; or

(2) Distressed or Disadvantaged Communities.

(c) *Category III.* Up to 60 percent total loan forgiveness if:

(1) The proposed service area is located in Puerto Rico, United States Virgin Islands (USVI), Guam, American Samoa or other U.S. territories or Compact of Free Association (COFA) states; or

(2) The proposed service area consists of 60 percent or more of a Tribal area or serves an area that constitutes a SUTA; or

(3) The Project is owned by an Indian Tribe defined by the Federally Recognized Indian Tribe List Act of 1994 (Pub. L. 103–454; 108 Stat. 4791, 4792), including their wholly owned arms and instrumentalities, or an Alaska Native Corporation, including regional or village corporations, as defined under or established pursuant to the Alaska Native Claims Settlement Act (Pub. L. 104–42; 85 State. 688).

7. *Anticipated Award Date:* From September 2023 to December 2025.

8. *Performance Period:* Five (5) years from the date of environmental clearance, but no later than September 30, 2031.

9. *Use of other governmental funds:* The Agency will generally allow the Awardee to combine the incentives contained in this notice with other governmental benefits, provided such combinations are otherwise permitted by law or regulation.

10. *Renewal or Supplemental Awards:* None.

11. *Type of Assistance Instrument:* Loan Agreement.

C. Eligibility Information

1. *Eligible Applicants.* RUS will accept LOIs and Applications from entities as described below:

(a) For-profit organizations.

(b) State or local governments.

(c) Indian Tribes defined by the Federally Recognized Indian Tribe List Act of 1994 (Pub. L. 103–454; 108 Stat. 4791, 4792), including their wholly arms and instrumentalities.

(d) Alaska Native Corporations, including regional or village corporations as defined under or established pursuant to the Alaska Native Claims Settlement Act (Pub. L. 104–42; 85 State. 688)

(e) Nonprofits.

(f) Institutions of higher education.

(g) Community-based organizations, distribution electric cooperatives, and generation and transmission electric cooperatives.

LOIs and Applications from any entity in the above categories will be evaluated for funding. Where applicable and possible, applicants are encouraged to work with Distressed and Disadvantaged Communities, Energy Communities, Puerto Rico, the United States Virgin Islands (USVI), Guam, American Samoa or other U.S. territories or Compact of Free Association (COFA) states, tribal entities, and RPN communities.

2. *Cost Sharing and Matching.*

(a) *Project Loans.* Awards will finance up to 75% of the total capitalized costs of a Project. Awardees will be required to provide at least 25% of the Project's total capitalized cost in the form of cash or equity investments, which may not be derived from debt instruments.

(b) *System Loans.* PACE System Loans may cover 100% of the total costs of the Project.

3. *Other.*

(a) *Eligible Service Areas.*

(1) Electricity generated or stored from facilities shall be provided to ''rural and nonrural residents'' in eligible service areas.

(2) *Rural Percentage of the Service Territory.* The rural percentage will be calculated at the applicant's choosing by either:

(i) The population located in the Rural Areas of a service territory versus the total population of the entire service territory; or

(ii) Meters served in the Rural Areas of a service territory versus meters served in the entire service territory.

For the purpose of this notice, the minimum rural percentage by the chosen methodology must be at least 50 percent, unless waived by the Administrator based upon a showing that there exist social equity considerations, such as SUTA, significant energy burdens, severe economic needs, or substantial added benefits to rural consumers.

(3) *Rural Determination.* If the PACE Applicant is not a RUS Borrower, a rural determination will be conducted by RUS in order to:

(i) Identify the service territory where electricity from the facilities to be financed by PACE Award would be delivered and consumed; and

(ii) Further identify those areas within the service territory that are rural.

(b) *Project Eligibility.*

(1) Projects can be developed by eligible applicants developing new renewable power generation from RER and ESS for use by Off-Takers through a PPA or a financial guarantee that ensures Financial Feasibility.

(2) New facilities that generate electricity from an RER, including facilities that store electricity that support such assets. However, RUS will not approve facilities that violate the

terms of a PACE Applicant's existing wholesale power contract.

(3) New linear facilities, including microgrids, and equipment that are necessary to operate the Project including, but not limited to, transmission or distribution facilities that are needed to export, transmit, and deliver power from the generating facility to the Off-Taker.

(4) The upgrading of existing linear facilities and equipment that are necessary to operate the Project including, but not limited to, transmission or distribution facilities that are needed to export, transmit, and deliver power from the generating facility to the Off-Taker.

(5) The Project may include one or more RERs and/or ESSs.

(6) Facilities may be co-located to operate interconnectedly or independently or constructed at separate sites.

(7) RERs and ESSs must be installed so that the RER can provide energy and any ancillary services for resale to rural and nonrural residents located in eligible service areas.

(8) Applicants can request interconnection and other costs associated with being able to deliver the RER and/or the ESS to Off-Takers, including related microgrid investments. Successful applicants may also recover a portion of their capitalizable pre-application costs pursuant to 7 CFR part 1767 and this notice.

(9) Applicant may include in its loan Application the costs specified in 7 CFR 1710.106, including interest during construction (IDC) pursuant to 7 CFR 1710.106(a)(4).

D. Application and Submission Information

1. *Address to Request Application Package.* The Agency will finalize the on-line application window by notice in the **Federal Register** on or before June 30, 2023. The PACE Program Application Guide and copies of necessary forms and samples will become available at *https://www.rd.usda.gov/programs-services/electric-programs/powering-affordable-clean-energy-pace-program.* If you require alternative means of communication for program information (*e.g.,* Braille, large print, audiotape) please contact USDA's TARGET Center at (202) 720–2600 (voice and TDD) or the 711 Relay Service.

2. *Content and Form of Application Submission.*

(a) *Letter of Interest (LOI) Submission.* The LOI must include the information as listed below in this Section. LOI submitters should be aware that the final Application will require more information as included in Section D.2(b) of this notice.

(1) *LOI submitter's profile and point of contact information.*

(i) Legal name and status of the LOI submitter.

(ii) The LOI submitter's address and principal place of business.

(iii) The LOI submitter's tax identification number and its Unique Entity Identifier (UEI) number from the System for Award Management (SAM) registry.

(iv) Legal structure of LOI submitter (*e.g.,* cooperative, corporation, limited-liability company, State or local government entity, municipality, federally recognized Tribe). If the applicant is a non-governmental entity, a statement as to whether the entity is organized as a non-profit.

(v) If the LOI submitter is a State or local governmental entity, a certification that it can enter into contracts with the Federal government, incur debt, and provide security for such debt. Federal government entities are not eligible for financing.

(vi) Name and title of LOI submitter's manager and/or point of contact, which must include general contact information, as well as an email address to receive RUS' Invitation to Proceed.

(vii) The location of the Project and the applicable service area using a digital Shapefile. The applicable service area must demonstrate that the Project will provide economical clean energy to rural residents as outlined in Section C.3(a) of this notice.

(viii) The LOI submitter's net assets value.

(ix) A certification as to whether the LOI submitter over the last 10 years has been placed in receivership liquidation, has been under a workout agreement, has declared bankruptcy, or has had a decree or order issued for relief in any bankruptcy, insolvency, or other similar action.

(x) A statement as to whether the Project(s) will serve a SUTA area as defined in Section A.3 of this notice.

(2) *Financial Information.* A copy of the LOI submitter's balance sheet and income statements for the shorter of the last three years or the years the LOI submitter has been in operation. If the LOI submitter has no operating history, the LOI submitter must provide RUS with information RUS deems necessary to evaluate the financial strength of the LOI submitter. The LOI submitter must also provide the balance sheet and income statements for the last three years of any entity or entities providing equity or security for the loan, with an explanation of the legal relationship to the LOI submitter.

(3) *Technical Description of the Project.* A technical description of the Project, which shall not exceed 1,500 words, and must include the following:

(i) Type of loan being requested, Project Loan or System Loan. See Section B.5 of this notice.

(ii) A description of each RER and ESS being requested for PACE financing including Project name, location, type, size, and renewable energy units generated and saved.

(iii) Verification that the Project(s) will be designed, constructed, and operated based on Commercially Available Technology.

(iv) For each Project, the estimated dates to start construction and to achieve commercial operation.

(v) The estimated total capital cost of each Project and the amount of Award funds being requested to finance each Project.

(vi) Proposed financial structure of the owners, equity investors and other participants, which shall include estimated sources and uses of all funds.

(vii) If applicable, a description and status of any PPA that will be used to sell and deliver the electrical output of the Project(s) to Off-Takers.

(viii) If applicable, a description of any existing power sales contracts, such as wholesale power contracts, between Off-Takers and its members.

(ix) Status of, and estimated timelines to complete, if known, any applicable Federal, State, or local permitting or environmental review processes.

(x) *Ratepayer and Community Benefit.* A brief discussion from the LOI submitter that if it is invited to submit an Application, it will demonstrate in its Application how it will pass on a portion of the savings from the loan forgiveness to the Off-Taker as described in Section B.6 of this notice and that the LOI submitter will provide the required information from Section D.2(b)(19) for the Community Benefit Plan.

(xi) *Prevailing wage.* Pursuant to 7 U.S.C. 8103(f), a certification that, pursuant to 7 U.S.C. 8103(f), the LOI submitter will comply with the provisions of the Davis-Bacon Act so that any laborers and mechanics employed on the Project or any contractor or subcontractor in: (A) the construction of such facility, and (B) with respect to any taxable year, for any portion of such taxable year the alteration or repair of such facility, shall be paid wages at rates not less than the prevailing rates for construction, alteration, or repair of a similar character in the locality in which such facility is located as most recently

determined by the Secretary of Labor, in accordance with subchapter IV of chapter 31 of title 40, United States Code.

(xii) *Loan Forgiveness Level.* A statement as to what level of loan forgiveness outlined in Section B.6 of the notice that the LOI submitter believes it is eligible and the reason(s) why it believes it is eligible for that specific level of loan forgiveness.

If the LOI submitter cannot provide any of the information or documents listed above, it must notify RUS prior to submitting an Application.

(b) *Application Submission.* An LOI submitter that receives an Invitation to Proceed must submit Application packages containing the information and documents required in 7 CFR 1710.501, as well as the following information and documentation:

(1) *Loan Application letter.* The letter may be signed by any authorized representative of the PACE Applicant; however, the authorization must also be submitted with the Application.

(2) *Articles of incorporation and bylaws and other governing and organizational documents.* The PACE Applicant must provide the articles of incorporation, bylaws, and other organizational documents currently in effect. PACE Applicants that are RUS Borrowers may comply with this requirement by notifying in writing to RUS that there are no material changes to the documents already on file with RUS. Other governmental applicants must only provide evidence of their ability to enter into debt obligations.

(3) *Environmental and Historic Preservation Requirements.* If the PACE Applicant has not received written notice from RUS that the Project environmental review process is formally concluded as provided in 7 CFR 1970.11, it must submit documents that establish that a review is in progress and no ground disturbance activities have started prior to receiving notice that the Environmental and Historic Preservation review requirements have been completed. This requirement requires the PACE Applicant to include a certification that construction has not started and that it will not start prior to obtaining written notice from RUS. The PACE Applicant must further state the type of environmental review document it believes needs to be prepared in accordance with 7 CFR part 1970 (*e.g.,* a Categorical Exclusion with an Environmental Report, an Environmental Assessment, or Environmental Impact Statement in accordance with subparts B, C, or D, respectively). The PACE Applicant must provide a description of any potential environmental controversy or extraordinary circumstances, and the estimated timelines for completing the environmental process. PACE Applicants are strongly advised that commencing construction prior to environmental or historic preservation clearance could make a Project ineligible for RUS financing, regardless of a Project's place in the queue.

(4) *Financial Forecast.* In order to demonstrate that the loan is feasible as required in 7 CFR 1710.112, the PACE Applicant must submit a financial forecast. For System Loans, the financial forecast must cover at least 10 years from the commercial operating date of the Project to be financed, must demonstrate that the PACE Applicant's operation is economically viable and that the proposed loan is financially feasible. RUS may request projections for a longer period of time or additional information, if RUS deems it necessary based on the financial structure of the PACE Applicant. The PACE Applicant must submit the financial forecast in the form prescribed by RUS in the Invitation to Proceed.

(5) *PPA.* If the PACE Applicant proposes to sell power generated from the Project to an Off-Taker under a PPA, the PACE Applicant must provide a draft copy of the PPA with the Application, which must be structured to allow two different rate schedules; one for the case without loan forgiveness and the other for the case with loan forgiveness. Because the PPA is essentially the mechanism by which consumers will benefit from the PACE program, all draft PPAs must be approved by RUS prior to being executed. RUS approval of the PACE Application is predicated upon an executed PPA that has been approved by the Agency.

(6) *Power Resources Owned, Co-owned or Leased.* If applicable, provide a discussion or table of the existing power resources available to the applicant that includes generation facilities owned, co-owned or leased. The information provided should include: name of plant and unit, ownership interest (%), type of unit and fuel used, net peak capacity, and in-service date.

(7) *Power Purchase Contracts.* If applicable, provide a discussion of the applicant's power purchase contracts (with terms greater than two years) that describes the capacity and energy resources purchased. The information should include: type of contract (take-or pay, unit power purchase, etc.), parties to the contract, amount (capacity and energy); and term and expiration date.

(8) *Power Sales Contracts.* A description of any existing power sales contracts, such as wholesale power contracts, between an Off-Taker and its members must be provided that includes the type of agreements (*e.g.,* all or partial requirements), the initial execution dates, and the dates the agreements expire. The PACE Applicant must provide copies of the agreements if requested by the Agency.

(9) *Engineering Report.* A signed final engineering report or final engineering and power cost study must be provided with the Application, or soon thereafter. The report must describe the purpose, design, costs, construction, and operation of the Project(s). A draft engineering report must be submitted for RUS approval prior to it being finalized and signed. An approved engineering report is a prerequisite to the obligation of PACE funds; however, the PACE borrower may amend the engineering report with RUS' written approval. The finalized engineering report must be signed or approved by licensed professional engineer.

(10) *Project Contracting.* The PACE Applicant must provide a list of all engineering, procurement, and construction contracts it intends to use on the Project(s), with a brief description and cost estimate of each contract. At the Agency's discretion, any contracts selected by the Agency for review and approval must be submitted within the period of time requested by the Agency. In no event will Award funds be disbursed prior to the selected Project contracts receiving Agency approval and any other necessary approvals.

(11) *Interconnection Agreements.* If an interconnection agreement is needed, draft agreements required to interconnect an RER, ESS, or related microgrid system to a distribution or transmission network must be included with the Application. These agreements must be approved by the Agency before the Award funds are disbursed.

(12) *System Impact Studies.* The status and summary of any related system impact studies as they may pertain to the interconnection of the Project with a distribution or transmission network must be provided with the Application. System impact studies must be conducted, as applicable, to include load flow studies, short circuit analysis, system stability analysis, and conclusions (*e.g.,* identify voltage, overload, stability problems and proposed actions or contingencies; single contingency analysis of proposed facilities; transmission constraints; and system improvements needed). The nature of any required system upgrades

and associated costs to be incurred by the Awardee, Off-Taker, or other entity must be identified. The Agency may request a copy of any system impact studies or links to review such studies.

(13) *Transmission Service Agreements.* Transmission service agreements required to export, transmit or deliver the power from the Project to the Off-Taker, if any, must be included with the Application. These agreements must receive Agency approval before Award funds are disbursed.

(14) *Other Major Agreements.* The PACE Applicant must provide a list and a brief description of all other major agreements that will need to be executed for the Project. Such agreements, if applicable, include, but are not limited to O&M arrangements, joint ownership arrangements, fuel management, and fuel supply and transportation. Agreements selected for approval by the Agency should be submitted within the period of time requested by the Agency. RUS will not approve the PACE Application until all agreements requested for review have been approved by the Agency.

(15) *Meteorological Data and Studies.* RERs such as solar and wind Projects must be supported with meteorological data and studies to determine the expected energy generation of the facility during the initial year of operation. The PACE Applicant must identify the amount and basis of any annual degradation in energy output of the RERs.

(16) *Fuel and Fuel Transportation Strategies.* If applicable to the Project, the PACE Applicant must describe the fuel and fuel transportation strategies of the Project and show that the fuel supply for the life of the Project is adequate. Fuel supply contracts and fuel transportation contracts must be identified, including the term of each contract. Copies of the fuel contracts or arrangements must be provided if requested by the Agency.

(17) *Sources and Uses of Water.* The PACE Applicant must identify the uses and source of water for the Project, as well as evidence that the water supply will be adequate to meet both daily demands and demands for the life of the Project. If requested by the Agency, the PACE Applicant must provide copies of any agreements or arrangements that would be used to purchase or receive water used and consumed by the Project and the applicable water balance diagram of the facilities.

(18) *Real Estate Matters.* If the PACE Applicant is leasing the real estate upon which it will build and operate the Project, the PACE Applicant must submit an executed copy of the lease agreement with the Application. Lease agreements must contain, or be amended to contain, a provision that allows the PACE Applicant to collaterally assign the lease to RUS as security for the loan. Further, to the extent that the lessor under any lease with the PACE Applicant has executed a mortgage or deed of trust with respect to the real estate to another party, that party must execute an attornment and non-disturbance agreement in favor of the PACE Applicant that will allow the PACE Applicant to continue to lease the real property and operate the Project in the event of the lessor's default under the mortgage or deed of trust. The PACE Applicant must submit any attornment and non-disturbance agreements to RUS with its PACE Application.

(19) *Community Benefit Plan.* The PACE Applicant must submit a Community Benefit Plan, which should be implemented within the first year of receiving Award funds, but which is expected to be provided beyond the Project itself, including, but not limited to:

(i) Investments in the American workforce such as local worker retention, retraining and job creation;

(ii) The launch or expansion of systemic or consumer-based energy efficiency and carbon reduction measures such as providing on-bill financing or Pay as You Save programs to improve the energy efficiency and beneficial electrification for consumers;

(iii) Land use agricultural integration that demonstrates ways for traditional farming and ranching to benefit from clean energy Projects; and

(iv) Diversity, equity, inclusion, and accessibility goals set forth in the Justice40 Initiative.

(20) *Tribal Government Resolution of Consent.* A certification from the appropriate Tribal official is required if the Project, or any part of it, will be sited on Tribal land where a Tribal government has regulatory authority. Any non-Tribal PACE Applicant that fails to provide a certification to provide service on the Tribal lands identified in the proposed Project or the proposed service area will not be considered for funding.

(21) *Estimated Costs.* The applicant must include in its loan Application a breakdown of the estimated costs listed in Section C.3(b)(9) of this notice for which it intends to seek reimbursement.

3. *System for Award Management and Unique Entity Identifier.*

(a) At the time of Application, each PACE Applicant must have an active registration in the System for Award Management (SAM) before submitting its Application in accordance with 2 CFR part 25. In order to register in SAM, entities will be required to obtain a Unique Entity Identifier (UEI). Instructions for obtaining the UEI are available at *https://sam.gov/content/entity-registration.*

(b) PACE Applicants must maintain an active SAM registration, with current, accurate and complete information, at all times during which it has an active Federal award or an Application under consideration by a Federal awarding agency.

(c) PACE Applicants must ensure they complete the Financial Assistance General Certifications and Representations in SAM.

(d) PACE Applicants must provide a valid UEI in its Application, unless determined exempt under 2 CFR 25.110.

(e) The Agency will not make an Award until the PACE Applicant has complied with all SAM requirements. If a PACE Applicant has not fully complied with the requirements by the time the Agency is ready to make an Award, the Agency may determine that the PACE Applicant is not qualified to receive a Federal Award and use that determination as a basis for making a Federal Award to another PACE Applicant.

4. *Submission Dates and Times.*

(a) *LOI Submissions.* LOIs can be submitted beginning at 11:59 a.m. Eastern Time (ET) on June 30, 2023 until 11:59 a.m. ET on September 29, 2023.

(b) *Application Submissions.* A LOI submitter that receives an Invitation to Proceed will have 60 days, or a time agreeable to the Agency, to complete and submit its loan Application. If the deadline to submit the Application falls on Saturday, Sunday, or a Federal holiday, the Application is due the next business day. The Administrator may grant an extension of time to complete the documentation required for an Application if, in the Administrator's sole judgment, extraordinary circumstances prevented the PACE Applicant from completing the Application within the timeframe herein stipulated. In extending an Invitation to Proceed to a LOI submitter in the queue, RUS reserves the right to meet overall RUS program objectives and therefore, may notify the PACE Applicant that the amount of financing to be Awarded is below the level sought by the PACE Applicant.

(c) *General.* RUS reserves the right to ask PACE Applicants for clarifying information on, or additional information related to, the LOI or Application.

5. *Intergovernmental Review.* Intergovernmental Review under

Executive Order 12372 is not required in this program.

6. *Funding Restrictions.*

(a) Entities that plan to submit or have submitted Applications under the RUS Empowering Rural America (New ERA) Program may not apply for the same Project under the PACE Program. Failure to follow this limitation will cause the PACE Applicant to be disqualified from all potential Awards.

(b) Only Projects where construction began after August 16, 2022, the effective date of the IRA, will be eligible for funding under PACE Program.

(c) Funding will not be provided for merchant power Projects or Projects where a non-utility entity is generating power for its own use.

(d) Funding will not be provided for the purchase of any existing RER or ESS.

(e) There are no Application or origination fees for loans under the PACE Program.

(f) RUS will only finance Projects that utilize Commercially Available Technology under this notice.

(g) PACE Applicants can request interconnection and other costs associated with being able to deliver the RER and/or the ESS to Off-Takers.

7. *Other Submission Requirements.*

(a) An entity may only submit one LOI. RUS will not accept paper LOIs. A sample LOI and additional information is available at *https://www.rd.usda.gov/programs-services/electric-programs/powering-affordable-clean-energy-pace-program.*

(b) Each LOI submitter may only submit one Application, upon receiving a RUS Invitation to Proceed.

(c) Each PACE Applicant may only receive one Award.

(d) An Invitation to Proceed or RUS' approval of a PACE Application does not constitute approval of any agreement or document that the PACE Applicant must provide to RUS for RUS' approval as outlined in this notice or in the applicable PACE loan agreement.

(e) A PACE Applicant must, after submitting a LOI or loan Application, promptly notify RUS of any changes in its circumstances that materially affect the information contained in the loan Application.

(f) Applicants (''co-applicants'') may submit a joint/consolidated LOI or a Joint Application for consideration (collectively the ''Joint LOI'' or ''Joint Application''). If a joint LOI contains two or more proposed Projects, the Agency may evaluate each proposed Project separately as to whether to provide an Invitation to Proceed concerning each proposed Project. The Agency may also disaggregate its review of the technical and Financial Feasibility of the individual Projects contained in a joint LOI or a joint Application. Further, the Agency may require co-applicants to accept separate contractual and financial commitments relating to the Project or Projects contained in the joint Application.

E. Application Review Information

1. *Criteria.*

(a) *LOI.* RUS will process and evaluate complete LOI on a rolling basis in the order they are received. In reviewing LOIs, RUS will assess the following:

(1) *Applicant eligibility.* The applicant's eligibility to participate in the PACE Program.

(2) *Project eligibility.* The eligibility of the proposed Project under the terms of Section 22001 of the IRA and the technical feasibility of the proposed Project.

(3) *Geographic Diversity.* The Administrator may consider geographic diversity in reviewing and evaluating LOIs.

(4) *Financial status.* The financial status of the applicant to determine the applicant's likelihood to successfully secure and repay the PACE loan.

(6) *Allocation of Funds Among Categories.* The amount of funding available in the category due to a disproportionate number of LOI in that category and whether RUS will be able to reallocate funding from another category listed in Section B.6 of this notice.

(b) *Application.* RUS will evaluate and review each Application based on the criteria provided in 7 CFR part 1710 subpart D and will assess the following:

(1) *Financial coverage ratios.* The Administrator may set financial coverage ratios based on the risk profile of the PACE Applicant and specific loan terms. Those financial ratios will be included in the PACE borrower's loan documents with RUS. RUS Borrowers will be subject to their current debt service coverage ratios in their current loan documents, unless notified otherwise.

(2) *Financial Equity Requirements.* As noted in Section C.2 of this notice, RUS will require the Awardee to provide at least 25% equity in the Project for PACE Project loans. However, the Administrator may consider requests to waive the 25% financial equity requirement for PACE Awards where the Project will serve areas covered under SUTA. System Loans that provided RUS with a perfected senior lien on all assets of the PACE Applicant will not have an additional equity requirement. The required financial equity position will be set forth in the Commitment Letter and the loan documents as a condition to the PACE loan. RUS may consider allowing the Awardee to meet the financial equity requirements by utilizing any appliable direct payment or tax credit relating to the Project as provided in Internal Revenue Code of 1986 and its implementing regulations. If the Administrator allows a PACE Applicant to meet the financial equity requirement by utilizing applicable tax credits or direct payments relating to the Project, the Agency may require additional security or credit support from the PACE Applicant pending the PACE Applicant's receipt of the tax credit or direct payment.

(3) *Community Benefit Plan.*

(4) *Loan forgiveness minimum requirements.*

(i) *Ratepayer Benefit:* Loan forgiveness must provide demonstrable benefits to rate payers located in the service area. The PACE Applicant must demonstrate in its LOI that the consumer benefits and financial benefits resulting from the forgivable portion of the loan will be shared between the Awardee and the Off-Taker. This must be shown through a long-range financial forecast scenario that establishes that the revenue per kilowatt hour (KWh) the PACE Applicant will receive from the sale of the power to the Off-Taker would have been higher but for the loan forgiveness. Additionally, a net present value (NPV) calculation should be performed to demonstrate the financial benefit to the rate payer with the addition of the loan forgiveness versus business as usual without loan forgiveness.

(ii) *Technical Feasibility and Commercially Available Technology.* RUS must determine that the Project is technically feasible and confirm that the Project uses a Commercially Available Technology.

(iii) *Financially Feasible.* The proposal must be financially feasible and adequately securable, as outlined in 7 CFR 1710.112.

2. *Review and Selection Process.*

(a) *LOI.* RUS will consider only complete LOIs as they are received. LOIs will be accepted on a rolling basis and evaluated as received based on the criteria described in Section E.1(a) of this notice. Only LOIs selected to receive an Invitation to Proceed will be able to proceed with the Application.

(b) *Application.* LOI submitters that receive an Invitation to Proceed will have 60 days, or a time agreeable to the Agency, from the date RUS sends the Invitation to Proceed to submit an Application to the Agency. A General Field Representative (GFR) will be

assigned to assist the PACE Applicant during this part of the Application process. RUS will process Applications in the order they are received.

All Applications will be reviewed based on the criteria provided in Section E.1(b) of this notice. RUS will make Awards under the PACE Program based on Applications that meet the requirements contained in this notice. The Agency reserves the right to offer the PACE Applicant less than the loan funding and loan forgiveness requested.

F. Federal Award Administration Information

1. *Loan Terms and Conditions.* A successful PACE Applicant will receive a Commitment Letter from the Administrator notifying of the following: total Award amount approved by RUS; the amount of the loan that will be forgiven; any additional controls on its financial, investment, operational and managerial activities; acceptable security arrangements; and such other conditions deemed necessary by the Administrator to adequately secure the Government's interest and ensure repayment. Upon receipt of the acceptance of the Award offer by the PACE Awardee, RUS will begin to prepare the loan documents. Upon completion of the loan documents, RUS will forward the loan documents to the PACE Applicant.

Receipt of a Commitment Letter from the Administrator does not authorize the PACE Awardee to commence performance under the Award. All RUS requirements and loan conditions specified in the Commitment Letter must be met before the Awardee may commence construction on the Project and before RUS will disperse the proceeds of the Award, including but not limited to the Awardee receiving notice that the Environmental and Historic Preservation requirements have been completed. RUS will notify the Awardee when it is authorized to commence construction of the Projects.

(a) *Maturity of a PACE Loan.* The maturity of a PACE loan will be the lesser of:

(1) The expected useful life of the Project,

(2) The term of the PPA (if required for execution between the PACE Applicant and the Off-Taker),

(3) The term of the lease for the land that the Project will occupy (if such land is not owned by the PACE Applicant),

(4) The expiration dates of power sales contracts between the PACE Applicant and its members should the PACE Applicant provide the power supply needs of the members under such power sales contracts,

(5) The loan term requested by the PACE Applicant, or

(6) 35 years.

(b) *Waiver and Modification of Term and Conditions.* The Administrator reserves the right to modify or waive certain requirements if:

(1) The Administrator believes such modifications or waivers are in the best interest of the government,

(2) The Administrator has determined that the loan will be repaid on or before the maturity date, and

(3) The security is adequate.

The Awardee may be required to establish and maintain reserves sufficient for timely loan payments, emergency maintenance, extensions to the facilities, and replacement of short-lived assets.

(c) *Interest rate.* Loans made under PACE Program will bear interest equal to the municipal rate as provided in Section 317(c) of the RE Act, and as further described in the first sentence of 7 CFR 1714.4(a) and 7 CFR 1714.5(a)–(c). Municipal rates can be found at *https://www.rd.usda.gov/page/rural-utilities-loan-interest-rates.* Note that because there is no interest rate cap for the PACE Program, the third sentence of 7 CFR 1714.4(a) and 7 CFR 1714.5(d) shall not apply.

(d) *Prepayment.* Prepayment of PACE loans will be governed by Sections 305(c) and 306B of the RE Act and the provisions of 7 CFR part 1714, subpart A and 7 CFR 1786, subpart F that relate to municipal rate loans. If the Awardee prepays a PACE loan, its obligations under the Community Benefit Plan will continue for a period equal to the shorter of: (1) the original term of the Award, or (2) five years from the date the Project was placed in service.

(e) *Repayment.* The repayment of each advance to the PACE borrower must be amortized over the term on the PACE loan, such that the Awardee will make equal monthly payments that will pay all principal and interest on such advance no later than the maturity date.

(f) *Financial Ratios.* Financial ratios shall be determined as set forth in Section E.1(b)(1) of this notice.

(g) *Collateral.* Project Loans will be secured through a senior security interest on the Project's assets and the revenues generated from the Project's assets. System Loans will be secured by assets of the Awardee. For RUS Borrowers, the Agency may rely, at its sole discretion, on existing security arrangements with RUS if it is determined that the government has adequate collateral. When an Awardee is unable by reason of preexisting encumbrances, or otherwise, to furnish a senior perfected security interest on its entire system, the Administrator may accept other forms of security, such as a guarantee from the appropriate party, an irrevocable letter of credit, or revenue pledges, if the Administrator determines that such credit support is reasonably adequate and acceptable.

(h) *Opinion of counsel.* An opinion of counsel is required at closing and must be acceptable to the Administrator, opining, *inter alia,* that the Awardee is properly organized and has the authority to enter into the Award and that RUS has a first priority, senior lien on the required collateral, unless other collateral arrangements have been agreed to with the Agency.

(i) *Cybersecurity.* An Awardee must certify that it has adopted and implemented a cybersecurity risk mitigation and remediation plan that is consistent with prudent utility practice. Additionally, the Awardee must certify that such cybersecurity risk mitigation and remediation plan is in effect at the time of each advance request.

(j) *General Provisions.* Unless otherwise stated in this notice or in the loan documents, a PACE loan will be governed by the municipal rate loan provisions contained in 7 CFR parts 1710, 1714, and 1721.

(k) *Funding Disbursements and Restriction.*

(1) *General.* RUS will disburse funds to the Awardee in accordance with the terms of the Award documents. All Award funds will be disbursed as a reimbursement for eligible program costs after the Project is complete, and its performance verified in a manner that is sufficient to RUS. RUS reserves the right to consider requests to disburse funds prior to completion of the Project by Awardees with System Loans. Pursuant to Section 22001 of the IRA, the Award agreements must contain a provision that requires the advance of all loan funds on or before September 30, 2031. All undisbursed funds as of close of business on September 30, 2031, will automatically be rescinded; however, the Agency will set a last day for advance in the Award agreements well in advance of the statutory limit.

(2) *Advances and Loan Forgiveness Information.* RUS will disburse Award funds to the Awardee after the Awardee has satisfied all conditions of its Award agreement with respect to the release of funds. This may include, but not be limited to, certain milestone conditions being achieved during construction to the satisfaction of RUS or the results of any required performance testing of the Project that RUS has reviewed and determined to be acceptable. RUS will

forgive the portion of the loan specified in the Award agreement at the time RUS disburses the Award proceeds if the Awardee demonstrates to RUS' satisfaction that the Project is functioning as represented in the PACE Application. The maximum loan forgiveness amount for each loan forgiveness category is described in Section B.6 of this notice.

If, however, RUS determines after having forgiven a portion of the loan that the Awardee is no longer in compliance with the terms of the Award agreement, RUS will require the Awardee to repay the entire PACE loan in full.

(3) *Signage.* The Awardee is encouraged to display USDA standard infrastructure investment signage, available for download from the Agency, during construction of the Project. Expenditures for such signage shall be a permitted eligible cost of the Project.

2. *Administrative and National Policy Requirements.* The items listed in this notice implement the appropriate administrative and national policy requirements, which include but are not limited to:

(a) Execution of a PACE loan agreement and related loan documents;

(b) Compliance with policies, guidance, and requirements as described in Section A.2 of this notice, and any successor regulations.

(c) Except as provided in the notice and in the executed loan agreements, all other generally applicable regulations contained in 7 CFR parts 1700–1730, 1767, 1773, and 1787, and 7 CFR part 1970 will apply to PACE loans, as well as relevant Bulletins published by the RUS Electric Program.

As required by 7 U.S.C. 8103(f), the Projects financed through the PACE Program will be subject to the Wage Rate Requirements (formerly Davis-Bacon Act) prevailing wage requirements contained in Subchapter IV of Chapter 31 of Title 40 of the United States Code and the Department of Labor's implementing regulations contained in 29 CFR parts 1, 3, and 5.

(d) Pursuant to the Defense Production Act of 1950 and the Foreign Investment Risk Review Modernization Act of 2018, RUS will require PACE Applicants to disclose any foreign person or foreign entity that has an ownership, management rights, or voting interesting in the PACE Applicant or the Project.

3. *Reporting.*

(a) *Performance Reporting.* RUS will establish periodic reporting requirements that will be outlined in the Award documents.

(b) *Accounting Requirements.* Awardees must comply with Accounting Principles Generally Accepted in the United States, (GAAP), as well as compliance with the requirements of the applicable regulations: 2 CFR part 200 subpart E Cost Principles, 48 CFR 31 Federal Acquisition Regulations Contract Cost Principles, and the system of accounting prescribed by 7 CFR part 1767 Accounting Requirements for RUS Electric Borrowers.

(c) *Audit Requirements.* Awardees will be required to prepare and furnish to RUS audits as follows:

(1) Awardees that are Non-Federal Entities shall provide RUS with an audit pursuant to 2 CFR part 200, subpart F, Audit Requirements. The Non-Federal Entity Awardee must follow subsection 2 CFR 200.502 in determining federal awards expended.

All RUS loans impose an ongoing compliance requirement for the purpose of determining federal awards expended during a fiscal year. In addition, the Awardee must include the value of new federal loans made along with any grant expenditures from all federal sources during the Awardee's fiscal year. Therefore, the audit submission requirement for this program begins in the Awardee's fiscal year that the loan is made and thereafter, based on the balance of federal loan(s) at the beginning of the audit period. All required audits must be submitted within the earlier of:

(i) 30 calendar days after receipt of the auditor's report; or

(ii) nine months after the end of the Awardee's audit period.

(2) For all other entities, Awardees shall provide RUS with an audit within 120 days after the as of audit date in accordance with 7 CFR part 1773. Note that with respect to advances that contain loan funds, the audit is required after an advance has been made, and, thereafter, from the close of each subsequent fiscal year until the loan is repaid in full. While an audit is required, Awardees must also submit a report on compliance and internal controls over financial reporting, as well as a report on compliance with aspects of contractual agreements and regulatory requirements.

