INDEPENDENT AUDITOR'S REPORT

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

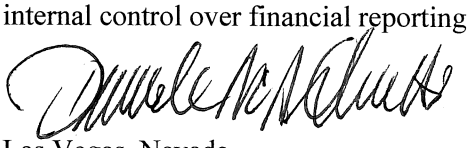
Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5-13, budgetary comparisons information on pages 61-71, Reconciliation of the General Fund (Budgetary Basis) to the General Fund (GAAP Basis) on page 72, Schedule of Changes in the County's Total OPEB Liability and Related Ratios on page 73, Schedule of the County's Contributions to the Public Employees' Retirement System of the State of Nevada on Page 74, and Schedule of the County's Proportionate Share of the Net Pension Liability Public Employees' Retirement System of the State of Nevada on page 75 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.



The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

Comparative Prior Year Information

We also have previously audited, in accordance with auditing standards generally accepted in the United States of America, the County's basic financial statements for the year ended June 30, 2018, which are not presented with the accompanying financial statements and we expressed unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information. That audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements as a whole. The combining and individual fund financial statements and schedules, for the year ended June 30, 2018, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2018 basic financial statements. The information has been subjected to the auditing procedures applied in the audit of those basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2018 combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements from which they have been derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 27, 2019 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness in internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Las Vegas, Nevada
November 27, 2019

As management of Lincoln County, Nevada, we offer readers of Lincoln County, Nevada's financial statements this narrative overview and analysis of the financial activities of Lincoln County, Nevada, for the fiscal year end June 30, 2019. The Management's Discussion and Analysis ("MD&A") introduces the financial reports for Lincoln County, Nevada. The MD&A is designed to give the reader an easy-to-understand overview of the County's financial position and results of operations for the year. The MD&A is separated into Financial Highlights, an Overview of the Financial Statements, and a Government-Wide Financial Analysis.

Financial Highlights

The assets of the County exceeded its liabilities at the close of the 2019 fiscal year by $35,916,197 (net position). Total net position represents approximately $26,067,921 in capital assets, net of related debt, and $6,415,868 in assets restricted for debt services, capital projects, public works, and for other purposes. The remaining $3,432,408 represents unrestricted net position, which may be used to meet the County's ongoing obligations to its citizens and creditors.

The government-wide net position of the County increased during the fiscal year 2019 by $1,369,539, or 3.96%.

At the end of fiscal year 2019, the County's governmental funds reported combined fund balances of $20,175,109; an increase of $1,169,958, or 6.16%, when compared to the previous year.

The County's primary revenue sources for governmental activities were ad valorem (property) taxes of $3,138,259, fuel taxes of $1,843,255, charges for services of $1,817,359, consolidated taxes of $1,508,040, operating grants and contributions of $1,012,094, and federal in lieu taxes of $932,088. These revenue sources comprised 26.35%, 15.48%, 15.26%, 12.66%, 8.50%, and 7.83% respectively, or 86.08%, of total governmental activities revenues. Business-type activities revenue from charges for services was $3,596,448.

The County's total government-wide expenses were $14,305,990. The greatest expenses were in the General Government $3,496,455, Public Works $2,031,104, and Public Safety $1,899,672 functions. Business-type activities contributed $3,521,652 to total expenses.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements which consists of government-wide financial statements, fund financial statements, and accompanying notes. This report also contains required supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements: The government-wide financial statements are designed to provide readers with a broad overview of the County's finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the County's assets and liabilities with the difference reported as net position. Increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

Overview of the Financial Statements (Continued)

The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave).

The government-wide financial statements report two types of activities: governmental activities and business-type activities. The government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, public safety, public works, judicial, health, sanitation, welfare, community support, culture and recreation, and intergovernmental. The business-type activities include operations of its detention center, utilities, solid waste, and building department operations.

Fund Financial Statements: A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains individual governmental funds. Information is presented separately in the governmental balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Road Fund, Federal in Lieu Tax Fund, Lincoln County Water District Water Resources Fund, Lincoln County Land Act Special Use Fund, and County Grant Fund, each of which is considered to be a major fund. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the combining and individual fund statements and schedules.

The County adopts an annual appropriated budget for each of its governmental funds. A budgetary comparison statement is provided for each of the County's governmental funds to demonstrate compliance with the budget. The budgetary comparison statements for the major governmental funds are presented as required supplementary information; the budgetary comparison statements for all other governmental funds are included in the fund financial statements accompanying information.

Overview of the Financial Statements (Continued)

Proprietary Funds: The County maintains one type of proprietary fund, the Enterprise Fund. The Enterprise Fund is used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses the Enterprise Funds to account for its utility activities, building department activities, solid waste operation, and operation of the detention center.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the utility funds, building department, solid waste, and detention center. The Detention Center, Pioche Public Utility Electric, and Solid Waste are considered to be major funds of the County.

Fiduciary Funds: Fiduciary funds are used to account for the resources held for the benefit of parties outside of the government; Fiduciary funds are not reported in the government wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The County has one type of fiduciary fund, the Agency fund. The Agency Fund reports resources held by the County in a custodial capacity for individuals, private organizations, and other governments.

Notes to Financial Statements: The notes to the financial statements provide additional information that is essential to acquire a full understanding of the data provided in the government-wide and fund financial statements.

Other Information: In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's progress in funding its obligation to provide other post-employment benefits to its employees; and schedules of budgetary comparisons for both the original and final budgets of the General Fund and the various other major County funds.

The combining statements and individual fund schedules referred to earlier in connection with the nonmajor governmental funds are presented immediately following the required supplementary information.

As noted earlier, net assets may serve over time as a useful indicator of the County's financial position. Assets exceeded liabilities by $34,916,197 as of June 30, 2019, and by $34,546,658 as of June 30, 2018, resulting in a net increase of $1,369,539, or 3.96%.

A portion of the County's net assets, 72.58%, reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, etc.), net of any related debt outstanding used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the debt.

The County's restricted net assets of 17.86% represents resources that are subject to external restrictions on how they may be used.

The remaining portion of the County's net assets, 9.56%, is unrestricted and may be used to meet the County's ongoing obligations to citizens and creditors.

At June 30, 2019, the County had positive balances in all three categories of net assets.

Program revenues include charges for services, fines and forfeitures, certain licenses and permits, and both operating and capital grant contributions. General revenues consist of taxes, rent, investment income, and miscellaneous.

For general revenues, the largest of these revenues, ad valorem taxes, increased by $150,652, or 5.04%. The next largest revenue, fuel taxes, increased by $10,507, or 0.57%, due to increased economic activity in the local economy during the fiscal year 2019. The largest business-type activities revenue came from charges for services related to the utilities, detention center, solid waste, and building department. They decreased by $6,326, or 0.18%, due primarily to a decrease in inmate fees.

Financial Analysis of the County's Governmental Funds

The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

As of the end of the current fiscal year, the County's governmental funds reported a combined ending fund balance of $20,175,109, an increase of 1,169,958, or 6.16%, from the prior year. Fund balance components have been classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed on the use of the resources of each fund. Restricted fund balance is $6,383,630, or 31.64% of total. Spending of these resources is constrained by externally imposed (statutory, bond covenant, or grantors) limitations on their use. The largest restricted fund balances include $879,908 for multi-species conservation, $1,171,903 for capital projects, and $1,690,948 for public works.

Committed and assigned fund balances combined to represent 65.67% of total fund balance with spending constrained by either the Board of County Commissioners (for committed) or senior management (for assigned). Committed balances in the special revenue funds are primarily due to revenues directed by the Commission to those funds to support programs. The largest committed fund balances include $3,510,079 for the Lincoln County Water District and $4,060,853 for Lincoln County Land Act.

Major Funds

General Fund (Budgetary Basis): The General Fund is the chief operating fund of the County. At the end of the current fiscal year, the fund balance (budgetary basis) of the General Fund was $953,203, an increase of $180,064, or 23.29%. The General Fund revenues increased by $352,801, or 7.91%. Taxes increased by $107,611, or 5.05%. Charges for services decreased by $61,232, or 17.15%, due to decreased security contract and recorder fees. Intergovernmental revenues increased by $78,765, or 4.93%, due to increases in consolidated tax and grant revenues.

Expenditures decreased by $241,935, or 5.24%. General government expenditures decreased by $55,951, or 3.60% due to a decrease in county commissioner and auditor/recorder office costs. Public safety expenditures decreased by $26,128, or 1.52%, due to a decrease in benefits and service and supplies for the sheriff's office. Judicial expenditures decreased by $159,855, or 12.46% due to a decrease in district court and district attorney wages, benefits, and services and supplies.

Road Fund: The fund balance for the fund increased by $238,434 to $875,274, or 37.44%. The Road fund expenditures increased by $5,256, or 0.37%. This increase was due to services and supplies expenditures.

Federal in Lieu Tax Fund: The fund balance for the fund increased by $45,036 to $2,128,828, or 2.16%. The Federal in Lieu Tax Fund revenues decreased by $883,182, or 47.38%. This decrease was due to a decrease of grant monies. Expenditures decreased by $172,940, or 18.97%, due to general government expenditures.

Lincoln County Water District Water Resources Fund: The Lincoln County Water District Water Resources Fund balance increased by $107,795, or 3.94%, from the prior year. This was due to receiving a better interest rate on investments and no expenditures.

Lincoln County Land Act Special Use Fund: The Lincoln County Land Act Special Use Fund balance increased by $101,323, or 2.70% from the prior year. This was due to receiving a better interest rate on investments and no expenditures.

County Grant Fund: The County Grant Fund revenues decreased by $1,477,479, or 56.88%, and expenditures decreased by $1,548,154, or 57.85%. These decreases were due to receiving less grant monies in the current year.

Financial Analysis of the County's Enterprise Funds

Enterprise Funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the enterprise funds was a deficit of $2,485,621. Total net position for these funds increased by $381,197 from the prior year.

The **Detention Center Fund**, a major fund, had operating revenues decrease by $8,082, or 0.43, due to a decrease in inmate fees. Expenses decreased by $78,422, or 3.94% due to a decrease in salaries and benefits.

The **Pioche Public Utility Electricity Fund**, a major fund, had operating revenues increase by $101,278, or 14.61%, during the year. Operating expenses increased by $47,980, or 6.78%, due to an increase in salaries and benefits, services and supplies, and depreciation expenses.

The **Solid Waste Fund**, a major fund, had operating revenues decrease by $127,881, or 16.69%, during the year. Operating expenses decreased by $35,301, or 6.46%, due to a decrease in bad debt expense.

General Fund Budgetary Highlights

The original budget (2018-19 Final Budget) was approved May 21, 2018.

Original budget compared to final budget: During the year there was a need for an amendment to increase original estimated revenues and original budgeted appropriations. There was also a need to make an amendment to reallocate appropriations among departments when it became clearer which departments would actually be charged for certain expenses. Generally, the movement of the appropriations between departments was not significant.

Final budget compared to actual results: The most significant differences for the General Fund were as follows:

Overall the revenues received were more than budgeted by 3.63% or $168,304. Revenues received in excess of budgeted amounts were 4.43% for intergovernmental and 14.14% for licenses and permits. The shortfall in revenue sources was 22.68% for charges for services.

A review of actual expenditures compared to the appropriations in the final budget shows expenditures were $461,976 less than budgeted or 9.56%. Expenditures were under budget for all functions of the General Fund - general government 11.37%, public safety 5.84%, judicial 12.41%, and health 8.97%.

Actual fund balance (budgetary basis) of $953,203, was $501,342 higher than anticipated to begin the 2019-2020 year.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The County approved the budget for the 2019-2020 year on May 20, 2019. The following factors were considered in the development of the budget.

- Assessed valuation for the County increased and tax rates remained unchanged. Therefore, property tax revenues will be higher.
- Population has remained stable and is projected to increase.

Capital Assets and Debt Administration

Capital Assets

The County's investment in capital assets, net of accumulated depreciation, at June 30, 2019, was $23,721,612 in governmental activities and $2,648,451 in business-type activities. A summary of changes in capital assets for the year ended June 30, 2019, follows:

Capital Assets (Continued)

Major capital asset events during the current fiscal year included the following:

- Construction completed for Airports and other improvements.
- Equipment for the sheriff, general government, and other culture and recreation equipment.

Debt Administration

Changes in Long-term Debt: During the year ended June 30, 2019, the following changes occurred in long-term debt:

Governmental activities:

	Balance June 30, 2018	Net Additions	Net Deletions	Balance June 30, 2019	Due within One Year
Compensated absences	$ 438,130	$ -	$ 16,062	$ 422,068	$ 257,460

Total	$ 4,192,218	$ 33,106	$ 41,022	$ 4,184,302	$ 152,350

The County's debt decreased by $138,225 for governmental activities during the current fiscal year. The reductions were mainly from an increase in debt proceeds offset by a decrease in OPEB obligation payable and the payment of debt.

The County's debt decreased by $7,916 for business-type activities during the current fiscal year. The reason for the decrease was a reduction in estimated compensated absences and bond payments offset by increases in net pension liability, estimated OPEB obligation payable, and landfill closure costs.

Per Nevada Revised Statutes Chapter 244A.059, the debt limitation for the County is equal to 10 percent of the assessed valuation of property, excluding motor vehicles, for the current year. The debt limitation currently applicable at June 30, 2019, was $28,101,861.

Additional information on the County's long-term debt can be found in (**Note D6**).

LINCOLN COUNTY, NEVADA
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2019

Net Change in Fund Balance - Governmental Funds	**$**	**1,169,958**
Amounts reported for governmental activities in the Statement of Activities are different because:		
Capital outlays to purchase or build capital assets are reported in Governmental Funds financial statements as expenditures. However, for governmental activities those costs are shown in the Statement of Net Position and allocated over the estimated useful lives as annual depreciation expenses in the Statement of Activities.		(368,651)
Property taxes that are collected in the time to pay obligations of the current period are reported as revenue in the fund statements. However, amounts that related to prior periods that first become available in the current period should not be reported as revenue in the statement of activities.		(806)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and other similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		(5,458)
Generally, expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred.		12,860
Net differences between other post-employment benefits contributions recognized in the fund statement of revenues, expenditures, and changes in fund balances and the Statement of Activities:		
Other post-employment benefits contributions made after measurement date (2019 contributions).		35,909
Net other post-employment benefits expense.		103,810
Net differences between pension system contributions recognized in the fund statement of revenues, expenditures, and changes in fund balances and the statement of activities:		
Pension contributions made after measurment date (2019 contributions).		446,071
Net pension expense.		(405,351)
Change in net position of governmental activities	**$**	**988,342**

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

1. Reporting Entity

Lincoln County, Nevada, is governed by an elected five member board. As required by generally accepted accounting principles, these financial statements present Lincoln County, Nevada (the primary government), and its component units. Blended component units, although legally separate entities are, in substance, part of the County's operations. Thus, blended component units are appropriately presented as funds' of the primary government.

2. Blended Component Units

Component units are legally separate organizations for which the County is financially accountable. Lincoln County Water District, Alamo Town, Panaca Town, and Pioche Town are all component units that are part of the County's reporting entity because the County is financially accountable for these entities. Financial accountability is determined primarily by the fact that as the governing body, the County's Board of Commissioners can impose its will on significant aspects of the operations of these entities. These entities are presented as blended component units since the operations of these entities are considered part of County operations.

3. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the County and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities,* which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support.

4. Basis of Presentation - Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the County's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds (enterprise funds), and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

The Statement of Net Position presents the consolidated financial position of the County at year-end, in separate columns, for both governmental and business-type activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or programs are offset by program revenues. Direct expenses are those that are specifically associated with a program or service and are, therefore, clearly identifiable to a particular function. Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other revenues properly not included among program revenues are reported instead as general revenues. This statement provides a net cost or net revenue of specific programs and functions within the County. Those functions with a net cost are generally dependent on general-purpose tax revenues, such as property tax, to remain operational.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the County's funds, including its fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary (enterprise), and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The County reports the following major governmental funds:

General Fund - The General Fund is the County's primary operating fund. It accounts for all financial resources of the general County, except those accounted for in another fund.

Road Fund - The Road Fund is used to account for gas tax revenues allocated for the construction, repair and maintenance of County roads.

Federal in Lieu Tax Fund - The Federal in Lieu Tax Fund is used to account for taxes received in lieu of property taxes for property owned in the County by the Federal Government.

Lincoln County Water District Water Resources Fund - The Lincoln County Water District Water Resources Fund is used to account for general activities of the District, a blended component unit of the government.

Lincoln County Land Act Special Use Fund - The Lincoln County Land Act Special Use Fund is used to account for land sale monies to be spent per ordinances.

County Grant Fund - The County Grant Fund is used to account for monies received to be spent on a specified purpose.

The County reports the following major enterprise fund:

Detention Center Fund - The Detention Center fund is used to account for the activities of the Lincoln County Detention Center, providing detention services for local governments within Nevada.

Pioche Public Utility Electric Fund - The Pioche Public Utility Electric fund is used to account for the charges for providing electric service in Pioche, Nevada.

Solid Waste – The Solid Waste fund is used to account for solid waste disposal throughout the County and land fill operations.

Additionally, the County reports the following fiduciary fund:

Investment Trust – The investment trust fund is an external investment pool operated by the Lincoln County Treasurer. Participants include Caliente City, Lincoln County School District, Range, Panaca Fire Protection District, Pahranagat Fire District, Coyote Springs GID, Pioche Fire District, Southeastern Lincoln County Habitat Conservation Plan GID, and the Lincoln County Fire District.

Agency Funds – The Agency Fund is used to account for assets held by the County in an agency capacity for others and cannot be used to support the government's own programs.

During the course of operations, the County has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in the governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e. enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Basis of Presentation - Fund Financial Statements (Continued)

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

6. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Gross receipts and sales taxes are considered “measurable” when in the hands of intermediary collecting governments and are then recognized as revenue. The government considers revenues to be “available” if they are collected within 60 days of the end of the current fiscal period. Anticipated refunds of taxes are recorded as liabilities and reductions of revenue when they are measurable and the payment seems certain. In general, expenditures are recorded when liabilities are incurred. The exception to this rule is that principal and interest on debt service, as well as liabilities related to compensated absences and claims and judgments, are recorded when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

The major revenue sources of the County include consolidated taxes (including sales tax), fuel taxes, intergovernmental revenue, and property taxes. Property taxes, sales taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the County.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The principal operating revenues of the Pioche Public Utility funds are customer charges. Operating revenues for the Building fund come from charges for services for building inspections and permits. The Detention Center receives revenue for housing prisoners of other governments. Expenses are those required to provide the service. The Solid Waste fund is used to account for solid waste disposal throughout the County and landfill operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

7. Budgetary Basis of Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for governmental funds.

a. The statutes provide for the following timetable in adoption of budgets:

(i) Before April 15, the County submits to the Nevada State Department of Taxation a tentative budget for the upcoming fiscal year. The tentative budget includes proposed expenditures and the means to finance them.

(ii) A public hearing must be held by the County Commissioners no sooner than the third Monday in May and no later than the last day in May. Notice of the public hearing must be published once in the local newspaper not more than 14 nor less than 7 days before the hearing.

(iii) On or before June 1, the County Commissioners must adopt a final budget.

b. NRS 354.598005 (1) - provides that the County Commissioners may augment the budget at any time by a majority vote of the Commissioners providing the Commission publish notice of its intention to act in a newspaper of general circulation in the County at least three days before the date set for adoption of the resolution.

c. Nevada Revised Statute 354.598005 (5) allows appropriations to be transferred between functions, funds or contingency accounts if such a transfer does not increase the total appropriation for any fiscal year and is not in conflict with other statutory provisions. The County Auditor may transfer appropriations within any function. The County Auditor may also transfer appropriations between functions or programs within a fund, if the County Commissioners are advised of the action at the next regular meeting; and the action is recorded in the official minutes of the meeting. The County Commissioners may authorize the transfer of appropriations between funds or from the contingency account if the County Commissioners announce the transfer of appropriations at a regularly scheduled meeting and sets forth the exact amounts to be transferred and the accounts, functions, programs and funds affected. The County Commissioners must also set forth its reasons for the transfer; and the action must be recorded in the official minutes of the meeting.

d. Statutory regulations require budget control to be exercised at the function level within the funds.

e. The following funds were augmented during the year: Senior Nutrition, County Grants, and Resource Development Funds had automatic budget augmentations for grant revenue. General Fund, Airport, Room Tax, Alamo Clinic, Lincoln County Housing Authority, Genetic Marker Testing, Detention Center, and Pioche Public Utility – Electric Funds were augmented during the year for higher than anticipated revenues. Detention Center Fund was augmented for capital lease proceeds.

f. Generally, budgets for all funds are adopted in accordance with generally accepted accounting principles. Budgeted amounts reflected in the accompanying financial statements recognize amendments made during the year.

g. All appropriations lapse at the end of the fiscal year.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

a. Cash and Cash Equivalents

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and short term investments with original maturities of three months or less from the date of acquisition.

Cash includes cash deposited in interest-bearing accounts at banks and cash in the custody of fiscal agents of the County.

b. Investments

Investments are stated at fair value on the Balance Sheet. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale. Changes in the fair value of County investments are part of investment income which is included in revenue from local sources on the Statement of Activities and the Statement of Revenues, Expenditures, and Changes in Fund Balances of governmental funds. (**See Note D1**)

Nevada Revised Statutes authorize the County to invest in:

1. Obligations of the U.S. Treasury and U.S. Agencies in which the maturity dates do not exceed more than 10 years from the date of purchase.

2. Negotiable certificates of deposit issued by commercial banks or insured savings and loan associations (those over $250,000 must be fully collateralized).

3. Negotiable notes or short-term negotiable bonds issued by local governments within Nevada.

4. Eligible bankers' acceptances that do not exceed 270 days maturity and do not exceed 20 percent of the portfolio.

5. Commercial paper with a rating of A-1 or P-1 that does not exceed 240 days maturity and does not exceed 20 percent of the portfolio.

6. The State of Nevada's Local Government Investment Pool.

7. Repurchase agreements that are collateralized at 102 percent of the repurchase price and do not exceed 90 days maturity. Securities used for collateral must meet the criteria listed above.

8. Money market mutual funds which are rated as "AAA" or its equivalent and invest only in securities issued by the Federal Government, U.S. Agencies, or repurchase agreements fully collateralized by such securities.

c. Property Tax

Taxes on real property are levied on July 1st of each year and are due on the third Monday in July. They can be paid in quarterly installments in August, October, January, and March. In the event of nonpayment, the County Treasurer is authorized to hold the property for two years, subject to redemption upon payment of taxes, penalties, and costs, together with interest at a rate of 10 percent per year from the date the taxes were due until paid. If delinquent taxes are not paid within the two year redemption period, the County Treasurer obtains a deed to the property free of all encumbrances. Upon receipt of a deed, the County Treasurer may sell the property to satisfy the tax lien.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

c. Property Tax (Continued)

Article X, Section 2 of the Constitution of the State of Nevada limits the total taxes levied by all overlapping governmental units within the boundaries of any County (i.e., the County, the County School District, the State and any other City, Town, or Special District) to an amount not to exceed $5 per $100 of assessed valuation of the property being taxed. The Nevada Legislature enacted provisions whereby the combined overlapping tax rate was limited to $3.64 per $100 of assessed valuation.

d. Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

e. Restricted Assets

Certain cash assets of the Enterprise Funds are from revenue for specific use by the Enterprise Funds and are classified as restricted assets because their use is restricted by agreement. **(See Note D5)**

f. Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial individual cost of more than $500 and an estimated useful life in excess of one year.

If purchased or constructed, capital assets are recorded at historical cost or estimated historical cost and updated for additions and retirements during the year. Donated capital assets are valued at their estimated value as of the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Land and construction in progress are not depreciated. The other property, plant and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

Capital Assets	Years
Vehicles	10
Equipment	5-20
Buildings and Improvements	20-50
Infrastructure	25-50

The County is required to report and depreciate new infrastructure assets. Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc. Neither their historical cost nor related depreciation has historically been reported in the financial statements. The County is required to capitalize and report its major general infrastructure assets acquired in fiscal years ending after June 30, 1980. In addition, infrastructure assets acquired before June 30, 1980, that received significant reconstruction must be capitalized.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

g. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows include the County's pension related contributions subsequent to the measurement date but before the end of the fiscal year and changes in proportion of the District's contributions to the County's proportionate contributions.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has only one type of item, which arises only under a modified accrual basis of accounting, which qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source, property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available.

Deferred inflows of resources represent an acquisition of net positon that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. The difference between projected and actual experience and investment earnings are related to the deferred inflows of pensions and the calculation of net pension liability reported on the statement of net position.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Nevada (PERS) and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

h. Governmental Fund Balances:

In the governmental fund financial statements, fund balances are classified as follows:

(i.) **Nonspendable –** Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact, such as inventories and prepaids.

(ii.) **Restricted –** Amounts that can be spent only for a specific purpose because of the state or federal laws, or externally imposed conditions by grantors or creditors.

(iii.) **Committed –**These amounts can only be used for specific purposes as set forth by the County Commissioners. The Commissioners must take formal action (vote approval by the majority), in order to establish an ending fund balance commitment for any specific purpose. Formal Commission action is also required to modify or rescind an established commitment. To be reported as committed, amounts cannot be used for any other purpose unless the Commission takes the same highest level action to remove or change the constraint.

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

h. Governmental Fund Balances (Continued):

(iv.) Assigned – Assignments are neither restrictions nor commitments and represent the County's intent to use funds for a specific purpose. These assignments, however, are not legally binding and are meant to reflect intended future use of the County's ending fund balance. Intent can be expressed by the County Commissioners or by the County Auditor.

(v.) Unassigned – All amounts not included in other classifications.

i. Fund Balance Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance.) When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

j. Net Position Policies

In the government-wide statements, net position on the Statement of Net Position includes the following:

(i) Invested in Capital Assets, net of Related Debt

This is the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction, or improvement of those assets.

(ii) Restricted Assets

This is the component of net position that reports the constraints placed on the use of assets by either external parties and/or enabling legislation. Currently, the County restricts assets as follow:

a) NRS 354.598155 Special Ad Valorem Capital Projects
b) NRS 354.6113 Capital Projects Fund
c) NRS 365.190 Road Improvements
d) NRS 354.6115 Budget Stabilization
e) NRS 269 Unincorporated Towns

(iii) Unrestricted

This is the component of net position that is the difference between the assets and liabilities not reported in Invested in Capital Assets, Net of Related Debt and Restricted Assets.

k. Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

l. Comparative Data/Reclassifications

Comparative total data for the prior year has been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the County's financial position and operations. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

m. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

n. Budgetary Stabilization

It is the County's policy to determine the balance or reserve as reasonable and necessary to carry out the purposes of the stabilization fund on a yearly basis. NRS 354.6115 authorizes the creation of a fund to stabilize operations of local governments and mitigate effects of natural disaster. The intent of this policy is to include a portion of the General Fund budgeted ending fund balance that will be restricted to stabilization pursuant to NRS 354.6115. Fund balance that is restricted to stabilization can be used after approval by the board of County Commissioners when total actual revenue falls short of the total anticipated revenue in the General Fund for the fiscal year in which the County uses the money.

9. Revenues and Expenditures/Expenses

a. Compensated Absences

Vested or accumulated vacation and sick leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide financial statements. No expenditure is reported for these amounts in the fund financial statements. (**See Note D6**) Vacation leave and sick leave included in accrued liabilities and recorded as expenditures in governmental fund types is the amount normally liquidated from "available spendable resources."

In proprietary funds, compensated absences are recorded when the liabilities are incurred. In governmental funds, the current portion is recorded as payroll expenditure. The estimated long-term liability for compensated absences is accounted for in the government-wide financial statements.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

9. Revenues and Expenditures/Expenses (Continued)

b. Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

c. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTE B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of certain differences between the governmental funds Balance Sheet and the government-wide Statement of Net Position

The governmental fund balance sheet includes reconciliation between fund balances - total governmental funds and net position - governmental activities as reported in the government-wide statement of net position. One element of the reconciliation explains that "certain liabilities (such as bonds payable and capital leases payable) are not reported in the Governmental funds financial statements because they are not due and payable, but they are presented as liabilities in the statement of net position." The details of this difference are as follows:

Interest payable	$ (3,801)
Capital lease payable	(86,065)
Notes payable	(24,157)
Compensated absences	(422,068)
Net adjustment to reduce fund balance - total governmental funds to arrive at net position - governmental activities	$ (536,091)

NOTE B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

2. Explanation of certain differences between the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the government-wide Statement of Activities

The governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net position of governmental activities as reported in the government-wide Statement of Activities. One element of that reconciliation explains that "Capital outlays to purchase or build capital assets are reported in Governmental Funds financial statements as expenditures. However, for governmental activities those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expense in the statement of activities." The details of this difference are as follows:

Capital outlay	$ 1,006,868
Book value of disposed assets	(13,556)
Depreciation expense	(1,361,963)
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	$ (368,651)

Another element of that reconciliation states that, "The issuance of long-term debt (i.e., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on Net Position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and other similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items." The details of this difference are as follows:

Capital lease proceeds	$ (133,245)
General obligation debt principal payments	$ 127,787
Net adjustment to increase net change in fund balances – governmental funds to arrive at change in net position of governmental activities	$ (5,458)

Another element of that reconciliation states that "Generally, expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred." The details of this difference are as follows:

Accrued interest	$ (3,202)
Compensated absences	16,062
Net adjustment to increase net change in fund balances – governmental funds to arrive at change in net position of governmental activities	$ 12,860

NOTE C. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

1. Compliance and Accountability

The County conformed to significant statutory requirements regarding financial administrations except as follows:

Per NRS 354.626, the County is required to report expenditures that exceeded budgeted appropriations at the function level for the General Fund, Special Revenue Funds, and Capital Project Funds. Enterprise funds may not exceed budget appropriations at the fund level. For the year ending June 30, 2019, the County had the following expenditures over appropriations that are required to be reported.

Federal in Lieu Tax Fund – Intergovernmental function	$ 3,755

The Federal in Lieu Fund intergovernmental function expenditures in excess of appropriations is not a violation. The over expenditure is related to intergovernmental payments to the Nevada Division of Parole and Probation and the Nevada Division of Health. The County is required to make four quarterly payments to the Divisions. A fifth invoice from each Division was received after year to settle up the County's share of costs for the year causing the over expenditure.

2. Deficit Fund Balance/Net Position

Legal Aid Services	$ 193
Detention Center Enterprise Fund	$ 2,309,265
Building Department Enterprise Fund	$ 89,571

The deficit net position of the Detention Center and Building Department Enterprise funds are due to the individual fund's proportionate share of the net pension liability of the Public Employees' Retirement System of the State of Nevada. See **Note D-12** of the financial statement. The Legal Aid Services deficit is due to an unanticipated invoice in the amount of $770 for legal services recorded as accounts payable that was received too late in the budget year to allow the County to take any corrective action to remedy the deficit before year end. The deficit will be corrected with revenues of the following year.

NOTE D. DETAILED NOTES ON ALL FUNDS

1. Pooled Cash and Investments

The County maintains a cash and investment pool that is available for use by all funds under the custody of the County Treasurer. At June 30, 2019, this pool is displayed by the statement of net position and major and other governmental funds on the governmental funds balance sheet as "Pooled Cash and Investments."

A reconciliation of cash and investments as shown in the Statement of Net Position is as follows:

Cash in the hands of officers	$ 135,867
Carrying amount of deposits	5,649,702
Fair value of investments	20,473,920
Total	$26,259,489

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

1. Pooled Cash and Investments (Continued)

A reconciliation of cash and investments as for the County is as follows:

Government-wide pooled cash and investments	$21,132,332
Restricted cash	93,356
Total primary government	$21,225,688
Investment trust fund	3,790,702
Agency fund cash	1,243,099
Total reporting entity	$26,259,489

Except for financial reporting purposes, the cash balances of $5,033,801 in the Agency Funds are not normally considered part of the County's pooled cash and investments. These amounts represent cash held in an agency capacity by the County and cannot be used in the County's normal operations.

The cash and investment pool is available for use by all funds of the County. Cash and investments under the custody of the County Treasurer are invested as a pool. The County Treasurer may invest the money of the investment pool in investments which have been authorized as investments by Nevada Revised Statutes. (**See Note A8b**)

Investment income is apportioned to the funds within the pool monthly based on the average balance invested for the month.

State statutes authorize the County to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and the State Treasurer's Investment Pool.

Cash and investment are subject to the following risks:

Interest Rate Risk: Interest rate risk is the risk of possible reduction in the value of a security, especially a bond, resulting from the rise in interest rates. Nevada Revised Statutes limits bankers' acceptances to 180 days of maturities, repurchase agreements to 90 days, U.S. Treasuries and Agencies to less than 10 years, and commercial paper to 270 days maturity. The approximate weighted average maturity of investments in the Lincoln County Treasurer's investment pool was 2.12 years.

As of June 30, 2019, monies held in the Lincoln County Treasurer's cash and investment pool are categorized as follows:

		Investment Maturities (In Years)		
Investment Type	Fair Value	Less than 1	1-5	6-10
U.S. Government and Agencies:				
U.S. Treasury note	$ 5,882,200	$ 3,101,970	$ 2,780,230	$ 0
U.S. Agency mortgage-backed	4,298,574	2,744,171	1,554,403	0
Corporate assets	2,176,688	249,328	1,927,360	
Money market funds	632,306	632,306	0	0
Negotiable certificates of deposit	7,484,152	1,374,211	6,109,941	0
Total Investments	$20,473,920	$ 8,101,986	$ 12,371,934	$ 0

Governmental Accounting Standards require fair value reporting of all investments. The fair value of the County's investments was determined by market quotes.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

1. Pooled Cash and Investments (Continued)

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation and is a function of the credit quality ratings of its investments. The Nevada Revised Statutes limits investments instruments by their credit risk **(Note A8a)**. The State of Nevada Local Government Investment Pool is an unrated external investment pool.

As of June 30, 2019, monies held in the Lincoln County Treasurer's cash and investment pool are categorized as follows:

		Quality Ratings by Moody's				
Investment Type	Fair Value	Aaa	A2	A3	Baa	N/A
U.S. Government and Agencies:						
U.S. Treasury note	$ 5,882,200	$ 5,882,200	$ 0	$ 0	$ 0	$ 0

Custodial Credit Risk: Custodial credit risk is the risk that in the event of a bank or brokerage failure, the County's deposits may not be returned. The County's bank deposits are generally covered by FDIC insurance and are collateralized by the Office of the State Treasurer/Nevada Collateral Pool. At year-end, the County's carrying amount of deposits was $5,649,702 and the bank balance was $5,794,683. Of the bank balance, $504,800 was covered by federal depository insurance. Of the remaining balance, $5,289,883 was collateralized with securities held by the Nevada Pooled Collateral Program.

Concentrations of Credit Risk: Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. Investments with a single issuer within the Lincoln County Treasurer Cash and investment pool that represent five percent or more of total investments as of June 30, 2019, are as follows:

Federal Home Loan Banks (FHLB)	6.73%
U.S. Treasury Note	29.65%

Fair Value: The County implemented GASB Statement No. 72, Fair Value Measurement and Application, in 2015 to categorize its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The County has the following recurring fair value measurements as of June 30, 2019:

Investment Type	Fair Value	Level 1	Level 2	N/A
U.S. Government and Agencies:				
U.S. Treasury note	$ 5,882,200	$ 5,882,200	$ 0	$ 0

External Investment Pool: The County administers an external investment pool combining the County funds with involuntary investments from Caliente City, Lincoln County School District, Range, Panaca Fire Protection District, Pahranagat Fire District, Coyote Springs GID, Pioche Fire District, Southeastern Lincoln County Habitat Conservation Plan GID, and the Lincoln County Fire District. The Board of County Commissioners has the overall responsibility of investment of funds including the external investment pool in accordance with NRS 355.175. The Lincoln County Treasurer is delegated investment responsibilities. The fair value of investments is determined monthly as statements from the various investment companies are received. Each participant's share is equal to their original investment plus or minus monthly allocations of interest income and realized and unrealized gains and losses. The County has not provided nor obtained any legally binding guarantees to support the value of the shares.

A summary of investments held in external investment pools at June 30, 2019, is as follows:

Cash – Pioche Public Utility - Sewer	11,490
Cash – Solid Waste	61,118
Total restricted cash	$ 93,356

6. Long-term Debt

Governmental Type Activities:

Note Payable

a. The County borrowed money for the purchase of BLM land. The original principal of the note was $440,000. Payments are due in monthly installments of $4,383 through November, 2019, with interest at 5%.

Year Ending June 30,	Remaining Payments	Interest	Principal
2020	$ 24,428	$ 271	$ 24,157

Capital Leases

a. During the year ending June 30, 2017, the County entered into a lease agreement for 3 public safety vehicles totaling $90,000. The leases have been classified as capital leases according to generally accepted accounting principles. The leases contain non-funding clauses whereby the leases are terminated without penalty should the County fail in a budget year to appropriate money for the payment. The vehicles have a ten-year estimated useful life. This year, $9,000 was included in depreciation expense. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. The lease was paid in full during the year.

Governmental Type Activities: (Continued)

Capital Leases

b. During the year ending June 30, 2019, the County entered into a lease agreement for 4 public safety vehicles totaling $133,245. The leases have been classified as capital leases according to generally accepted accounting principles. The leases contain non-funding clauses whereby the leases are terminated without penalty should the County fail in a budget year to appropriate money for the payment. The vehicles have a ten-year estimated useful life. This year, $0 was included in depreciation expense. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2019, were as follows:

Year Ending June 30,	Remaining Payments	Amount Representing Principal	Amount Representing Interests
2020	$ 47,180	$ 41,911	$ 5,269
2021	47,180	44,154	3,026
	$ 94,360	$ 86,065	$ 8,295

Business-Type Activities:

Revenue Bonds The County issues revenue bonds to provide funds for the acquisition and construction of utility capital assets. Revenue bonds have been issued for the business-type activities. Revenue bonds are an obligation of the enterprise utility funds for which the capital assets were acquired or constructed. Revenue bonds outstanding at June 30, 2019, are as follows:

a. $210,000, 2007 Pioche Town Sewer bond is payable to the U.S. Department of Agriculture-Rural Development. The bond is payable in semi-annual payments of $5,584 including interest. The interest rate is 4.375%. The bond agreement requires the County to establish and fund monthly a debt service reserve fund equal to 10% of the semi-annual payment each month over the life of the loan until they accumulate one annual installment. This reserve fund can be used for emergency maintenance and repairs, and debt repayment should the need arise. The required reserve as of June 30, 2019, is $11,490. The balance in the reserve account was $11,490 as of June 30, 2019 **(See Note D-5)**. The outstanding balance of bonds payable at June 30, 2019, was $183,937.

Annual debt service requirements to maturity for the revenue bond are as follows:

Year Ending June 30,	Principal	Interest
2020	$ 3,294	$ 7,874
2021	3,440	7,728
2022	3,592	7,576
2023	3,751	7,417
2024	3,915	7,253
2025-2029	22,349	33,491
2030-2034	27,737	28,103
2035-2039	34,438	21,402
2040-2044	42,757	13,083
2045-2048	35,510	3,148
	$ 180,783	$ 137,075

6. Long-term Debt (Continued)

b. $350,000, 1980 Pioche Town Water bond due in monthly installments of $1,729, including interest at 5%, through 2020. The Water bond is payable to the Farmers Home Administration. The bond agreement requires the County to establish and maintain reserves sufficient to insure that loan installments will be paid on time and to pay for emergency maintenance of the facilities. The required reserve as of June 30, 2019, is $20,748. The balance in the reserve account was $20,748 as of June 30, 2019. The outstanding balance of bonds at June 30, 2019, was $7,336.

Annual debt service requirements to maturity for the Revenue Bonds are as follows:

Year Ending June 30,	Principal	Interest
2020	$ 7,336	$ 200

Changes in Long-term Debt: During the year ended June 30, 2019, the following changes occurred in long-term debt:

Governmental activities:

	Balance June 30, 2018	Net Additions	Net Deletions	Balance June 30, 2019	Due within One Year
Compensated absences	$ 438,130	$ -	$ 16,062	$ 422,068	$ 257,460

7. Interfund Transfers

Interfund operating transfers are made from one fund to another fund to support expenditures in accordance with the authority established for the individual funds. Transfers between fund types during the year ended June 30, 2019, were:

	Total	Transfer Out				
	Transfers In	General	Road	Federal In Lieu	Nonmajor Special Revenue	Nonmajor Capital Projects
General Fund	$ 75,000	$ -	$ -	$ 75,000	$ -	$ -
County Grant Fund	8,974	-	-	8,974	-	-
Nonmajor Special Revenue Funds	101,996	50,000	-	13,190	38,806	-
Nonmajor Capital Projects Funds	231,338	-	100,000	-	-	131,338
Major Enterprise - Detention Center	97,500	37,500	-	60,000	-	-
Nonmajor Enterprise Funds	40,000	-	-	40,000	-	-
Total	$ 554,808	$ 87,500	$ 100,000	$ 197,164	$ 38,806	$ 131,338

Following are explanations of certain interfund transfers of significance to the County:

The General Fund transferred money to the following funds: Detention Center $37,500 and China Springs $10,000 to help cover costs. The General Fund has an internally reported fund the Special Projects Fund which did a budgeted transfer to the Property Management Fund to help cover construction costs of $40,000.

The Road Fund transferred $100,000 to the Road Capital Projects Fund to help cover the costs of a new equipment.

The Federal in Lieu Fund transferred money to the following funds: Building Enterprise Fund $40,000, Detention Center Fund $60,000, and the Planning Fund $75,000 which is internally reported fund in the General Fund. These budgeted transfers were made to help cover operating costs. Transfers were also made for $8,974 to the County Grant Fund and $13,190 to the Senior Nutrition Fund for grant match.

The Room Tax Fund transferred $10,000 to the Fair Board Fund to help cover costs. The Regional Transportation Commission Fund transferred $28,806 to the Transportation Fund for operations.

The Capital Projects Fund transferred money to the following capital projects funds: $121,000 to the Vehicle Capital Projects for assistance with capital asset purchases; $10,338 to the Alamo, Panaca, and Pioche Town Capital Projects Funds for distribution of property taxes collected pursuant to Nevada Revised Statutes 354.59815.

8. Interfund Receivable / Payable

The County purchased the local landfill and created the Solid Waste Enterprise Fund in 2017. To help cover initial costs and have cash available, the Solid Waste Enterprise Fund borrowed monies from two special revenue funds which is being repaid over 10 years at 0% interest. The funds which will receive those payments are as follows:

	Due to		Due from
Lincoln County Land Act	$ 180,000	Solid Waste Enterprise	$ 360,000
Lincoln County Water Special Use	180,000		
	$ 360,000		

Annual debt service requirements to maturity for the payable are as follows:

Year Ending June 30,	Principal
2020	$ 20,000
2021	40,000
2022	40,000
2023	40,000
2024	40,000
2025-2027	180,000
	$ 360,000

9. Unearned Revenue

Governmental funds report unearned revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period and also in connection with the resources that have been received but not yet earned. At June 30, 2019, the County had the following unearned revenues:

Qualifying expenditures for expenditure-driven grants have not occurred before June 30, 2019.

County Grant	Other Governmental	Total
$ 168,479	$ 94,601	$ 263,080

10. Unavailable Revenue

Delinquent taxes receivable not collected within sixty days after year-end are recorded as deferred inflows of resources as they are not available to pay liabilities of the current period. At June 30, 2019, the County had the following unavailable revenues:

General	Other Governmental	Total
$ 26,512	$ 11,143	$ 37,655

11. Risk Management

Property, Casualty, Crime, and Machinery Insurance

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County joined together with other local governments throughout the State of Nevada to create a pool under the Nevada Interlocal Cooperation Act. The Nevada Public Agency Insurance Pool (NPAIP) is a public entity risk pool currently operating as a common risk management and insurance program for members. The County pays an annual premium and specific deductibles, as necessary, to NPAIP for its general insurance coverage. NPAIP is considered a self-sustaining risk pool that will provide liability coverage for its members up to $10,000,000 per event and a $10,000,000 annual aggregate per member. Property, crime, and equipment breakdown coverage is provided to its members up to $300,000,000 per loss with various sub-limits established for earthquake, flood, equipment breakdown, and money and securities. As a participatory member, the maintenance deductible is $2,000 for each insured event.

The County is self-insured for unemployment claims. Payments are made from the general fund to cover claims.

The County participates in the Public Agency Compensation Trust (PACT). Premiums paid to PACT cover workers' compensation claims against the County. Premiums are based on a percentage of wages paid.

The County carries commercial insurance for all other risks of loss including employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

12. Contingent Liabilities

Grants
Amounts received or receivable from grantor agencies are subject to audit and adjustment by those agencies, principally the Federal Government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

Litigation
The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the County's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the County.

Landfill Closure and Post-Closure Costs
State and federal laws and regulations require the County to place a final cover on its landfill sites when it stops accepting waste and to perform certain maintenance and monitoring functions at the sites for thirty years after closure. The closure and post-closure care costs will be paid only near or after the date that the landfills stop accepting waste.

As of June 30, 2019, the estimated liability to date for closure and post-closure costs is $60,000. This represents the cumulative amount reported to date based on percent use of the estimated liability of $1,700,000 as the remaining capacity is used. Actual costs may be higher due to inflation, changes in technology, or changes in regulations. The County operates one landfill with an estimated remaining life of 39 years. As of June 30, 2019, $61,118, has been restricted for future closure, post-closure, and opening landfill costs in the Solid Waste Fund. The County is presently using the "Local Government Test" as financial assurance mechanism for its closure and post-closure costs.

13. Defined Benefit Pension Plan

Plan Description. All half time and greater County employees are provided pension benefits through the Public Employees' Retirement System of the State of Nevada (PERS), a cost sharing multiple-employer, defined benefit plan administered by the Public Employees' Retirement System of the State of Nevada. PERS provides retirement benefits, disability benefits, and death benefits, including annual cost of living adjustments, to plan members and their beneficiaries. NRS Chapter 286 establishes the benefit provisions provided to the participants of PERS. These benefit provisions may only be amended through legislation. The Public Employees' Retirement System of the State of Nevada issues a publicly available financial report that includes financial statements and required supplementary information for PERS that can be obtained at www.nvpers.org under Quick Links — Publications.