(d) *Monitoring Requirements.* Awardees must comply with all reasonable RUS requests to support ongoing monitoring efforts. Awardees must afford RUS, through their representatives, a reasonable opportunity, at all times during business hours and upon prior notice, to have access to and the right to inspect any or all books, records, accounts, invoices, contracts, leases, payrolls, timesheets, cancelled checks, statements, and other documents, electronic or paper of every kind belonging to or in possession of the Awardee or in any way pertaining to its property or business, including its parents, affiliates, and subsidiaries, if any, and to make copies or extracts therefrom. Failure to comply with reasonable RUS requests could result in a termination of the Award agreement.

G. Federal Awarding Agency Contact(s)

For general questions about this announcement, please contact the point of contact listed in the **FOR FURTHER INFORMATION CONTACT** Section of this notice.

H. Build America, Buy America Requirements

Infrastructure Project Awards under this announcement must meet the following domestic preference requirements:

1. *Funding to Non-Federal Entities.* Awardees that are Non-Federal Entities shall be governed by the requirements of Section 70914 of the Build America, Buy America Act (BABAA) within the Infrastructure Investment and Jobs Act (IIJA), and its implementing regulations. The Act requires the following Buy America preference:

(a) All iron and steel used in the Project are produced in the United States. This means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

(b) All manufactured products used in the Project are produced in the United States. This means the manufactured product was manufactured in the United States, and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation.

(c) All construction materials (excludes cement and cementitious materials, aggregates such as stone, sand, or gravel, or aggregate binding agents or additives) are manufactured in the United States. This means that all manufacturing processes for the construction material occurred in the United States.

BABAA only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools,

equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does BABAA apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project. Any requests for waiver of these requirements must be submitted pursuant to USDA's guidance available online at *https://www.usda.gov/ocfo/federal-financial-assistance-policy/USDABuyAmericaWaiver.*

2. *Funding to all other entities.* All other Awardees shall be governed by the Agency's Buy American requirement at 7 CFR part 1787. For purposes of BABAA compliance, for-profit organizations are not considered Non-Federal Entities. However, this does not alter independent statutory authorities that USDA may have to include domestic content requirements in awards of Federal financial assistance issued to for-profit organizations. Any requests for waiver of these requirements must be submitted pursuant to those regulations.

I. Other Information

1. *Administrative Procedure Act Statement.* This notice is being issued without advance rulemaking or public comment. The Administrative Procedure Act of 1946 (APA), as amended (5 U.S.C. 553), has several exemptions to rulemaking requirements. Among them is an exception for a matter relating to ''loans, grants, benefits, or contracts.''

2. *Congressional Review Act Statement.* Pursuant to Subtitle E of the Small Business Regulatory Enforcement Fairness Act of 1996 (also known as the Congressional Review Act or CRA); 5 U.S.C. 801 *et seq.,* the Office of Information and Regulatory Affairs in the Office of Management and Budget designated this action as a major rule as defined by 5 U.S.C. 804(2), because it is likely to result in an annual effect on the economy of $100,000,000 or more. Accordingly, there is a 60-day delay in the effective date of this action, and the Agency will not take action on LOIs until the later of 60 days after notification to Congress or July 17, 2023. The 60-day delay required by the CRA is not expected to have a material impact upon the administration and/or implementation of this program.

3. *Paperwork Reduction Act.* In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), USDA requested that the Office of Management and Budget (OMB) conduct an emergency review of a new information collection that contains the Information Collection and Recordkeeping requirements contained in this notice.

In addition to the emergency clearance, the regular clearance process is hereby being initiated to provide the public with the opportunity to comment under a full comment period, as the Agency intends to request regular approval from OMB for this information collection. Comments from the public on new, proposed, revised, and continuing collections of information help the Agency assess the impact of its information collection requirements and minimize the public's reporting burden. Comments may be submitted regarding this information collection through the Federal eRulemaking Portal at *https://www.regulations.gov*. In the ''Search for dockets and documents on agency actions'' box, type in the DOCKET # from this notice to submit or view public comments and to view supporting and related materials available electronically. Information on using *Regulations.gov,* including instructions for accessing documents, submitting comments, and viewing the docket after the close of the comment period, is available through the site's ''FAQ'' link. Comments on this information collection must be received by July 17, 2023.

Title: Powering Affordable Clean Energy (PACE) Program.

OMB Control Number: 0572–NEW.

The following estimates are based on the average over the first 3 years the program is in place.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 10.632 hours per response.

Respondents: Private entities, governmental entities, nonprofits, Indian Tribes, district organizations, institutions of higher education.

Estimated Number of Respondents: 200.

Estimated Number of Responses per Respondent: 8.47.

Estimated Number of Responses: 1,694.

Estimated Total Annual Burden (hours) on Respondents: 18,010.

Copies of this information collection may be obtained from Katherine Anne Mathis, Management Analyst, Regulatory Division, RD Innovation Center, telephone: 202–713–7565; email: *katherine.mathis@usda.gov.* All responses to this information collection and recordkeeping notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

4. *National Environmental Policy Act.* All recipients under this notice are subject to the requirements of 7 CFR part 1970.

5. *Federal Funding Accountability and Transparency Act.* All applicants, in accordance with 2 CFR part 25, must be registered in SAM and have a UEI number as stated in Section D.3 of this notice. All recipients of Federal financial assistance are required to report information about first-tier sub-awards and executive total compensation in accordance with 2 CFR part 170.

6. *Wage Rate Requirements.* As provided in 7 U.S.C. 8103(f) all Projects funded under the PACE Program, as a condition of receiving a grant or loan under this Section, an eligible entity shall ensure that all laborers and mechanics employed by contractors or subcontractors in the performance of construction work financed, in whole or in part, with the grant or loan, as the case may be, shall be paid wages at rates not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor in accordance with 40 U.S.C. 31, Sections 3141 through 3144, 3146, and 3147.

7. *Civil Rights Act.* All grants made under this notice are subject to Title VI of the Civil Rights Act of 1964 as required by the USDA in 7 CFR part 15, subpart A (eCFR:: 7 CFR part 15 Subpart A—Nondiscrimination in Federally-Assisted Programs of the Department of Agriculture—Effectuation of Title VI of the Civil Rights Act of 1964) and Section 504 of the Rehabilitation Act of 1973, Title VIII of the Civil Rights Act of 1968, Title IX, Executive Order 13166 (Limited English Proficiency), Executive Order 11246, and the Equal Credit Opportunity Act of 1974.

8. *Nondiscrimination Statement.* In accordance with Federal civil rights laws and the USDA civil rights regulations and policies, the USDA, its Mission Areas, agencies, staff offices, employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Program information may be made available in languages other than

English. Persons with disabilities who require alternative means of communication to obtain program information (*e.g.,* Braille, large print, audiotape, American Sign Language) should contact the responsible Mission Area, agency, or staff office; the USDA TARGET Center at (202) 720–2600 (voice and TTY); or the 711 Relay Service.

To file a program discrimination complaint, a complainant should complete a Form AD–3027, USDA Program Discrimination Complaint Form, which can be obtained online at *https://www.usda.gov/sites/default/files/documents/ad-3027.pdf* from any USDA office, by calling (866) 632–9992, or by writing a letter addressed to USDA. The letter must contain the complainant's name, address, telephone number, and a written description of the alleged discriminatory action in sufficient detail to inform the Assistant Secretary for Civil Rights (ASCR) about the nature and date of an alleged civil rights violation. The completed AD–3027 form or letter must be submitted to USDA by:

(1) *Mail:* U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue SW, Washington, DC 20250–9410; or

(2) *Fax:* (833) 256–1665 or (202) 690–7442; or

(3) *Email: program.intake@usda.gov.*

USDA is an equal opportunity provider, employer, and lender.

Andrew Berke,

Administrator, Rural Utilities Service, USDA Rural Development.

BILLING CODE P

DEPARTMENT OF COMMERCE

Bureau of Industry and Security

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Technology Letter of Explanation

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on March 8, 2023, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: Bureau of Industry and Security, Department of Commerce.

Title: Technology Letter of Explanation.

OMB Control Number: 0694–0047.

Form Number(s): None.

Type of Request: Extension of a currently approved information collection.

Number of Respondents: 6,283.

Average Hours per Response: 30 minutes to 2 hours.

Burden Hours: 9,416.

Needs and Uses: This collection is necessary under section 748.8(o) and supplement 2 section (o) to Part 748 of the Export Administration Regulations (EAR). Licensing officers must make decisions on licensing the export of United States commodities and technical data to foreign countries. When an export involves certain technical data or knowhow described in the Export Administration Regulation, additional information is required to fully understand the transaction and make a licensing decision. The Technology Letter of Explanation provides a written description of the technology proposed for export sufficient to allow BIS technical staff to evaluate the impact of licensing the export on United States national security and foreign policy. The letter of assurance puts the consignee on notice that the technology is subject to U.S. export controls and causes the consignee to certify that it will not release the data or the direct product of the data to certain specified country group nationals; thus providing assurance that U.S. national security data will be safeguarded and used only for the stated end use. The additional information is necessary to evaluate technology exports as covered under this collection.

Affected Public: Business or other for-profit organizations.

Frequency: On Occasion.

Respondent's Obligation: Voluntary.

Legal Authority: EAR sections 748.8 and sup 2 section (o) to part 748.

This information collection request may be viewed at *www.reginfo.gov.* Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0694–0047.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

INDEPENDENT AUDITOR'S REPORT

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter - Change in Accounting Principle

As discussed in Note A5 to the financial statements in 2021, the County adopted new accounting guidance, the provisions of *GASB Statement No. 84, Fiduciary Activities*. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 5-13, budgetary comparisons information on pages 63-72, Reconciliation of the General Fund (Budgetary Basis) to the General Fund (GAAP Basis) on page 73, Schedule of Changes in the County's Total OPEB Liability and Related Ratios on page 74, Schedule of the County's Contributions to the Public Employees' Retirement System of the State of Nevada on Page 75, and Schedule of the County's Proportionate Share of the Net Pension Liability Public Employees' Retirement System of the State of Nevada on page 76 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit for the year ended June 30, 2021 was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund financial statements and schedules for the year ended June 30, 2021 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements for the year ended June 30, 2021, and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2021.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of the County as of and for the year ended June 30, 2020 (not presented herein), and have issued our report thereon dated November 25, 2020, which contained unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information. The combining and individual fund financial statements and schedules for the year ended June 30, 2020, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2020 financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the 2020 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2020.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 29, 2021 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Las Vegas, Nevada
November 29, 2021

As management of Lincoln County, Nevada, we offer readers of Lincoln County, Nevada's financial statements this narrative overview and analysis of the financial activities of Lincoln County, Nevada, for the fiscal year end June 30, 2021. The Management's Discussion and Analysis ("MD&A") introduces the financial reports for Lincoln County, Nevada. The MD&A is designed to give the reader an easy-to-understand overview of the County's financial position and results of operations for the year. The MD&A is separated into Financial Highlights, an Overview of the Financial Statements, Government-Wide Financial Analysis, Financial Analysis of the County's Governmental Funds, Financial Analysis of the County's Enterprise Funds, General Fund Budgetary Highlights, Capital Assets and Debt Administration, and Economic Factors and Next Year's Budget and Rates.

FINANCIAL HIGHLIGHTS

The assets of the County exceeded its liabilities at the close of the 2021 fiscal year by $35,211,446 (net position). Total net position represents approximately $24,276,181 in capital assets, net of related debt, and $7,588,895 in assets restricted for debt services, capital projects, public works, and for other purposes. The remaining $3,346,370 represents unrestricted net position, which may be used to meet the County's ongoing obligations to its citizens and creditors.

The government-wide net position of the County decreased during the fiscal year 2021 by $569,865, or 1.59%.

At the end of fiscal year 2021, the County's governmental funds reported combined fund balances of $21,256,476; a decrease of $269,886, or 1.25%, when compared to the previous year.

The County's primary revenue sources for governmental activities were ad valorem (property) taxes of $3,277,602, fuel taxes of $1,763,861, charges for services of $1,039,527, consolidated taxes of $1,610,533, operating grants and contributions of $1,691,157, and federal in lieu taxes of $980,517. These revenue sources comprised 26.02%, 14.01%, 8.25%, 12.79%, 13.43%, and 7.79% respectively, or 82.29%, of total governmental activities revenues. Business-type activities revenue from charges for services was $1,027,796.

The County's total government-wide expenses were $13,949,168. The greatest expenses were in the General Government $3,464,746, Public Works $2,285,986, and Public Safety $1,726,783 functions. Business-type activities contributed $2,176,794 to total expenses.

OVERVIEW OF THE FINANCIAL STATEMENTS

This Management's Discussion and Analysis is intended to serve as an introduction to the County's basic financial statements which consists of government-wide financial statements, fund financial statements, and accompanying notes. This report also contains required supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements: The government-wide financial statements are designed to provide readers with a broad overview of the County's finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the County's assets, deferred outflows/inflows and liabilities with the difference reported as net position. Increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

OVERVIEW OF THE FINANCIAL STATEMENTS(Continued)

The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave).

The government-wide financial statements report two types of activities: governmental activities and business-type activities. The government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, public safety, public works, judicial, health, welfare, community support, culture and recreation, and intergovernmental. The business-type activities include operations of its detention center, utilities, solid waste, and building department operations.

Fund Financial Statements: A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains individual governmental funds. Information is presented separately in the governmental balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Road Fund, Lincoln County Water District Water Resources Fund, Lincoln County Land Act Special Use Fund, and County Grant Fund, each of which is considered to be a major fund. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the combining and individual fund statements and schedules.

The County adopts an annual appropriated budget for each of its governmental funds. A budgetary comparison statement is provided for each of the County's governmental funds to demonstrate compliance with the budget. The budgetary comparison statements for the major governmental funds are presented as required supplementary information; the budgetary comparison statements for all other governmental funds are included in the fund financial statements accompanying information.

OVERVIEW OF THE FINANCIAL STATEMENTS(Continued)

Proprietary Funds: The County maintains one type of proprietary fund, the Enterprise Fund. The Enterprise Fund is used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses the Enterprise Funds to account for its utility activities, building department activities, solid waste operation, and operation of the detention center.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the utility funds, building department, solid waste, and detention center. The Detention Center and Solid Waste are considered to be major funds of the County.

Fiduciary Funds: Fiduciary funds are used to account for the resources held for the benefit of parties outside of the government; Fiduciary funds are not reported in the government wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The County has one type of fiduciary fund, the Custodial Fund. The Custodial Fund reports resources held by the County in a custodial capacity for individuals, private organizations, other governments, and the external investment pool operated by the Lincoln County Treasurer.

Notes to Financial Statements: The notes to the financial statements provide additional information that is essential to acquire a full understanding of the data provided in the government-wide and fund financial statements.

Other Information: In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's progress in funding its obligation to provide other post-employment benefits to its employees; schedules of the County's contributions to and proportionate share of the net pension liability, and schedules of budgetary comparisons for both the original and final budgets of the General Fund and the various other major County funds.

The combining statements and individual fund schedules referred to earlier in connection with the nonmajor governmental funds are presented immediately following the required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position of the County as of June 30, 2021, is summarized and analyzed below:

Net Position

	Governmental Activities		Business-type Activities		Total Primary Government	
	2021	2020	2021	2020	2021	2020
Assets:						
Current and other assets	$ 22,959,056	$ 22,900,634	$ 1,731,021	$ 1,849,656	$ 24,690,077	$ 24,750,290
Net capital assets	22,424,930	22,843,095	2,747,450	2,763,346	25,172,380	25,606,441
Total assets	45,383,986	45,743,729	4,478,471	4,613,002	49,862,457	50,356,731
Deferred outflows of resources:	926,228	1,167,577	330,418	461,606	1,256,646	1,629,183
Liabilities:						
Current liabilities	1,819,358	1,538,303	382,634	479,781	2,201,992	2,018,084
Long-term liabilities	7,851,886	7,988,396	4,344,546	4,483,951	12,196,432	12,472,347
Total liabilities	9,671,244	9,526,699	4,727,180	4,963,732	14,398,424	14,490,431
Deferred inflows of resources:	1,071,570	1,259,668	437,663	454,503	1,509,233	1,714,171
Net position:						
Invested in capital assets, net of related debt	22,390,118	22,721,713	1,886,063	2,585,857	24,276,181	25,307,570
Restricted	7,577,405	7,721,070	11,490	11,490	7,588,895	7,732,560
Unrestricted	5,599,877	5,682,156	(2,253,507)	(2,940,974)	3,346,370	2,741,182
Total net position	$ 35,567,400	$ 36,124,939	$ (355,954)	$ (343,627)	$ 35,211,446	$ 35,781,312

As noted earlier, net assets may serve over time as a useful indicator of the County's financial position. Assets exceeded liabilities by $35,211,446 as of June 30, 2021, and by $35,781,312 as of June 30, 2020, resulting in a net decrease of $595,866, or 1.59%.

A portion of the County's net position, 68.94%, reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, etc.), net of any related debt outstanding used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the debt.

The County's restricted net position of 21.55% represents resources that are subject to external restrictions on how they may be used.

The remaining portion of the County's net position, 9.51%, is unrestricted and may be used to meet the County's ongoing obligations to citizens and creditors.

At June 30, 2021, the County had positive balances in all three categories of net assets for governmental activities. The negative unrestricted net position for business-type activities relates to the County's share of the net pension liability.

Changes in net position of the County are summarized as follows:

	Governmental Activities		Business-type Activities		Total	
	2021	2020	2021	2020	2021	2020
Revenues:						
Program revenues:						
Charges for services	$ 1,039,527	$ 1,290,248	$ 1,027,796	$ 3,023,940	$ 2,067,323	$ 4,314,188

Program revenues include charges for services, fines and forfeitures, certain licenses and permits, and both operating and capital grans and contributions. General revenues consist of taxes, rent, investment income, and miscellaneous.

FINANCIAL ANALYSIS OF THE COUNTY'S GOVERNMENTAL FUNDS

The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds:

As of the end of the current fiscal year, the County's governmental funds reported a combined ending fund balance of $21,256,476, a decrease of $269,886, or 1.25%, from the prior year. Fund balance components have been classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed on the use of the resources of each fund. Restricted fund balance is $7,577,405, or 35.65% of total. Spending of these resources is constrained by externally imposed (statutory, bond covenant, or grantors) limitations on their use. The largest restricted fund balances include $905,030 for multi-species conservation, $1,586,929 for capital projects, $1,858,106 for public works, and $1,050,131 for welfare.

Committed and assigned fund balances combined to represent 60.78% of total fund balance with spending constrained by either the Board of County Commissioners (for committed) or senior management (for assigned). Committed balances in the special revenue funds are primarily due to revenues directed by the Commission to those funds to support programs. The largest committed fund balances include $4,501,916 for the Lincoln County Water District and $3,590,697 for Lincoln County Land Act. The assigned fund balance of $1,085,330 was assigned for use in the subsequent year.

Major Funds:

General Fund (Budgetary Basis): The General Fund is the chief operating fund of the County. At the end of the current fiscal year, the fund balance (budgetary basis) of the General Fund was $1,868,240, a decrease of $472,705, or 20.19%. The General Fund revenues decreased by $694,821, or 11.99%. Taxes increased by $155,155, or 6.84%. Intergovernmental decreased by $772,513, or 29.65% due to prior year revenue from the Coyote Springs dissolution of $916,307. Charges for services increased by $87,206, or 24.47%, due to increased security contract and tax penalties and costs. Miscellaneous revenues decreased $164,644, or 56.67%, mostly due to a decrease in investment income due to market declines in value.

Expenditures increased by $605,626, or 13.89%. General government expenditures decreased by $71,703, or 4.89% due to a decrease in most departments. Public safety expenditures decreased by $240,904, or 13.91%, due to a decrease in salaries, benefits, and service and supplies for the sheriff's office. Intergovernmental expenditures increased by $916,193, or 100.00%, due to payments made related to the Coyotes Springs dissolution.

Road Fund: The Road Fund balance for the fund increased by $124,060 to $925,829, or 15.47%. The Road Fund revenues increased $153,362, or 9.35%, due to equipment rental income of $150,000 from the State of Nevada. Road Fund expenditures decreased by $45,203, or 2.80%, due to a decrease in services and supplies expenditures.

Lincoln County Water District Water Resources Fund: The Lincoln County Water District Water Resources Fund balance decreased by $191,452, or 6.88%, from the prior year. This was due to a transfer of $200,000 to the Water District General Fund.

Lincoln County Land Act Special Use Fund: The Lincoln County Land Act Special Use Fund balance increased by $25,035, or 0.73% from the prior year. This was due to receiving investment income, loan interest income, and rental income with no expenditures in the current year.

County Grant Fund: The County Grant Fund revenues increased by $1,142,140, or 124.62%, and expenditures increased by $1,192,129, or 122.11%. The increases were due to receiving more grant monies in the current year including $750,023 from the CARES Act.

FINANCIAL ANALYSIS OF THE COUNTY'S ENTERPRISE FUNDS

Enterprise Funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the enterprise funds was a deficit of $2,253,507. Total net position for these funds decreased by $12,327 from the prior year.

The **Detention Center Fund**, a major fund, had operating revenues decrease by $1,805,748, or 96.41%, due to a decrease in inmate fees. Operating expenses decreased by $975,949, or 45.88% due to a decrease in salaries, benefits and services and supplies.

The **Solid Waste Fund**, a major fund, had operating revenues increase by $1,086, or 0.19%, during the year. Operating expenses increased by $38,017, or 6.79%, due to an increase in salaries, services and supplies, and depreciation expense due to the purchase of new equipment in the prior and current year.

GENERAL FUND BUDGETARY HIGHLIGHTS

The original budget (2020-21 Final Budget) was approved May 18, 2020.

Original budget compared to final budget: During the year there was a need for an amendment to increase original estimated revenues and original budgeted appropriations. There was also a need to make an amendment to reallocate appropriations among departments when it became clearer which departments would actually be charged for certain expenses. Generally, the movement of the appropriations between departments was not significant.

Final budget compared to actual results: The most significant differences for the General Fund were as follows:

Overall, the revenues received were more than budgeted by 6.04% or $290,562. Revenues received in excess of budgeted amounts were 0.91% for taxes, 17.76% for licenses and permits, 9.35% for intergovernmental, 12.77% for charges for services, and 43.89% for fines and forfeitures. The shortfall in revenue sources was 13.17% for miscellaneous.

A review of actual expenditures compared to the appropriations in the final budget shows expenditures were $425,723 less than budgeted or 7.90%. Expenditures were under budget for all functions of the General Fund except health which was over 0.77%. The largest functions under budget were general government 13.27% and judicial 12.64%.

Actual fund balance (budgetary basis) of $1,868,240, was $782,910 higher than anticipated to begin the 2021 - 2022 year.

CAPITAL ASSETS

The County's investment in capital assets, net of accumulated depreciation, at June 30, 2021, was $22,424,930 in governmental activities and $2,747,450 in business-type activities. A summary of changes in capital assets for the year ended June 30, 2021, follows:

Business-type activities assets, net	$ 2,763,346	$ (15,896)	$ -	$ -	$ 2,747,450

Major capital asset events during the current fiscal year included the following:

- Building and other improvements for the Airport and Trap Range.
- Equipment for the sheriff, general government, and other culture and recreation equipment.

DEBT ADMINISTRATION

Changes in Long-term Debt: During the year ended June 30, 2021, the following changes occurred in long-term debt:

Governmental activities:

	Balance June 30, 2020	Net Additions	Net Deletions	Balance June 30, 2021	Due within One Year
Compensated absences	$ 420,161	$ -	$ 30,842	$ 389,319	$ 214,125
Net pension liability	7,364,827	-	87,867	7,276,960	-
Total OPEB obligation payable	406,098	-	6,366	399,732	-
Capital lease payable	108,723	-	75,283	33,440	33,440
Total	$ 8,299,809	$ -	$ 200,358	$ 8,099,451	$ 247,565

Business-type activities:

	Balance June 30, 2020	Net Additions	Net Deletions	Balance June 30, 2021	Due within One Year
Compensated absences	$ 178,758	$ -	$ 15,277	$ 163,481	$ 89,913
Net pension liability	3,351,954	-	62,684	3,289,270	-
Total OPEB obligation payable	114,906	-	775	114,131	-
Landfill closure and postclosure cost	80,000	10,000	-	90,000	-
Bond payable	177,489	-	3,440	174,049	3,592
Total	$ 3,903,107	$ 10,000	$ 82,176	$ 3,830,931	$ 93,505

The County's debt decreased by $200,358 for governmental activities during the current fiscal year. The reductions were mainly from a decrease in net pension liability and capital lease payable.

The County's debt decreased by $72,176 for business-type activities during the current fiscal year. The primary reason for the decrease was a reduction in estimated compensated absences and net pension liability.

Additional information on the County's long-term debt can be found in **Note D6**.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The County approved the budget for the 2021-2022 year on May 17, 2021. The following factors were considered in the development of the budget.

- Assessed valuation for the County increased and tax rates remained unchanged.

LINCOLN COUNTY, NEVADA
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
JUNE 30, 2021

Total fund balance - governmental funds	**$**	**21,256,476**
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets, net of the related depreciation, are not reported in the Governmental Funds financial statements because they are not current financial resources, but they are reported in the Statement of Net Position.		22,424,930
Other long-term assets which are not available to pay for current period expenditures and, therefore, are deferred in the funds.		132,159
Certain liabilities (such as bonds payable and capital leases payable) are not reported in the Governmental Funds financial statements because they are not due and payable, but they are presented as liabilities in the Statement of Net Position.		(424,131)
The County's other post-employment benefits liabilities as well as other post-employment benefits-related deferred outflows and deferred inflows of resources are recognized in the government-wide statements and include:		
Deferred outflows from other post-employment benefits.		19,401
Total other post-employment benefits liability.		(399,732)
The County's proportionate share of net pension assets and liabilities as well as pension-related deferred outflows and deferred inflows of resources are recognized in the government-wide statements and include:		
Deferred outflows from pension activity		906,827
Net pension liability		(7,276,960)
Deferred inflows from pension activity		(1,071,570)
Total net position - governmental activities	**$**	**35,567,400**

The notes to the financial statements are an integral part of this statement.

LINCOLN COUNTY, NEVADA
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2021

Net Change in Fund Balance - Governmental Funds	**$**	**(269,886)**
Amounts reported for governmental activities in the Statement of Activities are different because:		
Capital outlays to purchase or build capital assets are reported in Governmental Funds financial statements as expenditures. However, for governmental activities those costs are shown in the Statement of Net Position and allocated over the estimated useful lives as annual depreciation expenses in the Statement of Activities.		(418,165)
Property taxes and grant revenues that are collected in the time to pay obligations of the current period are reported as revenue in the fund statements. However, amounts that related to prior periods that first become available in the current period should not be reported as revenue in the statement of activities.		(27,882)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and other similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		75,283
Generally, expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred.		42,129
Total differences between other post-employment benefits contributions recognized in the fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Statement of Activities:		
Other post-employment benefits contributions made after measurement date (2021 contributions).		19,401
Net other post-employment benefits expense.		(16,775)
Net differences between pension system contributions recognized in the fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Statement of Activities:		
Pension contributions made after measurement date (2021 contributions).		435,204
Net pension expense.		(396,848)
Change in net position of governmental activities	**$**	**(557,539)**

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

1. Reporting Entity

Lincoln County, Nevada, is governed by an elected five-member board. As required by generally accepted accounting principles, these financial statements present Lincoln County, Nevada (the primary government), and its component units. Blended component units, although legally separate entities are, in substance, part of the County's operations. Thus, blended component units are appropriately presented as funds of the primary government.

2. Blended Component Units

Component units are legally separate organizations for which the County is financially accountable. Lincoln County Water District, Alamo Town, Panaca Town, and Pioche Town are all component units that are part of the County's reporting entity because the County is financially accountable for these entities. Financial accountability is determined primarily by the fact that as the governing body, the County's Board of Commissioners can impose its will on significant aspects of the operations of these entities. These entities are presented as blended component units since the operations of these entities are considered part of County operations.

3. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the County and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities,* which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support.

4. Basis of Presentation - Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the County's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds (enterprise funds), and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

The Statement of Net Position presents the consolidated financial position of the County at year-end, in separate columns, for both governmental and business-type activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or programs are offset by program revenues. Direct expenses are those that are specifically associated with a program or service and are, therefore, clearly identifiable to a particular function. Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other revenues properly not included among program revenues are reported instead as general revenues. This statement provides a net cost or net revenue of specific programs and functions within the County. Those functions with a net cost are generally dependent on general-purpose tax revenues, such as property tax, to remain operational.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the County's funds, including its fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary (enterprise), and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

For the year ended June 30, 2021, the County adopted GASB Statement No. 84, *Fiduciary Activities*. The implementation of this standard established accounting and financial reporting for fiduciary activities. Agency funds are now classified as custodial funds. The custodial funds are presented on a net position basis rather than an asset and liability basis. The external investment pool fund has been reclassified from a trust fund to a custodial fund. As a result of implementation of GASB 84 beginning net position of the custodial fund has been restated from $ 0 to $3,389,182.

The County reports the following major governmental funds:

General Fund - The General Fund is the County's primary operating fund. It accounts for all financial resources and operating costs of the general County, except those accounted for in another fund.

Road Fund - The Road Fund is used to account for gas tax revenues allocated for the construction, repair and maintenance of County roads.

Lincoln County Water District Water Resources Fund - The Lincoln County Water District Water Resources Fund is used to account for general activities of the Water District, a blended component unit of the government.

Lincoln County Land Act Special Use Fund - The Lincoln County Land Act Special Use Fund is used to account for land sale monies to be spent per ordinances.

County Grant Fund - The County Grant Fund is used to account for monies received to be spent on a specified purpose.

The County reports the following major enterprise funds:

Detention Center Fund - The Detention Center fund is used to account for the activities of the Lincoln County Detention Center, providing detention services for local governments within Nevada.

Solid Waste Fund– The Solid Waste fund is used to account for solid waste disposal throughout the County and land fill operations.

Additionally, the County reports the following fiduciary fund:

Custodial Funds – The Custodial Fund is used to account for assets held by the County in a custodial capacity for others and cannot be used to support the government's own programs.

During the course of operations, the County has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in the governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Basis of Presentation - Fund Financial Statements (Continued)

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

6. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Gross receipts and sales taxes are considered “measurable” when in the hands of intermediary collecting governments and are then recognized as revenue. The government considers revenues to be “available” if they are collected within 60 days of the end of the current fiscal period. Anticipated refunds of taxes are recorded as liabilities and reductions of revenue when they are measurable and the payment seems certain. In general, expenditures are recorded when liabilities are incurred. The exception to this rule is that principal and interest on debt service, as well as liabilities related to compensated absences and claims and judgments, are recorded when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

The major revenue sources of the County include consolidated taxes (including sales tax), fuel taxes, intergovernmental revenue, and property taxes. Property taxes, sales taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the County.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The principal operating revenues of the Pioche Public Utility funds are customer charges. Operating revenues for the Building fund come from charges for services for building inspections and permits. The Detention Center receives revenue for housing prisoners of other governments. Expenses are those required to provide the service. The Solid Waste fund is used to account for solid waste disposal throughout the County and landfill operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The fiduciary funds have no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

7. Budgetary Basis of Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for governmental funds.

a. The statutes provide for the following timetable in adoption of budgets:

(i) Before April 15, the County submits to the Nevada State Department of Taxation a tentative budget for the upcoming fiscal year. The tentative budget includes proposed expenditures and the means to finance them.

(ii) A public hearing must be held by the County Commissioners no sooner than the third Monday in May and no later than the last day in May. Notice of the public hearing must be published once in the local newspaper not more than 14 nor less than 7 days before the hearing.

(iii) On or before June 1, the County Commissioners must adopt a final budget.

b. NRS 354.598005 (1) - provides that the County Commissioners may augment the budget at any time by a majority vote of the Commissioners providing the Commission publish notice of its intention to act in a newspaper of general circulation in the County at least three days before the date set for adoption of the resolution.

c. Nevada Revised Statute 354.598005 (5) allows appropriations to be transferred between functions, funds or contingency accounts if such a transfer does not increase the total appropriation for any fiscal year and is not in conflict with other statutory provisions. The County Auditor may transfer appropriations within any function. The County Auditor may also transfer appropriations between functions or programs within a fund, if the County Commissioners are advised of the action at the next regular meeting; and the action is recorded in the official minutes of the meeting. The County Commissioners may authorize the transfer of appropriations between funds or from the contingency account if the County Commissioners announce the transfer of appropriations at a regularly scheduled meeting and sets forth the exact amounts to be transferred and the accounts, functions, programs and funds affected. The County Commissioners must also set forth its reasons for the transfer; and the action must be recorded in the official minutes of the meeting.

d. Statutory regulations require budget control to be exercised at the function level within the funds.

e. The following funds were augmented during the year: County Grants Fund and Detention Center Enterprise Fund had an automatic budget augmentation for grant revenue. The following funds were augmented during the year for higher than anticipated revenues: Resource Development Authority, Transportation, Airport, District Court Specialty Court, Demerit Point Reduction, and the Pioche Public Utility Sewer and Electric Funds.

f. Generally, budgets for all funds are adopted in accordance with generally accepted accounting principles. Budgeted amounts reflected in the accompanying financial statements recognize amendments made during the year.

g. All appropriations lapse at the end of the fiscal year.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

a. Cash and Cash Equivalents

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and short term investments with original maturities of three months or less from the date of acquisition. Cash includes cash deposited in interest-bearing accounts at banks and cash in the custody of fiscal agents of the County.

b. Investments

Investments are stated at fair value on the Balance Sheet. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale. Changes in the fair value of County investments are part of investment income which is included in revenue from local sources on the Statement of Activities and the Statement of Revenues, Expenditures, and Changes in Fund Balances of governmental funds (**see Note D1**).

Nevada Revised Statutes authorize the County to invest in:

1. Obligations of the U.S. Treasury and U.S. Agencies in which the maturity dates do not exceed more than 10 years from the date of purchase.

2. Negotiable certificates of deposit issued by commercial banks or insured savings and loan associations (those over $250,000 must be fully collateralized).

3. Negotiable notes or short-term negotiable bonds issued by local governments within Nevada.

4. Eligible bankers' acceptances that do not exceed 270 days maturity and do not exceed 20 percent of the portfolio.

5. Commercial paper with a rating of A-1 or P-1 that does not exceed 240 days maturity and does not exceed 20 percent of the portfolio.

6. The State of Nevada's Local Government Investment Pool.

7. Repurchase agreements that are collateralized at 102 percent of the repurchase price and do not exceed 90 days maturity. Securities used for collateral must meet the criteria listed above.

8. Money market mutual funds which are rated as "AAA" or its equivalent and invest only in securities issued by the Federal Government, U.S. Agencies, or repurchase agreements fully collateralized by such securities.

9. Obligations issued or unconditionally guaranteed by the International Bank for Reconstruction and Development or obligations publicly issued in the United States by a foreign financial entity registered with the Securities and Exchange Commission, denominated in dollars with a maturity of 5 years or less with a rating of "AA" or better.

The County has not adopted a formal investment and depository policy that further limits allowable investments and deposits.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

c. Property Tax

Taxes on real property are levied on July 1st of each year and are due on the third Monday in July. They can be paid in quarterly installments in August, October, January, and March. In the event of nonpayment, the County Treasurer is authorized to hold the property for two years, subject to redemption upon payment of taxes, penalties, and costs, together with interest at a rate of 10 percent per year from the date the taxes were due until paid. If delinquent taxes are not paid within the two year redemption period, the County Treasurer obtains a deed to the property free of all encumbrances. Upon receipt of a deed, the County Treasurer may sell the property to satisfy the tax lien.

Article X, Section 2 of the Constitution of the State of Nevada limits the total taxes levied by all overlapping governmental units within the boundaries of any County (i.e., the County, the County School District, the State and any other City, Town, or Special District) to an amount not to exceed $5 per $100 of assessed valuation of the property being taxed. The Nevada Legislature enacted provisions whereby the combined overlapping tax rate was limited to $3.64 per $100 of assessed valuation. The Nevada legislature passed a property tax abatement law in 2005 that generally caps increases in property tax on owner-occupied residential property to 3% and 8 % per year for all other property.

d. Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased. There were no material inventories reported in the government-wide financial statements.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaids at year end included advance payments of rent and insurance.

e. Restricted Assets

Certain cash assets of the Enterprise Funds are from revenue for specific use by the Enterprise Funds and are classified as restricted assets because their use is restricted by agreement (**see Note D5).**

f. Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial individual cost of more than $500 and an estimated useful life in excess of one year.

If purchased or constructed, capital assets are valued at cost where historical records are available, and, if no historical record exists at estimated cost. Capital assets are updated for additions and retirements during the year. Donated capital assets are valued at their estimated value as of the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

f. Capital Assets (Continued)

Land and construction in progress are not depreciated. The other property, plant and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

Capital Assets	Years
Vehicles	10
Equipment	5-20
Buildings and Improvements	20-50
Infrastructure	25-50

The County is required to report and depreciate new infrastructure assets. Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc. Neither their historical cost nor related depreciation has historically been reported in the financial statements. The County is required to capitalize and report its major general infrastructure assets acquired in fiscal years ending after June 30, 1980. In addition, infrastructure assets acquired before June 30, 1980, that received significant reconstruction must be capitalized.

g. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows include the County's pension and OPEB related contributions subsequent to the measurement date but before the end of the fiscal year and changes in the County's proportionate share of the net pension liability.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has only one type of item, which arises only under a modified accrual basis of accounting, which qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source, property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available.

Deferred inflows of resources represent an acquisition of net positon that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. The difference between projected and actual experience and investment earnings are related to the deferred inflows of pensions and the calculation of net pension liability reported on the statement of net position.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Nevada (PERS) and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For purposes of measuring the total other post-employment benefits (OPEB) liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Public Employees' Benefit Plan of Nevada (PEBP) and additions to/deductions from PEBP's fiduciary net position have been determined on the same basis as they are reported by PEBP. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments, if any, are reported at fair value.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

h. Governmental Fund Balances:

In the governmental fund financial statements, fund balances are classified as follows:

(i) **Nonspendable –** Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact, such as inventories and prepaids.

(ii) **Restricted –** Amounts that can be spent only for a specific purpose because of the state or federal laws, or externally imposed conditions by grantors or creditors.

(iii) **Committed** –These amounts can only be used for specific purposes as set forth by the County Commissioners. The Commissioners must take formal action (vote approval by the majority), in order to establish an ending fund balance commitment for any specific purpose. Formal Commission action is also required to modify or rescind an established commitment. To be reported as committed, amounts cannot be used for any other purpose unless the Commission takes the same highest-level action to remove or change the constraint.

(iv) **Assigned –** Assignments are neither restrictions nor commitments and represent the County's intent to use funds for a specific purpose. These assignments, however, are not legally binding and are meant to reflect intended future use of the County's ending fund balance. Intent can be expressed by the County Commissioners or by the County Auditor.

(v) **Unassigned –** All amounts not included in other classifications.

i. Fund Balance Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance.) When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

j. Net Position Policies

In the government-wide statements, net position on the Statement of Net Position includes the following:

(i) **Invested in Capital Assets, Net of Related Debt**

This is the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction, or improvement of those assets.

(ii) **Restricted Assets**

This is the component of net position that reports the constraints placed on the use of assets by either external parties and/or enabling legislation. Currently, the County restricts assets as follow:

a) NRS 354.598155 Special Ad Valorem Capital Projects
b) NRS 354.6113 Capital Projects Fund
c) NRS 365.190 Road Improvements
d) NRS 354.6115 Budget Stabilization
e) NRS 269 Unincorporated Towns

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

j. Net Position Policies (Continued)

(iii) **Unrestricted**

This is the component of net position that is the difference between the assets and liabilities not reported in Invested in Capital Assets, Net of Related Debt and Restricted Assets.

(iv) **Negative Net Position**

Governmental Account Standards require employers to record their proportionate share of the fiduciary net pension liability on the County's Statement of Net Position. The effect of this results in negative unrestricted net position. The County makes contributions to the Public Employees' Retirement System on behalf of its employees. Statute indicates the County has no requirement to pay for the County's share of the unfunded liability.

k. Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

l. Comparative Data/Reclassifications

Comparative total data for the prior year has been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the County's financial position and operations. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

m. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

n. Budgetary Stabilization

It is the County's policy to determine the balance or reserve as reasonable and necessary to carry out the purposes of the stabilization fund on a yearly basis. NRS 354.6115 authorizes the creation of a fund to stabilize operations of local governments and mitigate effects of natural disaster. The intent of this policy is to include a portion of the General Fund budgeted ending fund balance that will be restricted to stabilization pursuant to NRS 354.6115. Fund balance that is restricted to stabilization can be used after approval by the board of County Commissioners when total actual revenue falls short of the total anticipated revenue in the General Fund for the fiscal year in which the County uses the money.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

9. Revenues and Expenditures/Expenses

a. Compensated Absences

Vested or accumulated vacation and sick leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide financial statements. No expenditure is reported for these amounts in the fund financial statements (**see Note D6**). Vacation leave and sick leave included in accrued liabilities and recorded as expenditures in governmental fund types is the amount normally liquidated from "available spendable resources."

In proprietary funds, compensated absences are recorded when the liabilities are incurred. In governmental funds, the current portion is recorded as payroll expenditure. The estimated long-term liability for compensated absences is accounted for in the government-wide financial statements.

b. Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

c. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTE B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of certain differences between the governmental funds Balance Sheet and the government-wide Statement of Net Position

The governmental fund balance sheet includes reconciliation between fund balances - total governmental funds and net position - governmental activities as reported in the government-wide Statement of Net Position. One element of the reconciliation explains that "certain liabilities (such as bonds payable and capital leases payable) are not reported in the Governmental funds financial statements because they are not due and payable, but they are presented as liabilities in the Statement of Net Position." The details of this difference are as follows:

Interest payable	$ (1,372)
Capital lease payable	(33,440)
Compensated absences	(389,319)
Net adjustment to reduce fund balance - total governmental funds to arrive at net position - governmental activities	$ (424,131)

2. Explanation of certain differences between the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the government-wide Statement of Activities

The governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net position of governmental activities as reported in the government-wide Statement of Activities. One element of that reconciliation explains that "Capital outlays to purchase or build capital assets are reported in Governmental Funds financial statements as expenditures. However, for governmental activities those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expense in the statement of activities." The details of this difference are as follows:

Capital outlay	$ 1,136,143
Disposal of ambulance operations	(231,457)
Book value of disposed assets	(36,163)
Depreciation expense	(1,286,688)
Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	$ (418,165)

Another element of that reconciliation states that "Generally, expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the Statement of Activities when incurred." The details of this difference are as follows:

Accrued interest	$ 11,287
Compensated absences	30,842
Net adjustment to increase net change in fund balances – governmental funds to arrive at change in net position of governmental activities	$ 42,129

NOTE C. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

1. Compliance and Accountability

The County conformed to significant statutory requirements regarding financial administrations except as follows:

Per NRS 354.626, the County is required to report expenditures that exceeded budgeted appropriations at the function level for the General Fund, Special Revenue Funds, and Capital Project Funds. Enterprise funds may not exceed budget appropriations at the fund level. For the year ending June 30, 2021, the County had the following expenditures over appropriations that are required to be reported.

General Fund – Health function	$	479
Lincoln County Water District General	$	24,420
Detention Center Enterprise Fund	$	18,832
Solid Waste Enterprise Fund	$	37,470

The over expenditures in the funds relate to expenses that came in after year end that caused the functions to go over budget.

2. Deficit Fund Balance/Net Position

Legal Aid Services Fund	$	1,739
County Grants Fund	$	46,654
Detention Center Enterprise Fund	$	2,573,191
Building Department Enterprise Fund	$	66,681

The deficit net position of the Detention Center and Building Department Enterprise Funds are due to the individual fund's proportionate share of the net pension liability of the Public Employees' Retirement System of the State of Nevada. See **Note D-13** of the financial statement. The deficit in the County Grants Fund is due to grant reimbursement timing resulting in unavailable revenues. See **Note D-10** of the financial statement.

NOTE D. DETAILED NOTES ON ALL FUNDS

1. Pooled Cash and Investments

The County maintains a cash and investment pool that is available for use by all funds under the custody of the County Treasurer. At June 30, 2021, this pool is displayed in the Statement of Net Position and major and other governmental funds on the governmental funds balance sheet as "Pooled Cash and Investments."

A reconciliation of cash and investments as shown in the Statement of Net Position is as follows:

Cash in the hands of officers	$	100,632
Carrying amount of deposits		6,526,798
Fair value of investments		20,797,184
Total		$27,424,614

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

1. Pooled Cash and Investments (Continued)

A reconciliation of cash and investments as for the County is as follows:

Government-wide pooled cash and investments	$22,280,184
Restricted cash	104,936
Total primary government	22,385,120
Fiduciary funds	5,039,494
Total reporting entity	$27,424,614

Except for financial reporting purposes, the cash balances of $5,039,494 in the Fiduciary Funds are not normally considered part of the County's pooled cash and investments. These amounts represent cash held in a fiduciary capacity by the County and cannot be used in the County's normal operations.

The cash and investment pool is available for use by all funds of the County. Cash and investments under the custody of the County Treasurer are invested as a pool. The County Treasurer may invest the money of the investment pool in investments which have been authorized as investments by Nevada Revised Statutes. (**See Note A8b**)

Investment gain or loss is apportioned to the funds within the pool monthly based on the average balance invested for the month.

Cash and investment are subject to the following risks:

Interest Rate Risk: Interest rate risk is the risk of possible reduction in the value of a security, especially a bond, resulting from the rise in interest rates. Nevada Revised Statutes limits bankers' acceptances to 180 days of maturities, repurchase agreements to 90 days, U.S. Treasuries and Agencies to less than 10 years, and commercial paper to 270 days maturity. The approximate weighted average maturity of investments in the Lincoln County Treasurer's investment pool was 2.50 years.

As of June 30, 2021, monies held in the Lincoln County Treasurer's cash and investment pool are categorized as follows:

		Investment Maturities (In Years)		
Investment Type	Fair Value	Less than 1	1-5	6+
U.S. Treasury notes	$ 2,530,141	$ 250,990	$ 2,279,151	$ 0
U.S. Agency backed mortgages	1,932,623	325,107	440,526	1,166,990
Corporate notes	3,346,677	1,130,384	2,216,293	0
Money market funds	440,216	440,216	0	0
Negotiable certificates of deposit	12,547,527	3,359,822	9,187,705	0
Total Investments	$20,797,184	$ 5,506,519	$ 14,123,675	$ 1,166,990

Governmental Accounting Standards require fair value reporting of all investments. The fair value of the County's investments was determined by market quotes.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

1. Pooled Cash and Investments (Continued)

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation and is a function of the credit quality ratings of its investments. The Nevada Revised Statutes limits investments instruments by their credit risk **(Note A8a)**.

As of June 30, 2021, monies held in the Lincoln County Treasurer's cash and investment pool are categorized as follows:

		Quality Ratings by Moody's							
Investment Type	Fair Value	Aaa	Aa1	Aa3	A1	A2	A3	Baa1	N/A
U.S. Treasury Note	$ 2,530,141	$ 2,530,141	$ -	$ -	$ -	$ -	$ -	$ -	$ -
Corporate Notes	1,932,623	1,932,623	-	-	-	-	-	-	
U.S. Agency Backed Mortgages	3,346,677	-	-	301,776	355,691	1,030,578	1,205,001	-	453,631
Money Market Funds	440,216	151,581	-	-	-	-	-	-	288,635
Negotiable Certificates of Deposit	12,547,527	-	584,365	1,236,579	987,453	160,691	1,297,822	420,955	7,859,662
	$20,797,184	$4,614,345	$584,365	$1,538,355	$1,343,144	$1,191,269	$2,502,823	$420,955	$8,601,928

Custodial Credit Risk: Custodial credit risk is the risk that in the event of a bank or brokerage failure, the County's deposits may not be returned. The County's bank deposits are generally covered by FDIC insurance and are collateralized by the Office of the State Treasurer/Nevada Collateral Pool. At year-end, the County's carrying amount of deposits was $6,526,798 and the bank balance was $6,630,736. Of the bank balance, $500,000 was covered by federal depository insurance. Of the remaining balance, $6,130,736 was collateralized with securities held by the Nevada Pooled Collateral Program.

Concentrations of Credit Risk: Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. Investments with a single issuer within the Lincoln County Treasurer Cash and investment pool that represent five percent or more of total investments as of June 30, 2021, are as follows:

U.S. Treasury Notes	12.43%

Fair Value: The County categorize its investments using fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The County has the following recurring fair value measurements as of June 30, 2021:

Investment Type	Fair Value	Level 1	Level 2	Level3
U.S. Treasury notes	$ 2,530,141	$ 2,530,141	$ 0	$ 0
U.S. Agency backed mortgages	1,932,623	0	1,932,623	0
Corporate notes	3,346,677	0	3,346,677	0
Money market mutual funds	440,216	440,216	0	0
Negotiable certificates of deposit	12,547,527	0	12,547,527	0
Total Investments	$20,797,184	$ 2,970,357	$17,826,827	$ 0

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

1. Pooled Cash and Investments (Continued)

External Investment Pool: The County Treasurer administers an investment pool in accordance with NRS 355.168 combining the County funds with investments from Caliente City, Lincoln County School District, Range, Panaca Fire Protection District, Pahranagat Fire District, Pioche Fire District, Southeastern Lincoln County Habitat Conservation Plan GID, and the Lincoln County Fire District. The Board of County Commissioners has the overall responsibility of investment of funds including the external investment pool in accordance with NRS 355.175. The Lincoln County Treasurer is delegated investment responsibilities. The fair value of investments is determined monthly as statements from the various investment companies are received. Each participant's share is equal to their original investment plus or minus monthly allocations of interest income and realized and unrealized gains and losses. The County has not provided nor obtained any legally binding guarantees to support the value of the shares.

A summary of investments held in external investment pools at June 30, 2021, is as follows:

Investment Type	Fair Value	Principal Amount	Interest Rate
U.S. Treasury notes	$ 1,532,944	$ 1,510,000	Variable
U.S. Agency backed mortgages	744,265	716,290	Variable

Nonmajor Enterprise Funds	18,804	60	1,263
Total	$ 480,118	$ 60	$ 12,993

5. Restricted Assets

The balances of the County's restricted asset accounts are as follows

Cash – Pioche Public Utility –	USDA debt and replacement reserve	$ 11,490
Cash – Solid Waste	Landfill closure, and post-closure	93,446
Total restricted cash		$ 104,936

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

6. Long-term Debt

Governmental Type Activities:

Capital Leases

a. The County entered into a lease agreement for 4 public safety vehicles totaling $133,245. The leases have been classified as capital leases according to generally accepted accounting principles. The leases contain non-funding clauses whereby the leases are terminated without penalty should the County fail in a budget year to appropriate money for the payment. The vehicles have a ten-year estimated useful life. This year, $26,649 was included in depreciation expense. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. The lease was paid in full as of June 30, 2021.

b. During the year ending June 30, 2020, the County entered into a lease agreement for 3 public safety vehicles totaling $100,300. The leases have been classified as capital leases according to generally accepted accounting principles. The leases contain non-funding clauses whereby the leases are terminated without penalty should the County fail in a budget year to appropriate money for the payment. The vehicles have a ten-year estimated useful life. This year, $27,023 was included in depreciation expense. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2021, were as follows:

Year Ending June 30,	Remaining Payments	Amount Representing Principal	Amount Representing Interest
2022	$ 35,792	$ 33,440	$ 2,352

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

6. Long-term Debt (Continued)

Business-Type Activities:

Revenue Bonds The County issues revenue bonds to provide funds for the acquisition and construction of utility capital assets. Revenue bonds have been issued for the business-type activities. Revenue bonds are an obligation of the enterprise utility funds for which the capital assets were acquired or constructed. Revenue bonds outstanding at June 30, 2021, are as follows:

a. **$210,000, 2007 Pioche Town Sewer bond** is payable to the U.S. Department of Agriculture-Rural Development. The bond is payable in semi-annual payments of $5,584 including interest. The interest rate is 4.375%. The bond agreement requires the County to establish and fund monthly a debt service reserve fund equal to 10% of the semi-annual payment each month over the life of the loan until they accumulate one annual installment. This reserve fund can be used for emergency maintenance and repairs, and debt repayment should the need arise. The required reserve as of June 30, 2021, is $11,490. The balance in the reserve account was $11,490 as of June 30, 2021 **(See Note D-5)**. The outstanding balance of bonds payable at June 30, 2021, was $174,049.

Annual debt service requirements to maturity for the revenue bond are as follows:

Year Ending June 30,	Principal	Interest
2022	$ 3,592	$ 7,576
2023	3,751	7,417
2024	3,915	7,253
2025	4,090	7,078
2026	4,281	6,887
2027-2031	24,358	31,482
2032-2036	30,246	25,594
2037-2041	37,551	18,289
2042-2046	46,623	9,217
2047-2048	15,642	650
	$ 174,049	$ 121,443

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

6. Long-term Debt (Continued)

Changes in Long-term Debt: During the year ended June 30, 2021, the following changes occurred in long-term debt:

Governmental activities:

	Balance June 30, 2020	Net Additions	Net Deletions	Balance June 30, 2021	Due within One Year
Compensated absences	$ 420,161	$ -	$ 30,842	$ 389,319	$ 214,125
Net pension liability	7,364,827	-	87,867	7,276,960	-
Total OPEB obligation payable	406,098	-	6,366	399,732	-
Capital lease payable	108,723	-	75,283	33,440	33,440
Total	$ 8,299,809	$ -	$ 200,358	$ 8,099,451	$ 247,565

Business-type activities:

	Balance June 30, 2020	Net Additions	Net Deletions	Balance June 30, 2021	Due within One Year
Compensated absences	$ 178,758	$ -	$ 15,277	$ 163,481	$ 89,913
Net pension liability	3,351,954	-	62,684	3,289,270	-
Total OPEB obligation payable	114,906	-	775	114,131	-
Landfill closure and postclosure costs	80,000	10,000	-	90,000	-
Bond payable	177,489	-	3,440	174,049	3,592
Total	$ 3,903,107	$ 10,000	$ 82,176	$ 3,830,931	$ 93,505

The compensated absence liability will be liquidated primarily by the General Fund for governmental activities, and by the Enterprise Funds for business activities. The capital leases will be paid by the Vehicle Capital Projects Fund.

Per Nevada Revised Statute Chapter 244A.059, the debt limitation for the County is equal to 10 percent of the assessed valuation of property, excluding motor vehicles for the current year. The debt limitation currently applicable at June 30, 2021, was $29,007,539. Per Nevada Revised Statutes Chapter 269.425, the debt limitations for the unincorporated towns, which cannot exceed 25% of assessed valuation of property within the town are as follows: Alamo Town $2,581,311, Panaca Town $3,434,026, and Pioche Town $4,518,786.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

7. Interfund Transfers

Interfund operating transfers are made from one fund to another fund to support expenditures in accordance with the authority established for the individual funds. Transfers between fund types during the year ended June 30, 2021, were:

		Transfer Out					
	Total Transfers In	General	Road	LC Water District Water Resources	Nonmajor Special Revenue	Nonmajor Capital Projects	Nonmajor Enterprise Fund
General Fund	$ 75,000	$ -	$ -	$ -	$ 75,000	$ -	$ -
Major County Grant Fund	4,847	-	-	-	4,847	-	-
Nonmajor Special Revenue Funds	319,339	50,000	-	200,000	69,339	-	-
Nonmajor Capital Projects Funds	203,997	-	100,000	-	5,000	98,997	-
Major Enterprise - Detention Center	1,006,000	600,000	-	-	406,000	-	-
Nonmajor Enterprise Funds	255,710	-	-	-	50,000	-	205,710
Total	$1,864,893	$ 650,000	$ 100,000	$ 200,000	$ 610,186	$ 98,997	$ 205,710

Following are explanations of certain interfund transfers of significance to the County:

The General Fund transferred money to the following funds: Detention Center $600,000 and China Springs $10,000 to help cover costs.

The internally reported Special Projects Fund transferred $40,000 to the Property Management Fund to help cover costs.

The Road Fund transferred $100,000 to the Road Capital Projects Fund to help cover the costs of a new equipment.

The Federal in Lieu Fund transferred money to the following funds: Building Enterprise Fund $50,000, Detention Center Fund $406,000, and the Planning Fund $75,000 which is internally reported fund in the General Fund. These budgeted transfers were made to help cover operating costs. Transfers were also made for $4,847 to the County Grant Fund, $6,433 to the Transportation Fund, and $32,339 to the Senior Nutrition Fund for grant match.

The Lincoln County Water District Water Resources Fund transferred $200,000 to the Lincoln County Water District General Fund to help cover operating costs.

The Regional Transportation Commission transferred $28,567 to the Transportation Fund for a grant match and to help cover costs.

The Capital Projects Fund transferred money to the following capital projects funds: $88,016 to the Vehicle Capital Projects for assistance with capital asset purchases and debt payments; $10,981 to the Alamo, Panaca, and Pioche Town Capital Projects Funds for distribution of property taxes collected pursuant to Nevada Revised Statutes 354.59815.

The Ambulance Fund transferred $5,000 to the Ambulance Capital Projects Fund to help cover the costs of a new equipment.

The Indigent Fund transferred $2,000 to the District Court Specialty Court Fund to help cover the indigent court costs.

The Pioche Public Utility Electric Fund closed operations and transferred remaining funds to Pioche Public Utility Water of $102,855 and Pioche Public Utility Sewer of $102,855.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

8. Interfund Receivable / Payable

The composition of interfund balances as of June 30, 2021, is as follows:

Due to	Due from	Amount
General Fund	Lincoln County Water District Water Resources	$ 20,895
	Legal Aid Fund	1,739
		$ 22,634

The payable to the General Fund was made to cover negative cash balances in the Legal Aid Fund at year-end. The amount is expected to be paid with current resources. The payable from the Lincoln County Water District Water Resources Fund relates to investment account balances that need to be transferred to the operating cash account.

The Solid Waste Enterprise Fund borrowed monies from two special revenue funds which is being repaid over 10 years. The funds which will receive those payments are as follows:

	Due to		Due from
Lincoln County Land Act Special Use	$ 537,338	Solid Waste Enterprise	$ 687,338
Lincoln County Water Special Use	150,000		
	$ 687,338		

The County purchased the local landfill and created the Solid Waste Enterprise Fund in 2017. To help cover initial costs and have cash available, the Solid Waste Enterprise Fund borrowed monies from two special revenue funds which is being repaid over 10 years at 0% interest. Annual debt service requirements to maturity for the payable are as follows:

Year Ending June 30,	Principal
2022	$ 40,000
2023	40,000
2024	40,000
2025	60,000
2026	60,000
2027	60,000
	$ 300,000

The County purchased a roll off truck in 2020 for $179,738. To help cover costs and have cash available, the Solid Waste Enterprise Fund borrowed monies from the Lincoln County Land Act Special Use special revenue fund which is being repaid over 10 years at 4% interest. Annual debt service requirements to maturity for the payable are as follows:

Year Ending June 30,	Remaining Payments	Amount Representing Principal	Amount Representing Interest
2022	$ 22,809	$ 16,894	$ 5,915
2023	22,809	17,570	5,239
2024	22,809	18,272	4,537
2025	22,809	19,003	3,806
2026	22,809	19,763	3,046
2027-2029	60,857	56,592	4,265
	$ 174,902	$ 148,094	$ 26,808

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

8. Interfund Receivable / Payable (Continued)

The County purchased a front load truck in 2020 for $266,802. To help cover costs and have cash available, the Solid Waste Enterprise Fund borrowed monies from the Lincoln County Land Act Special Use special revenue fund which is being repaid over 10 years at 2% interest. Annual debt service requirements to maturity for the payable are as follows:

Year Ending June 30,	Remaining Payments	Amount Representing Principal	Amount Representing Interest
2022	$ 32,894	$ 23,324	$ 9,570
2023	32,894	24,257	8,637
2024	32,894	25,228	7,666
2025	32,894	26,237	6,657
2026	32,894	27,286	5,608
2027-2030	123,984	112,912	11,072
	$ 288,454	$ 239,244	$ 49,210

9. Unearned Revenue

Governmental funds report unearned revenue in connection with the resources that have been received but not yet earned. At June 30, 2021, the County had the following unearned revenues:

Qualifying expenditures for expenditure-driven grants have not occurred before June 30, 2021.

County Grant	Other Governmental	Total
$ 681,127	$ 131,260	$ 812,387

10. Unavailable Revenue

Delinquent taxes receivable not collected within sixty days after year-end are recorded as deferred inflows of resources as they are not available to pay liabilities of the current period. At June 30, 2021, the County had the following unavailable revenues:

General	Other Governmental	Total
$ 14,047	$ 6,511	$ 20,558

Grants receivable not collected within sixty days after year-end are recorded as deferred inflows of resources as they are not available to pay liabilities of the current period. The following grants receivable have been deferred:

County Grants
$ 111,601

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

11. Risk Management

Property, Casualty, Crime, and Machinery Insurance

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County joined together with other local governments throughout the State of Nevada to create a pool under the Nevada Interlocal Cooperation Act. The Nevada Public Agency Insurance Pool (NPAIP) is a public entity risk pool currently operating as a common risk management and insurance program for members. The County pays an annual premium and specific deductibles, as necessary, to NPAIP for its general insurance coverage. NPAIP is considered a self-sustaining risk pool that will provide liability coverage for its members up to $10,000,000 per event and a $10,000,000 annual aggregate per member. Property, crime, and equipment breakdown coverage is provided to its members up to $300,000,000 per loss with various sub-limits established for earthquake, flood, equipment breakdown, and money and securities. As a participatory member, the maintenance deductible is $2,000 for each insured event. Cyber security events including privacy response expense are covered at $3,000,000 per event with an annual aggregate of $3,000,000 and do not have a maintenance deductible.

The County is self-insured for unemployment claims. Payments are made from the general fund to cover claims.

The County participates in the Public Agency Compensation Trust (PACT). Premiums paid to PACT cover workers' compensation claims against the County. Premiums are based on a percentage of wages paid. PACT is considered a self-sustaining risk pool that will provide coverage based upon the statutory limit of $2,000,000.

The County carries commercial insurance for all other risks of loss including employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

12. Contingent Liabilities

Grants
Amounts received or receivable from grantor agencies are subject to audit and adjustment by those agencies, principally the Federal Government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

Litigation
The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the County's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the County.

Landfill Closure and Post-Closure Costs
State and federal laws and regulations require the County to place a final cover on its landfill sites when it stops accepting waste and to perform certain maintenance and monitoring functions at the sites for thirty years after closure. The closure and post-closure care costs will be paid only near or after the date that the landfills stop accepting waste.

As of June 30, 2021, the estimated liability to date for closure and post-closure costs is $90,000. This represents the cumulative amount reported to date based on percent capacity use of the estimated liability of $2,067,000 as the remaining capacity is used. Actual costs may be higher due to inflation, changes in technology, or changes in regulations. The County operates one landfill with an estimated remaining life of 38 years. As of June 30, 2021, cash in the amount of $93,446, has been restricted for future closure, post-closure, and opening landfill costs in the Solid Waste Fund. The County is presently using the "Local Government Test" as financial assurance mechanism for its closure and post-closure costs.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan

Plan Description. All half time and greater County employees are provided pension benefits through the Public Employees' Retirement System of the State of Nevada (PERS), a cost sharing multiple-employer, defined benefit plan administered by the Public Employees' Retirement System of the State of Nevada. PERS provides retirement benefits, disability benefits, and death benefits, including annual cost of living adjustments, to plan members and their beneficiaries. NRS Chapter 286 establishes the benefit provisions provided to the participants of PERS. These benefit provisions may only be amended through legislation. The Public Employees' Retirement System of the State of Nevada issues a publicly available financial report that includes financial statements and required supplementary information for PERS that can be obtained at www.nvpers.org under Quick Links — Publications.

Benefits Provided. Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months. Vested members are entitled to a life-time monthly retirement benefit equal to the service time multiplier (STM) percentages listed below times the member's years of service to a maximum of 30 years. The schedule of Eligibility for Monthly Unreduced Retirement Benefits for regular members and police/fire members are as follows:

Eligibility for Regular Members:

Years of Service	Hired prior to 07/01/01		Hired between 07/01/01-12/31/09		Hired Between 01/01/10-07/01/15		Hired After 7/1/15	
	Age	STM%	Age	STM%	Age	STM%	Age	STM%
5 years	65	2.50%	65	2.67%	65	2.50%	65	2.25%
10 years	60	2.50%	60	2.67%	62	2.50%	62	2.25%
30 years	Any	2.50%	Any	2.67%	Any	2.50%	55	2.25%
33 1/3 years							Any	2.25%

Eligibility for Police and Fire Members:

Years of Service	Hired prior to 07/01/01		Hired between 07/01/01-12/31/09		Hired Between 01/01/10-07/01/15		Hired After 7/1/15	
	Age	STM%	Age	STM%	Age	STM%	Age	STM%
5 years	65	2.50%	65	2.67%	65	2.50%	65	2.25%
10 years	55	2.50%	55	2.67%	60	2.50%	60	2.25%
20 years	50	2.50%	50	2.67%	50	2.50%	50	2.25%
25 years	Any	2.50%	Any	2.67%				
30 years					Any	2.50%	Any	2.25%

* Only service performed in a position as a police officer or firefighter may be counted towards eligibility for retirement as Police/Fire accredited service.

Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death. Post-retirement increases are provided by authority of NRS 286.575 - .579.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan (Continued)

Contributions: Benefits for plan members are funded under the employer pay contribution plan. The County is required to contribute all amounts due under the plan. PERS receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450. The County's required contribution rates for the year ending June 30, 2021, were 42.50% for police and fire; 29.25% for regular employees; 45.50% for Justice of the Peace; and 15.25% employee/employer match. The County has fully funded the amounts due for the year ending June 30, 2021. For purposes of GASB No. 82, the County recognized only the employer portion as a deferred outflow.

The actuary funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contribution requirement as a percentage of salary.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the County reported a liability of $10,566,230 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's allocation percentage of the net pension liability was based on the total contributions due on wages paid during the measurement period. Each employer's proportion of the net pension liability is based on their combined employer and member contributions relative to the total combined employer and member contributions for all employers for the period ended June 30, 2020. The County's proportionate share of the net pension liability decreased from 0.07859 percent at June 30, 2019 to 0.07586 at June 30, 2020.

For the year ended June 30, 2021, the County recognized pension expense of $571,217. At June 30, 2021, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual results	$ 328,285	$ 136,436
Net difference between projected and actual earnings on pension plan investments	0	399,148
Changes in assumption	296,794	0
Changes in proportion	39,171	973,649
County Contributions subsequent to measurement date	567,267	0
Total	$ 1,231,517	$ 1,509,233

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

$567,267 was reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2022	$(429,972)
2023	(154,509)
2024	(97,330)
2025	(82,696)
2026	(72,431)
2027	(8,045)
	$(844,983)

Actuarial Assumptions: The System's net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.75%
Payroll Growth	Regular: 5.50%
	Police/Fire: 6.50%
Investment Rate of Return	7.50%, including inflation
Productivity pay increase	0.50%
Projected Salary increases	Regular: 4.25% to 9.15%, depending on service
	Police/Fire: 4.55% to 13.90%, depending on service
	Rates include inflation and productivity increases
Other assumptions	Same as those used in the June 30, 2020 funding actuarial valuation

Mortality rates were based on the following:

Healthy:	Headcount-Weighted RP-2014 Annuitant Table projected to 2020 with Scale MP-2016, set forward one year for spouses and beneficiaries. For ages less than 50, mortality rates are based on the headcount–Weighted RP-2014 Employee Mortality Tables. Those mortality rates are adjusted by the ratio of the mortality rate for members at age 50 to the mortality rate at age 50 from the Employee mortality tables listed above. The mortality rates are then projected to 2020 with Scale MP-2016.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Mortality rates were based on the following: (Continued)

Disabled:	Headcount-Weighted RP-2014 Disabled Retiree Table, set forward four years. The RP-2014 Healthy Annuitant Mortality Tables have rates only for ages 50 and later.
Pre-Retirement	Headcount-Weighted RP-2014 Employee Table, projected to 2020 with Scale MP-2016

The RP-2014 Headcount–Weighted Mortality Tables, set forward one year for spouses and beneficiaries, reasonably reflect the projected mortality experience of the Plan as of the measurement date. The additional projection of 6 years is a provision made for future mortality improvement.

Actuarial assumptions used in the June 30, 2020 valuation were based on the results of the experience study for the period of July 1, 2012 through June 30, 2016. The System's policies which determine the investment portfolio target asset allocation are established by the Public Employees' Retirement Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System.

The following was the Board adopted policy target asset allocation as of June 30, 2020:

Asset Class	Target Allocation	Long-Term Geometric Expected Real Rate of Return*
U.S. Stock	42%	5.50%
International Stock	18%	5.50%
U.S. Bonds	28%	0.75%
Private Markets	12%	6.65%

*As of June 30, 2020, PERS' long-term inflation assumption was 2.75%

Discount Rate: The discount rate used to measure the total pension liability was 7.50% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made in amounts consistent with statutory provisions and recognizing the plan's current funding policy and cost-sharing mechanism between employer and members. For this purpose, all contributions that are intended to fund benefits for all plan members and their beneficiaries are included, except that projected contributions that are intended to fun the service costs for future plan members and their beneficiaries are not included.

Based on that assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2020.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Sensitivity of the County's proportionate share of the net pension liability to change in the discount rate: The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percent higher or lower than the current rate.

	1.0% Decrease (6.5%)	Discount Rate (7.5%)	1.0% Increase (8.5%)
County's proportionate share of the net pension liability	$ 16,478,934	$ 10,566,230	$ 5,649,901

Pension Plan Fiduciary Net Position: Detailed information about the pension plan's fiduciary net position is available in the PERS Comprehensive Annual Financial Report, available on the PERS website.

Pension contributions payable: At June 30, 2021, the County reported payables to the defined benefit pension plan of $58,649 for legally required employer contributions which had not yet been remitted to PERS.

14. Post-Employment Healthcare Plan

Plan Description: The County subsidizes eligible retirees' contributions to the Public Employees' Benefits Plan (PEBP), an agent multiple-employer defined benefit postemployment health care plan administered by the State of Nevada. The plan provides medical, vision, dental and life insurance benefits to eligible retired County employees and beneficiaries. NRS 287.041 assigns the authority to establish and amend benefit provisions to the PEBP nine-member board of trustees. The plan is now closed to current County retirees. However, County employees who previously met the eligibility requirement for retirement within the Nevada Public Employees' Retirement System had the option upon retirement to enroll in coverage under the PEBP and the subsidy provided by the County was determined by their number of years of service. The PEBP issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employee's Benefits Program, 901 S. Stewart Street, Suite 1001, Carson City, NV 89701, by calling (775) 684-7000, or by accessing the website at https://pebp.state.nv.us under Resources – Fiscal & Utilization Reports.