Benefits Provided. Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months. Vested members are entitled to a life-time monthly retirement benefit equal to the service time multiplier (STM) percentages listed below times the member's years of service to a maximum of 30 years. The schedule of Eligibility for Monthly Unreduced Retirement Benefits for regular members and police/fire members are as follows:

Eligibility for Regular Members:

Years of Service	Hired prior to 07/01/01		Hired between 07/01/01-12/31/09		Hired Between 01/01/10-07/01/15		Hired After 7/1/15	
	Age	STM%	Age	STM%	Age	STM%	Age	STM%
5 years	65	2.50%	65	2.67%	65	2.50%	65	2.25%
10 years	60	2.50%	60	2.67%	62	2.50%	62	2.25%
30 years	Any	2.50%	Any	2.67%	Any	2.50%	55	2.25%
33 1/3 years							Any	2.25%

Eligibility for Police and Fire Members:

Years of Service	Hired prior to 07/01/01		Hired between 07/01/01-12/31/09		Hired Between 01/01/10-07/01/15		Hired After 7/1/15

20 years	50	2.50%	50	2.67%	50	2.50%	50	2.50%
25 years	Any	2.50%	Any	2.67%				
30 years					Any	2.50%	Any	2.50%

* Only service performed in a position as a police officer or firefighter may be counted towards eligibility for retirement as Police/Fire accredited service.

Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death. Post-retirement increases are provided by authority of NRS 286.575 - .579.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

13. Defined Benefit Pension Plan (Continued)

Contributions: Benefits for plan members are funded under the employer pay contribution plan. The County is required to contribute all amounts due under the plan. PERS receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450. The County's required contribution rates for the year ending June 30, 2019, were 40.50% for police and fire; 28.00% for regular employees; 41.0% for judge; and 14.00% employee/employer match. The County has fully funded the amounts due for the year ending June 30, 2019. For purposes of GASB No. 82, the County recognized only the employer portion as a deferred outflow.

The actuary funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contribution requirement as a percentage of salary.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the County reported a liability of $11,215,383 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's allocation percentage of the net pension liability was based on the total contributions due on wages paid during the measurement period. Each employer's proportion of the net pension liability is based on their combined employer and member contributions relative to the total combined employer and member contributions for all employers for the period ended June 30, 2018. The County's proportionate share of the net pension liability decreased from 0.08407 percent at June 30, 2017 to 0.08224 at June 30, 2018.

For the year ended June 30, 2019, the County recognized pension expense of $575,077. At June 30, 2019, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual results	$ 351,347	$ 520,586
Net difference between projected and actual earnings on pension plan investments	0	53,396
Changes in assumption	590,980	0
Changes in proportion	181,621	601,083
County Contributions subsequent to measurement date	636,643	0
Total	$ 1,760,591	$ 1,175,065

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan (Continued)

$636,643 was reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2020	$ 192,442
2021	3,689
2022	(289,169)
2023	(10,905)
2024	47,032
2025	5,794
	$(51,117)

Actuarial Assumptions: The System's net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.75%
Payroll Growth	5.00%, including inflation
Investment Rate of Return	7.50%
Productivity pay increase	0.50%
Projected Salary increases	Regular: 4.25% to 9.15%, depending on service
	Police/Fire: 4.55% to 13.90%, depending on service
	Rates include inflation and productivity increases
Consumer Price Index	2.75%
Other assumptions	Same as those used in the June 30, 2018 funding actuarial valuation.

Mortality rates were based on the RP-2014 Headcount-Weighted Mortality Table for Males and Females, as appropriate, with adjustments for mortality improvements based on Scale MP-2016.

Actuarial assumptions used in the June 30, 2018 valuation were based on the results of the experience review completed in 2017. The System's policies, which determine the investment portfolio target asset allocation, are established by the Public Employees' Retirement Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan (Continued)

The following was the Board adopted policy target asset allocation as of June 30, 2018:

Asset Class	Target Allocation	Long-Term Geometric Expected Real Rate of Return*
Domestic Equity	42%	5.50%
International Equity	18%	5.75%
Domestic Fixed	30%	0.25%
Private Markets	10%	6.80%

*As of June 30, 2018, PERS' long-term inflation assumption was 2.75%

Discount Rate: The discount rate used to measure the total pension liability was 7.50% as of June 30, 2018. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the pension plan's fiduciary net position at June 30, 2018, was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2018.

Sensitivity of the County's proportionate share of the net pension liability to change in the discount rate: The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percent higher or lower than the current rate.

	1.0% Decrease (6.5%)	Discount Rate (7.5%)	1.0% Increase (8.5%)
County's proportionate share of the net pension liability	$ 17,103,456	$ 11,215,383	$ 6,323,279

Pension Plan Fiduciary Net Position: Detailed information about the pension plan's fiduciary net position is available in the PERS Comprehensive Annual Financial Report, available on the PERS website.

Pension contributions payable: At June 30, 2019, the County reported payables to the defined benefit pension plan of $53,797 for legally required employer contributions which had not yet been remitted to PERS.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

14. Post-Employment Healthcare Plan

Plan Description: The County subsidizes eligible retirees' contributions to the Public Employees' Benefits Plan (PEBP), an agent multiple-employer defined benefit postemployment health care plan administered by the State of Nevada. The plan provides medical, vision, dental and life insurance benefits to eligible retired County employees and beneficiaries. NRS 287.041 assigns the authority to establish and amend benefit provisions to the PEBP nine-member board of trustees. The plan is now closed to current County retirees. However, County employees who previously met the eligibility requirement for retirement within the Nevada Public Employees' Retirement System had the option upon retirement to enroll in coverage under the PEBP and the subsidy provided by the County was determined by their number of years of service. The PEBP issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employee's Benefits Program, 901 S. Stewart Street, Suite 1001, Carson City, NV 89701, by calling (775) 684-7000, or by accessing the website at https://pebp.state.nv.us under Resources – Fiscal & Utilization Reports.

Employees covered by benefit terms. At June 30, 2019, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	25
Inactive employees entitled to but not yet receiving benefit payments	0
Active employees	0
	25

Funding Policy NRS 287.046 establishes the subsidies to be contributed toward the premium costs of the eligible retired County employees. As noted above, the County policy is to only fund retirees who retired prior to July 1, 2009. Plan members receiving benefits have their monthly contributions deducted from their pension checks based on the health plan chosen by the retiree as reduced by the amount of the subsidy. Effective July 2015, the subsidy provided to pre-Medicare retirees varies based on the type of plan selected (PPO or HMO) and by the level of coverage taken (e.g., single, two party, family, etc.). The chart below shows our understanding of monthly amounts currently payable for those with 15 years of PERS service.

Coverage Level	PPO CDHP		Statewide EPO/HMO	
	Base Subsidy	SB 552 Subsidy	Base Subsidy	SB 552 Subsidy
	15 Years of Service			
Retiree Only	$ 813.80	$163.65	$ 398.00	$ (11.66)
Retiree + Spouse	1,389.86	419.51	630.93	(28.22)
Retiree + Child(ren)	1,212.52	384.79	527.69	(5.39)
Retiree + Family	1,788.58	640.65	760.62	(21.95)

All Medicare eligible retirees participate in a Medicare Exchange with PEBP providing a service related contribution to a Health Reimbursement Arrangement (HRA) equal to $12 per month per year of service (maximum $240 per month). The contribution requirements of plan members and the County are established and amended by the PEBP board of trustees. As a participating employer, the County is billed for the subsidy on a monthly basis and is legally required under NRS 287.023 to provide for it.

For fiscal year 2019, the County contributed $41,195 to the plan for current premiums. The County did not prefund any future benefits.

Important Dates used in the Valuation:

Valuation Date:	June 30, 2018
Measurement Date:	June 30, 2018
Measurement Period:	June 30, 2017 to June 30, 2018
Fiscal Year End:	June 30, 2019

Significant Results and Differences from the Prior Valuation:

There were no changes in benefit terms from the prior valuation. This valuation reflects the phased-in increase in subsidy levels for pre-Medicare retirees as required by SB 552. Updates were made to the discount rate, to the mortality assumptions, and to assumed future healthcare trends.

Total Other Post-Employment Benefits (OPEB) Liability

The County's OPEB liability of $428,645 was measured as of June 30, 2018, and determined by actuarial valuation as of that date.

The County has elected to calculate the total OPEB liability and related information using the alternative measurement method permitted by Governmental Accounting Standards Board Statement No. 75 for employers in plans with fewer than one hundred total plan members.

Actuarial Assumptions and Other Inputs: The total OPEB liability in the June 30, 2018, actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement:

	PEBP
Inflation rate	2.75%
Salary Increase	Not applicable; there are no active employees in this plan.
Discount Rate	2.98%
Healthcare Cost Trend Rates	6.25 decreasing 0.5% per year to an ultimate rate of 5.00% for 2024 and later years.
Retirees' share of benefit-related costs	0%

The discount rate was based on the S & P General Obligation Municipal Bond 20 year High Grade Index.

Mortality rates were based on the social security administration's actuarial life tables.

Actuarial assumptions used in the June 30, 2018, valuation were based on the results of an actuarial experience study for the period of June 30, 2017, to June 30, 2018.

OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2019, the County recognized OPEB expense of $138,811. At June 30, 2019, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual results	$ 0	$ 0
Changes of assumptions or other inputs	0	0
County Contributions subsequent to measurement date	41,195	0
Total	$ 41,195	$ 0

$41,195 reported as deferred outflows of resources related to OPEB resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ended June 30, 2020. There were no other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB to be recognized as OPEB expense.

15. Water Sales

The Water District has entered into a water delivery teaming agreement. The purpose of the agreement is to develop a water infrastructure and provide wholesale water to adjoining water districts and/or developers who require water. Investment to develop the water sources are funded by the partner. The Water District is not required to provide funding. Should projects fail, the Water District has no liability for costs incurred by the partner. If the projects are completed and revenues are generated from the sale of water, revenues collected will be applied to the investment of the partner until paid in full for the successful projects. After payment of project expenditures, the Water District will be entitled to 50 percent of remaining monies. Should the Water District withdraw from the agreement, the Water District will be required to reimburse the partner's investment costs. Revenues, if any, from water sales are recorded in the Lincoln County Water District funds.

See accompanying notes to required supplementary information.

Note 1 – Explanation of Differences between General Fund (Budgetary Basis) and General Fund (GAAP Basis)

The accompanying Reconciliation of the General Fund (Budgetary Basis) to the General Fund (GAAP Basis) presents balances combined for external financial reporting purposes.

With the implementation of GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the budgetary basis of accounting for the General Fund differs from generally accepted accounting principles (GAAP).

Guidance in GASB Statement 54 changed the definition of Special Revenue Funds for financial reporting purposes. Pursuant to statute, budget comparisons are required using the budget adopted. Six internally reported special revenue funds of the County (Stabilization, Planning, Rachel Jones Memorial Cemetery, Flood Control, Special Projects, Lincoln County Land Act Emergency Disaster, and Lincoln County Water Emergency Disaster) are combined with the General Fund for external reporting purposes to conform with generally accepted accounting principles.

Note 2 – Net Pension Liability

Changes in benefit terms. Legislation passed in the 2015 Legislative session made changes to a number of plan provisions. These changes were effective July 1, 2015 and apply only to members whose effective date of membership is on or after July 1, 2015. Changes to certain survivor benefit provisions were made effective for survivors of members killed in the line of duty or in the course of employment on or after July 1, 2013, for payments on or after July 1, 2015. The July 1, 2015, sunset on the critical labor shortage exception to the reemployment restriction was repealed. There have been no changes in benefit terms since the last valuation.

Changes in assumptions. Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period.

Note 3 – Other Post-Employment Benefits Liability

Changes in benefit terms. There have been no changes in benefit terms since the last valuation.

Changes in assumptions. Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated November 27, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

AUDITOR'S COMMENTS

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

In connection with our audit of the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County) as of and for the year ended June 30, 2019, and the related notes to the financial statements, nothing came to our attention that caused us to believe that the County failed to comply with the specific requirements of Nevada Revised Statutes referenced below insofar as they relate to accounting matters except as noted below. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the County's noncompliance with the requirements of Nevada Revised Statutes noted below, insofar as they relate to accounting matters.

CURRENT YEAR STATUTE COMPLIANCE

Expenditures in Excess of Appropriations

Per NRS 354.626, the County is required to report expenditures that exceeded budgeted appropriations at the function level for the General Fund, Special Revenue Funds, and Capital Project Funds. Enterprise funds may not exceed budget appropriations at the fund level. For the year ending June 30, 2019, the County had the following expenditures over appropriations that are required to be reported.

Federal in Lieu Tax Fund – Intergovernmental function	$	3,755

The Federal in Lieu Fund intergovernmental function expenditures in excess of appropriations is not a violation. The over expenditure is related to intergovernmental payments to the Nevada Division of Parole and Probation and the Nevada Division of Health. The County is required to make four quarterly payments to the Divisions. A fifth invoice from each Division was received after year to settle up the County's share of costs for the year causing the over expenditure.

Deficit Fund Balance/Net Position

Legal Aid Services	$	193
Detention Center Enterprise Fund	$	2,309,265
Building Department Enterprise Fund	$	89,571

The deficit net position of the Detention Center and Building Department Enterprise funds are due to the individual fund's proportionate share of the net pension liability of the Public Employees' Retirement System of the State of Nevada which is beyond the control of the County. See **Note D-12** of the financial statement. The Legal Aid Services deficit is due to an unanticipated invoice in the of $770 for legal services recorded as accounts payable that was received too late in the budget year to allow the County to take any corrective action to remedy the deficit before year end. The deficit will be corrected with revenues of the following year.

PROGRESS ON PRIOR YEAR STATUTE COMPLIANCE

The County had similar findings in the current year as listed above.

CURRENT YEAR RECOMMENDATIONS

We noted no material weakness and reported no significant deficiencies in internal controls.

PRIOR YEAR RECOMMENDATIONS

We noted no material weakness and reported no significant deficiencies in internal controls in the prior year.

NEVADA REVISED STATUTE 354.6115 - STABILIZATION FUND

The County created a stabilization fund in accordance with Nevada Revised Statute 354.6115, "Fund to stabilize operations of local government and mitigate effects of natural disaster". The fund is reported on pages 236 and 237 of the financial statements as an "internally reported (budgetary basis) fund reported as part of the General Fund for external reporting purposes. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements.

NEVADA REVISED STATUTE 354.5989 – BUSINESS LICENSES

Nevada Revised Statutes 354.624.4(a) requires a schedule of all fees imposed by the County which are subject to the provisions of NRS 354.5989 be addressed by the independent auditor. During the year ended June 30, 2019, the County did not raise fees on business licenses subject to the limitation of NRS 354.5989. The County business fee is $40.

NEVADA REVISED STATUTE 354.59815 – CAPITAL PROJECTS FUND

Capital Improvements Fund

The County established the Capital Improvements Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. Projects funded during the year were as follows:

Intergovernmental – Payment to City	$ 8,040
Transfer to the Vehicle Capital Projects fund used to purchase vehicles	$ 121,000

Pioche Town Capital Projects Fund

The County established the Pioche Town Capital Projects Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. There were no projects funded during the year.

Panaca Town Capital Projects Fund

The County established the Panaca Town Capital Projects Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. Projects funded during the year were as follows:

Cemetery improvements	$ 1,378

Alamo Town Capital Projects Fund

The County established the Alamo Town Capital Projects Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. There were no projects funded during the year.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

Report on Compliance for Each Major Federal Program

We have audited Lincoln County, Nevada's (the County) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended June 30, 2019. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

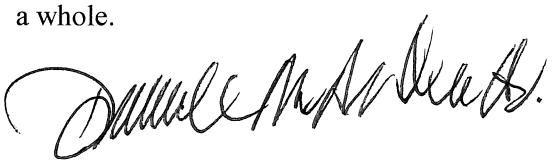
We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.



A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the County as of and for the year ended June 30, 2019, and have issued our report thereon dated November 27, 2019, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

INDEPENDENT AUDITOR'S REPORT

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Lincoln County, Nevada, as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter – Correction of Errors

As described in Note D-17 to the financial statements, certain errors occurred in the determination or classification of payments to satisfy employee contribution requirements in the adoption, as of July 1, 2016, of Governmental Accounting Standards Board (GASB) Statement No. 82, *Pension Issues – An Amendment of GASB No. 67, No. 68, and No. 73.* Net position as of July 1, 2017, has been restated to reflect the correction of deferred outflows of resources. Our opinions are not modified with respect to this matter.

Emphasis of Matter - Change in Accounting Principle

As described in Note D-16 to the financial statements, in 2018, the County adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions.* Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5-13, budgetary comparisons information on pages 62-72, Reconciliation of the General Fund (Budgetary Basis) to the General Fund (GAAP Basis) on page 73, Schedule of Changes in the County's Total OPEB Liability and Related Ratios on page 74, Schedule of the County's Contributions to the Public Employees' Retirement System of the State of Nevada on Page 75, and Schedule of the County's Proportionate Share of the Net Pension Liability Public Employees' Retirement System of the State of Nevada on page 76 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

Comparative Prior Year Information

We also have previously audited, in accordance with auditing standards generally accepted in the United States of America, the County's basic financial statements for the year ended June 30, 2017, which are not presented with the accompanying financial statements and we expressed unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information. That audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements as a whole. The combining and individual fund financial statements and schedules, for the year ended June 30, 2017, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2017 basic financial statements. The information has been subjected to the auditing procedures applied in the audit of those basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2017 combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements from which they have been derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 20, 2018 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness in internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

As management of Lincoln County, Nevada, we offer readers of Lincoln County, Nevada's financial statements this narrative overview and analysis of the financial activities of Lincoln County, Nevada, for the fiscal year end June 30, 2018. The Management's Discussion and Analysis ("MD&A") introduces the financial reports for Lincoln County, Nevada. The MD&A is designed to give the reader an easy-to-understand overview of the County's financial position and results of operations for the year. The MD&A is separated into Financial Highlights, an Overview of the Financial Statements, and a Government-Wide Financial Analysis.

Financial Highlights

The assets of the County exceeded its liabilities at the close of the 2018 fiscal year by $34,546,658 (net position). Total net position represent approximately $26,492,512 in capital assets, net of related debt, $5,659,012 in assets restricted for debt services, capital projects, public works, and for other purposes. The remaining $2,395,134 represents unrestricted net position, which may be used to meet the County's ongoing obligations to its citizens and creditors.

The government-wide net position of the County increased during the fiscal year 2018 by $2,200,152, or 6.80%.

At the end of fiscal year 2018, the County's governmental funds reported combined fund balances of $19,005,151; an increase of $350,906, or 1.88%, when compared to the previous year.

The County's primary revenue sources for governmental activities were ad valorem (property) taxes of $2,987,607, fuel taxes of $1,832,748, federal in lieu taxes of $1,804,715, charges for services of $1,697,650, capital grants and contributions of $1,628,024, consolidated taxes of $1,419,664, and operating grants and contributions of $1,394,184. These revenue sources comprised 22.36%, 13.72%, 13.51%, 12.71%, 12.19%, 10.63%, and 10.44% respectively, or 95.54%, of total governmental activities revenues. Business-type activities revenue from charges for services was $3,602,774.

The County's total government-wide expenses were $14,897,634. The greatest expenses were in the General Government $3,641,595, Public Works $2,201,132, and Public Safety $2,004,934 functions. Business-type activities contributed $3,639,520 to total expenses.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements which consists of government-wide financial statements, fund financial statements, and accompanying notes. This report also contains required supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements: The government-wide financial statements are designed to provide readers with a broad overview of the County's finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the County's assets and liabilities with the difference reported as net position. Increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

Overview of the Financial Statements (Continued)

The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave).

The government-wide financial statements report two types of activities: governmental activities and business-type activities. The government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, public safety, public works, judicial, health, sanitation, welfare, community support, culture and recreation, and intergovernmental. The business-type activities include operations of its detention center, utilities, solid waste, and building department operations.

Fund Financial Statements: A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains individual governmental funds. Information is presented separately in the governmental balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Road Fund, Federal in Lieu Tax Fund, Lincoln County Water District Water Resources Fund, Lincoln County Land Act Special Use Fund, and County Grant Fund, each of which is considered to be a major fund. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the combining and individual fund statements and schedules.

The County adopts an annual appropriated budget for each of its governmental funds. A budgetary comparison statement is provided for each of the County's governmental funds to demonstrate compliance with the budget. The budgetary comparison statements for the major governmental funds are presented as required supplementary information; the budgetary comparison statements for all other governmental funds are included in the fund financial statements accompanying information.

Overview of the Financial Statements (Continued)

Proprietary Funds: The County maintains one type of proprietary fund, the Enterprise Fund. The Enterprise Fund is used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses the Enterprise Funds to account for its utility activities, building department activities, solid waste operation, and operation of the detention center.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the utility funds, building department, solid waste, and detention center. The Detention Center, Pioche Public Utility Electric, and Solid Waste are considered to be major funds of the County.

Fiduciary Funds: Fiduciary funds are used to account for the resources held for the benefit of parties outside of the government; Fiduciary funds are not reported in the government wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The County has one type of fiduciary fund, the Agency fund. The Agency Fund reports resources held by the County in a custodial capacity for individuals, private organizations, and other governments.

Notes to Financial Statements: The notes to the financial statements provide additional information that is essential to acquire a full understanding of the data provided in the government-wide and fund financial statements.

Other Information: In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's progress in funding its obligation to provide other post-employment benefits to its employees; and schedules of budgetary comparisons for both the original and final budgets of the General Fund and the various other major County funds.

The combining statements and individual fund schedules referred to earlier in connection with the nonmajor governmental funds are presented immediately following the required supplementary information.

As noted earlier, net assets may serve over time as a useful indicator of the County's financial position. Assets exceeded liabilities by $34,546,658 as of June 30, 2018, and by $33,692,338 as of June 30, 2017, resulting in a net increase of $854,320, or 2.54%.

A portion of the County's net assets, 76.69%, reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, etc.), net of any related debt outstanding used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the debt.

The County's restricted net assets of 16.38% represents resources that are subject to external restrictions on how they may be used.

The remaining portion of the County's net assets, 6.93%, are unrestricted and may be used to meet the County's ongoing obligations to citizens and creditors.

At June 30, 2018, the County had positive balances in all three categories of net assets.

Changes in net position of the County are summarized as follows:

Program revenues include charges for services, fines and forfeitures, certain licenses and permits, and both operating and capital grants and contributions. General revenues consist of taxes, rent, investment income, and miscellaneous.

For general revenues, the largest of these revenues, ad valorem taxes, decreased by $61,989, or 2.03%. The next largest revenue, fuel taxes, increased by $25,294, or 1.40%, due to increased economic activity in the local economy during the fiscal year 2018. The largest business-type activities revenue came from charges for services related to the utilities, detention center, solid waste, and building department. They increased by $1,348,493, or 59.82%, due primarily to an increase in inmate fees and solid waste activities.

Financial Analysis of the County's Governmental Funds

The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

As of the end of the current fiscal year, the County's governmental funds reported a combined ending fund balance of $19,005,151, an increase of $350,906, or 1.88%, from the prior year. Fund balance components have been classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed on the use of the resources of each fund. Restricted fund balance is $5,626,774, or 29.61% of total. Spending of these resources is constrained by externally imposed (statutory, bond covenant, or grantors) limitations on their use. The largest restricted fund balances include $862,881 for multi-species conservation, $1,073,968 for capital projects, and $1,381,270 for public works.

Committed and assigned fund balances combined to represent 69.22% of total fund balance with spending constrained by either the Board of County Commissioners (for committed) or senior management (for assigned). Committed balances in the special revenue funds are primarily due to revenues directed by the Commission to those funds to support programs. The largest committed fund balances include $3,379,373 for the Lincoln County Water District and $3,955,642 for land act.

Major Funds

General Fund (Budgetary Basis): The General Fund is the chief operating fund of the County. At the end of the current fiscal year, the fund balance (budgetary basis) of the General Fund was $773,139, an increase of $291,080, or 60.38%. The General Fund revenues increased by $9,856, or 0.22%. Taxes decreased by $52,313, or 2.39%. Charges for services decreased by $9,865, or 2.69%, due to decreased tax penalties and costs. Intergovernmental revenues increased by $51,023, or 3.30%, due to increases in consolidated tax and marijuana fees and a decrease in grant revenues.

Expenditures increased by $281,699, or 6.50%. General government expenditures increased by $65,974, or 4.43% due to an increase in county commissioner and executive officer costs. Public safety expenditures increased by $93,762, or 5.75%, due to an increase in capital outlay and benefits for the sheriff's office. Judicial expenditures increased by $112,359, or 9.60% due to an increase in district court services and supplies.

Road Fund: The fund balance for the fund increased by $232,036 to $636,840, or 57.32%. The Road fund expenditures decreased by $538,841, or 27.72%. This decrease was due to a decrease in capital outlay for equipment and road projects.

Federal in Lieu Tax Fund: The fund balance for the fund increased by $312,233 to $2,083,792, or 17.62%. The Federal in Lieu Tax Fund revenues increased by $985,305, or 112.11%. This increase was due to an increase of grant monies and recognizing unearned revenues. Expenditures increased by $261,854, or 40.29%, due to general government expenditures for IT and other expenses.

Lincoln County Water District Water Resources Fund: The Lincoln County Water District Water Resources Fund balance decreased by $108,297, or 3.81%, from the prior year. This was due to negative income and an operating transfer out.

Lincoln County Land Act Special Use Fund: The Lincoln County Land Act Special Use Fund balance increased by $31,584, or 0.85% from the prior year. This was due to receiving building rental income from tri-county weed and investment income with no expenditures.

County Grant Fund: The County Grant Fund revenues increased by $1,338,830, or 106.36%, and expenditures increased by $1,412,292, or 111.73%. These increases were due to receiving more grant monies in the current year.

Financial Analysis of the County's Enterprise Funds

Enterprise Funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the enterprise funds was a deficit of $2,914,098. Total net position for these funds increased by $334,712 from the prior year.

The **Detention Center Fund**, a major fund, had operating revenues increase by $940,773, or 100.66%, due to the new contract to provide inmate housing services. Expenses decreased by $70,794, or 3.43% due to a decrease in salaries and benefits.

The **Pioche Public Utility Electricity Fund**, a major fund, had operating revenues increase by $17,918, or 2.65%, during the year. Operating expenses decreased by $42,745, or 5.70%, due to a decrease in salaries and benefits and depreciation expenses.

The **Solid Waste Fund**, a major fund, had operating revenues increase by $409,459, or 114.84%, due to a full year of operations where the prior year was only a partial year. Operating expenses were $21,269, or 3.75%, lower than the prior year due to a decrease in service and supplies.

General Fund Budgetary Highlights

The original budget (2017-18 Final Budget) was approved May 22, 2017.

Original budget compared to final budget: During the year there was no need for any significant amendments to increase either the original estimated revenues or original budgeted appropriations. However, there was a need to make an amendment to reallocate appropriations among departments when it became clearer which departments would actually be charged for certain expenses. Generally, the movement of the appropriations between departments was not significant.

Final budget compared to actual results: The most significant differences for the General Fund were as follows:

Overall the revenues received were more than budgeted by 0.56% or $24,618. Revenues received in excess of budgeted amounts were 10.92% for intergovernmental and 9.49% for licenses and permits. The shortfall in revenue sources were 2.21% for taxes, 4.43% for charges for services, 18.43% for fines and forfeitures, and 5.76% for miscellaneous revenue.

A review of actual expenditures compared to the appropriations in the final budget shows expenditures were $505,453 less than budgeted or 9.87%. Expenditures were under budget for all functions of the General Fund - general government 8.86%, public safety 3.64%, judicial 4.82%, except for health which was 22.86% over budget.

Actual fund balance (budgetary basis) of $773,139, was $174,913 higher than anticipated to begin the 2018-2019 year.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The County approved the budget for the 2018-2019 year on May 21, 2018. The following factors were considered in the development of the budget.

- Assessed valuation for the County decreased and tax rates remaining unchanged. Therefore, property tax revenues will be lower.
- Population has remained stable and is projected to increase.

Capital Assets and Debt Administration

Total	$ 4,385,353	$ 36,327	$ 229,462	$ 4,192,218	$ 174,634

The County's debt decreased by $873,487 for governmental activities during the current fiscal year. The reductions were from a decrease in estimated net pension liability, estimated OPEB obligation payable, and the payment of debt.

The County's debt decreased by $193,135 for business-type activities during the current fiscal year. The reason for the decrease was a reduction in estimated net pension liability and bond payments.

Per Nevada Revised Statutes Chapter 244A.059, the debt limitation for the County is equal to 10 percent of the assessed valuation of property, excluding motor vehicles, for the current year. The debt limitation currently applicable at June 30, 2018, was $28,658,088.

Additional information on the County's long-term debt can be found in (**Note D6**).

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2018

Net Change in Fund Balance - Governmental Funds	**$**	**350,906**
Amounts reported for governmental activities in the Statement of Activities are different because:		
Capital outlays to purchase or build capital assets are reported in Governmental Funds financial statements as expenditures. However, for governmental activities those costs are shown in the Statement of Net Position and allocated over the estimated useful lives as annual depreciation expenses in the Statement of Activities.		1,133,950
Property taxes that are collected in the time to pay obligations of the current period are reported as revenue in the fund statements. However, amounts that related to prior periods that first become available in the current period should not be reported as revenue in the statement of activities.		3,321
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and other similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		115,939
Generally, expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred.		1,320
Net differences between other post-employment benefits contributions recognized in the fund statement of revenues, expenditures, and changes in fund balances and the Statement of Activities:		
Other post-employment benefits contributions made after measurement date (2018 contributions).		46,229
Net other post-employment benefits expense.		249,809
Net differences between pension system contributions recognized in the fund statement of revenues, expenditures, and changes in fund balances and the statement of activities:		
Pension contributions made after measurment date (2018 contributions).		456,528
Net pension expense.		(492,562)

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

1. Reporting Entity

Lincoln County, Nevada, is governed by an elected five member board. As required by generally accepted accounting principles, these financial statements present Lincoln County, Nevada (the primary government), and its component units. Blended component units, although legally separate entities are, in substance, part of the County's operations. Thus, blended component units are appropriately presented as funds' of the primary government.

2. Blended Component Units

Component units are legally separate organizations for which the County is financially accountable. Lincoln County Water District, Alamo Town, Panaca Town, and Pioche Town are all component units that are part of the County's reporting entity because the County is financially accountable for these entities. Financial accountability is determined primarily by the fact that as the governing body, the County's Board of Commissioners can impose its will on significant aspects of the operations of these entities. These entities are presented as blended component units since the operations of these entities are considered part of County operations.

3. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the County and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities,* which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support.

4. Basis of Presentation - Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the County's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds (enterprise funds), and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

The Statement of Net Position presents the consolidated financial position of the County at year-end, in separate columns, for both governmental and business-type activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or programs are offset by program revenues. Direct expenses are those that are specifically associated with a program or service and are, therefore, clearly identifiable to a particular function. Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other revenues properly not included among program revenues are reported instead as general revenues. This statement provides a net cost or net revenue of specific programs and functions within the County. Those functions with a net cost are generally dependent on general-purpose tax revenues, such as property tax, to remain operational.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the County's funds, including its fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary (enterprise), and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The County reports the following major governmental funds:

General Fund - The General Fund is the County's primary operating fund. It accounts for all financial resources of the general County, except those accounted for in another fund.

Road Fund - The Road Fund is used to account for gas tax revenues allocated for the construction, repair and maintenance of County roads.

Federal in Lieu Tax Fund - The Federal in Lieu Tax Fund is used to account for taxes received in lieu of property taxes for property owned in the County by the Federal Government.

Lincoln County Water District Water Resources Fund - The Lincoln County Water District Water Resources Fund is used to account for general activities of the District, a blended component unit of the government.

Lincoln County Land Act Special Use Fund - The Lincoln County Land Act Special Use Fund is used to account for land sale monies to be spent per ordinances.

County Grant Fund - The County Grant Fund is used to account for monies received to be spent on a specified purpose.

The County reports the following major enterprise fund:

Detention Center Fund - The Detention Center fund is used to account for the activities of the Lincoln County Detention Center, providing detention services for local governments within Nevada.

Pioche Public Utility Electric Fund - The Pioche Public Utility Electric fund is used to account for the charges for providing electric service in Pioche, Nevada.

Solid Waste – The Solid Waste fund is used to account for solid waste disposal throughout the County and land fill operations.

Additionally, the County reports the following fiduciary fund:

Investment Trust – The investment trust fund is an external investment pool operated by the Lincoln County Treasurer. Participants include Caliente City, Lincoln County School District, Range, Panaca Fire Protection District, Pahranagat Fire District, Coyote Springs GID, Pioche Fire District, Southeastern Lincoln County Habitat Conservation Plan GID, and the Lincoln County Fire District.

Agency Funds – The Agency Fund is used to account for assets held by the County in an agency capacity for others and cannot be used to support the government's own programs.

During the course of operations, the County has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in the governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e. enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Basis of Presentation - Fund Financial Statements (Continued)

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

6. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Gross receipts and sales taxes are considered "measurable" when in the hands of intermediary collecting governments and are then recognized as revenue. The government considers revenues to be "available" if they are collected within 60 days of the end of the current fiscal period. Anticipated refunds of taxes are recorded as liabilities and reductions of revenue when they are measurable and the payment seems certain. In general, expenditures are recorded when liabilities are incurred. The exception to this rule is that principal and interest on debt service, as well as liabilities related to compensated absences and claims and judgments, are recorded when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

The major revenue sources of the County include consolidated taxes (including sales tax), fuel taxes, intergovernmental revenue, and property taxes. Property taxes, sales taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the County.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Pioche Public Utility funds are customer charges. Operating revenues for the Building fund come from charges for services for building inspections and permits. The Detention Center receives revenue for housing prisoners of other governments. Expenses are those required to provide the service. The Solid Waste fund is used to account for solid waste disposal throughout the County and landfill operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

7. Budgetary Basis of Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for governmental funds.

a. The statutes provide for the following timetable in adoption of budgets:

(i) Before April 15, the County submits to the Nevada State Department of Taxation a tentative budget for the upcoming fiscal year. The tentative budget includes proposed expenditures and the means to finance them.

(ii) A public hearing must be held by the County Commissioners no sooner than the third Monday in May and no later than the last day in May. Notice of the public hearing must be published once in the local newspaper not more than 14 nor less than 7 days before the hearing.

(iii) On or before June 1, the County Commissioners must adopt a final budget.

b. NRS 354.598005 (1) - provides that the County Commissioners may augment the budget at any time by a majority vote of the Commissioners providing the Commission publish notice of its intention to act in a newspaper of general circulation in the County at least three days before the date set for adoption of the resolution.

c. Nevada Revised Statute 354.598005 (5) allows appropriations to be transferred between functions, funds or contingency accounts if such a transfer does not increase the total appropriation for any fiscal year and is not in conflict with other statutory provisions. The County Auditor may transfer appropriations within any function. The County Auditor may also transfer appropriations between functions or programs within a fund, if the County Commissioners are advised of the action at the next regular meeting; and the action is recorded in the official minutes of the meeting. The County Commissioners may authorize the transfer of appropriations between funds or from the contingency account if the County Commissioners announce the transfer of appropriations at a regularly scheduled meeting and sets forth the exact amounts to be transferred and the accounts, functions, programs and funds affected. The County Commissioners must also set forth its reasons for the transfer; and the action must be recorded in the official minutes of the meeting.

d. Statutory regulations require budget control to be exercised at the function level within the funds.

e. The following funds were augmented during the year: Senior Nutrition, County Grants, and Federal in Lieu Tax Funds had automatic budget augmentations for grant revenue. General Fund, China Springs, Nuclear Waste, and Vehicle Capital Projects were augmented during the year.

f. Generally, budgets for all funds are adopted in accordance with generally accepted accounting principles. Budgeted amounts reflected in the accompanying financial statements recognize amendments made during the year.

g. All appropriations lapse at the end of the fiscal year.

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

a. Cash and Cash Equivalents

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and short term investments with original maturities of three months or less from the date of acquisition.

Cash includes cash deposited in interest-bearing accounts at banks and cash in the custody of fiscal agents of the County.

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

b. Investments

Investments are stated at fair value on the Balance Sheet. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale. Changes in the fair value of County investments are part of investment income which is included in revenue from local sources on the Statement of Activities and the Statement of Revenues, Expenditures, and Changes in Fund Balances of governmental funds. (**See Note D1**)

Nevada Revised Statutes authorize the County to invest in:

1. Obligations of the U.S. Treasury and U.S. Agencies in which the maturity dates do not exceed more than 10 years from the date of purchase.

2. Negotiable certificates of deposit issued by commercial banks or insured savings and loan associations (those over $250,000 must be fully collateralized).

3. Negotiable notes or short-term negotiable bonds issued by local governments within Nevada.

4. Eligible bankers' acceptances that do not exceed 270 days maturity and do not exceed 20 percent of the portfolio.

5. Commercial paper with a rating of A-1 or P-1 that does not exceed 240 days maturity and does not exceed 20 percent of the portfolio.

6. The State of Nevada's Local Government Investment Pool.

7. Repurchase agreements that are collateralized at 102 percent of the repurchase price and do not exceed 90 days maturity. Securities used for collateral must meet the criteria listed above.

8. Money market mutual funds which are rated as "AAA" or its equivalent and invest only in securities issued by the Federal Government, U.S. Agencies, or repurchase agreements fully collateralized by such securities.

c. Property Tax

Taxes on real property are levied on July 1st of each year and are due on the third Monday in July. They can be paid in quarterly installments in August, October, January, and March. In the event of nonpayment, the County Treasurer is authorized to hold the property for two years, subject to redemption upon payment of taxes, penalties, and costs, together with interest at a rate of 10 percent per year from the date the taxes were due until paid. If delinquent taxes are not paid within the two year redemption period, the County Treasurer obtains a deed to the property free of all encumbrances. Upon receipt of a deed, the County Treasurer may sell the property to satisfy the tax lien.

Article X, Section 2 of the Constitution of the State of Nevada limits the total taxes levied by all overlapping governmental units within the boundaries of any County (i.e., the County, the County School District, the State and any other City, Town, or Special District) to an amount not to exceed $5 per $100 of assessed valuation of the property being taxed.

The Nevada Legislature enacted provisions whereby the combined overlapping tax rate was limited to $3.64 per $100 of assessed valuation.

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

d. Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

e. Restricted Assets

Certain cash assets of the Enterprise Funds are from revenue for specific use by the Enterprise Funds and are classified as restricted assets because their use is restricted by agreement. **(See Note D5)**

f. Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial individual cost of more than $500 and an estimated useful life in excess of one year.

If purchased or constructed, capital assets are recorded at historical cost or estimated historical cost and updated for additions and retirements during the year. Donated capital assets are valued at their estimated value as of the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Land and construction in progress are not depreciated. The other property, plant and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

Capital Assets	Years
Vehicles	10
Equipment	5-20
Buildings and Improvements	20-50
Infrastructure	25-50

The County is required to report and depreciate new infrastructure assets. Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc. Neither their historical cost nor related depreciation has historically been reported in the financial statements. The County is required to capitalize and report its major general infrastructure assets acquired in fiscal years ending after June 30, 1980. In addition, infrastructure assets acquired before June 30, 1980, that received significant reconstruction must be capitalized.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

g. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows include the County's pension related contributions subsequent to the measurement date but before the end of the fiscal year and changes in proportion of the District's contributions to the County's proportionate contributions.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has only one type of item, which arises only under a modified accrual basis of accounting, which qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source, property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available.

Deferred inflows of resources represent an acquisition of net positon that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. The difference between projected and actual experience and investment earnings are related to the deferred inflows of pensions and the calculation of net pension liability reported on the statement of net position.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Nevada (PERS) and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

h. Governmental Fund Balances:

In the governmental fund financial statements, fund balances are classified as follows:

(i.) **Nonspendable –** Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact, such as inventories and prepaids.

(ii.) **Restricted –** Amounts that can be spent only for a specific purpose because of the state or federal laws, or externally imposed conditions by grantors or creditors.

(iii.) **Committed** –These amounts can only be used for specific purposes as set forth by the County Commissioners. The Commissioners must take formal action (vote approval by the majority), in order to establish an ending fund balance commitment for any specific purpose. Formal Commission action is also required to modify or rescind an established commitment. To be reported as committed, amounts cannot be used for any other purpose unless the Commission takes the same highest level action to remove or change the constraint.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

h. Governmental Fund Balances (Continued):

(iv.) Assigned – Assignments are neither restrictions nor commitments and represent the County's intent to use funds for a specific purpose. These assignments, however, are not legally binding and are meant to reflect intended future use of the County's ending fund balance. Intent can be expressed by the County Commissioners or by the County Auditor.

(v.) Unassigned – All amounts not included in other classifications.

i. Fund Balance Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance.) When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

j. Net Position Policies

In the government-wide statements, net position on the Statement of Net Position includes the following:

(i) Invested in Capital Assets, net of Related Debt

This is the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction, or improvement of those assets.

(ii) Restricted Assets

This is the component of net position that reports the constraints placed on the use of assets by either external parties and/or enabling legislation. Currently, the County restricts assets as follow:

a) NRS 354.598155 Special Ad Valorem Capital Projects
b) NRS 354.6113 Capital Projects Fund
c) NRS 365.190 Road Improvements
d) NRS 354.6115 Budget Stabilization
e) NRS 269 Unincorporated Towns

(iii) Unrestricted

This is the component of net position that is the difference between the assets and liabilities not reported in Invested in Capital Assets, Net of Related Debt and Restricted Assets.

k. Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

l. Comparative Data/Reclassifications

Comparative total data for the prior year has been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the County's financial position and operations. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

m. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

n. Budgetary Stabilization

It is the County's policy to determine the balance or reserve as reasonable and necessary to carry out the purposes of the stabilization fund on a yearly basis. NRS 354.6115 authorizes the creation of a fund to stabilize operations of local governments and mitigate effects of natural disaster. The intent of this policy is to include a portion of the General Fund budgeted ending fund balance that will be restricted to stabilization pursuant to NRS 354.6115. Fund balance that is restricted to stabilization can be used after approval by the board of County Commissioners when total actual revenue falls short of the total anticipated revenue in the General Fund for the fiscal year in which the County uses the money.

9. Revenues and Expenditures/Expenses

a. Compensated Absences

Vested or accumulated vacation and sick leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide financial statements. No expenditure is reported for these amounts in the fund financial statements. (**See Note D6**) Vacation leave and sick leave included in accrued liabilities and recorded as expenditures in governmental fund types is the amount normally liquidated from "available spendable resources."

In proprietary funds, compensated absences are recorded when the liabilities are incurred. In governmental funds, the current portion is recorded as payroll expenditure. The estimated long-term liability for compensated absences is accounted for in the government-wide financial statements.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

9. Revenues and Expenditures/Expenses (Continued)

b. Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

c. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTE B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of certain differences between the governmental funds Balance Sheet and the government-wide Statement of Net Position

The governmental fund balance sheet includes reconciliation between fund balances - total governmental funds and net position - governmental activities as reported in the government-wide statement of net position. One element of the reconciliation explains that "certain liabilities (such as bonds payable and capital leases payable) are not reported in the Governmental funds financial statements because they are not due and payable, but they are presented as liabilities in the statement of net position." The details of this difference are as follows:

Interest payable	$ (599)
Capital lease payable	(29,966)
Notes payable	(74,798)
Compensated absences	(438,130)
Net adjustment to reduce fund balance - total governmental funds to arrive at net position - governmental activities	$ (543,493)

NOTE B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

2. Explanation of certain differences between the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the government-wide Statement of Activities

The governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net position of governmental activities as reported in the government-wide Statement of Activities. One element of that reconciliation explains that "Capital outlays to purchase or build capital assets are reported in Governmental Funds financial statements as expenditures. However, for governmental activities those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expense in the statement of activities." The details of this difference are as follows:

Capital outlay	$ 2,476,007
Book value of disposed assets	(106,927)
Depreciation expense	(1,235,130)
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	$ 1,133,950

Another element of that reconciliation states that, "The issuance of long-term debt (i.e., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on Net Position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and other similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items." The details of this difference are as follows:

General obligation debt principal payments	$ 115,939
Net adjustment to increase net change in fund balances – governmental funds to arrive at change in net position of governmental activities	$ 115,939

Another element of that reconciliation states that "Generally, expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred." The details of this difference are as follows:

Accrued interest	$ 696
Compensated absences	625
Net adjustment to increase net change in fund balances – governmental funds to arrive at change in net position of governmental activities	$ 1,320

NOTE C. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

1. Compliance and Accountability

The County conformed to significant statutory requirements regarding financial administrations except as follows:

Per NRS 354.626, the County is required to report expenditures that exceeded budgeted appropriations at the function level for the General Fund, Special Revenue Funds, and Capital Project Funds. Enterprise funds may not exceed budget appropriations at the fund level. For the year ending June 30, 2018, the County had the following expenditures over appropriations that are required to be reported.

General Fund – Health function	$ 9,748
Room Tax Fund – Culture and recreation function	$ 27,041
Room Tax Fund – Intergovernmental function	$ 585
Legal Aid Services Fund – Judicial function	$ 4,540
Genetic Marker Fund – General government function	$ 338
Detention Center – Enterprise Fund	$ 140,247

The General Fund over expenditure is related to an increase in the monthly payments for State Health Nurse. The Room Tax Fund over expenditure is related to an increase in Room Tax expenditures for local events and an increase in room tax revenues causing additional payments to the State. The Legal Aid Fund over expenditure is related to unanticipated legal services. Genetic Marker Fund over expenditures were due to an increase in required testing. The Detention Center expenditures were in excess of the authorized budget due to additional costs associated with an increase in inmate populations.

2. Deficit Fund Balance/Net Position

Airport Special Revenue Fund	$ 269
Detention Center Enterprise Fund	$ 2,359,765
Building Department Enterprise Fund	$ 77,293

The deficit net position of the Detention Center and Building Department Enterprise funds are due to the individual fund's proportionate share of the net pension liability of the Public Employees' Retirement System of the State of Nevada. See **Note D-12** of the financial statement. The Airport fund deficit is due to a short fall in expected revenues.

NOTE D. DETAILED NOTES ON ALL FUNDS

1. Pooled Cash and Investments

The County maintains a cash and investment pool that is available for use by all funds under the custody of the County Treasurer. At June 30, 2018, this pool is displayed by the statement of net position and major and other governmental funds on the governmental funds balance sheet as "Pooled Cash and Investments."