Employees covered by benefit terms. As of the June 2019 valuation, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	22
Inactive employees entitled to but not yet receiving benefit payments	0
Active employees	0
	22

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

14. Post-Employment Healthcare Plan (Continued)

Funding Policy NRS 287.046 establishes the subsidies to be contributed toward the premium costs of the eligible retired County employees. As noted above, the County policy is to only fund retirees who retired prior to July 1, 2009. Plan members receiving benefits have their monthly contributions deducted from their pension checks based on the health plan chosen by the retiree as reduced by the amount of the subsidy. Effective July 2015, the subsidy provided to pre-Medicare retirees varies based on the type of plan selected (PPO or HMO) and by the level of coverage taken (e.g., single, two party, family, etc.). The chart below shows our understanding of monthly amounts currently payable for those with 15 years of PERS service. Actual pre-Medicare subsidies for July 2019, as invoiced to the County by individual, were used for the valuation. Some subsidy increases are expected pursuant to SB663, to be phased in through 2022.

Coverage Level	PPO CDHP		Statewide EPO/HMO	
	Base Subsidy	SB 552 Subsidy	Base Subsidy	SB 552 Subsidy
	15 Years of Service			
Retiree Only	$ 813.80	$163.65	$ 398.00	$ (11.66)
Retiree + Spouse	1,389.86	419.51	630.93	(28.22)
Retiree + Child(ren)	1,212.52	384.79	527.69	(5.39)
Retiree + Family	1,788.58	640.65	760.62	(21.95)

All Medicare eligible retirees participate in a Medicare Exchange with PEBP providing a service related contribution to a Health Reimbursement Arrangement (HRA) equal to $13 per month per year of service (maximum $260 per month). The contribution requirements of plan members and the County are established and amended by the PEBP board of trustees.

As a participating employer, the County is billed for the subsidy on a monthly basis and is legally required under NRS 287.023 to provide for it.

For fiscal year 2021, the County contributed $25,129 to the plan for current premiums. The County did not prefund any future benefits.

Important Dates used in the Valuation:

Valuation Date:	June 30, 2019
Measurement Date:	June 30, 2020
Measurement Period:	June 30, 2019 to June 30, 2020
Fiscal Year End:	June 30, 2021

Significant Results and Differences from the Prior Valuation:

There were no changes in benefit terms from the prior valuation. No assumption changes were made other than to update the discount rate.

Total Other Post-Employment Benefits (OPEB) Liability

The County's OPEB liability of $513,863 was measured as of June 30, 2020 and determined by actuarial valuation as of that date.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

14. Post-Employment Healthcare Plan (Continued)

Actuarial Assumptions and Other Inputs: The total OPEB liability in the June 30, 2019, actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement:

	PEBP
Inflation rate	2.50%
Salary Increase	Not applicable; there are no active employees in this plan.
Discount Rate	2.66%
Healthcare Cost Trend Rates	Pre-Medicare: 5.40% fluctuating down to 4.50% by 2076. Post-Medicare: 4.50% for all years.
Retirees' share of benefit-related costs	0%

The discount rate was based on the S & P General Obligation Municipal Bond 20 year High Grade Index.

Mortality rates were based on the NVPERS 2019 experience study with improvements using the Macleod Watts Scale for 2020.

Actuarial assumptions used in the June 30, 2019, valuation were based on the results of an actuarial experience study for the period of July 1, 2018 to June 30, 2019.

Changes in the Total OPEB Liability

	PEBP
Service cost	$ 0
Interest	14,133
Changes of benefit terms	0
Differences between expected and actual experience	0
Changes in assumptions or other inputs	7,595
Benefit payments	(28,869)
Net changes	(7,141)
Net OPEB obligation - beginning of the year	521,004
Net OPEB obligation - end of year	$ 513,863

Changes of assumptions and other inputs reflect a change in the discount rate from 2.79% as of June 30, 2019, to 2.66% as of June 30, 2020.

Sensitivity of the County's total OPEB liability to changes in the discount rate. The following presents the total OPEB liability of the County, as well as what the County's total OPEB liability would be if it were calculated using a discount rate that is 1 percent higher or lower than the current rate.

	1.0% Decrease (1.66%)	Discount Rate (2.66%)	1.0% Increase (3.66%)
PEBP	$ 578,751	$ 513,863	$ 459,796

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

14. Post-Employment Healthcare Plan (Continued)

Sensitivity of the County's total OPEB liability to changes in the healthcare cost trend rates. The following presents the total OPEB liability of the County, as well as what the County's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percent higher or lower than the current healthcare cost trend rates:

	1.0% Decrease	Discount Rate	1.0% Increase
PEBP	$ 461,236	$ 513,863	$ 575,772

OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2021, the County recognized OPEB expense of $21,727. At June 30, 2021, the County reported deferred inflows and outflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual results	$ 0	$ 0
Changes of assumptions or other inputs	0	0
County Contributions subsequent to measurement date	25,129	0
Total	$ 25,129	$ 0

$25,129 reported as deferred outflows of resources related to OPEB resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ended June 30, 2022. There were no other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB to be recognized as OPEB expense.

15. Water Delivery Teaming Agreement

The Water District has entered into a water teaming agreement. The purpose of the agreement is to develop a water infrastructure and provide wholesale water to adjoining water districts and/or developers who require water. Investment to develop the water sources are funded by the partner. The Water District is not required to provide funding. Should projects fail, the Water District has no liability for costs incurred by the partner. If the projects are completed and revenues are generated from the sale of water, revenues collected will be applied to the investment of the partner until paid in full for the successful projects. After payment of project expenditures, the Water District will be entitled to 50 percent of remaining monies. Should the Water District withdraw from the agreement, the Water District will be required to reimburse the partner's investment costs. Revenues, if any, from water sales are recorded in the Lincoln County Water District funds.

16. Disposal of Operations – Ambulance and Ambulance Capital Projects

On December 31, 2020, the County transferred the assets and liabilities comprising the Ambulance operations to Lincoln County Fire District. As a result of the transfer, the County recognized an intergovernmental expense of $323,617 on the disposal of its operations as a special item, which included $92,160 in cash and the carrying value of $231,457 of capital assets. This activity was recorded in the Ambulance Special Revenue Fund and Ambulance Capital Projects Fund. During the current year revenues totaled $115,528 and the health expenditures totaled $69,532.

2020	0.07859%	10,716,781	4,712,297	227.42%	76.50%
2021	0.07586%	10,566,230	4,715,951	224.05%	77.00%

**Fiscal year 2015 was the first year of implementation, therefore, only seven years are shown.*

The County's proportionate share of the net pension liability is based upon the measurment taken on June 30th, of the prior year.

See accompanying notes to required supplementary information.

Note 1 – Explanation of Differences between General Fund (Budgetary Basis) and General Fund (GAAP Basis)

The accompanying Reconciliation of the General Fund (Budgetary Basis) to the General Fund (GAAP Basis) presents balances combined for external financial reporting purposes.

With the implementation of GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the budgetary basis of accounting for the General Fund differs from generally accepted accounting principles (GAAP).

Guidance in GASB Statement 54 changed the definition of Special Revenue Funds for financial reporting purposes. Pursuant to statute, budget comparisons are required using the budget adopted. Seven internally reported special revenue funds of the County (Stabilization, Planning, Rachel Jones Memorial Cemetery, Flood Control, Special Projects, Lincoln County Land Act Emergency Disaster, and Lincoln County Water Emergency Disaster) are combined with the General Fund for external reporting purposes to conform with generally accepted accounting principles.

Note 2 – Net Pension Liability

Changes in benefit terms. There have been no changes in benefit terms since the last valuation.

Changes in assumptions. Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period.

Note 3 – Other Post-Employment Benefits Liability

Changes in benefit terms. There have been no changes in benefit terms since the last valuation.

Changes in assumptions. Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated November 29, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

AUDITOR'S COMMENTS

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

In connection with our audit of the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County) as of and for the year ended June 30, 2021, and the related notes to the financial statements, nothing came to our attention that caused us to believe that the County failed to comply with the specific requirements of Nevada Revised Statutes referenced below insofar as they relate to accounting matters except as noted below. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the County's noncompliance with the requirements of Nevada Revised Statutes noted below, insofar as they relate to accounting matters.

CURRENT YEAR STATUTE COMPLIANCE

Expenditures in Excess of Appropriations

Per NRS 354.626, the County is required to report expenditures that exceeded budgeted appropriations at the function level for the General Fund, Special Revenue Funds, and Capital Project Funds. Enterprise funds may not exceed budget appropriations at the fund level. For the year ending June 30, 2021, the County had the following expenditures over appropriations that are required to be reported.

General Fund – Health function	$	479
Lincoln County Water District General	$	24,420
Detention Center Enterprise Fund	$	18,832
Solid Waste Enterprise Fund	$	37,470

The General Fund over expenditure in the fund relate to expenses that came in after year end that caused the functions to go over budget. The Lincoln County Water District Fund over expenditures in the fund relates to legal fees that were previously not budgeted, the District Manager was aware of this issue. The Detention Center Fund over expenditures relates to net pension liability adjustments. The Solid Waste Fund over expenditure relates to depreciation expenses on new equipment previously not budgeted.

Deficit Fund Balance/Net Position

Legal Aid Services Fund	$	1,739
County Grants Fund	$	46,654
Detention Center Enterprise Fund	$	2,573,191
Building Department Enterprise Fund	$	66,681

The deficit net position of the Detention Center and Building Department Enterprise funds are due to the individual fund's proportionate share of the net pension liability of the Public Employees' Retirement System of the State of Nevada of $3,071,179 and $92,432. The Legal Aid Fund deficit was caused by a legal issue with the court and there are insufficient revenues to cover these costs. The County Grants Fund deficit was caused by grant receivables of $111,601 that were not received within 60 days after year end and were therefore considered unavailable.

PROGRESS ON PRIOR YEAR STATUTE COMPLIANCE

The County had similar findings in the current year as listed above.

CURRENT YEAR RECOMMENDATIONS

We noted no material weakness and reported no significant deficiencies in internal controls.

PRIOR YEAR RECOMMENDATIONS

We noted no material weakness and reported no significant deficiencies in internal controls in the prior year.

NEVADA REVISED STATUTE 354.6115 - STABILIZATION FUND

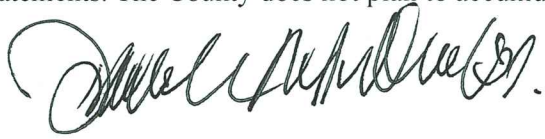
The County created a stabilization fund in accordance with Nevada Revised Statute 354.6115, "Fund to stabilize operations of local government and mitigate effects of natural disaster". The fund is reported on pages 230 and 231 of the financial statements as an "internally reported (budgetary basis) fund reported as part of the General Fund for external reporting purposes. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements.

NEVADA REVISED STATUTE 354.5989 – BUSINESS LICENSES

Nevada Revised Statutes 354.624.4(a) requires a schedule of all fees imposed by the County which are subject to the provisions of NRS 354.5989 be addressed by the independent auditor. During the year ended June 30, 2021, the County did not raise fees on business licenses subject to the limitation of NRS 354.5989.

NEVADA REVISED STATUTE 354.59815 – CAPITAL PROJECTS FUND (Special Ad Valorem)

Capital Improvements Fund - The County established the Capital Improvements Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. Projects funded during the year were as follows:



Intergovernmental – Payment to City	$ 8,408
Transfer to the Pioche Town Capital Projects fund	$ 3,603
Transfer to the Alamo Town Capital Projects fund	$ 2,574
Transfer to the Panaca Town Capital Projects fund	$ 4,804
Transfer to the Vehicle Capital Projects fund used to purchase vehicles	$ 88,016

Pioche Town Capital Projects Fund - The County established the Pioche Town Capital Projects Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. There were no projects funded during the year.

Panaca Town Capital Projects Fund - The County established the Panaca Town Capital Projects Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. Projects funded during the year were as follows:

Equipment	$ 2,325

Alamo Town Capital Projects Fund - The County established the Alamo Town Capital Projects Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. There were no projects funded during the year.

INDEPENDENT AUDITOR'S REPORT

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 5-13, budgetary comparisons information on pages 63-72, Reconciliation of the General Fund (Budgetary Basis) to the General Fund (GAAP Basis) on page 73, Schedule of Changes in the County's Total OPEB Liability and Related Ratios on page 74, Schedule of the County's Contributions to the Public Employees' Retirement System of the State of Nevada on Page 75, and Schedule of the County's Proportionate Share of the Net Pension Liability Public Employees' Retirement System of the State of Nevada on page 76 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit for the year ended June 30, 2020 was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund financial statements and schedules for the year ended June 30, 2020 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements for the year ended June 30, 2020, and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2020.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of the County as of and for the year ended June 30, 2019 (not presented herein), and have issued our report thereon dated November 27, 2019, which contained unmodified opinions on the respective financial statements of the governmental activities, the business activities, each major fund, and the aggregate remaining fund information. The combining and individual fund financial statements and schedules for the year ended June 30, 2019, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2019 financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audit 2019 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2019.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 25, 2020 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's in internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Las Vegas, Nevada
November 25, 2020

As management of Lincoln County, Nevada, we offer readers of Lincoln County, Nevada's financial statements this narrative overview and analysis of the financial activities of Lincoln County, Nevada, for the fiscal year end June 30, 2020. The Management's Discussion and Analysis ("MD&A") introduces the financial reports for Lincoln County, Nevada. The MD&A is designed to give the reader an easy-to-understand overview of the County's financial position and results of operations for the year. The MD&A is separated into Financial Highlights, an Overview of the Financial Statements, and a Government-Wide Financial Analysis.

Financial Highlights

The assets of the County exceeded its liabilities at the close of the 2020 fiscal year by $36,124,939 (net position). Total net position represents approximately $25,307,570 in capital assets, net of related debt, and $7,732,560 in assets restricted for debt services, capital projects, public works, and for other purposes. The remaining $2,741,182 represents unrestricted net position, which may be used to meet the County's ongoing obligations to its citizens and creditors.

The government-wide net position of the County decreased during the fiscal year 2020 by $134,885, or 0.38%.

At the end of fiscal year 2020, the County's governmental funds reported combined fund balances of $21,526,362; an increase of $1,351,253, or 6.70%, when compared to the previous year.

The County's primary revenue sources for governmental activities were ad valorem (property) taxes of $3,183,017, fuel taxes of $1,731,672, charges for services of $1,290,248, consolidated taxes of $1,546,075, operating grants and contributions of $1,074,896, and federal in lieu taxes of $974,644. These revenue sources comprised 25.14%, 13.68%, 10.19%, 12.21%, 8.49%, and 7.70% respectively, or 77.41%, of total governmental activities revenues. Business-type activities revenue from charges for services was $3,064,200.

The County's total government-wide expenses were $15,201,341. The greatest expenses were in the General Government $3,727,601, Public Works $2,349,771, and Public Safety $2,248,318 functions. Business-type activities contributed $3,384,680 to total expenses.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements which consists of government-wide financial statements, fund financial statements, and accompanying notes. This report also contains required supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements: The government-wide financial statements are designed to provide readers with a broad overview of the County's finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the County's assets and liabilities with the difference reported as net position. Increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

Overview of the Financial Statements (Continued)

The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave).

The government-wide financial statements report two types of activities: governmental activities and business-type activities. The government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, public safety, public works, judicial, health, sanitation, welfare, community support, culture and recreation, and intergovernmental. The business-type activities include operations of its detention center, utilities, solid waste, and building department operations.

Fund Financial Statements: A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains individual governmental funds. Information is presented separately in the governmental balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Road Fund, Lincoln County Water District Water Resources Fund, Lincoln County Land Act Special Use Fund, and County Grant Fund, each of which is considered to be a major fund. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the combining and individual fund statements and schedules.

The County adopts an annual appropriated budget for each of its governmental funds. A budgetary comparison statement is provided for each of the County's governmental funds to demonstrate compliance with the budget. The budgetary comparison statements for the major governmental funds are presented as required supplementary information; the budgetary comparison statements for all other governmental funds are included in the fund financial statements accompanying information.

Overview of the Financial Statements (Continued)

Proprietary Funds: The County maintains one type of proprietary fund, the Enterprise Fund. The Enterprise Fund is used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses the Enterprise Funds to account for its utility activities, building department activities, solid waste operation, and operation of the detention center.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the utility funds, building department, solid waste, and detention center. The Detention Center and Solid Waste are considered to be major funds of the County.

Fiduciary Funds: Fiduciary funds are used to account for the resources held for the benefit of parties outside of the government; Fiduciary funds are not reported in the government wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The County has two types of fiduciary funds. The Agency Fund reports resources held by the County in a custodial capacity for individuals, private organizations, and other governments. The investment trust fund is an external investment pool operated by the Lincoln County Treasurer.

Notes to Financial Statements: The notes to the financial statements provide additional information that is essential to acquire a full understanding of the data provided in the government-wide and fund financial statements.

Other Information: In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's progress in funding its obligation to provide other post-employment benefits to its employees; and schedules of budgetary comparisons for both the original and final budgets of the General Fund and the various other major County funds.

The combining statements and individual fund schedules referred to earlier in connection with the nonmajor governmental funds are presented immediately following the required supplementary information.

Government-Wide Financial Analysis

Net position of the County as of June 30, 2020, is summarized and analyzed below:

Net Position

	Governmental Activities		Business-type Activities		Total Primary Government	
	2020	**2019**	**2020**	**2019**	**2020**	**2019**
Assets:						
Current and other assets	$22,900,634	$21,203,764	$1,849,656	$1,970,803	$24,750,290	$23,174,567
Net capital assets	22,843,095	23,721,612	2,763,346	2,648,451	25,606,441	26,370,063
Total assets	45,743,729	44,925,376	4,613,002	4,619,254	50,356,731	49,544,630
Deferred outflows of resources:						
Deferred pension charge	1,144,436	1,238,859	455,878	521,732	1,600,314	1,760,591
Deferred OPEB	23,141	35,909	5,728	5,286	28,869	41,195
Total deferred outflows	1,167,577	1,274,768	461,606	527,018	1,629,183	1,801,786
Liabilities:						
Current liabilities	1,538,303	1,318,329	479,781	421,150	2,018,084	1,739,479
Long-term liabilities	7,988,396	8,143,723	4,483,951	4,371,952	12,472,347	12,515,675
Total liabilities	9,526,699	9,462,052	4,963,732	4,793,102	14,490,431	14,255,154
Deferred inflows of resources:						
Deferred pension charge	1,259,668	828,844	454,503	346,221	1,714,171	1,175,065
Net position:						
Invested in capital assets, net of related debt	22,721,713	23,607,589	2,585,857	2,460,332	25,307,570	26,067,921
Restricted	7,721,070	6,383,630	11,490	32,238	7,732,560	6,415,868
Unrestricted	5,682,156	5,918,029	(2,940,974)	(2,485,621)	2,741,182	3,432,408
Total net position	$36,124,939	$35,909,248	$ (343,627)	$ 6,949	$35,781,312	$35,916,197

As noted earlier, net assets may serve over time as a useful indicator of the County's financial position. Assets exceeded liabilities by $35,781,312 as of June 30, 2020, and by $35,916,197 as of June 30, 2019, resulting in a net decrease of $134,885, or 0.38%.

A portion of the County's net assets, 70.73%, reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, etc.), net of any related debt outstanding used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the debt.

The County's restricted net assets of 21.61% represents resources that are subject to external restrictions on how they may be used.

The remaining portion of the County's net assets, 7.66%, is unrestricted and may be used to meet the County's ongoing obligations to citizens and creditors.

At June 30, 2020, the County had positive balances in all three categories of net assets.

Changes in net position of the County are summarized as follows:

	Governmental Activities		Business-type Activities		Total	
	2020	2019	2020	2019	2020	2019

Program revenues include charges for services, fines and forfeitures, certain licenses and permits, and both operating and capital grans and contributions. General revenues consist of taxes, rent, investment income, and miscellaneous.

Financial Analysis of the County's Governmental Funds

The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

As of the end of the current fiscal year, the County's governmental funds reported a combined ending fund balance of $21,526,362, an increase of $1,351,253, or 6.70%, from the prior year. Fund balance components have been classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed on the use of the resources of each fund. Restricted fund balance is $7,721,070, or 35.87% of total. Spending of these resources is constrained by externally imposed (statutory, bond covenant, or grantors) limitations on their use. The largest restricted fund balances include $903,800 for multi-species conservation, $1,495,711 for capital projects, and $1,732,809 for public works.

Committed and assigned fund balances combined to represent 63.96% of total fund balance with spending constrained by either the Board of County Commissioners (for committed) or senior management (for assigned). Committed balances in the special revenue funds are primarily due to revenues directed by the Commission to those funds to support programs. The largest committed fund balances include $3,482,561 for the Lincoln County Water District and $3,565,468 for Lincoln County Land Act.

Major Funds

General Fund (Budgetary Basis): The General Fund is the chief operating fund of the County. At the end of the current fiscal year, the fund balance (budgetary basis) of the General Fund was $2,340,945, an increase of $1,387,742, or 145.59%. The General Fund revenues increased by $986,184, or 20.50%. Taxes increased by $28,483, or 1.27%. Intergovernmental increased by $927,602, or 55.30% due to the Coyote Springs dissolution. Charges for services increased by $60,644, or 20.51%, due to increased security contract and recorder fees. Fines and forfeitures decreased $107,353, or 29.66%. Miscellaneous revenues increased $76,429, or 35.70%, mostly due to increase investment income.

Expenditures decreased by $13,242, or 0.30%. General government expenditures decreased by $32,302, or 2.15% due to a decrease in grant administrator and clerk costs. Public safety expenditures increased by $33,974, or 2.00%, due to an increase in service and supplies for the sheriff's office. Judicial expenditures decreased by $24,403, or 2.17% due to a decrease in juvenile officers' wages and benefits.

Road Fund: The fund balance for the fund decreased by $73,505 to $801,769, or 8.40%. The Road fund expenditures increased by $204,973, or 28.76%, due to an increase in wages, benefits and services and supplies expenditures.

Lincoln County Water District Water Resources Fund: The Lincoln County Water District Water Resources Fund balance decreased by $60,028, or 2.11%, from the prior year. This was due to a transfer of $200,000 to the Water District General Fund.

Lincoln County Land Act Special Use Fund: The Lincoln County Land Act Special Use Fund balance decreased by $442,299, or 11.46% from the prior year. This was due to an increase in costs related to the Storm Area 51 event and compensated absence payments related to a reduction in staffing.

County Grant Fund: The County Grant Fund revenues decreased by $203,984, or 18.23%, and expenditures decreased by $151,891, or 13.46%. The decreases were due to receiving less grant monies in the current year.

Financial Analysis of the County's Enterprise Funds

Enterprise Funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the enterprise funds was a deficit of $2,940,974. Total net position for these funds decreased by $350,576 from the prior year.

The **Detention Center Fund**, a major fund, had operating revenues increase by $5,765, or 0.31%, due to an increase in inmate fees. Operating expenses increased by $212,785, or 11.12% due to an increase in salaries and benefits.

The **Solid Waste Fund**, a major fund, had operating revenues decrease by $27,385, or 4.29%, during the year. Operating expenses increased by $48,274, or 9.44%, due to an increase in depreciation expense due to the purchase of new equipment in the prior and current year.

General Fund Budgetary Highlights

The original budget (2019-20 Final Budget) was approved May 20, 2019.

Original budget compared to final budget: During the year there was a need for an amendment to increase original estimated revenues and original budgeted appropriations. There was also a need to make an amendment to reallocate appropriations among departments when it became clearer which departments would actually be charged for certain expenses. Generally, the movement of the appropriations between departments was not significant.

Final budget compared to actual results: The most significant differences for the General Fund were as follows:

Overall, the revenues received were more than budgeted by 19.68% or $953,017. Revenues received in excess of budgeted amounts were 52.94% for intergovernmental, 428.26% for miscellaneous, and 16.23% for licenses and permits. The shortfall in revenue sources was 2.40% for taxes, 6.83% for charges for services, and 29.27% for fines and forfeitures.

A review of actual expenditures compared to the appropriations in the final budget shows expenditures were $493,120 less than budgeted or 10.16%. Expenditures were under budget for all functions of the General Fund - general government 13.86%, public safety 4.50%, judicial 13.73%, and health 0.94%.

Actual fund balance (budgetary basis) of $2,340,945, was $154,352 lower than anticipated to begin the 2020-2021 year.

Capital Assets and Debt Administration

Capital Assets
The County's investment in capital assets, net of accumulated depreciation, at June 30, 2020, was $22,843,095 in governmental activities and $2,763,346 in business-type activities. A summary of changes in capital assets for the year ended June 30, 2020, follows:

Capital Assets (Continued)

Governmental Activities:

	Balance June 30, 2019	Additions	Dispositions	Balance June 30, 2020
Capital assets not being depreciated:				
Land	$ 1,809,860	$ -	$ -	$ 1,809,860
Capital assets being depreciated:

Major capital asset events during the current fiscal year included the following:

- Building and other improvements for the Airport and Trap Range.
- Equipment for the sheriff, general government, and other culture and recreation equipment.

Debt Administration

Changes in Long-term Debt: During the year ended June 30, 2020, the following changes occurred in long-term debt:

Governmental activities:

	Balance June 30, 2019	Net Additions	Net Deletions	Balance June 30, 2020	Due within One Year
Compensated absences	$ 422,068	$ -	$ 1,907	$ 420,161	$ 236,131
Net pension liability	7,600,013	-	235,186	7,364,827	-
OPEB obligation payable	334,948	71,150	-	406,098	-
Note payable	24,157	-	24,157	-	-
Capital lease payable	86,065	100,300	77,642	108,723	75,282
Total	$ 8,467,251	$ 171,450	$ 338,892	$ 8,299,809	$ 311,413

Business-type activities:

	Balance June 30, 2019	Net Additions	Net Deletions	Balance June 30, 2020	Due within One Year
Compensated absences	$ 227,116	$ -	$ 48,358	$ 178,758	$ 102,835
Net pension liability	3,615,370	-	263,416	3,351,954	-
OPEB obligation payable	93,697	21,209	-	114,906	-
Landfill closure and postclosure costs	60,000	20,000	-	80,000	-
Bond payable	188,119	-	10,630	177,489	3,440
Total	$ 4,184,302	$ 41,209	$ 322,404	$ 3,903,107	$ 106,275

The County's debt decreased by $167,442 for governmental activities during the current fiscal year. The reductions were mainly from a decrease in net pension liability.

The County's debt decreased by $281,195 for business-type activities during the current fiscal year. The primary reason for the decrease was a reduction in estimated compensated absences and net pension liability.

Additional information on the County's long-term debt can be found in (**Note D6**).

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The County approved the budget for the 2020-2021 year on May 18, 2020. The following factors were considered in the development of the budget.

- Assessed valuation for the County decreased and tax rates remained unchanged.
- The County, in planning for the budget year ending June 30, 2021, considered the implications of the Coronavirus (COVID-19) on County operations. Adjustments were made to the budget based on information known at the time of budget approval.

LINCOLN COUNTY, NEVADA
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
June 30, 2020

Total fund balance - governmental funds	**$**	**21,526,362**
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets, net of the related depreciation, are not reported in the Governmental Funds financial statements because they are not current financial resources, but they are reported in the Statement of Net Position.		22,843,095
Other long-term assets which are not available to pay for current period expenditures and, therefore, are deferred in the funds.		160,041
Certain liabilities (such as bonds payable and capital leases payable) are not reported in the Governmental Funds financial statements because they are not due and payable, but they are presented as liabilities in the Statement of Net Position.		(541,543)
The County's other post-employment benefits liabilities as well as other post-employment benefits-related deferred outflows and deferred inflows of resources are recognized in the government-wide statements and include:		
Deferred outflows from other post-employment benefits.		23,141
Total other post-employment benefits liability.		(406,098)
The County's proportionate share of net pension assets and liabilities as well as pension-related deferred outflows and deferred inflows of resources are recognized in the government-wide statements and include:		
Deferred outflows from pension activity		1,144,436
Net pension liability		(7,364,827)
Deferred inflows from pension activity		(1,259,668)
Total net position - governmental activities	**$**	**36,124,939**

LINCOLN COUNTY, NEVADA
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2020

Net Change in Fund Balance - Governmental Funds	**$**	**1,351,253**
Amounts reported for governmental activities in the Statement of Activities are different because:		
Capital outlays to purchase or build capital assets are reported in Governmental Funds financial statements as expenditures. However, for governmental activities those costs are shown in the Statement of Net Position and allocated over the estimated useful lives as annual depreciation expenses in the Statement of Activities.		(878,517)
Property taxes and grant revenues that are collected in the time to pay obligations of the current period are reported as revenue in the fund statements. However, amounts that related to prior periods that first become available in the current period should not be reported as revenue in the statement of activities.		122,386
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and other similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		(6,951)
Generally, expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred.		1,499
Net differences between other post-employment benefits contributions recognized in the fund statement of revenues, expenditures, and changes in fund balances and the Statement of Activities:		
Other post-employment benefits contributions made after measurement date (2020 contributions).		23,141
Net other post-employment benefits expense.		(107,059)
Net differences between pension system contributions recognized in the fund statement of revenues, expenditures, and changes in fund balances and the statement of activities:		
Pension contributions made after measurment date (2020 contributions).		447,504
Net pension expense.		(737,565)
Change in net position of governmental activities	**$**	**215,691**

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

1. Reporting Entity

Lincoln County, Nevada, is governed by an elected five-member board. As required by generally accepted accounting principles, these financial statements present Lincoln County, Nevada (the primary government), and its component units. Blended component units, although legally separate entities are, in substance, part of the County's operations. Thus, blended component units are appropriately presented as funds of the primary government.

2. Blended Component Units

Component units are legally separate organizations for which the County is financially accountable. Lincoln County Water District, Alamo Town, Panaca Town, and Pioche Town are all component units that are part of the County's reporting entity because the County is financially accountable for these entities. Financial accountability is determined primarily by the fact that as the governing body, the County's Board of Commissioners can impose its will on significant aspects of the operations of these entities. These entities are presented as blended component units since the operations of these entities are considered part of County operations.

3. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the County and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities,* which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support.

4. Basis of Presentation - Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the County's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds (enterprise funds), and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

The Statement of Net Position presents the consolidated financial position of the County at year-end, in separate columns, for both governmental and business-type activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or programs are offset by program revenues. Direct expenses are those that are specifically associated with a program or service and are, therefore, clearly identifiable to a particular function. Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other revenues properly not included among program revenues are reported instead as general revenues. This statement provides a net cost or net revenue of specific programs and functions within the County. Those functions with a net cost are generally dependent on general-purpose tax revenues, such as property tax, to remain operational.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the County's funds, including its fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary (enterprise), and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The County reports the following major governmental funds:

General Fund - The General Fund is the County's primary operating fund. It accounts for all financial resources of the general County, except those accounted for in another fund.

Road Fund - The Road Fund is used to account for gas tax revenues allocated for the construction, repair and maintenance of County roads.

Lincoln County Water District Water Resources Fund - The Lincoln County Water District Water Resources Fund is used to account for general activities of the District, a blended component unit of the government.

Lincoln County Land Act Special Use Fund - The Lincoln County Land Act Special Use Fund is used to account for land sale monies to be spent per ordinances.

County Grant Fund - The County Grant Fund is used to account for monies received to be spent on a specified purpose.

The County reports the following major enterprise fund:

Detention Center Fund - The Detention Center fund is used to account for the activities of the Lincoln County Detention Center, providing detention services for local governments within Nevada.

Solid Waste – The Solid Waste fund is used to account for solid waste disposal throughout the County and land fill operations.

Additionally, the County reports the following fiduciary fund:

Investment Trust – The investment trust fund is an external investment pool operated by the Lincoln County Treasurer. Participants include Caliente City, Lincoln County School District, Range, Panaca Fire Protection District, Pahranagat Fire District, Coyote Springs GID, Pioche Fire District, Southeastern Lincoln County Habitat Conservation Plan GID, and the Lincoln County Fire District.

Agency Funds – The Agency Fund is used to account for assets held by the County in an agency capacity for others and cannot be used to support the government's own programs.

During the course of operations, the County has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in the governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Basis of Presentation - Fund Financial Statements (Continued)

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

6. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Gross receipts and sales taxes are considered “measurable” when in the hands of intermediary collecting governments and are then recognized as revenue. The government considers revenues to be “available” if they are collected within 60 days of the end of the current fiscal period. Anticipated refunds of taxes are recorded as liabilities and reductions of revenue when they are measurable and the payment seems certain. In general, expenditures are recorded when liabilities are incurred. The exception to this rule is that principal and interest on debt service, as well as liabilities related to compensated absences and claims and judgments, are recorded when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

The major revenue sources of the County include consolidated taxes (including sales tax), fuel taxes, intergovernmental revenue, and property taxes. Property taxes, sales taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the County.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The principal operating revenues of the Pioche Public Utility funds are customer charges. Operating revenues for the Building fund come from charges for services for building inspections and permits. The Detention Center receives revenue for housing prisoners of other governments. Expenses are those required to provide the service. The Solid Waste fund is used to account for solid waste disposal throughout the County and landfill operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

7. Budgetary Basis of Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for governmental funds.

a. The statutes provide for the following timetable in adoption of budgets:

(i) Before April 15, the County submits to the Nevada State Department of Taxation a tentative budget for the upcoming fiscal year. The tentative budget includes proposed expenditures and the means to finance them.

(ii) A public hearing must be held by the County Commissioners no sooner than the third Monday in May and no later than the last day in May. Notice of the public hearing must be published once in the local newspaper not more than 14 nor less than 7 days before the hearing.

(iii) On or before June 1, the County Commissioners must adopt a final budget.

b. NRS 354.598005 (1) - provides that the County Commissioners may augment the budget at any time by a majority vote of the Commissioners providing the Commission publish notice of its intention to act in a newspaper of general circulation in the County at least three days before the date set for adoption of the resolution.

c. Nevada Revised Statute 354.598005 (5) allows appropriations to be transferred between functions, funds or contingency accounts if such a transfer does not increase the total appropriation for any fiscal year and is not in conflict with other statutory provisions. The County Auditor may transfer appropriations within any function. The County Auditor may also transfer appropriations between functions or programs within a fund, if the County Commissioners are advised of the action at the next regular meeting; and the action is recorded in the official minutes of the meeting. The County Commissioners may authorize the transfer of appropriations between funds or from the contingency account if the County Commissioners announce the transfer of appropriations at a regularly scheduled meeting and sets forth the exact amounts to be transferred and the accounts, functions, programs and funds affected. The County Commissioners must also set forth its reasons for the transfer; and the action must be recorded in the official minutes of the meeting.

d. Statutory regulations require budget control to be exercised at the function level within the funds.

e. The following funds were augmented during the year: County Grants, and Resource Development Funds had automatic budget augmentations for grant revenue. Panaca Town and Ambulance Funds were augmented during the year for higher than anticipated revenues. Vehicle Capital Projects Fund was augmented for capital lease proceeds.

f. Generally, budgets for all funds are adopted in accordance with generally accepted accounting principles. Budgeted amounts reflected in the accompanying financial statements recognize amendments made during the year.

g. All appropriations lapse at the end of the fiscal year.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

a. Cash and Cash Equivalents

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and short term investments with original maturities of three months or less from the date of acquisition. Cash includes cash deposited in interest-bearing accounts at banks and cash in the custody of fiscal agents of the County.

b. Investments

Investments are stated at fair value on the Balance Sheet. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale. Changes in the fair value of County investments are part of investment income which is included in revenue from local sources on the Statement of Activities and the Statement of Revenues, Expenditures, and Changes in Fund Balances of governmental funds. (**See Note D1**)

Nevada Revised Statutes authorize the County to invest in:

1. Obligations of the U.S. Treasury and U.S. Agencies in which the maturity dates do not exceed more than 10 years from the date of purchase.

2. Negotiable certificates of deposit issued by commercial banks or insured savings and loan associations (those over $250,000 must be fully collateralized).

3. Negotiable notes or short-term negotiable bonds issued by local governments within Nevada.

4. Eligible bankers' acceptances that do not exceed 270 days maturity and do not exceed 20 percent of the portfolio.

5. Commercial paper with a rating of A-1 or P-1 that does not exceed 240 days maturity and does not exceed 20 percent of the portfolio.

6. The State of Nevada's Local Government Investment Pool.

7. Repurchase agreements that are collateralized at 102 percent of the repurchase price and do not exceed 90 days maturity. Securities used for collateral must meet the criteria listed above.

8. Money market mutual funds which are rated as "AAA" or its equivalent and invest only in securities issued by the Federal Government, U.S. Agencies, or repurchase agreements fully collateralized by such securities.

9. Obligations issued or unconditionally guaranteed by the International Bank for Reconstruction and Development or obligations publicly issued in the United States by a foreign financial entity registered with the Securities and Exchange Commission, denominated in dollars with a maturity of 5 years or less with a rating of "AA" or better.

c. Property Tax

Taxes on real property are levied on July 1st of each year and are due on the third Monday in July. They can be paid in quarterly installments in August, October, January, and March. In the event of nonpayment, the County Treasurer is authorized to hold the property for two years, subject to redemption upon payment of taxes, penalties, and costs, together with interest at a rate of 10 percent per year from the date the taxes were due until paid. If delinquent taxes are not paid within the two year redemption period, the County Treasurer obtains a deed to the property free of all encumbrances. Upon receipt of a deed, the County Treasurer may sell the property to satisfy the tax lien.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

c. Property Tax (Continued)

Article X, Section 2 of the Constitution of the State of Nevada limits the total taxes levied by all overlapping governmental units within the boundaries of any County (i.e., the County, the County School District, the State and any other City, Town, or Special District) to an amount not to exceed $5 per $100 of assessed valuation of the property being taxed. The Nevada Legislature enacted provisions whereby the combined overlapping tax rate was limited to $3.64 per $100 of assessed valuation.

d. Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

e. Restricted Assets

Certain cash assets of the Enterprise Funds are from revenue for specific use by the Enterprise Funds and are classified as restricted assets because their use is restricted by agreement. **(See Note D5)**

f. Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial individual cost of more than $500 and an estimated useful life in excess of one year.

If purchased or constructed, capital assets are recorded at historical cost or estimated historical cost and updated for additions and retirements during the year. Donated capital assets are valued at their estimated value as of the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Land and construction in progress are not depreciated. The other property, plant and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

Capital Assets	Years
Vehicles	10
Equipment	5-20
Buildings and Improvements	20-50
Infrastructure	25-50

The County is required to report and depreciate new infrastructure assets. Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc. Neither their historical cost nor related depreciation has historically been reported in the financial statements. The County is required to capitalize and report its major general infrastructure assets acquired in fiscal years ending after June 30, 1980. In addition, infrastructure assets acquired before June 30, 1980, that received significant reconstruction must be capitalized.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

g. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows include the County's pension related contributions subsequent to the measurement date but before the end of the fiscal year and changes in proportion of the District's contributions to the County's proportionate contributions.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has only one type of item, which arises only under a modified accrual basis of accounting, which qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source, property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available.

Deferred inflows of resources represent an acquisition of net positon that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. The difference between projected and actual experience and investment earnings are related to the deferred inflows of pensions and the calculation of net pension liability reported on the statement of net position.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Nevada (PERS) and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

h. Governmental Fund Balances:

In the governmental fund financial statements, fund balances are classified as follows:

(i.) **Nonspendable –** Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact, such as inventories and prepaids.

(ii.) **Restricted –** Amounts that can be spent only for a specific purpose because of the state or federal laws, or externally imposed conditions by grantors or creditors.

(iii.) **Committed –**These amounts can only be used for specific purposes as set forth by the County Commissioners. The Commissioners must take formal action (vote approval by the majority), in order to establish an ending fund balance commitment for any specific purpose. Formal Commission action is also required to modify or rescind an established commitment. To be reported as committed, amounts cannot be used for any other purpose unless the Commission takes the same highest level action to remove or change the constraint.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

h. Governmental Fund Balances (Continued):

(iv.) Assigned – Assignments are neither restrictions nor commitments and represent the County's intent to use funds for a specific purpose. These assignments, however, are not legally binding and are meant to reflect intended future use of the County's ending fund balance. Intent can be expressed by the County Commissioners or by the County Auditor.

(v.) Unassigned – All amounts not included in other classifications.

i. Fund Balance Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance.) When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

j. Net Position Policies

In the government-wide statements, net position on the Statement of Net Position includes the following:

(i) Invested in Capital Assets, net of Related Debt

This is the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction, or improvement of those assets.

(ii) Restricted Assets

This is the component of net position that reports the constraints placed on the use of assets by either external parties and/or enabling legislation. Currently, the County restricts assets as follow:

a)	NRS 354.598155	Special Ad Valorem Capital Projects
b)	NRS 354.6113	Capital Projects Fund
c)	NRS 365.190	Road Improvements
d)	NRS 354.6115	Budget Stabilization
e)	NRS 269	Unincorporated Towns

(iii) Unrestricted

This is the component of net position that is the difference between the assets and liabilities not reported in Invested in Capital Assets, Net of Related Debt and Restricted Assets.

k. Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

l. Comparative Data/Reclassifications

Comparative total data for the prior year has been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the County's financial position and operations. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

m. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

n. Budgetary Stabilization

It is the County's policy to determine the balance or reserve as reasonable and necessary to carry out the purposes of the stabilization fund on a yearly basis. NRS 354.6115 authorizes the creation of a fund to stabilize operations of local governments and mitigate effects of natural disaster. The intent of this policy is to include a portion of the General Fund budgeted ending fund balance that will be restricted to stabilization pursuant to NRS 354.6115. Fund balance that is restricted to stabilization can be used after approval by the board of County Commissioners when total actual revenue falls short of the total anticipated revenue in the General Fund for the fiscal year in which the County uses the money.

9. Revenues and Expenditures/Expenses

a. Compensated Absences

Vested or accumulated vacation and sick leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide financial statements. No expenditure is reported for these amounts in the fund financial statements. (**See Note D6**) Vacation leave and sick leave included in accrued liabilities and recorded as expenditures in governmental fund types is the amount normally liquidated from "available spendable resources."

In proprietary funds, compensated absences are recorded when the liabilities are incurred. In governmental funds, the current portion is recorded as payroll expenditure. The estimated long-term liability for compensated absences is accounted for in the government-wide financial statements.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

9. Revenues and Expenditures/Expenses (Continued)

b. Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

c. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTE B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of certain differences between the governmental funds Balance Sheet and the government-wide Statement of Net Position

The governmental fund balance sheet includes reconciliation between fund balances - total governmental funds and net position - governmental activities as reported in the government-wide statement of net position. One element of the reconciliation explains that "certain liabilities (such as bonds payable and capital leases payable) are not reported in the Governmental funds financial statements because they are not due and payable, but they are presented as liabilities in the statement of net position." The details of this difference are as follows:

Interest payable	$ (12,659)
Capital lease payable	(108,723)
Compensated absences	(420,161)
Net adjustment to reduce fund balance - total governmental funds to arrive at net position - governmental activities	$ (541,543)

NOTE B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

2. Explanation of certain differences between the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the government-wide Statement of Activities

The governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net position of governmental activities as reported in the government-wide Statement of Activities. One element of that reconciliation explains that "Capital outlays to purchase or build capital assets are reported in Governmental Funds financial statements as expenditures. However, for governmental activities those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expense in the statement of activities." The details of this difference are as follows:

Capital outlay	$ 666,737
Book value of disposed assets	(209,407)
Depreciation expense	(1,335,847)
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	$ (878,517)

Another element of that reconciliation states that, "The issuance of long-term debt (i.e., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on Net Position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and other similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items." The details of this difference are as follows:

Capital lease proceeds	$ (100,300)
General obligation debt principal payments	$ 101,799
Net adjustment to increase net change in fund balances – governmental funds to arrive at change in net position of governmental activities	$ 1,499

Another element of that reconciliation states that "Generally, expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred." The details of this difference are as follows:

Accrued interest	$ (8,858)
Compensated absences	1,907
Net adjustment to increase net change in fund balances – governmental funds to arrive at change in net position of governmental activities	$ (6,951)

NOTE C. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

1. Compliance and Accountability

The County conformed to significant statutory requirements regarding financial administrations except as follows:

Per NRS 354.626, the County is required to report expenditures that exceeded budgeted appropriations at the function level for the General Fund, Special Revenue Funds, and Capital Project Funds. Enterprise funds may not exceed budget appropriations at the fund level. For the year ending June 30, 2020, the County had the following expenditures over appropriations that are required to be reported.

Alamo Town – Public works function	$	339
Airport – Public works function	$	952
Detention Center Enterprise Fund	$	39,303

The over expenditures in the funds relate to expenses that came in after year end that caused the functions to go over budget.

2. Deficit Fund Balance/Net Position

Legal Aid Services Fund	$ 3,195
Detention Center Enterprise Fund	$ 2,503,285
Building Department Enterprise Fund	$ 89,397

The deficit net position of the Detention Center and Building Department Enterprise funds are due to the individual fund's proportionate share of the net pension liability of the Public Employees' Retirement System of the State of Nevada. See **Note D-12** of the financial statement.

NOTE D. DETAILED NOTES ON ALL FUNDS

1. Pooled Cash and Investments

The County maintains a cash and investment pool that is available for use by all funds under the custody of the County Treasurer. At June 30, 2020, this pool is displayed by the statement of net position and major and other governmental funds on the governmental funds balance sheet as "Pooled Cash and Investments."

A reconciliation of cash and investments as shown in the Statement of Net Position is as follows:

Cash in the hands of officers	$ 83,750
Carrying amount of deposits	5,092,528
Fair value of investments	21,377,853
Total	$26,554,131

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

1. Pooled Cash and Investments (Continued)

A reconciliation of cash and investments as for the County is as follows:

Government-wide pooled cash and investments	$22,332,121
Restricted cash	94,777
Total primary government	22,426,898
Investment trust fund	3,196,587
Agency fund cash	930,646
Total reporting entity	$26,554,131

Except for financial reporting purposes, the cash balances of $4,127,233 in the Fiduciary Funds are not normally considered part of the County's pooled cash and investments. These amounts represent cash held in a fiduciary capacity by the County and cannot be used in the County's normal operations.

The cash and investment pool is available for use by all funds of the County. Cash and investments under the custody of the County Treasurer are invested as a pool. The County Treasurer may invest the money of the investment pool in investments which have been authorized as investments by Nevada Revised Statutes. (**See Note A8b**)

Investment income is apportioned to the funds within the pool monthly based on the average balance invested for the month.

State statutes authorize the County to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and the State Treasurer's Investment Pool.

Cash and investment are subject to the following risks:

Interest Rate Risk: Interest rate risk is the risk of possible reduction in the value of a security, especially a bond, resulting from the rise in interest rates. Nevada Revised Statutes limits bankers' acceptances to 180 days of maturities, repurchase agreements to 90 days, U.S. Treasuries and Agencies to less than 10 years, and commercial paper to 270 days maturity. The approximate weighted average maturity of investments in the Lincoln County Treasurer's investment pool was 2.20 years.

As of June 30, 2020, monies held in the Lincoln County Treasurer's cash and investment pool are categorized as follows:

		Investment Maturities (In Years)		
Investment Type	Fair Value	Less than 1	1-5	6-10
U.S. Treasury notes	$ 2,597,743	$ 727,525	$ 1,870,218	$ 0
U.S. Agency backed mortgages	1,062,205	0	1,062,205	0
Corporate notes	3,392,332	1,547,284	1,845,048	0
Money market funds	1,046,955	1,046,955	0	0
Negotiable certificates of deposit	13,278,618	1,738,789	11,539,829	0
Total Investments	$21,377,853	$ 5,060,553	$ 16,317,300	$ 0

Governmental Accounting Standards require fair value reporting of all investments. The fair value of the County's investments was determined by market quotes.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

1. Pooled Cash and Investments (Continued)

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation and is a function of the credit quality ratings of its investments. The Nevada Revised Statutes limits investments instruments by their credit risk **(Note A8a)**. The State of Nevada Local Government Investment Pool is an unrated external investment pool.

As of June 30, 2020, monies held in the Lincoln County Treasurer's cash and investment pool are categorized as follows:

		Quality Ratings by Moody's			
Investment Type	Fair Value	Aaa	A2	A3	N/A
U.S. Treasury notes	$ 2,597,743	$ 2,597,743	$ 0	$ 0	$ 0
U.S. Agency backed mortgages	1,062,205	1,062,205	0	0	0
Corporate notes	3,392,332	0	2,046,134	1,346,198	0
Money market funds	1,046,955	0	0	0	1,046,955
Negotiable certificates of deposit	13,278,618	0	0	0	13,278,618
Total Investments	$21,377,853	$ 3,659,948	$2,046,134	$ 1,346,198	$14,325,573

Custodial Credit Risk: Custodial credit risk is the risk that in the event of a bank or brokerage failure, the County's deposits may not be returned. The County's bank deposits are generally covered by FDIC insurance and are collateralized by the Office of the State Treasurer/Nevada Collateral Pool. At year-end, the County's carrying amount of deposits was $5,092,528 and the bank balance was $5,226,510. Of the bank balance, $500,000 was covered by federal depository insurance. Of the remaining balance, $4,726,510 was collateralized with securities held by the Nevada Pooled Collateral Program.

Concentrations of Credit Risk: Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. Investments with a single issuer within the Lincoln County Treasurer Cash and investment pool that represent five percent or more of total investments as of June 30, 2020, are as follows:

U.S. Treasury Notes	12.78%

Fair Value: The County categorize its investments using fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The County has the following recurring fair value measurements as of June 30, 2020:

Investment Type	Fair Value	Level 1	Level 2	N/A
U.S. Treasury notes	$ 2,597,743	$ 2,597,743	$ 0	$ 0
U.S. Agency backed mortgages	1,062,205	0	1,062,205	0
Corporate notes	3,392,332	0	3,392,332	0
Money market mutual funds	1,046,955	0	0	1,046,955
Negotiable certificates of deposit	13,278,618	0	0	13,278,618
Total Investments	$21,377,853	$ 2,597,743	$ 4,454,537	$ 14,325,573

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

1. Pooled Cash and Investments (Continued)

External Investment Pool: The County Treasurer administers an investment pool in accordance with NRS 355.168 combining the County funds with investments from Caliente City, Lincoln County School District, Range, Panaca Fire Protection District, Pahranagat Fire District, Coyote Springs GID, Pioche Fire District, Southeastern Lincoln County Habitat Conservation Plan GID, and the Lincoln County Fire District. The Board of County Commissioners has the overall responsibility of investment of funds including the external investment pool in accordance with NRS 355.175. The Lincoln County Treasurer is delegated investment responsibilities. The fair value of investments is determined monthly as statements from the various investment companies are received. Each participant's share is equal to their original investment plus or minus monthly allocations of interest income and realized and unrealized gains and losses. The County has not provided nor obtained any legally binding guarantees to support the value of the shares.

A summary of investments held in external investment pools at June 30, 2020, is as follows:

Investment Type	Fair Value	Principal Amount	Interest Rate
U.S. Treasury notes	$ 1,297,937	$ 1,275,000	Variable
U.S. Agency backed mortgages	281,911	375,000	Variable
Corporate notes	2,470,037	2,456,000	Variable
Money market funds	1,016,435	1,016,435	Variable
Negotiable certificates of deposit	10,781,975	10,393,000	Variable
Total Investments	$15,848,295	$ 15,515,435	

External Investment Pool Condensed Financial Statement
Statement of Net Position
June 30, 2020

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

2. Receivables

Below is the detail of receivables for each major fund and the nonmajor funds, in the aggregate, including the applicable allowances for uncollectible accounts:

Receivables:	Taxes	Interest	Due from Other Governments	Due from Others	Special Assessment	Accounts Receivable	Total
General	$30,333	$ 7,729	$ 291,829	$ -	$ -	$ -	$ 329,891
Road	-	1,068	246,465	-	-	-	247,533
Water Resources	-	12,183	-	-	-	-	12,183
Land Act Use	-	5,718	-	-	-	-	5,718
County Grant	-	159	368,298	-	-	-	368,457
Other Governmental Funds	21,240	28,775	82,464	20,128	79,764	-	232,371
Detention Center	-	-	-	-	-	148,575	148,575
Solid Waste	-	133	-	-	-	131,219	131,352
Nonmajor Enterprise Funds	-	851	-	-	-	33,895	34,746
Total receivables	$51,573	$56,616	$ 989,056	$ 20,128	$ 79,764	$ 313,689	$1,510,826

3. Capital Assets

Capital assets activity for the year ended June 30, 2020, was as follows:

Governmental Activities:

	Balance June 30, 2019	Additions	Dispositions	Balance June 30, 2020
Capital assets not being depreciated:				
Land	$ 1,809,860	$ -	$ -	$ 1,809,860
Capital assets being depreciated:				
Building and improvements	23,738,032	269,597	-	24,007,629
Infrastructure	2,150,970	-	-	2,150,970
Equipment	10,193,973	397,140	(1,658,209)	8,932,904
Total capital assets being depreciated	36,082,975	666,737	(1,658,209)	35,091,503
Less accumulated depreciation for:				
Building and improvements	7,894,600	863,884	-	8,758,484
Infrastructure	373,820	43,019	-	416,839

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

4. Accrued Liabilities

Accrued liabilities reported by governmental funds at June 30, 2020, were as follows:

Fund	Accrued Payroll and Benefits	Customer Deposits	Interest Payable
General	$ 220,587	$ -	$ -
Road	50,875	-	-
Lincoln County Land Act Special Use	186,817	-	-
County Grants	19,422	-	-
Other Governmental Funds	33,405	-	-
Detention Center	212,007	-	-
Solid Waste	17,898	-	8,174
Nonmajor Enterprise Funds	15,390	90	1,288
Total	$ 756,401	$ 90	$ 9,462

5. Restricted Assets

The balances of the County's restricted asset accounts are as follows

Cash – Pioche Public Utility –	USDA debt and replacement reserve	$ 11,490
Cash – Solid Waste	Landfill closure, and post-closure	83,287
Total restricted cash		$ 94,777

6. Long-term Debt

Governmental Type Activities:

Note Payable

a. The County borrowed money for the purchase of BLM land. The original principal of the note was $440,000. Payments are due in monthly installments of $4,383 through November 2020, with interest at 5%. The note was paid in full during the year.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

6. Long-term Debt

Governmental Type Activities: (Continued)

Capital Leases

a. The County entered into a lease agreement for 4 public safety vehicles totaling $133,245. The leases have been classified as capital leases according to generally accepted accounting principles. The leases contain non-funding clauses whereby the leases are terminated without penalty should the County fail in a budget year to appropriate money for the payment. The vehicles have a ten-year estimated useful life. This year, $26,649 was included in depreciation expense. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2020, were as follows:

Year Ending June 30,	Remaining Payments	Amount Representing Principal	Amount Representing Interest
2021	$ 47,180	$ 44,153	$ 3,027

b. During the year ending June 30, 2020, the County entered into a lease agreement for 3 public safety vehicles totaling $100,300. The leases have been classified as capital leases according to generally accepted accounting principles. The leases contain non-funding clauses whereby the leases are terminated without penalty should the County fail in a budget year to appropriate money for the payment. The vehicles have a ten-year estimated useful life. This year, $0 was included in depreciation expense. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2020, were as follows:

Year Ending June 30,	Remaining Payments	Amount Representing Principal	Amount Representing Interest
2021	$ 35,792	$ 31,129	$ 4,663
2022	35,792	33,441	2,351
	$ 71,584	$ 64,570	$ 7,014

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

6. Long-term Debt (Continued)

Business-Type Activities:

Revenue Bonds The County issues revenue bonds to provide funds for the acquisition and construction of utility capital assets. Revenue bonds have been issued for the business-type activities. Revenue bonds are an obligation of the enterprise utility funds for which the capital assets were acquired or constructed. Revenue bonds outstanding at June 30, 2020, are as follows:

a. **$210,000, 2007 Pioche Town Sewer bond** is payable to the U.S. Department of Agriculture-Rural Development. The bond is payable in semi-annual payments of $5,584 including interest. The interest rate is 4.375%. The bond agreement requires the County to establish and fund monthly a debt service reserve fund equal to 10% of the semi-annual payment each month over the life of the loan until they accumulate one annual installment. This reserve fund can be used for emergency maintenance and repairs, and debt repayment should the need arise. The required reserve as of June 30, 2020, is $11,490. The balance in the reserve account was $11,490 as of June 30, 2020 **(See Note D-5)**. The outstanding balance of bonds payable at June 30, 2020, was $177,489.

Annual debt service requirements to maturity for the revenue bond are as follows:

Year Ending June 30,	Principal	Interest
2021	$ 3,440	$ 7,728
2022	3,592	7,576
2023	3,751	7,417
2024	3,915	7,253
2025	4,090	7,078
2026-2030	23,337	32,503
2031-2035	28,964	26,876
2036-2040	35,961	19,879
2041-2045	44,648	11,192
2046-2048	25,791	1,669
	$ 177,489	$ 129,171

b. **$350,000, 1980 Pioche Town Water bond** due in monthly installments of $1,729, including interest at 5%, through 2021. The Water bond is payable to the Farmers Home Administration. The bond agreement requires the County to establish and maintain reserves sufficient to insure that loan installments will be paid on time and to pay for emergency maintenance of the facilities. The bond was paid in full during the year and restricted reserves were released.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

6. Long-term Debt (Continued)

Changes in Long-term Debt: During the year ended June 30, 2020, the following changes occurred in long-term debt:

Governmental activities:

	Balance June 30, 2019	Net Additions	Net Deletions	Balance June 30, 2020	Due within One Year
Compensated absences	$ 422,068	$ -	$ 1,907	$ 420,161	$ 236,131
Net pension liability	7,600,013	-	235,186	7,364,827	-
OPEB obligation payable	334,948	71,150	-	406,098	-
Note payable	24,157	-	24,157	-	-
Capital lease payable	86,065	100,300	77,642	108,723	75,282
Total	$ 8,467,251	$ 171,450	$ 338,892	$ 8,299,809	$ 311,413

Business-type activities:

	Balance June 30, 2019	Net Additions	Net Deletions	Balance June 30, 2020	Due within One Year
Compensated absences	$ 227,116	$ -	$ 48,358	$ 178,758	$ 102,835
Net pension liability	3,615,370	-	263,416	3,351,954	-
OPEB obligation payable	93,697	21,209	-	114,906	-
Landfill closure and postclosure cost	60,000	20,000	-	80,000	-
Bond payable	188,119	-	10,630	177,489	3,440
Total	$ 4,184,302	$ 41,209	$ 322,404	$ 3,903,107	$ 106,275

The compensated absence liability will be liquidated primarily by the General Fund. The capital leases will be paid by the Vehicle Capital Projects Fund.

Per Nevada Revised Statute Chapter 244A.059, the debt limitation for the County is equal to 10 percent of the assessed valuation of property, excluding motor vehicles for the current year. The debt limitation currently applicable at June 30, 2020, was $29,072,613. Per Nevada Revised Statutes Chapter 269.425, the debt limitations for the unincorporated towns, which cannot exceed 25% of assessed valuation of property within the town are as follows: Alamo Town $2,566,258, Panaca Town 3,511,663, and Pioche Town $4,548,933.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

7. Interfund Transfers

Interfund operating transfers are made from one fund to another fund to support expenditures in accordance with the authority established for the individual funds. Transfers between fund types during the year ended June 30, 2020, were:

		Transfer Out				
	Total Transfers In	General	Road	LC Water District Water Resources	Nonmajor Special Revenue	Nonmajor Capital Projects
General Fund	$ 75,000	$ -	$ -	$ -	$ 75,000	$ -
Lincoln County Land Act Special Use	151	-	-	-	151	-
County Grant Fund	53,835	-	-	-	53,835	-
Nonmajor Special Revenue Funds	343,308	50,000	-	200,000	93,308	-
Nonmajor Capital Projects Funds	220,503	-	100,000	-	-	120,503
Major Enterprise - Detention Center	60,000	-	-	-	60,000	-
Nonmajor Enterprise Funds	50,000	-	-	-	50,000	-
Total	$ 802,797	$ 50,000	$ 100,000	$ 200,000	$ 332,294	$ 120,503

Following are explanations of certain interfund transfers of significance to the County:

The General Fund transferred money to the following funds: Property Management $40,000 and China Springs $10,000 to help cover costs.

The Road Fund transferred $100,000 to the Road Capital Projects Fund to help cover the costs of a new equipment.

The Federal in Lieu Fund transferred money to the following funds: Building Enterprise Fund $50,000, Detention Center Fund $60,000, and the Planning Fund $75,000 which is internally reported fund in the General Fund. These budgeted transfers were made to help cover operating costs. Transfers were also made for $53,835 to the County Grant Fund, $15,000 to the District Court Specialty Court Fund, and $33,308 to the Senior Nutrition Fund for grant match.

The Lincoln County Water District Fund transferred $200,000 to the Lincoln County Water Resources Fund to help cover operating costs.

The Room Tax Fund transferred $10,000 to the Fair Board Fund to help cover costs.

The Regional Transportation Commission transferred $35,000 to the Transportation Fund for a grant match and to help cover costs.

The Capital Projects Fund transferred money to the following capital projects funds: $110,000 to the Vehicle Capital Projects for assistance with capital asset purchases and debt payments; $10,503 to the Alamo, Panaca, and Pioche Town Capital Projects Funds for distribution of property taxes collected pursuant to Nevada Revised Statutes 354.59815.

The Lincoln County Land Act Grant Match Fund transferred to the Lincoln Count Land Act Special Use Fund $151

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

8. Interfund Receivable / Payable

The Solid Waste Enterprise Fund borrowed monies from two special revenue funds which is being repaid over 10 years. The funds which will receive those payments are as follows:

	Due to		Due from
Lincoln County Land Act Special Use	$ 600,921	Solid Waste Enterprise	$ 770,921
Lincoln County Water Special Use	170,000		
	$ 770,921		

The County purchased the local landfill and created the Solid Waste Enterprise Fund in 2017. To help cover initial costs and have cash available, the Solid Waste Enterprise Fund borrowed monies from two special revenue funds which is being repaid over 10 years at 0% interest.

Annual debt service requirements to maturity for the payable are as follows:

Year Ending June 30,	Principal
2021	$ 40,000
2022	40,000
2023	40,000
2024	40,000
2025	40,000
2026-2027	140,000
	$ 340,000

The County purchased a roll off truck in 2020 for $179,738. To help cover costs and have cash available, the Solid Waste Enterprise Fund borrowed monies from the Lincoln County Land Act Special Use special revenue fund which is being repaid over 10 years at 4% interest.

Annual debt service requirements to maturity for the payable are as follows:

Year Ending June 30,	Remaining Payments	Amount Representing Principal	Amount Representing Interest
2021	$ 22,809	$ 16,244	$ 6,565
2022	22,809	16,894	5,915
2023	22,809	17,570	5,239
2024	22,809	18,272	4,537
2025	22,809	19,003	3,806
2026-2029	83,447	76,136	7,311
	$ 197,492	$ 164,119	$ 33,373

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

8. Interfund Receivable / Payable (Continued)

The County purchased a front load truck in 2020 for $266,802. To help cover costs and have cash available, the Solid Waste Enterprise Fund borrowed monies from the Lincoln County Land Act Special Use special revenue fund which is being repaid over 10 years at 2% interest.

Annual debt service requirements to maturity for the payable are as follows:

Year Ending June 30,	Remaining Payments	Amount Representing Principal	Amount Representing Interest
2021	$ 32,894	$ 27,558	$ 5,336
2022	32,894	23,324	9,570
2023	32,894	24,257	8,637
2024	32,894	25,228	7,666
2025	32,894	26,237	6,657
2026-2030	156,878	140,198	16,680
	$ 321,348	$ 266,802	$ 54,546

9. Unearned Revenue

Governmental funds report unearned revenue in connection with the resources that have been received but not yet earned. At June 30, 2020, the County had the following unearned revenues:

Qualifying expenditures for expenditure-driven grants have not occurred before June 30, 2020.

County Grant	Other Governmental	Total
$ 120,912	$ 95,830	$ 216,742

10. Unavailable Revenue

Delinquent taxes receivable not collected within sixty days after year-end are recorded as deferred inflows of resources as they are not available to pay liabilities of the current period. At June 30, 2020, the County had the following unavailable revenues:

General	Other Governmental	Total
$ 26,513	$ 12,022	$ 38,535

Grants receivable not collected within sixty days after year-end are recorded as deferred inflows of resources as they are not available to pay liabilities of the current period. The following grants receivable have been deferred:

County Grant
$ 121,506

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

11. Risk Management

Property, Casualty, Crime, and Machinery Insurance

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County joined together with other local governments throughout the State of Nevada to create a pool under the Nevada Interlocal Cooperation Act. The Nevada Public Agency Insurance Pool (NPAIP) is a public entity risk pool currently operating as a common risk management and insurance program for members. The County pays an annual premium and specific deductibles, as necessary, to NPAIP for its general insurance coverage. NPAIP is considered a self-sustaining risk pool that will provide liability coverage for its members up to $10,000,000 per event and a $10,000,000 annual aggregate per member. Property, crime, and equipment breakdown coverage is provided to its members up to $300,000,000 per loss with various sub-limits established for earthquake, flood, equipment breakdown, and money and securities. Cyber security events including privacy response expense are covered at $3,000,000 per event with an annual aggregate of $3,000,000. As a participatory member, the maintenance deductible is $2,000 for each insured event.

The County is self-insured for unemployment claims. Payments are made from the general fund to cover claims.

The County participates in the Public Agency Compensation Trust (PACT). Premiums paid to PACT cover workers' compensation claims against the County. Premiums are based on a percentage of wages paid.

The County carries commercial insurance for all other risks of loss including employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

12. Contingent Liabilities

Grants
Amounts received or receivable from grantor agencies are subject to audit and adjustment by those agencies, principally the Federal Government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

Litigation
The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the County's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the County.

Landfill Closure and Post-Closure Costs
State and federal laws and regulations require the County to place a final cover on its landfill sites when it stops accepting waste and to perform certain maintenance and monitoring functions at the sites for thirty years after closure. The closure and post-closure care costs will be paid only near or after the date that the landfills stop accepting waste.

As of June 30, 2020, the estimated liability to date for closure and post-closure costs is $80,000. This represents the cumulative amount reported to date based on percent use of the estimated liability of $1,700,000 as the remaining capacity is used. Actual costs may be higher due to inflation, changes in technology, or changes in regulations. The County operates one landfill with an estimated remaining life of 38 years. As of June 30, 2020, $83,287, has been restricted for future closure, post-closure, and opening landfill costs in the Solid Waste Fund. The County is presently using the "Local Government Test" as financial assurance mechanism for its closure and post-closure costs.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

12. Contingent Liabilities

Coronavirus (COVID-19)

On March 11, 2020, the World Health Organization declared the outbreak of the coronavirus (COVID-19) a pandemic. The President of the United States declared the outbreak of coronavirus a national emergency on March 13, 2020. The related health crisis has adversely affected the global economy, including disruptions to domestic and international travel and the hospitality industry in the State of Nevada.

In response to the Coronavirus pandemic, the Governor of Nevada issued several declarations of emergency to mitigate the health impact of the pandemic. Directives included the closure of gaming establishments, non-essential businesses and onsite dining at restaurants and food establishments.

The outbreak of the Coronavirus and the dramatic steps taken by the Federal government and the State to Nevada to address it will continue to impact national and local economies. The full impact on the State of Nevada and the District's financial condition is not expected to be known for some time. The impact on the District's future operations as a result of the Coronavirus is difficult to predict due to uncertainties relating to it duration and severity, as well as additional actions that may be taken by governmental and other health care authorities to contain or mitigate the effects of the virus. The possible reemergence of the virus later in the year could have an adverse financial effect on the District. The District is continuously monitoring the situation and will take such proactive measures as may be required to maintain operations and meet its obligations. Given the level of uncertainty, management cannot reasonably estimate the actual impact on the District's future financial position at this time.

13. Defined Benefit Pension Plan

Plan Description. All half time and greater County employees are provided pension benefits through the Public Employees' Retirement System of the State of Nevada (PERS), a cost sharing multiple-employer, defined benefit plan administered by the Public Employees' Retirement System of the State of Nevada. PERS provides retirement benefits, disability benefits, and death benefits, including annual cost of living adjustments, to plan members and their beneficiaries. NRS Chapter 286 establishes the benefit provisions provided to the participants of PERS. These benefit provisions may only be amended through legislation. The Public Employees' Retirement System of the State of Nevada issues a publicly available financial report that includes financial statements and required supplementary information for PERS that can be obtained at www.nvpers.org under Quick Links — Publications.

Benefits Provided. Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months. Vested members are entitled to a life-time monthly retirement benefit equal to the service time multiplier (STM) percentages listed below times the member's years of service to a maximum of 30 years. The schedule of Eligibility for Monthly Unreduced Retirement Benefits for regular members and police/fire members are as follows:

Eligibility for Regular Members:

Years of Service	Hired prior to 07/01/01		Hired between 07/01/01-12/31/09		Hired Between 01/01/10-07/01/15		Hired After 7/1/15	
	Age	STM%	Age	STM%	Age	STM%	Age	STM%
5 years	65	2.50%	65	2.67%	65	2.50%	65	2.25%
10 years	60	2.50%	60	2.67%	62	2.50%	62	2.25%
30 years	Any	2.50%	Any	2.67%	Any	2.50%	55	2.25%
33 1/3 years							Any	2.25%

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan (Continued)

Eligibility for Police and Fire Members:

Years of Service	Hired prior to 07/01/01		Hired between 07/01/01-12/31/09		Hired Between 01/01/10-07/01/15		Hired After 7/1/15	
	Age	STM%	Age	STM%	Age	STM%	Age	STM%
5 years	65	2.50%	65	2.67%	65	2.50%	65	2.50%
10 years	55	2.50%	55	2.67%	60	2.50%	60	2.50%
20 years	50	2.50%	50	2.67%	50	2.50%	50	2.50%
25 years	Any	2.50%	Any	2.67%				
30 years					Any	2.50%	Any	2.50%

* Only service performed in a position as a police officer or firefighter may be counted towards eligibility for retirement as Police/Fire accredited service.

Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death. Post-retirement increases are provided by authority of NRS 286.575 - .579.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

Contributions: Benefits for plan members are funded under the employer pay contribution plan. The County is required to contribute all amounts due under the plan. PERS receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450. The County's required contribution rates for the year ending June 30, 2020, were 42.50% for police and fire; 29.25% for regular employees; 45.50% for Justice of the Peace; and 15.25% employee/employer match. The County has fully funded the amounts due for the year ending June 30, 2020. For purposes of GASB No. 82, the County recognized only the employer portion as a deferred outflow.