A reconciliation of cash and investments as shown in the Statement of Net Position is as follows:

Cash in the hands of officers	$ 301,972
Carrying amount of deposits	4,209,604
Fair value of investments	19,803,075
Total	$24,314,651

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

1. Pooled Cash and Investments (Continued)

A reconciliation of cash and investments as for the County is as follows:

Government-wide pooled cash and investments	$19,854,508
Restricted cash	72,243
Total primary government	$19,926,751
Investment trust fund	3,691,584
Agency fund cash	696,316
Total reporting entity	$24,314,651

Except for financial reporting purposes, the cash balances of $4,387,900 in the Agency Funds are not normally considered part of the County's pooled cash and investments. These amounts represent cash held in an agency capacity by the County and cannot be used in the County's normal operations.

The cash and investment pool is available for use by all funds of the County. Cash and investments under the custody of the County Treasurer are invested as a pool. The County Treasurer may invest the money of the investment pool in investments which have been authorized as investments by Nevada Revised Statutes. (**See Note A8b**)

Investment income is apportioned to the funds within the pool monthly based on the average balance invested for the month.

State statutes authorize the County to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and the State Treasurer's Investment Pool.

Cash and investment are subject to the following risks:

Interest Rate Risk: Interest rate risk is the risk of possible reduction in the value of a security, especially a bond, resulting from the rise in interest rates. Nevada Revised Statutes limits bankers' acceptances to 180 days of maturities, repurchase agreements to 90 days, U.S. Treasuries and Agencies to less than 10 years, and commercial paper to 270 days maturity. The approximate weighted average maturity of investments in the Lincoln County Treasurer's investment pool was 1.87 years.

As of June 30, 2018, monies held in the Lincoln County Treasurer's cash and investment pool are categorized as follows:

		Investment Maturities (In Years)		
Investment Type	Fair Value	Less than 1	1-5	6-10
U.S. Government and Agencies:				
U.S. Treasury note	$ 6,904,853	$ 1,324,298	$ 5,580,555	$ 0
U.S. Agency mortgage-backed	8,437,773	4,348,967	4,088,807	0
Money market funds	1,306,393	1,306,393	0	0
Negotiable certificates of deposit	3,154,056	0	3,154,056	0
Total Investments	$19,803,075	$ 6,979,658	$ 12,823,417	$ 0

Governmental Accounting Standards require fair value reporting of all investments. The fair value of the County's investments was determined by market quotes.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

1. Pooled Cash and Investments (Continued)

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation and is a function of the credit quality ratings of its investments. The Nevada Revised Statutes limits investments instruments by their credit risk **(Note A8a)**. The State of Nevada Local Government Investment Pool is an unrated external investment pool.

As of June 30, 2018, monies held in the Lincoln County Treasurer's cash and investment pool are categorized as follows:

		Quality Ratings by Moody's	
Investment Type	Fair Value	Aaa	N/A
U.S. Government and Agencies:			
U.S. Treasury note	$ 6,904,853	$ 6,904,853	$ 0
U.S. Agency mortgage-backed	8,437,773	8,437,773	0
Money market funds	1,306,393	0	1,306,393
Negotiable certificates of deposit	3,154,056	0	3,154,056
Total Investments	$19,803,075	$ 15,342,626	$ 4,460,449

Custodial Credit Risk: Custodial credit risk is the risk that in the event of a bank or brokerage failure, the County's deposits may not be returned. The County's bank deposits are generally covered by FDIC insurance and are collateralized by the Office of the State Treasurer/Nevada Collateral Pool. At year-end, the County's carrying amount of deposits was $4,209,604 and the bank balance was $4,366,727. Of the bank balance, $327,190 was covered by federal depository insurance. Of the remaining balance, $4,039,537 was collateralized with securities held by the Nevada Pooled Collateral Program.

Concentrations of Credit Risk: Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. Investments with a single issuer within the Lincoln County Treasurer Cash and investment pool that represent five percent or more of total investments as of June 30, 2018, are as follows:

Federal Farm Credit Bank (FFCB)	10.39%	Federal Home Loan Banks (FHLB)	8.37%
Federal Home Loan Mortgage Corporation (FHLMC)	14.70%	U.S. Treasury Note	37.33%
Federal National Mortgage Association (FNMA)	12.16%		

Fair Value: The County implemented GASB Statement No. 72, Fair Value Measurement and Application, in 2016 to categorize its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The County has the following recurring fair value measurements as of June 30, 2018:

Investment Type	Fair Value	Level 1	Level 2	N/A
U.S. Government and Agencies:				
U.S. Treasury note	$ 6,904,853	$ 6,904,853	$ 0	$ 0
U.S. Agency mortgage-backed	8,437,773	0	8,437,773	0
Money market mutual fund	1,306,393	0	0	1,306,393
Negotiable certificates of deposit	3,154,056	0	0	3,154,056
Total Investments	$19,803,075	$ 6,904,853	$ 8,437,773	$ 4,460,449

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

External Investment Pool: The County administers an external investment pool combining the County funds with involuntary investments from Caliente City, Lincoln County School District, Range, Panaca Fire Protection District, Pahranagat Fire District, Coyote Springs GID, Pioche Fire District, Southeastern Lincoln County Habitat Conservation Plan GID, and the Lincoln County Fire District. The Board of County Commissioners has the overall responsibility of investment of funds including the external investment pool in accordance with NRS 355.175. The Lincoln County Treasurer is delegated investment responsibilities. The fair value of investments is determined monthly as statements from the various investment companies are received. Each participant's share is equal to their original investment plus or minus monthly allocations of interest income, and realized and unrealized gains and losses. The County has not provided nor obtained any legally binding guarantees to support the value of the shares.

A summary of investments held in external investment pools at June 30, 2018, is as follows:

Investment Type	Fair Value	Principal Amount	Interest Rate
U.S. Government and Agencies:			
U.S. Treasury notes	$ 4,537,525	$ 4,630,000	Variable

Cash – Solid Waste	40,005
Total restricted cash	$ 72,243

6. Long-term Debt

Governmental Type Activities:

Note Payable

a. The County borrowed money for the purchase of BLM land. The original principal of the note was $440,000. Payments are due in monthly installments of $4,383 through November, 2019, with interest at 5%.

Year Ending June 30,	Remaining Payments	Interest	Principal
2019	$ 52,589	$ 1,948	$ 50,641
2020	24,428	271	24,157
	$ 77,017	$ 2,219	$ 74,798

Capital Leases

a. The County entered into lease agreements for 4 public safety vehicles at $120,000. The leases have been classified as capital leases according to generally accepted accounting principles. The leases contain non-funding clauses whereby the leases are terminated without penalty should the County fail in a budget year to appropriate money for the payment. The vehicles have a ten-year estimated useful life. This year, $12,000 was included in depreciation expense. These lease agreements qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. The lease was paid in full during the year.

Capital Leases

b. During the year ending June 30, 2017, the County entered into a lease agreement for 3 public safety vehicles totaling $90,000. The leases have been classified as capital leases according to generally accepted accounting principles. The leases contain non-funding clauses whereby the leases are terminated without penalty should the County fail in a budget year to appropriate money for the payment. The vehicles have a ten-year estimated useful life. This year, $9,000 was included in depreciation expense. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2018, were as follows:

Year Ending June 30,	Remaining Payments	Amount Representing Interest	Present Value of Net Minimum Lease Payments
2018	$ 31,764	$ 1,798	$ 29,966

Business-Type Activities:

Revenue Bonds The County issues revenue bonds to provide funds for the acquisition and construction of utility capital assets. Revenue bonds have been issued for the business-type activities. Revenue bonds are an obligation of the enterprise utility funds for which the capital assets were acquired or constructed. Revenue bonds outstanding at June 30, 2018, are as follows:

a. $210,000, 2007 Pioche Town Sewer bond is payable to the U.S. Department of Agriculture-Rural Development. The bond is payable in semi-annual payments of $5,584 including interest. The interest rate is 4.375%. The bond agreement requires the County to establish and fund monthly a debt service reserve fund equal to 10% of the semi-annual payment each month over the life of the loan until they accumulate one annual installment. This reserve fund can be used for emergency maintenance and repairs, and debt repayment should the need arise. The required reserve as of June 30, 2018, is $11,490. The balance in the reserve account was $11,490 as of June 30, 2018 **(See Note D-5)**. The outstanding balance of bonds payable at June 30, 2018, was $183,937.

Annual debt service requirements to maturity for the revenue bond are as follows:

Year Ending June 30,	Principal	Interest
2019	$ 3,154	$ 8,014
2020	3,294	7,874

7. Interfund Transfers

Interfund operating transfers are made from one fund to another fund to support expenditures in accordance with the authority established for the individual funds. Transfers between fund types during the year ended June 30, 2018, were:

	Total	Transfer Out					
	Transfers In	General	Road	Federal In Lieu	LC Water District Water Resources	Nonmajor Special Revenue	Nonmajor Capital Projects
General Fund	$ 340,000	$ -	$ -	$ 340,000	$ -	$ -	$ -

Following are explanations of certain interfund transfers of significance to the County:

The General Fund transferred money to the following funds: Vehicle Capital Projects $16,000 and China Springs $10,000 to help cover costs. The General Fund also transferred funds to the Special Projects Fund, which is internally reported in the General Fund, for future projects. The Special Projects Fund did a budgeted transfer to the Property Management Fund to help cover construction costs of $40,000.

The Road Fund transferred $100,000 to the Road Capital Projects Fund to help cover the costs of a new equipment.

The Federal in Lieu Fund transferred money to the following funds: General Fund $265,000, Building Enterprise Fund $40,000, Solid Waste Fund $175,151, Detention Center Fund $21,820, Planning Fund $75,000, Agriculture Extension Fund $7,000, and Resource Development Fund $10,000. These budgeted transfers were made to help cover operating costs. Transfers were also made for $31,041 to the County Grant Fund and $15,197 to the Senior Nutrition Fund for grant match.

The Water District Water Resources Fund transferred $100,000 to the Water District General Fund to cover costs.

The Room Tax Fund transferred $20,000 to the Fair Board Fund to help cover costs and the Library Fund transferred $4,000 to the County Grants Fund. The Regional Transportation Commission Fund transferred $63,000 to the Transportation Fund for operations and $43,721 to the County Grants Fund for grant match.

The Capital Projects Fund transferred money to the following capital projects funds: $98,000 to the Vehicle Capital Projects for assistance with capital asset purchases; $9,817 to the Alamo, Panaca, and Pioche Town Capital Projects Funds for distribution of property taxes collected pursuant to Nevada Revised Statutes 354.59815.

8. Interfund Receivable / Payable

During the 2017 fiscal year the County purchased the Landfill and created the Solid Waste Enterprise Fund. To help cover initial costs and have cash available, the fund borrowed monies from two special revenue funds which is to be repaid over 10 years at 0% interest. The funds which will receive those payments are as follows:

	Due to		Due from
Lincoln County Land Act	$ 190,000	Solid Waste Enterprise	$ 380,000
Lincoln County Water Special Use	190,000		
	$ 380,000		

Annual debt service requirements to maturity for the payable are as follows:

Year Ending June 30,	Principal
2019	$ 20,000
2020	20,000
2021	40,000
2022	40,000
2023	40,000
2024-2027	220,000
	$ 380,000

9. Unearned Revenue

Governmental funds report unearned revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period and also in connection with the resources that have been received but not yet earned. At June 30, 2018, the County had the following unearned revenues:

Qualifying expenditures for expenditure-driven grants have not occurred before June 30, 2018.

County Grant	Other Governmental	Total
$ 165,920	$ 144,572	$ 310,492

Nuclear Waste Fund Grant fund unspent interest as of June 30, 2018, is required by the granting agency to be deferred until spent. The following interest has been recorded as unearned revenue in the Nuclear Waste Fund of $33,508.

10. Unavailable Revenue

Delinquent taxes receivable not collected within sixty days after year-end are recorded as deferred inflows of resources as they are not available to pay liabilities of the current period. At June 30, 2018, the County had the following unavailable revenues:

General	Other Governmental	Total
$ 26,703	$ 11,758	$ 38,461

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

11. Risk Management

Property, Casualty, Crime, and Machinery Insurance

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County joined together with other local governments throughout the State of Nevada to create a pool under the Nevada Interlocal Cooperation Act. The Nevada Public Agency Insurance Pool (NPAIP) is a public entity risk pool currently operating as a common risk management and insurance program for members. The County pays an annual premium and specific deductibles, as necessary, to NPAIP for its general insurance coverage. NPAIP is considered a self-sustaining risk pool that will provide liability coverage for its members up to $10,000,000 per event and a $10,000,000 annual aggregate per member. Property, crime, and equipment breakdown coverage is provided to its members up to $300,000,000 per loss with various sub-limits established for earthquake, flood, equipment breakdown, and money and securities. As a participatory member, the maintenance deductible is $2,000 for each insured event.

The County is self-insured for unemployment claims. Payments are made from the general fund to cover claims.

The County participates in the Public Agency Compensation Trust (PACT). Premiums paid to PACT cover workers' compensation claims against the County. Premiums are based on a percentage of wages paid.

The County carries commercial insurance for all other risks of loss including employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

12. Contingent Liabilities

Grants
Amounts received or receivable from grantor agencies are subject to audit and adjustment by those agencies, principally the Federal Government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

Litigation
The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the County's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the County.

Landfill Closure and Post-Closure Costs
State and federal laws and regulations require the County to place a final cover on its landfill sites when it stops accepting waste and to perform certain maintenance and monitoring functions at the sites for thirty years after closure. The closure and post-closure care costs will be paid only near or after the date that the landfills stop accepting waste.

As of June 30, 2018, the estimated liability to date for closure and post-closure costs is $40,000. This represents the cumulative amount reported to date based on percent use of the estimated liability of $1,700,000 as the remaining capacity is used. Actual costs may be higher due to inflation, changes in technology, or changes in regulations. The County operates one landfill with an estimated remaining life of 39 years. As of June 30, 2018, $40,005, has been restricted for future closure, post-closure, and opening landfill costs in the Solid Waste Fund. The County is presently using the "Local Government Test" as financial assurance mechanism for its closure and post-closure costs.

13. Defined Benefit Pension Plan

Plan Description. All half time and greater County employees are provided pension benefits through the Public Employees' Retirement System of the State of Nevada (PERS), a cost sharing multiple-employer, defined benefit plan administered by the Public Employees' Retirement System of the State of Nevada. PERS provides retirement benefits, disability benefits, and death benefits, including annual cost of living adjustments, to plan members and their beneficiaries. NRS Chapter 286 establishes the benefit provisions provided to the participants of PERS. These benefit provisions may only be amended through legislation. The Public Employees' Retirement System of the State of Nevada issues a publicly available financial report that includes financial statements and required supplementary information for PERS that can be obtained at www.nvpers.org under Quick Links — Publications.

Benefits Provided. Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months. Vested members are entitled to a life-time monthly retirement benefit equal to the service time multiplier (STM) percentages listed below times the member's years of service to a maximum of 30 years. The schedule of Eligibility for Monthly Unreduced Retirement Benefits for regular members and police/fire members are as follows:

Eligibility for Regular Members:

Years of Service	Hired prior to 07/01/01		Hired between 07/01/01-12/31/09		Hired Between 12/31/09-07/01/15		Hired After 7/1/15

25 years	Any	2.50%	Any	2.67%				
30 years					Any	2.50%		

* Only service performed in a position as a police officer or firefighter may be counted towards eligibility for retirement as Police/Fire accredited service.

Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death. Post-retirement increases are provided by authority of NRS 286.575 - .579.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan (Continued)

Contributions: Benefits for plan members are funded under the employer pay contribution plan. The County is required to contribute all amounts due under the plan. PERS receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450. The County's required contribution rates for the year ending June 30, 2018, were 40.50% for police and fire; 28.00% for regular employees; 41.0% for judge; and 14.00% employee/employer match. The County has fully funded the amounts due for the year ending June 30, 2018. For purposes of GASB No. 82, the County recognized only the employer portion as a deferred outflow.

The actuary funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contribution requirement as a percentage of salary.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the County reported a liability of $11,180,767 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's allocation percentage of the net pension liability was based on the total contributions due on wages paid during the measurement period. Each employer's proportion of the net pension liability is based on their combined employer and member contributions relative to the total combined employer and member contributions for all employers for the period ended June 30, 2017. At June 30, 2017, the County's proportion was 0.08407 percent.

For the year ended June 30, 2018, the County recognized pension expense of $492,562. At June 30, 2018, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual results	$ 0	$ 733,684
Net difference between projected and actual earnings on pension plan investments	72,595	0
Changes in proportion	252,846	491,782
Changes in assumption	741,738	
County Contributions subsequent to measurement date	647,631	0
Total	$ 1,714,810	$ 1,225,466

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan (Continued)

$647,631 was reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2018	$(234,863)
2019	230,730
2020	41,992
2021	(245,939)
2022	29,203
2023	20,590
	$(158,287)

Actuarial Assumptions: The System's net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.75%
Payroll Growth	5.00%, including inflation
Investment Rate of Return	7.50%
Productivity pay increase	0.50%
Projected Salary increases	Regular: 4.25% to 9.15%, depending on service
	Police/Fire: 4.55% to 13.90%, depending on service
	Rates include inflation and productivity increases
Consumer Price Index	2.75%

Changes of assumptions and other inputs reflect a change in the discount rate from 8.00% as of June 30, 2016, to 7.50% as of June 30, 2017.

Mortality rates were based on the RP-2000 Combined Healthy Mortality Table for Males and Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

Actuarial assumptions used in the June 30, 2017, valuation were based on the results of the experience review completed in 2017.The System's policies, which determine the investment portfolio target asset allocation, are established by the Public Employees' Retirement Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System.

13. Defined Benefit Pension Plan (Continued)

The following was the Board adopted policy target asset allocation as of June 30, 2017:

Asset Class	Target Allocation	Long-Term Geometric Expected Real Rate of Return*
Domestic Equity	42%	5.50%
International Equity	18%	5.75%
Domestic Fixed	30%	0.25%
Private Markets	10%	6.80%

*As of June 30, 2017, PERS' long-term inflation assumption was 2.75%

Discount Rate: The discount rate used to measure the total pension liability was 7.50% as of June 30, 2017. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the pension plan's fiduciary net position at June 30, 2017, was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2017.

Sensitivity of the County's proportionate share of the net pension liability to change in the discount rate: The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percent higher or lower than the current rate.

	1.0% Decrease (7.0%)	Discount Rate (8.0%)	1.0% Increase (9.0%)
County's proportionate share of the net pension liability	$ 16,902,821	$ 11,180,767	$ 6,429,266

Pension Plan Fiduciary Net Position: Detailed information about the pension plan's fiduciary net position is available in the PERS Comprehensive Annual Financial Report, available on the PERS website.

Pension contributions payable: At June 30, 2018, the County reported payables to the defined benefit pension plan of $25,961 for legally required employer contributions which had not yet been remitted to PERS.

14. Post-Employment Healthcare Plan

Plan Description: The County subsidizes eligible retirees' contributions to the Public Employees' Benefits Plan (PEBP), an agent multiple-employer defined benefit postemployment health care plan administered by the State of Nevada. The plan provides medical, vision, dental and life insurance benefits to eligible retired County employees and beneficiaries. NRS 287.041 assigns the authority to establish and amend benefit provisions to the PEBP nine-member board of trustees. The plan is now closed to current County retirees. However, County employees who previously met the eligibility requirement for retirement within the Nevada Public Employees' Retirement System had the option upon retirement to enroll in coverage under the PEBP and the subsidy provided by the County was determined by their number of years of service. The PEBP issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employee's Benefits Program, 901 S. Stewart Street, Suite 1001, Carson City, NV 89701, by calling (775) 684-7000, or by accessing the website at https://pebp.state.nv.us under Resources – Fiscal & Utilization Reports.

Employees covered by benefit terms. At June 30, 2018, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	25
Inactive employees entitled to but not yet receiving benefit payments	0
Active employees	0
	25

Funding Policy NRS 287.046 establishes the subsidies to be contributed toward the premium costs of the eligible retired County employees. As noted above, the County policy is to only fund retirees who retired prior to July 1, 2009. Plan members receiving benefits have their monthly contributions deducted from their pension checks based on the health plan chosen by the retiree as reduced by the amount of the subsidy. Effective July 2015, the subsidy provided to pre-Medicare retirees varies based on the type of plan selected (PPO or HMO) and by the level of coverage taken (e.g., single, two party, family, etc.). The chart below shows our understanding of monthly amounts currently payable for those with 15 years of PERS service.

Coverage Level	PPO CDHP	Standard HMO	Alternate HMO
	15 Years of Service		
Retiree Only	$ 709.19	$ 429.26	$ 412.43
Retiree + Spouse	1,158.03	678.83	645.18
Retiree + Child(ren)	1,098.13	557.66	530.78
Retiree + Family	1,546.96	807.23	763.52

All Medicare eligible retirees participate in a Medicare Exchange with PEBP providing a service related contribution to a Health Reimbursement Arrangement (HRA) equal to $12 per month per year of service (maximum $240 per month). The contribution requirements of plan members and the County are established and amended by the PEBP board of trustees. As a participating employer, the County is billed for the subsidy on a monthly basis and is legally required under NRS 287.023 to provide for it.

For fiscal year 2018, the County contributed $51,515 to the plan for current premiums. The County did not prefund any future benefits.

Important Dates used in the Valuation:

Valuation Date:	June 30, 2017
Measurement Date:	June 30, 2017
Measurement Period:	June 30, 2016 to June 30, 2017
Fiscal Year End:	June 30, 2018

Significant Results and Differences from the Prior Valuation:

This is the first report reflecting the requirements of Governmental Accounting Standards Board Statement No. 75. The assumptions used to develop the information in this report are the same assumptions used for the June 30, 2017, valuation. The only difference is the discount rate applied to develop the liability at the beginning of the measurement period, as required by Governmental Accounting Standards Board Statement No. 75. The beginning of the period liability was calculated by rolling back the June 30, 2017, valuation results.

Total Other Post-Employment Benefits (OPEB) Liability

The County's OPEB liability of $577,776 was measured as of June 30, 2017, and determined by actuarial valuation as of that date.

The County has elected to calculate the total OPEB liability and related information using the alternative measurement method permitted by Governmental Accounting Standards Board Statement No. 75 for employers in plans with fewer than one hundred total plan members.

Actuarial Assumptions and Other Inputs: The total OPEB liability in the June 30, 2017, actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement:

	PEBP
Inflation rate	2.75%
Salary Increase	Not applicable; there are no active employees in this plan.
Discount Rate	3.13%
Healthcare Cost Trend Rates	7.00% decreasing 0.5% per year to an ultimate rate of 5.00% for 2023 and later years.
Retirees' share of benefit-related costs	0%

The discount rate was based on the S & P General Obligation Municipal Bond 20 year High Grade Index.

Mortality rates were based on the social security administration's actuarial life tables.

Actuarial assumptions used in the June 30, 2017, valuation were based on the results of an actuarial experience study for the period of June 30, 2016, to June 30, 2017.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2018, the County recognized OPEB expense of $249,809. At June 30, 2018, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual results	$ 0	$ 0
Changes of assumptions or other inputs	0	0
County Contributions subsequent to measurement date	51,515	0
Total	$ 51,515	$ 0

$51,515 reported as deferred outflows of resources related to OPEB resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ended June 30, 2019. There were no other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB to be recognized as OPEB expense.

15. Water Sales

The Water District has entered into a water delivery teaming agreement. The purpose of the agreement is to develop a water infrastructure and provide wholesale water to adjoining water districts and/or developers who require water. Investment to develop the water sources are funded by the partner. The Water District is not required to provide funding. Should projects fail, the Water District has no liability for costs incurred by the partner. If the projects are completed and revenues are generated from the sale of water, revenues collected will be applied to the investment of the partner until paid in full for the successful projects. After payment of project expenditures, the Water District will be entitled to 50 percent of remaining monies. Should the Water District withdraw from the agreement, the Water District will be required to reimburse the partner's investment costs. Revenues, if any, from water sales are recorded in the Lincoln County Water District funds.

16. Change in Accounting Principle

Effective July 1, 2017, the County adopted Governmental Accounting Standards Board Statement (GASB) No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. GASB No. 75 addresses accounting and financial reporting for other postemployment benefits provided to the County's employees through the Nevada Public Employees' Benefit Plan (PEBP). The statement also requires various note disclosures and required supplementary information. The effect of the implementation of this standard on beginning net position is disclosed in Note D-18.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

17. Correction of Errors

Governmental Accounting Standards Board (GASB) Statement No. 82, *Pension Issues – An Amendment of GASB No. 67, No. 68, and No. 73.* was effective for periods beginning after June 15, 2016. GASB 82 addresses some issues raised with previous GASB statements including No. 68. More specifically, GASB No. 82 addressed the following issues: (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements.

Certain errors occurred in the determination or classification of payments to satisfy employee contribution requirements in the adoption, as of July 1, 2016, of GASB Statement No. 82, *Pension Issues – An Amendment of GASB No. 67, No. 68, and No. 73* resulting in the overstatement of amounts previously reported for deferred outflows of resources, net pension liability-related amounts for the year ended June 30, 2017. Corrections of the amounts for deferred outflows of resources have resulted in a restatement of net position as of July 1, 2017.

Because PERS is a state-wide multi-employer plan that covers substantially all employees of the State, its agencies, and its political subdivisions, including the employees of the County, it is the responsibility of the State Controller's office to perform the GASB calculations according to the applicable pension related statements and disseminate that information to the applicable agencies and political subdivisions for inclusion in their audited financial statements. The eventual dissemination of the GASB No. 82 information occurred after most of the State's political subdivisions had already issued and filed their audited financial statements.The County did not receive the GASB No. 82 information in time to include it in its fiscal year 2017 audited financial statements; accordingly, the County implemented GASB No. 82 in fiscal year 2018. The effect of the implementation of these standards on beginning net position is disclosed in Note D-18.

18. Change in Net Position

As of July 1, 2017, the County adopted Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions* and Governmental Accounting Standards Board Statement No. 82, *Pension Issues.* The effect of the implementation of these standards on beginning net position is as follows:

	Governmental	Business-Type
Net position previously reported, July 1, 2017	$ 34,154,240	$ (461,902)
Change in total OPEB liability (GASB 75-OPEB)	(784,154)	(96,434)

Fiscal year 2015 was the first year of implementation, therefore, only four years are shown.

The County's proportionate share of the net pension liability is based upon the measurment taken on June 30th, of the prior year.

See accompanying notes to required supplementary information.

Note 1 – Explanation of Differences between General Fund (Budgetary Basis) and General Fund (GAAP Basis)

The accompanying Reconciliation of the General Fund (Budgetary Basis) to the General Fund (GAAP Basis) presents balances combined for external financial reporting purposes.

With the implementation of GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the budgetary basis of accounting for the General Fund differs from generally accepted accounting principles (GAAP).

Guidance in GASB Statement 54 changed the definition of Special Revenue Funds for financial reporting purposes. Pursuant to statute, budget comparisons are required using the budget adopted. Six internally reported special revenue funds of the County (Stabilization, Planning, Rachel Jones Memorial Cemetery, Flood Control, Special Projects, Lincoln County Land Act Emergency Disaster, and Lincoln County Water Emergency Disaster) are combined with the General Fund for external reporting purposes to conform with generally accepted accounting principles.

Note 2 – Net Pension Liability

Changes in benefit terms. Legislation passed in the 2015 Legislative session made changes to a number of plan provisions. These changes were effective July 1, 2015, and apply only to members whose effective date of membership is on or after July 1, 2015. Changes to certain survivor benefit provisions were made effective for survivors of members killed in the line of duty or in the course of employment on or after July 1, 2013, for payments on or after July 1, 2015. The July 1, 2015, sunset on the critical labor shortage exception to the reemployment restriction was repealed. There have been no changes in benefit terms since the last valuation.

Changes in assumptions. Based on the June 30, 2016, Actuarial Experience Study, the following assumptions were changed. Previously, these assumptions were as follows:

Net Investment Return:	8.00% (including 3.50% for inflation).	
Consumer Price Index:	Increase of 3.50% per year.	
Salary Increases:	*Inflation:*	3.50% Plus
	Productive pay increases:	0.75% Plus

Note 3 – Other Post-Employment Benefits Liability

Changes in benefit terms. There have been no changes in benefit terms since the last valuation.

Changes in assumptions. Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated November 20, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

AUDITOR'S COMMENTS

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

In connection with our audit of the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County) as of and for the year ended June 30, 2018, and the related notes to the financial statements, nothing came to our attention that caused us to believe that the County failed to comply with the specific requirements of Nevada Revised Statutes referenced below insofar as they relate to accounting matters except as noted below. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the County's noncompliance with the requirements of Nevada Revised Statutes noted below, insofar as they relate to accounting matters.

CURRENT YEAR STATUTE COMPLIANCE

Expenditures in Excess of Appropriations

Per NRS 354.626, the County is required to report expenditures that exceeded budgeted appropriations at the function level for the General Fund, Special Revenue Funds, and Capital Project Funds. Enterprise funds may not exceed budget appropriations at the fund level. For the year ending June 30, 2018, the County had the following expenditures over appropriations that are required to be reported.

General Fund – Health function	$ 9,748
Room Tax Fund – Culture and recreation function	$ 27,041
Room Tax Fund – Intergovernmental function	$ 585
Legal Aid Services Fund – Judicial function	$ 4,540
Genetic Marker Fund – General government function	$ 338
Detention Center – Enterprise Fund	$ 140,247

The General Fund over expenditure is related to an increase in the monthly payments for State Health Nurse. The Room Tax Fund over expenditure is related to an increase in Room Tax expenditures for local events and an increase in room tax revenues causing additional payments to the State. The Legal Aid Fund over expenditure is related to unanticipated legal services. Genetic Marker Fund over expenditures were due to an increase in required testing. The Detention Center expenditures were in excess of the authorized budget due to additional costs associated with an increase in inmate populations.

Deficit Fund Balance/Net Position

Airport Special Revenue Fund	$ 269
Detention Center Enterprise Fund	$ 2,359,765
Building Department Enterprise Fund	$ 77,293

The deficit net position of the Detention Center and Building Department Enterprise funds are due to the individual fund's proportionate share of the net pension liability of the Public Employees' Retirement System of the State of Nevada. The Airport fund deficit is due to a short fall in expected revenues.

PROGRESS ON PRIOR YEAR STATUTE COMPLIANCE

The County had similar findings in the current year as listed above.

CURRENT YEAR RECOMMENDATIONS

We noted no material weakness and reported no significant deficiencies in internal controls.

PRIOR YEAR RECOMMENDATIONS

We noted no material weakness and reported no significant deficiencies in internal controls in the prior year.

NEVADA REVISED STATUTE 354.6115 - STABILIZATION FUND

The County created a stabilization fund in accordance with Nevada Revised Statute 354.6115, "Fund to stabilize operations of local government and mitigate effects of natural disaster". The fund is reported on pages 237 and 238 of the financial statements as an "internally reported (budgetary basis) fund reported as part of the General Fund for external reporting purposes. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements.

NEVADA REVISED STATUTE 354.5989 – BUSINESS LICENSES

Nevada Revised Statutes 354.624.4(a) requires a schedule of all fees imposed by the County which are subject to the provisions of NRS 354.5989 be addressed by the independent auditor. During the year ended June 30, 2018, the County did not raise fees on business licenses subject to the limitation of NRS 354.5989. The County business fee is $40.

NEVADA REVISED STATUTE 354.59815 – CAPITAL PROJECTS FUND

Capital Improvements Fund

The County established the Capital Improvements Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. Projects funded during the year were as follows:

Intergovernmental – Payment to City	$ 7,637

Pioche Town Capital Projects Fund

The County established the Pioche Town Capital Projects Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. There were no projects funded during the year.

Panaca Town Capital Projects Fund

The County established the Panaca Town Capital Projects Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. Projects funded during the year were as follows:

INDEPENDENT AUDITOR'S REPORT

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Lincoln County, Nevada, as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter – Correction of Errors

As described in Note D-17 to the financial statements, certain errors occurred in the determination or classification of payments to satisfy employee contribution requirements in the adoption, as of July 1, 2016, of Governmental Accounting Standards Board (GASB) Statement No. 82, *Pension Issues – An Amendment of GASB No. 67, No. 68, and No. 73.* Net position as of July 1, 2017, has been restated to reflect the correction of deferred outflows of resources. Our opinions are not modified with respect to this matter.

Emphasis of Matter - Change in Accounting Principle

As described in Note D-16 to the financial statements, in 2018, the County adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions.* Our opinions are not modified with respect to this matter.

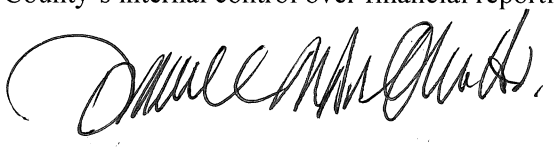
Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5-13, budgetary comparisons information on pages 62-72, Reconciliation of the General Fund (Budgetary Basis) to the General Fund (GAAP Basis) on page 73, Schedule of Changes in the County's Total OPEB Liability and Related Ratios on page 74, Schedule of the County's Contributions to the Public Employees' Retirement System of the State of Nevada on Page 75, and Schedule of the County's Proportionate Share of the Net Pension Liability Public Employees' Retirement System of the State of Nevada on page 76 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and is also not a required part of the basic financial statements.



The combining and individual fund financial statements and schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules, and schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Comparative Prior Year Information

We also have previously audited, in accordance with auditing standards generally accepted in the United States of America, the County's basic financial statements for the year ended June 30, 2017, which are not presented with the accompanying financial statements and we expressed unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information. That audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements as a whole. The combining and individual fund financial statements and schedules, for the year ended June 30, 2017, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2017 basic financial statements. The information has been subjected to the auditing procedures applied in the audit of those basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2017 combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements from which they have been derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 20, 2018 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

As management of Lincoln County, Nevada, we offer readers of Lincoln County, Nevada's financial statements this narrative overview and analysis of the financial activities of Lincoln County, Nevada, for the fiscal year end June 30, 2018. The Management's Discussion and Analysis ("MD&A") introduces the financial reports for Lincoln County, Nevada. The MD&A is designed to give the reader an easy-to-understand overview of the County's financial position and results of operations for the year. The MD&A is separated into Financial Highlights, an Overview of the Financial Statements, and a Government-Wide Financial Analysis.

Financial Highlights

The assets of the County exceeded its liabilities at the close of the 2018 fiscal year by $34,546,658 (net position). Total net position represent approximately $26,492,512 in capital assets, net of related debt, $5,659,012 in assets restricted for debt services, capital projects, public works, and for other purposes. The remaining $2,395,134 represents unrestricted net position, which may be used to meet the County's ongoing obligations to its citizens and creditors.

The government-wide net position of the County increased during the fiscal year 2018 by $2,200,152, or 6.80%.

At the end of fiscal year 2018, the County's governmental funds reported combined fund balances of $19,005,151; an increase of $350,906, or 1.88%, when compared to the previous year.

The County's primary revenue sources for governmental activities were ad valorem (property) taxes of $2,987,607, fuel taxes of $1,832,748, federal in lieu taxes of $1,804,715, charges for services of $1,697,650, capital grants and contributions of $1,628,024, consolidated taxes of $1,419,664, and operating grants and contributions of $1,394,184. These revenue sources comprised 22.36%, 13.72%, 13.51%, 12.71%, 12.19%, 10.63%, and 10.44% respectively, or 95.54%, of total governmental activities revenues. Business-type activities revenue from charges for services was $3,602,774.

The County's total government-wide expenses were $14,897,634. The greatest expenses were in the General Government $3,641,595, Public Works $2,201,132, and Public Safety $2,004,934 functions. Business-type activities contributed $3,639,520 to total expenses.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements which consists of government-wide financial statements, fund financial statements, and accompanying notes. This report also contains required supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements: The government-wide financial statements are designed to provide readers with a broad overview of the County's finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the County's assets and liabilities with the difference reported as net position. Increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

Overview of the Financial Statements (Continued)

The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave).

The government-wide financial statements report two types of activities: governmental activities and business-type activities. The government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, public safety, public works, judicial, health, sanitation, welfare, community support, culture and recreation, and intergovernmental. The business-type activities include operations of its detention center, utilities, solid waste, and building department operations.

Fund Financial Statements: A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains individual governmental funds. Information is presented separately in the governmental balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Road Fund, Federal in Lieu Tax Fund, Lincoln County Water District Water Resources Fund, Lincoln County Land Act Special Use Fund, and County Grant Fund, each of which is considered to be a major fund. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the combining and individual fund statements and schedules.

The County adopts an annual appropriated budget for each of its governmental funds. A budgetary comparison statement is provided for each of the County's governmental funds to demonstrate compliance with the budget. The budgetary comparison statements for the major governmental funds are presented as required supplementary information; the budgetary comparison statements for all other governmental funds are included in the fund financial statements accompanying information.

Overview of the Financial Statements (Continued)

Proprietary Funds: The County maintains one type of proprietary fund, the Enterprise Fund. The Enterprise Fund is used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses the Enterprise Funds to account for its utility activities, building department activities, solid waste operation, and operation of the detention center.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the utility funds, building department, solid waste, and detention center. The Detention Center, Pioche Public Utility Electric, and Solid Waste are considered to be major funds of the County.

Fiduciary Funds: Fiduciary funds are used to account for the resources held for the benefit of parties outside of the government; Fiduciary funds are not reported in the government wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The County has one type of fiduciary fund, the Agency fund. The Agency Fund reports resources held by the County in a custodial capacity for individuals, private organizations, and other governments.

Notes to Financial Statements: The notes to the financial statements provide additional information that is essential to acquire a full understanding of the data provided in the government-wide and fund financial statements.

Other Information: In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's progress in funding its obligation to provide other post-employment benefits to its employees; and schedules of budgetary comparisons for both the original and final budgets of the General Fund and the various other major County funds.

The combining statements and individual fund schedules referred to earlier in connection with the nonmajor governmental funds are presented immediately following the required supplementary information.

As noted earlier, net assets may serve over time as a useful indicator of the County's financial position. Assets exceeded liabilities by $34,546,658 as of June 30, 2018, and by $33,692,338 as of June 30, 2017, resulting in a net increase of $854,320, or 2.54%.

A portion of the County's net assets, 76.69%, reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, etc.), net of any related debt outstanding used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the debt.

The County's restricted net assets of 16.38% represents resources that are subject to external restrictions on how they may be used.

The remaining portion of the County's net assets, 6.93%, are unrestricted and may be used to meet the County's ongoing obligations to citizens and creditors.

At June 30, 2018, the County had positive balances in all three categories of net assets.

Changes in net position of the County are summarized as follows:

Program revenues include charges for services, fines and forfeitures, certain licenses and permits, and both operating and capital grants and contributions. General revenues consist of taxes, rent, investment income, and miscellaneous.

For general revenues, the largest of these revenues, ad valorem taxes, decreased by $61,989, or 2.03%. The next largest revenue, fuel taxes, increased by $25,294, or 1.40%, due to increased economic activity in the local economy during the fiscal year 2018. The largest business-type activities revenue came from charges for services related to the utilities, detention center, solid waste, and building department. They increased by $1,348,493, or 59.82%, due primarily to an increase in inmate fees and solid waste activities.

Financial Analysis of the County's Governmental Funds

The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

As of the end of the current fiscal year, the County's governmental funds reported a combined ending fund balance of $19,005,151, an increase of $350,906, or 1.88%, from the prior year. Fund balance components have been classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed on the use of the resources of each fund. Restricted fund balance is $5,626,774, or 29.61% of total. Spending of these resources is constrained by externally imposed (statutory, bond covenant, or grantors) limitations on their use. The largest restricted fund balances include $862,881 for multi-species conservation, $1,073,968 for capital projects, and $1,381,270 for public works.

Committed and assigned fund balances combined to represent 69.22% of total fund balance with spending constrained by either the Board of County Commissioners (for committed) or senior management (for assigned). Committed balances in the special revenue funds are primarily due to revenues directed by the Commission to those funds to support programs. The largest committed fund balances include $3,379,373 for the Lincoln County Water District and $3,955,642 for land act.

Major Funds

General Fund (Budgetary Basis): The General Fund is the chief operating fund of the County. At the end of the current fiscal year, the fund balance (budgetary basis) of the General Fund was $773,139, an increase of $291,080, or 60.38%. The General Fund revenues increased by $9,856, or 0.22%. Taxes decreased by $52,313, or 2.39%. Charges for services decreased by $9,865, or 2.69%, due to decreased tax penalties and costs. Intergovernmental revenues increased by $51,023, or 3.30%, due to increases in consolidated tax and marijuana fees and a decrease in grant revenues.

Expenditures increased by $281,699, or 6.50%. General government expenditures increased by $65,974, or 4.43% due to an increase in county commissioner and executive officer costs. Public safety expenditures increased by $93,762, or 5.75%, due to an increase in capital outlay and benefits for the sheriff's office. Judicial expenditures increased by $112,359, or 9.60% due to an increase in district court services and supplies.

Road Fund: The fund balance for the fund increased by $232,036 to $636,840, or 57.32%. The Road fund expenditures decreased by $538,841, or 27.72%. This decrease was due to a decrease in capital outlay for equipment and road projects.

Federal in Lieu Tax Fund: The fund balance for the fund increased by $312,233 to $2,083,792, or 17.62%. The Federal in Lieu Tax Fund revenues increased by $985,305, or 112.11%. This increase was due to an increase of grant monies and recognizing unearned revenues. Expenditures increased by $261,854, or 40.29%, due to general government expenditures for IT and other expenses.

Lincoln County Water District Water Resources Fund: The Lincoln County Water District Water Resources Fund balance decreased by $108,297, or 3.81%, from the prior year. This was due to negative income and an operating transfer out.

Lincoln County Land Act Special Use Fund: The Lincoln County Land Act Special Use Fund balance increased by $31,584, or 0.85% from the prior year. This was due to receiving building rental income from tri-county weed and investment income with no expenditures.

County Grant Fund: The County Grant Fund revenues increased by $1,338,830, or 106.36%, and expenditures increased by $1,412,292, or 111.73%. These increases were due to receiving more grant monies in the current year.

Financial Analysis of the County's Enterprise Funds

Enterprise Funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the enterprise funds was a deficit of $2,914,098. Total net position for these funds increased by $334,712 from the prior year.

The **Detention Center Fund**, a major fund, had operating revenues increase by $940,773, or 100.66%, due to the new contract to provide inmate housing services. Expenses decreased by $70,794, or 3.43% due to a decrease in salaries and benefits.

The **Pioche Public Utility Electricity Fund**, a major fund, had operating revenues increase by $17,918, or 2.65%, during the year. Operating expenses decreased by $42,745, or 5.70%, due to a decrease in salaries and benefits and depreciation expenses.

The **Solid Waste Fund**, a major fund, had operating revenues increase by $409,459, or 114.84%, due to a full year of operations where the prior year was only a partial year. Operating expenses were $21,269, or 3.75%, lower than the prior year due to a decrease in service and supplies.

General Fund Budgetary Highlights

The original budget (2017-18 Final Budget) was approved May 22, 2017.

Original budget compared to final budget: During the year there was no need for any significant amendments to increase either the original estimated revenues or original budgeted appropriations. However, there was a need to make an amendment to reallocate appropriations among departments when it became clearer which departments would actually be charged for certain expenses. Generally, the movement of the appropriations between departments was not significant.

Final budget compared to actual results: The most significant differences for the General Fund were as follows:

Overall the revenues received were more than budgeted by 0.56% or $24,618. Revenues received in excess of budgeted amounts were 10.92% for intergovernmental and 9.49% for licenses and permits. The shortfall in revenue sources were 2.21% for taxes, 4.43% for charges for services, 18.43% for fines and forfeitures, and 5.76% for miscellaneous revenue.

A review of actual expenditures compared to the appropriations in the final budget shows expenditures were $505,453 less than budgeted or 9.87%. Expenditures were under budget for all functions of the General Fund - general government 8.86%, public safety 3.64%, judicial 4.82%, except for health which was 22.86% over budget.

Actual fund balance (budgetary basis) of $773,139, was $174,913 higher than anticipated to begin the 2018-2019 year.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The County approved the budget for the 2018-2019 year on May 21, 2018. The following factors were considered in the development of the budget.

- Assessed valuation for the County decreased and tax rates remaining unchanged. Therefore, property tax revenues will be lower.
- Population has remained stable and is projected to increase.

Capital Assets and Debt Administration

Total	$ 4,385,353	$ 36,327	$ 229,462	$ 4,192,218	$ 174,634

The County's debt decreased by $873,487 for governmental activities during the current fiscal year. The reductions were from a decrease in estimated net pension liability, estimated OPEB obligation payable, and the payment of debt.

The County's debt decreased by $193,135 for business-type activities during the current fiscal year. The reason for the decrease was a reduction in estimated net pension liability and bond payments.

Per Nevada Revised Statutes Chapter 244A.059, the debt limitation for the County is equal to 10 percent of the assessed valuation of property, excluding motor vehicles, for the current year. The debt limitation currently applicable at June 30, 2018, was $28,658,088.

Additional information on the County's long-term debt can be found in (**Note D6**).

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2018

Net Change in Fund Balance - Governmental Funds	**$**	**350,906**
Amounts reported for governmental activities in the Statement of Activities are different because:		
Capital outlays to purchase or build capital assets are reported in Governmental Funds financial statements as expenditures. However, for governmental activities those costs are shown in the Statement of Net Position and allocated over the estimated useful lives as annual depreciation expenses in the Statement of Activities.		1,133,950
Property taxes that are collected in the time to pay obligations of the current period are reported as revenue in the fund statements. However, amounts that related to prior periods that first become available in the current period should not be reported as revenue in the statement of activities.		3,321
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and other similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		115,939
Generally, expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred.		1,320
Net differences between other post-employment benefits contributions recognized in the fund statement of revenues, expenditures, and changes in fund balances and the Statement of Activities:		
Other post-employment benefits contributions made after measurement date (2018 contributions).		46,229
Net other post-employment benefits expense.		249,809
Net differences between pension system contributions recognized in the fund statement of revenues, expenditures, and changes in fund balances and the statement of activities:		
Pension contributions made after measurment date (2018 contributions).		456,528
Net pension expense.		(492,562)

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

1. Reporting Entity

Lincoln County, Nevada, is governed by an elected five member board. As required by generally accepted accounting principles, these financial statements present Lincoln County, Nevada (the primary government), and its component units. Blended component units, although legally separate entities are, in substance, part of the County's operations. Thus, blended component units are appropriately presented as funds' of the primary government.