The actuary funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contribution requirement as a percentage of salary.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the County reported a liability of $10,716,781 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's allocation percentage of the net pension liability was based on the total contributions due on wages paid during the measurement period. Each employer's proportion of the net pension liability is based on their combined employer and member contributions relative to the total combined employer and member contributions for all employers for the period ended June 30, 2019. The County's proportionate share of the net pension liability decreased from 0.08224 percent at June 30, 2018 to 0.07859 at June 30, 2019.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan (Continued)

For the year ended June 30, 2020, the County recognized pension expense of $199,500. At June 30, 2020, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual results	$ 401,867	$ 309,112
Net difference between projected and actual earnings on pension plan investments	0	533,121
Changes in assumption	436,129	0
Changes in proportion	110,396	871,938
County Contributions subsequent to measurement date	651,922	0
Total	$ 1,600,314	$ 1,714,171

$651,922 was reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2021	$(109,544)
2022	(402,402)
2023	(124,139)
2024	(66,206)
2025	(52,917)
2026	(10,571)
	$(765,779)

Actuarial Assumptions: The System's net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.75%
Payroll Growth	Regular: 5.50%
	Police/Fire: 6.50%
Investment Rate of Return	7.50%, including inflation
Productivity pay increase	0.50%
Projected Salary increases	Regular: 4.25% to 9.15%, depending on service
	Police/Fire: 4.55% to 13.90%, depending on service
	Rates include inflation and productivity increases
Other assumptions	Same as those used in the June 30, 2019 funding actuarial valuation

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan (Continued)

Mortality rates were based on the following:

Healthy:	Headcount-Weighted RP-2014 Annuitant Table projected to 2020 with Scale MP-2016, set forward one year for spouses and beneficiaries.
Disabled:	Headcount-Weighted RP-2014 Disabled Retiree Table, set forward four years.
Pre-Retirement	Headcount-Weighted RP-2014 Employee Table, projected to 2020 with Scale MP-2016

Actuarial assumptions used in the June 30, 2019 valuation were based on the results of the experience study for the period of July 1, 2012 through June 30, 2016. The System's policies which determine the investment portfolio target asset allocation are established by the Public Employees' Retirement Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System.

The following was the Board adopted policy target asset allocation as of June 30, 2019:

Asset Class	Target Allocation	Long-Term Geometric Expected Real Rate of Return*
U.S. Stock	42%	5.50%
International Stock	18%	5.50%
U.S. Bonds	28%	0.75%
Private Markets	12%	6.65%

*As of June 30, 2019, PERS' long-term inflation assumption was 2.75%

Discount Rate: The discount rate used to measure the total pension liability was 7.50% as of June 30, 2019. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the pension plan's fiduciary net position at June 30, 2019, was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2019.

Sensitivity of the County's proportionate share of the net pension liability to change in the discount rate: The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percent higher or lower than the current rate.

	1.0% Decrease (6.5%)	Discount Rate (7.5%)	1.0% Increase (8.5%)
County's proportionate share of the net pension liability	$ 16,593,209	$ 10,716,781	$ 5,831,470

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan (Continued)

Pension Plan Fiduciary Net Position: Detailed information about the pension plan's fiduciary net position is available in the PERS Comprehensive Annual Financial Report, available on the PERS website.

Pension contributions payable: At June 30, 2020, the County reported payables to the defined benefit pension plan of $62,341 for legally required employer contributions which had not yet been remitted to PERS.

14. Post-Employment Healthcare Plan

Plan Description: The County subsidizes eligible retirees' contributions to the Public Employees' Benefits Plan (PEBP), an agent multiple-employer defined benefit postemployment health care plan administered by the State of Nevada. The plan provides medical, vision, dental and life insurance benefits to eligible retired County employees and beneficiaries. NRS 287.041 assigns the authority to establish and amend benefit provisions to the PEBP nine-member board of trustees. The plan is now closed to current County retirees. However, County employees who previously met the eligibility requirement for retirement within the Nevada Public Employees' Retirement System had the option upon retirement to enroll in coverage under the PEBP and the subsidy provided by the County was determined by their number of years of service. The PEBP issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employee's Benefits Program, 901 S. Stewart Street, Suite 1001, Carson City, NV 89701, by calling (775) 684-7000, or by accessing the website at https://pebp.state.nv.us under Resources – Fiscal & Utilization Reports.

Employees covered by benefit terms. At June 30, 2020, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	22
Inactive employees entitled to but not yet receiving benefit payments	0
Active employees	0
	22

Funding Policy NRS 287.046 establishes the subsidies to be contributed toward the premium costs of the eligible retired County employees. As noted above, the County policy is to only fund retirees who retired prior to July 1, 2009. Plan members receiving benefits have their monthly contributions deducted from their pension checks based on the health plan chosen by the retiree as reduced by the amount of the subsidy. Effective July 2015, the subsidy provided to pre-Medicare retirees varies based on the type of plan selected (PPO or HMO) and by the level of coverage taken (e.g., single, two party, family, etc.). The chart below shows our understanding of monthly amounts currently payable for those with 15 years of PERS service.

Coverage Level	PPO CDHP		Statewide EPO/HMO	
	Base Subsidy	SB 552 Subsidy	Base Subsidy	SB 552 Subsidy
	15 Years of Service			
Retiree Only	$ 813.80	$163.65	$ 398.00	$ (11.66)
Retiree + Spouse	1,389.86	419.51	630.93	(28.22)
Retiree + Child(ren)	1,212.52	384.79	527.69	(5.39)
Retiree + Family	1,788.58	640.65	760.62	(21.95)

All Medicare eligible retirees participate in a Medicare Exchange with PEBP providing a service related contribution to a Health Reimbursement Arrangement (HRA) equal to $13 per month per year of service (maximum $260 per month). The contribution requirements of plan members and the County are established and amended by the PEBP board of trustees. As a participating employer, the County is billed for the subsidy on a monthly basis and is legally required under NRS 287.023 to provide for it.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

14. Post-Employment Healthcare Plan (Continued)

For fiscal year 2020, the County contributed $28,869 to the plan for current premiums. The County did not prefund any future benefits.

Important Dates used in the Valuation:

Valuation Date:	June 30, 2019
Measurement Date:	June 30, 2019
Measurement Period:	June 30, 2018 to June 30, 2019
Fiscal Year End:	June 30, 2020

Significant Results and Differences from the Prior Valuation:

There were no changes in benefit terms from the prior valuation. Updates were made to the discount rate, to the mortality assumptions, and to assumed future healthcare trends. Differences between projected and actual results were recognized as plan experience.

Total Other Post-Employment Benefits (OPEB) Liability

The County's OPEB liability of $521,004 was measured as of June 30, 2019 and determined by actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs: The total OPEB liability in the June 30, 2019, actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement:

	PEBP
Inflation rate	2.50%
Salary Increase	Not applicable; there are no active employees in this plan.
Discount Rate	2.79%
Healthcare Cost Trend Rates	Pre-Medicare: 5.40% fluctuating down to 4.50% by 2076. Post-Medicare: 4.50% for all years.
Retirees' share of benefit-related costs	0%

The discount rate was based on the S & P General Obligation Municipal Bond 20 year High Grade Index.

Mortality rates were based on the NVPERS 2019 experience study with improvements using the Macleod Watts Scale for 2020.

Actuarial assumptions used in the June 30, 2020, valuation were based on the results of an actuarial experience study for the period of June 30, 2019, to June 30, 2020.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

14. Post-Employment Healthcare Plan (Continued)

Changes in the Total OPEB Liability

	PEBP
Service cost	$ 0
Interest	12,160
Changes of benefit terms	0
Differences between expected and actual experience	117,649
Changes in assumptions or other inputs	3,745
Benefit payments	(41,195)
Net changes	92,359
Net OPEB obligation - beginning of the year	428,645
Net OPEB obligation - end of year	$ 521,004

Changes of assumptions and other inputs reflect a change in the discount rate from 2.98% as of June 30, 2019, to 2.79% as of June 30, 2020.

Sensitivity of the County's total OPEB liability to changes in the discount rate. The following presents the total OPEB liability of the County, as well as what the County's total OPEB liability would be if it were calculated using a discount rate that is 1 percent higher or lower than the current rate.

	1.0% Decrease (1.79%)	Discount Rate (2.79%)	1.0% Increase (3.79%)
PEBP	$ 588,220	$ 521,004	$ 465,239

Sensitivity of the County's total OPEB liability to changes in the healthcare cost trend rates. The following presents the total OPEB liability of the County, as well as what the County's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percent higher or lower than the current healthcare cost trend rates:

	1.0% Decrease	Discount Rate	1.0% Increase
PEBP	$ 467,646	$ 521,004	$ 583,773

OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2020, the County recognized OPEB expense of $104,686. At June 30, 2020, the County reported deferred inflows and outflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual results	$ 0	$ 0
Changes of assumptions or other inputs	0	0
County Contributions subsequent to measurement date	28,869	0
Total	$ 28,869	$ 0

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

14. Post-Employment Healthcare Plan (Continued)

OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB

$28,869 reported as deferred outflows of resources related to OPEB resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ended June 30, 2021. There were no other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB to be recognized as OPEB expense.

15. Water Delivery Teaming Agreement

The Water District has entered into a water teaming agreement. The purpose of the agreement is to develop a water infrastructure and provide wholesale water to adjoining water districts and/or developers who require water. Investment to develop the water sources are funded by the partner. The Water District is not required to provide funding. Should projects fail, the Water District has no liability for costs incurred by the partner. If the projects are completed and revenues are generated from the sale of water, revenues collected will be applied to the investment of the partner until paid in full for the successful projects. After payment of project expenditures, the Water District will be entitled to 50 percent of remaining monies. Should the Water District withdraw from the agreement, the Water District will be required to reimburse the partner's investment costs. Revenues, if any, from water sales are recorded in the Lincoln County Water District funds.

16. Disposal of Operations – Tri-County Weed Control

On October 1, 2019, the County transferred the assets and liabilities comprising the Tri-County Weed Control operations to White Pine County, Nevada. As a result of the transfer, the County recognized a loss of $516,980 on the disposal of its operations as a special item, which included $313,853 in cash and $203,127 of capital assets. This activity was recorded in the Tri-County Weed Control Special Revenue Fund. During the current year revenues totaled $328,494 and the general government expenditures totaled $186,640.

17. Disposal of Operations – Pioche Public Utility Electric Operations

On October 7, 2019, the County approved the Pioche Town Board's recommendation that it is in the best interest of the residents of the Town of Pioche that the ownership and management of the electrical utility for the Town of Pioche be transferred to the Lincoln County Power District on or before December 1, 2019. As a result of the transfer, the County recognized a loss of $223,875 on the disposal of its operations as a special item, which included a loss of $349,430 of cash and capital assets, a gain of $125,407 on net pension liability, and a gain of $148 on OPEB liability. This activity was recorded in the Pioche Public Utility Electric Enterprise Fund. During the current year operating revenues totaled $260,233, operating expenses totaled $307,103, and non-operating revenues and expenses totaled $27,187.

6/30/2020	2.79
6/30/2019	2.98
6/30/2018	3.13
6/30/2017	2.68

See accompanying notes to required supplementary information.

LINCOLN COUNTY, NEVADA
REQUIRED SUPPLEMENTARY INFORMATION
SCHEDULE OF THE COUNTY'S CONTRIBUTIONS TO THE
PUBLIC EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF NEVADA
For the Year Ended June 30, 2020

Year Ended June 30	Contractually Determined Contributions	Contributions in Relation to the Actuarially Determined Contributions	Contribution Deficiency (Excess)	Covered Employee Payroll	Contributions as a Percentage of Covered Employee Payroll
2014	$ 1,164,559	$ 1,164,559	$ -	$4,098,726	28.41%
2015	1,232,695	1,232,695	-	4,381,264	28.14%
2016	1,321,892	1,321,892	-	4,218,947	31.33%
2017	1,303,882	1,303,882	-	4,687,633	27.82%
2018	647,630	647,630	-	4,770,281	13.58%
2019	636,643	636,643	-	4,712,297	13.51%
2020	651,922	651,922	-	4,925,175	13.24%

Information previous to 2013 is not available.

Beginning with the year-ended 2018, all contributions shown reflect employer-paid contributions only, and employer-paid member contributions are excluded. Actuarially Determined Contributions above are based on actuarially determined contribution rates (employer portion only) from the most recent rate-setting year prior to the year shown, applied to covered payroll for year shown.

See accompanying notes to required supplementary information.

LINCOLN COUNTY, NEVADA
REQUIRED SUPPLEMENTARY INFORMATION
SCHEDULE OF THE COUNTY'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY
PUBLIC EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF NEVADA
For the Year Ended June 30, 2020

Reporting Year Ended June 30:	County's proportion of the net pension liability	County's proportionate share of the net pension liability	County's covered-employee payroll	County's proportionate share of the net pension liability as a percentage of its covered-employee payroll	Plan fiduciary net position as a percentage of the total pension liability
2015	0.08508%	8,866,756	4,098,726	216.33%	76.31%
2016	0.08864%	10,157,192	4,381,264	231.83%	75.10%
2017	0.08800%	11,842,446	4,218,947	280.70%	72.20%
2018	0.08407%	11,180,767	4,687,633	238.52%	74.40%
2019	0.08224%	11,215,383	4,770,281	235.11%	75.20%
2020	0.07859%	10,716,781	4,712,297	227.42%	76.50%

Fiscal year 2015 was the first year of implementation, therefore, only five years are shown.

The County's proportionate share of the net pension liability is based upon the measurment taken on June 30th, of the prior year.

See accompanying notes to required supplementary information.

Note 1 – Explanation of Differences between General Fund (Budgetary Basis) and General Fund (GAAP Basis)

The accompanying Reconciliation of the General Fund (Budgetary Basis) to the General Fund (GAAP Basis) presents balances combined for external financial reporting purposes.

With the implementation of GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the budgetary basis of accounting for the General Fund differs from generally accepted accounting principles (GAAP).

Guidance in GASB Statement 54 changed the definition of Special Revenue Funds for financial reporting purposes. Pursuant to statute, budget comparisons are required using the budget adopted. Six internally reported special revenue funds of the County (Stabilization, Planning, Rachel Jones Memorial Cemetery, Flood Control, Special Projects, Lincoln County Land Act Emergency Disaster, and Lincoln County Water Emergency Disaster) are combined with the General Fund for external reporting purposes to conform with generally accepted accounting principles.

Note 2 – Net Pension Liability

Changes in benefit terms. There have been no changes in benefit terms since the last valuation.

Changes in assumptions. Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period.

Note 3 – Other Post-Employment Benefits Liability

Changes in benefit terms. There have been no changes in benefit terms since the last valuation.

Changes in assumptions. Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period and the change of valuation from the alternative measurement method to the use of an actuary.

MAJOR FUNDS

GENERAL FUND

The General Fund is used to account for resources traditionally associated with government which are not required legally or by sound financial management to be accounted for in another fund.

ROAD FUND

The Road Fund is used to account for revenues and expenditures utilized to maintain County roads.

LINCOLN COUNTY WATER DISTRICT WATER RESOURCES FUND

The Lincoln County Water District Water Resources Fund is used to account for general activities of the District, a blended component unit of the government.

LINCOLN COUNTY LAND ACT SPECIAL USE FUND

The Lincoln County Land Act Special Use Fund is used to account for land sale monies to be spent per County ordinances.

COUNTY GRANT FUND

The County Grant Fund is used to account for state and federal grant monies received to be spent on specified projects.

MAJOR ENTERPRISE FUNDS

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises–where the intent of the County's management is that the costs of providing goods or services be financed or recovered primarily through user charges.

The Detention Center Fund is used to account for revenues and expenses of the Detention Center operations. The County provides inmate beds to other local governments at a daily fee per bed as well as beds for Lincoln County inmates.

Solid Waste Fund is used to account for revenues and expenses of the garbage disposal services throughout the County.

NONMAJOR SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

The Pioche Town, Alamo Town, and Panaca Town Funds are used to account for the activities related to these unincorporated towns.

The Federal in Lieu Tax Fund is used to account for taxes received in lieu of property tax from the Federal Government for property owned by the Federal Government located in the County.

The Resource Development Fund is used to account for grant revenues utilized for economic development.

The Library Funds are used to account for the library services in the County.

The Museum Fund is used to account for operations of the County museum in Pioche, Nevada.

The Senior Nutrition Fund is used to account for federal monies, meal income, and related expenditures incurred to provide meals to senior citizens.

The Transportation Fund is used to account for revenues and expenditures of the senior bus service offered to County residents.

The Agricultural Extension Fund is used to account for services of the state agricultural extension agent.

The Indigent and Medical Indigent Funds are used to account for revenues and expenditures for assistance given to indigents in the County.

The China Springs Fund is used to account for revenues and expenditures pursuant to NRS 62B.150.

The Ambulance Fund is used to account for revenues and expenditures of the ambulance service in Pioche and Meadow Valley.

The Regional Streets and Highways Fund is used for gas taxes collected to be spent on roads.

The Room Tax Fund is used to account for room taxes collected to be spent on the promotion of tourism for the County.

The Legal Aid Fund is used to account for expenditures for senior citizens who cannot afford legal fees.

The Forensic Services fund accounts for fees collected from certain accused criminals for the specific use of forensic lab work performed for Justice Court pursuant to NRS 176.

The Administrative Assessment Fund is used to account for monies used to enhance the justice system.

The Forfeitures Fund is used to account for revenues and expenditures created by the confiscation of assets in the process of enforcing drug laws.

The Recorder Technology Fund is used to account for fees collected and used to enhance the records maintenance in the County Recorder's office.

The L.C. Housing Authority Fund is used to account for low-income housing in Lincoln County.

The Alamo Clinic Fund is used to account for revenues and expenditures in providing medical support in the Alamo area.

The Fair Board Fund is used to account for revenues and expenditures of the fairground.

The Multi-Species Habitat and Multi-Species Habitat Section 7 Funds are used to minimize, monitor, and mitigate the effects of the disruption and taking of habitats of endangered species within Lincoln County.

The Youth Activities Counsel Fund is used to account for funds for youth community support.

The Genetic Marker Testing Fund is used to account for revenues and expenditures related to genetic marker analysis.

The Public Improvement Fund is used to account for revenues and expenditures for the improvement of County properties.

The Airport Fund is used to account for revenues and expenditures for airport operations.

The Panaca Town Building Fund is used to account for revenues and expenditures of the Town.

The Court Facility Fees and District Court Specialty Court Funds are used to account for revenues and expenditures of the court.

The Tri County Weed Control Fund is used to account for revenues and expenditures of Nye, Lincoln, and White Pine Counties' weed control activities.

The Lincoln County Land Act Funds are used to account for revenues received from land sales which are to be spent according to resolution specifications.

The Lincoln County Water Funds are used to account for revenues received for the County's portion of water sales which are to be spent according to resolution specifications.

The Lincoln County Water District Funds are used to account for revenues received from water sales which are to be spent according to resolution specifications. The Lincoln County Water District is a blended component unit of the government.

The Assessor Technology Fund is used to account for fees collected and used to enhance records maintenance in the County Assessor's office.

The District Court Technology Fund is used to account for fees collected and used to enhance records maintenance in the Court's office.

The Court Security Fund is used to account for fees collected and used to enhance security in the Court's office.

The District Court Enrichment Fund is used to account for fees collected and used to enrich the Court's office.

The Demerit Point Reduction Fund is used to account for fees to reduce points from traffic citations and used to fund specialty court programs or pay for court IT upgrades.

The Property Management Fund is used to account for the maintenance activities of real estate of the County that is rented for public use.

NONMAJOR ENTERPRISE FUNDS

The Enterprise Fund are used to account for operations that are financed and operated in a manner similar to private business enterprises–where the intent of the County's management is that the costs of providing goods or services be financed or recovered primarily through user charges.

The Pioche Public Utility Funds are used to account for revenues and expenses of the water, sewer, and electric utility services provided for the residents of Pioche, Nevada.

The Building Department Fund is used to account for revenues and expenses of building inspection services provided for the residents of Pioche, Nevada.

AGENCY FUNDS

Agency funds are used to account for assets held by the government as an agent for individual, private organizations, other governments, and/or other funds.

The Tax Fund is used to account for revenues received from County Treasurer sales of property to satisfy delinquent property taxes. Revenues collected in excess of delinquent taxes and penalties are held for two years. If no claim is made for the monies, the monies may be transferred to the General Fund.

The following funds are used to account for property taxes and other revenues collected by the County on behalf of other government entities. The revenues collected are remitted to the government entities on a periodic basis. State, Caliente City, Caliente City Capital Projects, School General, School Debt Service, Pahranagat Valley Fire District, Pioche Fire District, Pioche Fire District Capital Projects, Television District, Panaca Fire Protection District, Coyote Springs GID, Hospital, Lincoln County Fire Protection District, Pioche Fire District Emergency, Southeastern Lincoln County Habitat Conservation Plan GID, and Lincoln County Fire Protection District Emergency Funds.

The Public Land Trust, Range, and the Fish and Game Funds are used to account for revenues received and expenditures made on behalf of others.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

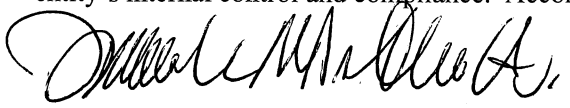
Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated November 25, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.



Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

AUDITOR'S COMMENTS

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

In connection with our audit of the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County) as of and for the year ended June 30, 2020, and the related notes to the financial statements, nothing came to our attention that caused us to believe that the County failed to comply with the specific requirements of Nevada Revised Statutes referenced below insofar as they relate to accounting matters except as noted below. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the County's noncompliance with the requirements of Nevada Revised Statutes noted below, insofar as they relate to accounting matters.

CURRENT YEAR STATUTE COMPLIANCE

Expenditures in Excess of Appropriations

Per NRS 354.626, the County is required to report expenditures that exceeded budgeted appropriations at the function level for the General Fund, Special Revenue Funds, and Capital Project Funds. Enterprise funds may not exceed budget appropriations at the fund level. For the year ending June 30, 2020, the County had the following expenditures over appropriations that are required to be reported.

Alamo Town – Public works function	$	339
Airport – Public works function	$	952
Detention Center Enterprise Fund	$	39,303

The over expenditures in the funds relate to expenses that came in after year end that caused the functions to go over budget.

Deficit Fund Balance/Net Position

Legal Aid Services Fund	$ 3,195
Detention Center Enterprise Fund	$ 2,503,285
Building Department Enterprise Fund	$ 89,397

The deficit net position of the Detention Center and Building Department Enterprise funds are due to the individual fund's proportionate share of the net pension liability of the Public Employees' Retirement System of the State of Nevada of $3,126,874 and $94,488.

PROGRESS ON PRIOR YEAR STATUTE COMPLIANCE

The County had similar findings in the current year as listed above.

CURRENT YEAR RECOMMENDATIONS

We noted no material weakness and reported no significant deficiencies in internal controls.

PRIOR YEAR RECOMMENDATIONS

We noted no material weakness and reported no significant deficiencies in internal controls in the prior year.

NEVADA REVISED STATUTE 354.6115 - STABILIZATION FUND

The County created a stabilization fund in accordance with Nevada Revised Statute 354.6115, "Fund to stabilize operations of local government and mitigate effects of natural disaster". The fund is reported on pages 236 and 237 of the financial statements as an "internally reported (budgetary basis) fund reported as part of the General Fund for external reporting purposes. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements.

NEVADA REVISED STATUTE 354.5989 – BUSINESS LICENSES

Nevada Revised Statutes 354.624.4(a) requires a schedule of all fees imposed by the County which are subject to the provisions of NRS 354.5989 be addressed by the independent auditor. During the year ended June 30, 2020, the County did not raise fees on business licenses subject to the limitation of NRS 354.5989. The County business fee is $40.

NEVADA REVISED STATUTE 354.59815 – CAPITAL PROJECTS FUND (Special Ad Valorem)

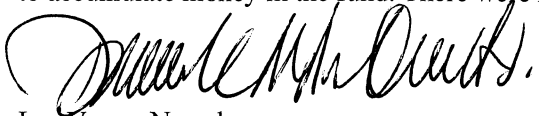
Capital Improvements Fund

The County established the Capital Improvements Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. Projects funded during the year were as follows:

Intergovernmental – Payment to City	$ 8,169
Transfer to the Pioche Town Capital Projects fund	$ 3,502
Transfer to the Alamo Town Capital Projects fund	$ 2,334
Transfer to the Panaca Town Capital Projects fund	$ 4,667
Transfer to the Vehicle Capital Projects fund used to purchase vehicles	$ 110,000

Pioche Town Capital Projects Fund

The County established the Pioche Town Capital Projects Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. Projects funded during the year were as follows:



Maintenance equipment	$ 3,752

Panaca Town Capital Projects Fund

The County established the Panaca Town Capital Projects Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. There were no projects funded during the year.

Alamo Town Capital Projects Fund

The County established the Alamo Town Capital Projects Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. There were no projects funded during the year.

INDEPENDENT AUDITOR'S REPORT

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 5-13, budgetary comparisons information on pages 63-72, Reconciliation of the General Fund (Budgetary Basis) to the General Fund (GAAP Basis) on page 73, Schedule of Changes in the County's Total OPEB Liability and Related Ratios on page 74, Schedule of the County's Contributions to the Public Employees' Retirement System of the State of Nevada on Page 75, and Schedule of the County's Proportionate Share of the Net Pension Liability Public Employees' Retirement System of the State of Nevada on page 76 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit for the year ended June 30, 2020 was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund financial statements and schedules for the year ended June 30, 2020 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements for the year ended June 30, 2020, and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2020.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of the County as of and for the year ended June 30, 2019 (not presented herein), and have issued our report thereon dated November 27, 2019, which contained unmodified opinions on the respective financial statements of the governmental activities, the business activities, each major fund, and the aggregate remaining fund information. The combining and individual fund financial statements and schedules for the year ended June 30, 2019, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2019 financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the 2019 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2019.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 25, 2020 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's in internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Las Vegas, Nevada
November 25, 2020

As management of Lincoln County, Nevada, we offer readers of Lincoln County, Nevada's financial statements this narrative overview and analysis of the financial activities of Lincoln County, Nevada, for the fiscal year end June 30, 2020. The Management's Discussion and Analysis ("MD&A") introduces the financial reports for Lincoln County, Nevada. The MD&A is designed to give the reader an easy-to-understand overview of the County's financial position and results of operations for the year. The MD&A is separated into Financial Highlights, an Overview of the Financial Statements, and a Government-Wide Financial Analysis.

Financial Highlights

The assets of the County exceeded its liabilities at the close of the 2020 fiscal year by $36,124,939 (net position). Total net position represents approximately $25,307,570 in capital assets, net of related debt, and $7,732,560 in assets restricted for debt services, capital projects, public works, and for other purposes. The remaining $2,741,182 represents unrestricted net position, which may be used to meet the County's ongoing obligations to its citizens and creditors.

The government-wide net position of the County decreased during the fiscal year 2020 by $134,885, or 0.38%.

At the end of fiscal year 2020, the County's governmental funds reported combined fund balances of $21,526,362; an increase of $1,351,253, or 6.70%, when compared to the previous year.

The County's primary revenue sources for governmental activities were ad valorem (property) taxes of $3,183,017, fuel taxes of $1,731,672, charges for services of $1,290,248, consolidated taxes of $1,546,075, operating grants and contributions of $1,074,896, and federal in lieu taxes of $974,644. These revenue sources comprised 25.14%, 13.68%, 10.19%, 12.21%, 8.49%, and 7.70% respectively, or 77.41%, of total governmental activities revenues. Business-type activities revenue from charges for services was $3,064,200.

The County's total government-wide expenses were $15,201,341. The greatest expenses were in the General Government $3,727,601, Public Works $2,349,771, and Public Safety $2,248,318 functions. Business-type activities contributed $3,384,680 to total expenses.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements which consists of government-wide financial statements, fund financial statements, and accompanying notes. This report also contains required supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements: The government-wide financial statements are designed to provide readers with a broad overview of the County's finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the County's assets and liabilities with the difference reported as net position. Increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

Overview of the Financial Statements (Continued)

The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave).

The government-wide financial statements report two types of activities: governmental activities and business-type activities. The government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, public safety, public works, judicial, health, sanitation, welfare, community support, culture and recreation, and intergovernmental. The business-type activities include operations of its detention center, utilities, solid waste, and building department operations.

Fund Financial Statements: A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains individual governmental funds. Information is presented separately in the governmental balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Road Fund, Lincoln County Water District Water Resources Fund, Lincoln County Land Act Special Use Fund, and County Grant Fund, each of which is considered to be a major fund. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the combining and individual fund statements and schedules.

The County adopts an annual appropriated budget for each of its governmental funds. A budgetary comparison statement is provided for each of the County's governmental funds to demonstrate compliance with the budget. The budgetary comparison statements for the major governmental funds are presented as required supplementary information; the budgetary comparison statements for all other governmental funds are included in the fund financial statements accompanying information.

Overview of the Financial Statements (Continued)

Proprietary Funds: The County maintains one type of proprietary fund, the Enterprise Fund. The Enterprise Fund is used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses the Enterprise Funds to account for its utility activities, building department activities, solid waste operation, and operation of the detention center.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the utility funds, building department, solid waste, and detention center. The Detention Center and Solid Waste are considered to be major funds of the County.

Fiduciary Funds: Fiduciary funds are used to account for the resources held for the benefit of parties outside of the government; Fiduciary funds are not reported in the government wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The County has two types of fiduciary funds. The Agency Fund reports resources held by the County in a custodial capacity for individuals, private organizations, and other governments. The investment trust fund is an external investment pool operated by the Lincoln County Treasurer.

Notes to Financial Statements: The notes to the financial statements provide additional information that is essential to acquire a full understanding of the data provided in the government-wide and fund financial statements.

Other Information: In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's progress in funding its obligation to provide other post-employment benefits to its employees; and schedules of budgetary comparisons for both the original and final budgets of the General Fund and the various other major County funds.

The combining statements and individual fund schedules referred to earlier in connection with the nonmajor governmental funds are presented immediately following the required supplementary information.

Government-Wide Financial Analysis

Net position of the County as of June 30, 2020, is summarized and analyzed below:

Net Position

	Governmental Activities		Business-type Activities		Total Primary Government	
	2020	**2019**	**2020**	**2019**	**2020**	**2019**
Assets:						
Current and other assets	$22,900,634	$21,203,764	$1,849,656	$1,970,803	$24,750,290	$23,174,567
Net capital assets	22,843,095	23,721,612	2,763,346	2,648,451	25,606,441	26,370,063
Total assets	45,743,729	44,925,376	4,613,002	4,619,254	50,356,731	49,544,630
Deferred outflows of resources:						
Deferred pension charge	1,144,436	1,238,859	455,878	521,732	1,600,314	1,760,591
Deferred OPEB	23,141	35,909	5,728	5,286	28,869	41,195
Total deferred outflows	1,167,577	1,274,768	461,606	527,018	1,629,183	1,801,786
Liabilities:						
Current liabilities	1,538,303	1,318,329	479,781	421,150	2,018,084	1,739,479
Long-term liabilities	7,988,396	8,143,723	4,483,951	4,371,952	12,472,347	12,515,675
Total liabilities	9,526,699	9,462,052	4,963,732	4,793,102	14,490,431	14,255,154
Deferred inflows of resources:						
Deferred pension charge	1,259,668	828,844	454,503	346,221	1,714,171	1,175,065
Net position:						
Invested in capital assets, net of related debt	22,721,713	23,607,589	2,585,857	2,460,332	25,307,570	26,067,921
Restricted	7,721,070	6,383,630	11,490	32,238	7,732,560	6,415,868
Unrestricted	5,682,156	5,918,029	(2,940,974)	(2,485,621)	2,741,182	3,432,408
Total net position	$36,124,939	$35,909,248	$ (343,627)	$ 6,949	$35,781,312	$35,916,197

As noted earlier, net assets may serve over time as a useful indicator of the County's financial position. Assets exceeded liabilities by $35,781,312 as of June 30, 2020, and by $35,916,197 as of June 30, 2019, resulting in a net decrease of $134,885, or 0.38%.

A portion of the County's net assets, 70.73%, reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, etc.), net of any related debt outstanding used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the debt.

The County's restricted net assets of 21.61% represents resources that are subject to external restrictions on how they may be used.

The remaining portion of the County's net assets, 7.66%, is unrestricted and may be used to meet the County's ongoing obligations to citizens and creditors.

At June 30, 2020, the County had positive balances in all three categories of net assets.

Changes in net position of the County are summarized as follows:

	Governmental Activities		Business-type Activities		Total	
	2020	2019	2020	2019	2020	2019
Revenues:						
Program revenues:

Program revenues include charges for services, fines and forfeitures, certain licenses and permits, and both operating and capital grans and contributions. General revenues consist of taxes, rent, investment income, and miscellaneous.

Financial Analysis of the County's Governmental Funds

The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

As of the end of the current fiscal year, the County's governmental funds reported a combined ending fund balance of $21,526,362, an increase of $1,351,253, or 6.70%, from the prior year. Fund balance components have been classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed on the use of the resources of each fund. Restricted fund balance is $7,721,070, or 35.87% of total. Spending of these resources is constrained by externally imposed (statutory, bond covenant, or grantors) limitations on their use. The largest restricted fund balances include $903,800 for multi-species conservation, $1,495,711 for capital projects, and $1,732,809 for public works.

Committed and assigned fund balances combined to represent 63.96% of total fund balance with spending constrained by either the Board of County Commissioners (for committed) or senior management (for assigned). Committed balances in the special revenue funds are primarily due to revenues directed by the Commission to those funds to support programs. The largest committed fund balances include $3,482,561 for the Lincoln County Water District and $3,565,468 for Lincoln County Land Act.

Major Funds

General Fund (Budgetary Basis): The General Fund is the chief operating fund of the County. At the end of the current fiscal year, the fund balance (budgetary basis) of the General Fund was $2,340,945, an increase of $1,387,742, or 145.59%. The General Fund revenues increased by $986,184, or 20.50%. Taxes increased by $28,483, or 1.27%. Intergovernmental increased by $927,602, or 55.30% due to the Coyote Springs dissolution. Charges for services increased by $60,644, or 20.51%, due to increased security contract and recorder fees. Fines and forfeitures decreased $107,353, or 29.66%. Miscellaneous revenues increased $76,429, or 35.70%, mostly due to increase investment income.

Expenditures decreased by $13,242, or 0.30%. General government expenditures decreased by $32,302, or 2.15% due to a decrease in grant administrator and clerk costs. Public safety expenditures increased by $33,974, or 2.00%, due to an increase in service and supplies for the sheriff's office. Judicial expenditures decreased by $24,403, or 2.17% due to a decrease in juvenile officers' wages and benefits.

Road Fund: The fund balance for the fund decreased by $73,505 to $801,769, or 8.40%. The Road fund expenditures increased by $204,973, or 28.76%, due to an increase in wages, benefits and services and supplies expenditures.

Lincoln County Water District Water Resources Fund: The Lincoln County Water District Water Resources Fund balance decreased by $60,028, or 2.11%, from the prior year. This was due to a transfer of $200,000 to the Water District General Fund.

Lincoln County Land Act Special Use Fund: The Lincoln County Land Act Special Use Fund balance decreased by $442,299, or 11.46% from the prior year. This was due to an increase in costs related to the Storm Area 51 event and compensated absence payments related to a reduction in staffing.

County Grant Fund: The County Grant Fund revenues decreased by $203,984, or 18.23%, and expenditures decreased by $151,891, or 13.46%. The decreases were due to receiving less grant monies in the current year.

Financial Analysis of the County's Enterprise Funds

Enterprise Funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the enterprise funds was a deficit of $2,940,974. Total net position for these funds decreased by $350,576 from the prior year.

The **Detention Center Fund**, a major fund, had operating revenues increase by $5,765, or 0.31%, due to an increase in inmate fees. Operating expenses increased by $212,785, or 11.12% due to an increase in salaries and benefits.