2. Blended Component Units

Component units are legally separate organizations for which the County is financially accountable. Lincoln County Water District, Alamo Town, Panaca Town, and Pioche Town are all component units that are part of the County's reporting entity because the County is financially accountable for these entities. Financial accountability is determined primarily by the fact that as the governing body, the County's Board of Commissioners can impose its will on significant aspects of the operations of these entities. These entities are presented as blended component units since the operations of these entities are considered part of County operations.

3. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the County and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities,* which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support.

4. Basis of Presentation - Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the County's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds (enterprise funds), and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

The Statement of Net Position presents the consolidated financial position of the County at year-end, in separate columns, for both governmental and business-type activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or programs are offset by program revenues. Direct expenses are those that are specifically associated with a program or service and are, therefore, clearly identifiable to a particular function. Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other revenues properly not included among program revenues are reported instead as general revenues. This statement provides a net cost or net revenue of specific programs and functions within the County. Those functions with a net cost are generally dependent on general-purpose tax revenues, such as property tax, to remain operational.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the County's funds, including its fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary (enterprise), and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The County reports the following major governmental funds:

General Fund - The General Fund is the County's primary operating fund. It accounts for all financial resources of the general County, except those accounted for in another fund.

Road Fund - The Road Fund is used to account for gas tax revenues allocated for the construction, repair and maintenance of County roads.

Federal in Lieu Tax Fund - The Federal in Lieu Tax Fund is used to account for taxes received in lieu of property taxes for property owned in the County by the Federal Government.

Lincoln County Water District Water Resources Fund - The Lincoln County Water District Water Resources Fund is used to account for general activities of the District, a blended component unit of the government.

Lincoln County Land Act Special Use Fund - The Lincoln County Land Act Special Use Fund is used to account for land sale monies to be spent per ordinances.

County Grant Fund - The County Grant Fund is used to account for monies received to be spent on a specified purpose.

The County reports the following major enterprise fund:

Detention Center Fund - The Detention Center fund is used to account for the activities of the Lincoln County Detention Center, providing detention services for local governments within Nevada.

Pioche Public Utility Electric Fund - The Pioche Public Utility Electric fund is used to account for the charges for providing electric service in Pioche, Nevada.

Solid Waste – The Solid Waste fund is used to account for solid waste disposal throughout the County and land fill operations.

Additionally, the County reports the following fiduciary fund:

Investment Trust – The investment trust fund is an external investment pool operated by the Lincoln County Treasurer. Participants include Caliente City, Lincoln County School District, Range, Panaca Fire Protection District, Pahranagat Fire District, Coyote Springs GID, Pioche Fire District, Southeastern Lincoln County Habitat Conservation Plan GID, and the Lincoln County Fire District.

Agency Funds – The Agency Fund is used to account for assets held by the County in an agency capacity for others and cannot be used to support the government's own programs.

During the course of operations, the County has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in the governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e. enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Basis of Presentation - Fund Financial Statements (Continued)

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

6. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Gross receipts and sales taxes are considered "measurable" when in the hands of intermediary collecting governments and are then recognized as revenue. The government considers revenues to be "available" if they are collected within 60 days of the end of the current fiscal period. Anticipated refunds of taxes are recorded as liabilities and reductions of revenue when they are measurable and the payment seems certain. In general, expenditures are recorded when liabilities are incurred. The exception to this rule is that principal and interest on debt service, as well as liabilities related to compensated absences and claims and judgments, are recorded when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

The major revenue sources of the County include consolidated taxes (including sales tax), fuel taxes, intergovernmental revenue, and property taxes. Property taxes, sales taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the County.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Pioche Public Utility funds are customer charges. Operating revenues for the Building fund come from charges for services for building inspections and permits. The Detention Center receives revenue for housing prisoners of other governments. Expenses are those required to provide the service. The Solid Waste fund is used to account for solid waste disposal throughout the County and landfill operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

7. Budgetary Basis of Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for governmental funds.

a. The statutes provide for the following timetable in adoption of budgets:

(i) Before April 15, the County submits to the Nevada State Department of Taxation a tentative budget for the upcoming fiscal year. The tentative budget includes proposed expenditures and the means to finance them.

(ii) A public hearing must be held by the County Commissioners no sooner than the third Monday in May and no later than the last day in May. Notice of the public hearing must be published once in the local newspaper not more than 14 nor less than 7 days before the hearing.

(iii) On or before June 1, the County Commissioners must adopt a final budget.

b. NRS 354.598005 (1) - provides that the County Commissioners may augment the budget at any time by a majority vote of the Commissioners providing the Commission publish notice of its intention to act in a newspaper of general circulation in the County at least three days before the date set for adoption of the resolution.

c. Nevada Revised Statute 354.598005 (5) allows appropriations to be transferred between functions, funds or contingency accounts if such a transfer does not increase the total appropriation for any fiscal year and is not in conflict with other statutory provisions. The County Auditor may transfer appropriations within any function. The County Auditor may also transfer appropriations between functions or programs within a fund, if the County Commissioners are advised of the action at the next regular meeting; and the action is recorded in the official minutes of the meeting. The County Commissioners may authorize the transfer of appropriations between funds or from the contingency account if the County Commissioners announce the transfer of appropriations at a regularly scheduled meeting and sets forth the exact amounts to be transferred and the accounts, functions, programs and funds affected. The County Commissioners must also set forth its reasons for the transfer; and the action must be recorded in the official minutes of the meeting.

d. Statutory regulations require budget control to be exercised at the function level within the funds.

e. The following funds were augmented during the year: Senior Nutrition, County Grants, and Federal in Lieu Tax Funds had automatic budget augmentations for grant revenue. General Fund, China Springs, Nuclear Waste, and Vehicle Capital Projects were augmented during the year.

f. Generally, budgets for all funds are adopted in accordance with generally accepted accounting principles. Budgeted amounts reflected in the accompanying financial statements recognize amendments made during the year.

g. All appropriations lapse at the end of the fiscal year.

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

a. Cash and Cash Equivalents

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and short term investments with original maturities of three months or less from the date of acquisition.

Cash includes cash deposited in interest-bearing accounts at banks and cash in the custody of fiscal agents of the County.

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

b. Investments

Investments are stated at fair value on the Balance Sheet. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale. Changes in the fair value of County investments are part of investment income which is included in revenue from local sources on the Statement of Activities and the Statement of Revenues, Expenditures, and Changes in Fund Balances of governmental funds. (**See Note D1**)

Nevada Revised Statutes authorize the County to invest in:

1. Obligations of the U.S. Treasury and U.S. Agencies in which the maturity dates do not exceed more than 10 years from the date of purchase.

2. Negotiable certificates of deposit issued by commercial banks or insured savings and loan associations (those over $250,000 must be fully collateralized).

3. Negotiable notes or short-term negotiable bonds issued by local governments within Nevada.

4. Eligible bankers' acceptances that do not exceed 270 days maturity and do not exceed 20 percent of the portfolio.

5. Commercial paper with a rating of A-1 or P-1 that does not exceed 240 days maturity and does not exceed 20 percent of the portfolio.

6. The State of Nevada's Local Government Investment Pool.

7. Repurchase agreements that are collateralized at 102 percent of the repurchase price and do not exceed 90 days maturity. Securities used for collateral must meet the criteria listed above.

8. Money market mutual funds which are rated as "AAA" or its equivalent and invest only in securities issued by the Federal Government, U.S. Agencies, or repurchase agreements fully collateralized by such securities.

c. Property Tax

Taxes on real property are levied on July 1st of each year and are due on the third Monday in July. They can be paid in quarterly installments in August, October, January, and March. In the event of nonpayment, the County Treasurer is authorized to hold the property for two years, subject to redemption upon payment of taxes, penalties, and costs, together with interest at a rate of 10 percent per year from the date the taxes were due until paid. If delinquent taxes are not paid within the two year redemption period, the County Treasurer obtains a deed to the property free of all encumbrances. Upon receipt of a deed, the County Treasurer may sell the property to satisfy the tax lien.

Article X, Section 2 of the Constitution of the State of Nevada limits the total taxes levied by all overlapping governmental units within the boundaries of any County (i.e., the County, the County School District, the State and any other City, Town, or Special District) to an amount not to exceed $5 per $100 of assessed valuation of the property being taxed.

The Nevada Legislature enacted provisions whereby the combined overlapping tax rate was limited to $3.64 per $100 of assessed valuation.

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

d. Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

e. Restricted Assets

Certain cash assets of the Enterprise Funds are from revenue for specific use by the Enterprise Funds and are classified as restricted assets because their use is restricted by agreement. **(See Note D5)**

f. Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial individual cost of more than $500 and an estimated useful life in excess of one year.

If purchased or constructed, capital assets are recorded at historical cost or estimated historical cost and updated for additions and retirements during the year. Donated capital assets are valued at their estimated value as of the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Land and construction in progress are not depreciated. The other property, plant and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

Capital Assets	Years
Vehicles	10
Equipment	5-20
Buildings and Improvements	20-50
Infrastructure	25-50

The County is required to report and depreciate new infrastructure assets. Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc. Neither their historical cost nor related depreciation has historically been reported in the financial statements. The County is required to capitalize and report its major general infrastructure assets acquired in fiscal years ending after June 30, 1980. In addition, infrastructure assets acquired before June 30, 1980, that received significant reconstruction must be capitalized.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

g. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows include the County's pension related contributions subsequent to the measurement date but before the end of the fiscal year and changes in proportion of the District's contributions to the County's proportionate contributions.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has only one type of item, which arises only under a modified accrual basis of accounting, which qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source, property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available.

Deferred inflows of resources represent an acquisition of net positon that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. The difference between projected and actual experience and investment earnings are related to the deferred inflows of pensions and the calculation of net pension liability reported on the statement of net position.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Nevada (PERS) and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

h. Governmental Fund Balances:

In the governmental fund financial statements, fund balances are classified as follows:

(i.) **Nonspendable –** Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact, such as inventories and prepaids.

(ii.) **Restricted –** Amounts that can be spent only for a specific purpose because of the state or federal laws, or externally imposed conditions by grantors or creditors.

(iii.) **Committed** –These amounts can only be used for specific purposes as set forth by the County Commissioners. The Commissioners must take formal action (vote approval by the majority), in order to establish an ending fund balance commitment for any specific purpose. Formal Commission action is also required to modify or rescind an established commitment. To be reported as committed, amounts cannot be used for any other purpose unless the Commission takes the same highest level action to remove or change the constraint.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

h. Governmental Fund Balances (Continued):

(iv.) Assigned – Assignments are neither restrictions nor commitments and represent the County's intent to use funds for a specific purpose. These assignments, however, are not legally binding and are meant to reflect intended future use of the County's ending fund balance. Intent can be expressed by the County Commissioners or by the County Auditor.

(v.) Unassigned – All amounts not included in other classifications.

i. Fund Balance Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance.) When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

j. Net Position Policies

In the government-wide statements, net position on the Statement of Net Position includes the following:

(i) Invested in Capital Assets, net of Related Debt

This is the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction, or improvement of those assets.

(ii) Restricted Assets

This is the component of net position that reports the constraints placed on the use of assets by either external parties and/or enabling legislation. Currently, the County restricts assets as follow:

a) NRS 354.598155 Special Ad Valorem Capital Projects
b) NRS 354.6113 Capital Projects Fund
c) NRS 365.190 Road Improvements
d) NRS 354.6115 Budget Stabilization
e) NRS 269 Unincorporated Towns

(iii) Unrestricted

This is the component of net position that is the difference between the assets and liabilities not reported in Invested in Capital Assets, Net of Related Debt and Restricted Assets.

k. Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

l. Comparative Data/Reclassifications

Comparative total data for the prior year has been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the County's financial position and operations. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

m. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

n. Budgetary Stabilization

It is the County's policy to determine the balance or reserve as reasonable and necessary to carry out the purposes of the stabilization fund on a yearly basis. NRS 354.6115 authorizes the creation of a fund to stabilize operations of local governments and mitigate effects of natural disaster. The intent of this policy is to include a portion of the General Fund budgeted ending fund balance that will be restricted to stabilization pursuant to NRS 354.6115. Fund balance that is restricted to stabilization can be used after approval by the board of County Commissioners when total actual revenue falls short of the total anticipated revenue in the General Fund for the fiscal year in which the County uses the money.

9. Revenues and Expenditures/Expenses

a. Compensated Absences

Vested or accumulated vacation and sick leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide financial statements. No expenditure is reported for these amounts in the fund financial statements. (**See Note D6**) Vacation leave and sick leave included in accrued liabilities and recorded as expenditures in governmental fund types is the amount normally liquidated from "available spendable resources."

In proprietary funds, compensated absences are recorded when the liabilities are incurred. In governmental funds, the current portion is recorded as payroll expenditure. The estimated long-term liability for compensated absences is accounted for in the government-wide financial statements.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

9. Revenues and Expenditures/Expenses (Continued)

b. Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

c. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTE B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of certain differences between the governmental funds Balance Sheet and the government-wide Statement of Net Position

The governmental fund balance sheet includes reconciliation between fund balances - total governmental funds and net position - governmental activities as reported in the government-wide statement of net position. One element of the reconciliation explains that "certain liabilities (such as bonds payable and capital leases payable) are not reported in the Governmental funds financial statements because they are not due and payable, but they are presented as liabilities in the statement of net position." The details of this difference are as follows:

Interest payable	$ (599)
Capital lease payable	(29,966)
Notes payable	(74,798)
Compensated absences	(438,130)
Net adjustment to reduce fund balance - total governmental funds to arrive at net position - governmental activities	$ (543,493)

NOTE B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

2. Explanation of certain differences between the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the government-wide Statement of Activities

The governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net position of governmental activities as reported in the government-wide Statement of Activities. One element of that reconciliation explains that "Capital outlays to purchase or build capital assets are reported in Governmental Funds financial statements as expenditures. However, for governmental activities those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expense in the statement of activities." The details of this difference are as follows:

Capital outlay	$ 2,476,007
Book value of disposed assets	(106,927)
Depreciation expense	(1,235,130)
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	$ 1,133,950

Another element of that reconciliation states that, "The issuance of long-term debt (i.e., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on Net Position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and other similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items." The details of this difference are as follows:

General obligation debt principal payments	$ 115,939
Net adjustment to increase net change in fund balances – governmental funds to arrive at change in net position of governmental activities	$ 115,939

Another element of that reconciliation states that "Generally, expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred." The details of this difference are as follows:

Accrued interest	$ 696
Compensated absences	625
Net adjustment to increase net change in fund balances – governmental funds to arrive at change in net position of governmental activities	$ 1,320

NOTE C. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

1. Compliance and Accountability

The County conformed to significant statutory requirements regarding financial administrations except as follows:

Per NRS 354.626, the County is required to report expenditures that exceeded budgeted appropriations at the function level for the General Fund, Special Revenue Funds, and Capital Project Funds. Enterprise funds may not exceed budget appropriations at the fund level. For the year ending June 30, 2018, the County had the following expenditures over appropriations that are required to be reported.

General Fund – Health function	$ 9,748
Room Tax Fund – Culture and recreation function	$ 27,041
Room Tax Fund – Intergovernmental function	$ 585
Legal Aid Services Fund – Judicial function	$ 4,540
Genetic Marker Fund – General government function	$ 338
Detention Center – Enterprise Fund	$ 140,247

The General Fund over expenditure is related to an increase in the monthly payments for State Health Nurse. The Room Tax Fund over expenditure is related to an increase in Room Tax expenditures for local events and an increase in room tax revenues causing additional payments to the State. The Legal Aid Fund over expenditure is related to unanticipated legal services. Genetic Marker Fund over expenditures were due to an increase in required testing. The Detention Center expenditures were in excess of the authorized budget due to additional costs associated with an increase in inmate populations.

2. Deficit Fund Balance/Net Position

Airport Special Revenue Fund	$ 269
Detention Center Enterprise Fund	$ 2,359,765
Building Department Enterprise Fund	$ 77,293

The deficit net position of the Detention Center and Building Department Enterprise funds are due to the individual fund's proportionate share of the net pension liability of the Public Employees' Retirement System of the State of Nevada. See **Note D-12** of the financial statement. The Airport fund deficit is due to a short fall in expected revenues.

NOTE D. DETAILED NOTES ON ALL FUNDS

1. Pooled Cash and Investments

The County maintains a cash and investment pool that is available for use by all funds under the custody of the County Treasurer. At June 30, 2018, this pool is displayed by the statement of net position and major and other governmental funds on the governmental funds balance sheet as "Pooled Cash and Investments."

A reconciliation of cash and investments as shown in the Statement of Net Position is as follows:

Cash in the hands of officers	$ 301,972
Carrying amount of deposits	4,209,604
Fair value of investments	19,803,075
Total	$24,314,651

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

1. Pooled Cash and Investments (Continued)

A reconciliation of cash and investments as for the County is as follows:

Government-wide pooled cash and investments	$19,854,508
Restricted cash	72,243
Total primary government	$19,926,751
Investment trust fund	3,691,584
Agency fund cash	696,316
Total reporting entity	$24,314,651

Except for financial reporting purposes, the cash balances of $4,387,900 in the Agency Funds are not normally considered part of the County's pooled cash and investments. These amounts represent cash held in an agency capacity by the County and cannot be used in the County's normal operations.

The cash and investment pool is available for use by all funds of the County. Cash and investments under the custody of the County Treasurer are invested as a pool. The County Treasurer may invest the money of the investment pool in investments which have been authorized as investments by Nevada Revised Statutes. (**See Note A8b**)

Investment income is apportioned to the funds within the pool monthly based on the average balance invested for the month.

State statutes authorize the County to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and the State Treasurer's Investment Pool.

Cash and investment are subject to the following risks:

Interest Rate Risk: Interest rate risk is the risk of possible reduction in the value of a security, especially a bond, resulting from the rise in interest rates. Nevada Revised Statutes limits bankers' acceptances to 180 days of maturities, repurchase agreements to 90 days, U.S. Treasuries and Agencies to less than 10 years, and commercial paper to 270 days maturity. The approximate weighted average maturity of investments in the Lincoln County Treasurer's investment pool was 1.87 years.

As of June 30, 2018, monies held in the Lincoln County Treasurer's cash and investment pool are categorized as follows:

		Investment Maturities (In Years)		
Investment Type	Fair Value	Less than 1	1-5	6-10
U.S. Government and Agencies:				
U.S. Treasury note	$ 6,904,853	$ 1,324,298	$ 5,580,555	$ 0
U.S. Agency mortgage-backed	8,437,773	4,348,967	4,088,807	0
Money market funds	1,306,393	1,306,393	0	0
Negotiable certificates of deposit	3,154,056	0	3,154,056	0
Total Investments	$19,803,075	$ 6,979,658	$ 12,823,417	$ 0

Governmental Accounting Standards require fair value reporting of all investments. The fair value of the County's investments was determined by market quotes.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

1. Pooled Cash and Investments (Continued)

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation and is a function of the credit quality ratings of its investments. The Nevada Revised Statutes limits investments instruments by their credit risk **(Note A8a)**. The State of Nevada Local Government Investment Pool is an unrated external investment pool.

As of June 30, 2018, monies held in the Lincoln County Treasurer's cash and investment pool are categorized as follows:

		Quality Ratings by Moody's	
Investment Type	Fair Value	Aaa	N/A
U.S. Government and Agencies:			
U.S. Treasury note	$ 6,904,853	$ 6,904,853	$ 0
U.S. Agency mortgage-backed	8,437,773	8,437,773	0
Money market funds	1,306,393	0	1,306,393
Negotiable certificates of deposit	3,154,056	0	3,154,056
Total Investments	$19,803,075	$ 15,342,626	$ 4,460,449

Custodial Credit Risk: Custodial credit risk is the risk that in the event of a bank or brokerage failure, the County's deposits may not be returned. The County's bank deposits are generally covered by FDIC insurance and are collateralized by the Office of the State Treasurer/Nevada Collateral Pool. At year-end, the County's carrying amount of deposits was $4,209,604 and the bank balance was $4,366,727. Of the bank balance, $327,190 was covered by federal depository insurance. Of the remaining balance, $4,039,537 was collateralized with securities held by the Nevada Pooled Collateral Program.

Concentrations of Credit Risk: Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. Investments with a single issuer within the Lincoln County Treasurer Cash and investment pool that represent five percent or more of total investments as of June 30, 2018, are as follows:

Federal Farm Credit Bank (FFCB)	10.39%	Federal Home Loan Banks (FHLB)	8.37%
Federal Home Loan Mortgage Corporation (FHLMC)	14.70%	U.S. Treasury Note	37.33%
Federal National Mortgage Association (FNMA)	12.16%		

Fair Value: The County implemented GASB Statement No. 72, Fair Value Measurement and Application, in 2016 to categorize its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The County has the following recurring fair value measurements as of June 30, 2018:

Investment Type	Fair Value	Level 1	Level 2	N/A
U.S. Government and Agencies:				
U.S. Treasury note	$ 6,904,853	$ 6,904,853	$ 0	$ 0
U.S. Agency mortgage-backed	8,437,773	0	8,437,773	0
Money market mutual fund	1,306,393	0	0	1,306,393
Negotiable certificates of deposit	3,154,056	0	0	3,154,056
Total Investments	$19,803,075	$ 6,904,853	$ 8,437,773	$ 4,460,449

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

External Investment Pool: The County administers an external investment pool combining the County funds with involuntary investments from Caliente City, Lincoln County School District, Range, Panaca Fire Protection District, Pahranagat Fire District, Coyote Springs GID, Pioche Fire District, Southeastern Lincoln County Habitat Conservation Plan GID, and the Lincoln County Fire District. The Board of County Commissioners has the overall responsibility of investment of funds including the external investment pool in accordance with NRS 355.175. The Lincoln County Treasurer is delegated investment responsibilities. The fair value of investments is determined monthly as statements from the various investment companies are received. Each participant's share is equal to their original investment plus or minus monthly allocations of interest income, and realized and unrealized gains and losses. The County has not provided nor obtained any legally binding guarantees to support the value of the shares.

A summary of investments held in external investment pools at June 30, 2018, is as follows:

Investment Type	Fair Value	Principal Amount	Interest Rate
U.S. Government and Agencies:			
U.S. Treasury notes	$ 4,537,525	$ 4,630,000	Variable

Cash – Solid Waste	40,005
Total restricted cash	$ 72,243

6. Long-term Debt

Governmental Type Activities:

Note Payable

a. The County borrowed money for the purchase of BLM land. The original principal of the note was $440,000. Payments are due in monthly installments of $4,383 through November, 2019, with interest at 5%.

Year Ending June 30,	Remaining Payments	Interest	Principal
2019	$ 52,589	$ 1,948	$ 50,641
2020	24,428	271	24,157
	$ 77,017	$ 2,219	$ 74,798

Capital Leases

a. The County entered into lease agreements for 4 public safety vehicles at $120,000. The leases have been classified as capital leases according to generally accepted accounting principles. The leases contain non-funding clauses whereby the leases are terminated without penalty should the County fail in a budget year to appropriate money for the payment. The vehicles have a ten-year estimated useful life. This year, $12,000 was included in depreciation expense. These lease agreements qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. The lease was paid in full during the year.

Capital Leases

b. During the year ending June 30, 2017, the County entered into a lease agreement for 3 public safety vehicles totaling $90,000. The leases have been classified as capital leases according to generally accepted accounting principles. The leases contain non-funding clauses whereby the leases are terminated without penalty should the County fail in a budget year to appropriate money for the payment. The vehicles have a ten-year estimated useful life. This year, $9,000 was included in depreciation expense. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2018, were as follows:

Year Ending June 30,	Remaining Payments	Amount Representing Interest	Present Value of Net Minimum Lease Payments
2018	$ 31,764	$ 1,798	$ 29,966

Business-Type Activities:

Revenue Bonds The County issues revenue bonds to provide funds for the acquisition and construction of utility capital assets. Revenue bonds have been issued for the business-type activities. Revenue bonds are an obligation of the enterprise utility funds for which the capital assets were acquired or constructed. Revenue bonds outstanding at June 30, 2018, are as follows:

a. $210,000, 2007 Pioche Town Sewer bond is payable to the U.S. Department of Agriculture-Rural Development. The bond is payable in semi-annual payments of $5,584 including interest. The interest rate is 4.375%. The bond agreement requires the County to establish and fund monthly a debt service reserve fund equal to 10% of the semi-annual payment each month over the life of the loan until they accumulate one annual installment. This reserve fund can be used for emergency maintenance and repairs, and debt repayment should the need arise. The required reserve as of June 30, 2018, is $11,490. The balance in the reserve account was $11,490 as of June 30, 2018 **(See Note D-5)**. The outstanding balance of bonds payable at June 30, 2018, was $183,937.

Annual debt service requirements to maturity for the revenue bond are as follows:

Year Ending June 30,	Principal	Interest
2019	$ 3,154	$ 8,014
2020	3,294	7,874

7. Interfund Transfers

Interfund operating transfers are made from one fund to another fund to support expenditures in accordance with the authority established for the individual funds. Transfers between fund types during the year ended June 30, 2018, were:

	Total	Transfer Out					
	Transfers In	General	Road	Federal In Lieu	LC Water District Water Resources	Nonmajor Special Revenue	Nonmajor Capital Projects
General Fund	$ 340,000	$ -	$ -	$ 340,000	$ -	$ -	$ -

Following are explanations of certain interfund transfers of significance to the County:

The General Fund transferred money to the following funds: Vehicle Capital Projects $16,000 and China Springs $10,000 to help cover costs. The General Fund also transferred funds to the Special Projects Fund, which is internally reported in the General Fund, for future projects. The Special Projects Fund did a budgeted transfer to the Property Management Fund to help cover construction costs of $40,000.

The Road Fund transferred $100,000 to the Road Capital Projects Fund to help cover the costs of a new equipment.

The Federal in Lieu Fund transferred money to the following funds: General Fund $265,000, Building Enterprise Fund $40,000, Solid Waste Fund $175,151, Detention Center Fund $21,820, Planning Fund $75,000, Agriculture Extension Fund $7,000, and Resource Development Fund $10,000. These budgeted transfers were made to help cover operating costs. Transfers were also made for $31,041 to the County Grant Fund and $15,197 to the Senior Nutrition Fund for grant match.

The Water District Water Resources Fund transferred $100,000 to the Water District General Fund to cover costs.

The Room Tax Fund transferred $20,000 to the Fair Board Fund to help cover costs and the Library Fund transferred $4,000 to the County Grants Fund. The Regional Transportation Commission Fund transferred $63,000 to the Transportation Fund for operations and $43,721 to the County Grants Fund for grant match.

The Capital Projects Fund transferred money to the following capital projects funds: $98,000 to the Vehicle Capital Projects for assistance with capital asset purchases; $9,817 to the Alamo, Panaca, and Pioche Town Capital Projects Funds for distribution of property taxes collected pursuant to Nevada Revised Statutes 354.59815.

8. Interfund Receivable / Payable

During the 2017 fiscal year the County purchased the Landfill and created the Solid Waste Enterprise Fund. To help cover initial costs and have cash available, the fund borrowed monies from two special revenue funds which is to be repaid over 10 years at 0% interest. The funds which will receive those payments are as follows:

	Due to		Due from
Lincoln County Land Act	$ 190,000	Solid Waste Enterprise	$ 380,000
Lincoln County Water Special Use	190,000		
	$ 380,000		

Annual debt service requirements to maturity for the payable are as follows:

Year Ending June 30,	Principal
2019	$ 20,000
2020	20,000
2021	40,000
2022	40,000
2023	40,000
2024-2027	220,000
	$ 380,000

9. Unearned Revenue

Governmental funds report unearned revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period and also in connection with the resources that have been received but not yet earned. At June 30, 2018, the County had the following unearned revenues:

Qualifying expenditures for expenditure-driven grants have not occurred before June 30, 2018.

County Grant	Other Governmental	Total
$ 165,920	$ 144,572	$ 310,492

Nuclear Waste Fund Grant fund unspent interest as of June 30, 2018, is required by the granting agency to be deferred until spent. The following interest has been recorded as unearned revenue in the Nuclear Waste Fund of $33,508.

10. Unavailable Revenue

Delinquent taxes receivable not collected within sixty days after year-end are recorded as deferred inflows of resources as they are not available to pay liabilities of the current period. At June 30, 2018, the County had the following unavailable revenues:

General	Other Governmental	Total
$ 26,703	$ 11,758	$ 38,461

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

11. Risk Management

Property, Casualty, Crime, and Machinery Insurance

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County joined together with other local governments throughout the State of Nevada to create a pool under the Nevada Interlocal Cooperation Act. The Nevada Public Agency Insurance Pool (NPAIP) is a public entity risk pool currently operating as a common risk management and insurance program for members. The County pays an annual premium and specific deductibles, as necessary, to NPAIP for its general insurance coverage. NPAIP is considered a self-sustaining risk pool that will provide liability coverage for its members up to $10,000,000 per event and a $10,000,000 annual aggregate per member. Property, crime, and equipment breakdown coverage is provided to its members up to $300,000,000 per loss with various sub-limits established for earthquake, flood, equipment breakdown, and money and securities. As a participatory member, the maintenance deductible is $2,000 for each insured event.

The County is self-insured for unemployment claims. Payments are made from the general fund to cover claims.

The County participates in the Public Agency Compensation Trust (PACT). Premiums paid to PACT cover workers' compensation claims against the County. Premiums are based on a percentage of wages paid.

The County carries commercial insurance for all other risks of loss including employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

12. Contingent Liabilities

Grants
Amounts received or receivable from grantor agencies are subject to audit and adjustment by those agencies, principally the Federal Government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

Litigation
The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the County's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the County.

Landfill Closure and Post-Closure Costs
State and federal laws and regulations require the County to place a final cover on its landfill sites when it stops accepting waste and to perform certain maintenance and monitoring functions at the sites for thirty years after closure. The closure and post-closure care costs will be paid only near or after the date that the landfills stop accepting waste.

As of June 30, 2018, the estimated liability to date for closure and post-closure costs is $40,000. This represents the cumulative amount reported to date based on percent use of the estimated liability of $1,700,000 as the remaining capacity is used. Actual costs may be higher due to inflation, changes in technology, or changes in regulations. The County operates one landfill with an estimated remaining life of 39 years. As of June 30, 2018, $40,005, has been restricted for future closure, post-closure, and opening landfill costs in the Solid Waste Fund. The County is presently using the "Local Government Test" as financial assurance mechanism for its closure and post-closure costs.

13. Defined Benefit Pension Plan

Plan Description. All half time and greater County employees are provided pension benefits through the Public Employees' Retirement System of the State of Nevada (PERS), a cost sharing multiple-employer, defined benefit plan administered by the Public Employees' Retirement System of the State of Nevada. PERS provides retirement benefits, disability benefits, and death benefits, including annual cost of living adjustments, to plan members and their beneficiaries. NRS Chapter 286 establishes the benefit provisions provided to the participants of PERS. These benefit provisions may only be amended through legislation. The Public Employees' Retirement System of the State of Nevada issues a publicly available financial report that includes financial statements and required supplementary information for PERS that can be obtained at www.nvpers.org under Quick Links — Publications.

Benefits Provided. Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months. Vested members are entitled to a life-time monthly retirement benefit equal to the service time multiplier (STM) percentages listed below times the member's years of service to a maximum of 30 years. The schedule of Eligibility for Monthly Unreduced Retirement Benefits for regular members and police/fire members are as follows:

Eligibility for Regular Members:

Years of Service	Hired prior to 07/01/01		Hired between 07/01/01-12/31/09		Hired Between 12/31/09-07/01/15		Hired After 7/1/15

25 years	Any	2.50%	Any	2.67%				
30 years					Any	2.50%		

* Only service performed in a position as a police officer or firefighter may be counted towards eligibility for retirement as Police/Fire accredited service.

Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death. Post-retirement increases are provided by authority of NRS 286.575 - .579.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan (Continued)

Contributions: Benefits for plan members are funded under the employer pay contribution plan. The County is required to contribute all amounts due under the plan. PERS receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450. The County's required contribution rates for the year ending June 30, 2018, were 40.50% for police and fire; 28.00% for regular employees; 41.0% for judge; and 14.00% employee/employer match. The County has fully funded the amounts due for the year ending June 30, 2018. For purposes of GASB No. 82, the County recognized only the employer portion as a deferred outflow.

The actuary funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contribution requirement as a percentage of salary.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the County reported a liability of $11,180,767 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's allocation percentage of the net pension liability was based on the total contributions due on wages paid during the measurement period. Each employer's proportion of the net pension liability is based on their combined employer and member contributions relative to the total combined employer and member contributions for all employers for the period ended June 30, 2017. At June 30, 2017, the County's proportion was 0.08407 percent.

For the year ended June 30, 2018, the County recognized pension expense of $492,562. At June 30, 2018, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual results	$ 0	$ 733,684
Net difference between projected and actual earnings on pension plan investments	72,595	0
Changes in proportion	252,846	491,782
Changes in assumption	741,738	
County Contributions subsequent to measurement date	647,631	0
Total	$ 1,714,810	$ 1,225,466

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

13. Defined Benefit Pension Plan (Continued)

$647,631 was reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2018	$(234,863)
2019	230,730
2020	41,992
2021	(245,939)
2022	29,203
2023	20,590
	$(158,287)

Actuarial Assumptions: The System's net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.75%
Payroll Growth	5.00%, including inflation
Investment Rate of Return	7.50%
Productivity pay increase	0.50%
Projected Salary increases	Regular: 4.25% to 9.15%, depending on service
	Police/Fire: 4.55% to 13.90%, depending on service
	Rates include inflation and productivity increases
Consumer Price Index	2.75%

Changes of assumptions and other inputs reflect a change in the discount rate from 8.00% as of June 30, 2016, to 7.50% as of June 30, 2017.

Mortality rates were based on the RP-2000 Combined Healthy Mortality Table for Males and Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

Actuarial assumptions used in the June 30, 2017, valuation were based on the results of the experience review completed in 2017.The System's policies, which determine the investment portfolio target asset allocation, are established by the Public Employees' Retirement Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System.

13. Defined Benefit Pension Plan (Continued)

The following was the Board adopted policy target asset allocation as of June 30, 2017:

Asset Class	Target Allocation	Long-Term Geometric Expected Real Rate of Return*
Domestic Equity	42%	5.50%
International Equity	18%	5.75%
Domestic Fixed	30%	0.25%
Private Markets	10%	6.80%

*As of June 30, 2017, PERS' long-term inflation assumption was 2.75%

Discount Rate: The discount rate used to measure the total pension liability was 7.50% as of June 30, 2017. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the pension plan's fiduciary net position at June 30, 2017, was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2017.

Sensitivity of the County's proportionate share of the net pension liability to change in the discount rate: The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percent higher or lower than the current rate.

	1.0% Decrease (7.0%)	Discount Rate (8.0%)	1.0% Increase (9.0%)
County's proportionate share of the net pension liability	$ 16,902,821	$ 11,180,767	$ 6,429,266

Pension Plan Fiduciary Net Position: Detailed information about the pension plan's fiduciary net position is available in the PERS Comprehensive Annual Financial Report, available on the PERS website.

Pension contributions payable: At June 30, 2018, the County reported payables to the defined benefit pension plan of $25,961 for legally required employer contributions which had not yet been remitted to PERS.

14. Post-Employment Healthcare Plan

Plan Description: The County subsidizes eligible retirees' contributions to the Public Employees' Benefits Plan (PEBP), an agent multiple-employer defined benefit postemployment health care plan administered by the State of Nevada. The plan provides medical, vision, dental and life insurance benefits to eligible retired County employees and beneficiaries. NRS 287.041 assigns the authority to establish and amend benefit provisions to the PEBP nine-member board of trustees. The plan is now closed to current County retirees. However, County employees who previously met the eligibility requirement for retirement within the Nevada Public Employees' Retirement System had the option upon retirement to enroll in coverage under the PEBP and the subsidy provided by the County was determined by their number of years of service. The PEBP issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employee's Benefits Program, 901 S. Stewart Street, Suite 1001, Carson City, NV 89701, by calling (775) 684-7000, or by accessing the website at https://pebp.state.nv.us under Resources – Fiscal & Utilization Reports.

Employees covered by benefit terms. At June 30, 2018, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	25
Inactive employees entitled to but not yet receiving benefit payments	0
Active employees	0
	25

Funding Policy NRS 287.046 establishes the subsidies to be contributed toward the premium costs of the eligible retired County employees. As noted above, the County policy is to only fund retirees who retired prior to July 1, 2009. Plan members receiving benefits have their monthly contributions deducted from their pension checks based on the health plan chosen by the retiree as reduced by the amount of the subsidy. Effective July 2015, the subsidy provided to pre-Medicare retirees varies based on the type of plan selected (PPO or HMO) and by the level of coverage taken (e.g., single, two party, family, etc.). The chart below shows our understanding of monthly amounts currently payable for those with 15 years of PERS service.

Coverage Level	PPO CDHP	Standard HMO	Alternate HMO
	15 Years of Service		
Retiree Only	$ 709.19	$ 429.26	$ 412.43
Retiree + Spouse	1,158.03	678.83	645.18
Retiree + Child(ren)	1,098.13	557.66	530.78
Retiree + Family	1,546.96	807.23	763.52

All Medicare eligible retirees participate in a Medicare Exchange with PEBP providing a service related contribution to a Health Reimbursement Arrangement (HRA) equal to $12 per month per year of service (maximum $240 per month). The contribution requirements of plan members and the County are established and amended by the PEBP board of trustees. As a participating employer, the County is billed for the subsidy on a monthly basis and is legally required under NRS 287.023 to provide for it.

For fiscal year 2018, the County contributed $51,515 to the plan for current premiums. The County did not prefund any future benefits.

Important Dates used in the Valuation:

Valuation Date:	June 30, 2017
Measurement Date:	June 30, 2017
Measurement Period:	June 30, 2016 to June 30, 2017
Fiscal Year End:	June 30, 2018

Significant Results and Differences from the Prior Valuation:

This is the first report reflecting the requirements of Governmental Accounting Standards Board Statement No. 75. The assumptions used to develop the information in this report are the same assumptions used for the June 30, 2017, valuation. The only difference is the discount rate applied to develop the liability at the beginning of the measurement period, as required by Governmental Accounting Standards Board Statement No. 75. The beginning of the period liability was calculated by rolling back the June 30, 2017, valuation results.

Total Other Post-Employment Benefits (OPEB) Liability

The County's OPEB liability of $577,776 was measured as of June 30, 2017, and determined by actuarial valuation as of that date.

The County has elected to calculate the total OPEB liability and related information using the alternative measurement method permitted by Governmental Accounting Standards Board Statement No. 75 for employers in plans with fewer than one hundred total plan members.

Actuarial Assumptions and Other Inputs: The total OPEB liability in the June 30, 2017, actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement:

	PEBP
Inflation rate	2.75%
Salary Increase	Not applicable; there are no active employees in this plan.
Discount Rate	3.13%
Healthcare Cost Trend Rates	7.00% decreasing 0.5% per year to an ultimate rate of 5.00% for 2023 and later years.
Retirees' share of benefit-related costs	0%

The discount rate was based on the S & P General Obligation Municipal Bond 20 year High Grade Index.

Mortality rates were based on the social security administration's actuarial life tables.

Actuarial assumptions used in the June 30, 2017, valuation were based on the results of an actuarial experience study for the period of June 30, 2016, to June 30, 2017.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2018, the County recognized OPEB expense of $249,809. At June 30, 2018, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual results	$ 0	$ 0
Changes of assumptions or other inputs	0	0
County Contributions subsequent to measurement date	51,515	0
Total	$ 51,515	$ 0

$51,515 reported as deferred outflows of resources related to OPEB resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ended June 30, 2019. There were no other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB to be recognized as OPEB expense.

15. Water Sales

The Water District has entered into a water delivery teaming agreement. The purpose of the agreement is to develop a water infrastructure and provide wholesale water to adjoining water districts and/or developers who require water. Investment to develop the water sources are funded by the partner. The Water District is not required to provide funding. Should projects fail, the Water District has no liability for costs incurred by the partner. If the projects are completed and revenues are generated from the sale of water, revenues collected will be applied to the investment of the partner until paid in full for the successful projects. After payment of project expenditures, the Water District will be entitled to 50 percent of remaining monies. Should the Water District withdraw from the agreement, the Water District will be required to reimburse the partner's investment costs. Revenues, if any, from water sales are recorded in the Lincoln County Water District funds.

16. Change in Accounting Principle

Effective July 1, 2017, the County adopted Governmental Accounting Standards Board Statement (GASB) No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. GASB No. 75 addresses accounting and financial reporting for other postemployment benefits provided to the County's employees through the Nevada Public Employees' Benefit Plan (PEBP). The statement also requires various note disclosures and required supplementary information. The effect of the implementation of this standard on beginning net position is disclosed in Note D-18.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

17. Correction of Errors

Governmental Accounting Standards Board (GASB) Statement No. 82, *Pension Issues – An Amendment of GASB No. 67, No. 68, and No. 73.* was effective for periods beginning after June 15, 2016. GASB 82 addresses some issues raised with previous GASB statements including No. 68. More specifically, GASB No. 82 addressed the following issues: (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements.

Certain errors occurred in the determination or classification of payments to satisfy employee contribution requirements in the adoption, as of July 1, 2016, of GASB Statement No. 82, *Pension Issues – An Amendment of GASB No. 67, No. 68, and No. 73* resulting in the overstatement of amounts previously reported for deferred outflows of resources, net pension liability-related amounts for the year ended June 30, 2017. Corrections of the amounts for deferred outflows of resources have resulted in a restatement of net position as of July 1, 2017.

Because PERS is a state-wide multi-employer plan that covers substantially all employees of the State, its agencies, and its political subdivisions, including the employees of the County, it is the responsibility of the State Controller's office to perform the GASB calculations according to the applicable pension related statements and disseminate that information to the applicable agencies and political subdivisions for inclusion in their audited financial statements. The eventual dissemination of the GASB No. 82 information occurred after most of the State's political subdivisions had already issued and filed their audited financial statements.The County did not receive the GASB No. 82 information in time to include it in its fiscal year 2017 audited financial statements; accordingly, the County implemented GASB No. 82 in fiscal year 2018. The effect of the implementation of these standards on beginning net position is disclosed in Note D-18.

18. Change in Net Position

As of July 1, 2017, the County adopted Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions* and Governmental Accounting Standards Board Statement No. 82, *Pension Issues.* The effect of the implementation of these standards on beginning net position is as follows:

	Governmental	Business-Type
Net position previously reported, July 1, 2017	$ 34,154,240	$ (461,902)
Change in total OPEB liability (GASB 75-OPEB)	(784,154)	(96,434)

Fiscal year 2015 was the first year of implementation, therefore, only four years are shown.

The County's proportionate share of the net pension liability is based upon the measurment taken on June 30th, of the prior year.

See accompanying notes to required supplementary information.

Note 1 – Explanation of Differences between General Fund (Budgetary Basis) and General Fund (GAAP Basis)

The accompanying Reconciliation of the General Fund (Budgetary Basis) to the General Fund (GAAP Basis) presents balances combined for external financial reporting purposes.

With the implementation of GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the budgetary basis of accounting for the General Fund differs from generally accepted accounting principles (GAAP).

Guidance in GASB Statement 54 changed the definition of Special Revenue Funds for financial reporting purposes. Pursuant to statute, budget comparisons are required using the budget adopted. Six internally reported special revenue funds of the County (Stabilization, Planning, Rachel Jones Memorial Cemetery, Flood Control, Special Projects, Lincoln County Land Act Emergency Disaster, and Lincoln County Water Emergency Disaster) are combined with the General Fund for external reporting purposes to conform with generally accepted accounting principles.

Note 2 – Net Pension Liability

Changes in benefit terms. Legislation passed in the 2015 Legislative session made changes to a number of plan provisions. These changes were effective July 1, 2015, and apply only to members whose effective date of membership is on or after July 1, 2015. Changes to certain survivor benefit provisions were made effective for survivors of members killed in the line of duty or in the course of employment on or after July 1, 2013, for payments on or after July 1, 2015. The July 1, 2015, sunset on the critical labor shortage exception to the reemployment restriction was repealed. There have been no changes in benefit terms since the last valuation.

Changes in assumptions. Based on the June 30, 2016, Actuarial Experience Study, the following assumptions were changed. Previously, these assumptions were as follows:

Net Investment Return:	8.00% (including 3.50% for inflation).	
Consumer Price Index:	Increase of 3.50% per year.	
Salary Increases:	*Inflation:*	3.50% Plus
	Productive pay increases:	0.75% Plus

Note 3 – Other Post-Employment Benefits Liability

Changes in benefit terms. There have been no changes in benefit terms since the last valuation.

Changes in assumptions. Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period.

NOTE 1 - BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of Lincoln County, Nevada (the county) under programs of the federal government for the year ended June 30, 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position, changes in net position, or cash flows of Lincoln County, Nevada.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(A) Expenditures reported on the Schedule are reported on the modified accrual basis of accounting.
(B) Pass-through entity identifying numbers are presented where available.
(C) Lincoln County, Nevada has elected not to use the 10% De Minimis indirect cost rate allowed under the Uniform Guidelines.

NOTE 3 - FOOD DISTRIBUTION

Non-monetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. At June 30, 2018 the County had food commodities totaling $0.00 in inventory.

NOTE 4 - U.S. DEPARTMENT OF AGRICULTURE

The County issued a single registered Water Revenue bond purchased by the U.S. Department of Agriculture (CFDA 10.760). The following is a summary of activity for the year:

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated November 20, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

Report on Compliance for Each Major Federal Program

We have audited Lincoln County, Nevada's (the County) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended June 30, 2018. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

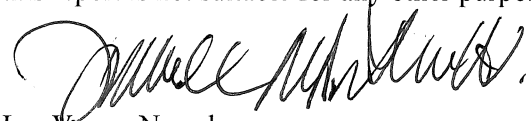
Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.



Report on Internal Control over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Las Vegas, Nevada

INDEPENDENT AUDITOR'S COMMENTS

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

In connection with our audit of the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County) as of and for the year ended June 30, 2018, and the related notes to the financial statements, nothing came to our attention that caused us to believe that the County failed to comply with the specific requirements of Nevada Revised Statutes referenced below insofar as they relate to accounting matters except as noted below. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the County's noncompliance with the requirements of Nevada Revised Statutes noted below, insofar as they relate to accounting matters.

CURRENT YEAR STATUTE COMPLIANCE

Expenditures in Excess of Appropriations

Per NRS 354.626, the County is required to report expenditures that exceeded budgeted appropriations at the function level for the General Fund, Special Revenue Funds, and Capital Project Funds. Enterprise funds may not exceed budget appropriations at the fund level. For the year ending June 30, 2018, the County had the following expenditures over appropriations that are required to be reported.

General Fund – Health function	$ 9,748
Room Tax Fund – Culture and recreation function	$ 27,041
Room Tax Fund – Intergovernmental function	$ 585
Legal Aid Services Fund – Judicial function	$ 4,540
Genetic Marker Fund – General government function	$ 338
Detention Center – Enterprise Fund	$ 140,247

The General Fund over expenditure is related to an increase in the monthly payments for State Health Nurse. The Room Tax Fund over expenditure is related to an increase in Room Tax expenditures for local events and an increase in room tax revenues causing additional payments to the State. The Legal Aid Fund over expenditure is related to unanticipated legal services. Genetic Marker Fund over expenditures were due to an increase in required testing. The Detention Center expenditures were in excess of the authorized budget due to additional costs associated with an increase in inmate populations.

Deficit Fund Balance/Net Position

Airport Special Revenue Fund	$ 269
Detention Center Enterprise Fund	$ 2,359,765
Building Department Enterprise Fund	$ 77,293

The deficit net position of the Detention Center and Building Department Enterprise funds are due to the individual fund's proportionate share of the net pension liability of the Public Employees' Retirement System of the State of Nevada. The Airport fund deficit is due to a short fall in expected revenues.

PROGRESS ON PRIOR YEAR STATUTE COMPLIANCE

The County had similar findings in the current year as listed above.

CURRENT YEAR RECOMMENDATIONS

We noted no material weakness and reported no significant deficiencies in internal controls.

PRIOR YEAR RECOMMENDATIONS

We noted no material weakness and reported no significant deficiencies in internal controls in the prior year.

NEVADA REVISED STATUTE 354.6115 - STABILIZATION FUND

The County created a stabilization fund in accordance with Nevada Revised Statute 354.6115, "Fund to stabilize operations of local government and mitigate effects of natural disaster". The fund is reported on pages 237 and 238 of the financial statements as an "internally reported (budgetary basis) fund reported as part of the General Fund for external reporting purposes. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements.

NEVADA REVISED STATUTE 354.5989 – BUSINESS LICENSES

Nevada Revised Statutes 354.624.4(a) requires a schedule of all fees imposed by the County which are subject to the provisions of NRS 354.5989 be addressed by the independent auditor. During the year ended June 30, 2018, the County did not raise fees on business licenses subject to the limitation of NRS 354.5989. The County business fee is $40.

NEVADA REVISED STATUTE 354.59815 – CAPITAL PROJECTS FUND

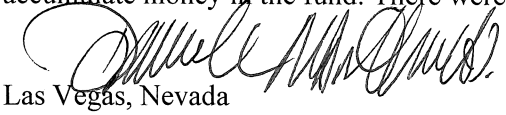
Capital Improvements Fund

The County established the Capital Improvements Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. Projects funded during the year were as follows:

Intergovernmental – Payment to City	$	7,637

Pioche Town Capital Projects Fund

The County established the Pioche Town Capital Projects Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. There were no projects funded during the year.



Panaca Town Capital Projects Fund

The County established the Panaca Town Capital Projects Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. Projects funded during the year were as follows:

Ballfield improvements	$	4,227

Alamo Town Capital Projects Fund

The County established the Alamo Town Capital Projects Fund in accordance with Nevada Revised Statutes 354.59815. Compliance with Nevada Revised Statutes is contained in Note C1 to the financial statements. The County does not plan to accumulate money in the fund. There were no projects funded during the year.

Re: Nevada Facilities Fund Staff Report

Pursuant to the Regulation LCB File No. R017-22, which governing the Nevada State Infrastructure Bank (the "Bank"), staff has prepared the following report on Opportunity 180's request for a loan from the Bank to establish the proposed Nevada Facilities Fund, along with a recommendation for the Board of Directors' consideration.

- **Applicant:** Opportunity 180 in partnership with the Equitable Facilities Fund
- **Project:** The Nevada Facilities Fund
- **Lender:** Nevada State Infrastructure Bank
- **Amount Requested:** $15,000,000 from the Bank's Charter School Capital Needs Revolving Account

Project Overview: Opportunity 180 (the "Applicant"), an education-focused non-profit organization based in Las Vegas, Nevada, is requesting $15,000,000 from the Bank's Charter School Capital Needs Revolving Account, to establish the Nevada Facilities Fund ("NVFF") in partnership with the Equitable Facilities Fund, which is a non-profit social impact fund that provides low-cost, long-term financing to charter school operators.

Pursuant to NRS 408.55063, a qualified borrower that is eligible to receive a loan or other financial assistance from the Bank is defined as "a governmental unit, an Indian reservation or Indian colony or a private nonprofit entity created for charitable or educational purposes."

As expressed in the financing application submitted to the Bank, the Applicant is a Nevada 501(c)3 organization that is *"dedicated to ensuring that every child has access to a high-quality public school that puts them on track to be college and career ready."*

The NVFF will function as a revolving credit facility designed to substantially reduce financing expenses for high-quality public charter schools and create educational opportunities in low-income communities.

The Applicant proposes utilizing the Bank's $15,000,000 as leverage for an additional $85,000,000 of private philanthropy and tax-exempt bond financing. This funding will establish a $100,000,000 revolving loan fund intended to support 7,500 additional student seats in high-quality public charter schools located in communities with the greatest level of need.

Approximately 70% of students attending schools supported by NVFF will identify as people of color and approximately 70% will qualify for free or reduced-price lunch.

The Applicant intends to repay the Bank's $15,000,000 loan with funds that are generated from payments from charter school operators that receive loans from NVFF. All administration of

future loans, including loan sourcing, underwriting, approval, closing, and servicing processing will be performed by Applicant (directly or through their partner, the Equitable Facilities Fund).

Background: On August 26, 2022, the Applicant submitted a financing application to the Bank requesting a loan of $15,000,000 to establish the NVFF ("the Project").

Upon receipt of the application for financing, Bank staff began the due diligence process to examine the proposal for project eligibility, borrower qualification, and financial viability pursuant to the Bank's governing statutes and regulations.

Following review, Bank staff determined that the Applicant's proposal met the statutory definition of an eligible project, i.e., the Applicant could be a qualified borrower of the Bank. Further the proposed NVFF project met the initial statutory eligibility requirements to be considered for funding from the Board of Directors as a qualified project of the Bank as defined under NRS 408.55064. Therefore, the Project was brought to the Board of Directors for its consideration on October 10, 2022.

During this meeting, the Board of Directors conditionally approved the eligibility of the Project along with a proposed term sheet to establish the NVFF subject to the following conditions:

1) The completion of a full regulatory review by Bank staff of the Project; and
2) Approval of the final contract terms for the Project by the Board of Directors.

Additionally, Bank staff was directed by the Board of Directors to proceed with the regulatory review of all regulation requirements (i.e., staff reports, credit analysis, and a financing agreement) the Project is subject to, and to negotiate the final contract terms for the Board's consideration before potential final approval.

General Requirements: Pursuant to the Bank's regulation, LCB File No. R017-22, for each application for a loan or other financial assistance that is submitted to the Bank, staff is required to:

1) *Review the application for completeness, including, without limitation, any attachments, or exhibits;*
2) *Confirm that the governing body of the applicant has approved the application; and*
3) *Confirm that the applicant is a qualified borrower, and the project is an eligible project;*

After initially submitting a financing application to the Bank on August 26, 2022, the Applicant provided Bank staff with updated documents to include its 2022 audited financial statement, along with its most recent federal Internal Revenue Service Form 990 for the year 2022 on June 26, 2023. The financing application along with all documents submitted to the Bank by the Applicant can be found in Exhibit D.

After reviewing the financing application submitted by the Applicant along with the most recent financials that have been received, Bank staff has determined that the application is complete, and that the Applicant's governing board has approved its application.

Additionally, staff has determined through its analysis along with the Board of Directors' pre-conditional approval for the NVFF on October 10, 2022, that the Applicant is a qualified borrower and the NVFF is a qualified project. This analysis that was approved by the Board of Directors can be found in Exhibit D of this report.

Repayment Structure, Financing and Credit Analysis: In addition to the above General Requirements set forth in LCB File No. R017-22, Bank staff also undergoes the following steps when reviewing financing applications:

1) *Confirm that the proposed source of repayment is appropriate for the loan or other financial assistance from the Bank and that the applicant has the ability to repay the loan or other financial assistance from the proposed source of repayment;*
2) *Determine the impact of the loan or other financial assistance on the finances and operations of the applicant;*
3) *Determine whether the applicant has unmet capital needs that could be detrimentally affected by the loan or other financial assistance or that could detrimentally affect the ability of the applicant to repay the loan or other financial assistance;*
4) *Review the audited financial statements of the applicant for the immediately preceding 5 years or, if the applicant is a new entity with less than 5 years of financial statements, review the existing audited financial statements and a feasibility study for the eligible project provided by the applicant;*
5) *Conduct a financial analysis of the applicant's general credit, including, without limitation:*
    a) *An analysis of the financial statements of the applicant using criteria appropriate for an analysis of municipal credits or private credits, as applicable;*
    b) *A review of any official statements or prospectus used by the applicant in conjunction with the issuance of bonds;*
    c) *Conducting discussions with the financial advisor and underwriter of the applicant to assist in evaluating the applicant's financial condition;*
    d) *A review of reports of bond rating agencies, where applicable;*
    e) *For applicants who are governmental units, a review of existing property tax rates and general obligation bonding capacity; (Not applicable)*
    f) *An analysis of the existing indebtedness of the applicant, both secured and unsecured; and*
    g) *An analysis of cash flow projections;*
6) *Examine population trends;*
7) *Examine assessed value trends;*
8) *Evaluate the relevant legal authority applicable to the applicant, including, without limitation, state law, federal tax law and local ordinances and resolutions;*

9) *Evaluate the extent to which the management of the applicant understands the obligations, terms and conditions of the loans and other financial assistance provided by the Bank; and*
10) *Determine the readiness of the management of the applicant to assume responsibility for the timely repayment of the loan or other financial assistance.*

Each of these items is addressed below:

1. ***Confirm that the proposed source of repayment is appropriate for the loan or other financial assistance from the Bank and that the applicant has the ability to repay the loan or other financial assistance from the proposed source of repayment.***

In the financing application for the NVFF, the Applicant proposes to repay the Bank through loan repayments from charter school borrowers who, in turn, borrow from the Fund.

Exhibit A includes a detailed model for expected cash flows for the NVFF from 2023 – 2042.

If the Board of Directors elects to approve the loan for the Project, the Applicant and the Equitable Facilities Fund ("EFF") will deposit Bank Funds of $15,000,000 into the NVFF, along with an additional $5,350,000 in philanthropic capital that has already been raised by local Nevada donors. Additionally, the Applicant will be required to repay a $150,000 Loan Origination Fee to the Bank at the time of closing.

Tax exempt bonds will then be issued by EFF and the bond proceeds will be deposited within the NVFF. The expected bond proceeds to be deposited within the fund are as follows:

2023: $16,480,000

2024: $17,149,536

2025: $17,856,128

2026: $18,590,923

2027: $19,355,075

With these proceeds deposited, cumulative capital sources for the NVFF (inclusive of funds from the State Infrastructure Bank, philanthropic contributions from the Applicant and EFF, and tax-exempt bonding) would equal:

2023: $36,830,000

2024: $54,074,028

2025: $72,281,034

2026: $91,488,370

2027: $111,736,304

Since the objective of the NVFF is to provide the lowest cost capital available to charter school operators, Bank staff is recommending the minimum level of annualized payments required under the Bank's regulation, with a balloon payment equal to the principal and accrued interest to be due at the maturity date.

For the 20-year term on the proposed $15,000,000 loan, the Bank can expect to earn $4,500,000 in accrued interest upon maturity.

The Applicant will repay the Bank through annual interest-only payments of 0.01% of the outstanding loan balance until maturity. These annual interest-only payments would equal $1,500 per year, or $28,500 over 19 years. In year 20, the Bank would receive a lump sum payment of all remaining principal and accrued interest, which would equal $19,471,500.

The Applicant and EFF anticipate that the NVFF will fund approximately two charter school projects per year, with the initial loans to charter schools being $10,300,000 each for 2023. Project costs are expected to increase over time.

Given the structure of the fund, coupled with the expected issuance timeline for charter school loans offered by the NVFF, Bank staff is confident that the revenues received by the NVFF would be sufficient to cover the interest only payments of 0.01% for 19 years and could also cover the balloon payment in year 20. Once the loan and any accumulated interest would be paid in full, the expected end of year balance of the NVFF in 2042 would be $6,204,467. This remaining balance of the NVFF would allow additional loans to charter schools to continue to be made once all Bank funds are repaid.

2. ***Determine the impact of the loan or other financial assistance on the finances and operations of the applicant.***

As is illustrated in Exhibit A, upon the establishment of the NVFF and the issuance of its initial loans, repayments from charter school operators would immediately start being deposited within the Fund. The chart below, shows the expected inflows (loan repayments) and outflows (debt service, operating expenses) of funds within the NVFF, as well as the expected annual surplus.

Year	Loan Repayments Inflow	Bond Debt Service (Outflow)	Operating Expenses (Outflow)	Annual Surplus Net Cash
2023	647,292	(491,090)	(61,310)	94,892
2024	1,967,769	(1,493,220)	(124,071)	350,478

2025	3,341,065	(2,536,358)	(188,293)	616,414
2026	4,769,292	(3,622,448)	(253,985)	892,859
2027	6,254,649	(4,753,206)	(321,155)	1,180,288
2028	7,011,890	(5,329,970)	(50,000)	1,631,919
2029	7,011,890	(5,329,970)	(51,000)	1,630,919
2030	7,011,890	(5,329,970)	(52,020)	1,629,899
2031	7,011,890	(5,329,970)	(53,060)	1,628,859
2032	7,011,890	(5,329,970)	(54,122)	1,627,798
2033	7,011,890	(5,329,970)	(55,204)	1,626,715
2034	7,011,890	(5,329,970)	(56,308)	1,625,611
2035	7,011,890	(5,329,970)	(57,434)	1,624,485
2036	7,011,890	(5,329,970)	(58,583)	1,623,336
2037	7,011,890	(5,329,970)	(59,755)	1,622,165
2038	7,011,890	(5,329,970)	(60,950)	1,620,970
2039	7,011,890	(5,329,970)	(62,169)	1,619,751
2040	7,011,890	(5,329,970)	(63,412)	1,618,507
2041	7,011,890	(5,329,970)	(64,680)	1,617,239
2042	7,011,890	(5,329,970)	(65,974)	1,615,945

As shown in this chart, the annual operating expenses for the NVFF begin at $61,310 and increase before reaching a peak of $321,155 in 2027 at the height of new loans from the NVFF being issued. After this occurs, the annual operating expenses normalize to a range of $50,000 - $65,974 over the remaining 20-years of the NVFF's loan term with the Bank.

The Applicant has stated that all of the administrative expenses listed in Exhibit A and the above chart will go towards covering EFF's overhead costs for administering the individual loans within the NVFF portfolio. As a result, the Applicant will experience an increased workload from the time of closing of the Bank's loan through 2027 as it vets charter school operators for participation within the Fund. After 2027, the NVFF is projected to cease making additional loans, and EFF will perform the majority of work as it services the outstanding loans.

The applicant will not see an increase on its balance sheet except temporarily, upon the receipt of initial funding from the Bank. The Bank's loan, private philanthropic dollars raised by the applicant, and bond proceeds will all be placed in the NVFF.

Bank staff has discussed this increased workload that can be expected as the NVFF begins to issue loans, and the Applicant fully understands that it will need to perform these operational tasks without any additional compensation from the NVFF.

3. ***Determine whether the applicant has unmet capital needs that could be detrimentally affected by the loan or other financial assistance or that could detrimentally affect the ability of the applicant to repay the loan or other financial assistance.***

Through an analysis of the Applicant's current operating budget, preceding 5 years of audited financial statements, and the Applicant's Form 990's from 2018, 2019, 2021, and 2022, Bank staff has not identified any unmet capital needs of the organization that would be detrimentally affected by taking on this loan from the Bank.

It should be noted that the Applicant does have an operating lease for office space, which expires in January 2025. As of June 30, 2022, the total future minimum lease payments are as follows:

2023	$33,493
2024	$34,559
2025	$17,324
Total Outstanding	$85,376

Since the Applicant appears to be in the financial position to continue making these future lease payments, Bank staff does not view this operating lease as a significant factor that would limit the Applicant's ability to make scheduled loan repayments through this project.

Bank staff has not identified any additional unmet capital needs that would detrimentally affect the Applicant's ability to repay the loan over the proposed 20-year period.

4. ***Review the audited financial statements of the applicant for the immediately preceding 5 years or, if the applicant is a new entity with less than 5 years of financial statements, review the existing audited financial statements and a feasibility study for the eligible project provided by the applicant.***

Bank staff has reviewed the Applicant's audited financial statements that were prepared by Houldsworth, Russo & Company for all five of its most independent financial audits. Additionally, Bank staff has verified with Houldsworth, Russo & Company that these audit reports provided by the applicant were accurate.

The dates of the audit reports provided by the Applicant were:

- December 31, 2017;
- December 31, 2018;
- June 30, 2020;
- June 30, 2021; and
- June 30, 2022.

Staff would note that the Applicant switched from a January – December fiscal year to a July – June fiscal year in 2019; therefore, the relevant 2019 financials are also included within the June 30, 2020, audited financial report.

In every audit, Houldsworth, Russo & Company indicated that the Applicant's financial statements were presented fairly in all material respects.

Additionally, Houldsworth, Russo & Company also noted that at for each accounting period, the Applicant's changes in net assets and cash flows consistently ended in conformity with accounting principles generally accepted in the United States of America.

Based on these audited financial statements, coupled with the review of the Applicant's financial position since 2017, Bank staff feels comfortable of the Applicant's ability to undertake this proposed loan from the Bank.

5. Conduct a financial analysis of the applicant's general credit, including, without limitation:

a. An analysis of the financial statements of the applicant using criteria appropriate for an analysis of municipal credits or private credits, as applicable;

Using the audited financial statements provided by the Applicant covering the years 2017, 2018, 2019, 2020, 2021, and 2022; Bank staff has examined Applicant's total financial condition through its total assets and liabilities. These are reflected in the table below.

Staff would note that the applicant moved from a January 1 – December 31 fiscal calendar to a July 1 – June 30 fiscal calendar in 2020, so the audited financial statement from 2020 covers an 18-month period from January 1, 2019 – June 30, 2020.

Year	Total Assets	Total Liabilities	Net Assets
2017	$3,962,198	$22,516	$3,939,682
2018	$11,908,164	$53,770	$11,854,394
2020 (covers 18-month period)	$5,480,190	$2,054,219	$3,425,971
2021	$15,615,978	$2,202,282	$13,413,696
2022	$19,995,394	$868,695	$19,126,699

Since 2017, the Applicant has consistently shown that it begins and ends each fiscal year in a reasonable financial position.

Through analyzing the Applicant's audited financial statements and Form 990's from 2017, 2018, 2019, 2020, 2021, and 2022; Bank staff has not identified any liabilities, accounting procedures, or other factors that would pose a credit risk to the Bank thereby limiting the Applicant's ability to repay this loan.

b. A review of any official statements or prospectus used by the applicant in conjunction with the issuance of bonds;

While the Applicant will be the qualified borrower for this project, the proposed structure of the NVFF would operate as partnership with the Applicant and EFF, which operates the Equitable School Revolving Fund ("ESRF").

Through this structure, funds which are deposited with the NVFF would live on the balance sheet for the ESRF.

Being that the Applicant does not directly issue bonds, Bank staff has reviewed a series of official statements for the ESRF that have been published for the issuance of various series of bonds issued through the Arizona Industrial Development Authority, the California Infrastructure and Economic Development Bank, the Massachusetts Development Finance Agency, and the City of Albany Capital Resource Corp., N.Y.

These official statements include the following:

- August 2019: National Charter School Revolving Loan Fund Revenue Bonds, Series 2019 A and B;
- August 2020: National Charter School Revolving Loan Fund Revenue Bonds, Series 2020 A and B;
- October 2021: National Charter School Revolving Loan Fund Revenue Bonds, Series 2021 A, B, C, and D; and
- August 2022: National Charter School Revolving Loan Fund Revenue Bonds, Series 2022 A and B.

The official statement published on August 28, 2019, related to the issuance of $111,725,000 in National Charter School Revolving Loan Fund Revenue Bonds through the following series:

- Series 2019A: Arizona Industrial Development Authority - $92,715,000
- Series 2019B: California Infrastructure and Economic Development Bank- $19,010,000

The official statement published on August 21, 2020, related to the issuance of $170,825,000 in National Charter School Revolving Loan Fund Revenue Bonds through the following series:

- Series 2020A (Social Bonds): Arizona Industrial Development Authority - $122,710,000
- Series 2020B (Social Bonds): California Infrastructure and Economic Development Bank - $48,115,000

The official statement published on October 6, 2021, related to the issuance of $217,815,000 in National Charter School Revolving Loan Fund Revenue Bonds through the following series:

- Series 2021A (Social Bonds): Arizona Industrial Development Authority Senior National Charter School Revolving Loan Fund Revenue Bonds- $122,895,000
- Series 2021 (Social Bonds): Arizona Industrial Development Authority Subordinate National Charter School Revolving Loan Fund Revenue Bonds- $21,325,000
- Series 2021B (Social Bonds): California Infrastructure and Economic Development Bank - $30,650,000
- Series 2021C (Social Bonds): Massachusetts Development Finance Agency - $17,925,000
- Series 2021D (Social Bonds): City of Albany Capital Resource Corporation - $25,020,000

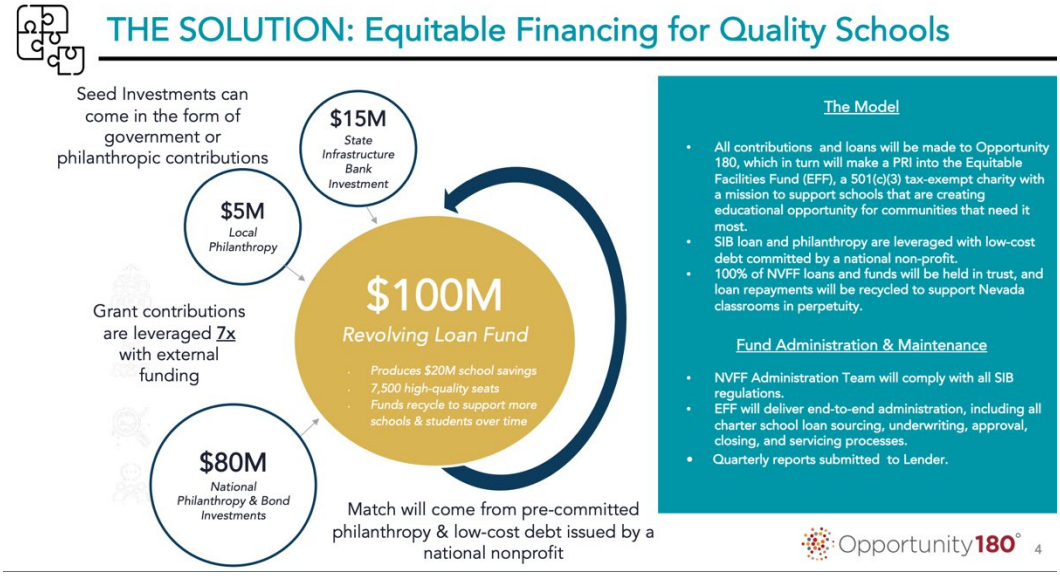
The official statement published on October 6, 2021, related to the issuance of $219,410,000 in National Charter School Revolving Loan Fund Revenue Bonds through the following series:

- Series 2020A (Social Bonds): Arizona Industrial Development Authority - $153,525,000
- Series 2020B (Social Bonds): California Infrastructure and Economic Development Bank - $65,885,000.

Through a review of these official statements, Bank staff has determined that the ESRF continues to provide low-cost financing to charter schools across the country that serve diverse student populations, while also making all required to bond holders.

Similarly, staff would note that the ESRF's continued issuance of self-designated "Social Bonds" would pair well with the intended uses for the Bank's allocation $15 million to support charter schools in low-income communities as noted in its 2021 Series B (Social Bond) issuance.

c. Conducting discussions with the financial advisor and underwriter of the applicant to assist in evaluating the applicant's financial condition;



Since the financing application was submitted by the Applicant, Bank staff has engaged in numerous discussions with the Applicant, EFF, and various financial advisors for the State Treasurer's Office to better understand the financial condition of the Applicant.

Through these discussions, alongside Bank staff's thorough review of the Applicant's financial statements, there have been no concerns to date as to the financial condition of the Applicant that would impact staff's recommendation to the Board of Directors for this proposed loan from the Bank.

d. A review of reports of bond rating agencies, where applicable;

While the Applicant will be the qualified borrower for this project, the proposed structure of the NVFF would operate as partnership with the Applicant and EFF, which operates the ESRF. Through this structure, funds which are deposited with the NVFF would live on the balance sheet for the ESRF.

For clarity, a diagram of the proposed structure of the NVFF is included below. This diagram was provided by the Applicant and can also be found in Exhibit D.

Being that the Applicant does not directly issue bonds and has not received reports from bond rating agencies, Bank staff has reviewed rating agency reports that are publicly available for the ESRF.

S&P Global Ratings has assigned the following ratings to the ESRF:

- July 2022: A-rating with a positive outlook
- September 2021: A-rating with a stable outlook
- June 2020: A-rating with a stable outlook

On July 25, 2022, S&P Global Ratings revised its outlook to positive from stable, while also reaffirming its 'A' rating on the ESRF's senior national charter school revolving loan fund revenue bonds issued in 2019, 2020, and 2021. These bonds have been issued through various series by the Arizona Industrial Development Authority, the California Infrastructure and Economic Development Bank, the Massachusetts Development Finance Agency, and the City of Albany Capital Resource Corp., N.Y.

In this revised outlook, S&P Global Ratings cited that increased diversification of charter school loans in additional states coupled with the overall performance of the fund and lack of loan defaults gave rise to the move from positive to stable.

Also in its July 2022 ratings report, S&P Global Ratings assigned its 'A' rating with a positive outlook to the $170.0 million series 2022A senior bonds issued by Arizona Industrial

Development Authority, and the $69.1 million series 2022B senior bonds issued by the California Infrastructure and Economic Development Bank.

In the announcement of the revised outlook, S&P Global Ratings noted that it provided the change due "based on the trend of ongoing diversification of the loan portfolio."

In 2019, the ESRF operated 11 loans to charter school operators and increased that number to 58 loans in 2022. S&P Global Ratings also noted that during the program's history since 2019 there have been no delinquent payments or defaults, which the agency expected to continue over the next several years.

With S&P Global Ratings' strong assessment of the steady growth within the ESRF, Bank staff believes that the addition of the proposed NVFF within the portfolio would only strengthen the overall performance of the ESRF in the view of rating agencies through increased growth diversification for the overall fund.

e. For applicants who are governmental units, a review of existing property tax rates and general obligation bonding capacity.

Bank staff has determined this section is not applicable for this project and/or this Applicant.

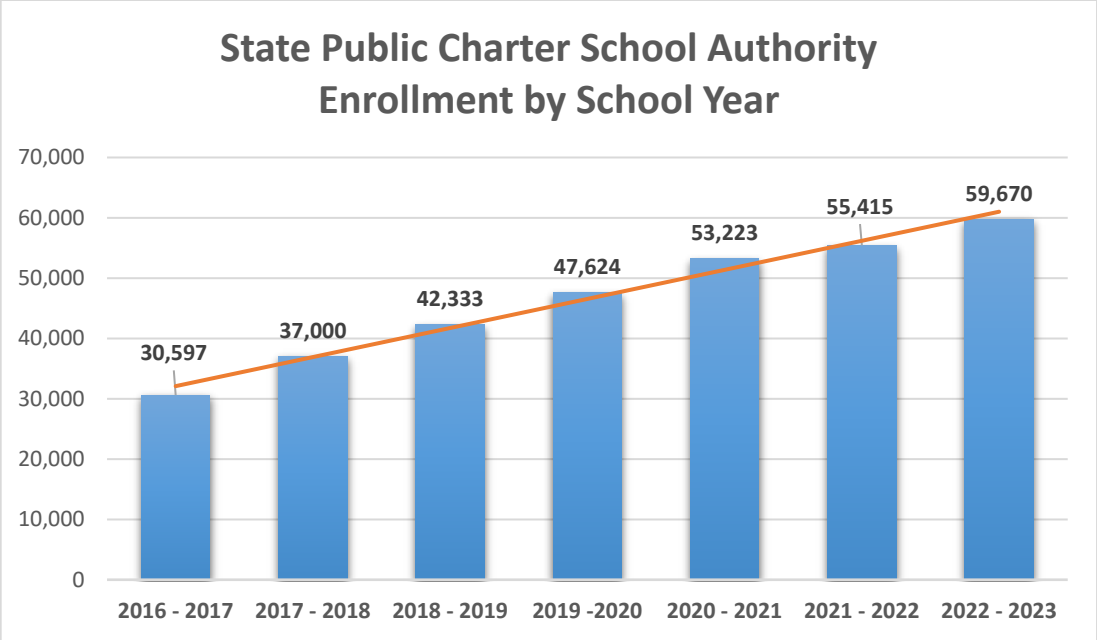
f. An analysis of the existing indebtedness of the applicant, both secured and unsecured; and

In analyzing the Applicant's 2023 Operating Budget, last five years of audited financial statements, and corresponding Form 990s, Bank staff has not identified any outstanding debts that are required to be repaid by the Applicant outside of the operating lease for office space which was outlined in a previous section of this report.

All budgets, audited financial statements, and annual operating documents suggest that the Applicant is a stable financial position.

g. An analysis of cash flow projections.

A full cash flow model for the proposed NVFF from 2023-2042 can be found in Exhibit A of this report. Bank staff has analyzed the projections for bond proceeds deposited within the Fund, expected loans to charter schools that will be made from 2023-2027, anticipated repayments to the Bank, expected repayments from charter schools into the Fund, expectations on debt service payments, annual operating expenses, and annual surpluses that will be recycled into the Fund.



Bank staff has determined that all cash flow projections contained within Exhibit A seem reasonable and attainable over the 20-year period.

6. Examine population trends.

Given that the NVFF is proposing to create 7,500 charter school seats, Bank staff has examined the enrollment trends within the student population that attends charter schools in Nevada to better understand the feasibility of the proposed loan pipeline for the NVFF.

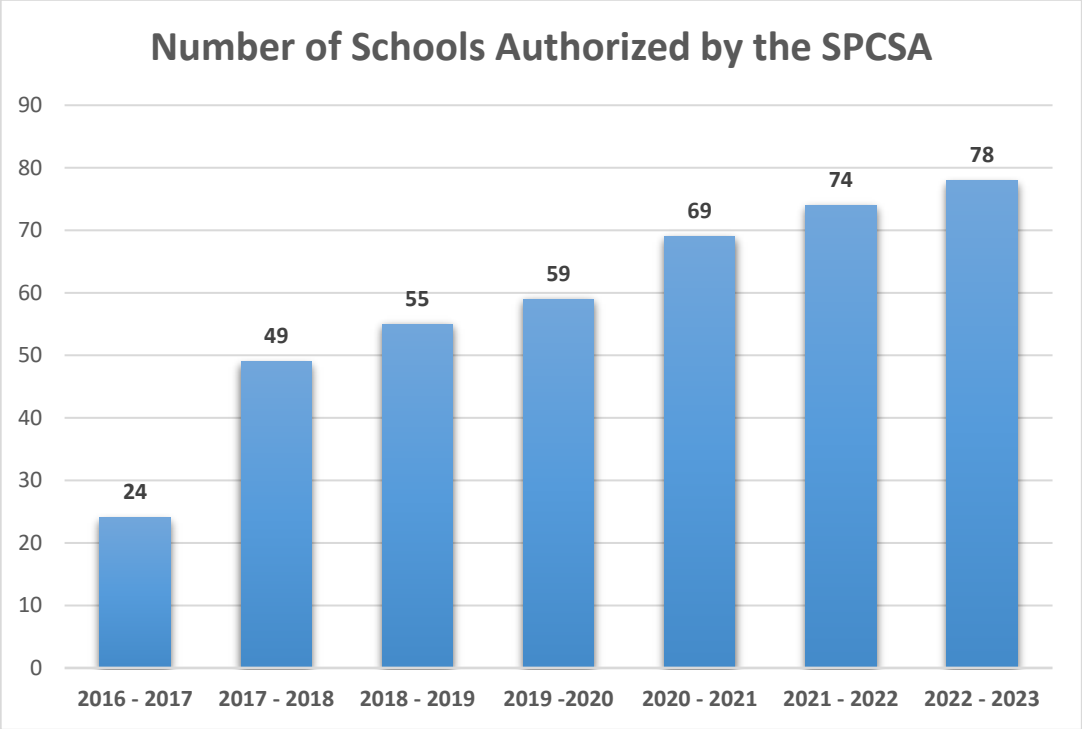
According to the Nevada Department of Education, at total of 55,415 students were enrolled across 78 schools under the State Public Charter School Authority ("SPCSA") for the 2021-2022 school year. Additionally, several local school districts also currently sponsor charter schools, including the Carson City School District, which sponsors one school, the Clark County School District which sponsors six schools, and the Washoe County School District which sponsors seven schools over 10 campuses.

Given that proposed NVFF would largely support students at schools within the SPCSA, staff has largely focused on enrollment trends within the schools sponsored the SPCSA for this analysis.

Source: *Enrollment for Nevada Public Schools*, Nevada Department of Education. Accessible at: https://doe.nv.gov/DataCenter/Enrollment_Data/

Since the 2016-2017 school year, the number of students enrolled in charter schools sponsored by the SPCSA has steadily increased by over 29,000 total students with an average yearly increase of 11.9%.

School Year	Charter School Enrollment	Increase in Enrollment	Percentage Increase over Previous Year
2016 – 2017	30,597		
2017 - 2018	37,000	6,403	20.93%



2018 - 2019	42,333	5,333	14.41%
2019 - 2020	47,624	5,291	12.50%
2020 - 2021	53,223	5,599	11.76%
2021 - 2022	55,415	2,192	4.12%
2022 - 2023	59,670	4,255	7.68%

Source: *Enrollment for Nevada Public Schools*, Nevada Department of Education. Accessible at: https://doe.nv.gov/DataCenter/Enrollment_Data/

The total number of schools that have been authorized by the SPCSA has also steadily increased over the last seven academic school years.

In the 2016-2017 school year, there were 24 authorized charter schools within the SPCSA. Comparatively, for the 2022-2023 school year there were 78 authorized charters, which equates to an average growth rate of 25.55% per year.

If we omit significant outlier in the 2017-2018 school year, Accordingly, the number of schools within the SPCSA has grown by an average of 9.82% since the 2018-2019 school year.

Source: *Enrollment for Nevada Public Schools*, Nevada Department of Education. Accessible at: https://doe.nv.gov/DataCenter/Enrollment_Data/

In establishing the NVFF, the Applicant anticipates creating 7,500 high-quality charter school seats through projects supported by the Fund. Not accounting for any additional schools outside of the NVFF that are approved by the SPCSA, this would bring the total enrollment count to 67,170 students over time, or an increase 12.57% in total enrollment.

Bank staff has confirmed with staff from the SPCSA that this projected growth in enrollment through the proposed NVFF would be consistent with the Agency's 2019-2024 Strategic Plan, 2021 Growth Management Plan, and the 2023 Needs Assessment.

7. Examine assessed value trends.

Bank staff has determined this section is not applicable for this project and/or this Applicant.

8. Evaluate the relevant legal authority applicable to the applicant, including, without limitation, state law, federal tax law and local ordinances and resolutions.

Pursuant to NRS 408.55063, a qualified borrower that is eligible to receive a loan or other financial assistance from the Bank is defined as "a governmental unit, an Indian reservation or Indian colony or a private nonprofit entity created for charitable or educational purposes."

As expressed in the financing application submitted to the Bank, the Applicant is a Nevada 501(c)3 organization that is *"dedicated to ensuring that every child has access to a high-quality public school that puts them on track to be college and career ready."*

The Applicant is governed by a 7-member Board of Directors that meets quarterly and directly supervises the CEO of the organization. At the time of submission of the application for financing, the Applicant's Board of Directors consisted of the following members:

- Miles Dickson, Board Chair
- Monica Moradkhan, Treasurer
- Paula Sneed, At-large member
- Sebern Coleman, At-large member
- Nick Portz, At-large member
- Piper Overstreet, At-large member
- Mike Mullin, At-large member

Being that the Applicant is indeed a qualified private nonprofit entity within the State of Nevada that was created for charitable or educational purposes, it would meet the standard as a qualified borrower under NRS 408.55063.

Since the proposed NVFF would operate as a partnership between the Applicant and EFF, staff would also note that EFF is a national 501(c)3 non-profit and social impact fund that seeks to transform capital access for schools and communities.

Since the NVFF would involve the issuance of tax-exempt bonds through the ESRF, staff would also note that under NRS 408.55085, qualified borrowers retain the right to issue general obligation bonds or other bonds that the qualified borrower is otherwise lawfully authorized to issue.

9. ***Evaluate the extent to which the management of the applicant understands the obligations, terms and conditions of the loans and other financial assistance provided by the Bank.***

Based on the financing application that was submitted to the Bank, discussions that Bank staff had with the Applicant during the application review process, and through recent negotiations on the proposed loan agreement outlined in Exhibit C, Bank staff feels that the management of the Applicant thoroughly understands the terms and conditions of the proposed loan to establish the NVFF, along with all reporting requirements that will be imposed by the Bank.

10. ***Determine the readiness of the management of the applicant to assume responsibility for the timely repayment of the loan or other financial assistance.***

The Applicant has a strong history within the State of Nevada of engaging with charter school operators. Their proposed partner, EFF, has significant experience offering similar loan products to charter schools throughout the country. Based on this combined experience, Bank staff has determined that the management of the Applicant is ready to assume responsibility for the timely repayment of the Bank's loan over the 20-year period.

Charter School Capital Needs Revolving Account Requirements: Pursuant to LCB File No. R017-22, the Board of Directors is authorized to approve a loan or other financial assistance from the Bank's Charter School Capital Needs Revolving Account if:

1) *It will be used solely to finance or refinance outstanding debt for the development, construction, repair, improvement, maintenance or acquisition of a charter school facility for a new or existing charter school;*
2) *It will be used to support new or existing charter school facilities where at least 60 percent of pupils are considered to be "at risk" as defined in NRS 388A.045;*
3) *The developer selected for the eligible project(s) demonstrates a long-term commitment to hiring local residents and using apprentices in programs that are registered with the State Apprenticeship Council; and*
4) *The applicant has provided written authorization for the project from the sponsor of the charter school.*

Staff has determined that the NVFF will meet these requirements in the following ways:

1) All projects financed through the NVFF will support new and existing charter schools located in the State;
2) All charter schools supported by the NVFF will serve at least 60 percent of at-risk pupils;
3) The Applicant will be required through the loan agreement to utilize developers for all projects funded through the NVFF who demonstrate "a long-term commitment to hiring local residents and utilize apprentices in apprenticeship programs registered with the State Apprenticeship Council"; and

4) All schools who seek financing through the NVFF will be required to receive written authorization from the State Public Charter School Authority in order to receive additional financing from the NVFF.

Community Benefits and Job Creation: If the Board of Directors chooses to approve this application, a $15,000,000 loan from the Bank will serve as leverage for an additional $85,000,000 in private and philanthropic investments to establish the NVFF.

Bank funds would be leveraged seven times to establish a $100,000,000 revolving loan fund to provide low-cost financing to charter school operators. By offering schools significantly reduced interest rates, the NVFF is estimated to produce $20,000,000 in debt financing savings for schools. These savings can then be redeployed by charter school operators to maximize the resources they have available to support student learning and development.

The NVFF is expected to provide an additional 7,500 high-quality public charter school seats for children in Nevada's most disadvantaged communities. Approximately 70% of students attending schools that will be supported by the NVFF will identify as people of color and 70% will qualify for free or reduced-price lunch.

As specified in the application for financing, the NVFF is projected to create 948 jobs over the first five years of the Fund's operations. This includes:

- 688 construction jobs (both direct and indirect); and
- 260 education jobs.

The NVFF is expected to close two loans each year for a total of 10 projects that will be funded within the first five years of operation. The Applicant anticipates that four of these 10 financings will fund construction projects, and the other six projects will be refinancings for charter school facilities. The estimated cost for these four projects is approximately $45,000,000.

Local Hiring, Apprenticeship Utilization, and Prevailing Wages: Qualified Borrowers who receive a loan or other financial assistance from the Bank are required pursuant to LCB File No. R017-22 to ensure that for each contractor and subcontractor who performs construction work on a qualified project:

- At least 50% of the total project work hours within each construction trade are performed by Nevada residents, with at least 15% of these work hours performed by disadvantaged workers; and
- At least 15% of the total project work hours within each construction trade must be performed by apprentices, with at least 5% of these work hours performed by first-year apprentices.

In its financing application and through subsequent documents submitted to the Bank, the Applicant has indicated it intends to comply with all these local hiring and apprenticeship standards for projects funded through the NVFF.

Additionally, pursuant to NRS 408.55086, projects financed by the Bank are subject to the payment of State prevailing wages, along with other provisions set forth in NRS 338.013 - 338.090.

In the financing applicant submitted to the Bank, the Applicant stated that projects funded through the NVFF will include the payment of prevailing wages as applicable.

If the Board of Directors to chooses to approve this application for a loan from the Bank, all projects funded through the NVFF will be subject to these provisions, and Bank staff will work with the Applicant to provide the Board of Directors with regular reporting on compliance with these provisions.

Environmental Standards: All qualified projects that receive loans or other financial assistance from the Bank are required to align with the standards and goals set forth in Nevada's 2020 Climate Strategy as well as the State's goals from the reduction of greenhouse gas emissions set forth in NRS 445B.380 and NRS 704.7820.

In the financing application submitted to the Bank, the Applicant has confirmed that all projects financed by the NVFF will adhere to these requirements.

Disadvantaged Community Goals: As set forth in Regulation LCB File No. R017-22, the Bank has an established goal of having at least 40 percent of the principal amount of its loans and other financial assistance going to support qualified projects that are located in:

- In qualified census tracts as designated by the U.S. Secretary of Housing and Urban Development;
- In census tracts which have a high level of social vulnerability according to the Social Vulnerability Index developed by the Centers for Disease Control and Prevention;
- In communities which are determined by the Board of Directors to have a relatively large percentage of the population having limited English proficiency;
- On tribal lands or in communities where tribal members commonly reside; or
- In areas that have been subject to historical instances of redlining, segregation, or other discriminatory practices.

In the financing application, the Applicant stated that charter school projects funded through the NVFF would be located in qualified census tracts, census tracts with a high level of social vulnerability, in communities which has a large percentage of the population with limited English proficiency, or in communities that have been subject to historical instances of redlining, segregation, or other discriminatory practices.

On August 9, 2022, the Applicant provided Bank staff with a list of potential charter school projects that it, along with EFF, would likely implement into the NVFF's charter school pipeline through 2025 if approved. These include:

Phase 1 Projects:

- Nevada Preparatory Charter School
    - Refinancing
    - 1780 Betty Lane, Las Vegas, NV 89156
- Nevada Rise Academy
    - Purchase and build-out
    - 2525 Emerson Avenue, Las Vegas, NV 89121
- Equipo Academy
    - Build-out
    - 4131 East Bonanza Road, Las Vegas, NV 89110
- Democracy Preparatory Academy
    - Ground up build-out
    - 1201 W. Lake Mead Blvd., Las Vegas, NV

Phase 2 Projects:

- Futuro Academy
    - Refinancing
    - 920 North Lamb Blvd. Las Vegas, NV 89110
- Girls Empowerment Middle School
    - Purchase leased facility
    - 4220 South Maryland Pkwy, Las Vegas, NV 89119
- Explore Academy
    - Refinancing
    - 3551 North Ferrell Street, North Las Vegas, NV 89032
- TEACH Las Vegas
    - Refinancing and new build
    - 4660 North Rancho Drive, Las Vegas, NV 89130

Bank staff has analyzed the current location of each of these proposed charter schools to understand whether they would meet the 40% goal of locating all projects in disadvantaged communities.

In performing this analysis, staff has utilized data from the U.S. Department of Housing and Urban Development, the Centers for Disease Control and Prevention, the U.S. Census Bureau, and the U.S. Department of Agriculture.

Since the national average estimate for limited English proficiency has been determined by the U.S. Census Bureau to be 8.3 percent, Bank staff has determined that census tracts with over

20% of the population limited English proficiency would meet the Bank's standard for its disadvantaged community goal.

The following table shows how each of these proposed charter schools compares to the Bank's metrics for locating projects in disadvantaged communities.

	Qualified Census Tract	High Social Vulnerability	Large percentage of limited English proficiency (> 20%)	Tribal Lands
Nevada Prep	No	Yes	Yes	No
Nevada Rise	No	Yes	Yes	No
Equipo Academy	Yes	Yes	Yes	No
Democracy Prep	Yes	Yes	No	No
Futuro Academy	Yes	Yes	No	No
Girls Empowerment Middle School	Yes	Yes	Yes	No
Explore Academy	No	Yes	No	No
TEACH Las Vegas	No	No	No	No

Of the eight charter schools provided by the Applicant in its proposed pipeline of charter schools anticipated to receive loans through the NVFF:

- 50% are currently located within a qualified census tract;
- 87.5% are located in census tracts with a high-level social vulnerability; and
- 50% are located in communities with a large percentage of the population having limited English proficiency.

While none of the proposed projects would be located on Tribal land, staff would note that nothing would preclude the applicant from selecting a potential project to serve Tribal students if an opportunity arose in the future.

87.5% of the proposed charter school pipeline for the NVFF would meet at least one of the Bank's criteria for location within a disadvantaged community. Therefore, Bank staff is confident that the applicant would continue selecting schools for the NVFF that would exceed the Bank's 40% goal.