The **Solid Waste Fund**, a major fund, had operating revenues decrease by $27,385, or 4.29%, during the year. Operating expenses increased by $48,274, or 9.44%, due to an increase in depreciation expense due to the purchase of new equipment in the prior and current year.

General Fund Budgetary Highlights

The original budget (2019-20 Final Budget) was approved May 20, 2019.

Original budget compared to final budget: During the year there was a need for an amendment to increase original estimated revenues and original budgeted appropriations. There was also a need to make an amendment to reallocate appropriations among departments when it became clearer which departments would actually be charged for certain expenses. Generally, the movement of the appropriations between departments was not significant.

Final budget compared to actual results: The most significant differences for the General Fund were as follows:

Overall, the revenues received were more than budgeted by 19.68% or $953,017. Revenues received in excess of budgeted amounts were 52.94% for intergovernmental, 428.26% for miscellaneous, and 16.23% for licenses and permits. The shortfall in revenue sources was 2.40% for taxes, 6.83% for charges for services, and 29.27% for fines and forfeitures.

A review of actual expenditures compared to the appropriations in the final budget shows expenditures were $493,120 less than budgeted or 10.16%. Expenditures were under budget for all functions of the General Fund - general government 13.86%, public safety 4.50%, judicial 13.73%, and health 0.94%.

Actual fund balance (budgetary basis) of $2,340,945, was $154,352 lower than anticipated to begin the 2020-2021 year.

Capital Assets and Debt Administration

Capital Assets
The County's investment in capital assets, net of accumulated depreciation, at June 30, 2020, was $22,843,095 in governmental activities and $2,763,346 in business-type activities. A summary of changes in capital assets for the year ended June 30, 2020, follows:

Capital Assets (Continued)

Business-type activities assets, net	$ 2,648,451	$ 308,690	$ (193,795)	$ 2,763,346

Major capital asset events during the current fiscal year included the following:

- Building and other improvements for the Airport and Trap Range.
- Equipment for the sheriff, general government, and other culture and recreation equipment.

Debt Administration

Changes in Long-term Debt: During the year ended June 30, 2020, the following changes occurred in long-term debt:

Governmental activities:

	Balance June 30, 2019	Net Additions	Net Deletions	Balance June 30, 2020	Due within One Year
Compensated absences	$ 422,068	$ -	$ 1,907	$ 420,161	$ 236,131
Net pension liability	7,600,013	-	235,186	7,364,827	-
OPEB obligation payable	334,948	71,150	-	406,098	-
Note payable	24,157	-	24,157	-	-
Capital lease payable	86,065	100,300	77,642	108,723	75,282
Total	$ 8,467,251	$ 171,450	$ 338,892	$ 8,299,809	$ 311,413

Business-type activities:

	Balance June 30, 2019	Net Additions	Net Deletions	Balance June 30, 2020	Due within One Year
Compensated absences	$ 227,116	$ -	$ 48,358	$ 178,758	$ 102,835
Net pension liability	3,615,370	-	263,416	3,351,954	-
OPEB obligation payable	93,697	21,209	-	114,906	-
Landfill closure and postclosure costs	60,000	20,000	-	80,000	-
Bond payable	188,119	-	10,630	177,489	3,440
Total	$ 4,184,302	$ 41,209	$ 322,404	$ 3,903,107	$ 106,275

The County's debt decreased by $167,442 for governmental activities during the current fiscal year. The reductions were mainly from a decrease in net pension liability.

The County's debt decreased by $281,195 for business-type activities during the current fiscal year. The primary reason for the decrease was a reduction in estimated compensated absences and net pension liability.

Additional information on the County's long-term debt can be found in (**Note D6**).

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The County approved the budget for the 2020-2021 year on May 18, 2020. The following factors were considered in the development of the budget.

- Assessed valuation for the County decreased and tax rates remained unchanged.
- The County, in planning for the budget year ending June 30, 2021, considered the implications of the Coronavirus (COVID-19) on County operations. Adjustments were made to the budget based on information known at the time of budget approval.

LINCOLN COUNTY, NEVADA
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
June 30, 2020

Total fund balance - governmental funds	**$**	**21,526,362**
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets, net of the related depreciation, are not reported in the Governmental Funds financial statements because they are not current financial resources, but they are reported in the Statement of Net Position.		22,843,095
Other long-term assets which are not available to pay for current period expenditures and, therefore, are deferred in the funds.		160,041
Certain liabilities (such as bonds payable and capital leases payable) are not reported in the Governmental Funds financial statements because they are not due and payable, but they are presented as liabilities in the Statement of Net Position.		(541,543)
The County's other post-employment benefits liabilities as well as other post-employment benefits-related deferred outflows and deferred inflows of resources are recognized in the government-wide statements and include:		
Deferred outflows from other post-employment benefits.		23,141
Total other post-employment benefits liability.		(406,098)
The County's proportionate share of net pension assets and liabilities as well as pension-related deferred outflows and deferred inflows of resources are recognized in the government-wide statements and include:		
Deferred outflows from pension activity		1,144,436
Net pension liability		(7,364,827)
Deferred inflows from pension activity		(1,259,668)
Total net position - governmental activities	**$**	**36,124,939**

LINCOLN COUNTY, NEVADA
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2020

Net Change in Fund Balance - Governmental Funds	**$**	**1,351,253**
Amounts reported for governmental activities in the Statement of Activities are different because:		
Capital outlays to purchase or build capital assets are reported in Governmental Funds financial statements as expenditures. However, for governmental activities those costs are shown in the Statement of Net Position and allocated over the estimated useful lives as annual depreciation expenses in the Statement of Activities.		(878,517)
Property taxes and grant revenues that are collected in the time to pay obligations of the current period are reported as revenue in the fund statements. However, amounts that related to prior periods that first become available in the current period should not be reported as revenue in the statement of activities.		122,386
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and other similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		(6,951)
Generally, expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred.		1,499
Net differences between other post-employment benefits contributions recognized in the fund statement of revenues, expenditures, and changes in fund balances and the Statement of Activities:		
Other post-employment benefits contributions made after measurement date (2020 contributions).		23,141
Net other post-employment benefits expense.		(107,059)
Net differences between pension system contributions recognized in the fund statement of revenues, expenditures, and changes in fund balances and the statement of activities:		
Pension contributions made after measurment date (2020 contributions).		447,504
Net pension expense.		(737,565)
Change in net position of governmental activities	**$**	**215,691**

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

1. Reporting Entity

Lincoln County, Nevada, is governed by an elected five-member board. As required by generally accepted accounting principles, these financial statements present Lincoln County, Nevada (the primary government), and its component units. Blended component units, although legally separate entities are, in substance, part of the County's operations. Thus, blended component units are appropriately presented as funds of the primary government.

2. Blended Component Units

Component units are legally separate organizations for which the County is financially accountable. Lincoln County Water District, Alamo Town, Panaca Town, and Pioche Town are all component units that are part of the County's reporting entity because the County is financially accountable for these entities. Financial accountability is determined primarily by the fact that as the governing body, the County's Board of Commissioners can impose its will on significant aspects of the operations of these entities. These entities are presented as blended component units since the operations of these entities are considered part of County operations.

3. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the County and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities,* which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support.

4. Basis of Presentation - Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the County's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds (enterprise funds), and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

The Statement of Net Position presents the consolidated financial position of the County at year-end, in separate columns, for both governmental and business-type activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or programs are offset by program revenues. Direct expenses are those that are specifically associated with a program or service and are, therefore, clearly identifiable to a particular function. Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other revenues properly not included among program revenues are reported instead as general revenues. This statement provides a net cost or net revenue of specific programs and functions within the County. Those functions with a net cost are generally dependent on general-purpose tax revenues, such as property tax, to remain operational.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the County's funds, including its fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary (enterprise), and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The County reports the following major governmental funds:

General Fund - The General Fund is the County's primary operating fund. It accounts for all financial resources of the general County, except those accounted for in another fund.

Road Fund - The Road Fund is used to account for gas tax revenues allocated for the construction, repair and maintenance of County roads.

Lincoln County Water District Water Resources Fund - The Lincoln County Water District Water Resources Fund is used to account for general activities of the District, a blended component unit of the government.

Lincoln County Land Act Special Use Fund - The Lincoln County Land Act Special Use Fund is used to account for land sale monies to be spent per ordinances.

County Grant Fund - The County Grant Fund is used to account for monies received to be spent on a specified purpose.

The County reports the following major enterprise fund:

Detention Center Fund - The Detention Center fund is used to account for the activities of the Lincoln County Detention Center, providing detention services for local governments within Nevada.

Solid Waste – The Solid Waste fund is used to account for solid waste disposal throughout the County and land fill operations.

Additionally, the County reports the following fiduciary fund:

Investment Trust – The investment trust fund is an external investment pool operated by the Lincoln County Treasurer. Participants include Caliente City, Lincoln County School District, Range, Panaca Fire Protection District, Pahranagat Fire District, Coyote Springs GID, Pioche Fire District, Southeastern Lincoln County Habitat Conservation Plan GID, and the Lincoln County Fire District.

Agency Funds – The Agency Fund is used to account for assets held by the County in an agency capacity for others and cannot be used to support the government's own programs.

During the course of operations, the County has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in the governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Basis of Presentation - Fund Financial Statements (Continued)

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

6. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Gross receipts and sales taxes are considered “measurable” when in the hands of intermediary collecting governments and are then recognized as revenue. The government considers revenues to be “available” if they are collected within 60 days of the end of the current fiscal period. Anticipated refunds of taxes are recorded as liabilities and reductions of revenue when they are measurable and the payment seems certain. In general, expenditures are recorded when liabilities are incurred. The exception to this rule is that principal and interest on debt service, as well as liabilities related to compensated absences and claims and judgments, are recorded when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

The major revenue sources of the County include consolidated taxes (including sales tax), fuel taxes, intergovernmental revenue, and property taxes. Property taxes, sales taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the County.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The principal operating revenues of the Pioche Public Utility funds are customer charges. Operating revenues for the Building fund come from charges for services for building inspections and permits. The Detention Center receives revenue for housing prisoners of other governments. Expenses are those required to provide the service. The Solid Waste fund is used to account for solid waste disposal throughout the County and landfill operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

7. Budgetary Basis of Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for governmental funds.

a. The statutes provide for the following timetable in adoption of budgets:

(i) Before April 15, the County submits to the Nevada State Department of Taxation a tentative budget for the upcoming fiscal year. The tentative budget includes proposed expenditures and the means to finance them.

(ii) A public hearing must be held by the County Commissioners no sooner than the third Monday in May and no later than the last day in May. Notice of the public hearing must be published once in the local newspaper not more than 14 nor less than 7 days before the hearing.

(iii) On or before June 1, the County Commissioners must adopt a final budget.

b. NRS 354.598005 (1) - provides that the County Commissioners may augment the budget at any time by a majority vote of the Commissioners providing the Commission publish notice of its intention to act in a newspaper of general circulation in the County at least three days before the date set for adoption of the resolution.

c. Nevada Revised Statute 354.598005 (5) allows appropriations to be transferred between functions, funds or contingency accounts if such a transfer does not increase the total appropriation for any fiscal year and is not in conflict with other statutory provisions. The County Auditor may transfer appropriations within any function. The County Auditor may also transfer appropriations between functions or programs within a fund, if the County Commissioners are advised of the action at the next regular meeting; and the action is recorded in the official minutes of the meeting. The County Commissioners may authorize the transfer of appropriations between funds or from the contingency account if the County Commissioners announce the transfer of appropriations at a regularly scheduled meeting and sets forth the exact amounts to be transferred and the accounts, functions, programs and funds affected. The County Commissioners must also set forth its reasons for the transfer; and the action must be recorded in the official minutes of the meeting.

d. Statutory regulations require budget control to be exercised at the function level within the funds.

e. The following funds were augmented during the year: County Grants, and Resource Development Funds had automatic budget augmentations for grant revenue. Panaca Town and Ambulance Funds were augmented during the year for higher than anticipated revenues. Vehicle Capital Projects Fund was augmented for capital lease proceeds.

f. Generally, budgets for all funds are adopted in accordance with generally accepted accounting principles. Budgeted amounts reflected in the accompanying financial statements recognize amendments made during the year.

g. All appropriations lapse at the end of the fiscal year.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

a. Cash and Cash Equivalents

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and short term investments with original maturities of three months or less from the date of acquisition. Cash includes cash deposited in interest-bearing accounts at banks and cash in the custody of fiscal agents of the County.

b. Investments

Investments are stated at fair value on the Balance Sheet. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale. Changes in the fair value of County investments are part of investment income which is included in revenue from local sources on the Statement of Activities and the Statement of Revenues, Expenditures, and Changes in Fund Balances of governmental funds. (**See Note D1**)

Nevada Revised Statutes authorize the County to invest in:

1. Obligations of the U.S. Treasury and U.S. Agencies in which the maturity dates do not exceed more than 10 years from the date of purchase.

2. Negotiable certificates of deposit issued by commercial banks or insured savings and loan associations (those over $250,000 must be fully collateralized).

3. Negotiable notes or short-term negotiable bonds issued by local governments within Nevada.

4. Eligible bankers' acceptances that do not exceed 270 days maturity and do not exceed 20 percent of the portfolio.

5. Commercial paper with a rating of A-1 or P-1 that does not exceed 240 days maturity and does not exceed 20 percent of the portfolio.

6. The State of Nevada's Local Government Investment Pool.

7. Repurchase agreements that are collateralized at 102 percent of the repurchase price and do not exceed 90 days maturity. Securities used for collateral must meet the criteria listed above.

8. Money market mutual funds which are rated as "AAA" or its equivalent and invest only in securities issued by the Federal Government, U.S. Agencies, or repurchase agreements fully collateralized by such securities.

9. Obligations issued or unconditionally guaranteed by the International Bank for Reconstruction and Development or obligations publicly issued in the United States by a foreign financial entity registered with the Securities and Exchange Commission, denominated in dollars with a maturity of 5 years or less with a rating of "AA" or better.

c. Property Tax

Taxes on real property are levied on July 1st of each year and are due on the third Monday in July. They can be paid in quarterly installments in August, October, January, and March. In the event of nonpayment, the County Treasurer is authorized to hold the property for two years, subject to redemption upon payment of taxes, penalties, and costs, together with interest at a rate of 10 percent per year from the date the taxes were due until paid. If delinquent taxes are not paid within the two year redemption period, the County Treasurer obtains a deed to the property free of all encumbrances. Upon receipt of a deed, the County Treasurer may sell the property to satisfy the tax lien.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

c. Property Tax (Continued)

Article X, Section 2 of the Constitution of the State of Nevada limits the total taxes levied by all overlapping governmental units within the boundaries of any County (i.e., the County, the County School District, the State and any other City, Town, or Special District) to an amount not to exceed $5 per $100 of assessed valuation of the property being taxed. The Nevada Legislature enacted provisions whereby the combined overlapping tax rate was limited to $3.64 per $100 of assessed valuation.

d. Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

e. Restricted Assets

Certain cash assets of the Enterprise Funds are from revenue for specific use by the Enterprise Funds and are classified as restricted assets because their use is restricted by agreement. **(See Note D5)**

f. Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial individual cost of more than $500 and an estimated useful life in excess of one year.

If purchased or constructed, capital assets are recorded at historical cost or estimated historical cost and updated for additions and retirements during the year. Donated capital assets are valued at their estimated value as of the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Land and construction in progress are not depreciated. The other property, plant and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

Capital Assets	Years
Vehicles	10
Equipment	5-20
Buildings and Improvements	20-50
Infrastructure	25-50

The County is required to report and depreciate new infrastructure assets. Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc. Neither their historical cost nor related depreciation has historically been reported in the financial statements. The County is required to capitalize and report its major general infrastructure assets acquired in fiscal years ending after June 30, 1980. In addition, infrastructure assets acquired before June 30, 1980, that received significant reconstruction must be capitalized.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

g. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows include the County's pension related contributions subsequent to the measurement date but before the end of the fiscal year and changes in proportion of the District's contributions to the County's proportionate contributions.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has only one type of item, which arises only under a modified accrual basis of accounting, which qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source, property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available.

Deferred inflows of resources represent an acquisition of net positon that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. The difference between projected and actual experience and investment earnings are related to the deferred inflows of pensions and the calculation of net pension liability reported on the statement of net position.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Nevada (PERS) and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

h. Governmental Fund Balances:

In the governmental fund financial statements, fund balances are classified as follows:

(i.) **Nonspendable –** Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact, such as inventories and prepaids.

(ii.) **Restricted –** Amounts that can be spent only for a specific purpose because of the state or federal laws, or externally imposed conditions by grantors or creditors.

(iii.) **Committed –**These amounts can only be used for specific purposes as set forth by the County Commissioners. The Commissioners must take formal action (vote approval by the majority), in order to establish an ending fund balance commitment for any specific purpose. Formal Commission action is also required to modify or rescind an established commitment. To be reported as committed, amounts cannot be used for any other purpose unless the Commission takes the same highest level action to remove or change the constraint.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

h. Governmental Fund Balances (Continued):

(iv.) Assigned – Assignments are neither restrictions nor commitments and represent the County's intent to use funds for a specific purpose. These assignments, however, are not legally binding and are meant to reflect intended future use of the County's ending fund balance. Intent can be expressed by the County Commissioners or by the County Auditor.

(v.) Unassigned – All amounts not included in other classifications.

i. Fund Balance Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance.) When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

j. Net Position Policies

In the government-wide statements, net position on the Statement of Net Position includes the following:

(i) Invested in Capital Assets, net of Related Debt

This is the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction, or improvement of those assets.

(ii) Restricted Assets

This is the component of net position that reports the constraints placed on the use of assets by either external parties and/or enabling legislation. Currently, the County restricts assets as follow:

a) NRS 354.598155 Special Ad Valorem Capital Projects
b) NRS 354.6113 Capital Projects Fund
c) NRS 365.190 Road Improvements
d) NRS 354.6115 Budget Stabilization
e) NRS 269 Unincorporated Towns

(iii) Unrestricted

This is the component of net position that is the difference between the assets and liabilities not reported in Invested in Capital Assets, Net of Related Debt and Restricted Assets.

k. Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

l. Comparative Data/Reclassifications

Comparative total data for the prior year has been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the County's financial position and operations. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

m. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

n. Budgetary Stabilization

It is the County's policy to determine the balance or reserve as reasonable and necessary to carry out the purposes of the stabilization fund on a yearly basis. NRS 354.6115 authorizes the creation of a fund to stabilize operations of local governments and mitigate effects of natural disaster. The intent of this policy is to include a portion of the General Fund budgeted ending fund balance that will be restricted to stabilization pursuant to NRS 354.6115. Fund balance that is restricted to stabilization can be used after approval by the board of County Commissioners when total actual revenue falls short of the total anticipated revenue in the General Fund for the fiscal year in which the County uses the money.

9. Revenues and Expenditures/Expenses

a. Compensated Absences

Vested or accumulated vacation and sick leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide financial statements. No expenditure is reported for these amounts in the fund financial statements. (**See Note D6**) Vacation leave and sick leave included in accrued liabilities and recorded as expenditures in governmental fund types is the amount normally liquidated from "available spendable resources."

In proprietary funds, compensated absences are recorded when the liabilities are incurred. In governmental funds, the current portion is recorded as payroll expenditure. The estimated long-term liability for compensated absences is accounted for in the government-wide financial statements.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

9. Revenues and Expenditures/Expenses (Continued)

b. Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

c. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTE B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of certain differences between the governmental funds Balance Sheet and the government-wide Statement of Net Position

The governmental fund balance sheet includes reconciliation between fund balances - total governmental funds and net position - governmental activities as reported in the government-wide statement of net position. One element of the reconciliation explains that "certain liabilities (such as bonds payable and capital leases payable) are not reported in the Governmental funds financial statements because they are not due and payable, but they are presented as liabilities in the statement of net position." The details of this difference are as follows:

Interest payable	$ (12,659)
Capital lease payable	(108,723)
Compensated absences	(420,161)
Net adjustment to reduce fund balance - total governmental funds to arrive at net position - governmental activities	$ (541,543)

NOTE B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

2. Explanation of certain differences between the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the government-wide Statement of Activities

The governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net position of governmental activities as reported in the government-wide Statement of Activities. One element of that reconciliation explains that "Capital outlays to purchase or build capital assets are reported in Governmental Funds financial statements as expenditures. However, for governmental activities those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expense in the statement of activities." The details of this difference are as follows:

Capital outlay	$ 666,737
Book value of disposed assets	(209,407)
Depreciation expense	(1,335,847)
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	$ (878,517)

Another element of that reconciliation states that, "The issuance of long-term debt (i.e., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on Net Position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and other similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items." The details of this difference are as follows:

Capital lease proceeds	$ (100,300)
General obligation debt principal payments	$ 101,799
Net adjustment to increase net change in fund balances – governmental funds to arrive at change in net position of governmental activities	$ 1,499

Another element of that reconciliation states that "Generally, expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred." The details of this difference are as follows:

Accrued interest	$ (8,858)
Compensated absences	1,907
Net adjustment to increase net change in fund balances – governmental funds to arrive at change in net position of governmental activities	$ (6,951)

NOTE C. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

1. Compliance and Accountability

The County conformed to significant statutory requirements regarding financial administrations except as follows:

Per NRS 354.626, the County is required to report expenditures that exceeded budgeted appropriations at the function level for the General Fund, Special Revenue Funds, and Capital Project Funds. Enterprise funds may not exceed budget appropriations at the fund level. For the year ending June 30, 2020, the County had the following expenditures over appropriations that are required to be reported.

Alamo Town – Public works function	$	339
Airport – Public works function	$	952
Detention Center Enterprise Fund	$	39,303

The over expenditures in the funds relate to expenses that came in after year end that caused the functions to go over budget.

2. Deficit Fund Balance/Net Position

Legal Aid Services Fund	$ 3,195
Detention Center Enterprise Fund	$ 2,503,285
Building Department Enterprise Fund	$ 89,397

The deficit net position of the Detention Center and Building Department Enterprise funds are due to the individual fund's proportionate share of the net pension liability of the Public Employees' Retirement System of the State of Nevada. See **Note D-12** of the financial statement.

NOTE D. DETAILED NOTES ON ALL FUNDS

1. Pooled Cash and Investments

The County maintains a cash and investment pool that is available for use by all funds under the custody of the County Treasurer. At June 30, 2020, this pool is displayed by the statement of net position and major and other governmental funds on the governmental funds balance sheet as "Pooled Cash and Investments."

A reconciliation of cash and investments as shown in the Statement of Net Position is as follows:

Cash in the hands of officers	$ 83,750
Carrying amount of deposits	5,092,528
Fair value of investments	21,377,853
Total	$26,554,131

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

1. Pooled Cash and Investments (Continued)

A reconciliation of cash and investments as for the County is as follows:

Government-wide pooled cash and investments	$22,332,121
Restricted cash	94,777
Total primary government	22,426,898
Investment trust fund	3,196,587
Agency fund cash	930,646
Total reporting entity	$26,554,131

Except for financial reporting purposes, the cash balances of $4,127,233 in the Fiduciary Funds are not normally considered part of the County's pooled cash and investments. These amounts represent cash held in a fiduciary capacity by the County and cannot be used in the County's normal operations.

The cash and investment pool is available for use by all funds of the County. Cash and investments under the custody of the County Treasurer are invested as a pool. The County Treasurer may invest the money of the investment pool in investments which have been authorized as investments by Nevada Revised Statutes. (**See Note A8b**)

Investment income is apportioned to the funds within the pool monthly based on the average balance invested for the month.

State statutes authorize the County to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and the State Treasurer's Investment Pool.

Cash and investment are subject to the following risks:

Interest Rate Risk: Interest rate risk is the risk of possible reduction in the value of a security, especially a bond, resulting from the rise in interest rates. Nevada Revised Statutes limits bankers' acceptances to 180 days of maturities, repurchase agreements to 90 days, U.S. Treasuries and Agencies to less than 10 years, and commercial paper to 270 days maturity. The approximate weighted average maturity of investments in the Lincoln County Treasurer's investment pool was 2.20 years.

As of June 30, 2020, monies held in the Lincoln County Treasurer's cash and investment pool are categorized as follows:

		Investment Maturities (In Years)		
Investment Type	Fair Value	Less than 1	1-5	6-10
U.S. Treasury notes	$ 2,597,743	$ 727,525	$ 1,870,218	$ 0
U.S. Agency backed mortgages	1,062,205	0	1,062,205	0
Corporate notes	3,392,332	1,547,284	1,845,048	0
Money market funds	1,046,955	1,046,955	0	0
Negotiable certificates of deposit	13,278,618	1,738,789	11,539,829	0
Total Investments	$21,377,853	$ 5,060,553	$ 16,317,300	$ 0

Governmental Accounting Standards require fair value reporting of all investments. The fair value of the County's investments was determined by market quotes.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

1. Pooled Cash and Investments (Continued)

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation and is a function of the credit quality ratings of its investments. The Nevada Revised Statutes limits investments instruments by their credit risk **(Note A8a)**. The State of Nevada Local Government Investment Pool is an unrated external investment pool.

As of June 30, 2020, monies held in the Lincoln County Treasurer's cash and investment pool are categorized as follows:

		Quality Ratings by Moody's			
Investment Type	Fair Value	Aaa	A2	A3	N/A
U.S. Treasury notes	$ 2,597,743	$ 2,597,743	$ 0	$ 0	$ 0
U.S. Agency backed mortgages	1,062,205	1,062,205	0	0	0
Corporate notes	3,392,332	0	2,046,134	1,346,198	0
Money market funds	1,046,955	0	0	0	1,046,955
Negotiable certificates of deposit	13,278,618	0	0	0	13,278,618
Total Investments	$21,377,853	$ 3,659,948	$2,046,134	$ 1,346,198	$14,325,573

Custodial Credit Risk: Custodial credit risk is the risk that in the event of a bank or brokerage failure, the County's deposits may not be returned. The County's bank deposits are generally covered by FDIC insurance and are collateralized by the Office of the State Treasurer/Nevada Collateral Pool. At year-end, the County's carrying amount of deposits was $5,092,528 and the bank balance was $5,226,510. Of the bank balance, $500,000 was covered by federal depository insurance. Of the remaining balance, $4,726,510 was collateralized with securities held by the Nevada Pooled Collateral Program.

Concentrations of Credit Risk: Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. Investments with a single issuer within the Lincoln County Treasurer Cash and investment pool that represent five percent or more of total investments as of June 30, 2020, are as follows:

U.S. Treasury Notes	12.78%

Fair Value: The County categorize its investments using fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The County has the following recurring fair value measurements as of June 30, 2020:

Investment Type	Fair Value	Level 1	Level 2	N/A
U.S. Treasury notes	$ 2,597,743	$ 2,597,743	$ 0	$ 0
U.S. Agency backed mortgages	1,062,205	0	1,062,205	0
Corporate notes	3,392,332	0	3,392,332	0
Money market mutual funds	1,046,955	0	0	1,046,955
Negotiable certificates of deposit	13,278,618	0	0	13,278,618
Total Investments	$21,377,853	$ 2,597,743	$ 4,454,537	$ 14,325,573

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

1. Pooled Cash and Investments (Continued)

External Investment Pool: The County Treasurer administers an investment pool in accordance with NRS 355.168 combining the County funds with investments from Caliente City, Lincoln County School District, Range, Panaca Fire Protection District, Pahranagat Fire District, Coyote Springs GID, Pioche Fire District, Southeastern Lincoln County Habitat Conservation Plan GID, and the Lincoln County Fire District. The Board of County Commissioners has the overall responsibility of investment of funds including the external investment pool in accordance with NRS 355.175. The Lincoln County Treasurer is delegated investment responsibilities. The fair value of investments is determined monthly as statements from the various investment companies are received. Each participant's share is equal to their original investment plus or minus monthly allocations of interest income and realized and unrealized gains and losses. The County has not provided nor obtained any legally binding guarantees to support the value of the shares.

A summary of investments held in external investment pools at June 30, 2020, is as follows:

Investment Type	Fair Value	Principal Amount	Interest Rate
U.S. Treasury notes	$ 1,297,937	$ 1,275,000	Variable
U.S. Agency backed mortgages	281,911	375,000	Variable

Electric	0
Solid waste	92,762
Detention center	44,287
	$ 179,019

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

4. Accrued Liabilities

Accrued liabilities reported by governmental funds at June 30, 2020, were as follows:

Fund	Accrued Payroll and Benefits	Customer Deposits	Interest Payable
General	$ 220,587	$ -	$ -
Road	50,875	-	-
Lincoln County Land Act Special Use	186,817	-	-
County Grants	19,422	-	-
Other Governmental Funds	33,405	-	-
Detention Center	212,007	-	-
Solid Waste	17,898	-	8,174
Nonmajor Enterprise Funds	15,390	90	1,288
Total	$ 756,401	$ 90	$ 9,462

5. Restricted Assets

The balances of the County's restricted asset accounts are as follows

Cash – Pioche Public Utility –	USDA debt and replacement reserve	$ 11,490
Cash – Solid Waste	Landfill closure, and post-closure	83,287
Total restricted cash		$ 94,777

6. Long-term Debt

Governmental Type Activities:

Note Payable

a. The County borrowed money for the purchase of BLM land. The original principal of the note was $440,000. Payments are due in monthly installments of $4,383 through November 2020, with interest at 5%. The note was paid in full during the year.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

6. Long-term Debt

Governmental Type Activities: (Continued)

Capital Leases

a. The County entered into a lease agreement for 4 public safety vehicles totaling $133,245. The leases have been classified as capital leases according to generally accepted accounting principles. The leases contain non-funding clauses whereby the leases are terminated without penalty should the County fail in a budget year to appropriate money for the payment. The vehicles have a ten-year estimated useful life. This year, $26,649 was included in depreciation expense. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2020, were as follows:

Year Ending June 30,	Remaining Payments	Amount Representing Principal	Amount Representing Interest
2021	$ 47,180	$ 44,153	$ 3,027

b. During the year ending June 30, 2020, the County entered into a lease agreement for 3 public safety vehicles totaling $100,300. The leases have been classified as capital leases according to generally accepted accounting principles. The leases contain non-funding clauses whereby the leases are terminated without penalty should the County fail in a budget year to appropriate money for the payment. The vehicles have a ten-year estimated useful life. This year, $0 was included in depreciation expense. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2020, were as follows:

Year Ending June 30,	Remaining Payments	Amount Representing Principal	Amount Representing Interest
2021	$ 35,792	$ 31,129	$ 4,663
2022	35,792	33,441	2,351
	$ 71,584	$ 64,570	$ 7,014

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

6. Long-term Debt (Continued)

Business-Type Activities:

Revenue Bonds The County issues revenue bonds to provide funds for the acquisition and construction of utility capital assets. Revenue bonds have been issued for the business-type activities. Revenue bonds are an obligation of the enterprise utility funds for which the capital assets were acquired or constructed. Revenue bonds outstanding at June 30, 2020, are as follows:

a. **$210,000, 2007 Pioche Town Sewer bond** is payable to the U.S. Department of Agriculture-Rural Development. The bond is payable in semi-annual payments of $5,584 including interest. The interest rate is 4.375%. The bond agreement requires the County to establish and fund monthly a debt service reserve fund equal to 10% of the semi-annual payment each month over the life of the loan until they accumulate one annual installment. This reserve fund can be used for emergency maintenance and repairs, and debt repayment should the need arise. The required reserve as of June 30, 2020, is $11,490. The balance in the reserve account was $11,490 as of June 30, 2020 **(See Note D-5)**. The outstanding balance of bonds payable at June 30, 2020, was $177,489.

Annual debt service requirements to maturity for the revenue bond are as follows:

Year Ending June 30,	Principal	Interest
2021	$ 3,440	$ 7,728
2022	3,592	7,576
2023	3,751	7,417
2024	3,915	7,253
2025	4,090	7,078
2026-2030	23,337	32,503
2031-2035	28,964	26,876
2036-2040	35,961	19,879
2041-2045	44,648	11,192
2046-2048	25,791	1,669
	$ 177,489	$ 129,171

b. **$350,000, 1980 Pioche Town Water bond** due in monthly installments of $1,729, including interest at 5%, through 2021. The Water bond is payable to the Farmers Home Administration. The bond agreement requires the County to establish and maintain reserves sufficient to insure that loan installments will be paid on time and to pay for emergency maintenance of the facilities. The bond was paid in full during the year and restricted reserves were released.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

6. Long-term Debt (Continued)

Changes in Long-term Debt: During the year ended June 30, 2020, the following changes occurred in long-term debt:

Governmental activities:

	Balance June 30, 2019	Net Additions	Net Deletions	Balance June 30, 2020	Due within One Year
Compensated absences	$ 422,068	$ -	$ 1,907	$ 420,161	$ 236,131
Net pension liability	7,600,013	-	235,186	7,364,827	-
OPEB obligation payable	334,948	71,150	-	406,098	-
Note payable	24,157	-	24,157	-	-
Capital lease payable	86,065	100,300	77,642	108,723	75,282
Total	$ 8,467,251	$ 171,450	$ 338,892	$ 8,299,809	$ 311,413

Business-type activities:

	Balance June 30, 2019	Net Additions	Net Deletions	Balance June 30, 2020	Due within One Year
Compensated absences	$ 227,116	$ -	$ 48,358	$ 178,758	$ 102,835
Net pension liability	3,615,370	-	263,416	3,351,954	-
OPEB obligation payable	93,697	21,209	-	114,906	-
Landfill closure and postclosure cost	60,000	20,000	-	80,000	-
Bond payable	188,119	-	10,630	177,489	3,440
Total	$ 4,184,302	$ 41,209	$ 322,404	$ 3,903,107	$ 106,275

The compensated absence liability will be liquidated primarily by the General Fund. The capital leases will be paid by the Vehicle Capital Projects Fund.

Per Nevada Revised Statute Chapter 244A.059, the debt limitation for the County is equal to 10 percent of the assessed valuation of property, excluding motor vehicles for the current year. The debt limitation currently applicable at June 30, 2020, was $29,072,613. Per Nevada Revised Statutes Chapter 269.425, the debt limitations for the unincorporated towns, which cannot exceed 25% of assessed valuation of property within the town are as follows: Alamo Town $2,566,258, Panaca Town 3,511,663, and Pioche Town $4,548,933.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

7. Interfund Transfers

Interfund operating transfers are made from one fund to another fund to support expenditures in accordance with the authority established for the individual funds. Transfers between fund types during the year ended June 30, 2020, were:

		Transfer Out				
	Total Transfers In	General	Road	LC Water District Water Resources	Nonmajor Special Revenue	Nonmajor Capital Projects
General Fund	$ 75,000	$ -	$ -	$ -	$ 75,000	$ -
Lincoln County Land Act Special Use	151	-	-	-	151	-
County Grant Fund	53,835	-	-	-	53,835	-
Nonmajor Special Revenue Funds	343,308	50,000	-	200,000	93,308	-
Nonmajor Capital Projects Funds	220,503	-	100,000	-	-	120,503
Major Enterprise - Detention Center	60,000	-	-	-	60,000	-
Nonmajor Enterprise Funds	50,000	-	-	-	50,000	-
Total	$ 802,797	$ 50,000	$ 100,000	$ 200,000	$ 332,294	$ 120,503

Following are explanations of certain interfund transfers of significance to the County:

The General Fund transferred money to the following funds: Property Management $40,000 and China Springs $10,000 to help cover costs.

The Road Fund transferred $100,000 to the Road Capital Projects Fund to help cover the costs of a new equipment.

The Federal in Lieu Fund transferred money to the following funds: Building Enterprise Fund $50,000, Detention Center Fund $60,000, and the Planning Fund $75,000 which is internally reported fund in the General Fund. These budgeted transfers were made to help cover operating costs. Transfers were also made for $53,835 to the County Grant Fund, $15,000 to the District Court Specialty Court Fund, and $33,308 to the Senior Nutrition Fund for grant match.