Loan Agreement: Bank staff has worked with the Applicant and legal counsel retained by the Bank to draft a loan agreement between the Nevada State Infrastructure Bank and the Applicant for this project. This loan agreement is included in Exhibit C for consideration by the Board of Directors.

<u>Staff recommendation:</u> Based on the foregoing analysis, staff recommends that the Board of Directors approve a loan of $15,000,000 from the Bank's Charter School Capital Needs Revolving Account to Opportunity 180 to establish the Nevada Facilities Fund in accordance with the proposed loan terms included in Exhibit B.

(1) **SIB Loan**	$15M loan projected with a fixed interest rate of 1.5% and 20-year term. All principal and accrued interest will be paid with one balloon payment at maturity in 2042. *Use Input tab to toggle alternative loan structures.*
(2) **Philanthropy/PRI**	Philanthropic capital raised by 0180 & EFF. $5.5M already committed; $150K not included in this line will be used to pay the 1% SIB loan origination fee. In this scenario, no additional philanthropy is committed after 2023 and the fund ceases making loans after 2027.
(3) **Recycled Surplus**	See Line 32. Surplus cash will recycle into additional charter school loans. 2042 amount reflects 2041 Annual Surplus plus 2042 Annual Surplus since funds will be used to repay SIB Loan P&I that year.
(4) **Bonds**	A-rated tax-exempt bond proceeds provided by EFF.
(5) **School Loans**	NVFF will fund approximately two projects per year. Loans are projected at $10.3M each in 2023 (including COI). We expect project costs will increase over time.
(6) **SIB Loan Repayment**	$19,500,000 total reflects loan principal plus $4.5M accrued interest. *Use input tab to toggle other repayment structures.*
(7) **SIB Loan Leverage Ratio**	Calculated by the toal number of loans divided by SIB's $15M investment. In this scenario, NVFF would seize making loans after 2027. EFF would continue to service outstanding loans until their maturity.
(8) **Loan Repayments**	Loans are priced to 1) save schools ~$3M over a 30-year loan term and 2) provide revenue to support NVFF sustainability & ensure repayment of the SIB obligation.
(9) **Bond Debt Service**	Projected debt service owed to EFF's investors.
(10) **Operating Expenses**	OpEx reduced in 2028 to reflect cessation of underwriting and technical assistance activities.

Exhibit B

State Infrastructure Bank / NVFF Proposed Loan Terms:

Lender	Nevada State Infrastructure Bank
Borrower	Opportunity 180
Loan Amount	$15,000,000
Loan Purpose	Loan proceeds will be leveraged to support the launch of the Nevada Facilities Fund, a revolving credit facility designed to substantially reduce financing expenses for high-quality public charter schools and create additional educational opportunities in low-income communities.
Maturity	20 years
Security	Unsecured general obligation of the Borrower
Interest Rate	Fixed rate of 1.5% per annum
Disbursement	Two $7,500,000 disbursements. First disbursement upon loan closing, and second disbursement on January 15, 2024.
Additional Sources of Funding	Borrower will secure additional philanthropic funding and low-cost debt financing to support NVFF lending activity. Target initial leverage amount will be $85,000,000, to support a total of $100,000,000 in charter school loans.

NEVADA STATE INFRASTRUCTURE BANK FINANCING AGREEMENT

THIS AGREEMENT is dated as of October 30, 2023, and is by and between the NEVADA STATE INFRASTRUCTURE BANK (the "Bank"), an instrumentality of the State of Nevada, and OPPORTUNITY 180 (the "Borrower"), existing as a private non-profit entity created for charitable or educational purposes under the laws of the State of Nevada.

WITNESSETH:

WHEREAS, pursuant to Chapter 408 of the Nevada Revised Statutes ("NRS") and the Nevada Administrative Code ("NAC"), the Bank is authorized to provide loans and other financial assistance to qualified borrowers for the development, construction, repair, improvement, operation, maintenance, decommissioning and ownership of transportation facilities, utility infrastructure, water and wastewater infrastructure, renewable energy infrastructure, recycling and sustainability infrastructure, digital infrastructure, social infrastructure, and other infrastructure related to economic development as necessary for public purposes; and

WHEREAS, in accordance with the provisions NRS Chapter 408, the Bank has responsibility for the performance of various activities in connection with such loans; and

WHEREAS, the Borrower has made an application for the financing of the Project (as hereinafter defined), through a loan made under and pursuant to NRS Chapter 408, and the Bank has determined that the Project meets all requirements for a loan and has agreed to make a loan to the Borrower for the financing of the Project as set forth in this Agreement (the "Loan"); and

WHEREAS, the Loan and all payments of principal and interest thereon, including prepayments, and all proceeds thereof, have been or are intended to be pledged and assigned as security for the payment of principal of, premium, if any, and interest on the Bonds as set forth in NRS 408.55085.

NOW, THEREFORE, in consideration of the Bank making the loan to the Borrower, in the principal amount and pursuant to the covenants hereinafter set forth, and intending to be legally bound by this Agreement, the Bank and the Borrower agree as follows:

ARTICLE I – DEFINITIONS

1.01. WORDS AND TERMS.

In addition to the words and terms elsewhere defined in this Agreement, the following words and terms shall have the meanings set forth below:

(1) "Agreement" or "Financing agreement" shall mean this financing agreement and all exhibits and schedules attached hereto.

(2) "Agreement Date" means the date first written above.

(3) "Authorized Representative" shall mean the official or officials of the Borrower authorized by ordinance or resolution to sign documents associated with the Loan.

(4) “Capitalized Interest” shall mean a finance charge that accrues on Loan proceeds from the time of disbursement. Capitalized Interest is financed as part of the Loan principal.

(5) “Code” shall mean the Internal Revenue Code of 1986, the Treasury Regulations (whether temporary or final) under that Code or the statutory predecessor of that Code, and any amendments of or successor provisions to, the foregoing and any official rulings, announcements, notices, procedures and judicial determinations regarding any of the foregoing, all as and to the extent applicable.

(6) “Credit Enhancement” means, the United States Department of Education Credit Enhancement for Charter School Facilities Grant award to Borrower, in the amount of $7,500,000.

(7) "Financing Rate" shall mean the charges, expressed as a percent per annum, imposed on the unpaid principal of the Loan as set forth herein.

(8) "Loan" shall mean the loan made to the Borrower pursuant to this Agreement and the State Act in the initial principal amount of $15,000,000.

(9) "Financing Application" shall mean the completed form which provides all information required to support obtaining the Loan.

(10) "Loan Payment" or "Loan Repayment" shall mean the periodic loan payment due from the Borrower.

(11) "Project" shall mean the state capital outlay project financed by this Loan, consisting of all labor, materials, and equipment designated to develop the Nevada Facilities Fund, which will assist in the development of qualifying charter schools as more fully described in the Financing Application, in accordance with applicable law and the summary specifications included in Exhibit C.

(12) "State" means the State of Nevada.

(13) "State Fiscal Year" shall mean the period commencing on July 1 of each year and ending on June 30 of the succeeding year.

(14) "State Infrastructure Bank" or "Bank" means the State-funded State Infrastructure Bank created pursuant to Chapter 408 of the Nevada Revised Statutes.

(15) “Unrecoverable School Loan Loss” means, with respect to any NVFF loan to a charter school that has defaulted, the amount of unpaid principal after taking into account (i) all payments of principal received by Equitable Facilities Fund pursuant to such loan, and (ii) all amounts collected or received by the Equitable Facilities Fund after making commercially reasonable efforts to exercise remedies against collateral pursuant to such loan.

ARTICLE II - WARRANTIES, REPRESENTATIONS AND COVENANTS

2.01. GENERAL WARRANTIES, REPRESENTATIONS AND COVENANTS.

The Borrower warrants, represents and covenants that:

(1) The Borrower has full power and authority to enter into this Agreement and to comply with the provisions hereof and shall initiate and prosecute to completion all proceedings necessary to enable the Borrower to provide the necessary funds for repayment of the Loan.

(2) The Borrower currently is not the subject of bankruptcy, insolvency, or reorganization proceedings and is not in default of, or otherwise subject to, any agreement or any law, administrative regulation, judgment, decree, note, resolution, charter or ordinance which would currently restrain or enjoin it from entering into, or complying with, this Agreement.

(3) There is no material action, suit, proceeding, inquiry or investigation, at law or in equity, before any court or public body, pending or, to the best of the Borrower's knowledge, threatened, which seeks to restrain or enjoin the Borrower from entering into or complying with this Agreement or could render Borrower insolvent.

(4) All permits, authorizations, and approvals required as of the date of this Agreement have been obtained as of the implementation of the Project. The Borrower knows of no reason why any future required permits or approvals are not obtainable.

(5) The Borrower shall undertake the Project on its own responsibility, to the extent permitted by law.

(6) To the extent permitted by law, the Borrower shall release and hold harmless the State, its agencies, the Bank, and each of their respective officers, members, and employees from any claim arising in connection with the Borrower's actions or omissions in the Borrower's planning, administration, and implementation of activities financed by the Loan or its operation of the Project.

(7) All Borrower representations to the Bank, pursuant to the Financing Application and this Agreement, were and are true and accurate as of the date the Financing Application and this Agreement were each executed by the Borrower. The financial information delivered by the Borrower to the Bank was current and correct as of its date. Since the date such financial information was delivered, there has not been any material adverse change in the financial condition or revenues and expenditures of the Borrower. The Borrower shall comply with all applicable State and Federal laws, rules, and regulations. To the extent that any assurance, representation, or covenant requires a future action, the Borrower shall take such action as is necessary for compliance.

(8) The Borrower shall adhere to accepted governmental accounting principles established by the Governmental Accounting Standards Board. As part of its bookkeeping system, the Borrower shall keep accounts of the Project separate from all other accounts and it shall keep accurate records of all expenditures relating to the Project and Loan disbursement receipts.

(9) The Borrower shall maintain and produce to the Bank an annual budget consistent with generally accepted accounting principles.

(10) The Borrower covenants that this Agreement is entered into for the purpose of implementing, refunding, or refinancing the Project which will in all events serve a public purpose. The Borrower covenants that it will, under all conditions, complete and operate the Project to fulfill the public need described in its application for the financing of the Project.

2.02 RESERVED.

2.03 AUDIT AND MONITORING REQUIREMENTS.

(1) Unless an event of default described under Section 6.01 has occurred and is continuing, the Bank shall have the right, once per calendar year, upon at least five (5) business days' prior notice to the Borrower, during normal business hours, to (i) examine the records, books and other papers which reflect upon Borrower's financial condition or pertain to the income, expense, management, administration, and implementation of the Project and to make copies and abstracts from such materials and (ii) conduct an audit or have an independent audit conducted of any of Borrower's financial information; provided, that upon the occurrence and during the continuance of an event of default described under Section 6.01, no such limitations or requirements as to frequency, timing or notice shall apply. At the conclusion of any audit conducted by or on behalf of the Bank, an audit report shall be prepared and delivered to the Borrower. Borrower shall pay on demand all reasonable and documented costs incurred by Bank with respect to any such audit. Upon Borrower's failure to pay such amounts, such unpaid amounts shall be added to principal and shall bear Capitalized Interest until paid in full.

(2) The Bank may, following any such examination or audit, issue to the Borrower such reports, audit findings, and memoranda as it deems appropriate to notify the Borrower of any error, deficiency, or unsatisfactory condition (an "Adverse Condition") the Bank may discover. Such notification may be delivered in writing by any reasonable means including without limitation by email or first-class mail. Upon the Borrower's receipt of such notification, the Borrower shall use commercially reasonable efforts to correct, resolve, or remedy any Adverse Condition to the reasonable satisfaction of the Bank. Records related to any audits, Adverse Conditions, litigation, or corrective action shall be retained for a period of no less than 5 years following the resolution of the same.

(3) Nothing in this Section 2.03 shall be construed to limit the authority of any other State official.

(4) Copies of financial reporting packages, reports, or management letters required by this agreement shall be submitted by or on behalf of the Borrower directly to the Bank.

2.04 PROGRESS REPORTS

No later than January 31st, April 30th, July 31st, October 31st of each calendar year, the Borrower shall create and deliver to the Bank quarterly progress reports (individually, a "Progress Report") describing all material events, developments, and conditions of the Project. Progress Reports shall be submitted electronically to the Bank by an individual authorized by the governing board of the Borrower. At minimum, each Progress Report shall describe:

(1) All financial activities, events, and transactions which have occurred in the preceding 12 months.

(2) An analysis of the financial condition of the Project.

(3) Program accomplishments occurring in the prior 12 months, including:

a. Specific action taken to implement approved objectives and activities of the Project;

b. Progress made on each objective and activity of the Project in terms of percentage completed.

(4) Any material delays in the implementation of the Project, Project objective, or Project activity and the reason for the delay. In the event of a material delay, a proposed revised Project schedule should be included if activities are not conforming to approved Project schedules as contained in the Financing Application.

(5) Academic, financial, and demographic characteristics of the charter school obligors.

(6) Progress toward NVFF investment and school performance goals aligned upon by the Borrower and Bank.

(7) Financial information of the Project, including but not limited to:

a. The total number of loans and financing amounts committed by the Borrower;

b. beginning fund balance;

c. Dollar amount of all expenditures;

d. ending fund balance;

e. interest earned to date; and

f. the amount and percent of funds being contributed to the Project from other sources.

Should the Bank require any additional information or analysis from the Borrower following the receipt of any Progress Report, it shall make a request in writing to the individual who transmitted the Progress Report to the Bank. Any request for additional information shall set the Borrower's response deadline, which shall be strictly enforced.

2.05 RECORDS RETENTION.

The Borrower shall retain all records related to the Project for a period of no less than three (3)

years. The Borrower shall retain sufficient records demonstrating its compliance with the terms of this Agreement for a period of at least five (5) years from the date any audit report is issued, and shall allow the Bank, or its designee, access to such records in accordance with, and pursuant to, Section 2.03. The Bank or the State may extend the period during which any records must be retained upon written notice to the Borrower received at least thirty (30) days prior to any such extension. Borrower's failure to retain any records described in this Section 2.05 for the period prescribed (or any extension thereof) shall constitute a material event of default.

All costs charged to the Project, including any approved services contributed by the Borrower or others, shall be supported by properly executed payrolls, time records, invoices, contracts, or vouchers evidencing in proper detail the nature and propriety of the charges.

Any check or order drawn by the Borrower with respect to any item which is or will be supported by the Loan must be supported with a properly signed voucher on file in the office of the Borrower stating in proper detail the purpose for which such check or order is drawn. All checks, payrolls, invoices, contracts, vouchers, orders, or other accounting documents pertaining in whole or in part to the Project shall be clearly identified, and readily accessible, and, to the extent feasible, kept separate and apart from all other such documents.

2.06 ACCESS TO PROJECT SITES.

Unless an event of default described under Section 6.01 has occurred and is continuing, the Bank shall be granted access, once per calendar year, upon at least five (5) business days' prior notice to the Borrower, during normal business hours, to any location related to the use or proposed use of Loan funds and any administrative offices related thereto, including without limitation any charter school facilities financed through the Project; provided, that upon the occurrence and during the continuance of an event of default described under Section 6.01, no such limitations or requirements as to frequency, timing or notice shall apply. Any contracts or agreements the Borrower may enter into with such charter school facilities shall guarantee such access by the Bank and the State to sites related to the Project consistent with this Section 2.06. The Borrower shall cause all of its employees, agents, representatives, and contractors as well as each charter school facility to cooperate during any such Project inspections, including making available copies of any documents or other materials.

ARTICLE III - LOAN REPAYMENT DEFAULT NOTICE

3.01. LOAN REPAYMENT DEFAULT NOTICE.

If at any time the Borrower has advance notice that it will not be able to pay any Loan Payment when due, the Borrower shall immediately notify the Bank of such inability to make the required payment.

ARTICLE IV - THE PROJECT

4.01. PROJECT CHANGES.

The Borrower covenants and agrees that it will not change the scope of the Project or alter the nature of the Project in any material fashion, or substitute any other project for the Project, without the prior written approval of the Bank.

4.02. PROHIBITION AGAINST ENCUMBRANCES.

The Borrower is prohibited from selling, leasing, or disposing of any part of the Project which would materially adversely affect the ability of the Borrower to meet its obligations under this Agreement so long as this Agreement, including any amendment thereto, is in effect unless the written consent of the Bank is first secured.

4.03. COMPLETION MONEYS.

In addition to the proceeds of this Loan, the Borrower covenants that it has obtained, or will obtain, sufficient moneys from other sources to complete the Project on, or prior to, the Project completion date set forth in the Financing Application or such other date as the Bank may approve in writing. Failure of the Bank to approve additional financing, where required, shall not constitute a waiver of the Borrower's covenants to complete and place the Project in operation.

4.04. PROJECT SCHEDULE AND

INDEBTEDNESS.

The Borrower agrees:

(1) Initiation of Project is anticipated to take place on or about November 1, 2023.

(2) The first charter school loan expected to be funded through the Project is anticipated to be issued by April 30, 2024.

(3) The Loan Repayments shall be due at the times and in the amounts set forth on Exhibit B.

ARTICLE V – [RESERVED.]

ARTICLE VI - DEFAULTS AND REMEDIES

6.01. EVENTS OF DEFAULT.

Each of the following events shall be deemed a material event of default:

(1) Failure to make any Loan Payment when it is due and such failure shall continue for a period of 5 days.

(2) Any warranty, representation, or other statement by, or on behalf of, the Borrower

contained in this Agreement or in any document, certificate or information furnished in compliance with, or in reference to, this Agreement (other than projections, estimates and other forward-looking information and general economic or industry information), is determined to be false or misleading in any material respect.

(3) An order or decree is entered, with the acquiescence of the Borrower, appointing a receiver for any part of the Project; or if such order or decree, having been entered without the consent or acquiescence of the Borrower, shall not be vacated, or discharged or stayed on appeal within 60 days after the entry thereof.

(4) Any bankruptcy, insolvency or other similar proceeding is instituted by, or against, the Borrower under federal or state bankruptcy or insolvency law now or hereafter in effect and, if instituted against the Borrower, is not dismissed within 60 days after filing.

(5) Any failure to comply with the provisions of this Agreement or failure in the performance or observance of any of the covenants or actions required by this Agreement (a "General Non-compliance Default"), provided, however, that if the Borrower provides the Bank with written notice of a General Non-compliance Default within 30 days of the date of such General Non-compliance Default, and such default does not relate to the Borrower's obligations to make a Loan Payment, then the Borrower shall have 60 days from the date of such General Non-compliance Default to cure such General Non-compliance Default to the satisfaction of the Bank in the Bank's sole and absolute discretion. If the Borrower fails, within the time periods provided in the previous sentence, to (i) provide written notice of a General Non-compliance Default, or (ii) cure the General Non-compliance Default to the satisfaction of the Bank in the Bank's sole and absolute discretion, then the Borrower shall be deemed to be in default of this Agreement as of the date of the General Non-compliance Default.

6.02. REMEDIES.

Upon the occurrence and during the continuance of any event of default described under Section 6.01, the Bank may pursue any available remedy at law or in equity, including without limitation:

(1) By action or suit in equity, require the Borrower to account for all moneys received pursuant to this Agreement.

(2) By action or suit in equity, enjoin any acts or things which may be unlawful or in violation of the rights of the Bank.

(3) By notifying financial market credit rating agencies and potential creditors of the event of default.

(4) By suing for payment of amounts due, or becoming due, with interest on overdue payments together with all costs of collection, including attorneys' fees.

(5) By accelerating the repayment schedule or increasing the Financing Rate on the unpaid principal of the Loan to as much as 1.667 times the Financing Rate for a default under

Subsection 6.01(1).

In addition to pursuing any other remedy available under this Agreement, upon the occurrence and during the continuance of an event of default, the Bank may, by providing 60 days advance written notice to the Borrower, elect to terminate this Agreement, and the Bank shall have no further obligation or commitment under this Agreement to the Borrower. Any partial Loan Repayments by the Borrower shall be allocated first to interest and second to principal.

6.03. REMEDIES NOT EXCLUSIVE; DELAY AND WAIVER.

No remedy conferred upon or reserved to the Bank by this Article is exclusive and every such remedy shall be cumulative and shall be in addition to every other remedy. No delay or omission by the Bank to exercise any right or power accruing as a result of an event of default shall impair any such right or power or shall be construed to be a waiver of any such default or acquiescence therein, and every such right and power may be exercised as often as may be deemed prudent by the Bank. No waiver of any default under this Agreement shall extend to or affect any subsequent event of default, whether of the same or different provision of this Agreement or shall impair consequent rights or remedies.

ARTICLE VII - GENERAL PROVISIONS

7.01 DISCHARGE OF OBLIGATIONS.

All payments required to be made under this Agreement shall be cumulative and any deficiencies in any Fiscal Year shall be added to the payments due in the succeeding Fiscal Year and all Fiscal Years thereafter until fully paid. The Borrower may choose from time to time to prepay this Loan in whole or in part without premium or penalty.

7.02 ASSIGNMENT OF RIGHTS UNDER AGREEMENT.

The Bank may pledge or assign all or any parts of this Agreement without the prior consent of the Borrower after written notification to the Borrower. The Borrower shall not assign its rights and obligations under this Agreement without the prior written consent of the Bank.

7.03 AMENDMENT OF AGREEMENT.

This Agreement may only be amended in writing mutually executed by authorized representatives of the Bank and Borrower. However, no amendment shall be permitted which is inconsistent with any applicable State or Federal law. Any attempted amendment to this Agreement which is inconsistent with any State or Federal law shall be deemed void *ab initio.*

7.04 ANNULMENT OF AGREEMENT.

The Bank may unilaterally annul this Agreement if the Borrower has not drawn any of the Loan proceeds within six months of the first scheduled disbursement date referenced in Exhibit A. If the Bank unilaterally annuls this Agreement, the Bank will provide written notification to the Borrower.

7.05 RESERVED.

7.06 SEVERABILITY CLAUSE.

If any provision of this Agreement shall be held invalid or unenforceable, the remaining provisions shall be construed and enforced as if such invalid or unenforceable provision had not been contained herein.

ARTICLE XIII - DETAILS OF FINANCING

8.01 PRINCIPAL AMOUNT OF LOAN.

The Bank agrees to lend to the Borrower, and the Borrower agrees to repay the Bank the Loan at the times, in the amounts and in the manner set forth in this Agreement. The principal amount of the Loan as of any date shall consist of the aggregate Disbursements (as defined below), plus Capitalized Interest that has accrued and been added to the principal amount of the Loan, plus interest other than Capitalized Interest, if any, that has accrued and been added to the principal amount of the Loan, less the aggregate principal component of all Loan Repayments made, all as of such date.

Proceeds of the loan originated hereunder (i) shall be used by Borrower as set forth in Exhibit C hereto, and (ii) are intended by the parties hereto to serve as "first loss" funding for the NVFF. Notwithstanding the first paragraph of this Section 8.01, the parties hereto agree that the principal amount of the Loan due and payable pursuant to this Agreement shall be decreased by the amount of any Unrecoverable School Loan Loss.

Capitalized Interest is not disbursed to the Borrower but is amortized via Loan Repayments as if it were actually disbursed. Capitalized Interest shall be computed at the rate of 1.5% per annum and shall accrue on the principal amount of the Loan based on an actual-days- elapsed/365 day counting convention. Capitalized Interest accruing on the principal amount of the Loan through December 31 of each year shall be added to the principal amount of the Loan on the following January 1 until the date which is 12 months prior to the date the first Loan Payment is due, at which time the amount of Capitalized Interest accruing since the previous January 1 shall be added to the principal amount of the Loan and no additional Capitalized Interest shall accrue.

The estimated principal amount of the Loan as of the date of the first Loan Payment is $15,000,000, which consists of the amounts scheduled to be disbursed to the Borrower in the amounts and at the times set forth in Disbursement Schedule attached hereto as Exhibit A.

8.02 FINANCING RATE.

Interest shall accrue on the principal amount of the Loan at the Financing Rate. The Financing Rate is 1.5% per annum, compounded annually, using an actual-days- elapsed/365 day counting convention, as indicated by the schedule of Loan Disbursement/Repayments attached hereto as Exhibit B.

8.03 LOAN DISBURSEMENTS.

The Bank shall disburse the Loan to the Borrower in the amounts and at the times set forth in the Disbursement Schedule (Exhibit A) provided that prior to each Disbursement, the Bank receives a written request for such Disbursement which certifies that all prerequisites for such Disbursement have been satisfied. Any written request for a Disbursement shall be signed by the Borrower's Authorized Representative under penalty of perjury. The Bank may, prior to making any Disbursement, require Borrower to furnish it with any evidence the Bank may deem necessary to verify that Borrower has met the prerequisites for Disbursement. The Bank may elect, in its sole and absolute discretion, to withhold any Disbursement until it is satisfied that all prerequisites to Disbursement have been met.

Upon written request by the Borrower, the Bank may, in its sole and absolute discretion, amend the Disbursement Schedule to take into account unexpected events or reasonable adjustments to the financing of the Project. The Bank may, in its sole and absolute discretion, adjust the Loan Disbursement/Repayment Schedule attached hereto as Exhibit B.

Under no circumstances shall the sum of the Disbursements to the Borrower exceed $15,000,000 under this Agreement. Furthermore, the Bank's obligation to fund any Disbursement is subject to funds being made available by an appropriation made pursuant to Nevada law.

8.04 LOAN REPAYMENTS.

Loan Repayments shall be made at the time and in the amounts set forth in the Loan Disbursement/Repayment Schedule attached hereto as Exhibit B. To the extent the actual principal amount of the Loan calculated as provided in Section 8.01 above is less than the estimated principal amount of the Loan as set forth in Section 8.01 hereof, the amount of the scheduled Loan Payment credited to principal shall increase and the Loan Payment Schedule shall be adjusted, so that the Loan is paid in full over a shorter amount of time. Notwithstanding the foregoing, however, if the actual principal amount of the Loan calculated as provided in Section 8.01 above is less than the estimated principal amount of the Loan as set forth in Section 8.01, the parties to this Agreement hereby agree to adjust the Loan Payment Schedule in such a way as to not adversely impact any obligations of the Bank secured by repayments under this Agreement.

Loan Repayments shall be credited first to interest accruing on the principal amount of the Loan, if any, then to principal.

8.05 CREDIT ENHANCEMENT.

The Borrower shall hold the Credit Enhancement for the benefit of the Bank until the fifth (5^{th}) anniversary of the closing date (such period of time being the "Credit Enhancement Period"). During the Credit Enhancement Period, the Bank may submit request to the Borrower to, and upon receipt of such request the Borrower shall, transfer an amount of the Credit Enhancement to the Bank equal to the amount of any Unrecoverable School Loan Losses incurred prior to the fifth (5^{th}) anniversary of the closing date.

ARTICLE IX – MISCELLANEOUS

9.01 EQUAL EMPLOYMENT OPPORTUNITY.

In connection with the carrying out of any project, the Borrower shall not discriminate against any employee or applicant for employment because of race, age, creed, color, sex or national origin.

9.02 PROHIBITED INTERESTS.

Neither the Borrower nor any of its contractors, subcontractors, consultants, or subconsultants shall enter into any contract with one another, or arrangement in connection with the Project or any property included or planned to be included in the Project, which violates any provision of the Nevada Revised Statutes, relating to conflicts of interest and prohibited transactions. The Borrower shall further diligently abide by all provisions of Nevada law regulating the Borrower with respect to procurement, contracting, and ethics.

9.04. ADHERENCE TO 2020 STATE CLIMATE STRATEGY.

Execution of this Agreement constitutes a certification by the Borrower that it will use commercially reasonable efforts to carry out the Project in conformance with all applicable regulations of the Bank, including using commercially reasonable efforts to ensure that all charter school facilities financed through the Project are consistent with the standards and goals set forth in Nevada's Climate Strategy for the year of 2020 and the goals for the reduction of greenhouse gas emissions set forth in NRS 445B.380 and 704.7820.

The Borrower will be solely responsible for any liability in the event of non-compliance by the Borrower with applicable regulations and will reimburse the Bank for any out-of-pocket loss incurred in connection with any direct non-compliance by the Borrower.

9.05 PREVAILING WAGES.

Execution of this Agreement constitutes a certification by the Borrower that it will use commercially reasonable efforts to carry out the Project in conformance with all applicable provisions of NRS Chapter 408 including the payment of prevailing wages.

The provisions of NRS 338.013 to 338.090, inclusive, apply to any contract for construction work on the Project, if any. The Borrower will direct any contractor who is awarded a contract or enters into an agreement to perform construction work related to the Project, and any subcontractor who performs any portion of any construction work on the Project, to comply with the provisions of NRS 338.013 to 338.090, inclusive, in the same manner as if a public body had undertaken the qualified project or had awarded the contract.

The Borrower will be solely responsible for any liability in the event of non-compliance by the Borrower with this section and will reimburse the Bank for any out-of-pocket loss incurred in connection with any direct non-compliance by the Borrower.

9.06 LOCAL HIRE AND APPRENTICESHIP UTILIZATION.

Execution of this Agreement constitutes a certification by the Borrower that it will use commercially reasonable efforts to carry out the Project in conformance with all applicable regulations of the Bank including the hiring of Nevada residents and the utilization of registered apprentices on any construction projects.

The Borrower will use commercially reasonable efforts to ensure that for each charter school project that is financed through the Nevada Facilities Fund, not less than 50 percent of the total project work hours performed within each construction trade by employees of a contractor or subcontractor are performed by residents of Nevada, with not less than 15 percent of those project work hours performed within each construction trade by employees of the contractor or subcontractor being performed by disadvantaged workers.

If the Borrower is unable to comply with the project work hour requirements set forth in this section, the Borrower may petition the Bank for an exemption from these requirements of this section. Upon receipt of such a petition, the Bank may exempt the Borrower from the requirements of this section if it is found that the inability of the Borrower to comply with the requirements of this section is due to circumstances beyond the control of the Borrower.

The Borrower will be solely responsible for any liability in the event of non-compliance by the Borrower with applicable regulations and will reimburse the Bank for any out-of-pocket loss incurred in connection with any direct non-compliance by the Borrower.

9.07 NO OBLIGATION TO THIRD PARTIES.

Except to the extent set forth herein, neither the Bank nor the Borrower shall be obligated or liable hereunder to any person or entity not a party to this Agreement.

9.08 WHEN RIGHTS AND REMEDIES NOT WAIVED.

In no event shall the making by the Bank of any Disbursement to the Borrower constitute or be construed as a waiver by the Bank of any breach of covenant or any default which may then exist, on the part of the Borrower, and the making of such Disbursement by the Bank while any such breach or default shall exist shall in no way impair or prejudice any right or remedy available to the Bank with respect to such breach or default.

9.09 BONUS OR COMMISSION.

By execution of the Agreement the Borrower represents that it has not paid and, also, agrees not to pay, any bonus or commission for the purpose of obtaining an approval of its application for the Loan established hereunder.

9.10 INDEMNITY.

To the extent allowed by law, the Borrower shall indemnify, defend, and hold harmless the Bank and all of its officers, agents, and employees from any claim, loss, damages, cost, charge, or expense arising out of any act, error, omission, or negligent act by the Borrower, its agents, employees, contractors and/or subcontractors during the performance of the Agreement, except

that neither the Borrower, its agents, employees, contractors and/or subcontractors will be liable under this paragraph for any claim, loss, damages, cost, charge, or expense arising out of any act, error, omission, or negligent act by the Bank, or any of its officers, agents, or employees, during the performance of the Agreement.

If the Bank receives notice of claim for damages that may have been caused by the Borrower in the performance of services required under this Agreement, the Bank will immediately forward the claim to the Borrower. The Bank's failure to promptly notify the Borrower of a claim will not act as a waiver or any right herein.

9.11 PLANS AND SPECIFICATIONS.

In the event that this Agreement involves the purchasing of capital equipment or the constructing and equipping of a facility, the Borrower shall design and construct the equipment and/or facility in accordance with the standards applicable to the Borrower. Failure to follow the plans and specifications shall be sufficient cause for delays in the distribution of disbursements by the Bank.

9.12 PROJECT COMPLETION, BORROWER CERTIFICATION.

Upon completion of the Project, the Borrower will certify in writing that the Project (or expending of the Loan) was completed in accordance with applicable plans and specifications and that the Project is accepted by the Borrower as suitable for the intended purpose.

9.13 ENTIRE AGREEMENT.

The Financing application executed by the Borrower, all exhibits, attachments and schedules attached to the Financing Application, and this Agreement ("the Agreement Documents") sets forth the entire agreement between the parties and incorporate and supersede all prior negotiations, correspondence, conversations, agreements or understandings applicable to the matters contained herein and therein, and the parties hereto agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in the Agreement Documents. Accordingly, it is agreed that no deviation from the terms of the Agreement Documents shall be predicated upon any prior representation or agreements whether oral or written. It is further agreed that no modification, amendment or alteration in the terms and conditions contained in the Agreement Documents shall be effective unless contained in a written document executed by the parties hereto.

It is further agreed that the Bank will have no obligation to honor any request for disbursement made by the Borrower or otherwise make any disbursement under this agreement in the event that the Bank has notified the Borrower that an event of default has occurred under this or any other agreement between the Borrower and the Bank, or if the Bank, in its sole discretion, determines that events have occurred which substantially diminish the likelihood that the Borrower will timely and fully honor its obligations under this agreement or any other agreement between the Bank and the Borrower. Any waiver of this provision by disbursement following an event of default by the Borrower under the terms of this agreement, or any other agreement between the Borrower and the Bank, will not constitute a continuing waiver of this provision and the Bank may refuse to make further disbursements without any liability to the Borrower whatsoever.

In the event of conflict between the terms and conditions of the Agreement Documents: (i) the terms and conditions contained in the body of this Agreement prevail over conflicting terms and conditions contained in any exhibits, schedules and attachments attached to this Agreement; (ii) the terms and conditions contained in the body of the Financing Application prevail over any conflicting terms and conditions contained in any exhibits, schedules and attachments attached to the Financing Application; and (iii) the terms and conditions of the Agreement, including all exhibits, schedules and attachments hereto, prevail over conflicting terms and conditions contained in the Financing Application and any exhibits, schedules and attachments thereto.

9.14 NOTICES.

Summary Project Specifications

On August 26, 2022, Opportunity 180 ("Borrower", an education focused non-profit organization based in Las Vegas, Nevada, submitted a Financing Application to the Nevada State Infrastructure Bank requesting a loan of $15,000,000 from the Bank's Charter School Capital Needs Revolving Account, to establish the Nevada Facilities Fund ("NVFF") in partnership with the Equitable Facilities Fund.

The NVFF will function as a revolving credit facility designed to substantially reduce financing expenses for high-quality public charter schools and create educational opportunities in low-income communities.

The Borrower with utilize the Bank's $15,000,000 to leverage an additional $85,000,000 of private philanthropy and tax-exempt bond financing. The Borrower seeks to establish a $100,000,000 revolving loan fund to support 7,500 additional seats in high-quality public charter schools located in the communities with the greatest level of need.

Approximately 70% of students attending schools supported by NVFF will identify as people of color and approximately 70% qualify for free or reduced-price lunch.

Funds to repay the Bank's $15,000,000 loan will be generated from payments from charter school operators that receive NVFF loans. All administration of future loans, including loan sourcing, underwriting, approval, closing, and servicing processing will be performed by the Borrower and the Equitable Facilities Fund.

NVFF Project Loan Terms

Lender:	Nevada State Infrastructure Bank
Borrower:	Opportunity 180
Loan Amount:	$15,000,000
Loan Purpose:	Loan proceeds will be leveraged to support the launch of the Nevada Facilities Fund, a revolving credit facility designed to substantially reduce financing expenses for high-quality public charter schools and create additional educational opportunities in low-income communities.
Maturity Date:	20 years
Security:	Unsecured general obligation of the borrower
Interest Rate	Fixed rate of 1.5% per annum
Disbursement:	Two $7,500,000 disbursements. First disbursement upon loan closing, and second disbursement on January 15, 2024.

Additional Sources of Funding:	Borrower will secure additional philanthropic funding and low-cost debt financing to support NVFF lending activity. Target initial leverage amount will be $85,000,000, to support a total of $100,000,000 in charter school loans.
Terms of Repayment:	Borrower shall make annual interest-only payments of 0.01% of the outstanding loan balance until the Maturity Date set forth in this Exhibit C. A balloon payment equal to the principal balance of the Loan Amount and accrued but unpaid interest will be due at the Maturity Date set forth in this Exhibit C.
Bank Loan Origination Fee:	$150,000 due at the time of loan closing.

NVFF Administration:	The NVFF will be administered by the Borrower in conjunction with the Equitable Facilities Fund ("EFF"), a 501c3 non-profit organization that has a mission to reduce facilities expenses for high-performing charter schools nationwide. The Borrower and EFF will deliver end-to-end administration, including all charter school loan sourcing, underwriting, approval, closing, and servicing processes. Borrower will be responsible for adhering to all regulations and reporting requirements established by the Bank.
Reporting:	Borrower will submit quarterly reports to Bank as required by Section 2.04. Reports will include total number of loans and financing amounts committed by the NVFF; academic, financial, and demographic characteristics of the charter school obligors; and progress toward NVFF investment and school performance goals aligned upon by the Borrower and Bank.

Nevada State Infrastructure Bank

Financing Application

Nevada State Infrastructure Bank Overview:

The Nevada State Infrastructure Bank was established to provide low-cost financing to Nevada state agencies, local governments, Tribal governments, and non-profit organizations for priority infrastructure projects.

Pursuant to Chapter 408 of the Nevada Revised Statutes, the Bank can provide financing for a variety of infrastructure projects, including: transportation facilities, utility infrastructure, digital infrastructure, recycling and sustainability infrastructure, renewable energy infrastructure, social infrastructure, water and wastewater infrastructure, and other infrastructure related to economic development.

The Bank has been capitalized with an initial $75 million in State general obligation bonds, which will be expended in the following project categories within the Nevada State Infrastructure Bank Fund:

- $40 million for projects through the Federal Infrastructure Matching Account;
- $20 million for projects through the Affordable Housing Revolving Account; and
- $15 million for projects through the Charter School Capital Needs Revolving Account.

In evaluating applications, the Bank will also seek to leverage outside capital and federal funding to help finance projects that improve quality of life, strengthen Nevada's climate resiliency, and help to promote a strong economy for communities across the State.

Application Instructions:

Please complete all sections of the application below and attach any required exhibits to request financing from the Nevada State Infrastructure Bank.

Prior to applying to the Bank for financing, please familiarize yourself with all the statutes and regulations governing the operation of the Bank.

The relevant statutory provisions can be found in Chapter 408 of the Nevada Revised Statutes (NRS 408.55048 – 408.55088).

Additionally, the approved regulation governing the Bank provides clarity on the application process as well as the requirements set forth for projects eligible under the Federal Infrastructure Matching Account, the Affordable Housing Revolving Account, and the Charter School Capital Needs Revolving Account.

Once submitted, applications for financing will be vetted by staff of the Bank and may be presented to the Board of Directors of the Nevada State Infrastructure Bank for consideration.

Completion of an application does not guarantee funding for a project.

Once complete, all applications can be submitted via email or mailed to:

Is land acquisition a component of the project?

☐ Yes

☑ No

If yes, please provide a copy of the purchase agreement as Exhibit 4. Include a description of the land that has been or will be acquired (current owner, address, assessor's parcel number, purchase date or expected purchase date, cost or estimated cost), and identify the funding source(s) for the land below:

N/A.

Does the applicant already own the land needed for the project?

☐ Yes

☑ No

Please provide a comprehensive project timeline as Exhibit 5. Include specific project milestones such a preliminary engineering report, all required permits, design, engineering, land/right-of-way acquisition, preparation of bid documents, awarding of construction contract, construction start date, construction completion date, and the date that the project will become operational.

Private Activity - Will any entity, including a governmental entity other than the Applicant, use or directly benefit from any portion of the Project other than as a member of the general public? (For example, will a private entity or a federal agency operate, or lease space in the proposed project?)

■ Yes

☐ No

If yes, please describe the entity that will use or otherwise benefit from the Project. Provide a copy of the agreement(s) with such private entity, or federal agency. [Please label and attach as Exhibit 6.]

The sole beneficiaries of the Nevada Facilities Fund will be charter schools in the State of Nevada. This fund will provide highly affordable facilities financing to support high-quality public school growth and sustainability. On average, individual loans to school obligors will save schools over $2M over the loan term.

Will financing be used to finance more than 5 percent of any private activity costs?

☐ Yes

☑ No

If yes, please explain:

N/A

Business Relocation – Will the proposed Project require the relocation of a private sector business from one area of the State to another?

☐ Yes

☑ No

If yes, please provide a justification to support the move:

N/A

Please describe any economic and/or community benefits that will result from the completion of this project. Please include the method, or calculation by which these results were identified:

A $15M loan from the SIB will seed $100M of low-cost financing that will support 7,500 high-quality public school seats in communities that need them most. Approximately 70% of students attending schools supported by NVFF will identify as people of color and approximately 70% will qualify for free or reduced-price lunch. We anticipate over 90% of schools will outperform their host districts.

Further, NVFF will provide public charter schools with the most affordable long-term facility financing solution available. The fund will offer rates in the 4% range, with some variation depending on school credit profiles and the macro interest rate environment Traditional charter school lenders offer 5-10% in addition to onerous equity and reserve fund requirements. We anticipate at least $2M of savings per school over each loan term. These savings will be redeployed to maximize the resources schools can use to support learning and student development.

What are the total number of jobs that will be created and the average wage for the project? (Please include the method or calculation by which these results were identified)

The Nevada Facilities Fund is projected to create 948 jobs over the first five years of the fund's operations. The jobs created are broken down into two categories:

1. 688 Construction jobs, both direct and indirect.

NVFF to close two loans a year for a total of ten projects funded in its first five years. We project four out of these ten financings will fund construction projects. The estimated cost of these four projects is approximately $45 million.

The Economic Policy Institute employment multiplier report recommends 5.45x direct jobs and 9.68x indirect jobs per $1 million of project costs per a construction project.

Thus we project the four projects will create 688 new construction jobs in Nevada. The average wage will be consistent with prevailing wage requirements for public development projects.

2. 260 education jobs.

The average charter school in Nevada with a $10 million facility project will grow to serve approximately 750 students. Assuming the average class size is 20 students, then each school has at least 37 classroom teachers and 5 specials teachers for a total of 42 teachers. Additionally, school administration and non-teaching personnel will add another 10 positions for a total estimate for 52 jobs per school. This equates to a projected total of 520 jobs supported across 10 schools.

On average, schools will be at 50% of their total enrollment levels at the time of financing; thus we project NVFF will create 260 new education jobs over five years. The starting salary of a Clark County School District classroom teacher is $51,000.

What are total number of jobs retained and the average wage? (Please include the method or calculation by which these results were identified)

Based on the projections enumerated above, 260 existing education jobs will be retained over the next five years. The starting salary of a Clark County School District classroom teacher is $51,000.

Describe the environmental impact that will result from this project? (Please include the method or calculation by which these results were identified)

All projects financed by the Nevada Facilities Fund will adhere to all applicable local, state, and federal environmental codes and regulations.

Does this project comply with the with the standards and goals set forth in the 2020 Nevada Climate Strategy and the goals for the reduction of greenhouse gas emissions set forth in NRS 445B.380 and 704.7820?

Please provide the justification in determining the useful life of the Project:

Standard useful life projected for public school facilities is 30-40 years. *Please note Applicant Funding Sources reflect amount projected through 2027. Applicant will seek to raise additional capital after 2027 to support ongoing NVFF loan-making. See Exhibit 2a for detail on cash flow scenarios.

Nevada Facilities Fund:

Leveraging the Nevada State Infrastructure Bank to Go Further for Kids

THE BIG PICTURE: Potential Collaborators

Nevada State Infrastructure Bank

Established in 2017 under the Nevada Treasurer's Office, the SIB is spurring an unprecedented commitment to improving our state's infrastructure, creating jobs, and promoting long-term, sustainable growth and prosperity – one key priority is a $15 million focus on public charter schools.

Opportunity 180

A Nevada nonprofit (501c3) dedicated to ensuring every kid has access to a great school that puts them on track to be college and career-ready, O180 operates as investors, facilitators, and connectors, working with the community to reach a shared North Star to ensure 100,000 more kids have access to a high-quality school in their neighborhood.

Equitable Facilities Fund

A national nonprofit (501c3) and social impact fund that seeks to transform capital access for schools and communities, Equitable Facilities Fund supports positive educational outcomes for students across the country by providing exceptionally affordable facility financing.

THE BIG PICTURE: Student Outcomes

Current State:

In Nevada, **over 128,374 kids attend schools where only 2 in ten students** are on grade level in reading and math.

By 2030:

100,000 more kids have access to a high quality seat in the neighborhoods that need them most.

North Star:

Every public school student graduates from high school college and career ready.

THE CHARTER SCHOOL FACILITY ISSUE

Issue:

More than **40,000 students in Nevada attend charter schools** and many more remain on waitlists. Public charter schools provide quality education options for communities that need them most, and Nevada's families are demanding more seats for their children. However, efforts to launch new schools are failing due to a lack of affordable long-term facilities, as **individual charter schools are responsible for financing their own facilities**.

Goal:

Ensure every kid has access to a great school in their neighborhood that puts them on the path to be college and career ready to live the life they dream.

Approach:

Increase the number of kids in high-quality public charter schools serving students most in need across Nevada, aligned to the SPCSA needs assessment and Opportunity 180's school quality map and ensuring more money into classrooms.

THE SOLUTION: Equitable Financing for Quality Schools

Seed Investments can come in the form of government or philanthropic contributions

$15M
State Infrastructure Bank Investment

$5M
Local Philanthropy

Grant contributions are leveraged **7x** with external funding

$80M
National Philanthropy & Bond Investments

$100M
Revolving Loan Fund

- *Produces $20M school savings*
- *7,500 high-quality seats*
- *Funds recycle to support more schools & students over time*

Match will come from pre-committed philanthropy & low-cost debt issued by a national nonprofit

The Model

- All contributions and loans will be made to Opportunity 180, which in turn will make a PRI into the Equitable Facilities Fund (EFF), a 501(c)(3) tax-exempt charity with a mission to support schools that are creating educational opportunity for communities that need it most.
- SIB loan and philanthropy are leveraged with low-cost debt committed by a national non-profit.
- 100% of NVFF loans and funds will be held in trust, and loan repayments will be recycled to support Nevada classrooms in perpetuity.

Fund Administration & Maintenance

- NVFF Administration Team will comply with all SIB regulations.
- EFF will deliver end-to-end administration, including all charter school loan sourcing, underwriting, approval, closing, and servicing processes.
- Quarterly reports submitted to Lender.

BENEFITS & IMPACT: Nevada Facility Fund

Community	Schools	State

• 7,500 high-quality public school seats in communities that need it most
• Schools, on aggregate, serve >70% students of color
• Schools, on aggregate, serve > 70% students who qualify for FRL
	• Access, assistance and low-costs will incentivize the addition of quality public school seats
	• The most affordable long-term facility financing solution available to charter schools
	• The fund offers rates in the 4% range. Traditional lenders offer 5-10% in addition to onerous equity and/or reserve fund requirements.
	• Schools save approximately $100K per year or more than $3M over the life of a loan.
	• No equity required from schools.
		• NVFF and State will align on key fund performance metrics. tate sets criteria
		• State attains up to 7x initial leverage on investment, more over time as funds recycle
		• Reliable, expert partners to vet and deploy investments
		• Complete reporting and transparency
		• Fund will recycle and remain within Nevada to support schools in perpetuity.
		• Assurance that loans given to schools that:
		  ◦ Have strong current and projected financial performance
		  ◦ Have demonstrated success in serving low-income students
		  ◦ Have high-quality leadership, board members, and governance practices
		  ◦ All public charter school seats are independently operated or in partnerhsip with a non-profit CMO

Nevada Facilities Fund Credit Methodology

June 2022

The Nevada Facilities Fund (NVFF) is committed to making sure that the best schools have access to financing options that support long-term, sustainable futures. Our revolving fund offers short-term and long-term loans with low rates, minimal fees, no equity down and no debt service reserve requirements. Our partner schools are committed to delivering exceptional educational opportunities to low-income communities.

To qualify for loan consideration, a school must:

- Be a non-profit charter school or charter management organization
- Demonstrate strong academic results and excellent teaching and curricular practices
- Have at least one annual audit completed
- Commitment to serve under-resourced communities
    - NVFF aggregate portfolio strives to serve >70% students of color
    - NVFF aggregate portfolio strives to serve >65% students who qualify for FRL
- Have strong current and projected financial performance
    - Projected to achieve >60 days cash on hand
    - Projected to achieve >1.1x debt service coverage
- Have high-quality leadership, board members, and governance practices

NVFF will evaluate both mature and growth stage operators with the same selection considerations; however, NVFF will tailor the loan product and analysis required to the school profile. A summary of the risk rating factors that are used during the underwriting process are included in the following two pages.

Confidential - not to be used or distributed without consent of Equitable Facilities Fund

Nevada Facilities Fund Credit Methodology

Risk Rating Factors		Description of Evaluation
Charter Standing		**Weight - 10%**
1	Charter status & renewal history	How strong is the school's charter, in terms of length and number of charter renewals? Have authorizer evaluations been positive or have there been negative findings? Due to heightened risk of default for charter non-renewal or revocation, a rating of 2 or lower, will result in a credit override.
Academic Performance		**Weight - 20%**
2	Academic results	Is the school high quality? If available, how does authorizer rate school performance? Review ELA, Math and All Subject proficiency percentages for the school, district, and state for the prior three years in the aggregate, by highest grade served, by demographic subgroup and by the FRL population. If a school is not outperforming the district and state in absolute proficiency levels for the various populations analyzed for the academic assessment rating is student academic growth robust? Review NWEA MAP or other nationally normed growth scores as alternative academic performance measure. For high schools, how do students perform on standardized ACT and SAT tests? What is the school's four-year graduation rate? What are college acceptance and matriculation rates for its graduates? If verifiable public academic performance data is not available, review results from school's internal assessments.
3	Performance trends	Are academic results improving over time within a student cohort and for the school in the aggregate?
4	Student attendance rates	Does the school have a culture of attendance? ADA drives funding in many jurisdictions.
Demand		**Weight - 20%**
5	Historic enrollment compared to target	Has the school historically met its enrollment targets with a waitlist and/or applications exceeding available slots? For steady-state schools, has school maintained planned enrollment? For growing schools, has the school met its planned growth in enrollment?
6	Waitlist/applications	Does the school have a waitlist for acceptance and/or demonstrate demand from the number of applications for available seats?
7	Student retention rates	Does the school retain its students, measured from a fall-to-fall school start period? If not, are there mitigating circumstances, such family mobility in the population served?
8	Educational alternatives	How does the school compare to educational alternatives within its service area?
9	Community engagement & partnerships	Is the school reflective of community needs? How extensive is community engagement and outreach? Is there support from community organizations, both partners and funders? Specifically, is there support from local philanthropy, WFF (SchoolSmart) or CSGF?
Organizational Capacity		**Weight - 10%**
10	Board experience & independence	Does the school have an independent board that can provide oversight? Does it have the breadth of members (>5) and experience across disciplines to be effective?
11	Management strength	How experienced and deep is the management team? If a management company is used, what is its track record and scope of services? How robust is the strategic planning, are there clear measures of achievement that are consistently monitored?
12	Teacher effectiveness	• Does the school successfully retain its teaching staff? • How robust are the school's teacher recruitment practices? Does the school conduct outreach to diverse sources? How does the school's pay scale compare to the district's? • Does the school provide consistent feedback and training for teachers? • Does the school use its own assessments of student learning to modify curriculum and ensure academic growth? How does school employ such data during the course of the school year?

Nevada Facilities Fund Credit Methodology

Financial Health		**Weight - 20%**
13	Annual revenues	Size of annual revenues is an indicator of a school's flexibility and capacity to weather downturns. *Total operating revenue + net non-operating revenue*
14	Financial trends & sustainability	Financial strength is an indicator of management strength and financial viability. What have been the financial trends over the past 3 years?
15	Excess margin	Excess margin measures the school's ability to generate revenue sufficient to meet annual expenditures, fund routine maintenance and service financial obligations. *[(Total revenues – total expenses) / total revenues)] x 100*
16	Historic lease-adjusted ADS coverage	Measures school's historic ability to service annual debt service from cash flow generated through operating and non-operating activities. *(Net revenue available for debt service + operating lease expense) / (ADS + operating lease expense)*
17	Projected lease-adjusted ADS coverage	Measures school's projected ability to service annual debt service from cash flow generated through operating and non-operating activities. *(Net revenue available for debt service + operating lease expense) / (ADS + operating lease expense)*
18	Lease-adjusted MADS coverage	Measures an institution's ability to service maximum debt payments from cash flow generated through operating and non-operating activities. Calculated for most recent audited historic year, current year and projection period. *(Net revenue available for debt service + operating lease expense) / (MADS + operating lease expense)*
19	Lease-adjusted ADS burden	The lease-adjusted ADS burden reflects the demand that a school's annual debt service has on total revenues. *[(ADS + operating lease expense) / total revenues] x 100*
20	Lease-adjusted MADS burden	The lease adjusted MADS burden reflects the demand that a school's maximum debt service has on total revenues. *[(MADS + operating lease expense) / total revenues] x 100*
21	Unrestricted days cash on hand	Unrestricted days cash on hand reflects a school's financial flexibility and capability to withstand operating challenges while still covering its operating expenditures. *Unrestricted reserves / [(total expenses – depreciation and amortization expense) / 365)]*
22	Unrestricted reserves to debt	Unrestricted reserves to debt measures a charter school's financial flexibility. *(Unrestricted reserves / total long-term debt) x 100*
Regulatory & Funding Environment		**Weight - 10%**
23	State statutory framework	What is the statutory framework within the state? Is there clarity surrounding school performance benchmarks and transparency regarding authorizer processes? Does the school provide financial, training or other support to the schools it authorizes?
24	Funding environment	Growth in per pupil funding and the existence of any dedicated facilities funding are the primary factors in the funding environment, with cash flow considerations a secondary factor. Base per pupil funding is defined as funding received for all students rather than specific funding received for certain populations, e.g. funding for special education.
25	Political environment	What is the political environment, at the state and local levels?
Project Risk		**Weight - 10%**
26	Construction Status	Is there construction risk in the project or is it a pure refinancing?
27	Availability of replacement schools	Can a replacement school be found should EFF's school borrower default and/or cease operations?
28	Additional debt/expansion	Does the school have significant expansion plans that will require additional debt? If so, will future enrollment growth be sufficient to accommodate additional borrowing?

MEMORANDUM

TO: Zach Conine, Nevada State Treasurer
CC: Thomas Toepfer, PFM Financial Advisors, Erik Jimenez, Chief Policy Deputy
FROM: Miles Dickson & Jana Wilcox Lavin, Opportunity 180
Michael McGregor & Shawn McCormack, Equitable Facilities Fund
DATE: August 9, 2022
SUBJECT: Responses to Follow-up Questions to July 21, 2022 Meeting

---

Please see responses to your questions from August 2nd below. Thank you once again for your vision, commitment, and consideration of a transformative use of Nevada State Infrastructure Bank funds.

1. Would you be willing to provide a sample of active loan agreements, selected by the Nevada State Treasurer's Office (STO), for review?

Yes.

2. The adopted regulations for the Bank require all projects, except those for affordable housing, to begin some level of repayment within one year of after the origination of the loan. Would you be willing to consider periodic interest and/or principal payments rather than a ballooned payment at the end of the 20-year term?

Yes, a periodic debt service schedule is viable under certain scenarios. However, all interest and principal payments prior to maturity will reduce the fund's loan-making ability.

We suggest a small annual interest-only payment of .01% of the outstanding loan balance that would allow the initiative to meet the Bank's requirement while optimizing leverage and impact for students and schools. Please see the "Inputs" tab in the model to explore the impact of different Nevada State Infrastructure Bank ("NSIB") loan repayment schedules.

3. Would you please explain what assurances or commitments EFF has received relative to the philanthropic contributions referenced in the Sources & Uses and Cash Flow Pro Forma referenced during our discussion? Additionally, can you please provide an updated spreadsheet that includes the formulas that are used in the Sources & Uses and Cash Flow Pro Forma?

Over the first five years of the NSIB loan term, Opportunity 180 ("O180") and Equitable Facilities Fund ("EFF", and together "NVFF Administrators") estimate they will bring over $90M into the Nevada Facilities Fund ("NVFF") through a combination of contributions from local and national philanthropies totalling approximately $5.5M and net proceeds from low-yield bond issuances totalling approximately $85M. Adding the NSIB's $15M loan, the Fund's total capital sources will exceed $100M. All funds will be deployed in the form of low-cost charter school loans.

The NVFF Administrators have secured pledges from Nevada (local) philanthropies totalling $5.5M, which represents all philanthropic funding needed to achieve the proposed $100M+ fund. See the “$100M Fund” tab in the projections for more detail on this scenario.

Notably, the NVFF Administrators seek to raise at least another $400M of external capital and exceed $500M in cumulative lending by the end of the proposed loan term in 2042. This growth will require an additional $40M in philanthropic or concessionary capital, some portion of which EFF will provide from pre-existing sources. See the “$500M Fund” tab in the projections for more detail on this scenario.

While we are optimistic we will secure additional philanthropic funding by 2028, our proposal to NSIB is focused on the $100M Fund scenario in which we bring in over $90M of external capital to support over $100M of loans in the coming years.

4. Would EFF be willing to share loan application analysis with NSIB staff prior to approving a particular loan with the understanding that a loan not approved by the NSIB Board could not be funded with contributed capital from the NSIB, directly or indirectly?

NVFF will provide credit memos and other in-depth analyses that support loan-making decisions to the NSIB. However, we cannot commit to a third party approval requirement for any lender or investor - be it the NSIB, a family foundation or bond buyers - for every loan made by NVFF. We are fully committed to adhering to the NSIB’s regulations and criteria when making loans.

5. Would EFF be willing to consider a direct loan from the NSIB or, alternatively, to NVFF which we assume will be a Nevada partnership or LLC whereby O180 is a partner/member?

Our preference is for O180 to serve as the borrower given the organization’s strong local reputation and ability to cultivate a pipeline of high-quality prospective school borrowers in Nevada. We are open to discussing an SPE structure if it better meets the NSIB’s objectives.

6. Would O180 please share its most recent Form 990?

Yes -- see attached.

According to the S&P Rating Action Report provided for Austin Achieve Public Schools, EFF has a pledge of all operating revenue as well as a first-lien on school facilities in support of its bonds.

7. In the term sheet, O180 is the debtor to the NSIB, so what recourse would NSIB have in the event of default given that the contribution to EFF comes from O180?

As indicated in the proposed term sheet, the loan to O180 will be unsecured. The NSIB loan would absorb first loss and thereby support the terms, leverage, and low-yield capital from other investors that make this initiative possible.

The annual default rate in the charter school sector is approximately 3%, and EFF has made 48 loans nationally with no defaults. The EFF team follows comprehensive loan monitoring policies and procedures including an annual review process that will apply to all NVFF loans. Our goal is to always proactively work with schools to identify challenges and prevent them from causing defaults. While we expect similar success with the NVFF initiative, in an event of default EFF and O180 would own all remediatory efforts to facilitate loan loss recovery. In a worst case scenario, EFF would sell the facility or find a replacement tenant in order to recoup as much of the loan value as possible.

8. The NVFF will start with $20M in capital, a much lesser amount than $200M in corpus in the ESRF (Equitable School Revolving Fund). To leverage ~$16M annually in bonds from the NVFF as demonstrated in the Pro Forma, will bond issuances have a subordinate lien on the ESRF to ensure a higher credit rating and lower borrowing rate? Will monies be set aside for a debt reserve fund?

NVFF will live on ESRF's balance sheet, meaning the initiative will be capitalized with A rated bond proceeds that ESRF is able to issue because of the credit strength of its pooled, overcollateralized national fund. Senior bondholders have a pledge to loan revenues under ESRF's Master Trust Indenture, which will include monies generated from the repayment of NVFF loans. ESRF has already established a fully-funded debt service reserve fund, and any future contributions to the debt service reserve fund will be made with monies outside of the NVFF initiative.

9. The Official Statement provided notes all states participating in the issuance (AZ, CA, MA City of Albany) are using private activity bonds as conduit issuers with limited obligations payable solely from the amounts pledged. Please explain the structure of the terms between O180 and EFF, including how this differs from the typical structure using conduit issuers with limited obligations.

As a 501c3 borrower, ESRF accesses the tax-exempt bond market through conduit issuers. The bonds used to capitalize the NVFF initiative will be issued through the Arizona Industrial Development Authority (AZIDA).

As currently contemplated, the loan from O180 to EFF will come in the form of a Program Related Investment with a term that mirrors that of the loan from the NSIB to O180.

10. Would the loan from O180 be on parity with EFF's bonds?

No. The loan will be unsecured given the need for nonrecourse "first loss" capital to catalyze the NVFF initiative.

The bond proceeds that will potentially be used as a PRI to EFF were derived from State of Nevada Taxable General Obligation Bond, Series 2022B, which was self-designated as a "Social Bond" and carries certain reporting requirements based on representations made in the Official Statement.

11. To what extent would O180 and EFF be willing to provide the necessary loan, project and demographic data necessary to meet the 2022B Series social bond reporting requirements?

It would be helpful to know the NSIB's specific reporting requirements or expectations before committing to this, but we very likely are willing to do so. ESRF has issued more verified Social Bonds than any other borrower in the education sector and adheres to a set of reporting requirements that likely overlap with the NSIB's metrics.

The Bank requires all projects to conform to certain wage and labor standards including, the payment of state prevailing wage and apprenticeship utilization thresholds for projects. Additionally, projects through the Charter School Capital Needs Revolving Fund must utilize developer partners that have demonstrated a long-term commitment to register apprenticeships.

12. Can O180 and EFF provide us with a commitment that these labor standards will be required for all schools who receive funding through the Nevada Facilities Fund?

Yes. We will require all school borrowers to adhere to applicable labor and wage standards.

13. The Bank also has a stated goal in line with the President's Justice 40 Initiative, to ensure that 40% of all projects are located in disadvantaged communities. Can O180 and EFF provide us with the proposed locations of all potential projects that it expects to fund in the first two years of the Fund?

Yes. See below for a list of addresses for the current pipeline of prospective projects. O180 uses a priority foot print map to identify the location of schools that it works with. Future projects would be placed within the heat map, located here.

NOTES

(1) **SIB Loan** $15M loan projected with a fixed interest rate of 1.5% and 20-year term. All principal and accrued interest will be paid with one balloon payment at maturity in 2042. *Use Input tab to toggle alternative loan structures.*

(2) **Philanthropy/PRI** Philanthropic capital raised by 0180 & EFF. $5.5M already committed; $150K not included in this line will be used to pay the 1% SIB loan origination fee. In this scenario, no additional philanthropy is committed after 2023 and the fund ceases making loans after 2027.

(3) **Recycled Surplus** See Line 32. Surplus cash will recycle into additional charter school loans. 2042 amount reflects 2041 Annual Surplus plus 2042 Annual Surplus since funds will be used to repay SIB Loan P&I that year.

(4) **Bonds** A-rated tax-exempt bond proceeds provided by EFF.

(5) **School Loans** NVFF will fund approximately two projects per year. Loans are projected at $10.3M each in 2023 (including COI). We expect project costs will increase over time.

(6) **SIB Loan Repayment** $19,500,000 total reflects loan principal plus $4.5M accrued interest. *Use input tab to toggle other repayment structures.*

(7) **SIB Loan Leverage Ratio** Calculated by the toal number of loans divided by SIB's $15M investment. In this scenario, NVFF would seize making loans after 2027. EFF would continue to service outstanding loans until their maturity.

(8) **Loan Repayments** Loans are priced to 1) save schools ~$3M over a 30-year loan term and 2) provide revenue to support NVFF sustainability & ensure repayment of the SIB obligation.

(9) **Bond Debt Service** Projected debt service owed to EFF's investors.

(10) **Operating Expenses** OpEx reduced in 2028 to reflect cessation of underwriting and technical assistance activities.

INDEPENDENT AUDITOR'S REPORT

Senior Management and
Board of Directors
Opportunity 180
Las Vegas, Nevada

We have audited the accompanying financial statements of Opportunity 180 (a nonprofit organization), which comprise the statement of financial position as of December 31, 2017; and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Opportunity 180 as of December 31, 2017, and the changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

OPPORTUNITY 180
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

Opportunity 180 (the "Organization") was incorporated August 26, 2014, under the laws of the State of Nevada. The Organization is a nonprofit entity that identifies and recruits leaders to open great schools and provides resources to develop great teachers in Clark County, Nevada. The Organization is supported primarily through donor contributions.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, and, accordingly, reflect all significant receivables, payables, and other liabilities.

Basis of Presentation

Financial statement presentation follows the recommendations of the Financial Accounting Standards Board (FASB) in its Accounting Standards Codification (ASC). Under FASB ASC, the Organization is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Income Tax Status

The Organization is a not-for-profit organization as described in Section 501(c)(3) of the Internal Revenue Code and is generally exempt from income taxes on related income pursuant to the appropriate section of the Internal Revenue Code.

Use of Estimates

Timely preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures, some of which may need revision in future periods. Accordingly, actual results may differ from those estimates.

Cash and Cash Equivalents

For the purpose of the statement of cash flows, the Organization considers all highly-liquid investments with an initial maturity of three months or less to be cash equivalents.

Property and Equipment

Property and equipment are carried at cost or, if donated, at the approximate fair value at the date of donation. Depreciation is computed using the straight-line method over the estimated useful life of the asset. The Organization capitalizes items with a cost basis in excess of $500.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Restricted and Unrestricted Revenue

Contributions that are restricted by the donor are reported as increases in unrestricted net assets if the restrictions expire (that is, when a stipulated time restriction ends or purpose restriction is accomplished) in the reporting period in which the revenue is recognized. All other donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets, depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Unconditional Promises to Give

Unconditional promises to give represent promises from donors to give to the Organization. Contributions are recognized when the donor makes a promise to give to the Organization that is, in substance, unconditional. Conditional promises to give are recognized at fair value when the conditions on which they depend are substantially met. Unconditional promises to give are stated at the amount management expects to collect from outstanding balances. It is the Organization's policy to charge off uncollectible balances when management determines the receivable will not be collected.

Donated Services

Donated services are recognized as contributions in accordance with accounting principles generally accepted in the United States of America if the services (a) create or enhance nonfinancial assets or (b) require specialized skills, are provided by individuals possessing those skills, and would otherwise be purchased by the Organization. During the year ended December 31, 2017, the Organization did not receive any donated services meeting these qualifications and, therefore, none are recognized in these financial statements.

Gifts of Long-Lived Assets

The Organization reports gifts of land, buildings, and equipment as unrestricted support unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as temporarily restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

Expense Allocation

The costs of providing various programs and activities have been summarized on a functional basis in the statement of activities and in the statement of functional expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment of Long-Lived Assets

The Organization reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount which the carrying amount of the assets exceeds the fair value of the assets.

Advertising

The Organization uses advertising to promote its programs and fundraising events. The production costs of advertising are expensed as incurred. Advertising expense was $2,396 for the year ended December 31, 2017.

Deposits

Deposits represent security deposits paid by the Organization under the terms of a lease agreement for office space.

Date of Management's Review

Subsequent events have been evaluated through March 5, 2018, which is the date the financial statements were available to be issued.

NOTE 2. UNCONDITIONAL PROMISES TO GIVE

Unconditional promises to give at December 31, 2017, consisted of one unconditional promise to give from the State of Nevada due in less than one year totaling $50,000, which represented the full balance of pledges to be received at December 31, 2017. No discount or allowance was recognized for these pledges.

NOTE 3. EMPLOYEE BENEFIT PLAN

The Organization participates in a single employer Simple IRA plan (the "Plan"), which is both employee and employer funded. The Organization is required to match up to 3% of qualified employee deferrals. Alternatively, the Organization may choose to make nonelective contributions equal to 2% of employee compensation for each employee for the calendar year. During the year ended December 31, 2017, the Organization contributed a total of $9,752.

NOTE 4. PROPERTY AND EQUIPMENT

Property and equipment consist of the following at December 31, 2017:

Furniture and equipment	$ 39,956
Less: accumulated depreciation	(18,581)
	$ 21,375

Depreciation expense totaled $10,044 for the year ended December 31, 2017.

NOTE 5. WEBSITE DEVELOPMENT

Website development costs are stated at cost. Additions and improvements are capitalized, while the costs of operating and maintaining the website are expensed as incurred. Amortization of the cost of website development is based on the estimated three-year useful life of the website using the straight-line method.

Website development consists of the following at December 31, 2017:

Website development costs	$ 2,083
Less: accumulated amortization	(1,388)
	$ 695

Amortization expense totaled $694 for the year ended December 31, 2017.

NOTE 6. CONCENTRATIONS

In the ordinary course of business, the Organization maintains cash balances at financial institutions in excess of federally insured limits. The cash held by the banking institutions is insured up to the Federal Deposit Insurance Corporation ("FDIC") limit of $250,000. The total uninsured cash balances in these accounts were $3,638,126 as of December 31, 2017.

During the year ended December 31, 2017, the Organization received contribution revenue of $151,000 from a single source. This donation represented 64% of total revenue.

NOTE 7. OPERATING LEASES

The Organization had a non-cancelable operating lease for office space that expired June 14, 2017. The Organization signed a new non-cancelable lease for office space effective June 15, 2017 and expiring June 15, 2018. The future minimum lease payments total $6,250 in 2018.

Rental expense recognized during the year ended December 31, 2017 totaled $23,671.

NOTE 8. CONDITIONAL PROMISE TO GIVE

In April 2016, the Organization received a conditional promise to give for $10,000,000. According to the original agreement, the gift was to be paid as matching funds in amounts equal to the qualifying support received by the Organization from July 1, 2015 through June 30, 2017. During June 2017, the donor extended the date through which qualifying support will be eligible for matching funds to June 30, 2019. As of December 31, 2017, the Organization has recorded revenue of $6,265,501 in relation to this agreement. The remaining portion of the conditional promise will be recognized as qualifying funds are received by the Organization before June 30, 2019.

NOTE 9. RESTRICTED NET ASSETS

Temporarily restricted net assets represent contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Organization pursuant to those stipulations.

Temporarily restricted net assets are restricted for the following purposes at December 31, 2017:

Building Excellent Schools	$ 226,615
Charter school development	2,928,591
Time restriction	50,000
	$ 3,205,206

Temporarily restricted net assets consisted of the following at December 31, 2017:

Cash	$ 3,155,206
Unconditional promises to give	50,000
	$ 3,205,206

INDEPENDENT AUDITOR'S REPORT

Senior Management and
Board of Directors
Opportunity 180
Las Vegas, Nevada

We have audited the accompanying financial statements of Opportunity 180 (a nonprofit organization), which comprise the statement of financial position as of December 31, 2018; and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Opportunity 180 as of December 31, 2018, and the changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

OPPORTUNITY 180
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

Opportunity 180 (the "Organization") was incorporated August 26, 2014, under the laws of the State of Nevada. The Organization is a nonprofit entity that recruits and supports high quality public charter schools to provide children in Southern Nevada with an excellent education and supports local education entrepreneurs wishing to create high quality public charter schools. The Organization is supported primarily through donor contributions.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, and, accordingly, reflect all significant receivables, payables, and other liabilities.

Basis of Presentation

Financial statement presentation follows the recommendations of the Financial Accounting Standards Board (FASB) in its Accounting Standards Codification (ASC) 958-205. Under ASC 958-205, the Organization is required to report information regarding its financial position and activities according to two classes of net assets: net assets with donor restrictions and net assets without donor restrictions.

Income Tax Status

The Organization is a not-for-profit organization as described in Section 501(c)(3) of the Internal Revenue Code and is generally exempt from income taxes on related income pursuant to the appropriate section of the Internal Revenue Code.

Use of Estimates

Timely preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures, some of which may need revision in future periods. Accordingly, actual results may differ from those estimates.

Cash and Cash Equivalents

For the purpose of the statement of cash flows, the Organization considers all highly-liquid investments with an initial maturity of three months or less to be cash equivalents.

Property and Equipment

Property and equipment are carried at cost or, if donated, at the approximate fair value at the date of donation. Depreciation is computed using the straight-line method over the estimated useful life of the asset. The Organization capitalizes items with a cost basis in excess of $500 and with a useful life of greater than one year.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Donor-Imposed Restrictions

Contributions received are recorded as increases in net assets with or without restrictions, depending on the existence and/or nature of any donor restrictions. Support that is restricted by the donor is reported as an increase in net assets without donor restrictions if the restriction expires in the reporting period in which the support is recognized. All other donor-restricted support is reported as an increase in net assets with donor restrictions, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

Unconditional Promises to Give

Unconditional promises to give represent promises from donors to give to the Organization. Contributions are recognized when the donor makes a promise to give to the Organization that is, in substance, unconditional. Conditional promises to give are recognized at fair value when the conditions on which they depend are substantially met. Unconditional promises to give are stated at the amount management expects to collect from outstanding balances. It is the Organization's policy to charge off uncollectible balances when management determines the receivable will not be collected.

Donated Services

Donated services are recognized as contributions in accordance with accounting principles generally accepted in the United States of America if the services (a) create or enhance nonfinancial assets or (b) require specialized skills, are provided by individuals possessing those skills, and would otherwise be purchased by the Organization. During the year ended December 31, 2018, the Organization did not receive any donated services meeting these qualifications and, therefore, none are recognized in these financial statements.

Impairment of Long-Lived Assets

The Organization reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount which the carrying amount of the assets exceeds the fair value of the assets.

Advertising

The Organization uses advertising to promote its programs and fundraising events. The production costs of advertising are expensed as incurred. Advertising expense was $2,643 for the year ended December 31, 2018.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deposits

Deposits represent security deposits paid by the Organization under the terms of a lease agreement for office space.

Functional Allocation of Expenses

The costs of providing program and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among program and supporting services benefited. Such allocations are determined by management on an equitable basis.

The following expenses were directly allocated by function based on the nature of the expense: fellowship training, grants, community outreach and advertising.

The following expenses were allocated on the basis of employee time and effort: salaries and wages, payroll taxes and related, employee benefits, consulting, depreciation and amortization, dues and subscriptions, insurance, meals, occupancy, office, printing and publications, professional expenses, telephone, and travel.

New Accounting Pronouncement

On August 18, 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2016-14, *Not-for-Profit Entities (Topic 958) – Presentation of Financial Statements of Not-for-Profit Entities*. The update addresses the complexity and understandability of net asset classification, deficiencies in information about liquidity and availability of resources, and the lack of consistency in the type of information provided about expenses. The Organization has adjusted the presentation of these statements accordingly.

Date of Management's Review

Subsequent events have been evaluated through April 26, 2019, which is the date the financial statements were available to be issued.

NOTE 2. INFORMATION REGARDING LIQUIDITY AND AVAILABILITY

The Organization is substantially supported by contribution revenues, and considers contributions restricted for programs which are ongoing, major, and central to its operations to be available to meet cash needs for general expenditures. The Organization manages its liquidity and reserves following three guiding principles: operating within a prudent range of financial soundness and stability, maintaining adequate liquid assets to fund near-term operating needs, and maintaining sufficient reserves to provide reasonable assurance that long-term obligations will be discharged.

The following table reflects the Organization's financial assets as of December 31, 2018, reduced by amounts that are not available to meet general expenditures within one year of the statement of financial position date:

Cash and cash equivalents	$ 10,893,643
Unconditional promises to give, net	1,000,000
Financial assets available to meet cash needs for general expenditures within one year	$ 11,893,643

NOTE 3. CONCENTRATIONS

In the ordinary course of business, the Organization maintains cash balances at financial institutions in excess of federally insured limits. The cash held by the banking institutions is insured up to the Federal Deposit Insurance Corporation ("FDIC") limit of $250,000. The total uninsured cash balances in these accounts were $10,785,158 as of December 31, 2018.

During the year ended December 31, 2018, the Organization received contribution revenue of $8,500,000 from a single source. This donation represented 88% of total revenue.

The entire balance of unconditional promises to give was pledged by one donor at December 31, 2018.

NOTE 4. UNCONDITIONAL PROMISES TO GIVE

Unconditional promises to give at December 31, 2018, consisted of one pledge due in less than one year totaling $1,000,000. No discount or allowance was recognized for this pledge.

NOTE 5. PROPERTY AND EQUIPMENT

Property and equipment consist of the following at December 31, 2018:

Furniture and equipment	$ 40,919
Less: accumulated depreciations	(28,625)
Total	$ 12,294

Depreciation expense totaled $10,043 for the year ended December 31, 2018.

NOTE 6. WEBSITE DEVELOPMENT

Website development costs are stated at cost. Additions and improvements are capitalized, while the costs of operating and maintaining the website are expensed as incurred. Amortization of the cost of website development is based on the estimated three-year useful life of the website using the straight-line method.

Website development consists of the following at December 31, 2018:

Website development costs	2,083
Less: accumulated amortization	(2,083)
Total	$ -

Amortization expense totaled $695 for the year ended December 31, 2018.

NOTE 7. OPERATING LEASES

The Organization had a non-cancelable operating lease for office space that expired June 15, 2018. The Organization renewed this non-cancelable lease for office space effective June 15, 2018 and expiring June 15, 2019. The future minimum lease payments total $6,250 in 2019.

Rent expense recognized during the year ended December 31, 2018 totaled $17,138.

NOTE 8. NET ASSETS WITH DONOR RESTRICTIONS

Net assets with donor restrictions represent contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Organization pursuant to those stipulations.

Net assets with donor restrictions are restricted for the following purposes at December 31, 2018:

Building Excellent Schools	$ 224,520
Charter school development	2,073,502
Teach Plus	50,000
Investment in Program Partners	719,938
Clark County Education Initiatives	5,991,000
Time restriction	1,000,000
	$ 10,058,960

Net assets with donor restrictions consisted of the following at December 31, 2018:

Cash and cash equivalents	$ 9,058,960
Unconditional promise to give, net	1,000,000
	$ 10,058,960

Net assets were released from donor restrictions during 2018 by incurring expenses satisfying the restricted purposes as follows:

Building Excellent Schools	$ 2,095
Charter school development	855,089
	$ 857,184

NOTE 9. EMPLOYEE BENEFIT PLAN

The Organization participates in a 401k defined contribution plan (the Plan) which is both employee and employer funded. All employees meeting the Plan's requirements are eligible to participate. The Organization is required to match up to 3% of qualified employee deferrals. During the year ended December 31, 2018, the Organization contributed a total of $10,128.

NOTE 10. CONDITIONAL PROMISE TO GIVE

In April 2016, the Organization received a conditional promise to give for $10,000,000. According to the original agreement, the gift was to be paid as matching funds in amounts equal to the qualifying support received by the Organization from July 1, 2015 through June 30, 2017. During June 2017, the donor extended the date through which qualifying support would be eligible for matching funds to June 30, 2019.

On May 18, 2018, in response to the Organization's requests for payment from the donor based on qualifying support received during the fourth quarter of 2017 and first quarter of 2018, the donor responded that the promised funding was no longer available to the Organization. Although the Organization continues to recognize revenue earned from this conditional promise per the terms of the extended contract, as the continued collectability is in question, the Organization has chosen to fully allow for any amounts due from this donor. All revenue recognized from this donor during the year ended December 31, 2018 was reported at a net realizable value of $0.

As of December 31, 2018, the Organization has recognized qualifying support in the aggregate amount of $8,865,654, and this amount of matching funds has been requested of the donor. As of year-end, $6,215,501 has been collected by the Organization. Any future collections will be recognized as revenues as received by the Organization.

INDEPENDENT AUDITOR'S REPORT

Senior Management and
Board of Directors
Opportunity 180
Las Vegas, Nevada

We have audited the accompanying financial statements of Opportunity 180 (a nonprofit organization), which comprise the statement of financial position as of June 30, 2020, and the related statements of activities, functional expenses, and cash flows for the 18 months then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Opportunity 180 as of June 30, 2020, and the changes in its net assets and its cash flows for the 18 months then ended in conformity with accounting principles generally accepted in the United States of America.

Under ASC 958-205, the Organization is required to report information regarding its financial position and activities according to two classes of net assets: net assets with donor restrictions and net assets without donor restrictions.

Income Tax Status

The Organization is a not-for-profit organization as described in Section 501(c)(3) of the Internal Revenue Code and is generally exempt from income taxes on related income pursuant to the appropriate section of the Internal Revenue Code.

Use of Estimates

Timely preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures, some of which may need revision in future periods. Accordingly, actual results may differ from those estimates.

Cash and Equivalents

For the purpose of the statement of cash flows, the Organization considers all highly-liquid investments with an initial maturity of three months or less and money market funds to be cash equivalents.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property and Equipment

Property and equipment are carried at cost or, if donated, at the approximate fair value at the date of donation. Depreciation is computed using the straight-line method over the estimated useful life of the asset. The Organization capitalizes items with a cost basis in excess of $500 and with a useful life of greater than one year.

The following expenses were allocated on the basis of employee time and effort: salaries and wages, payroll taxes and related, employee benefits, depreciation, dues and subscriptions, insurance, meals, occupancy, office, printing and publications, telephone, and travel.

Grants Payable

The Organization makes irrevocable commitments to grant funds to other organizations with missions similar to that of the Organization. As of June 30, 2020, all such grants are expected to be paid within one year

Date of Management's Review

Subsequent events have been evaluated through January 6, 2021, which is the date the financial statements were available to be issued.

NOTE 2. INFORMATION REGARDING LIQUIDITY AND AVAILABILITY

The Organization is substantially supported by contribution revenues, and considers contributions restricted for programs which are ongoing, major, and central to its operations to be available to meet cash needs for general expenditures. The Organization manages its liquidity and reserves following three guiding principles: operating within a prudent range of financial soundness and stability, maintaining adequate liquid assets to fund near-term operating needs, and maintaining sufficient reserves to provide reasonable assurance that long-term obligations will be discharged.

The following table reflects the Organization's financial assets as of June 30, 2020, reduced by amounts that are not available to meet general expenditures within one year of the statement of financial position date:

Cash and equivalents	$ 5,463,371
Financial assets available to meet cash needs for general expenditures within one year	$ 5,463,371

NOTE 3. CONCENTRATIONS

In the ordinary course of business, the Organization maintains cash deposits at financial institutions which, at most times, exceeds the amounts covered by the Federal Deposit Insurance Corporation (FDIC) limit of $250,000. The Organization has not experienced any losses on these deposits and management does not believe it is exposed to a significant credit risk related to these balances.

NOTE 4. PROPERTY AND EQUIPMENT

Property and equipment consists of the following as of June 30, 2020:

Furniture and equipment	$ 47,793
Less: accumulated depreciation	(38,669)
	$ 9,124

NOTE 5. OPERATING LEASE

The Organization had a non-cancelable operating lease for office space that expired June 15, 2020. The Organization renewed this non-cancelable lease for office space effective June 16, 2020 and expiring June 15, 2021. Total future minimum lease payments of $15,000 under this lease are expected to be paid within one year.

Rent expense related to this lease totaled $22,500 for the 18 months ended June 30, 2020.

NOTE 6. NET ASSETS WITH DONOR RESTRICTIONS

Net assets with donor restrictions represent contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Organization pursuant to those stipulations.

Net assets with donor restrictions are restricted for the following purposes at June 30, 2020:

Building Excellent Schools	$ 149,520
Teach Plus	50,000
Investment in Program Partners	437,359
Clark County Education Initiatives	1,661,674
	$ 2,298,553

Net assets with donor restrictions consisted of the following at June 30, 2020:

Cash and equivalents	$ 2,298,553

Net assets were released from donor restrictions during the 18 months ended June 30, 2020 by incurring expenses satisfying the restricted purposes as follows:

Building Excellent Schools	$ 75,000
Charter school development	2,073,502
Investment in Program Partners	282,580

NOTE 7. EMPLOYEE BENEFIT PLAN

The Organization participates in a 401k defined contribution plan (the Plan) which is both employee and employer funded. All employees meeting the Plan's requirements are eligible to participate. The Organization is required to match up to 3% of qualified employee deferrals. During the 18 months ended June 30, 2020, the Organization contributed a total of $13,401.

NOTE 8. CONDITIONAL PROMISE TO GIVE

In April 2016, the Organization received a conditional promise to give for $10,000,000. According to the original agreement, the gift was to be paid as matching funds in amounts equal to the qualifying support received by the Organization from July 1, 2015 through June 30, 2017. During June 2017, the donor extended the date through which qualifying support would be eligible for matching funds to June 30, 2019.

On May 18, 2018, in response to the Organization's requests for payment from the donor based on qualifying support received during the fourth quarter of 2017 and first quarter of 2018, the donor responded that the promised funding was no longer available to the Organization. Based on this, as of January 1, 2019, the Organization stopped recognizing revenue from this conditional promise to give and does not expect to receive any further payments.

NOTE 9. PAYCHECK PROTECTION PROGRAM LOAN

On May 1, 2020, Opportunity 180 (the "Borrower") qualified for and received a loan pursuant to the Paycheck Protection Program, a program implemented by the U.S. Small Business Administration ("SBA") under the Coronavirus Aid, Relief, and Economic Security Act, from a qualified lender (the "PPP Lender"), for an aggregate principal amount of $89,466 (the "PPP Loan"). The PPP Loan bears interest at a fixed rate of 1.0% per annum, has a term of two years, and is unsecured and guaranteed by the U.S. Small Business Administration. The principal and accrued interest of the PPP Loan is subject to forgiveness under the Paycheck Protection Program upon the Organization's request to the extent that the PPP Loan proceeds are used to pay expenses permitted by the Paycheck Protection Program, including payroll costs, covered rent and mortgage obligations, and covered utility payments incurred by the Organization. The Organization intends to apply for forgiveness of the PPP Loan with respect to these covered expenses. To the extent that all or part of the PPP Loan is not forgiven, the Organization will be required to pay interest on the PPP Loan at a rate of 1.0% per annum, and commencing the earlier of (1) the date that SBA remits the Borrower's loan forgiveness amount to the Lender or (2) 6 months after the end of the Borrower's loan forgiveness covered period of 8-weeks, principal and interest payments will be required through the maturity date in May 2022. The terms of the PPP Loan provide for customary events of default including, among other things, payment defaults, breach of representations and warranties, and insolvency events. The PPP Loan may be accelerated upon the occurrence of an event of default.

The Organization has accounted for the PPP loan as a financial liability in accordance with FASB ASC 470 and accrued interest in accordance with the interest method under FASB ASC 835-30. The loan will be recognized as revenue when loan forgiveness is provided by the SBA.

NOTE 10. WORLDWIDE PANDEMIC

In March of 2020, the World Health Organization declared the spread of Coronavirus Disease (COVID-19) a worldwide pandemic. The COVID-19 pandemic is having significant effects on global markets, supply chains, businesses, and communities. Specific to the Organization, COVID-19 may impact various parts of its future operations and financial results. Management believes the Organization is taking appropriate actions to mitigate the potential negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as these events are still developing.

INDEPENDENT AUDITOR'S REPORT

Senior Management and
Board of Directors
Opportunity 180
Las Vegas, Nevada

We have audited the accompanying financial statements of Opportunity 180 (a nonprofit organization), which comprise the statement of financial position as of June 30, 2021, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Opportunity 180 as of June 30, 2021, and the changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

OPPORTUNITY 180
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

Opportunity 180 (the "Organization") was incorporated August 26, 2014, under the laws of the State of Nevada. The Organization is a nonprofit entity that recruits and supports high quality public charter schools to provide children in Southern Nevada with an excellent education and supports local education entrepreneurs wishing to create high quality public charter schools. The Organization is supported primarily through donor contributions.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, and, accordingly, reflect all significant receivables, payables, and other liabilities.

Basis of Presentation

Financial statement presentation follows the recommendations of the Financial Accounting Standards Board (FASB) in its Accounting Standards Codification (ASC) 958-205. Under ASC 958-205, the Organization is required to report information regarding its financial position and activities according to two classes of net assets: net assets with donor restrictions and net assets without donor restrictions.

Income Tax Status

The Organization is a not-for-profit organization as described in Section 501(c)(3) of the Internal Revenue Code and is generally exempt from income taxes on related income pursuant to the appropriate section of the Internal Revenue Code.

Use of Estimates

Timely preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures, some of which may need revision in future periods. Accordingly, actual results may differ from those estimates.

Cash and Equivalents

For the purpose of the statement of cash flows, the Organization considers all highly-liquid investments with an initial maturity of three months or less and money market funds to be cash equivalents.

Investments

The Organization carries investments in marketable securities with readily determinable fair values at fair market value in the statement of financial position. Unrealized gains and losses are included in the change in net assets in the accompanying statement of activities.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property and Equipment

Property and equipment are carried at cost or, if donated, at the approximate fair value at the date of donation. Depreciation is computed using the straight-line method over the estimated useful life of the asset. The Organization capitalizes items with a cost basis in excess of $500 and with a useful life of greater than one year.

Impairment of Long-Lived Assets

The Organization reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount which the carrying amount of the assets exceeds the fair value of the assets.

Revenue Recognition

Contributions received are recorded as increases in net assets with or without restrictions, depending on the existence and/or nature of any donor restrictions. Support that is restricted by the donor is reported as an increase in net assets without donor restrictions if the restriction expires in the reporting period in which the support is recognized. All other donor-restricted support is reported as an increase in net assets with donor restrictions, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

Unconditional Promises to Give

Unconditional promises to give represent promises from donors to give to the Organization. Contributions are recognized when the donor makes a promise to give to the Organization that is, in substance, unconditional. Conditional promises to give are recognized at fair value when the conditions on which they depend are substantially met. Unconditional promises to give are stated at the amount management expects to collect from outstanding balances. It is the Organization's policy to charge off uncollectible balances when management determines the receivable will not be collected. As of June 30, 2021, the entire balance is due from one donor and expected to be collected within one year.

Grants Receivable

Grants receivable represents grant monies that have not been received but are owed to the Organization as of June 30, 2021. Grants receivable is stated at the amounts management expects to collect. As of June 30, 2021, the entire balance is due from one source and expected to be collected within one year.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deposits

Deposits represent security deposits paid by the Organization under the terms of a lease agreement for office space.

Grants Payable

The Organization makes irrevocable commitments to grant funds to other organizations with missions similar to that of the Organization. As of June 30, 2021, all such grants are expected to be paid within one year.

Funds Held for Others

The Organization acts as a fiscal agent for a proposed charter school in Southern Nevada. The Organization collects contributions on the school's behalf and remits funds to the school or on its behalf at the school's discretion.

Donated Services

Donated services are recognized as contributions in accordance with accounting principles generally accepted in the United States of America if the services (a) create or enhance nonfinancial assets or (b) require specialized skills, are provided by individuals possessing those skills, and would otherwise be purchased by the Organization. During the year ended June 30, 2021, the Organization did not receive any donated services meeting these qualifications.

Advertising

The Organization expenses all advertising costs as they are incurred.

Functional Allocation of Expenses

The costs of providing program and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among program and supporting services benefited. Such allocations are determined by management on an equitable basis.

The following expenses were directly allocated by function based on the nature of the expense: grants, community outreach, advertising, consulting, and professional fees.

The following expenses were allocated on the basis of employee time and effort: salaries and wages, payroll taxes and related, employee benefits, depreciation, dues and subscriptions, insurance, meals, occupancy, office, printing and publications, telephone, and travel.

Date of Management's Review

Subsequent events have been evaluated through February 9, 2022, which is the date the financial statements were available to be issued.

NOTE 2. INFORMATION REGARDING LIQUIDITY AND AVAILABILITY

The Organization is substantially supported by contribution revenues, and considers contributions restricted for programs which are ongoing, major, and central to its operations to be available to meet cash needs for general expenditures. The Organization manages its liquidity and reserves following three guiding principles: operating within a prudent range of financial soundness and stability, maintaining adequate liquid assets to fund near-term operating needs, and maintaining sufficient reserves to provide reasonable assurance that long-term obligations will be discharged.

The following table reflects the Organization's financial assets as of June 30, 2021, reduced by amounts that are not available to meet general expenditures within one year of the statement of financial position date:

Cash and equivalents	$ 6,983,212
Investments	7,817,765
Unconditional promises to give	400,000
Grants receivable	400,734
Financial assets available to meet cash needs for general expenditures within one year	$ 15,601,711

NOTE 3. PROPERTY AND EQUIPMENT

Property and equipment consists of the following as of June 30, 2021:

Furniture and equipment	$ 49,901
Less: accumulated depreciation	(43,553)
	$ 6,348

NOTE 4. INVESTMENTS AND FAIR VALUE OF ASSETS

In accordance with FASB ASC, the following are quantitative disclosures about the fair value measurements. FASB ASC defines fair values as the amount that would be received from the sale of an asset or paid for the transfer of a liability in an orderly transaction between market participants, i.e. an exit price. Fair value measurements are categorized on three levels:

Level 1 – Valuations for assets and liabilities traded in active exchange markets. Valuations are obtained from readily available pricing.