The Lincoln County Water District Fund transferred $200,000 to the Lincoln County Water Resources Fund to help cover operating costs.

The Room Tax Fund transferred $10,000 to the Fair Board Fund to help cover costs.

The Regional Transportation Commission transferred $35,000 to the Transportation Fund for a grant match and to help cover costs.

The Capital Projects Fund transferred money to the following capital projects funds: $110,000 to the Vehicle Capital Projects for assistance with capital asset purchases and debt payments; $10,503 to the Alamo, Panaca, and Pioche Town Capital Projects Funds for distribution of property taxes collected pursuant to Nevada Revised Statutes 354.59815.

The Lincoln County Land Act Grant Match Fund transferred to the Lincoln Count Land Act Special Use Fund $151

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

8. Interfund Receivable / Payable

The Solid Waste Enterprise Fund borrowed monies from two special revenue funds which is being repaid over 10 years. The funds which will receive those payments are as follows:

	Due to		Due from
Lincoln County Land Act Special Use	$ 600,921	Solid Waste Enterprise	$ 770,921
Lincoln County Water Special Use	170,000		
	$ 770,921		

The County purchased the local landfill and created the Solid Waste Enterprise Fund in 2017. To help cover initial costs and have cash available, the Solid Waste Enterprise Fund borrowed monies from two special revenue funds which is being repaid over 10 years at 0% interest.

Annual debt service requirements to maturity for the payable are as follows:

Year Ending June 30,	Principal
2021	$ 40,000
2022	40,000
2023	40,000
2024	40,000
2025	40,000
2026-2027	140,000
	$ 340,000

The County purchased a roll off truck in 2020 for $179,738. To help cover costs and have cash available, the Solid Waste Enterprise Fund borrowed monies from the Lincoln County Land Act Special Use special revenue fund which is being repaid over 10 years at 4% interest.

Annual debt service requirements to maturity for the payable are as follows:

Year Ending June 30,	Remaining Payments	Amount Representing Principal	Amount Representing Interest
2021	$ 22,809	$ 16,244	$ 6,565
2022	22,809	16,894	5,915
2023	22,809	17,570	5,239
2024	22,809	18,272	4,537
2025	22,809	19,003	3,806
2026-2029	83,447	76,136	7,311
	$ 197,492	$ 164,119	$ 33,373

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

8. Interfund Receivable / Payable (Continued)

The County purchased a front load truck in 2020 for $266,802. To help cover costs and have cash available, the Solid Waste Enterprise Fund borrowed monies from the Lincoln County Land Act Special Use special revenue fund which is being repaid over 10 years at 2% interest.

Annual debt service requirements to maturity for the payable are as follows:

Year Ending June 30,	Remaining Payments	Amount Representing Principal	Amount Representing Interest
2021	$ 32,894	$ 27,558	$ 5,336
2022	32,894	23,324	9,570
2023	32,894	24,257	8,637
2024	32,894	25,228	7,666
2025	32,894	26,237	6,657
2026-2030	156,878	140,198	16,680
	$ 321,348	$ 266,802	$ 54,546

9. Unearned Revenue

Governmental funds report unearned revenue in connection with the resources that have been received but not yet earned. At June 30, 2020, the County had the following unearned revenues:

Qualifying expenditures for expenditure-driven grants have not occurred before June 30, 2020.

County Grant	Other Governmental	Total
$ 120,912	$ 95,830	$ 216,742

10. Unavailable Revenue

Delinquent taxes receivable not collected within sixty days after year-end are recorded as deferred inflows of resources as they are not available to pay liabilities of the current period. At June 30, 2020, the County had the following unavailable revenues:

General	Other Governmental	Total
$ 26,513	$ 12,022	$ 38,535

Grants receivable not collected within sixty days after year-end are recorded as deferred inflows of resources as they are not available to pay liabilities of the current period. The following grants receivable have been deferred:

County Grant
$ 121,506

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

11. Risk Management

Property, Casualty, Crime, and Machinery Insurance

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County joined together with other local governments throughout the State of Nevada to create a pool under the Nevada Interlocal Cooperation Act. The Nevada Public Agency Insurance Pool (NPAIP) is a public entity risk pool currently operating as a common risk management and insurance program for members. The County pays an annual premium and specific deductibles, as necessary, to NPAIP for its general insurance coverage. NPAIP is considered a self-sustaining risk pool that will provide liability coverage for its members up to $10,000,000 per event and a $10,000,000 annual aggregate per member. Property, crime, and equipment breakdown coverage is provided to its members up to $300,000,000 per loss with various sub-limits established for earthquake, flood, equipment breakdown, and money and securities. Cyber security events including privacy response expense are covered at $3,000,000 per event with an annual aggregate of $3,000,000. As a participatory member, the maintenance deductible is $2,000 for each insured event.

The County is self-insured for unemployment claims. Payments are made from the general fund to cover claims.

The County participates in the Public Agency Compensation Trust (PACT). Premiums paid to PACT cover workers' compensation claims against the County. Premiums are based on a percentage of wages paid.

The County carries commercial insurance for all other risks of loss including employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

12. Contingent Liabilities

Grants
Amounts received or receivable from grantor agencies are subject to audit and adjustment by those agencies, principally the Federal Government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

Litigation
The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the County's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the County.

Landfill Closure and Post-Closure Costs
State and federal laws and regulations require the County to place a final cover on its landfill sites when it stops accepting waste and to perform certain maintenance and monitoring functions at the sites for thirty years after closure. The closure and post-closure care costs will be paid only near or after the date that the landfills stop accepting waste.

As of June 30, 2020, the estimated liability to date for closure and post-closure costs is $80,000. This represents the cumulative amount reported to date based on percent use of the estimated liability of $1,700,000 as the remaining capacity is used. Actual costs may be higher due to inflation, changes in technology, or changes in regulations. The County operates one landfill with an estimated remaining life of 38 years. As of June 30, 2020, $83,287, has been restricted for future closure, post-closure, and opening landfill costs in the Solid Waste Fund. The County is presently using the "Local Government Test" as financial assurance mechanism for its closure and post-closure costs.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

12. Contingent Liabilities

Coronavirus (COVID-19)

On March 11, 2020, the World Health Organization declared the outbreak of the coronavirus (COVID-19) a pandemic. The President of the United States declared the outbreak of coronavirus a national emergency on March 13, 2020. The related health crisis has adversely affected the global economy, including disruptions to domestic and international travel and the hospitality industry in the State of Nevada.

In response to the Coronavirus pandemic, the Governor of Nevada issued several declarations of emergency to mitigate the health impact of the pandemic. Directives included the closure of gaming establishments, non-essential businesses and onsite dining at restaurants and food establishments.

The outbreak of the Coronavirus and the dramatic steps taken by the Federal government and the State to Nevada to address it will continue to impact national and local economies. The full impact on the State of Nevada and the District's financial condition is not expected to be known for some time. The impact on the District's future operations as a result of the Coronavirus is difficult to predict due to uncertainties relating to it duration and severity, as well as additional actions that may be taken by governmental and other health care authorities to contain or mitigate the effects of the virus. The possible reemergence of the virus later in the year could have an adverse financial effect on the District. The District is continuously monitoring the situation and will take such proactive measures as may be required to maintain operations and meet its obligations. Given the level of uncertainty, management cannot reasonably estimate the actual impact on the District's future financial position at this time.

13. Defined Benefit Pension Plan

Plan Description. All half time and greater County employees are provided pension benefits through the Public Employees' Retirement System of the State of Nevada (PERS), a cost sharing multiple-employer, defined benefit plan administered by the Public Employees' Retirement System of the State of Nevada. PERS provides retirement benefits, disability benefits, and death benefits, including annual cost of living adjustments, to plan members and their beneficiaries. NRS Chapter 286 establishes the benefit provisions provided to the participants of PERS. These benefit provisions may only be amended through legislation. The Public Employees' Retirement System of the State of Nevada issues a publicly available financial report that includes financial statements and required supplementary information for PERS that can be obtained at www.nvpers.org under Quick Links — Publications.

Benefits Provided. Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months. Vested members are entitled to a life-time monthly retirement benefit equal to the service time multiplier (STM) percentages listed below times the member's years of service to a maximum of 30 years. The schedule of Eligibility for Monthly Unreduced Retirement Benefits for regular members and police/fire members are as follows:

Eligibility for Regular Members:

Years of Service	Hired prior to 07/01/01		Hired between 07/01/01-12/31/09		Hired Between 01/01/10-07/01/15		Hired After 7/1/15	
	Age	STM%	Age	STM%	Age	STM%	Age	STM%
5 years	65	2.50%	65	2.67%	65	2.50%	65	2.25%
10 years	60	2.50%	60	2.67%	62	2.50%	62	2.25%
30 years	Any	2.50%	Any	2.67%	Any	2.50%	55	2.25%
33 1/3 years							Any	2.25%

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan (Continued)

Eligibility for Police and Fire Members:

Years of Service	Hired prior to 07/01/01		Hired between 07/01/01-12/31/09		Hired Between 01/01/10-07/01/15		Hired After 7/1/15	
	Age	STM%	Age	STM%	Age	STM%	Age	STM%
5 years	65	2.50%	65	2.67%	65	2.50%	65	2.50%
10 years	55	2.50%	55	2.67%	60	2.50%	60	2.50%
20 years	50	2.50%	50	2.67%	50	2.50%	50	2.50%
25 years	Any	2.50%	Any	2.67%				
30 years					Any	2.50%	Any	2.50%

* Only service performed in a position as a police officer or firefighter may be counted towards eligibility for retirement as Police/Fire accredited service.

Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death. Post-retirement increases are provided by authority of NRS 286.575 - .579.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

Contributions: Benefits for plan members are funded under the employer pay contribution plan. The County is required to contribute all amounts due under the plan. PERS receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450. The County's required contribution rates for the year ending June 30, 2020, were 42.50% for police and fire; 29.25% for regular employees; 45.50% for Justice of the Peace; and 15.25% employee/employer match. The County has fully funded the amounts due for the year ending June 30, 2020. For purposes of GASB No. 82, the County recognized only the employer portion as a deferred outflow.

The actuary funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contribution requirement as a percentage of salary.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the County reported a liability of $10,716,781 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's allocation percentage of the net pension liability was based on the total contributions due on wages paid during the measurement period. Each employer's proportion of the net pension liability is based on their combined employer and member contributions relative to the total combined employer and member contributions for all employers for the period ended June 30, 2019. The County's proportionate share of the net pension liability decreased from 0.08224 percent at June 30, 2018 to 0.07859 at June 30, 2019.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan (Continued)

For the year ended June 30, 2020, the County recognized pension expense of $199,500. At June 30, 2020, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual results	$ 401,867	$ 309,112
Net difference between projected and actual earnings on pension plan investments	0	533,121
Changes in assumption	436,129	0
Changes in proportion	110,396	871,938
County Contributions subsequent to measurement date	651,922	0
Total	$ 1,600,314	$ 1,714,171

$651,922 was reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2021	$(109,544)
2022	(402,402)
2023	(124,139)
2024	(66,206)
2025	(52,917)
2026	(10,571)
	$(765,779)

Actuarial Assumptions: The System's net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.75%
Payroll Growth	Regular: 5.50%
	Police/Fire: 6.50%
Investment Rate of Return	7.50%, including inflation
Productivity pay increase	0.50%
Projected Salary increases	Regular: 4.25% to 9.15%, depending on service
	Police/Fire: 4.55% to 13.90%, depending on service
	Rates include inflation and productivity increases
Other assumptions	Same as those used in the June 30, 2019 funding actuarial valuation

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan (Continued)

Mortality rates were based on the following:

Healthy:	Headcount-Weighted RP-2014 Annuitant Table projected to 2020 with Scale MP-2016, set forward one year for spouses and beneficiaries.
Disabled:	Headcount-Weighted RP-2014 Disabled Retiree Table, set forward four years.
Pre-Retirement	Headcount-Weighted RP-2014 Employee Table, projected to 2020 with Scale MP-2016

Actuarial assumptions used in the June 30, 2019 valuation were based on the results of the experience study for the period of July 1, 2012 through June 30, 2016. The System's policies which determine the investment portfolio target asset allocation are established by the Public Employees' Retirement Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System.

The following was the Board adopted policy target asset allocation as of June 30, 2019:

Asset Class	Target Allocation	Long-Term Geometric Expected Real Rate of Return*
U.S. Stock	42%	5.50%
International Stock	18%	5.50%
U.S. Bonds	28%	0.75%
Private Markets	12%	6.65%

*As of June 30, 2019, PERS' long-term inflation assumption was 2.75%

Discount Rate: The discount rate used to measure the total pension liability was 7.50% as of June 30, 2019. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the pension plan's fiduciary net position at June 30, 2019, was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2019.

Sensitivity of the County's proportionate share of the net pension liability to change in the discount rate: The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percent higher or lower than the current rate.

	1.0% Decrease (6.5%)	Discount Rate (7.5%)	1.0% Increase (8.5%)
County's proportionate share of the net pension liability	$ 16,593,209	$ 10,716,781	$ 5,831,470

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan (Continued)

Pension Plan Fiduciary Net Position: Detailed information about the pension plan's fiduciary net position is available in the PERS Comprehensive Annual Financial Report, available on the PERS website.

Pension contributions payable: At June 30, 2020, the County reported payables to the defined benefit pension plan of $62,341 for legally required employer contributions which had not yet been remitted to PERS.

14. Post-Employment Healthcare Plan

Plan Description: The County subsidizes eligible retirees' contributions to the Public Employees' Benefits Plan (PEBP), an agent multiple-employer defined benefit postemployment health care plan administered by the State of Nevada. The plan provides medical, vision, dental and life insurance benefits to eligible retired County employees and beneficiaries. NRS 287.041 assigns the authority to establish and amend benefit provisions to the PEBP nine-member board of trustees. The plan is now closed to current County retirees. However, County employees who previously met the eligibility requirement for retirement within the Nevada Public Employees' Retirement System had the option upon retirement to enroll in coverage under the PEBP and the subsidy provided by the County was determined by their number of years of service. The PEBP issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employee's Benefits Program, 901 S. Stewart Street, Suite 1001, Carson City, NV 89701, by calling (775) 684-7000, or by accessing the website at https://pebp.state.nv.us under Resources – Fiscal & Utilization Reports.

Employees covered by benefit terms. At June 30, 2020, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	22
Inactive employees entitled to but not yet receiving benefit payments	0
Active employees	0
	22

Funding Policy NRS 287.046 establishes the subsidies to be contributed toward the premium costs of the eligible retired County employees. As noted above, the County policy is to only fund retirees who retired prior to July 1, 2009. Plan members receiving benefits have their monthly contributions deducted from their pension checks based on the health plan chosen by the retiree as reduced by the amount of the subsidy. Effective July 2015, the subsidy provided to pre-Medicare retirees varies based on the type of plan selected (PPO or HMO) and by the level of coverage taken (e.g., single, two party, family, etc.). The chart below shows our understanding of monthly amounts currently payable for those with 15 years of PERS service.

Coverage Level	PPO CDHP		Statewide EPO/HMO	
	Base Subsidy	SB 552 Subsidy	Base Subsidy	SB 552 Subsidy
	15 Years of Service			
Retiree Only	$ 813.80	$163.65	$ 398.00	$ (11.66)
Retiree + Spouse	1,389.86	419.51	630.93	(28.22)
Retiree + Child(ren)	1,212.52	384.79	527.69	(5.39)
Retiree + Family	1,788.58	640.65	760.62	(21.95)

All Medicare eligible retirees participate in a Medicare Exchange with PEBP providing a service related contribution to a Health Reimbursement Arrangement (HRA) equal to $13 per month per year of service (maximum $260 per month). The contribution requirements of plan members and the County are established and amended by the PEBP board of trustees. As a participating employer, the County is billed for the subsidy on a monthly basis and is legally required under NRS 287.023 to provide for it.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

14. Post-Employment Healthcare Plan (Continued)

For fiscal year 2020, the County contributed $28,869 to the plan for current premiums. The County did not prefund any future benefits.

Important Dates used in the Valuation:

Valuation Date:	June 30, 2019
Measurement Date:	June 30, 2019
Measurement Period:	June 30, 2018 to June 30, 2019
Fiscal Year End:	June 30, 2020

Significant Results and Differences from the Prior Valuation:

There were no changes in benefit terms from the prior valuation. Updates were made to the discount rate, to the mortality assumptions, and to assumed future healthcare trends. Differences between projected and actual results were recognized as plan experience.

Total Other Post-Employment Benefits (OPEB) Liability

The County's OPEB liability of $521,004 was measured as of June 30, 2019 and determined by actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs: The total OPEB liability in the June 30, 2019, actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement:

	PEBP
Inflation rate	2.50%
Salary Increase	Not applicable; there are no active employees in this plan.
Discount Rate	2.79%
Healthcare Cost Trend Rates	Pre-Medicare: 5.40% fluctuating down to 4.50% by 2076. Post-Medicare: 4.50% for all years.
Retirees' share of benefit-related costs	0%

The discount rate was based on the S & P General Obligation Municipal Bond 20 year High Grade Index.

Mortality rates were based on the NVPERS 2019 experience study with improvements using the Macleod Watts Scale for 2020.

Actuarial assumptions used in the June 30, 2020, valuation were based on the results of an actuarial experience study for the period of June 30, 2019, to June 30, 2020.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

14. Post-Employment Healthcare Plan (Continued)

Changes in the Total OPEB Liability

	PEBP
Service cost	$ 0
Interest	12,160
Changes of benefit terms	0
Differences between expected and actual experience	117,649
Changes in assumptions or other inputs	3,745
Benefit payments	(41,195)
Net changes	92,359
Net OPEB obligation - beginning of the year	428,645
Net OPEB obligation - end of year	$ 521,004

Changes of assumptions and other inputs reflect a change in the discount rate from 2.98% as of June 30, 2019, to 2.79% as of June 30, 2020.

Sensitivity of the County's total OPEB liability to changes in the discount rate. The following presents the total OPEB liability of the County, as well as what the County's total OPEB liability would be if it were calculated using a discount rate that is 1 percent higher or lower than the current rate.

	1.0% Decrease (1.79%)	Discount Rate (2.79%)	1.0% Increase (3.79%)
PEBP	$ 588,220	$ 521,004	$ 465,239

Sensitivity of the County's total OPEB liability to changes in the healthcare cost trend rates. The following presents the total OPEB liability of the County, as well as what the County's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percent higher or lower than the current healthcare cost trend rates:

	1.0% Decrease	Discount Rate	1.0% Increase
PEBP	$ 467,646	$ 521,004	$ 583,773

OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2020, the County recognized OPEB expense of $104,686. At June 30, 2020, the County reported deferred inflows and outflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual results	$ 0	$ 0
Changes of assumptions or other inputs	0	0
County Contributions subsequent to measurement date	28,869	0
Total	$ 28,869	$ 0

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

14. Post-Employment Healthcare Plan (Continued)

OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB

$28,869 reported as deferred outflows of resources related to OPEB resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ended June 30, 2021. There were no other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB to be recognized as OPEB expense.

15. Water Delivery Teaming Agreement

The Water District has entered into a water teaming agreement. The purpose of the agreement is to develop a water infrastructure and provide wholesale water to adjoining water districts and/or developers who require water. Investment to develop the water sources are funded by the partner. The Water District is not required to provide funding. Should projects fail, the Water District has no liability for costs incurred by the partner. If the projects are completed and revenues are generated from the sale of water, revenues collected will be applied to the investment of the partner until paid in full for the successful projects. After payment of project expenditures, the Water District will be entitled to 50 percent of remaining monies. Should the Water District withdraw from the agreement, the Water District will be required to reimburse the partner's investment costs. Revenues, if any, from water sales are recorded in the Lincoln County Water District funds.

16. Disposal of Operations – Tri-County Weed Control

On October 1, 2019, the County transferred the assets and liabilities comprising the Tri-County Weed Control operations to White Pine County, Nevada. As a result of the transfer, the County recognized a loss of $516,980 on the disposal of its operations as a special item, which included $313,853 in cash and $203,127 of capital assets. This activity was recorded in the Tri-County Weed Control Special Revenue Fund. During the current year revenues totaled $328,494 and the general government expenditures totaled $186,640.

17. Disposal of Operations – Pioche Public Utility Electric Operations

On October 7, 2019, the County approved the Pioche Town Board's recommendation that it is in the best interest of the residents of the Town of Pioche that the ownership and management of the electrical utility for the Town of Pioche be transferred to the Lincoln County Power District on or before December 1, 2019. As a result of the transfer, the County recognized a loss of $223,875 on the disposal of its operations as a special item, which included a loss of $349,430 of cash and capital assets, a gain of $125,407 on net pension liability, and a gain of $148 on OPEB liability. This activity was recorded in the Pioche Public Utility Electric Enterprise Fund. During the current year operating revenues totaled $260,233, operating expenses totaled $307,103, and non-operating revenues and expenses totaled $27,187.

2016	0.08864%	10,157,192	4,381,264	231.83%	75.10%
2017	0.08800%	11,842,446	4,218,947	280.70%	72.20%
2018	0.08407%	11,180,767	4,687,633	238.52%	74.40%
2019	0.08224%	11,215,383	4,770,281	235.11%	75.20%
2020	0.07859%	10,716,781	4,712,297	227.42%	76.50%

Fiscal year 2015 was the first year of implementation, therefore, only five years are shown.

The County's proportionate share of the net pension liability is based upon the measurment taken on June 30th, of the prior year.

See accompanying notes to required supplementary information.

Note 1 – Explanation of Differences between General Fund (Budgetary Basis) and General Fund (GAAP Basis)

The accompanying Reconciliation of the General Fund (Budgetary Basis) to the General Fund (GAAP Basis) presents balances combined for external financial reporting purposes.

With the implementation of GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the budgetary basis of accounting for the General Fund differs from generally accepted accounting principles (GAAP).

Guidance in GASB Statement 54 changed the definition of Special Revenue Funds for financial reporting purposes. Pursuant to statute, budget comparisons are required using the budget adopted. Six internally reported special revenue funds of the County (Stabilization, Planning, Rachel Jones Memorial Cemetery, Flood Control, Special Projects, Lincoln County Land Act Emergency Disaster, and Lincoln County Water Emergency Disaster) are combined with the General Fund for external reporting purposes to conform with generally accepted accounting principles.

Note 2 – Net Pension Liability

Changes in benefit terms. There have been no changes in benefit terms since the last valuation.

Changes in assumptions. Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period.

Note 3 – Other Post-Employment Benefits Liability

Changes in benefit terms. There have been no changes in benefit terms since the last valuation.

Changes in assumptions. Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period and the change of valuation from the alternative measurement method to the use of an actuary.

MAJOR FUNDS

GENERAL FUND

The General Fund is used to account for resources traditionally associated with government which are not required legally or by sound financial management to be accounted for in another fund.

ROAD FUND

The Road Fund is used to account for revenues and expenditures utilized to maintain County roads.

LINCOLN COUNTY WATER DISTRICT WATER RESOURCES FUND

The Lincoln County Water District Water Resources Fund is used to account for general activities of the District, a blended component unit of the government.

LINCOLN COUNTY LAND ACT SPECIAL USE FUND

The Lincoln County Land Act Special Use Fund is used to account for land sale monies to be spent per County ordinances.

COUNTY GRANT FUND

The County Grant Fund is used to account for state and federal grant monies received to be spent on specified projects.

MAJOR ENTERPRISE FUNDS

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises–where the intent of the County's management is that the costs of providing goods or services be financed or recovered primarily through user charges.

The Detention Center Fund is used to account for revenues and expenses of the Detention Center operations. The County provides inmate beds to other local governments at a daily fee per bed as well as beds for Lincoln County inmates.

Solid Waste Fund is used to account for revenues and expenses of the garbage disposal services throughout the County.

Net cash provided (used) by operating activities	$ 172,774	$ 180,909

NONMAJOR SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

The Pioche Town, Alamo Town, and Panaca Town Funds are used to account for the activities related to these unincorporated towns.

The Federal in Lieu Tax Fund is used to account for taxes received in lieu of property tax from the Federal Government for property owned by the Federal Government located in the County.

The Resource Development Fund is used to account for grant revenues utilized for economic development.

The Library Funds are used to account for the library services in the County.

The Museum Fund is used to account for operations of the County museum in Pioche, Nevada.

The Senior Nutrition Fund is used to account for federal monies, meal income, and related expenditures incurred to provide meals to senior citizens.

The Transportation Fund is used to account for revenues and expenditures of the senior bus service offered to County residents.

The Agricultural Extension Fund is used to account for services of the state agricultural extension agent.

The Indigent and Medical Indigent Funds are used to account for revenues and expenditures for assistance given to indigents in the County.

The China Springs Fund is used to account for revenues and expenditures pursuant to NRS 62B.150.

The Ambulance Fund is used to account for revenues and expenditures of the ambulance service in Pioche and Meadow Valley.

The Regional Streets and Highways Fund is used for gas taxes collected to be spent on roads.

The Room Tax Fund is used to account for room taxes collected to be spent on the promotion of tourism for the County.

The Legal Aid Fund is used to account for expenditures for senior citizens who cannot afford legal fees.

The Forensic Services fund accounts for fees collected from certain accused criminals for the specific use of forensic lab work performed for Justice Court pursuant to NRS 176.

The Administrative Assessment Fund is used to account for monies used to enhance the justice system.

The Forfeitures Fund is used to account for revenues and expenditures created by the confiscation of assets in the process of enforcing drug laws.

The Recorder Technology Fund is used to account for fees collected and used to enhance the records maintenance in the County Recorder's office.

The L.C. Housing Authority Fund is used to account for low-income housing in Lincoln County.

The Alamo Clinic Fund is used to account for revenues and expenditures in providing medical support in the Alamo area.

The Fair Board Fund is used to account for revenues and expenditures of the fairground.

The Multi-Species Habitat and Multi-Species Habitat Section 7 Funds are used to minimize, monitor, and mitigate the effects of the disruption and taking of habitats of endangered species within Lincoln County.

The Youth Activities Counsel Fund is used to account for funds for youth community support.

The Genetic Marker Testing Fund is used to account for revenues and expenditures related to genetic marker analysis.

The Public Improvement Fund is used to account for revenues and expenditures for the improvement of County properties.

The Airport Fund is used to account for revenues and expenditures for airport operations.

The Panaca Town Building Fund is used to account for revenues and expenditures of the Town.

The Court Facility Fees and District Court Specialty Court Funds are used to account for revenues and expenditures of the court.

The Tri County Weed Control Fund is used to account for revenues and expenditures of Nye, Lincoln, and White Pine Counties' weed control activities.

The Lincoln County Land Act Funds are used to account for revenues received from land sales which are to be spent according to resolution specifications.

The Lincoln County Water Funds are used to account for revenues received for the County's portion of water sales which are to be spent according to resolution specifications.

The Lincoln County Water District Funds are used to account for revenues received from water sales which are to be spent according to resolution specifications. The Lincoln County Water District is a blended component unit of the government.

The Assessor Technology Fund is used to account for fees collected and used to enhance records maintenance in the County Assessor's office.

The District Court Technology Fund is used to account for fees collected and used to enhance records maintenance in the Court's office.

The Court Security Fund is used to account for fees collected and used to enhance security in the Court's office.

The District Court Enrichment Fund is used to account for fees collected and used to enrich the Court's office.

The Demerit Point Reduction Fund is used to account for fees to reduce points from traffic citations and used to fund specialty court programs or pay for court IT upgrades.

The Property Management Fund is used to account for the maintenance activities of real estate of the County that is rented for public use.

NONMAJOR CAPITAL PROJECTS FUNDS

Capital Projects Funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds.

The Capital Improvements Fund is used to account for the acquisition and construction of fixed assets in Lincoln County.

The Pioche Town Grant Fund is used to account for the acquisition and construction of fixed assets for the unincorporated town of Pioche, Nevada.

The Pioche Town, Alamo Town, and Panaca Town Funds are used to account for the capital acquisition tax levy.

The Ambulance Fund is used to account for monies being accumulated for the purchase of County ambulances.

The Fair Board Fund is used to account for revenues and expenditures for future fairground improvements.

The Vehicle Capital Projects Fund is used to account for the lease/purchase of equipment and vehicles for various County departments.

The Road Equipment Fund is used to account for monies transferred from the road fund to be accumulated and used for the purchase of heavy road equipment.

The Airport Fund is used to account for construction of facilities at the airport in Panaca, Nevada.

The Lincoln County Land Act Fund is used to account for land sale monies for capital purchases for the County.

The Lincoln County Water Fund is used to account for monies received for the County's portion of water sales within the district to be spent on capital purchases for the County.

The Lincoln County Water District Fund is used to account for monies received for water sales within the district to be spent on capital purchases for the Water District, which is a blended component unit of the County.

NONMAJOR ENTERPRISE FUNDS

The Enterprise Fund are used to account for operations that are financed and operated in a manner similar to private business enterprises–where the intent of the County's management is that the costs of providing goods or services be financed or recovered primarily through user charges.

The Pioche Public Utility Funds are used to account for revenues and expenses of the water, sewer, and electric utility services provided for the residents of Pioche, Nevada.

The Building Department Fund is used to account for revenues and expenses of building inspection services provided for the residents of Pioche, Nevada.

AGENCY FUNDS

Agency funds are used to account for assets held by the government as an agent for individual, private organizations, other governments, and/or other funds.

The Tax Fund is used to account for revenues received from County Treasurer sales of property to satisfy delinquent property taxes. Revenues collected in excess of delinquent taxes and penalties are held for two years. If no claim is made for the monies, the monies may be transferred to the General Fund.

The following funds are used to account for property taxes and other revenues collected by the County on behalf of other government entities. The revenues collected are remitted to the government entities on a periodic basis. State, Caliente City, Caliente City Capital Projects, School General, School Debt Service, Pahranagat Valley Fire District, Pioche Fire District, Pioche Fire District Capital Projects, Television District, Panaca Fire Protection District, Coyote Springs GID, Hospital, Lincoln County Fire Protection District, Pioche Fire District Emergency, Southeastern Lincoln County Habitat Conservation Plan GID, and Lincoln County Fire Protection District Emergency Funds.

The Public Land Trust, Range, and the Fish and Game Funds are used to account for revenues received and expenditures made on behalf of others.

See accompanying notes to Schedule of Expenditures of Federal Awards.

NOTE 1 - BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of Lincoln County, Nevada (the county) under programs of the federal government for the year ended June 30, 2020. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position, changes in net position, or cash flows of Lincoln County, Nevada.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Governmental fund types account for the County's federal grant activity. Therefore, expenditures in the schedule of expenditures of federal awards are recognized on the modified accrual basis – when they become a demand on the on current available financial resources. The County's summary of significant accounting policies is presented in Note A in the County's basic financial statements.

Grant Pass-through entity identifying numbers are presented where available.

NOTE 3 – INDIRECT COST RATE

Lincoln County, Nevada has elected not to use the 10% De Minimis indirect cost rate allowed under the Uniform Guidelines.

NOTE 4 - FOOD DISTRIBUTION

Non-monetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. At June 30, 2020 the County had food commodities totaling $0.00 in inventory.

NOTE 5 - U.S. DEPARTMENT OF AGRICULTURE

The County issued a single registered Water Revenue bond purchased by the U.S. Department of Agriculture (CFDA 10.760). The following is a summary of activity for the year:

Balance at July 1, 2019	Additions	Deletions	Balance at June 30, 2020
$ 7,336	$	$ 7,336	$ 0

The County issued a single registered Sewer Revenue bond purchased by the U.S. Department of Agriculture (CFDA 10.760). The following is a summary of activity for the year:

Balance at July 1, 2019	Additions	Deletions	Balance at June 30, 2020
$ 180,783	$ 0	$ 3,294	$ 177,489

NOTE 6 – RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

Expenditures of federal awards have been included in the individual funds of the County as follows:

General Fund	$ 149,461
Major Special Revenue Fund - Road	14,947
Major Special Revenue Fund - Land Act Special Use	10,871
Major Special Revenue Fund - County Grant	793,928
Nonmajor Special Revenue Funds	1,306,409
Nonmajor Capital Projects Funds	102
Agency Funds	47,503
	$ 2,323,221

NOTE 7 – SUBRECIPIENTS

Lincoln County, Nevada provided federal awards to subrecipients as follows:

Program Title	CFDA Number	Federal Subrecipient Expenditures
Lincoln County Fire Protection District:		
Coronavirus Relief Fund	21.019	$ 7,032

LINCOLN COUNTY, NEVADA

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated November 25, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

Report on Compliance for Each Major Federal Program

We have audited Lincoln County, Nevada's (the County) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended June 30, 2020. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the County as of and for the year ended June 30, 2020, and have issued our report thereon dated November 25, 2020, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

AUDITOR'S COMMENTS

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

In connection with our audit of the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County) as of and for the year ended June 30, 2020, and the related notes to the financial statements, nothing came to our attention that caused us to believe that the County failed to comply with the specific requirements of Nevada Revised Statutes referenced below insofar as they relate to accounting matters except as noted below. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the County's noncompliance with the requirements of Nevada Revised Statutes noted below, insofar as they relate to accounting matters.

CURRENT YEAR STATUTE COMPLIANCE

Expenditures in Excess of Appropriations

Per NRS 354.626, the County is required to report expenditures that exceeded budgeted appropriations at the function level for the General Fund, Special Revenue Funds, and Capital Project Funds. Enterprise funds may not exceed budget appropriations at the fund level. For the year ending June 30, 2020, the County had the following expenditures over appropriations that are required to be reported.

Alamo Town – Public works function	$	339
Airport – Public works function	$	952
Detention Center Enterprise Fund	$	39,303

The over expenditures in the funds relate to expenses that came in after year end that caused the functions to go over budget.

Deficit Fund Balance/Net Position

Legal Aid Services Fund	$	3,195
Detention Center Enterprise Fund	$	2,503,285
Building Department Enterprise Fund	$	89,397

The deficit net position of the Detention Center and Building Department Enterprise funds are due to the individual fund's proportionate share of the net pension liability of the Public Employees' Retirement System of the State of Nevada of $3,126,874 and $94,488.

PROGRESS ON PRIOR YEAR STATUTE COMPLIANCE

The County had similar findings in the current year as listed above.

CURRENT YEAR RECOMMENDATIONS

We noted no material weakness and reported no significant deficiencies in internal controls.

PRIOR YEAR RECOMMENDATIONS

We noted no material weakness and reported no significant deficiencies in internal controls in the prior year.

NEVADA REVISED STATUTE 354.6115 - STABILIZATION FUND

The County created a stabilization fund in accordance with Nevada Revised Statute 354.6115, "Fund to stabilize operations of local government and mitigate effects of natural disaster". The fund is reported on pages 236 and 237 of the financial statements as an "internally reported (budgetary basis) fund reported as part of the General Fund for external reporting purposes. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements.

NEVADA REVISED STATUTE 354.5989 – BUSINESS LICENSES

Nevada Revised Statutes 354.624.4(a) requires a schedule of all fees imposed by the County which are subject to the provisions of NRS 354.5989 be addressed by the independent auditor. During the year ended June 30, 2020, the County did not raise fees on business licenses subject to the limitation of NRS 354.5989. The County business fee is $40.

NEVADA REVISED STATUTE 354.59815 – CAPITAL PROJECTS FUND (Special Ad Valorem)

Capital Improvements Fund

The County established the Capital Improvements Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. Projects funded during the year were as follows:

Intergovernmental – Payment to City	$	8,169
Transfer to the Pioche Town Capital Projects fund	$	3,502
Transfer to the Alamo Town Capital Projects fund	$	2,334
Transfer to the Panaca Town Capital Projects fund	$	4,667