Level 2 – Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third-party pricing services for identical or similar assets or liabilities.

Level 3 – Valuations for assets and liabilities that are derived from other valuation methodologies and not based on market exchange or dealer/broker traded transactions. Valuations incorporate certain unobservable assumptions and projections in determining the fair value assigned.

The Organization's only assets valued at fair value are its investments. The Organization holds its investments as of June 30, 2021 as follows:

	Level 1	Total
Equities	$ 917,736	$ 917,736
Corporate bonds	4,012,733	4,012,733
Exchange traded funds	2,842,910	2,842,910
Real estate investment trusts	44,386	44,386
	$ 7,817,765	$ 7,817,765

NOTE 5. NET ASSETS WITH DONOR RESTRICTIONS

Net assets with donor restrictions represent contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Organization pursuant to those stipulations.

Net assets with donor restrictions are restricted for the following purposes as of June 30, 2021:

Subject to expenditures for specific purpose:	
Building Excellent Schools	$ 58,020
Dell Middle School Accelerator	25,000
	83,020
Subject to the passage of time:	
Unconditional promises to give	400,000
Total net assets with donor restrictions	$ 483,020

Net assets with donor restrictions consisted of the following at June 30, 2021:

Cash and equivalents	$ 83,020
Unconditional promises to give	400,000
	$ 483,020

Net assets were released from donor restrictions for the year ended June 30, 2021 by incurring expenses satisfying the restricted purposes as follows:

Building Excellent Schools	$ 91,500
Teach Plus	50,000
Investment in program partners	437,359
Clark County Education Initiatives	1,661,674
	$ 2,240,533

NOTE 6. OPERATING LEASE

The Organization had a non-cancelable operating lease for office space that expired during June 2021. Subsequent to year end, the Organization executed a new non-cancelable lease for office space expiring January 2025. Total future minimum lease payments are as follows as of June 30,:

2022	$ 16,258
2023	33,493
2024	34,559
2025	17,324
	$ 101,634

Rent expense related to this lease totaled $15,000 for the year ended June 30, 2021.

NOTE 7. CONCENTRATIONS

In the ordinary course of business, the Organization maintains cash deposits at financial institutions which, at most times, exceeds the amounts covered by the Federal Deposit Insurance Corporation (FDIC) limit of $250,000. The Organization has not experienced any losses on these deposits and management does not believe it is exposed to a significant credit risk related to these balances.

As of June 30, 2021, 63% of revenues recognized were from one source.

NOTE 8. EMPLOYEE BENEFIT PLAN

The Organization participates in a 401k defined contribution plan (the Plan) which is both employee and employer funded. All employees meeting the Plan's requirements are eligible to participate. The Organization is required to match up to 3% of qualified employee deferrals. During the year ended June 30, 2021, the Organization contributed a total of $15,803.

NOTE 9. PAYCHECK PROTECTION PROGRAM LOAN

On May 1, 2020, Opportunity 180 (the Borrower) qualified for and received a loan pursuant to the Paycheck Protection Program, a program implemented by the U.S. Small Business Administration (SBA) under the Coronavirus Aid, Relief, and Economic Security Act, from a qualified lender (the PPP Lender), for an aggregate principal amount of $89,466 (the PPP Loan). The PPP Loan bore interest at a fixed rate of 1.0% per annum, had a term of two years, and was unsecured and guaranteed by the SBA. During the year ended June 30, 2021, the PPP loan and all accrued interest was forgiven. As a result, $89,466 has been recognized on the statement of activities as contributions.

NOTE 10. RISKS AND UNCERTAINTIES

In March of 2020, the World Health Organization declared the spread of the Coronavirus Disease (COVID-19) a worldwide pandemic. The COVID-19 pandemic is having significant effects on global markets, supply chains, businesses and communities. Specific to Opportunity 180, COVID-19 may impact various parts of its future operations and financial results. Management believes Opportunity 180 is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as these events are still developing.

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Opportunity 180 (the Organization) (a nonprofit organization), which comprise the statement of financial position as of June 30, 2022, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements present fairly, in all material respects, the financial position of Opportunity 180 as of June 30, 2022, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Opportunity 180 and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Opportunity 180 ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Opportunity 180's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Opportunity 180's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 20, 2023, on our consideration of Opportunity 180's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Opportunity 180's internal control over financial reporting and compliance.

OPPORTUNITY 180
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

Opportunity 180 (the Organization) was incorporated August 26, 2014, under the laws of the State of Nevada. The Organization is a nonprofit entity that recruits and supports high quality public charter schools to provide children in Southern Nevada with an excellent education and supports local education entrepreneurs wishing to create high quality public charter schools. The Organization is supported primarily through donor contributions and governmental grants.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, and, accordingly, reflect all significant receivables, payables, and other liabilities.

Basis of Presentation

Financial statement presentation follows the recommendations of the Financial Accounting Standards Board (FASB) in its Accounting Standards Codification (ASC) 958-205. Under ASC 958-205, the Organization is required to report information regarding its financial position and activities according to two classes of net assets: net assets with donor restrictions and net assets without donor restrictions.

Income Tax Status

The Organization is a not-for-profit organization as described in Section 501(c)(3) of the Internal Revenue Code and is generally exempt from income taxes on related income pursuant to the appropriate section of the Internal Revenue Code.

Use of Estimates

Timely preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures, some of which may need revision in future periods. Accordingly, actual results may differ from those estimates.

Cash and Equivalents

For the purpose of the statement of cash flows, the Organization considers all highly-liquid investments with an initial maturity of three months or less and money market funds to be cash equivalents.

Investments

The Organization carries investments in marketable securities with readily determinable fair values at fair market value in the statement of financial position. Unrealized gains and losses are included in the change in net assets in the accompanying statement of activities.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property and Equipment

Property and equipment are carried at cost or, if donated, at the approximate fair value at the date of donation. Depreciation is computed using the straight-line method over the estimated useful life of the asset. The Organization capitalizes items with a cost basis in excess of $500 and with a useful life of greater than one year.

Impairment of Long-Lived Assets

The Organization reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount which the carrying amount of the assets exceeds the fair value of the assets.

Revenue Recognition

Contributions received are recorded as increases in net assets with or without restrictions, depending on the existence and/or nature of any donor restrictions. Support that is restricted by the donor is reported as an increase in net assets without donor restrictions if the restriction expires in the reporting period in which the support is recognized. All other donor-restricted support is reported as an increase in net assets with donor restrictions, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

Unconditional Promises to Give

Unconditional promises to give represent promises from donors to give to the Organization. Contributions are recognized when the donor makes a promise to give to the Organization that is, in substance, unconditional. Conditional promises to give are recognized at fair value when the conditions on which they depend are substantially met. Unconditional promises to give are stated at the amount management expects to collect from outstanding balances. It is the Organization's policy to charge off uncollectible balances when management determines the receivable will not be collected. As of June 30, 2022, 77% of the balance is due from one donor and the entire balance is expected to be collectible.

Grants Receivable

Grants receivable represents grant monies that have not been received but are owed to the Organization. Grants receivable is stated at the amounts management expects to collect. As of June 30, 2022, the entire balance is due from one source and expected to be collected within one year.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deposits

Deposits represent security deposits paid by the Organization under the terms of a lease agreement for office space.

Grants Payable

The Organization makes irrevocable commitments to grant funds to other organizations with missions similar to that of the Organization. As of June 30, 2022, all such grants are expected to be paid within one year.

Funds Held for Others

The Organization acts as a fiscal agent for a proposed charter school in Southern Nevada. The Organization collects contributions on the school's behalf and remits funds to the school or on its behalf at the school's discretion.

Donated Services

Donated services are recognized as contributions in accordance with accounting principles generally accepted in the United States of America if the services (a) create or enhance nonfinancial assets or (b) require specialized skills, are provided by individuals possessing those skills, and would otherwise be purchased by the Organization. During the year ended June 30, 2022, the Organization did not receive any donated services meeting these qualifications.

Advertising

The Organization expenses all advertising costs as they are incurred.

Functional Allocation of Expenses

The costs of providing program and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among program and supporting services benefited. Such allocations are determined by management on an equitable basis.

The following expenses were directly allocated by function based on the nature of the expense: grants, community and educational outreach, advertising, consulting, and professional fees.

The following expenses were allocated on the basis of employee time and effort: salaries and wages, payroll taxes and related, employee benefits, depreciation, dues and subscriptions, insurance, meals, occupancy, office, printing and publications, telephone, and travel.

Date of Management's Review

Subsequent events have been evaluated through January 20, 2023, which is the date the financial statements were available to be issued.

NOTE 2. INFORMATION REGARDING LIQUIDITY AND AVAILABILITY

The Organization is substantially supported by grant and contribution revenues and considers contributions restricted for programs which are ongoing, major, and central to its operations to be available to meet cash needs for general expenditures. The Organization manages its liquidity and reserves following three guiding principles: operating within a prudent range of financial soundness and stability, maintaining adequate liquid assets to fund near-term operating needs, and maintaining sufficient reserves to provide reasonable assurance that long-term obligations will be discharged.

The following table reflects the Organization's financial assets as of June 30, 2022, reduced by amounts that are not available to meet general expenditures within one year of the statement of financial position date:

Cash and equivalents	$ 7,581,178
Investments	8,590,450
Unconditional promises to give	881,500
Grants receivable	622,569
Financial assets available to meet cash needs for general expenditures within one year	$ 17,675,697

NOTE 3. PROPERTY AND EQUIPMENT

Property and equipment consists of the following as of June 30, 2022:

Furniture and equipment	$ 46,335
Less: accumulated depreciation	(43,489)
	$ 2,846

NOTE 4. INVESTMENTS AND FAIR VALUE OF ASSETS

In accordance with FASB ASC, the following are quantitative disclosures about the fair value measurements. FASB ASC defines fair values as the amount that would be received from the sale of an asset or paid for the transfer of a liability in an orderly transaction between market participants, i.e. an exit price. Fair value measurements are categorized on three levels:

Level 1 – Valuations for assets and liabilities traded in active exchange markets. Valuations are obtained from readily available pricing.

Level 2 – Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third-party pricing services for identical or similar assets or liabilities.

Level 3 – Valuations for assets and liabilities that are derived from other valuation methodologies and not based on market exchange or dealer/broker traded transactions. Valuations incorporate certain unobservable assumptions and projections in determining the fair value assigned.

The Organization's only assets valued at fair value are its investments. The Organization holds its investments as of June 30, 2022 as follows:

	Level 1	Total
Equities	$ 797,792	$ 797,792
Corporate bonds	5,235,456	5,235,456
Exchange traded funds	2,518,902	2,518,902
Real estate investment trusts	38,300	38,300
	$ 8,590,450	$ 8,590,450

NOTE 5. UNCONDITIONAL PROMISES TO GIVE

Unconditional promises to give consist of the following as of June 30, 2022:

Receivable in less than one year	$ 881,500
Receivable in one to five years	2,400,000
Total unconditional promises to give	3,281,500
Less: unamortized discount at 1.15%	94,644
Unconditional promises to give, net	3,186,856
Less: current portion	881,500
	$ 2,305,356

NOTE 6. NET ASSETS WITH DONOR RESTRICTIONS

Net assets with donor restrictions represent contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Organization pursuant to those stipulations.

Net assets with donor restrictions are restricted for the following purposes as of June 30, 2022:

Subject to expenditures for specific purpose:	
Building Excellent Schools	$ 58,020
The Surge Academy Las Vegas	12,500
Dell Middle School Accelerator	69,068
	139,588
Subject to the passage of time:	
Unconditional promises to give	3,186,856
Total net assets with donor restrictions	$ 3,326,444

Net assets with donor restrictions consisted of the following at June 30, 2022:

Cash and equivalents	$ 139,588
Unconditional promises to give	3,186,856
	$ 3,326,444

No net assets were released from donor restrictions for the year ended June 30, 2022 by incurring expenses satisfying the restricted purposes.

NOTE 7. OPERATING LEASE

The Organization has a non-cancelable operating lease for office space expiring during January 2025. Total future minimum lease payments are as follows as of June 30,:

2023	$ 33,493
2024	34,559
2025	17,324
	$ 85,376

Rent expense related to this lease totaled $16,258 for the year ended June 30, 2022.

NOTE 8. CONCENTRATIONS

In the ordinary course of business, the Organization maintains cash deposits at financial institutions which, at most times, exceeds the amounts covered by the Federal Deposit Insurance Corporation (FDIC) limit of $250,000. The Organization has not experienced any losses on these deposits and management does not believe it is exposed to a significant credit risk related to these balances.

NOTE 9. EMPLOYEE BENEFIT PLAN

The Organization participates in a 401k defined contribution plan (the Plan) which is both employee and employer funded. All employees meeting the Plan's requirements are eligible to participate. The Organization is required to match up to 3% of qualified employee deferrals. During the year ended June 30, 2022, the Organization contributed a total of $16,440.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Senior Management and
Board of Directors
Opportunity 180
Las Vegas, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, financial statements of Opportunity 180 (the Organization), which comprise the statement of financial position as of June 30, 2022, and the related statement of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated January 20, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Organization's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Organization's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Senior Management and
Board of Directors
Opportunity 180
Las Vegas, Nevada

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Opportunity 180's (the Organization) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the Organization's major federal programs for the year ended June 30, 2022. The Organization's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Opportunity 180 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Organization and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Organization's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Organization's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Organization's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Organization's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Organization's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Organization's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

OPPORTUNITY 180
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2022

NOTE 1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes federal award activity of Opportunity 180 (the Organization) under programs of the federal government for the year ended June 30, 2022. The information in the schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because this schedule only presents a selected portion of the operations of the Organization, it is not intended to and does not present the financial position, changes in net assets, functional expenses, or cash flows of the Organization.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The schedule of expenditures of federal awards is prepared on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance.

The Organization elected not to use the 10 percent de minimis indirect cost rate as allowed under Uniform Guidance.

Opportunity 180

Said organization is organized exclusively for charitable, religious, educational, and scientific purposes, including, for such purposes, the making of distributions to organizations that qualify as exempt organizations under the section 501 (c) (3) of the Internal Revenue Code, or corresponding section of any future federal tax code. The business activity for said organization is as follows: Opportunity 180 supports the academic achievement of all students through the recruitment and creation of new schools. We will recruit, support and create high quality new schools to serve pK-12th grade students.

No part of the net earnings of this organization shall inure to the benefit of, or be distributable to, its members, trustees, officers, or other private persons, except that the corporation shall be authorized and empowered to pay reasonable compensation for services rendered and to make payments and distributions in furtherance of the purposes set forth herein. No substantial part of the activities of this corporation shall be the carrying on of propaganda, or otherwise attempting to influence legislation, and this corporation shall not participate in, or intervene in (including the publishing or distribution of statements), any political campaign on behalf of or in opposition to any candidate for public office. Notwithstanding any other provision of this document, the corporation shall not carry on any other activities not permitted to be carried on (a) by a corporation exempt from federal income tax under section 501(c) (3) of the Internal Revenue Code, or the corresponding section of any future federal tax code, or (b) by a corporation, contributions to which are deductible under section 170(c) (2) of the Internal Revenue Code, or the corresponding section of any future federal tax code.

Upon the dissolution of this corporation, assets remaining shall be distributed for one or more exempt purposes within the meaning of Section 501(c) (3) of the Internal Revenue Code, or corresponding section of any future federal tax code, or shall be distributed to the federal government, or to a state or local government, for a public purpose. Any such assets not so disposed of shall be disposed by a Court of Competent Jurisdiction of the county in which the principal office of the organization is then located, exclusively for such purposes or to such organization or organizations, as said Court shall determine, which are organized and operated exclusively for such purposes.

SECRETARY OF STATE

STATE OF NEVADA

I further certify that the records of the Nevada Secretary of State, at the date of this certificate, evidence, **OPPORTUNITY 180**, as a non-profit corporation duly organized under the laws of Nevada and existing under and by virtue of the laws of the State of Nevada since August 26, 2014, and is in good standing in this state.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the Great Seal of State, at my office on February 17, 2015.

OPPORTUNITY 180

ARTICLE I

Name & Purpose

Section 1.1 Name

The name of the organization shall be **Opportunity 180.** It shall be a nonprofit organization incorporated under the laws of the State of Nevada.

Section 1.2 Purpose

Opportunity 180 is organized exclusively for charitable and educational purposes within the meaning of section 501(c)(3) of the Internal Revenue Code, as amended (the "Code") and to such end the Corporation is organized and shall be operated as a charity for the following purposes:

(i) to recruit and support high quality public charter schools to provide children in Southern Nevada with an excellent education;

(ii) to support local education entrepreneurs wishing to create high quality public charter schools;

(iii) to use its assets and resources to carry out its charitable and educational purpose, including but not limited to, supporting high quality charter school creation and growth in Nevada;

(iv) to accept and receive, from whatever source, and to administer grants whether unrestricted or for specific purposes, of funds and property, of every kind and description;

(v) to do all things incidental to the foregoing.

ARTICLE 2

Trustees

Section 2.1 Number

The Board of Trustees of the Corporation (the "Board of Trustees") shall consist of no less than 5 individuals.

Section 2.2 Duties

The Board of Trustees, subject to limitations contained in the Nevada Revised Statutes, the Articles of Incorporation of the Corporation, and this Code of Regulations:

a. Perform any and all duties imposed on them collectively or individually by law, by the articles of the incorporations, or by these bylaws;

b. Appoint, remove, employ and discharge, and except as otherwise provided by these bylaws, prescribe the duties and fix compensation, if any, of all officers, agents, and employees of the corporation;

c. Supervise all officers, agents, and employees of the corporation to assure their duties are performed properly;

d. Meet at such times and places as required by these bylaws

e. Register their addresses with the secretary of the corporation, and notices of meetings mailed to them at such addresses shall be valid notices thereof.

Section 2.3 Status as Members

The Trustees of the Corporation shall be the members of the Corporation and shall, for the purposes of any statutes or rule of law relating to the corporations be taken to be the members of the Corporation.

Section 2.4 Election and Term of Office

The members of the initial Board of Trustees shall be the initial Trustees of the Corporation identified in Article V of the Articles of the Incorporation of the Corporations. Subject to the provisions of Sections 2.5 and 2.6 of these By Laws, members of the initial Board of Trustees shall serve as Trustees until December 31, 2015 or until their successors are elected or qualified. Thereafter, each Trustee shall serve a term of one year, two years or three years, or until his or her successor is duly elected or qualified.

Trustees shall be elected at the annual meeting of the Corporation held at the time within the year of the expiration of the terms of the members of the Board of Trustees.
A Trustee may be elected to a consecutive term on the Board of Trustees without limitation on the number of such consecutive terms.

Section 2.5 Resignation

Any Trustee may resign by submitting a written resignation at a meeting of the Board of

Trustees or by mailing such resignation to the Corporation at its principal office, and, thereupon, such resignation shall become effective forthwith without need of any acceptance, unless otherwise specified therein.

Section 2.6 Removal of Trustees

At any annual or special meeting of the Trustees duly called for that purpose, any Trustee may be removed with or without cause by a majority vote of the other Trustees. Written notice that an individual is being considered for removal shall be given to the Board of Trustees at least seven (7) days prior to the date of the meeting at which the name of such individual is to be presented for removal. A successor Trustee may thereupon be appointed to fill the vacancy thus created, but only in accordance with the procedure set forth in Section 2.7 below. Any Trustee whose removal has been proposed shall be given an opportunity to be heard at the meeting at which his or her removal is considered.

Section 2.7 Vacancies

Vacancies on the board of directors shall exist (1) on the death, resignation, or removal of any director, and (2) whenever the number of authorized directors is increased.

Any director may resign effective upon giving written notice to the chairperson of the board, the president, the secretary, or the board of directors, unless the notice specifies a later time for the effectiveness of such resignation. No director may resign if the corporation would then be left without a duly elected director or directors in charge of its affairs, except upon notice to the office of the attorney general or other appropriate agency of this state.

Directors may be removed from office, with or without cause, as permitted by and in accordance with the laws of this state.

Unless otherwise prohibited by the articles of incorporation, these bylaws, or provisions of law, vacancies on the board may be filled by approval of the board of directors. If the number of directors then in office is less than a quorum, a vacancy on the board may be filled by approval of a majority of the directors then in office or by a sole remaining director. A person elected to fill a vacancy on the board shall hold office until the next election of the board of directors or until his or her death, resignation, or removal from office.

Section 2.8 Compensation

Trustees shall not be compensated for services provided to the Corporation in their capacity as trustees. Trustees may be compensated for the reasonable value of any other services authorized by and provided to the Corporation. Trustees may be reimbursed, upon Trustee approval, for actual expenses incurred by them in the performance of their duties when such expenses are appropriately documented by receipts or other evidence of payment.

[1]Section 2.9 Regular Meetings

Except as otherwise provided by law, a meeting of the Board of Trustees for the purpose of the election of officers, and the consideration of any other business that may be properly brought before the Board of Trustees shall be held at minimum, four times a year at such time and place as the Board of Trustees may from time to time designate.

Section 2.10 Special Meetings

Special meetings of the Board of Trustees may be called, and upon the written request of at least two (2) Trustees, shall be called by the President of the Corporation.

Section 2.11 Notice of Annual and Special Meetings

Notice of annual, regular and special meetings shall be given to each Trustee personally or by mail, telephone, facsimile or text at least three (3) days prior to the date designated for such meeting. Such notice shall state the time, place and purpose of the meeting subject thereto.

Section 2.12 Waiver of Notice

Before or at any meeting of the Board of Trustees, any Trustee may, in writing, waive notice of such meeting and such waiver shall be deemed equivalent to the giving of such notice. Attendance by a Trustee at any meeting of the Board of Trustees shall be a waiver of notice by such Trustee of the time and place thereof.

Section 2.13 Action by Written Consent

To the extent permitted by law, any lawful action of the Board of Trustees may be taken without a meeting, if written consent to such action is signed by all the Trustees and filed with the minutes of the Board of Trustees.

Section 2.14 Telephone Meetings

Meetings of the Board of Trustees may be held through any communications equipment if all persons participating can hear each other. Participation in a meeting pursuant to this Section 2.14 shall constitute presence at such meeting.

[1] Section 2.9 was revised at the 08/25/2015 Board meeting. The requirement that the Board of Directors meet monthly was revised to require that the Board meet at least four times per year.

Section 2.15 Quorum

Except as otherwise provided by law, at all meetings of the Board of Trustees a minimum of three (3) members of the Board of Trustees is necessary to constitute a quorum for the transaction of business. At a meeting at which a quorum is present, the acts of a majority of the Trustees present shall constitute the acts of the Board of Trustees. Each Trustee shall have one vote.

Section 2.14 Majority Action as Board Action

Every act or decision done or made by a majority of the directors present at a meeting duly held at which a quorum is present is the act of the board of directors, unless the articles of incorporation, these bylaws, or provisions of law require a greater percentage or different voting rules for approval of a matter by the board.

Section 2.15 Conduct of Meetings

Meetings of the board of directors shall be presided over by the chairperson of the board, or, if no such person has been so designated, or in his or her absence, the president of the corporation, or in his or her absence, by the vice president of the corporation, or in the absence of each of these persons, by a chairperson chosen by a majority of the directors present at the meeting. The secretary of the corporation shall act as secretary of all meetings of the board, provided that, in his or her absence, the presiding officer shall appoint another person to act as secretary of the meeting.

Meetings shall be governed by Roberts Rules of Order, insofar as such rules are not inconsistent with or in conflict with the articles of incorporation, these bylaws, or with provisions of law.

Section 2.16 Nonliability of Directors

The directors shall not be personally liable for the debts, liabilities, or other obligations of the corporation.

Section 2.17 Indemnification by Corporation of Directors and Officers

The directors and officers of the corporation shall be indemnified by the corporation to the fullest extent permissible under the laws of this state.

Section 2.18 Insurance for Corporate Agents

Except as may be otherwise provided under provisions of law, the board of directors may adopt a resolution authorizing the purchase and maintenance of insurance on behalf of any agent of the corporation (including a director, officer, employee, or other agent of the corporation)

against liabilities asserted against or incurred by the agent in such capacity or arising out of the agent's status as such, whether or not the corporation would have the power to indemnify the agent against such liability under the articles of incorporation, these bylaws, or provisions of law.

ARTICLE 3

Officers

Section 3.1 Designation

The officers of the corporation shall be a president, a vice president, a secretary, and a treasurer. The corporation may also have a chairperson of the board, one or more vice presidents, assistant secretaries, assistant treasurers, and other such officers with such titles as may be determined from time to time by the board of directors.

Section 3.2 Election of Officers

Officers shall be elected by the board of directors, at any time, and each officer shall hold office until he or she resigns or is removed or is otherwise disqualified to serve, or until his or her successor shall be elected and qualified, whichever occurs first.

Section 3.3 Removal and Resignation

Any officer may be removed, either with or without cause, by the board of directors, at any time. Any officer may resign at any time by giving written notice to the board of directors or to the president or secretary of the corporation. Any such resignation shall take effect at the date of receipt of such notice or at any later date specified therein, and, unless otherwise specified therein, the acceptance of such resignation shall not be necessary to make it effective. The above provisions of this section shall be superseded by any conflicting terms of a contract which has been approved or ratified by the board of directors relating to the employment of any officer of the corporation.

Section 3.4 Vacancies

Any vacancy caused by the death, resignation, removal, disqualification, or otherwise, of any officer shall be filled by the board of directors. In the event of a vacancy in any office other than that of president, such vacancy may be filled temporarily by appointment by the president until such time as the board shall fill the vacancy. Vacancies occurring in offices of officers appointed at the discretion of the board may or may not be filled as the board shall determine.

Section 3.4 Compensation

The salaries of the officers, if any, shall be fixed from time to time by resolution of the board of directors. In all cases, any salaries received by officers of this corporation shall be reasonable and given in return for services actually rendered to or for the corporation. All officer salaries shall be approved in advance in accordance with this corporation's conflict of interest policy, as set forth in Article 8 of these bylaws.

Section 3.5 President

The president shall be the chief executive officer of the corporation and shall, subject to the control of the board of directors, supervise and control the affairs of the corporation and the activities of the officers. He or she shall perform all duties incident to his or her office and such other duties as may be required by law, by the articles of incorporation, or by these bylaws, or which may be prescribed from time to time by the board of directors. Unless another person is specifically appointed as chairperson of the board of directors, the president shall preside at all meetings of the board of directors and, if this corporation has members, at all meetings of the members. Except as otherwise expressly provided by law, by the articles of incorporation, or by these bylaws, he or she shall, in the name of the corporation, execute such deeds, mortgages, bonds, contracts, checks, or other instruments which may from time to time be authorized by the board of directors.

Section 3.6 Secretary

The secretary shall:

Certify and keep at the principal office of the corporation the original, or a copy, of these bylaws as amended or otherwise altered to date.

Keep at the principal office of the corporation or at such other place as the board may determine, a book of minutes of all meetings of the directors, and, if applicable, meetings of committees of directors and of members, recording therein the time and place of holding, whether regular or special, how called, how notice thereof was given, the names of those present or represented at the meeting, and the proceedings thereof.

Ensure that the minutes of meetings of the corporation, any written consents approving action taken without a meeting, and any supporting documents pertaining to meetings, minutes, and consents shall be contemporaneously recorded in the corporate records of this corporation. "Contemporaneously" in this context means that the minutes, consents, and supporting documents shall be recorded in the records of this corporation by the later of (1) the next meeting of the board, committee, membership, or other body for which the minutes, consents, or supporting documents are being recorded, or (2) sixty (60) days after the date of the meeting or written consent.

See that all notices are duly given in accordance with the provisions of these bylaws or as required by law.

Be custodian of the records and of the seal of the corporation and affix the seal, as authorized by law or the provisions of these bylaws, to duly executed documents of the corporation.
Keep at the principal office of the corporation a membership book containing the name and address of each and any members, and, in the case where any membership has been terminated, he or she shall record such fact in the membership book together with the date on which such membership ceased.

Exhibit at all reasonable times to any director of the corporation, or to his or her agent or attorney, on request therefor, the bylaws, the membership book, and the minutes of the proceedings of the directors of the corporation.

In general, perform all duties incident to the office of secretary and such other duties as may be required by law, by the articles of incorporation, or by these bylaws, or which may be assigned to him or her from time to time by the board of directors.

Section 3.7 Treasurer

The treasurer shall:

Have charge and custody of, and be responsible for, all funds and securities of the corporation, and deposit all such funds in the name of the corporation in such banks, trust companies, or other depositories as shall be selected by the board of directors.

Receive, and give receipt for, monies due and payable to the corporation from any source whatsoever.

Disburse, or cause to be disbursed, the funds of the corporation as may be directed by the board of directors, taking proper vouchers for such disbursements.

Keep and maintain adequate and correct accounts of the corporation's properties and business transactions, including accounts of its assets, liabilities, receipts, disbursements, gains, and losses.

Exhibit at all reasonable times the books of account and financial records to any director of the corporation, or to his or her agent or attorney, on request therefor.

Render to the president and directors, whenever requested, an account of any or all of his or her transactions as treasurer and of the financial condition of the corporation.

Prepare, or cause to be prepared, and certify, or cause to be certified, the financial statements to be included in any required reports.

In general, perform all duties incident to the office of treasurer and such other duties as may be required by law, by the articles of incorporation of the corporation, or by these bylaws, or

which may be assigned to him or her from time to time by the board of directors.

ARTICLE 4

Committees

Section 4.1 Appointment

The President or the Board of Trustees may from time to time appoint committees. Members of committees need not be trustees.

Section 4.2 Meetings and Action

Meetings and action of committees shall be governed by, noticed, held, and taken in accordance with the provisions of these bylaws concerning meetings of the board of directors, with such changes in the context of such bylaw provisions as are necessary to substitute the committee and its members for the board of directors and its members, except that the time for regular and special meetings of committees may be fixed by resolution of the board of directors or by the committee. The board of directors may also adopt rules and regulations pertaining to the conduct of meetings of committees to the extent that such rules and regulations are not inconsistent with the provisions of these bylaws.

Section 4.3 Vacancies

Vacancies in the membership of any committee may be filled at any time by the President or by the Board of Trustees.

ARTICLE 5

Execution of Instruments, Deposits, and Funds

Section 5.1 Execution of Instruments

The board of directors, except as otherwise provided in these bylaws, may by resolution authorize any officer or agent of the corporation to enter into any contract or execute and deliver any instrument in the name of and on behalf of the corporation, and such authority may be general or confined to specific instances. Unless so authorized, no officer, agent, or employee shall have any power or authority to bind the corporation by any contract or engagement or to pledge its credit or to render it liable monetarily for any purpose or in any amount.

Section 5.2 Checks and Notes

Except as otherwise specifically determined by resolution of the board of directors, or as otherwise required by law, checks, drafts, promissory notes, orders for the payment of money, and other evidence of indebtedness of the corporation shall be signed by the treasurer and countersigned by the president of the corporation.

Section 5.3 Deposits

All funds of the corporation shall be deposited from time to time to the credit of the corporation in such banks, trust companies, or other depositories as the board of directors may select.

Section 5.4 Gifts

The board of directors may accept on behalf of the corporation any contribution, gift, bequest, or devise for the nonprofit purposes of this corporation.

ARTICLE 6

Corporate Records and Reports

Section 6.1 Maintenance of Corporate Records

The corporation shall keep at its principal office:

a. Minutes of all meetings of directors, committees of the board, and, if this corporation has members, of all meetings of members, indicating the time and place of holding such meetings, whether regular or special, how called, the notice given, and the names of those present and the proceedings thereof;

b. Adequate and correct books and records of account, including accounts of its properties and business transactions and accounts of its assets, liabilities, receipts, disbursements, gains, and losses;

c. A record of its members, if any, indicating their names and addresses and, if applicable, the class of membership held by each member and the termination date of any membership;

d. A copy of the corporation's articles of incorporation and bylaws as amended to date, which shall be open to inspection by the members, if any, of the corporation at all

reasonable times during office hours.

Section 6.2 Directors' Inspection Rights

Every director shall have the absolute right at any reasonable time to inspect and copy all books, records, and documents of every kind and to inspect the physical properties of the corporation, and shall have such other rights to inspect the books, records, and properties of this corporation as may be required under the articles of incorporation, other provisions of these bylaws, and provisions of law.

Section 6.3 Right to Copy and Make Extracts

Any inspection under the provisions of this article may be made in person or by agent or attorney and the right to inspection shall include the right to copy and make extracts.

Section 6.4 Periodic Report

The board shall cause any annual or periodic report required under law to be prepared and delivered to an office of this state or to the members, if any, of this corporation, to be so prepared and delivered within the time limits set by law.

ARTICLE 7

IRC 501(c)(3) Tax Exemption Provisions

Section 7.1 Limitations on Activities

No substantial part of the activities of this corporation shall be the carrying on of propaganda, or otherwise attempting to influence legislation (except as otherwise provided by Section 501(h) of the Internal Revenue Code), and this corporation shall not participate in, or intervene in (including the publishing or distribution of statements), any political campaign on behalf of, or in opposition to, any candidate for public office.
Notwithstanding any other provisions of these bylaws, this corporation shall not carry on any activities not permitted to be carried on (a) by a corporation exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code, or (b) by a corporation, contributions to which are deductible under Section 170(c)(2) of the Internal Revenue Code.

Section 7.2 Prohibition Against Private Inurement

No part of the net earnings of this corporation shall inure to the benefit of, or be distributable to, its members, directors or trustees, officers, or other private persons, except that the

corporation shall be authorized and empowered to pay reasonable compensation for services rendered and to make payments and distributions in furtherance of the purposes of this corporation.

Section 7.3 Distribution of Assets

Upon the dissolution of this corporation, its assets remaining after payment, or provision for payment, of all debts and liabilities of this corporation, shall be distributed for one or more exempt purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code or shall be distributed to the federal government, or to a state or local government, for a public purpose. Such distribution shall be made in accordance with all applicable provisions of the laws of this state.

Section 7.4 Private Foundation Requirements and Restrictions

In any taxable year in which this corporation is a private foundation as described in Section 509(a) of the Internal Revenue Code, the corporation 1) shall distribute its income for said period at such time and manner as not to subject it to tax under Section 4942 of the Internal Revenue Code; 2) shall not engage in any act of self-dealing as defined in Section 4941(d) of the Internal Revenue Code; 3) shall not retain any excess business holdings as defined in Section 4943(c) of the Internal Revenue Code; 4) shall not make any investments in such manner as to subject the corporation to tax under Section 4944 of the Internal Revenue Code; and 5) shall not make any taxable expenditures as defined in Section 4945(d) of the Internal Revenue Code.

ARTICLE 8

Conflict of Interest and Compensation Approval Policies

Section 8.1 Purpose of Conflict of Interest Policy

The purpose of this conflict of interest policy is to protect this tax-exempt corporation's interest when it is contemplating entering into a transaction or arrangement that might benefit the private interest of an officer or director of the corporation or any "disqualified person" as defined in Section 4958(f)(1) of the Internal Revenue Code and as amplified by Section 53.4958-3 of the IRS Regulations and which might result in a possible "excess benefit transaction" as defined in Section 4958(c)(1)(A) of the Internal Revenue Code and as amplified by Section 53.4958 of the IRS Regulations. This policy is intended to supplement but not replace any applicable state and federal laws governing conflict of interest applicable to nonprofit and charitable organizations.

Section 8.2 Definitions

a. Interested Person. Any director, principal officer, member of a committee with governing board delegated powers, or any other person who is a "disqualified person" as defined in Section 4958(f)(1) of the Internal Revenue Code and as amplified by Section 53.4958-3 of the IRS Regulations, who has a direct or indirect financial interest, as defined below, is an interested person.

b. Financial Interest. A person has a financial interest if the person has, directly or indirectly, through business, investment, or family:

1. An ownership or investment interest in any entity with which the corporation has a transaction or arrangement;

2. A compensation arrangement with the corporation or with any entity or individual with which the corporation has a transaction or arrangement; or

3. A potential ownership or investment interest in, or compensation arrangement with, any entity or individual with which the corporation is negotiating a transaction or arrangement.

Compensation includes direct and indirect remuneration as well as gifts or favors that are not insubstantial.

A financial interest is not necessarily a conflict of interest. Under Section 8.3, paragraph B, a person who has a financial interest may have a conflict of interest only if the appropriate governing board or committee decides that a conflict of interest exists.

Section 8.3 Conflict of Interest Avoidance Procedures

a. Duty to Disclose. In connection with any actual or possible conflict of interest, an interested person must disclose the existence of the financial interest and be given the opportunity to disclose all material facts to the directors and members of committees with governing board delegated powers considering the proposed transaction or arrangement.

b. Determining Whether a Conflict of Interest Exists. After disclosure of the financial interest and all material facts, and after any discussion with the interested person, he/she shall leave the governing board or committee meeting while the determination of a conflict of interest is discussed and voted upon. The remaining board or committee members shall decide if a conflict of interest exists.

c. Procedures for Addressing the Conflict of Interest. An interested person may make a presentation at the governing board or committee meeting, but after the presentation, he/she

shall leave the meeting during the discussion of, and the vote on, the transaction or arrangement involving the possible conflict of interest.

The chairperson of the governing board or committee shall, if appropriate, appoint a disinterested person or committee to investigate alternatives to the proposed transaction or arrangement.

After exercising due diligence, the governing board or committee shall determine whether the corporation can obtain with reasonable efforts a more advantageous transaction or arrangement from a person or entity that would not give rise to a conflict of interest.

If a more advantageous transaction or arrangement is not reasonably possible under circumstances not producing a conflict of interest, the governing board or committee shall determine by a majority vote of the disinterested directors whether the transaction or arrangement is in the corporation's best interest, for its own benefit, and whether it is fair and reasonable. In conformity with the above determination, it shall make its decision as to whether to enter into the transaction or arrangement.

d. Violations of the Conflicts of Interest Policy. If the governing board or committee has reasonable cause to believe a member has failed to disclose actual or possible conflicts of interest, it shall inform the member of the basis for such belief and afford the member an opportunity to explain the alleged failure to disclose.

If, after hearing the member's response and after making further investigation as warranted by the circumstances, the governing board or committee determines the member has failed to disclose an actual or possible conflict of interest, it shall take appropriate disciplinary and corrective action.

Section 8.4 Records of Board and Board Committee Proceedings

The minutes of meetings of the governing board and all committees with board delegated powers shall contain:

a. The names of the persons who disclosed or otherwise were found to have a financial interest in connection with an actual or possible conflict of interest, the nature of the financial interest, any action taken to determine whether a conflict of interest was present, and the governing board's or committee's decision as to whether a conflict of interest in fact existed.

b. The names of the persons who were present for discussions and votes relating to the transaction or arrangement, the content of the discussion, including any alternatives to the proposed transaction or arrangement, and a record of any votes taken in connection with the proceedings.

Section 8.5 Compensation Approval Policies

A voting member of the governing board who receives compensation, directly or indirectly, from the corporation for services is precluded from voting on matters pertaining to that member's compensation.

A voting member of any committee whose jurisdiction includes compensation matters and who receives compensation, directly or indirectly, from the corporation for services is precluded from voting on matters pertaining to that member's compensation.

No voting member of the governing board or any committee whose jurisdiction includes compensation matters and who receives compensation, directly or indirectly, from the corporation, either individually or collectively, is prohibited from providing information to any committee regarding compensation.

When approving compensation for directors, officers and employees, contractors, and any other compensation contract or arrangement, in addition to complying with the conflict of interest requirements and policies contained in the preceding and following sections of this article as well as the preceding paragraphs of this section of this article, the board or a duly constituted compensation committee of the board shall also comply with the following additional requirements and procedures:

a. the terms of compensation shall be approved by the board or compensation committee prior to the first payment of compensation;

b. all members of the board or compensation committee who approve compensation arrangements must not have a conflict of interest with respect to the compensation arrangement as specified in IRS Regulation Section 53.4958-6(c)(iii), which generally requires that each board member or committee member approving a compensation arrangement between this organization and a "disqualified person" (as defined in Section 4958(f)(1) of the Internal Revenue Code and as amplified by Section 53.4958-3 of the IRS Regulations):

1. is not the person who is the subject of the compensation arrangement, or a family member of such person;

2. is not in an employment relationship subject to the direction or control of the person who is the subject of the compensation arrangement;

3. does not receive compensation or other payments subject to approval by the person who is the subject of the compensation arrangement;

4. has no material financial interest affected by the compensation arrangement; and

5. does not approve a transaction providing economic benefits to the person who is the subject of the compensation arrangement, who in turn has approved or will approve a transaction providing benefits to the board or committee member.

c. the board or compensation committee shall obtain and rely upon appropriate data as to comparability prior to approving the terms of compensation. Appropriate data may include, but are not limited to the following:

1. compensation levels paid by similarly situated organizations, both taxable and tax-exempt, for functionally comparable positions. "Similarly situated" organizations are those of a similar size, purpose, and with similar resources;

2. the availability of similar services in the geographic area of this organization;

3. current compensation surveys compiled by independent firms;

4. actual written offers from similar institutions competing for the services of the person who is the subject of the compensation arrangement;

As allowed by IRS Regulation 4958-6, if this organization has average annual gross receipts (including contributions) for its three prior tax years of less than $1 million, the board or compensation committee will have obtained and relied upon appropriate data as to comparability if it obtains and relies upon data on compensation paid by three comparable organizations in the same or similar communities for similar services.

d. the terms of compensation and the basis for approving them shall be recorded in written minutes of the meeting of the board or compensation committee that approved the compensation. Such documentation shall include:

1. the terms of the compensation arrangement and the date it was approved;

2. the members of the board or compensation committee who were present during debate on the transaction, those who voted on it, and the votes cast by each board or committee member;

3. the comparability data obtained and relied upon and how the data was obtained;

4. If the board or compensation committee determines that reasonable compensation for a specific position in this organization or for providing services under any other compensation arrangement with this organization is higher or lower than the range of comparability data obtained, the board or committee

shall record in the minutes of the meeting the basis for its determination;

5. If the board or committee makes adjustments to comparability data due to geographic area or other specific conditions, these adjustments and the reasons for them shall be recorded in the minutes of the board or committee meeting;

6. any actions taken with respect to determining if a board or committee member had a conflict of interest with respect to the compensation arrangement, and if so, actions taken to make sure the member with the conflict of interest did not affect or participate in the approval of the transaction (for example, a notation in the records that after a finding of conflict of interest by a member, the member with the conflict of interest was asked to, and did, leave the meeting prior to a discussion of the compensation arrangement and a taking of the votes to approve the arrangement);

7. The minutes of board or committee meetings at which compensation arrangements are approved must be prepared before the later of the date of the next board or committee meeting or 60 days after the final actions of the board or committee are taken with respect to the approval of the compensation arrangements. The minutes must be reviewed and approved by the board and committee as reasonable, accurate, and complete within a reasonable period thereafter, normally prior to or at the next board or committee meeting following final action on the arrangement by the board or committee.

Section 8.6 Annual Statements

Each director, principal officer, and member of a committee with governing board delegated powers shall annually sign a statement which affirms such person:

a. has received a copy of the conflicts of interest policy;

b. has read and understands the policy;

c. has agreed to comply with the policy; and

d. understands the corporation is charitable and in order to maintain its federal tax exemption it must engage primarily in activities which accomplish one or more of its tax-exempt purposes.

Section 8.7 Periodic Reviews

To ensure the corporation operates in a manner consistent with charitable purposes and does not engage in activities that could jeopardize its tax-exempt status, periodic reviews shall be

conducted. The periodic reviews shall, at a minimum, include the following subjects:

a. Whether compensation arrangements and benefits are reasonable, based on competent survey information, and the result of arm's-length bargaining.

b. Whether partnerships, joint ventures, and arrangements with management organizations conform to the corporation's written policies, are properly recorded, reflect reasonable investment or payments for goods and services, further charitable purposes, and do not result in inurement, impermissible private benefit, or in an excess benefit transaction.

Section 8.8 Use of Outside Experts

When conducting the periodic reviews as provided for in Section 8.7, the corporation may, but need not, use outside advisors. If outside experts are used, their use shall not relieve the governing board of its responsibility for ensuring periodic reviews are conducted.

ARTICLE 9

Amendment of Bylaws

Section 9.1 Amendment

Subject to the power of the members, if any, of this corporation to adopt, amend, or repeal the bylaws of this corporation and except as may otherwise be specified under provisions of law, these bylaws, or any of them, may be altered, amended, or repealed and new bylaws adopted by approval of the board of directors.

ARTICLE 10

Construction and Terms

If there is any conflict between the provisions of these bylaws and the articles of incorporation of this corporation, the provisions of the articles of incorporation shall govern.

Should any of the provisions or portions of these bylaws be held unenforceable or invalid for any reason, the remaining provisions and portions of these bylaws shall be unaffected by such holding.

All references in these bylaws to the articles of incorporation shall be to the articles of incorporation, articles of organization, certificate of incorporation, organizational charter, corporate charter, or other founding document of this corporation filed with an office of this state and used to establish the legal existence of this corporation.

All references in these bylaws to a section or sections of the Internal Revenue Code shall be to such sections of the Internal Revenue Code of 1986 as amended from time to time, or to corresponding provisions of any future federal tax code.

Dear Applicant:

We are pleased to inform you that upon review of your application for tax exempt status we have determined that you are exempt from Federal income tax under section 501(c)(3) of the Internal Revenue Code. Contributions to you are deductible under section 170 of the Code. You are also qualified to receive tax deductible bequests, devises, transfers or gifts under section 2055, 2106 or 2522 of the Code. Because this letter could help resolve any questions regarding your exempt status, you should keep it in your permanent records.

Organizations exempt under section 501(c)(3) of the Code are further classified as either public charities or private foundations. We determined that you are a public charity under the Code section(s) listed in the heading of this letter.

For important information about your responsibilities as a tax-exempt organization, go to www.irs.gov/charities. Enter "4221-PC" in the search bar to view Publication 4221-PC, Compliance Guide for 501(c)(3) Public Charities, which describes your recordkeeping, reporting, and disclosure requirements.
